Background

Incubator projects' dilemma

- Numerous projects are left to fend for themselves
- Lack of help from knowledgeable member of communities
- Lack of centralized resources, especially most used templates, modules, etc.

Background

Indonesian Incubator projects of 2022-2023

Seven communities had been working hard since early this year for their projects to be launched before Wikimania 2023

Background

Indonesian Incubator projects of 2022-2023

- Other smaller Wiki projects have a hard time prospering and very little chance of making it out of Incubator
- Each new communities had to be helped with large amount of supports

Wikipedia @Incubator

Current resource:

- * [Small wiki toolkits/Starter kit](#)
- * [Manual for small and new Wikipedias](#)

*

[List of articles every Wikipedia should have](#)

What a new project needs:

- * List of most used templates, modules
https://meta.wikimedia.org/wiki/Small_wiki_toolkits/Starter_kit/Templates_and_Modules
- * Simple structured categories
- * Simple set of guidelines to be implemented
- * Encouragements and helps
- * Others?

Wiktionary, Wikibooks, Wikiquote, Wikivoyage

Same lack of resource

**WIKIMANIA

Templates, Modules, Gadgets, AbuseFilter, Bots and Tools

Let's compile them together. Other wikis might have them compiled / scattered around.

New Wikisource @Multilingual Wikisource

- Different than the rest of the Wiki sister projects
- Need documentations for how to proofreading
- Need forms for index
- Need a lot of templates for styling

- 11 new Wikisources since 2013
- Compare to
 - 50 new Wikipedias per year since 2013
 - 23 new Wiktionaries since 2013
 - 2 new Wikibooks since 2013
 - 8 new Wikiquotes since 2013
 - 10 new Wikivoyages since 2013

The problem of exporting new project

When a new project is still in Incubator / Multilingual WS, editors can use various templates/modules available in those sites.

When being exported, all templates used will be exported as well.

Afterwards, all new templates/modules must be copied painstakingly from other languages.

Let's add more resources!
