

HALTS OIL PRODUCTION AT TEAPOT DOME

POLITICIANS FACE QUIZ IN LEASE INQUIRY

Aides of Candidates for Presidency Summoned Before Committee

By KENNETH CLARK
For International News Service
WASHINGTON, March 13.—Abandoning temporarily the investigation of loans and alleged "slush funds," the Senate oil committee today decided to delve into the political aspects of the oil scandal, and issued a fresh batch of subpoenas for men identified with presidential candidacies, past and present.

Oil Investigation May Be Closed In Two Weeks

WASHINGTON, March 13.—The Senate's oil investigation entered the home stretch today. After months of startling revelations in connection with the leasing of naval oil reserves by ex-Secretary of the Interior Albert B. Fall to private interests, members of the public lands committee were agreed today that they would be able to conclude the inquiry within ten days or two weeks.

Only two or three important leads remained to be investigated to complete the network of evidence, then the committee will turn the inquiry over to the special counsel, Owen J. Roberts and Atlee Pomerene to use in the courts in seeking to recover the reserves for the government.

To Examine Books
The committee today planned to delve into an examination of stock brokers' books to determine what government officials dealt in oil stocks, particularly in Sinclair securities.

Primary reports from the expert accountants who have been examining books of leading brokerage houses in Washington, Cleveland and New York, indicated that only Attorney-General Harry M. Daugherty and Senator Elkins, Republican of West Virginia, had listed as dealing in Sinclair stocks.

Investigators also called Theodore Roosevelt, acting secretary of the navy, and Major-General (Continued on Page 7)

MASKED BANDITS LOOT TAFT BANK

\$2500 Taken by Armed Men In Early Morning Raid; Posses In Pursuit

BULLETIN
LOS ANGELES, March 13.—One of the bandits who this morning held up and robbed the State bank at Taft, of \$5,000, has been captured, according to meager information received here this afternoon by the sheriff's office.

LOS ANGELES, March 13.—The State bank of Taft was held up and robbed this morning by two armed bandits who escaped with \$5000 in cash, according to word received here. The bandits first forced several bank employees into a vault, the reports received here said.

The two bandits, masked, entered the bank at 8:45 a. m., as it was being opened for business. They fired one shot to intimidate the five employees, ordering them in the vault, which had just been opened.

Masks Slip Off
Only the counter coin had been removed from the safe. The masks slipped off the bandits' faces before they left the bank, but they were not recognized by any of the bank employees.

The California Bankers' association was notified and immediately offered rewards of \$100 each for the apprehension of the bandits. Local peace officers were quickly on the trail of the bandits who fled in an automobile, and Burns operatives have been sent from Los Angeles to assist in the search.

People Will Flock Here As They Learn Of Many Advantages In Glendale

More and more people are learning that Glendale is a good place in which to live. The total population in 1910 was 2,742. The population in 1920 was 13,350. Today the population, based on estimates from several sources is 50,000 or more. The growth of Glendale, as indicated by these figures, means that the city has natural advantages, that it has a high class citizenship, that our method of government is pleasing, that the outlook for the future development is bright and that satisfaction with residence in Glendale is general.

We who live in Glendale know of its advantages. We have sounded them to our friends and they have come here. They, in turn, have told others—and so Glendale has grown. This territory is deserving of the prosperity that has come to it in the past few years. And by "this territory" we mean La Crescenta, La Canada, Montrose, Verdugo Woodlands, Sparr Heights and on to the Los Angeles river at the south and west, Eagle Rock to the east, and Burbank to north and west, with Glendale as its center.

In that rich territory subdivisions have been opened, entirely sold out, modest homes and rich residences erected and a happy people glad to tell the world they are a part of Glendale, the fastest growing city in America.

And, too, modern business blocks and schools have been built, miles of paved streets added, new churches erected, clubs organized, new transportation facilities provided, more banking institutions opened—in brief, a wonder city has grown here in the past few years.

Back of Glendale is the great San Fernando valley, a valley whose products total more than \$24,000,000 yearly and where a movement is under way to centralize the greatest industrial area in the world.

So, we of Glendale know what we have here; we know that the future has in store for us, we know that this territory is ideal for homes—homes on hill-sites for the wealthy who seek to live in peace and quiet, more modest homes for those who may engage in business here or in Los Angeles, homes for those who seek good school facilities for their children and away from the confines of a great, roaring city. Yes, we know that Glendale offers these and other advantages. And, as the people of the east and middle west learn of them, they, too, will "pull up stakes" and come here and identify themselves with the future growth and prosperity of this great territory.

The "pioneer" work has been done; the paths have been turned into paved highways, the fields into home-sites, the hills into estates, little stores have become great ones, small banks have become institutions, small churches have become powerful, clubs have become a factor in our life—we have progressed, we have cast off the dress of a "baby" community. Glendale is a Greater Glendale!

Daugherty Shared In Oil Pools, Witness Testifies Before Senate Committee

WASHINGTON, March 13.—Sensational charges that Attorney-General Harry Daugherty participated in "some western oil pools" with Colonel Thomas Darden and the late Jesse W. Smith, and that Daugherty had "for years been trying to get some oil leases through in Washington" were made this afternoon by Mrs. Roxie Stinson, divorced wife of Smith, on the witness stand in the Daugherty investigation.

She quoted her former husband as telling her of many "deals" in which Smith and the attorney-general engaged and said Jesse marvelled sometimes where Daugherty got so much money. Mrs. Stinson also declared that Smith acted as the go-between for the attorney-general and moving picture people for the exhibition and transportation of the Dempsey-Carpentier fight pictures, in violation of the federal law on that subject. She said Smith told her "they" were to get \$180,000, but whether they ever got it or not she said she did not know.

Issues Statement
The attorney-general issued a formal statement today, referring to the senate investigation as an "alleged" investigation of his official acts and the department of justice. It follows:

"I am adhering to my policy of saying nothing for publication regarding the alleged investigation of the official acts and the department of justice. I have said (Continued on Page 7)

Delve Into Dark Past At Daugherty's Inquiry

WASHINGTON, March 13.—Skeletons were rattling in the closets of official Washington today as the Brookhart-Wheeler committee dug deeper into the morass of sensational inference and insinuation concerning the relationship that existed between Attorney-General Harry M. Daugherty and Jesse W. Smith, "his man Friday," whose tragic suicide a year ago has never been fully explained.

Issues Statement
The attorney-general issued a formal statement today, referring to the senate investigation as an "alleged" investigation of his official acts and the department of justice. It follows:

"I am adhering to my policy of saying nothing for publication regarding the alleged investigation of the official acts and the department of justice. I have said (Continued on Page 7)

Issues Statement
The attorney-general issued a formal statement today, referring to the senate investigation as an "alleged" investigation of his official acts and the department of justice. It follows:

COMMISSION NAMED BY COUNCIL

Select Members of Planning Body In Accordance With Charter

Following the adoption this morning of the ordinance creating a city planning commission as contemplated by the provisions of the city charter, the following men were named to serve on the commission by the City Council, on motion of Councilman Asa Hall:

T. W. Watson, ex-city manager, chairman.
S. E. Kinch.
P. J. Hayselden.
Harry Hague.
J. H. Randall.

The commission is empowered to function at once, and several matters were referred to them for report, before any action will be taken by the council. Acting on the suggestion of Mayor Spenser Robinson, all petitions addressed to the council regarding the improvement, widening or opening of streets, change in the zoning of any property and other matters pertaining to the growth of the city will be referred by A. J. Van Wie, city clerk, to the planning commission for recommendation.

All members serve without pay and will be members of the commission until they are relieved or resign.

Will Await Report
On West Broadway
The city council will await a report from the newly appointed city planning commission before (Continued on Page 7)

LABOR MINISTRY BEATEN ON VOTE

Macdonald Cabinet to Retain Power In Spite of Adverse Decision

LONDON, March 13.—The Labor government was defeated in the House of Commons this afternoon upon a motion to suspend the rule calling for adjournment at 11 p. m.

This was the first defeat the Macdonald government has sustained in Commons.

The vote was not on a question of policy, and it is not expected the defeat will cause the Macdonald government to resign.

Tories Applaud
Tory members set up a deafening cheer when the result of the vote was announced, 234 to 207 against the Laborites.

The government wanted to suspend the rule to permit late night sessions because of the pressure of business.

1923 TAX SLASH HOPE ABANDONED

G. O. P. Members Favoring Plan Waste Time Seeking Aid for Project

WASHINGTON, Mar. 13.—Any hope that congress might pass before Saturday the special resolution permitting the deduction of 25 per cent in taxes on 1923 incomes was finally dispelled today when Republican members favoring such a resolution spent a futile morning trying to line up support for it.

They abandoned their efforts this afternoon and sent word to the White House there was no hope.

Railroad Men to Get
Increase in Salary

PHILADELPHIA, March 13.—Approximately 22,000 employees of the Pennsylvania railroad will benefit through a 5 per cent wage increase announced today. The increase affects engineers, firemen, hostlers and hostlers' helpers and is retroactive to January 16, 1924.

Agreement on the new wage scale was reached yesterday at a meeting of representatives of the company and employees.

"HOPE SPRINGS ETERNAL"

PLAN HOTHOUSES, SUBDIVIDE LAND

Davis - Glendale Tract on San Fernando Offered As Store Sites

The entire San Fernando boulevard frontage of the Davis-Glendale company is to be sold, through the office of Arthur Campbell, realtor, 110-A East Broadway, announces W. B. Davis, president of the company. The Davis-Glendale concern is one of Glendale's leading industries and has advertised the city afar with its "Glendale Brand" hothouse cucumbers, known all over the United States and Canada.

The large hothouses of the Davis-Glendale company at North San Fernando boulevard and Fourth street, in the Grand View district, have for years been a familiar sight to motorists. Mr. Davis states that the company will retain fifteen acres, with frontage of the Pacific-Electric Fourth street line, an acreage sufficient to care for their present business and future expansion. So great indeed has been the growth of the business that additional new hothouses will be erected this summer, at an approximate cost of \$50,000, according to Mr. Davis, who declares that he has come from Illinois to reside permanently in Glendale and take entire charge of the business.

Fine Store Sites
Mr. Davis had intended to build stores this summer on the San Fernando boulevard frontage but states that stress of increasing business and supervision of new greenhouse construction will require his full attention. It is for this reason that he reluctantly decided to subdivide this valuable business frontage, which has long been considered one of the finest in the city and offers a real opportunity for erection of much-needed stores to supply the demands of the rapidly increasing Grand View population.

The property will be placed upon the market at once and application for lots may now be made to Arthur Campbell of the above address, who is now having a plat drawn and can furnish full information.

KENYON REFUSES NAVY PORTFOLIO

Federal Judge Declines to Accept Appointment In Denby's Place

WASHINGTON, March 13.—Judge William S. Kenyon, Iowa, to whom President Coolidge offered the portfolio of secretary of the navy, has informed Mr. Coolidge he cannot serve, according to reliable reports here today.

Judge Kenyon had a long conference with the president at the White House this morning, but declined to state what decision had been reached. His friends, however, asserted he had turned down the offer.

Urged to Reconsider
President Coolidge, it was said this afternoon, declined to accept Kenyon's decision as final, and urged him to reconsider the matter. He asked him to think it over during the afternoon and give a final reply tonight. Secretary Stempel said the White House would have an announcement to make tonight.

Reichstag Dissolved
By President Ebert
BERLIN, March 13.—The German Reichstag was dissolved today by President Ebert. Such action has been in contemplation for a fortnight.

ONE AIR CRUISER MAY BE DELAYED

Balance of Round-the-World Flyers Will Start, Is Official Edict

LOS ANGELES, March 13.—Despite the prediction one of the planes may not be ready, the round-the-world flight of four army airplanes will take off officially from Clover field, Santa Monica, early next Monday morning, it was announced today by Major F. L. Martin, commander of the intrepid flyers.

"One plane may have to remain behind for the time being," Major Martin said, "but the other three will take off as planned, with the other plane joining us as soon as possible." Though Major Martin did not say so, it is predicted if one plane is delayed it would overtake the others before or by the time they reach Seattle, Wash., where they will discard their land gear for pontoons.

The third of the four planes, built at Santa Monica, was turned over to Lieutenant Leigh Wade, its pilot, today, who will fly it to Rockwell field, San Diego, to swing its compass and adjust other details in the craft.

Rev. Henry Goodsell, for eighteen years a resident of Glendale, and active in local church affairs, died this morning, Thursday, March 13, 1924, at 125 West Palmer avenue, where he made his home with his daughter, Miss Julia Goodsell.

While Rev. Goodsell has been in failing health for some time, his death will come as a shock to the many friends of the family.

Born February 14, 1839, in Sussex, England, Rev. Goodsell early entered the ministry and after coming to the United States he was prominent in the Methodist conference in west Wisconsin. He served as pastor, district superintendent and delegate to the general conference.

Here Eighteen Years
Before he came to Glendale he was pastor of the Edendale Methodist church. During his eighteen years' residence here Rev. Goodsell has been an active member of the Central Avenue Methodist church.

Besides his daughter, he leaves three sons: C. Glenn Goodsell of Racine, Wis.; Rev. H. G. Goodsell of Ft. Collins, Colo.; Joy E. Goodsell of South Pasadena; a brother, Rev. S. G. Goodsell of Los Angeles; and other relatives in England. His wife's death occurred recently.

Funeral services are to be held at 2 o'clock Saturday afternoon at the Central Avenue Methodist church, with Rev. Leo C. Kline officiating. From 1 till 2 o'clock Rev. Goodsell's body will lie in state at the church. Following the services, interment will be made in the family lot at Forest Lawn Memorial park.

Railway Would Raise
Fund for Equipment
WASHINGTON, March 13.—The Western Pacific railroad applied to the interstate commerce commission today for authority to issue \$3,105,000 worth of trust certificates to be issued in the purchase of a large amount of rolling stock.

LEADER IS BEATEN
MILAN, March 13.—Signor Forni, leader of the "gissenting group" of Fascists, was attacked and badly beaten today. Revolver shots were fired, causing panic. Forni will be in the hospital for a month.

INJUNCTION ISSUED BY FEDERAL JUDGE

Name Receivers for Sinclair Companies Till Final Decree Is Made

CHEYENNE, Wyo., March 13.—Federal Judge T. Blake Kennedy today granted the United States government a temporary injunction against the Mammoth Oil company and two other Sinclair oil companies, restraining them from further extraction of oil from the famous Teapot Dome leases which have been under fire on charges of fraud and corruption in acquisition by Harry F. Sinclair from former Secretary of the Interior A. B. Fall.

Judge Kennedy also agreed to the appointment of Rear Admiral Joseph Strauss of the United States navy, and A. E. Watts, vice president of the Sinclair Consolidated Oil company, as receivers of the Teapot Dome property, pending a final decree in the petition filed by the United States government demanding annulment of the alleged fraudulent lease.

Ask 30-Day Delay
Led by Judge John W. Lacey, Wyoming counsel for Sinclair, the oil magnate's legal battery asked for a thirty-day delay in which to answer the government's charges of covinous conspiracy. When an effort to have the court name a specific date upon which to hear the Sinclair side failed, Judge Kennedy adjourned the proceedings until 10 a. m. tomorrow.

Today's proceedings were entirely lacking in verbal fireworks. Harry F. Sinclair himself did not even appear in court. Tomorrow's session is expected to be brief and consist only of the formal entering of the court's order and possibly agreement upon a specific date to hear Sinclair's answers to the corruption charges.

Doheny Is Next
Atlee Pomerene and Owen J. Roberts, special government counsel, plan to leave here tonight for Los Angeles, where they will file charges against E. L. Doheny and seek to recover naval oil lands in California leased to Doheny by Fall under asserted fraudulent circumstances. Federal District Attorney A. D. Waldron, of Cheyenne, is expected to represent the government here tomorrow.

Both sides agreed to a bond of \$50,000 for the receivers and in this the court concurred.

E. H. Chandler of Tulsa, Okla., Sinclair counsel, instructed receivers frequently how to handle funds accumulated from operation of the Teapot Dome, suggesting that surplus funds be invested in Liberty bonds.

WILL ESTABLISH
SEWER LOCATION

Final Easements for Rights Of Way to Be Granted Within 30 Days

Final location of the main out-fall sewer and laterals in Glendale's \$1,600,000 sewer system will be decided upon within thirty days, according to a letter received this morning by V. B. Stone, city manager, from Chester A. Smith, engineer in charge of the work for Burns & McDonnell of Los Angeles.

Final easements cannot be secured until the exact location is determined upon, but contracts covering the tentative right of way have been secured from all property holders, according to Mr. Stone.

When these final easements are obtained, and the first sale of bonds is made, it will be but a matter of letting the contract and starting the work according to the specifications, says Mr. Stone.

Agreements Near
Mr. Smith's letter is as follows: "Tentative agreement has been (Continued on page 2)

Mr. and Mrs. F. H. Nagel have recently moved from 404 Lincoln avenue, to 1447 East Colorado street.

Mr. and Mrs. Henry Koepke and daughter Dorothy have recently moved from 1315 South Central avenue to 1067 Tujunga avenue, Burbank, where they will make their home.

Richey Jones of 376 West Lexington drive has returned to his studies at the new high school, after a few days' absence owing to a sprained ankle, which he sustained while practicing pole vaulting.

I. B. Carlock of 415 Lincoln avenue returned home last night from Fresno, where he attended the Retail Clothing Men's convention, which has been in session since Monday. Mr. Carlock is proprietor of the I. B. Carlock Haberdashery store at 135 1/2 South Brand boulevard.

Mr. and Mrs. Roy Wiggins of Tehachapi have been the guests the past few days of Mr. and Mrs. J. M. Banker of 228 North Glendale avenue. Mrs. Wiggins is the niece of Mr. Banker and will be remembered in Glendale as Miss Vina Banker.

Mrs. Samuel Ayers of South Central avenue has been enjoying a visit from her grandson, Marion Banker, formerly of Glendale, chief pharmacist at the U. S. navy hospital at San Diego. Mr. Banker has been transferred to Honolulu and, with his family, will leave San Francisco the latter part of the week for his new station.

SUB-COMMITTEES FOR SHOW NAMED
 Legion Secures Services of More Film Stars for Entertainment

At a meeting of the general committee of the American Legion in charge of the show to be staged by the local post at the Broadway High school auditorium the night of Wednesday, March 19, held last night, sub-committees were appointed and final arrangements made for the sale of tickets.

W. A. McCormack was placed in charge of the publicity; while L. J. Fortler, W. B. Kelly and A. E. Bryan will handle the stunts and street advertising. W. H. Regelin will handle the publicity in Los Angeles.

Tickets on Sale
 The women of the local Legion auxiliary will sell tickets in booths at Webb's and Pendor's. General admission will be \$1, with reserved seats at \$1.50. The places where reserved seats may be obtained will be announced later, according to E. E. McWain, adjutant.

Several other stars in addition to those already listed have signified their intention of being present, among them Buster Keaton, star of "Three Ages." The full list of celebrities attending will be published the latter part of the week.

DEATHS - FUNERALS
WAYNE F. JENSON
 Funeral services for Wayne F. Jenson, who died Tuesday, will be held at 2 o'clock Friday afternoon in the Little Church of the Flowers in Forest Lawn Memorial park. The Jewel City Undertaking company, directors.
 All members of the Order of Eastern Star are requested to attend the services.

MRS. BELLE S. HUGHES
 Funeral services for Mrs. Belle S. Hughes, who died March 10 in Fresno, were to be held at 2 o'clock this afternoon in the Little Church of the Flowers in Forest Lawn Memorial park, with Rev. Harry Rasmus officiating.
 Mrs. Hughes, who lived in Glendale at one time on Valley View road, leaves a daughter, Mrs. E. Thorn of Glendale.
 Kiefer & Eyerick Undertaking company in charge.

MRS. FANNIE P. MacHard
 Mrs. Fannie P. MacHard died this morning, March 13, 1924, at her home, 414 East Maple avenue, at the age of 75 years.
 Funeral services will be announced later by the L. G. Scovern Undertaking company.

GEORGE RICHARDSON
 George Richardson, son of the late Burr W. Richardson, died today, March 13, 1924, at his home, 346 Larga street, Los Angeles.
 He was born June 26, 1886, and his family's name is prominent in the early history of Glendale and this vicinity.
 Funeral arrangements will be made known later by the L. G. Scovern Undertaking company.

MRS. MARION McNALLY
 Funeral services for Mrs. Marion McNally who died March 11, will be held at 3 o'clock Friday afternoon, in the Little Church of the Flowers in Forest Lawn Memorial park. Her body will be placed in a vault following the service.
 L. G. Scovern Undertaking company, directors.

BIRTHS
 Mr. and Mrs. H. L. Stratford of 719 East Wilson avenue are the parents of a son, born this morning, March 13, 1924, at the Glendale Sanitarium and Hospital.

SOCIAL EVENTS

Club's Birthday
 Celebrating its tenth birthday the Kensington club of the Women's Relief corps met all day yesterday in the G. A. R. hall on South Glendale avenue. There were thirty-seven members present for the birthday party.

The luncheon table was artistically decorated with bouquets of freesias, while a white birthday cake bearing ten pink candles occupied a prominent place. The cake was made by Mrs. Anna Page, the president, who was honored yesterday by re-election.

During the first announcement of the program the name of Nellie Aleshire appears on the program. She is one of Miss Keller's most talented pupils, and tomorrow she will give the "Highland Fling" and an Irish dance.

Tells of Poland
 The traditions and customs of the Polish people were described yesterday morning at the meeting of the travel department of the Tuesday Afternoon club by Madame Jozepha Kudlinska, Poland-born American woman, who returned to her native country during the war, for service with the Red Cross and Y. W. C. A.

She had addressed the club-women before, and Mrs. Mabel Franklin Ocker, curator of the travel department, was most happy to present her for the second time to her group of club members.

Yesterday Madame Kudlinska said the eyes of the Polish people are always turned to America as their guiding star. She added that many American cities boast of thousands of Polish citizens, and that, during the war, these men responded to the call. The women of Poland did much for their country during the war.

She told in detail of the Polish festivities of Christmas, Easter, and upon wedding dates, celebrations which last for days, to impress on the people the sacredness of the rites.

Poland, being principally a Catholic country, divorce is not as frequent as in other countries. The carding of flax, as in days of old, is carried on by servants and the poorer class of people in Poland.

Madame Kudlinska declared that Poland is an old-fashioned country, that the women like knights of old, and that the men warriors of Poland never forget to be aggressive.

At the next meeting of the travel department Mr. Mayes of Porterville will give an illustrated talk on "Yosemite Valley."

With Miss Hunt
 Members of the S. K. K. club met at the home of Miss Evelyn Hunt, 350 West Doran street, last night, for the regular business and social meeting.

After a short business meeting presided over by the hostess, Miss Hunt, refreshments were served and music enjoyed.

The morning was devoted to hearing reports from the officers of the chapter and chairmen of standing committees, with Mrs. H. D. Goss, president of the chapter, in the chair.

At 12:30 o'clock the chapter adjourned to the Egyptian Village as the luncheon guests of Mrs. J. G. Huntley and assisting hostesses, Mrs. A. M. Hunt, Mrs. Frank C. Weller and Mrs. Seymour Smith.

A beautiful basket of tulips formed the centerpiece of the attractive table at which twenty-six members of the chapter were seated.

After luncheon the chapter returned to Mrs. Temple's to conclude the business of the day.

The officers elected to serve for the ensuing year are: President, Mrs. E. U. Emery; vice-president, Mrs. H. D. Goss; secretary, Mrs. C. E. Russell; corresponding secretary, Mrs. Charles Farnham; treasurer, Mrs. Garfield Jones; chaplain, Mrs. Frank C. Weller; guard, Mrs. A. C. Reed.

Delegates to the state convention, Mrs. E. U. Emery and Mrs. J. G. Huntley; alternates, Mrs. Ed M. Lee and Mrs. A. M. Hunt, Mrs. H. D. Goss, the retiring president, assisted by Mrs. H. E. Bartlett, installed the officers elected. Following the installation a short business session was held with Mrs. Emery, the new president, in the chair.

Entertains Club
 Mrs. J. F. Hearnshaw was hostess Friday to the members of the Wednesday club when she entertained with a luncheon and informal social afternoon at her home, 358 West Lomita avenue.

Artistic arrangements of freesias were used as decoration and dainty place cards and favors marked the guests' places.

Honor Leader
 All Tuesday Afternoon club members are invited by Mrs. Warren Roberts, curator of the Music department, to the Scotch-Irish program tomorrow afternoon honoring the club president, Mrs. Daniel Campbell.

The program will be given in the clubhouse auditorium at 3 o'clock by Flora Kilpatrick, soprano, pupil of Mrs. Grant; Mollie Aleshire, talented dancer, pupil of the Pearl Keller school; Katherine Jackson, harpist, and Eunice Prosser, violinist.

Since the first announcement of the program the name of Nellie Aleshire appears on the program. She is one of Miss Keller's most talented pupils, and tomorrow she will give the "Highland Fling" and an Irish dance.

Tells of Poland
 The traditions and customs of the Polish people were described yesterday morning at the meeting of the travel department of the Tuesday Afternoon club by Madame Jozepha Kudlinska, Poland-born American woman, who returned to her native country during the war, for service with the Red Cross and Y. W. C. A.

She had addressed the club-women before, and Mrs. Mabel Franklin Ocker, curator of the travel department, was most happy to present her for the second time to her group of club members.

Yesterday Madame Kudlinska said the eyes of the Polish people are always turned to America as their guiding star. She added that many American cities boast of thousands of Polish citizens, and that, during the war, these men responded to the call. The women of Poland did much for their country during the war.

She told in detail of the Polish festivities of Christmas, Easter, and upon wedding dates, celebrations which last for days, to impress on the people the sacredness of the rites.

Poland, being principally a Catholic country, divorce is not as frequent as in other countries. The carding of flax, as in days of old, is carried on by servants and the poorer class of people in Poland.

Madame Kudlinska declared that Poland is an old-fashioned country, that the women like knights of old, and that the men warriors of Poland never forget to be aggressive.

At the next meeting of the travel department Mr. Mayes of Porterville will give an illustrated talk on "Yosemite Valley."

With Miss Hunt
 Members of the S. K. K. club met at the home of Miss Evelyn Hunt, 350 West Doran street, last night, for the regular business and social meeting.

After a short business meeting presided over by the hostess, Miss Hunt, refreshments were served and music enjoyed.

The morning was devoted to hearing reports from the officers of the chapter and chairmen of standing committees, with Mrs. H. D. Goss, president of the chapter, in the chair.

At 12:30 o'clock the chapter adjourned to the Egyptian Village as the luncheon guests of Mrs. J. G. Huntley and assisting hostesses, Mrs. A. M. Hunt, Mrs. Frank C. Weller and Mrs. Seymour Smith.

A beautiful basket of tulips formed the centerpiece of the attractive table at which twenty-six members of the chapter were seated.

After luncheon the chapter returned to Mrs. Temple's to conclude the business of the day.

The officers elected to serve for the ensuing year are: President, Mrs. E. U. Emery; vice-president, Mrs. H. D. Goss; secretary, Mrs. C. E. Russell; corresponding secretary, Mrs. Charles Farnham; treasurer, Mrs. Garfield Jones; chaplain, Mrs. Frank C. Weller; guard, Mrs. A. C. Reed.

Delegates to the state convention, Mrs. E. U. Emery and Mrs. J. G. Huntley; alternates, Mrs. Ed M. Lee and Mrs. A. M. Hunt, Mrs. H. D. Goss, the retiring president, assisted by Mrs. H. E. Bartlett, installed the officers elected. Following the installation a short business session was held with Mrs. Emery, the new president, in the chair.

Entertains Club
 Mrs. J. F. Hearnshaw was hostess Friday to the members of the Wednesday club when she entertained with a luncheon and informal social afternoon at her home, 358 West Lomita avenue.

SALE MARKS END OF SECOND YEAR
 Ed Nisle Offers Bargains In Suits In Celebration Of Anniversary

Ed Nisle, clothier of 135 1/2 South Brand boulevard, announces the close of his second successful year of business in Glendale with an extraordinary anniversary sale, offering values that will appeal at once to every man in the city, whether or not he had contemplated buying a suit or overcoat at this time.

"This kind of value giving is to show that I appreciate the hearty support given me in the past two years, and particularly the last twelve months, by the people of Glendale and surrounding sections," says Mr. Nisle. "I now have a stock of practically 1000 suits to choose from, by far the largest, newest and most up-to-date stock of suits carried by any clothier in the city."

Suits for Everyone
 "I have suits to fit every build of man and can positively please anyone who will take a few minutes off and come into my store to look over with me this immense stock. We are, moreover, the original two-pants clothiers in Glendale and have built up our business on this policy, which means to the buyer a suit that lasts twice as long.

"My aim is to so conduct my business as to enjoy and warrant the continued patronage of Glendale people. To do that, I must give real value in every suit I sell, and this I positively do. I have been more than gratified by the close personal contact I have had with patrons of my store, striving to select just the right suit or overcoat, or whatever else it may be."

Praises Merchants
 "To my friends among the merchants of Glendale I also owe a great measure of my success. They have patronized me from the start and I am deeply indebted to them. It is such a spirit of co-operation that makes a city. We are all working for the good of Glendale, as well as to sell merchandise."

Ed Nisle is prominent in civic, fraternal and social life, being a member of the Rotary club, Elks' lodge and Oakmont Country club. He comes to Glendale from Seattle, where he built a clothing business from \$150,000 to \$1,000,000 a year.

Professor Gives Line On Hobo Psychology
 URBANA, Ill., March 13.—"But for the grace of providential circumstances, you, too, would be a hobo."

This statement, directed at American citizens in general, by Prof. E. H. Sutherland, head of the department of sociology at the University of Illinois, startled a group of natty attired college students and learned sociologists, whom he addressed here.

"The hobo is a product of modern civilization, and understanding him helps us to understand ourselves," the professor continued.

He defined the hobo as a migratory worker, in contrast to the tramp, who is a migratory non-worker, and who is a stationary non-worker. But they all tend to degenerate into the bum class, he added.

"The hobo is a hobo because his desire for new experiences is overdeveloped," Prof. Sutherland explained. "There are four wishes which control all human behavior—that for new experience, that for security, that for recognition by society, that for response from fellow men. We all have a great desire for new experiences, but we get them by reading it, by the theatre, and so on. The hobo gets his by moving from place to place."

TO PROTECT AUTOS
 To detect automobile thieves a new device causes colored lights to shine across the license plates when a car is in motion unless shut off by the owner's key.

MONTH'S PERMITS ARE NOW \$349,900
 Total for Year Amounts to \$2,185,129; Activity In All Lines Shown

Business continues brisk at the office of H. C. Vandewater, municipal building superintendent. This morning permits to the total of \$2,185,129 were issued.

March now has a record of \$349,900, while the total for 1924 is \$2,185,129.

The following permits have been issued recently:

Anna L. Brown, 6 rooms and garage, 1229 Viola	7,400
J. C. Reinhard, 7 rooms and garage, 529 Glenwood	6,250
Shell Oil Company of California, oil station, 421 South Brand Blvd.	4,500
D. A. Boylston, 6 rooms, 1110 East Chestnut	4,000
Lehigh Investment Corporation, 6 rooms and garage, 4534 Glenwood	4,000
Jacob Jacobson, 5 rooms, 1317 East Windsor	3,200
V. Dranier, 4 7-room and garage, 902 East Acacia	1,200
C. A. Sawyer, store, 611 West Doran	1,200
Williamson O. Moore, 2 rooms, 640 Elm	400
John Manice, 3 rooms, 1315-A East Garfield	400
E. C. Hurford, remodel, 206 West Brand	250
E. C. Hurford, remodel, 348 East Lomita	200
O. P. Rider, 3 garages, 708 East Lomita	150
Jacob Jacobson, remodel, 1317-A East Windsor	100

Employ Pulmotor In Effort to Save Life
 In an effort to save the life of George Richardson, who passed away at 3460 Larga avenue, Los Angeles, this morning, Captain R. E. Dodsworth of the local fire department, worked over Mr. Richardson for 45 minutes with the department's pulmotor.

The instrument was of no avail in staying off the effects of the heart attack which caused Mr. Richardson's death, although Captain Dodsworth persisted in his work until the patient was pronounced dead at 9:25 o'clock by Dr. Russell M. Farnham.

Deposits, capable of producing 40 to 60 grains of radium bromide a year, have been found in Madagascar.

 The quality of this hose is equal to those of perfect manufacture, but they are sold at a greatly reduced price on account of being accidentally damaged in the making. Such defects have been carefully mended. They will give excellent satisfaction 69c COLORS AND BLACK.

FRATERNAL CARD RESCUES BANKER
 Mexican Rebels Recognize Fellow Member of Texas Lodge

SAN ANTONIO, Texas, March 13.—A fraternity lodge card proved the key that unlocked the doors to freedom for S. Webb, Albany (Texas) banker, who was captured by Mexicans while hunting south of the border recently, according to a Texas exchange.

Suddenly and without warning the ranch where Webb was stopping was surrounded by Mexican rebels under General Florencio Carranza, he said.

When questioned, Webb gave his card showing he was a Texas banker. The Mexicans gathered around it and eagerly discussed holding him for ransom.

Finally, when it looked as if he would be held a captive, Webb showed them his fraternity cards. After a few more questions they explained to him that several of the officers were members of the order and that he would be allowed to go free.

Equipment Purchase Delays P. O. Building
 Glendale's new postoffice building is still up in the air, according to Dr. H. R. Harrower, speaking at the Glendale Advancement meeting this noon. The bank which had agreed to finance the project refused to finance the purchase and installation of the postoffice fixtures, and a meeting of business men is being held this afternoon to see if the question of finance can be arranged here.

According to Dr. Harrower, the cost of the building was to have been \$51,000 and the cost of the fixtures would have added \$15,000.

Lewis T. Monroe, owner of the site at Broadway and Jackson street, will endeavor to secure financial backing from Glendale business men, Dr. Harrower said. There is every possibility of the project going through, according to Postmaster D. Ripley Jackson, who was interviewed by The Evening

BURBANK KICK OVER HOGS' SCRAMBLED DIET

Razor Blades and Tin Cans Rouse Protests from Garbage Men

Broken glass, tin cans, razor blades, phonograph records and barbed wire form rather a poor diet for hogs, Messrs Martin & Son, the Burbank garbage collectors, told the city trustees at their last meeting.

In fact, the garbagee were quite indignant and, duly chastised, the trustees agreed to have handbills printed, calling attention of the populace to divers and unhygienic ordinances appurtenant to the matters hereinabove enumerated.

Opera Tonight "Pirates of Penzance" will be presented Thursday night, March 13, for the benefit of the Sunset country club, by the Burbank choral club, who presented the same opera Monday night at the high school auditorium, and will present it again Saturday afternoon, March 15, at the instance of Ben Marks of Benmar Hills, in connection with a garden party.

Realtors Favor Tract Burbank realtors believe that industries are more important than commissions and stand squarely behind the project sponsored by the Goodfellows' club, or the city to purchase a tract of land and reserve it for industrial development.

A number of ideas have been advanced by realtors in regard to this matter, some favoring the suggestion that the city issue bonds for raising the money for his purpose while others thought it ought to be raised in some other manner.

The widening of West Broadway to eighty feet is not only a project worthy of commendation, but the spirit should be emulated by the residents of other thoroughfares which are bound to carry the traffic in Glendale.

Immediate steps should be taken to widen Brand boulevard from San Fernando road south to the Southern Pacific right-of-way, so that the Pacific Electric right-of-way would be paved. Then the city of Los Angeles should construct a broader and better street east of the tracks for Glendale boulevard as the present narrow street is dangerously congested.

Romance Blossoms in Divorcee's Murder Trial

CHICAGO, March 13.—A romance blossomed in the Fifteenth street station here in a soil of murder, suspicion and booze. Just as Mrs. Belle Gaertner, divorcee, was being removed to the women's annex to be held in connection with the slaying of Walter Law in her sedan, William Gaertner, wealthy manufacturer of scientific instruments, her divorced husband, entered.

He conferred in whispers and then Mrs. Gaertner turned radiantly to waiting reporters. "Will and I have made up," she announced. "We are going to be married in June."

N. Y. Customs Officers Seize Royal Mail Liner

NEW YORK, March 13.—A squad of men from the custom house late yesterday afternoon seized the Royal Mail steamship Orduna at a pier in the North River for alleged violation of the custom laws, the Federal narcotic laws and the prohibition act. The action followed the arrest today of eight members of the crew, including two officers, and the confiscation of \$10,000 worth of whiskey and morphine, and was upon orders from the Treasury Department at Washington.

Rykov, Successor to Lenin, Also Stricken

COPENHAGEN, March 13.—Mikhail Rykov, successor to Nicolai Lenin as president of the council of people's commissars in the Soviet government, is suffering from an incurable kidney disease and it is not likely he will be able to assume his duties, according to information received here in Moscow to take a long rest. M. Kamenev and M. Tsurka have been attending to the affairs of the premier's office.

COMMENT That's All Climate Elsewhere Problems to Be Solved Wider Streets Needed Make Glendale Better

By Gil A. Cowan

California cannot have all of the climate in the world! Some folks complain that it has not a sufficient variety. And when the weather varies overnight there is quite an ado about little or nothing.

For instance, California lost a little from frost, but nothing like the losses suffered by the storms in Florida during the last ten days. And Louisiana, which seldom sees the damage of drought or severe cold, reports a million dollar loss to its berry and vegetable crops this week.

So we can judge that California, like other states, has its ups and downs, mostly up, if you look prosperity straight in the face. And, if a person fails here in agriculture he is equally apt to fail elsewhere. We actually need to tout our agricultural potentialities and aid the rancher in restoring himself to normal conditions.

Conferences on the school situation suggested by the Chamber of Commerce committee seem to offer a splendid method of solving the questions which have been brought to the minds of the people recently.

With due consideration for all interests it seems probable that satisfactory conclusions in the merger of the two systems and the establishment of junior high schools may be reached, yet the discussion should be deliberate.

There are problems confronting Glendale which are paramount to these issues, perhaps, and the city should not rush into something which it knows little or nothing about, particularly when it affects not only this municipality, but others which are projected in the Verdugo foothills.

It is not without the pale of reasonable expectation that one or more cities will be incorporated to the north of Glendale. These neighbors of ours have their problems to work out, just as Glendale has had, and let it not be said that people here are dictating policy at an hour when it is most inadvisable.

There are able people in Tujunga and Sunland, for instance, who would be capable of guiding their own local school system and with a junior high school in their district they would be enabled to serve the needs of the children until they come to Glendale for higher courses. It would be but a stepping stone to Los Angeles and its universities.

So it is that the Glendale Evening News has considered the school problem an evolutionary subject, rather than one for revolutionary action.

The widening of West Broadway to eighty feet is not only a project worthy of commendation, but the spirit should be emulated by the residents of other thoroughfares which are bound to carry the traffic in Glendale.

Immediate steps should be taken to widen Brand boulevard from San Fernando road south to the Southern Pacific right-of-way, so that the Pacific Electric right-of-way would be paved. Then the city of Los Angeles should construct a broader and better street east of the tracks for Glendale boulevard as the present narrow street is dangerously congested.

This one suggestion is among many which are called to the attention of the motorist. Traffic has reached a point here that it might be well to assign an engineer to the study of the problem presented.

Glendale has many reasons to be proud. Individuals, no doubt, look upon this city with a paternal eye and see in it the culmination of their dreams. Yet just exactly what it is that each and every one of us is doing daily to make this a better place in which to live?

Support of civic enterprise, the giving of one's heart interest to every good cause possible, the presentation of publicity in words, letters, literature or news articles—all are a part of the great game.

You will get a lot of satisfaction to mentally enumerate the many deeds you have done, even if it is only planting a humble flower garden, in making this the most ideal home city in America. The fact that Glendale, with its 50,000 population now, is the fastest growing city in America, is nothing if it were not destined to grow some more.

Garment Girl Strikers Beat Up Detective

CHICAGO, March 13.—Five women, interrupted in their attack on a girl garment worker who had not joined the ranks of the strikers, turned on Detective Sergeant Ray Grable Wednesday afternoon, fractured his left arm and inflicted other painful injuries before he subdued them and placed them all under arrest. William McNeill, Jr., manager of the building in which the shop where the girl was employed was located, also was beaten in assisting the officer. The belligerent women were arraigned on assault and battery charges.

LA CRESCENTA MANY TO ATTEND OPENING OF CLUB

Social Affairs Attracting Crescenda Residents to Entertainments

Saturday night is apparently going to be society night here in the valley, as many of the residents are planning to attend the opening of the Oakmont Country club. Many others will attend the Verdugo City dance, and still others will be present at the Woman's club dance where Mrs. Harvey Bissell will officiate as hostess of the evening.

Dr. Renison of Eagle Rock held the second of the series of "Spiritual Healing" lectures yesterday afternoon at the home of Mrs. Virna Harman Walker. Besides the regular members of the Woman's Guild of St. Luke's of the Mountains, many visitors were present, among them being Mrs. Doolittle of Los Angeles.

The meeting next week will be held on Wednesday at 3 p. m. at the home of Mrs. Seymour Thomas on North Rosemont avenue.

Don't forget Thursday night is the night of the regular weekly sing to be held in the Montrose school-house, when Miss Eleanor Clark of Ocean View avenue will sing and it is expected that Clyde Sanderson will give a piano solo.

Director Prosper is in need of a few more bass and tenor voices for the concert chorus, and practice will begin as soon as the required number have registered for the work. The sing commences promptly at 8 p. m. and all are welcome.

Newcomers Build Among the new residents of the valley are Mr. and Mrs. G. D. Hutchison of Fresno, who are building a home on their property recently purchased on Raymond avenue, near Pennsylvania avenue.

The officers elected for the coming year in the La Crescenda Community Church, Christian Endeavor are: L. M. Helmer, president; Robert Kelso, vice-president; Kenneth Carlson, secretary; Edith Busch, treasurer; Gladys Bickel, organist; and Mrs. L. M. Helmer, chorister. The Endeavor has over thirty enrolled members.

"St. Slocum's Country Store" raised over \$400 for the Parent-Teacher Association fund. The cost has been requested to give it over and also present it in Tujunga.

The D. H. Hutchinson family are very happy over the arrival of a new daughter who will be known hereafter as Miss Patricia.

The local branch of the Los Angeles County Free Library will return to regular hours of 7 to 9 on Wednesday, Saturday evenings and 2 to 4 on Friday afternoons.

The new bride of this month is Mrs. Karl Johnson of Hermosa avenue. Mrs. Johnson was formerly Mrs. Mary Phelps Jennings and was a member of the Montrose State Bank force, having resided here for several years. Mr. Johnson has lived in the valley for five years and both bride and groom have a large circle of acquaintances who wish them years of happiness.

Leave for South Dakota Mr. and Mrs. Otto M. Wright, who have been guests at the "Mount," have returned to their South Dakota home in Mitchell. The Wrights will, however, return to this section where they have purchased property and will build a home.

The monthly report from the Crescenda branch library is as follows: Adult books loaned, 261; juvenile, 268; non-fiction, 74; magazines, 139; making a total of 742 for the month of February.

Mr. and Mrs. Frank Curtis of East Mayfield avenue entertained Mr. and Mrs. J. D. Rose of Los Angeles over the week-end.

Mrs. Rose Nettleton entertained a group of intimate friends at a birthday luncheon on Monday in honor of her mother, Mrs. Hoag, who had reached her eightieth milestone. Mrs. Hoag was the recipient of many beautiful flowers from her numerous friends.

Members of the Aeolian Music club were entertained the other evening by Miss Janet Culberson at her Michigan avenue home.

Southern California Will Bid on Tunnel

HOLLYWOOD, March 13.—More than a dozen companies will bid for construction of the Bunker Hill tube from the Hill street station of the Pacific Electric to First street and Glendale boulevard, according to D. W. Pontius, vice-president and general manager. The time limit for bids has been extended to March 18, he states. Contracts will be awarded within two weeks after that date and the work will be completed by August, 1925.

Will Review Ruling SANTA ANA, March 13.—The decision of Judge F. C. Drumm, holding as unconstitutional the section of the Breed motor vehicle act barring speed trap testimony, will be tried before the Court of Appeals, counsel for the Automobile Club of Southern California having obtained a writ of review.

Thus the battle over the speed trap must be repeated in the Appellate court, with its result affecting the entire state instead of Orange county to which the jurisdiction of the superior court was confined.

District Attorney A. P. Nelson today welcomed the move of the Appellate court as an opportunity to settle the question once and for all, expressing confidence that the hearing in the higher court would bring the same victory for the speed trap that was achieved in the superior court.

Old Peach Tree Blooms SAN JUAN CAPISTRANO, March 13.—One of the oldest peach trees in California is in bloom here. The tree has an historical background. Located in the corner of the patio, not far from the entrance to the original church of Fray Junipero Serra, the tree is said to have been planted by Dona Ysidora Pico de Forster, sister of Governor Pio Pico. Old residents say that it was the sister of the governor who planted the tree and Father St. John O'Sullivan is inclined to take their word for it.

May form Reservoir PASADENA, March 13.—Brookside Park and the Pasadena stadium may be submerged into a lake, if a plan seriously advocated by Chief Engineer James W. Reagan of the Los Angeles county flood control district is adopted. Mr. Reagan's proposal is to build a dam at the site of the present Linda Vista bridge for the purpose of impounding the excess waters of Devil's Gate lake and other drainage waters. He asserts that these waters, if impounded, would penetrate to the "lower basin" sands and augment the water supply of Pasadena and vicinity. The dam would also eliminate all remaining danger of flood damage in the South Pasadena and Los Angeles areas of the Arroyo Seco. Mr. Reagan's estimate of the cost of the proposed dam is \$1,250,000.

Oil Fever Strikes EL CENTRO, March 13.—Following the visit here of E. W. Siegfried, associated with E. L. Doherty and others in the petroleum industry, the possibility of oil being discovered in this district is causing intense excitement. Mr. Siegfried admitted that soil formation in this vicinity would indicate the presence of oil, but the extent of the deposits, if developed, is problematical.

The oil man's visit here was coincident with the bailing out of the James well near Coyote Wells, twenty-five miles distant, and gave rise to the rumor that several oil borers are here looking over prospective strikes.

The James well was started five years ago and it was sunk to 241 feet, where strong indications, both of oil and gas, were discovered, it is reported. Experts advised bailing and cementing the well.

Post Cupid's Scores FULLERTON, March 13.—The teachers here have a "matrimonial score-board" posted in the Chapman school building, on which the record of Dan Cupid's high and low scores are kept. To date the Chapman school is leading all other entries, with two engagements announced since Leap Year day.

Neutrality Violations at Manila Are Probed MANILA, March 13.—The announcement of Governor-General Wood's notification of Washington of alleged violation of neutrality rules in the Manila Bay fortified zone by Japanese ships, caused surprise at the Japanese consulate here, a statement said. It added that a cable was sent some time ago to Tokio asking that strict instructions be given by steamship companies to their captains for observance of the rules. The consul's statement said the infractions were committed unintentionally because of ignorance of the captains of the rules.

Developing Fast "In the near future, with the paving of York boulevard to connect with Adams street, and the building and paving of Sycamore Canyon road clear through to Adams street, together with other highly significant improvements in the section, Glendale Heights Extension, our beautiful hillside subdivision, will be much sought after and literally every lot will be developed with an attractive home."

H. A. Cory, who represented the interests of the Sam Seelig company in the lease, which he states is for ten years, says he has such confidence in the section that he is also investing his money there.

Preferential Treatment for Shipping Stops WASHINGTON, March 13.—The preferential treatment heretofore accorded foreign steamship lines in the way of reduced railroad freight rates on commodities moving to United States ports because of the inadequacy of American shipping facilities, was removed by the Interstate Commerce Commission. The railroads were given until May 20 to adjust their rates to conform with the commission's decision.

American Sugar Co. Earnings Made Public NEW YORK, March 13.—Profits of \$8,508,163 were earned in 1923 by the American Sugar Refining Company, according to the annual report of the company, made public Wednesday. Of this sum, the report states, \$5,522,487 was income from investments in sugar producing companies and \$2,985,675 income from interest earned. The company lost \$1,693,070 on its refining operations during the year, but after paying dividends, bond interest and providing for depreciation, ended the year with a surplus of \$865,197.

FLASHLIGHT ON MACHINE An attachment has been invented to hold a flashlight on a sewing machine so it illuminates the needle and work.

DYE FROM CLAY A process has been discovered for obtaining a blue dye from china clay.

Webb's Wash Dresses Find Favor. Spring Exposition March 26 to 29. All Pure Linen Dresses. \$5.95 Normandie Voile Dresses. \$9.95 Uncrushable Linen Dresses. Spring's Very Smartest MILLINERY \$4.45. Includes images of dresses and millinery.

START NEW STORE FOR SEELIG SOON Structure at Adams Street and Palmer Avenue in Growing District

Fire Hits Business District of Delta DELTA, Cal., March 13.—This little town, forty miles north of Redding is practically in ruins following a \$40,000 fire, which destroyed the hotel, store, post-office, two business houses and two dwellings and a garage. Two automobile stages were burned. Fire apparatus pushed by train from Dunsmuir saved the railway station.

Catch Convicts Who Escaped from Camp REDDING, Cal., March 13.—Charles Justings and Albert Weber, convicts who escaped Sunday night from the Greenhorn highway camp, are again in custody, following their capture twenty miles from the camp. Justings, who has six weeks more time to serve, was sentenced from Alameda county, while Weber, San Francisco resident, is serving fourteen years, convicted of assault to commit murder.

Name C. C. Committee To Plan School Merger The executive committee of the Glendale Chamber of Commerce last night appointed C. W. Ingledue, D. H. Smith, R. F. Kitterman, Cameron D. Thom and H. B. Henry as a committee to confer with the board of education and with the high school trustees on the plans for the consolidation of the Glendale school systems and for the establishment of a junior high school here.

ONLY 4 DAYS LEFT TO SAVE \$50 BIG BEAR PINES. Close to Big Bear Lake in Prettiest Part. \$1.00 DOWN \$1.00 PER WEEK. No Interest. No Assessments. If Unable To Call Sign Coupon Below. PRICE WILL ADVANCE TO \$250 IN FEW DAYS. Includes image of a large pine tree.

BOTTOM DROPPED OUT OF THINGS! SAYS ARKANSAN

Talking of California, Too, For Kansas Paper; It Is to Laugh

By GIL A. COWAN
Of The Evening News Staff
Under the caption of "Bottom Dropped Out of Things," the Hutchinson, Kansas, News, prints an article concerning California's prosperity which exhibits pitiful ignorance on the part of the editor, the reporter and the person interviewed, if he is correctly quoted, although the story savors of the wild imaginings on the part of the news writer.

Grant Van Bibber of 125 West Windsor road, who used to believe what the Hutchinson paper said, brought in a copy of the article which opens with the following statement:

"R. J. Welsh, of Bentonville, Ark., who is visiting here on his way home from a writer's stay in Southern California, at Fullerton, Calif., says 'the bottom has dropped out of things there.'"

Facts Belie Fiction
Glendale is some distance from Fullerton, but we invite any Hutchinson folks in this vicinity to drive over to Orange county and see for themselves if the following statements are true—and then write to the editor of the News that the account of California's decadence "is greatly exaggerated," as Mark Twain might say.

"Last December, Mr. Welsh says, a house could not be rented in the town of Fullerton and rents were very high, but when he left a week ago, signs covered the town. 'This house for rent,' 'Rooms for rent,' etc. In Mr. Welsh's opinion, five hundred carpenters in the vicinity of Fullerton have left for other places to find work. He says that thousands upon thousands of people in Los Angeles and that section of California are out of work and that many of them are actually needy. Many men took their families out to California last summer and fall, Mr. Welsh said, expecting to find plenty of work and to make that state their home.

Was Welsh One?
"When they landed in California they had very little money and found that the country was overrun with men who had gone there with the estimate in view—that of getting plenty of work promptly. However, most of them were disappointed and now they are in a peck of trouble." Some of the men, Mr. Welsh said, are going from house to house asking for castoff clothing for their families, stating that anything wearable would be thankfully received.

If there is such a person as Mr. Welsh, he is a subject for psychiatric examination if he made the statements the Hutchinson paper attributes to him. No place in Southern California is there anything other than house shortage and Fullerton is no exception.

Carpenters and all other skilled workmen are in demand and the building records of past years bid fair to be broken in 1924 by all Southern California communities. Skilled artisans not only make more here, but live at less expense, with fewer non-working days, save more money and enjoy the best of health.

Look at Kansas Now
Practically nowhere in Southern California is there any house-to-house begging for either food or clothing, as there are jobs of some sort for everyone who will work, there being a decided shortage of farm hands. All one needs do is to refer to the United States bureau of labor statistics to determine how absurd Mr. Welsh is made to appear by the Hutchinson News.

Now for a little boomerang, let us turn to the classified advertising columns of the Kansas paper and read, "Room and board, \$4.00, 627 East C." Does that sound like prosperity? Why, room and board in Glendale, Los Angeles or Fullerton would cost not less than \$3 a week with the humblest folks.

Again we read, "Three house-keeping rooms, lights and water, private entrance, \$4.50 a month, 815 North Maple." If that apartment were moved to Glendale or Fullerton it would be rented within an hour after the ad appeared in the paper for \$35 a month.

It is to be hoped that Mr. Van Bibber sends this article back to the Salt City of Kansas and assures them that they have libeled the whitest spot in America—Southern California.

Imperial Beards, Wavy Hair Latest Fads for 'Sheiks'

Glendale sheiks have not as yet taken to imperial beards and wavy hair, shown above.

The imperial beard, so prevalent in Hollywood with boudoir bandits, has not as yet manifested itself among Glendale sheiks, according to the best advice and oral information. Oiled hair and peon pants, while on the wane, are still holding grimly to popularity.

Certain minor hirsute adornments (mine on a side and well trained), thrive in this city, but any tendency toward beards on the part of local Romeos will be frowned upon by the fair sex, it is said on good authority.

The cynical-minded are of an opinion that it is not a lack of desire but of ability that will keep the faces of Glendale youths largely uncamouflaged. In Eastern schools and colleges, where the fad is struggling for a foothold, only the most virile are able to stand the strain, which makes the vogue even more natty. Psychologists who are never satisfied until they have traced a fable to its lair and bearded it (to pun the simile out of court!) have come to the conclusion that imperial beards originated when a number of young men, drafted as movie extras and required to let their whiskers sprout, decided not to harvest the crop until the market rose.

Couzens Scores New for Low Postal Pay

WASHINGTON, Mar. 13.—Senator Couzens, Republican, of Michigan, has written Postmaster-General Harry S. New, protesting against New's stand in opposing legislation granting increased pay to postal workers.

Couzens declared that "existing wages are not even a living wage, to say nothing of a wage which makes life worth living."

"I can conceive of no justification for the position you have taken when it is based solely upon the cost to the government, or more properly put, on the cost to the users of the postal service."

Awards Father Of 13 Children \$7700 Exemption
An income tax return that set a new record in the way of claims for personal exemption has been filed by a Los Angeles county farmer, who called at the Internal Revenue office and requested that Collector Rex B. Goodcell personally verify the accuracy of the exemptions he claimed.

YOUNG EDITORS PUBLISH LIVELY Y. M. C. A. PAPER

Pioneer Notchers Group of Glendale Issue Spicy Little Journal

The Glendale Evening News, Glendale's own newspaper, has a very thriving neighbor in The Pioneer News, a little four-page publication, edited by William Goss, Robert Rist and Phillip Goss, of the Pioneer Notchers' group of the Glendale district of the Y. M. C. A.

Although "going to press" on the mimeograph in the office of Rex C. Kelley, local Y. M. C. A. executive, The Pioneer News is a neatly gotten up paper and, according to information at hand, is the first paper to be published in the state entirely by a Pioneer club.

Pioneer News
In its columns are recorded activities enjoyed by the boys, announcements from the different Pioneer groups, a Bible verse for the day and the program of events for the current month.

The first issue of The Pioneer News appeared Friday, February 29, and in the editorial one reads, "The Pioneer News is published twice a month, and is a paper to help promote the Pioneer Notcher program. The charges are 10 cents per month, which are paid at the end of each month. We are depending on the Pioneers to elect a club reporter who will hustle the news."

Pleasures Ahead
Under the heading "Lost and Found" one reads, "Mr. Kelley has in his office a number of caps that the boys have forgotten."

LOCAL SORORITY GIRLS HELP FUND Pi Beta Phi Members Will Secure Oil Portrait of Mrs. Coolidge

Glendale women, who are members of the national sorority of Pi Beta Phi, meeting yesterday at the home of Mrs. Frank Parr at 224 South Orange street, voted unanimously to send a contribution to the fund being raised by the national organization to secure an oil portrait of Mrs. Calvin Coolidge, to be hung in the White House in Washington, D. C.

According to custom, portraits of all the presidents and their wives hang in the White House, and as Chasity, the noted portrait painter, has done an oil canvas of President Coolidge, the Pi Beta Phi sorority, to which Mrs. Coolidge belongs, desire to express their pride in her by securing the companion picture to hang by the president's.

Work On Quilts
Assisting hostesses yesterday were Dr. Laura Brown and Mrs. C. H. Lyons.

Jury Probes Ban on School Fraternities

SAN DIEGO, March 13.—Superintendent of Schools Henry C. Johnson has been called to appear before the grand jury to explain his attitude in regard to secret societies in the public schools.

This was learned at a meeting of the board of education at which it also became known that a girl was suspended from one of the city's high schools last week for membership in a sorority.

Legion to Decide on Revised Constitution

Following several meetings given over to outside speakers and entertainments, the local post of the American Legion will have a busy session tomorrow night at the Legion Hall on East Broadway.

MAJOR OPERATION

D. L. Coler of 109 North Cedar street underwent major surgery this morning at the Glendale Sanitarium and Hospital.

INVITE DOCTORS TO DEDICATION OF SANITARIUM
Leading Southland Citizens Will Be Present at Formal Opening

SPEAKER LAUDS SHRINER SPIRIT AT BIG BANQUET
Ninety-Nine Nobles Gather To Hear Address on Business Here

A large corps of typists has been engaged for the last two days, getting invitations ready to send to everyone of the 2580 physicians and surgeons in Los Angeles county to attend the formal opening of the new Glendale Sanitarium and Hospital on Sunday afternoon, March 23. The management of the institution wants to reach every medical man within this section and is also sending invitations to civic organizations, officials of Los Angeles and Glendale, presidents of clubs, and other officials and business men in general.

From the work arrangements being made, the opening promises to be a gala occasion. While a large clerical force is now at work on the plans to let the world at large know about this wonderful institution, mechanics continue to speed up on the work both inside and outside the buildings, in order to get them as near ready as possible for the opening ceremonies.

While more than half of the front of the building has scaffolding in front of it for the plasterers to put on the stucco, it will take them but a comparatively few more days to finish this job, and then the outside will make its best appearance. The mechanics understand that the opening exercises are to be held in front of the main entrance, and they, too, take to see everything finished on the outside, and the scaffolding taken down before that time arrives.

Dr. Dexter to Speak
The securing of Dr. Walter F. Dexter, president of Whittier college, to make the principal address completes the program. Dr. Dexter is one of the leading educators of California, and only a couple of weeks ago established an excellent record in raising one million dollars in a whirlwind campaign in behalf of his institution. Dr. Dexter has given the business manager, C. E. Kimlin, the assurance that he will be present for the opening.

An intensely interesting program is promised for the opening. Two other addresses are included. One will be by Elder A. C. Daniels of Washington, D. C., who is known to everyone of the thousands of Seventh Day Adventists in southern California, and many who are not members of the church. For twenty-one years he was president of the general conference, and as such made numerous trips to the Pacific coast, being as well acquainted in this section of the country as on the Atlantic side, where the headquarters of his church is located.

Elder Daniels, while president of the general conference, gave much attention to the medical side of the church work, and was instrumental in helping to start a number of sanitariums both in this country and abroad. It was he who gave the dedicatory address at the White Memorial hospital in Los Angeles several years ago, and under his administrative leadership the denomination not only strengthened its line with the medical work by the establishment of different sanitariums but it launched out with renewed energy into foreign countries, until today it holds the enviable record of being established in more lands than any other mission board in the world.

Reorganized Church
Through his leadership, there came a thorough reorganization of the church. Instead of the general conference, the parent body, being carried around by the president, as it were, in his traveling car, the organization was reorganized and efficient men appointed as secretaries, until today every feature of the church is manned, and working along advanced and systematic lines. For instance, there is the Sabbath school department, through which given last year for foreign missions; then there is the publishing department, through which more than five million dollars' worth of literature on gospel subjects was circulated last year. Another department is that for the medical side of the church, and through this the steadily increasing chain of sanitariums and treatment rooms works until today competent physicians at the head of this department have access to information that can place sanitarium doctors all over the world in touch with qualified physicians, nurses and other kinds of helpers necessary to the success of such undertakings.

The religious library department looks after the liberties of not only members of the denomination, but others who desire to exercise the rights granted them by governments to worship according to the dictates of their own conscience. In other words, this department very vigorously opposes any plan that would compel men to acknowledge one day above another as a national Sabbath, holding that God Himself does not make such exactions from his creatures, and no government should do so.

Missionary Work
Elder Daniels was exceedingly interested in bringing about the establishment of the missionary volunteer department, holding that the thousands of young people within the denominational ranks were the most valuable asset of all. Colleges were increased in number until today there are more than 40,000 young people in the denominational educational institutions, many of them preparing for active church work. Thus Elder Daniels has been a powerful factor in his church work for more than

TAXPAYERS RUSH INCOME RETURNS

Receipts Increase as Time For Filing Nears End; Two Days Left

More than a million dollars in income tax was paid into Uncle Sam's treasury yesterday by 13,320 taxpayers, according to a report made to Washington yesterday by Collector of Internal Revenue Rex B. Goodcell.

This brings the total collections for the first income tax period up to yesterday to \$4,812,077, compared with \$2,945,444 for the corresponding period of last year, an increase of \$1,866,633.

Collector Goodcell wired Washington yesterday that up to March 10, 141,200 taxpayers had filed returns. This means that more than 140,000 must file before Saturday, March 15, or become delinquent and subject to heavy penalties.

Answering innumerable inquiries made by phone, Collector Goodcell explained that under the existing revenue law the manufacturers' tax on automobiles is not deductible by the person who purchases the automobile. This tax, however, may be deducted by the manufacturer, but not by the owner.

Office Open Late
Collector Goodcell announced that the internal revenue office would remain open until midnight on Saturday, March 15, the last day of the filing period. He urged taxpayers whose net incomes, if single, were \$1,000 or more, or if married \$2,000, or more, to file returns although their personal exemptions would make the returns non-taxable.

This phase of the income law is confusing many and will result in many taxpayers of this class, who fail to file returns, being compelled to pay heavy penalties.

"If married and your net income was \$2,000, file a return. If single and your net income was \$1,000, file a return," Collector Goodcell said. "In computing net income do not take into consideration any personal exemptions to which you may be entitled. The law is mandatory as to the filing of these returns, and no one has authority to waive the asserting of penalties. Everyone having a gross income of \$5,000 or more, regardless of the net income, must file."

"If my advice is followed, thousands of dollars in penalties will be saved to the taxpayers of Southern California."

Royal Jap Nuptials Inspire Many Others

TOKIO, Mar. 13.—Hoping they might bring good luck the remainder of their lives more than one hundred couples chose Saturday, January 26, the day of the marriage of the Prince Regent and the Princess Nagako Kuni, for their wedding day. The Hibiya park Shrine, wedding place of the fashionable Tokio couples, was busy all day, and throughout the city weddings were the order.

The Imperial hotel, across the street from the Hibiya wedding shrine, was packed all day with happy couples.

Mother Who Wanted to Die, Has Afterthought

ATLANTA, Ga., March 13.—It was only after Mrs. Edna Reed, 18-year-old wife, of this city, had peeped into the mirror of death and saw reflected there the life her year-old baby faced in the world, without a mother, that she wanted to live again.

PASTOR ASSAILS PULPIT FALSITY

Mental Reserve of Ministers Denounced by Evans in Church Speech

Ministers using Biblical nomenclature with "mental reserve" were denounced as dishonest last night by Dr. William Evans, who is conducting the Bible conference every afternoon and night at the Glendale Presbyterian church.

The church auditorium was filled last night by Glendaleans eager to hear Dr. Evans and listen to the splendid musical program directed by Herbert G. Tovey, Australian soloist.

Dr. Evans said in part: "The writers of the New Testament lay emphasis not only on what Jesus Christ was, but also on what He did. He did something for man which has placed man under infinite obligation. He must face the question of the death of Jesus Christ and the reason of His death. According to Jesus' own words, and those of the inspired writers of the New Testament, Jesus Christ died for the sins of mankind."

All Cannot Agree
"This interpretation of the tragedy on Calvary all men are not willing to accept. We may deny the inspiration and authority of the Scripture writers, but no fair-minded man can say that these writers do not put a meaning and interpretation of the death of Jesus Christ."

"The change in nomenclature in describing Christ's death is a matter that should receive careful consideration. There is nothing sacred in vocabularies. I am not pleading for stereotyped expression with regard to the statement of faith. I believe it to be our duty to see that every man hears the gospel in the language in which he was born. If the language of the classroom and the pulpit cannot be understood by the man on the street, then let us change our nomenclature into terms of comprehension by those to whom we minister."

Certain Great Truths
"Christian faith throughout the centuries expressed itself in certain definite forms. There has always been a body of truth. Certain great words, such as 'atonement,' have stood for certain great doctrines and specific interpretations of those doctrines. To give utterance to those words was at the same time to express one's belief in the things for which those great words stood."

"But using these words with 'mental reserve,' in substantiality, that is, with a reservation within ourselves as to just what the words stand for, is not to be tolerated."

"And so it comes to pass that even ministers are found pretending to subscribe to the formulas of faith which have been held sacred by their denominations for centuries with 'mental reserve,' which, in my humble judgment, is downright dishonesty."

At the meeting tonight at 7:30 o'clock, Dr. Evans will speak on "Prayer."

Yale Takes Hand In Connecticut Health

NEW HAVEN, Conn., March 13.—Besides having a large share in educating Connecticut, through its summer college course for school teachers and its free public lectures, Yale university is having a hand in caring for the health of the state.

Yale's department of public health is making a study of health administration in twenty-one towns having a population ranging from 10,000 to 30,000, after having finished such studies in Hartford and New Haven among the big towns, and four small towns. The studies are intended to show what each place needs in the line of personnel and cash for an adequate public health service and are conducted in co-operation with local and state officials without cost.

AIRPLANE HANGAR

An airplane hangar near Paris is being built of a series of concrete arches, moulded in place.

Chosen, the dependency of Japan, used more than \$3,000,000 worth of petroleum and by products last year.

MOVIES' AID IN TEACHING TOLD

Usual Instruction Now Demands Something Informational

WASHINGTON, March 13.—"That the motion picture is an educational force of great, if static power, is generally recognized by educators. A. W. Abrams, director of visual instruction in New York State schools, says:

"Visual aids to instruction are physical equipment. Like the apparatus for natural science classes, materials for teaching drawing and tools for vocational instruction, projection apparatus and pictures of various kinds for class instruction must be provided by boards of education as an essential part of school equipment, or we shall make little progress."

"We do not have at present even a good beginning of an adequate supply of pictures that meet the educational standards for the schoolroom. In the field of motion pictures we find announcements of business concerns that claim to furnish a large number of films on all subjects. But on examination these have at best only a popular informational or entertainment value, not related closely to the school course."

Another's Views
In confirmation of this idea that the films are far from educational standards, comes word from the Los Angeles superintendent of schools, who, while believing in films as a means of instruction, thinks the obtainable educational films are few in number and poor in quality. She puts the case before the educational world in this way:

"The list of instructional films is meager. The scenario maker has never in thought a situation which will catch the public fancy; the educator requires a scene true to fact. The scenario writer plays upon the emotions; the educator tries to influence the judgment, to develop discriminating thought and fine appreciation."

"The imagination of the teacher must interpret this material for the child. She must see the significance of what is shown on the screen. After all, even visual education falls short without teacher presence and power. We must be sure that the teachers them-

Scandinavia's Quota Of Immigrants Short

WASHINGTON, March 13.—With very few exceptions, all immigration quotas for the fiscal year ending June 30 next have been exhausted. Under the present law a total quota of 357,893 for the entire year was permissible. So far 348,961 have entered the country, leaving only 8,407 immigrants who can be admitted between now and June 30 unless the provisions of the law are suspended or evaded. Considerably over half of this unusual quota is credited to the Scandinavian countries. Denmark can still send 1,564, Norway 1,698 and Sweden 1,397. France has an unused quota of 1,256; Estonia, 818; Austria, 521; Hungary, 378; Yugoslavia, 396.

Old Frontier Fort Now Indian School

WASHINGTON, March 13.—The Fort Wingate military post located in New Mexico and used as a station for soldiers to fight Indians, will soon be turned into a school to educate Indians.

The change came about as a result of the formal transfer of Fort Wingate property by Secretary of War Weeks to the Department of the Interior today, and arrangements are being rapidly pushed by the Bureau of Indian Affairs to convert it into a school for Navajo Indians with capacity of 500.

Builds Much Road

The French administration has built more than 1200 miles of roads in Morocco, most of them with camel drawn rollers.

U. S. Receives Millions From Public Land

WASHINGTON, March 13.—Enormous revenues have been secured by the United States government in the sale of its public lands, according to a tabulation just completed by the Department of the Interior through the general land office.

The figures representing receipts and expenditures since beginning of the nation's history up to June 30, 1923, show that net profits amount to \$39,487,874. The aggregate receipts for the sale of public lands to \$491,300,484, exclusive of sales of Indian lands, while the expenditure reached \$151,888,609.

Other country in the world, it is believed, has ever made so much money out of its public domain. In addition the tabulation shows that the government has paid \$88,157,389 for purchase and donation of lands of its public domain and has paid to the Indians, quieting and purchasing titles to portions of public land as well as annuities a total of \$208,776,031.

World Crop, Market Report Service Started

WASHINGTON, March 13.—World crop and market report service has been developed by the Bureau of Agricultural Economics, United States Department of Agriculture, to collect, summarize and interpret demand and competition in foreign markets. The news is flashed out by radio and telegraph, so that the farmer knows as soon as the trader size or condition of crops in other parts of the world.

Indian Population

While the Indian population dying out steadily the latest census shows that there are 340,917 Indians who are classified as such, living, as against 340,800 taken in the previous census. The calculation shows only a difference of 79 for deaths over births, and it is supposed each enumeration loses sight of a considerable number of those of Indian blood who each year meld into the population through marriages of sight of, or otherwise.

Searches For Adventure

"Tens of thousands of boys are nightly on our streets looking for amusement, seeking adventure, yearning for companionship. Many of them have no fathers, and the parents of many others give little heed to the places their boys visit or the companions they choose."

"Do we men owe no duty to those boys? Should we not provide places where such boys may meet and play and be under the influence of men of the right kind?"

ARMY MEN WILL FOLLOW FLIGHT AROUND WORLD

American Aviation Future Depends Upon Success of Air Cruise

The well-wishes of all the United States will accompany the four army aviators and their four mechanics when they hop off Monday morning at Clover Field for their around-the-world flight, but perhaps the heartiest wishes will come from Glendaleans who have met and talked with the aviators and know something of the hardships confronting them.

Only an army aviator, or a pilot who has handled a ship among the white clouds overhead for the United States Government, can realize the trials and tribulations before the picked crew. There will be endless reports (Continued on Page 6)

Eastern Star Will Admit Candidates at Two Meetings

Glendale Chapter, Order of Eastern Star, under dispensation, is to have two meetings Saturday, according to Worthy Matron Hermine S. Hudson.

A special meeting will be held at 2 o'clock Saturday afternoon in the Masonic Temple on South Brand boulevard for the initiation of eight candidates.

This gathering will be duplicated at night at 8 o'clock, when eight more candidates will be initiated.

SEEK N. Y. FIREBUG

NEW YORK, March 13.—Steven Kluback and his wife, Anna, are dead, while their two sons, John, 8, and Benjamin, 5, are in a critical condition, the result of a fire which early yesterday swept their apartment in a five-story lower East Side dwelling.

Police are seeking a man thought to have started the blaze as a means of revenge against Kluback.

INFANCY PERIOD TO FORM THEME AT P.-T. A. MEET

Noted Educator Will Address Association in Second Lecture in Course

"The Period of Infancy" will be the interesting subject discussed tomorrow morning by Miss Barbara Greenwood of the extension department of the University of California, Southern Branch, at the meeting of Glendale parents at 323 North Brand boulevard, for the second lecture in the series being given under the auspices of the Glendale Federation, Parent-Teacher Associations.

Miss Greenwood has a wonderful background of study, training and experience in kindergarten work. She graduated from the Chicago Kindergarten Collegiate Institute, studied at the Chicago Kindergarten Elementary College, the University of Chicago, Columbia University and the University of California.

Covers Wide Field
 Her experience in kindergarten work includes supervisor of kindergartens in Pomona; kindergarten training at the Los Angeles State Normal school; kindergarten primary training at the University of California, Southern Branch; member of the executive board of the International Kindergarten Union; president of the Southern California Kindergarten Primary Club; state chairman of the kindergarten unit in France, Inc., and three years on the state executive board of the Parent-Teacher Association.

Parents Invited
 She will speak tomorrow at 10 o'clock and all Glendale parents or others interested in hearing her and in attending the other lectures in the series are invited to be present.

The first lecture last week, by Dr. Helen B. Thompson, on "Nutrition and Growth," has been highly praised by those attending and the Parent-Teacher Association officers are anxious to have the lecture hall filled at all the succeeding lectures.

MUNICIPAL RADIO

The city of Cape Town is to have a municipal radio broadcasting station and may prohibit similar enterprises by private individuals for fifteen years.

Protection For Children From Auto Traffic Is Aim Of Glendale's Authorities

Glendale school children are to be safeguarded on the streets in front of the Glendale schools by some permanent warning of caution for motorists, either by a huge banner flung across the street or by the flash of a danger light on a post in the center of the street.

Richardson D. White, superintendent of Glendale city schools, made that declaration speaking yesterday afternoon at the meeting of the Glendale Federation Parent-Teacher Associations at the home of the president, Mrs. E. B. Moore, at 1259 South Maryland avenue.

Plans Take Form
 For many months the protection of children on the streets in front of Glendale school houses has been first in the hearts of parents and teachers, and the plans of school patrons and the city police department have taken definite form since the tragic death a month ago of a pupil of the Central Avenue school.

Since that accident Chief J. D. Fraser has detailed five special officers for duty in front of school buildings during the hours the children are thronging the streets.

And now, according to Mr. White, Chief Fraser is considering some method for placing a glaring warning to motorists to take care when driving past school buildings.

Safety for Children
 Mr. White stated that the chief has two plans in view. One for a huge banner, twelve feet long and three feet high, to be suspended on pulleys and put up every morning by the school janitor and taken down with the flag at night. The other plan is for a warning post in the middle of the street, bearing a red light.

"We are urging safety for Glendale children," said Mr. White. "We have provision for teaching it in our course of study. It is also important that the parents stress safety and it might be well to have a special meeting with a program on the subject."

Tells of Growth
 Mrs. D. F. Reichard, Federation historian, also spoke yesterday, giving some interesting sketches of the growth of Glendale as reflected in the growth of the schools and the Parent-Teacher Association.

Announcement was made by the membership chairman that the Glendale Federation now has 2684 members, which puts it near the lead in the membership contest of the first district.

Many of the officers and members are planning to attend the first district conference March 22 at Santa Monica.

A special feature of the informal meeting with Mrs. Moore yesterday was vocal music by Virginia Freeman, accompanied by Mrs. Roberta T. Young.

Mrs. Freeman sang "The Year's At the Spring" and "Dawn."

Late in the afternoon Mrs. Moore served delicious home-made cake and ice cream.

Those Attending
 Among those present were Richardson D. White and Mesdames D. F. Reichard, Dammern, S. L. Martinez, H. A. Thimm, M. B. Buckman, Emil Johnson, C. H. Ambrosch, B. L. Cline, C. J. Wheldon, Mary Rees, H. V. Henry, Mae Rosenberg, R. L. Young, Anna Torry, L. T. Rowley, George Moore, A. H. Brown, Florence Wintersgill, Dean S. Phillips, O. H. Spradling, S. L. Gillen, Mayer, C. P. Tedford, Burton, Berryman, Alexander, Kinney, Clark Johnson, C. H. Whitney, Peterson, Small, Baroness deRopp and Katherine V. Sinks, Eva Daniels, Corinne Orff and Mrs. Moore.

Why, you left your watch under the pillow this morning," she said. "You were not robbed. You—you—you are the robber," and she sank to the floor in a huddle over the prospect of her husband wearing prison stripes.

The timorous business man is now seeking the rightful owner, Mr. Pilling states, in concluding the story, but he failed to tell in what city this thrilling episode occurred.

Annual Junior Dance on Friday Evening

On Friday evening of this week the Juniors of Glendale Union high school will hold their annual dance in the girls' gymnasium at the Harvard high. The affair this year promises to be a big success, committees having worked hard to make things run smoothly.

The orchestra has been successful in obtaining the famous U. S. C. fraternity orchestra, which is noted for the class of music it plays.

The decoration committee has worked out a novel plan, not to be made public, so that the dance will have to be attended in order to enjoy the "scenery."

Search for Car Used By Pair In Hold-up

Officer La Rock of the local police phoned into headquarters this morning at 12:40 o'clock, stating that two men in a Ford coupe had just committed a "hold-up" on the Glendale avenue bridge across the Los Angeles river. The coupe carried license No. 991-947.

Lieut. Carnell, Sergt. Kerns, with Officers Claxton and Hédrick, spent the greater part of the night looking for the couple in question, as well as all patrolmen on beats, but the car was not found. Officer La Rock, who received his information from other parties, did not know who had been held up or how much had been taken.

USES SPRING CLASP

An Englishman has invented shoes that are fastened with spring steel clasps, resembling the laces they replace.

OFFICIALS AT CHEYENNE

CHEYENNE, Wyo., March 13.—Atlee Pomerene and Owen J. Roberts, special government prosecutors in the attempt to recover naval oil reserves in the Teapot Dome field of Wyoming, have arrived here.

1917 DOLLAR BILL NOT CALLED IN, BANKERS STATE

Evening News Reader Hears Rumors Which Reporter Runs Down

By THE CUB REPORTER
 Of The Evening News Staff.
 "The Glendale Evening News: "Would be interested in a write-up on the 1917 dollar bill. Is it being called in, or are the reports of it being propaganda, and the engraver being imprisoned, correct?" "A READER."

In reply we will say, dear reader, that they have been called in so far as we are concerned. In fact, they might as well never have been issued.

But while running down your hot tip we had the pleasure of sitting in several magnificently appointed offices, talking with bank presidents, and handling the dear scraps of paper. Really, we have to thank you for a most enjoyable afternoon. Bank officials reach into the till and show us the bill you refer to.

Not Called In
 In reply we can authoritatively state that they are not being called in. The only thing the matter with them is that the government did not issue enough to go around.

If, as you suspect, the engraver has been imprisoned, he undoubtedly met a just fate for stopping the press before the run had been completed.

The bill to which you refer is supposed to have several symbols of a religious nature in the engraving. But if these are there, it does not affect the par value to any appreciable extent, as any bank in Glendale will take the bill for its face value.

Another Rumor
 Diligent inquiry fails to locate the imprisoned engraver, but a rumor is heard that he has been released to make room for possible incarcerations as a result of the Teapot business.

We were not able to ascertain whether Albert Fall received this kind of bill from Doheny, but reliable information leads us to believe that the bills in question were of larger denomination.

In closing, let us advise you to get hold of as many as possible and guard them with your life. Our favorite banana peddler when interviewed on the subject, said:

De little scrap o' de pap,
 Mark-a nineteen seventeen,
 Make-a me Harry Sinclair
 Or Edward L. Dohene.

Directs Cast

GRANVILLE F. STURGIS, who is directing the rehearsals for "Mice and Men," to be presented Thursday and Friday night, March 20 and 21, in the Harvard High school by a cast of players of the drama department of the Community Service, of which Mrs. Max Lynn Green is chairman.

STAGE STUDENT HELPS PLAYERS IN THEIR WORK

Granville Forbes Sturgis Aids Community Service 'Mice and Men'

Glendale should have a community theatre, is the opinion forcibly expressed by Granville Forbes Sturgis, who is directing rehearsals for "Mice and Men," to be presented Thursday and Friday nights, March 20 and 21, by a cast of players of the drama department of the Community Service, with Mrs. Max Lynn Green as curator.

Mr. Sturgis' interesting career is told by Mrs. Green. At one time he was a member of the New York Bar Association, but the lure of the footlights was too strong to resist, so he abandoned legal activities to write plays. From a child he had been appearing from time to time in New York productions, and when a student appeared frequently in dramatic stock in Western cities.

Publishes Book
 Just before the war Mr. Sturgis returned to the university and took up intensive study of modern German drama and its psychology. The outcome of this study was not a book on a German dramatist, but one on a Belgian, entitled "The Psychology of Maeterlinck as Shown in His Dramas." This volume has been adopted in many universities as an example of psychology applied to literature.

A period of lecturing in university and on the Chautauque platform followed, and Dr. Sturgis made an ardent pleas for new dramatists, the new stagecraft and the little theatre movement.

War entered in to stop all this labor. Mr. Sturgis enlisted soon after America entered the war and served for part of two years in London with United States base hospital No. 29. After discharge he dropped back into the seclusion of private life, although continuing his studies.

Later he lectured at the University of Denver in Colorado and gave a course in "Educational Dramatics" for students desiring to be professional actors.

Following this he spent six months in Europe in the Latin quarter of Paris, some time in Berlin and London, and then returned to his winter home in Hollywood.

Mr. Sturgis strives to live up to Gordon Craig's ideal of an all-around stage director, for he is able to design a set or costume. (Continued on Page 6)

Plan Annual Concert By Girls' Glee Club

The Occidental Women's Glee Club will present its annual concert March 27 in the Tiger chapel. The girls have a unique program arranged and are to sing many of the popular favorites. The club will be at its best on this occasion, when the entire student body and friends of the institution attend. The girls have already made several tours around the South, presenting splendid programs. The concert is open to the public.

Auto Hits Fire Plug, Upsets, Driver Hurt

Roy Brucker, 221 East Acacia street, ran his Ford car into a fire hydrant at Louise and Lomita streets shortly after 7:30 o'clock last night, overturning the machine and damaging the hydrant.

Dr. J. E. Eckles attended to his injuries, which were of a minor character. He is to appear today and pay for the damage resulting to the fire plug.

About 1624 languages and dialects are spoken in America.

South Brand Boulevard

SPORTS

BRITISH-AMERICA MEET ADVOCATED

Post-Olympic Meet Between Two Nations' Athletes Is English Plan

By DAVIS J. WALSH
For International News Service.
NEW YORK, March 13.—With the commendable idea of providing diversion for dear old London, a plot is thickening whereby the Olympic teams of the United States and Great Britain will take issue in an international dual meeting, sequent to the Olympic games in Paris this summer. The idea is strictly England's own and it has even gone so far as to dispatch one Richmond Temple, director of the London association, to see what can be done about it.

Temple hopes to convince A. A. U. officials that the enterprise will be for the best. He will go into immediate conference with them, armed with pleas calculated to prove that the meet will react favorably upon the amicable relations between the two countries and can be conducted with slight expense to either, to say nothing of the prospect of much profit.

Help Trip Expense
It is understood that Temple can promise the use of a stadium seating 250,000 for the affair. In this case, an attendance of 50 per cent would go some distance toward underwriting the expense of the entire American trip, he declares.

Present plans call for a program of twelve events, most of the standard variety, with first places only to count, according to continental system of scoring.

There is no catch in the thing, Mr. Temple intimates. The British have nothing up the sleeve, behind the ear or under the arm pit. They expect to lose.

HAUGDAHL WANTS SMALL MACHINE

Speed King Is Seeking Car Just Like De Palma's For Next Race

When Sig Haugdahl meets Ralph DePalma in a match race at Ascot next Sunday he will be driving a car of the same piston displacement and horsepower. That decision was announced today by the 180-mile-an-hour speed king because of the belief that he has been trying to take advantage of the Italian star by using a bigger motor.

"I am trying to buy a 122-inch Miller eight-in-a-row motor that will be identical with DePalma's car," Haugdahl announced this morning. "This claim that I want a couple of aces in the hole is entirely wrong and now I want to beat DePalma in a car with the same kind of a machine that he will use. It is true that I am a strong believer in open class races with no restrictions on motor power or speed. I built up my Fiat for speed and will drive it against any car in the world on a dirt track, but now that it is barred, I am satisfied to race DePalma with a smaller machine."

Interest Aroused
No race ever promoted in the country has aroused so much interest as the DePalma-Haugdahl match event. Speed fans throughout the entire state are wiring for seat reservations and it is now certain that the greatest crowd that has ever witnessed a dirt track competition in America will be on hand to cheer their favorite.

To get the drivers together demanded no little diplomacy from President George Bentel. He opened up the bank roll and drew out a \$15,000 purse for the event, \$10,000 to go to the winner and \$5,000 to the loser. This is the greatest purse ever offered for a dirt track race in America.

Besides the world's championship match race Sunday, eight other events will be on the program in Bentel's thrill bowl. Three of these will be for the motor biker riders, who last Sunday provided the greatest thrills of the day.

Redlands to Forfeit Track Meet With Oxy

Redlands University has notified Occidental College that the Bulldogs will forfeit the track meet with the Tigers scheduled for next Saturday afternoon. The Bulldogs have made a poor showing this year and do not consider it worth while to journey over to Oxy and get swamped. The Redlands tracksters were easily defeated by S. B. U. C. and the Cubs were shattered by Pomona.

The track manager, Tevis Westgate, is making every effort to have the Fullerton and Santa Ana Junior Colleges combine and meet the Tigers on Patterson Field Friday afternoon. The next conference meet will be a week from Saturday when Oxy will swoop down upon the Sagehens at Claremont.

OLYMPICS IN RACE

KANSAS CITY, March 13.—The Olympic basketball five of San Francisco survived the third day's play in the national A. A. U. tournament when they defeated the Leacocks of St. Louis, 42 to 31.

Rumors, Denials, Alibis

By F. A. GRAHAM

Over in the Berkeley Hills district a structure representing an original cost of \$750,000 is being razed to make room for an ever increasing population. In a few weeks every sign of the structure will be gone from the many acres it has occupied and a horde of salesmen will swarm over the ground, selling lots to the home-seekers. In a few more weeks, bungalows of every description will begin to take form and the Beverly Hills Speedway, the fastest board track ever built, will be forgotten by all except a very few.

Harlan Fengler will not soon forget. His is the honor of winning the last race on the track, held February 24, and of having established a new world record for the distance of 250 miles, driving it at an average speed of 116 miles per hour, which means that he turned many laps in excess of that rate. Fengler achieved this honor by a remarkable performance in a car that had once been sold as junk to George L. Wade.

Fengler's start as a driver and who met his death on the Beverly race track in an accident last Thanksgiving day, when he stepped onto the track and was struck by a flying racer.

Graduates from Ranks
Fengler was taken up by Wade and given his chance to graduate from the ranks of mechanics. Fengler, although a mere youth, justified his patron's confidence in him by driving the most perfect race ever run on the Beverly bowl. He drove the entire distance without a stop. As the boy said, "He never even hesitated." Not only that, but he led the field, which included some of the world's most famous race drivers, from the start to the finish, never once being headed and after a quarter of an hour piling up a lead that it was impossible for the veterans to overcome, with all their track craft. It was Fengler's first major victory and his only regret was that his patron and friend, George Wade, was not present to share in the victory.

Beats Sarles Race
Fengler's victory over-shadowed the performance of the late Roscoe Sarles in the Thanksgiving day race, 1920, when Sarles won over the same distance without a stop, driving a clever race and defeating a field of celebrities, several of whom drove the famous Duesenbergs. In that race George Chevrolet, Eddie O'Donnell and Lyall Jolles were killed on the south turn in a crash between the cars driven by Chevrolet and O'Donnell. Jolles was O'Donnell's mechanic. Chevrolet's mechanic escaped death by a narrow margin. Those were the days of two-man racing cars.

The Beverly bowl was built in 1919. The first race was held February 23, 1920, and was won by Jimmy Murphy. Thanksgiving day race, 1920, won by Roscoe Sarles; Washington's birthday race, 1921, won by Ralph DePalma; Thanksgiving race, 1921, won by Eddie Hearne; Tommy Milton, second; Howard Elliott, third; Washington's birthday race, 1922, called at the end of the ninety-first lap on account of rain. Milton was leading, Hartz, second, and Thomas, third. Race re-run in March and won by Milton. Murphy finished second and Harry Hartz third. Thanksgiving race, 1922, won by Murphy, who broke all records from 100 to 250 miles. The veteran, Earl Cooper, finished second and Hartz was again third. Washington's birthday race, 1923, won by Murphy, Benny Hill, second, and Ralph DePalma, third.

Fires Injure Track
Fires, believed to have been of incendiary origin, destroyed portions of the track late in the summer of 1923, but it was rebuilt both times and the Thanksgiving race was won by Hill, with Murphy second and Hearne third. It was in this race that Mr. Wade was killed, as was Russell Hughes, a newspaper photographer, when they stepped onto the track and were struck by the car driven by Harry Hartz, who was making a practice lap.

The final race was held February 24, and was won by Harlan Fengler, followed by Jerry Wonderlich and Harry Hartz, a trio of the youngest drivers in the sport. Fengler won \$9000 in prize money and Wonderlich won \$4500. Harry Hartz received \$2000.

Thus the famous track closed its career in a record-breaking, although not a spectacular manner. Fengler's drive was too consistent to be spectacular even though he established a world record.

Plans have already been made for the erection of a new board track at Arcadia, where once ran the famous Lucky Baldwin horses. So, as the subdividers descend on Beverly, it is "off with the old and on with the new."

The rumor that Ping Bodie had been disposed of by the Vernon club has been denied. The latest via our weegee board is that Ping will be in the outfield as a Tiger again this year.

Jimmy McDowell from Wichita continues to loom as hefty and speedy first baseman. He stands out from the mob so far as a coming sensation, both with the club and in the field.

The Tigers are none too solid in the pitching department either, although they appear to have a good layout in all other departments.

NEW DOG DERBY MARK

THE PAS. Man, March 13.—Another world's record was broken Wednesday when Shorty Russick, ace of mushers, drove his team of hounds to victory in the annual 200-mile Pas dog derby in the phenomenal time of 23 hours and 42 minutes, leading a field of ten teams. Russick's time was 1 hour and 10 minutes faster than the world's record, made by C. B. Morgan's team in 1922. Alex McDonald ran Russick a close second across the finish line 30 minutes later, and Bill Grayson took third place.

PRACTICE SCHEDULE

WINTERHAVEN, Fla., March 13.—Seventeen Sox prospects and regulars have been nominated by Head Coach Johnny Evers for a visit to Sarasota, Bradenton and St. Petersburg for exhibitions with the Giants, Cardinals and Braves.

COLD HALTS MACKMEN

MONTGOMERY Ala., March 13.—Cold weather that sent shivers through Athletic frames continued today to discommode the Mackmen. But the twirling of Harris has warmed the heart of Mack.

MAY LAND SHORTSTOP

AVALON, Catalina Island, Cal., March 13.—The Cubs may soon land a major league shortstop in a big trade, according to training camp reports. Bill Killifer still confronts the problem of filling that position to his satisfaction.

GIANTS RESUME WORK

SARATOGA, Fla., March 13.—The weather having moderated, John McGraw today ordered his entire squad of Giants out for a practice game of six innings.

Tiger Track Team to Tackle San Diegans

The Occidental College freshman track team, headed by Captain Mahlon Shaver, is preparing for the track festival with San Diego High School next Saturday afternoon. The Tiger peagreeners leave Friday morning for the southern city. The entire team is living up to expectations and have started the season right by handling Manual Arts, Huntington Beach and Glendale high schools the short end of the score in track meets staged so far this season.

The Oxy frosh are aiming at the conference championship. Trainer Pete Toole is keeping the fellows in excellent condition. Miller, the crack miler, injured his leg in the Glendale meet Monday afternoon and is not likely to run against San Diego.

Oxy Net Stars Will Play Pomona College

Occidental's varsity tennis team is scheduled to meet Pomona College in a tournament to be held at Oxy Saturday morning. The Tigers are leading the race for the conference supremacy and are favorites to win from the Sagehens. Oxy has defeated Calteck, Whittier and Redlands, and will probably meet S. B. U. C. a week from Friday for the title.

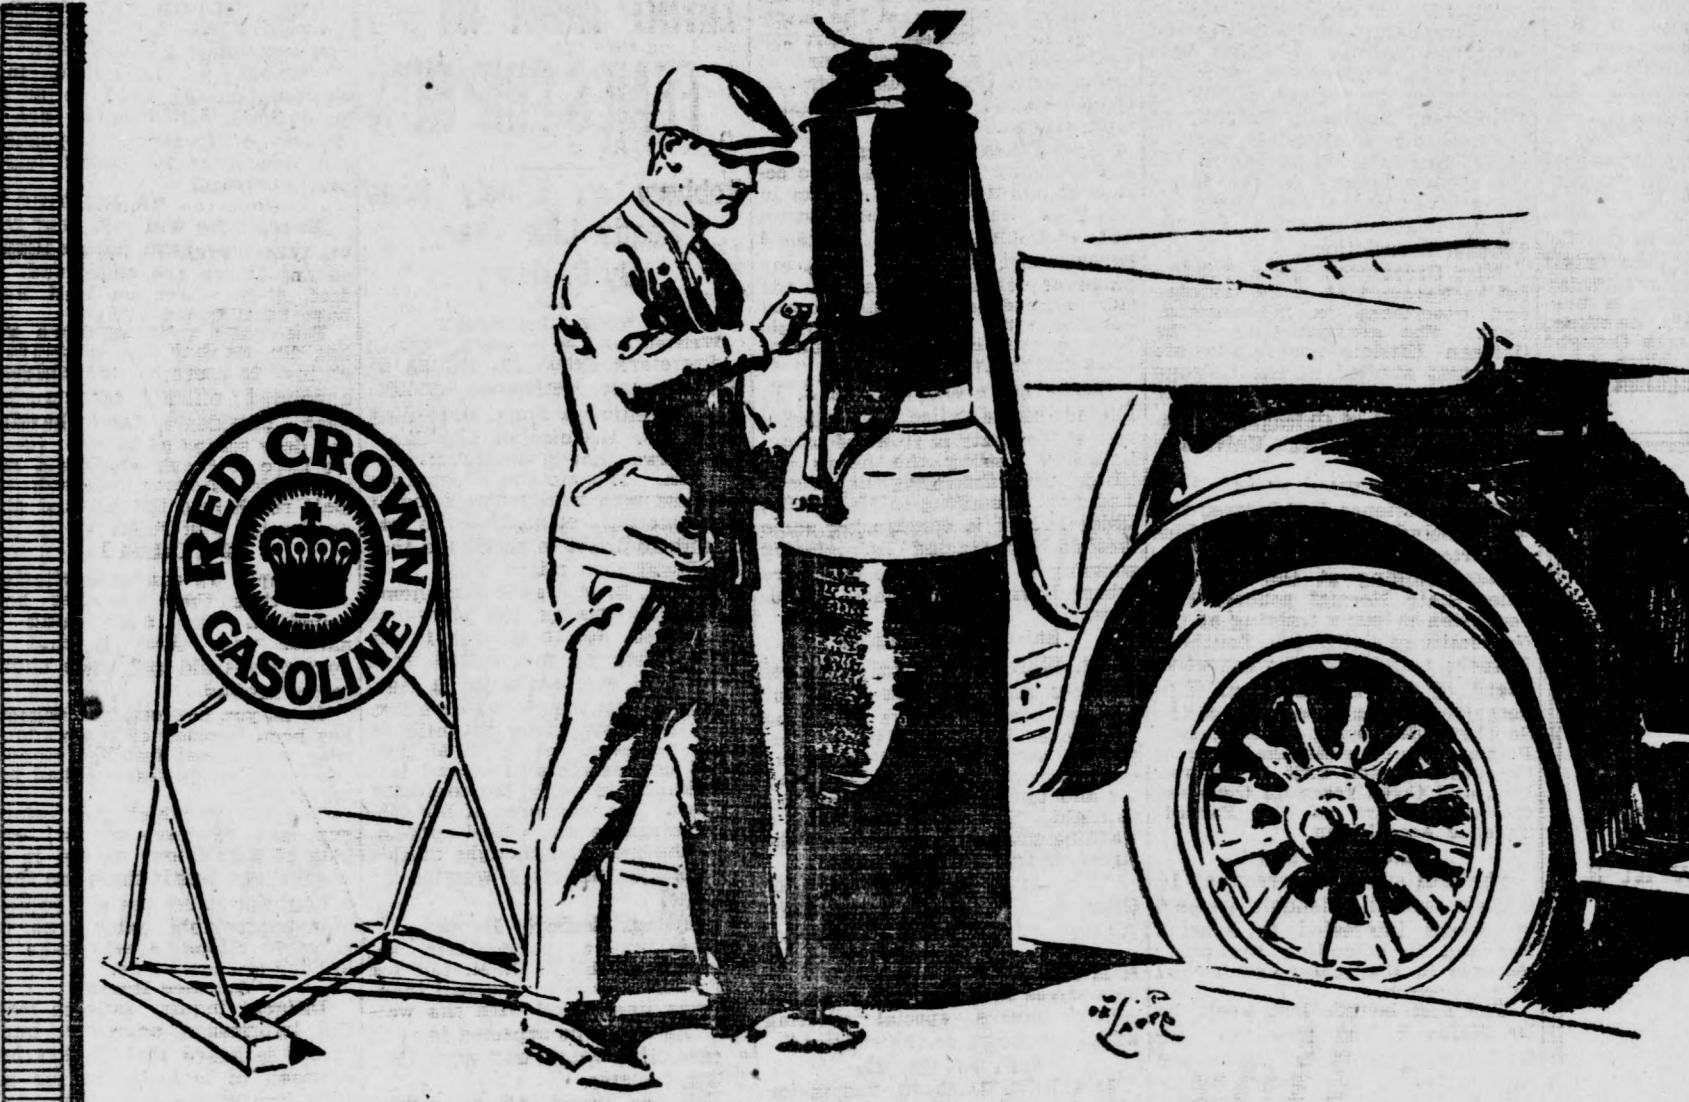

Calteck fell before Oxy 6-to-1 and the Engineers defeated Pomona, so the Oxy team should experience little difficulty. Palmer, Finnell, Boice and Creighton are hitting their form and improving steadily. Raymond, who day afternoon and is not likely to run against San Diego.

Track Squad Invited To Des Moines Meet

Coach Pipal, Oxy track mentor, is in receipt of a telegram from Governor N. E. Kendall of Iowa inviting the Occidental track team to compete in the forthcoming relay carnival to be held at Des Moines, April 25 and 26. Whether Oxy will send a team to Drake or to the Penn relays is undecided, as both meets come on the same date. It is assured that the relay team will enter either the Drake or Penn events.

is the fourth man but who has been illegible for the previous matches, is back in the game and will pair with Boice in the second doubles.

These dealers sell gasoline that's always good!

The dealers listed here protect their customers by selling Red Crown gasoline, which because of the exacting production standards maintained by this Company, is uniformly reliable, always and everywhere.

Protect your car by patronizing the dealers who protect you. You'll never have to drive very far to find a red, white and blue Red Crown sign, and your car will run better and farther if you let nothing go into your fuel tank except clean, reliable "Red Crown." Quick on the start, prompt on the pickup, economical on the long run—"Red Crown" has all the qualities you demand of a motor fuel, and has them uniformly.

Incidentally, it's worth reflecting that the garage man, service station, or other dealer who refuses to let his customers take chances with inferior or unknown motor fuels, is likely to be equally responsible and reliable if your car needs inspection or repairs.

Look for the Red Crown disc and the red, white and blue pump—the two signs that identify a reliable dealer.

KNOCK-OUT KING MAY LOSE CROWN

Jack Delaney May Interrupt Berlenbach's List of Straight Victories

NEW YORK, March 13.—That Paul Berlenbach, the most talked-of figure in pugilism since Jack Dempsey first began knocking them over back in 1918, fears the worst from Jack Delaney tomorrow night, was indicated today, when his manager, Dan Hickey, declared that Paul would be sent after a knockout from the bell. Berlenbach has scored the amazing total of twenty-five knockouts since turning boxer, but Hickey frankly admitted that he entertained a suspicion that Delaney might not be the twenty-sixth.

Manager Worried
"I will not sleep comfortably until after tomorrow night," quoth Hickey. "My man can punch with the best of them, but he has much to learn. I wouldn't want to see the bout go too far. In fact, I will send Paul out after a knockout from the first punch. I know that Delaney packs a wallop himself, and it wouldn't be good business to give him too much time to play around with it." Hickey's statement concurs with common opinion on the affair, agreement being almost unanimous that Berlenbach has picked a live one by mistake. Vox populi has stormed the portals at the garden for three consecutive days with the result that there isn't a single reserved ticket remaining in the box office. The unreserved sections will be placed on sale tomorrow night before the bout, and all purchasers must pass in immediately in order that ticket speculators may be thoroughly spoiled.

Don't Be Surprised If Kiviat Joins U. S. Olympic Runners

Abel Kiviat in action at the height of his career, and a more recent portrait of him

By NORMAN E. BROWN
It is within the range of possibilities that Abel Kiviat, wonder of the cinder path a dozen years ago, may cross the Atlantic this coming summer as a member of America's Olympic team.

When Kiviat finished second in a grueling two-thirds mile race at the Metropolitan senior indoor games in New York the other night he proved, at least to himself, that he can stand the gaff in a tight race, and he appeared to most critics to be in remarkably good form. Experts agreed that he seemed to have the form, confidence and much of the speed of former days.

Back in 1911 Kiviat flashed across the athletic horizon as the "Joie Ray" of his day. He won his first national mile championship that year. The following year he was a member of the United States team for the Olympic games. He surprised even his staunchest supporters when he ran Jackson, British veteran, ragged in the 1,500-meter event. Jackson won by a fraction of an inch.

Kiviat continued to shine at home for several seasons and then, with some years still ahead of him, he got in "dutch" with the Amateur Athletic Union and drew a suspension. Barred from the main meets, he dropped from the game.

A year or so ago Kiviat obtained reinstatement and set about quietly to come back. His

first test found him finishing second to Mike Devanney in a middle-distance event. Then came his exhibition the other night.

The Olympic committee realizes that the European competition the team faces demands that no stones be left unturned in their efforts to strengthen the spiked-shoe squad. For this reason Kiviat's condition will be given careful study and every opportunity will be given him to prove his mettle as a comeback between now and June, when the Olympic squad sets sail.

Sport Crucible

By DAVIS J. WALSH

Clark Griffith Listens
Miller Huggins is the tolerant type of manager who is pleased to accept suggestions from those under him. John McGraw isn't. Neither is Connie Mack nor Frank Chance. They use the one-man system and use it well.

There may be something to say on both sides of a given question, but McGraw, Mack and Chance will do the saying. So will Clark Griffith, if he ever again takes up the managerial end of the game. Griffith listened once and once was a great plenty. It cost him a pennant as manager of the old Yankees.

"We were to go to Boston for a single game in the final week of the season and then return to New York for a double-header the next day," says Clark. "I told Jack Chesbro to stay home because he had pitched the day before and was due to pitch one of the games the following day."

"He pleaded to be taken along and I listened. Chesbro was to be presented with some gift by friends in Boston, so I let him have his way. Mistake Number One.

"The crowd was so great in Boston that we had to move our bench out along the first base line. I didn't see Chesbro again until game time, when he came to me, said he had warmed up and was ready to pitch. I said no, but Willie Keeler and others got at me and I consented.

"They knocked Chesbro out of the box, we lost the game, the double-header in New York the next day and finally the pennant."

"Small, But a Work Divine"
This minute steak's a beaut.
The wily magnate cried.
I fear 'tis too mi-noot.
The hungry rookie sighed.
—PLS.

An Olympic Bet or Two
The present indoor track and field campaign, of more than ordinary moment because of the proximity of the Olympic games, has developed many fine prospects and three real stars among the young runners, namely, Joe Tierney, of Holy Cross; Schuyler Enck, of Penn State, and Lloyd Hahn, of Boston.

There may be at least one individual victory at Paris to be found among this trio. The writer happens to like Tierney at 400 metres. He has done 58 seconds for 500 yards, a world's indoor record, and is coming all the time. At that, there wasn't a half miler in the world who would have beaten Enck the night he did close to 1:54 for 800 metres, indoors. Hahn also is coming but probably will have to come too far to head off Nurmi, of Finland, and Wide, of Norway, at 1500 metres.

BYRD READY FOR ANDERSON CLASH

Two Former Champions to Grace Ring Side at Tonight's Bouts

Eddie Byrd of the local athletic club and Ad Anderson, who meet in the main event of the fight card to be staged tonight, each stated this morning that he is in fit condition for the go, and if declared the loser, will have no alibis to offer.

The same goes for Cecil Taylor and George Lavoy, who clash in the semi-windup. The former has had a lot of fights lately and keeps in good condition all the time. He is also a favorite with local fans.

Other events carded are a special event between Jimmy Racer and Jimmy Gordon; Ted Rose and Eddie Richards, Eddie Kelly and Jack Turner.

Two Ex-Champions
The management states that there will be no confusion tonight as a sufficient number of ushers will be on hand to take care of the crowd which is expected. An added attraction will be the

TENNIS TEAMS MEET

The Oxy varsity tennis team will meet the Pomona racketeers on the Occidental courts tomorrow, instead of Saturday, as was scheduled. The Sagehens and Tigers both agreed to change the date to Friday, and so the match will start at 1:30 p. m. tomorrow. Oxy has won every match. The Pomona team has not fared so well, losing to Caltech.

SEALS OPEN SERIES

SAN FRANCISCO, March 13.—Fresh from their spring training camp at Boyes Springs, the San Francisco Seals prepared today for the opening of their eight-game series here tomorrow with the Kansas City Blues of the American association. Manager Ellison plans to use Mitchell and Buckley as pitchers in the opener.

HOLDOUT COMES IN

LOS ANGELES, March 13.—Pete Lapan, Little Rock catcher, who has been holding out, has come to terms with the Southern association club. Bob Meusel leaves today to join the New York Yankees at New Orleans. Bill Essick of the Tigers may not release any of his players until after the season starts.

PLAYS AT LONG BEACH

LONG BEACH, Cal., March 13.—The Los Angeles club and the Chicago Cubs will stage their first exhibition game here tomorrow. Babe Twombly, who is holding out, is scheduled to have a meeting today with J. P. Patrick, president of the Angels.

presence of two ex-heavyweight champions, Jim Jeffries and Jess Willard of Burbank and Glendale. They have assured Pete Essick, matchmaker, that they will be on hand.

NEW PLAYERS SCARCE

SACRAMENTO, March 13.—Sacramento will have only two or three new faces in its club roster this year, it was learned today. Charley Hall, pitcher, and Art Smith, outfielder, are two newcomers to start the season with the Senators.

YANNIGANS SCORE

PASO ROBLES, Cal., March 13.—Bill McKechnie thinks so well of his yannigans after yesterday's game, when the youngsters again defeated the regulars, 6 to 5, that he says he might accompany them to San Jose next Sunday.

PHILLIES VS. DODGERS

LEESBURG, Fla., March 13.—The Phillies were primed today to show their stuff in an exhibition game with the Brooklyn Dodgers at Clearwater. It will be the Phillies' first opportunity of meeting with curve ball pitching.

THE GLENDALE

"Judgment of the Storm," massive Palmer Photoplay company's production starring Lloyd Hughes, Myrtle Stedman, George Hackathorne and Claire McDowell, shows at the Glendale Theatre for the last times today.

"Judgment of the Storm" is just what it represents itself to be. That is, the action does pivot on a certain thrilling snow flurry; or rather, the action hastens to the storm point, and then all troublesome threads of narrative are suddenly knit. A newcomer in the scenario writing field, Ethel Styles Middleton, cooked up this plot. I thought you embryo scenarioists would be interested to know! She uses her storm as a solution, partly as such a freak of nature was used in that forest fire play called "The Storm."

HOBSON LOOKS GOOD

MYRTLEDALE HOT SPRINGS, Cal., March 13.—Grant Hobson's arm is in great shape and he is pitching better ball than ever for the Oaks. Adams at second base has rounded into mid-season form.

PILLETTE IN SHAPE

STOCKTON, Cal., March 13.—Manager Bill Kenworthy was elated today over the condition

THE GATEWAY

"Pied Piper Malone," Paramount feature now showing at the Gateway Theatre, offers Thomas Meighan in a new sort of story, a romance with some kiddies, a girl and a novel screen idea. Booth Tarkington wrote the story. That ought to be enough.

If it isn't, consider the cast supporting Mr. Meighan. It includes Lois Wilson, Emma Dunn, George Fawcett, Cyril Ring, Hugh Cameron, Charles Mussett, Walter Downing and Harry Mayo. Veritably an all star cast.

"Pied Piper Malone" is a story of sea-faring folk, ships and shipping—of small-town romance with an appeal not unlike that of "The Bachelor Daddy." Mr. Meighan had a good taste of the sea in "Homeward Bound" and has tried his luck at it again.

RED SOX FREE FOUR

SAN ANTONIO, Texas, March 13.—Four Red Sox players were released to the San Antonio Bears. They were Pitchers Clarence Blethen, Dealy Marshall; Infielders Frank Fuller and Ewell Cross.

of Ted Pillette's arm. He expects Pillette to be a mainstay of the Portland hurling staff this season.

Dry Chief to Probe Admiral's Wet Charge

WASHINGTON, March 13.—Prohibition Commissioner Haynes has been called upon by the White House to investigate charges of Admiral Plunkett of the Brooklyn navy yard that Washington was the "wettest city in the United States." Haynes called at the White House and was advised by Bascom Slemp, the president's secretary, to communicate with Plunkett to determine where the latter got the information upon which he based his sensational allegation.

BANKS ON PITCHERS

NEW ORLEANS, March 13.—Manager Miller Huggins today predicted the Yankee "five star" pitching staff would win 95 games in the American league this season and that two youngsters, Roettger and Pipgras, should bring the total up to 105.

TIGER REGULARS WIN

AUGUSTA, Ga., March 13.—In the first practice game of the season, the regulars beat the second team, 3 to 2, in six innings. Manager Cobb says he expects Cole, Tiger southpaw, to be one of the Bengals' winning hurlers this year.

Daily News Letter

General News and Gossip from Staff Writers at Home and Abroad

By DAVID M. CHURCH For International News Service

LONDON, March 13.—If there is any one man in all England who dislikes a controversy it is A. S. M. Hutchinson...

It seems that Hutchinson brought down the wrath of England when he wrote in a preface to a new edition of one of his books...

"I believe that home life in the dimensions that has helped to make us what we are is passing."

That was all that was necessary. The trouble began. G. K. Shesterton, who is always spoiling for war, took up the gauntlet.

Really, this is a matter of proportion, said a masterston. "There is undoubtedly some tendency toward the decay of home life; but my wife and I aren't like that. We love our home."

"There is definitely what I may call a group of evil in modern life, but the majority of people are not included in that group. Moreover, the fear that we are going to the dogs did not originate yesterday. It is always cropping up, and though there may or may not be a number of people who ruin their home life through love of self I doubt if there are more people of this sort today than there were yesterday. Our homes seem fairly safe."

Lady Terrington, M. P., next rushed into court with her testimony.

"Oh, no! our English home life is not passing," she declared, "despite the rush of modern life and the temptations to selfishness. My husband and I are busy all day, yet I know that both of us are glad to reach our home when the day's work is done. I believe that the roots of English home life are deep down and will never be uprooted."

"This is an undeserved attack on English mothers," bewailed Lady Griffith-Boscawen.

"Everyone knows that homes can never pass so long as nothing can compensate for their absence," observed Gilbert Frankau.

Nearly every "first night" in London nowadays is a riot. It has come to this stage because of

the great strength of the gallery first-nighters. They have formed a club and have headquarters and appear to have designs toward a great influence on the English theatre. At the conclusion of first-night performances they let the whole world know what they think of the performance—the performers, the producers and everything connected with the theatre. They have no fears and little or no tolerance for the rest of the audience. Sir Gerald du Maurier was recently subjected, during his last first-night, to a severe oral spanking from the gallery because he had raised the price of gallery seats ten cents. Sir Gerald threw up his hands and reduced the price of the seats in the gallery.

The light cavalry officers, lounging about their Piccadilly clubs, are worried about the Prince of Wales and his horses. They are attempting to bring influence to bear to force the Prince to ride smaller horses. They maintain that the prince is too small a man for the large, heavy mounts which he has ridden of late and attribute his recent accidents to this fact. "It's just like a pea on the top of a bass drum," they claim.

The prince, however, has shown amazing independence and will probably continue to choose his mounts for their speed and fire rather than for their size or safety.

For years and years Drury Lane has been the seat of real good old-fashioned blood-and-thunder drama; now it is threatened with a refining influence. Basil Dean, one of the best of England's young producers, has taken over the direction of Drury Lane and is attempting to introduce some of his high-brow ideas into the production of the melodramas of Drury Lane. He is having his troubles too.

Joe Beckett, who retired from the ring after his last fight with Georges Carpentier, is reported to be anxious to stage a comeback, having become restive in the security of married life. Joe has a long way to come, and it's doubtful whether he is going to be loudly cheered on his way back. If Joe gets any engagements it is probable that he will have to fight his way up along the path of the ham-and-bean fighters.

BRINGING UP FATHER Of all the family, father is apt to be the most careless of a cough or cold, and it is the duty of mother or the girls to see that he takes his medicine. FOLEY'S HONEY AND TAR COMPOUND at the first sign of a cough, cold or hoarseness. After he once tries it, finds out how effective and pleasant it is to take, he will not hesitate to use it always. Contains no opiates. Safe and sure. Has served three generations.

CLAIM RADIO 'MOVIES' POSSIBLE

Pictures Sent Through Air By New Device

Prismatic Ring, Sending Apparatus, Laboratory Test Set

Photos show the prismatic ring, the new optical shape in glass which has made possible the transmission of photos by radio, radio movies and radio vision. Light passing through these rings in rotation is given an oscillating movement. The laboratory test set for radio movies and radio vision, for the home, is the result of thirty years of experience in motion picture research work by C. F. Jenkins. A plurality of lens elements on a 10-inch disc in front of a prismatic ring to rotate by motor. This light is in small round box at top behind lens carrier, and shines through the lens prisms as they pass, fluctuating in value to make the moving picture on the screen (not shown). Disc is 10 1/2 inches in diameter. A box 10x12x15 inches encloses everything. The radio photo sending apparatus—lampshouse at left, prismatic rings in front of it, light-sensitive cell at extreme right, time three minutes; distance determined by power of radio broadcasting station.

By FRANK SAVAGE For International News Service

NEW YORK, March 13.—Moving pictures by radio are now an accomplished fact, according to C. Francis Jenkins, of the Radio Pictures Corporation, of Washington, D. C. Jenkins, who is a member of the Franklin Institute, the American Association for the Advancement of Science and other scientific bodies, in a letter to the writer declared that transmission of motion pictures is a daily occurrence now in his Washington laboratories.

Motion picture transmission Jenkins wrote, has not been developed, of course, to the point of excellence available in "radio photos," but this degree of perfection is only a matter of time—and speed, he believes.

According to Jenkins' letter, which was accompanied by samples of pictures sent and received by radio, the newest and most important development in radio picture transmission, in radio movies and the motion picture industry generally, is a new optical device called the "prismatic ring."

Build Home Machine A "home" machine already has been built whose exterior resembles the popular cabinet photograph, which is said to be capable of producing motion pictures by means of a patented multiple-disk comprising a series of consecutive scenes. This device also employs an application of the prismatic principle, although in this case the glass element is in the form of a band instead of a disk.

Jenkins declares the prismatic ring to be the only important development, aside from refinement of details, made in the motion-picture machine since its commercial inception. "The present popular type of motion-picture projector," he declares, is inherently limited by the principle which requires the film to be drawn before the

lens in a succession of intermittent jerks. The prismatic ring is said to eliminate this. More Radio Bugs If home-made radio movie sets become as popular as the prevailing radio receiver the average home or apartment will soon take on the appearance of the municipal electric light plant, and the specs radio widow will multiply. For more equipment, of course, will be necessary for the reception of radio impulses which can be transmitted into moving pictures than for those which merely must be turned into audible sounds. Use of the prismatic ring, also, is required both at the sending and receiving ends. This new optical device consists of several glass disks of graduated thickness, with axes parallel and radii at right angles. They move at different speeds, but maintain a definite, invariable speed ratio. A ray of light passing through them is deflected, through the prismatic effect of the glass, and an oscillating movement is set up. These oscillating rays, of varying intensity, comprise the basic principle in the sending and reception of radio "still" pictures and "radio movies."

Send Still Pictures While awaiting further development of "movies by radio" the art

Uncle Wiggily Bedtime Stories

By HOWARD R. GARIS

UNCLE WIGGILY AND THE TANGLED STRING Uncle Wiggily was sitting, half asleep, in his easy chair one afternoon, when there came a knock on the door of his hollow stump bungalow. Nurse Jane had gone down to the five and six cent store to price new pianos, and the rabbit gentleman was all alone.

"My goodness! I wonder who that can be," exclaimed Uncle Wiggily to himself, awakening as he heard the knock. "I hope it isn't any of Nurse Jane's animal lady friends—I haven't shaved yet and I don't look very stylish to go to the door."

The knock sounded again, and this time Uncle Wiggily thought it might be the Bob Cat or the Fuzzy Fox.

"I'm not going to the door to let in either of the bad chaps," he whispered. "Not that I mind them seeing me unshaved, but if I let them in they may try to nibble my ears! I wonder who it can be?"

Again the knock sounded, louder than ever, and a voice called: "Let me in, Uncle Wiggily! Please let me in!"

"Oh—it's Baby Bunty!" laughed the rabbit gentleman, for well he knew the voice. "There is no danger from Baby Bunty," he said to himself. "That is unless she wants me to chase her and play tag. And I can't do that today on account of my rheumatism."

It was because of his rheumatism pains that Uncle Wiggily had remained in that day—not

of transmitting "still" pictures by the same medium will be put into useful practice immediately, declares Jenkins, the inventor. "To receive pictures by radio," asserts the veteran experimenter, "it is only necessary (1) to cover a photographic plate in parallel adjacent lines and (2) to vary the density of the lines, to build up the shadows, the half-tones and the high lights of the picture."

The essential device which in this fashion makes pictures by radio is the prismatic ring, a new optical shape in glass which has been attained only since the perfection of automatic machinery for its making.

"This prismatic ring is equivalent to a glass prism which changes the angle between its faces and in rotation gives to a beam of light having a fixed axis on one side of the prism a hinged or oscillating axis on the other side of the prism.

How It Works "That is, a small pencil of light coming from a fixed source and passing through the overlapping surfaces of two rotating prismatic rings, having their diameters at right angles where the diameters cross and one of the plates rotating many times faster than the other, will cause this pencil of light to sweep across the picture in adjacent parallel lines until the whole surface of the picture negative is covered."

"At the same time, if the intensity of the light impinging on the negative is varied, that is, strong at the same place in adjacent lines, dense spots are built up; if the light is less intense elsewhere half-tones will be obtained, while if the light is very faint little or no exposure will result.

"In this way the lights and shadows which make the picture are built up, line by line, for when this negative is developed and prints made therefrom the dense areas produce high lights in the picture, the less dense areas the half-tones and the extremely thin areas the shadows.

"And these high lights, half-tones and shadows correspond in exact position and density to the high lights, half-tones and the shadows of the picture broadcasted at the sending station."

Easy to Understand Jenkins then describes how the radio carrier waves at the broadcasting station are impressed with a varying electrical current corresponding to the modulations of the light waves.

It is immaterial, he declares, whether the modulations in light intensity come from a film, a photo, or an exterior scene. The scene at which the lens of the transmitter is pointed is impressed on the light sensitive cell; the cell modulates the current, and the current modulates the radio carrier waves. That's all there is to it!

"The whole apparatus," asserts Jenkins, "is comparable to a camera with a lens in Washington and its photographic plate in Boston."

So everything happened for the best, you see, and if the parrot doesn't plant canary bird seed in the bowl with the gold fish and expect an umbrella tree to grow up, I'll tell you next about Uncle Wiggily and the oatmeal.

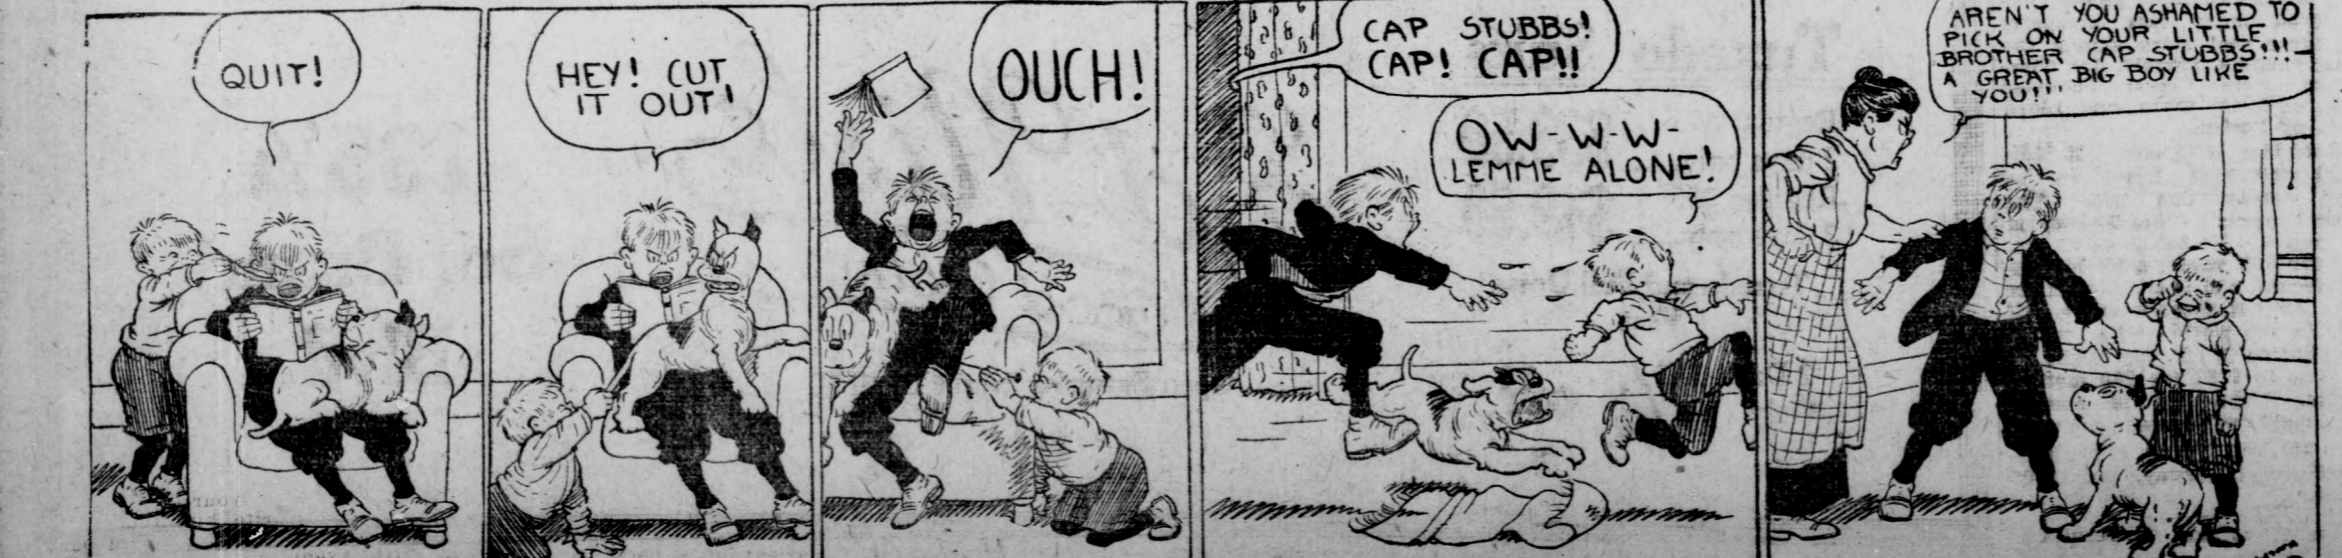

Copyright, 1923, by McClure Newspaper Syndicate.

It is said that parlor sofas last about twice as long as they did before automobiles were invented.

President Coolidge apparently knows that no man can ever be tripped up by anything that he doesn't say.

Diet and Health

By Lulu Hunt Peters, M.D.
Author of Diet and Health, with Key to the Calories

ANSWERS TO CORRESPONDENTS

We have an article on the exophthalmic and simple goiter which you may have. It explains about the diet. Briefly, the diet for those suffering from exophthalmic goiter should contain no meat or fish or stimulants, such as tea, coffee, spices, etc. It should be a liberal diet including plenty of milk, vegetables, fruits, whole wheat bread, nuts, and enough calories of them to supply extra fuel for the extra breaking down of tissues which goes on in exophthalmic goiter. There should be free evacuation of the bowels every day. If you are not sure of the milk's purity, it should be boiled or pasteurized. The vitamins lost can be supplied by orange juice—at least two tablespoonfuls—beginning when the child is two or three months' old, in one-fourth teaspoonful doses in water and increasing about that amount every other day.

Mr. T.—Yes, our pamphlet on tuberculosis is ready now. You may have it, with our best wishes, if you will send a self-addressed and stamped envelope with your request for it.

Mr. T.—Yes, our pamphlet on tuberculosis is ready now. You may have it, with our best wishes, if you will send a self-addressed and stamped envelope with your request for it.

ORN REMEDY.
Salicylic acid—one dram.
Flexible collodion—one ounce.
Ten grains of cannabis indica may be added to relieve pain. Rub the foot before applying this, then apply the solution night and morning for three to six days. Soak again in hot water and soften with one teaspoonful of soda to the quart. The corn can be removed, usually, by pulled off. Be gentle.

With the cost of everything (or most everything!) still high, we housekeepers should never throw away even one-fourth cup of leftover food. The following recipes may help my readers to serve the ends and ends of vegetables temptingly.

Cream of Turnip and Potato Soup.—Four cups of scalded sweet milk over three-fourths of a cup of mashed potatoes and one-fourth cup of either white or slow cooked, left-over turnip; mix together well, then press all through a wire sieve. Now melt one tablespoon of butter in a saucepan, add the strained milk mixture and cook till smooth and thickened. Season to suit taste, and serve.

Spinach-Egg Dish.—Take cold, cooked, left-over spinach and

WOMAN STARTS STUDY AT FIFTY Enters College At 60 To Finish Education

WICHITA, Kan., March 13.—This city looks upon Mrs. Crasha Lynes as a wonderful woman and

Mrs. Crasha Lynes wants the world to know about her.

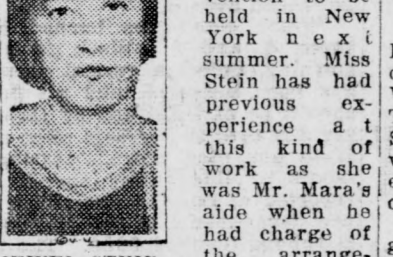

Mrs. Lynes, one of a family of 22 children, was unable to read or write when she was 50. At 60 she entered Friends' university here. She is the oldest and most diligent student in the school.

When she was 35 she determined to learn to read, but misfortune overtook her and her dream was shattered. Now she is determined to finish the education she has been yearning for. Robert Whitaker, her father, was one of Texas' illustrious pioneers. His picture hangs in the capitol at Austin, alongside that of David Crockett. Whitaker, when 17, and Crockett went to Texas and became mixed up in the uprising and war with Mexico. Both won fame. Whitaker, although under death sentence in Mexico City, crossed the border after the war with Mexico and purchased an 800-acre ranch in northeastern Texas. Here the Whitaker children were born. None had the advantages of an education, as schools were unknown in that section then.

With the Women of Today

By MRS. LILIAN CAMPBELL

Miss Jewel R. Stein is the private secretary of George F. Mara, who is in charge of all details of the Democratic national convention to be held in New York in a few days.

Convention at San Francisco in 1920.

Edinburgh, Scotland, was elected to the Town Council. Recently the Council elected one of its members to be a senior magistrate, and because of her ability Mrs. Millar was the choice. This office carries with it the title of "baillie."

Mrs. Nathaniel E. Harris, of Bradford, Pa., is first vice-president of the National Council of Women of the United States. This organization was founded by Susan B. Anthony, the famous woman emancipator, and has over eleven million members throughout the world.

Mme. Curie, the discoverer of radium, is living in poverty in Paris. She has devoted every franc she possessed to scientific research. The French parliament has granted her a state pension of \$2200 a year.

The Japanese earthquake must have wiped out those amusing signs in Tokyo we used to hear about.

Easy Now to Be Rid of Asthma
Florence Formula Offers Prompt Relief to Sufferers. Sent Now On Free Trial

Asthma, Hay Fever and Catarrh are responsible for much misery and failing health. If you are a sufferer from wheezing, sneezing, difficult breathing, hawking, raising phlegm, etc., to prove that you can stop these troubles quickly and easily with the pleasant, scientific Florence Formula, I will send you a \$1 bottle postpaid and free of charge or obligation. If it satisfies, tell your friends and pay me only One Dollar, otherwise the loss is mine. Merely send your name today for this liberal free introductory offer—good only for 10 days. F. SHEARER, 7075 Coca Cola Bldg., Kansas City, Mo.—Advertisement.

BEAUTY CHATS

EDNA KENT FORBES

BEAUTIFYING THE EYES

No girl, no matter how ugly she is, need despair of having beautiful eyes, for they can be acquired by anyone who will try. I have read thousands of words of sentimental nonsense in newspapers and magazines about the "soul's window" and the need of cultivating a beautiful expression in order to have beautiful eyes. When I was very young I believed all this myself, but one day I met a woman who had the face of an angel and the beautifully innocent, clear eyes of a small child. She turned out to be quite the most dreadful person I had ever met, with the temper of a fiend, colossal selfishness, she finally ruined her husband's life and went off and deserted her child. But all the time innocence itself looked out of her beautiful eyes. So after that I believed less of the sentimental nonsense that I read.

However, I would advise you to cultivate a beautiful disposition, less for the beauty it lends your eyes than for the beauty it lends your whole life. And this much of the sentimental nonsense is true, that there never yet was a woman with a beautiful or even good tempered disposition who had a wholly repulsive face. A beautiful nature can be cultivated and will make anything short of squint eyes beautiful. Besides, if you have a squint, a doctor can cure it.

This is a long preamble to some practical, physical suggestions for beautifying the eyes. These are simple exercises which reduce puffiness and also strengthen the eyes. The simplest of these is simply to roll the eyeballs, looking up and down and sideways just a little more than you normally would for several minutes daily. Another is to tap gently and rhythmically with the cushiony part of the fingers the part of the face all around the closed eyes. This is particularly good for puffiness. However, very bad puffiness immediately under the eye is due to certain liver troubles which can be cured. For this you must see a doctor.

The minister had come home with the Brown for dinner. When they sat down to the meal Mr. Brown asked the guest to say grace. This he did. However, the preacher talked so softly that those at the table did not hear his whispered "Amen."

Freddy, though, had been watching the minister out of one corner of his eye, so when the family still sat with bowed heads after the grace was finished, Freddy exclaimed, "All heads up and let's go to eatin'!"

WHO'S WHO
JAMES O'GRADY
James O'Grady, named Britain ambassador to Soviet Russia by Great Britain's labor premier, is familiar with conditions in the Red ruled country.

As a captain in the British army during the world war he was sent to Copenhagen in 1919 to confer with Maxim Litvinoff, Soviet representative regarding the exchange of war prisoners. The negotiations were completed early in 1920. Under the agreement Britain freed Russian prisoners, and British prisoners were freed and British subjects repatriated by the Soviet government.

In the same year O'Grady and seven other Laborites in the House of Commons signed a manifesto warning the British public that labor would not co-operate if England aided the Poles in their war with the Bolsheviks.

After the trial of the priests in Russia last year, O'Grady cabled to Foreign Minister Titcherchin in Moscow urging clemency. He signed the message as Secretary of the Federation of General Workers, and said his appeal was in the name of its 1,500,000 members.

O'Grady made several efforts to have Lloyd George release the late Terence MacSwiney, Lord Mayor of Cork, while he was on hunger strike.

The appointment of O'Grady to the ambassadorial post is unique in British history. It is the first time a Laborite has been called to such an important position in the British diplomatic circles.

O'Grady is still secretary of the National Federation of General Workers.

Aunt Jenny, a Carolina negress, was a great advocate of the rod as a help in child-rearing, relates Everybody's. As a result of an unmerciful beating which she gave her youngest and "corneriest," she was brought into court one day by outraged neighbors.

The judge, after giving her a severe lecture, asked if she had anything to say.

"Just one thing, Judge," she replied. "I want to ask you a question. Was you ever the parent of a perfectly wuthless child?"

POEMS THAT LIVE

THE PLOUGH
Above you sombre swell of land
Thou'rt the dawn's grave
Orange hue
With one pale streak like yellow sand,
And over that a vein of blue.

The air is cold above the woods;
All silent is the earth and sky.
Except with his own lonely moods
The blackbird holds a colloquy.

Over the broad hill creeps a beam,
Like hope that glids a good man's brow;
And now ascends the nostril-stem
Of stalwart horses come to plough.

Ye rigid Ploughmen, bear in mind
Your labour is for future hours;
Advance—spare not—nor look behind—
Plough deep and straight with all your powers!
—Richard Henry Horne.

Speaking of quantity production, we wonder how many new statesmen will be made when Henry is elected president.

The only person that King Alfonso of Spain can dictate to now is his stenographer.

Makes Fat People Thin
New York Physician Perfects Harmless Method of Reducing Weight

The loss of as much as a pound of excess fat a day with no harmful results is the record made by many patients of Dr. R. Newman, a licensed practicing physician of 236 Fifth Avenue, New York, who announces that he has perfected a treatment which has quickly rid fat people of excess weight. What is more remarkable is the Doctor's statement that he has successfully treated thousands of patients for fat reduction without change of diet or unnecessary exercise. It is also said that fat people who suffer from chronic rheumatism, gout, asthma and high blood pressure obtain great relief from the reduction of their superfluous flesh. Realizing that this sounds almost too good to be true, the Doctor has offered to send without charge to anyone who will write him, a free trial treatment to prove his claims, as well as his "Pay-when-reduced" plan. If you want to rid yourself of superfluous fat, write him today, addressing Dr. R. Newman, 236 Fifth Avenue, New York City.

EAGLE ROCK
STAGE MUSTACHE
WAR AT COLLEGE

Seniors and Juniors Wage Contest In Adornments Of Upper Lip

The "Baseballs" and the "Apes" are waging a painless mustache war at Occidental College, following an ultimatum issued by the seniors, and ignored by the juniors, to the effect that hirsute adornments, both actual and alleged, are to be worn by none but the fourth-year men.

The first casualty reported is Joseph Roucek, who was set upon by a group of "Apes" as he was leaving chapel the other morning and hid to their de-mustaching parlors, where his excess growth was tenderly removed with a pair of horse clippers.

The "Apes" say the juniors, get their name from the hairy animal of that genus, whom they have adopted as the symbol of their physical (say those fresh juniors!) and mental powers. The "Baseballs," according to the seniors, are so dubbed because downy fringes they essay to sprout from their upper lips resemble in numbers of individual members a baseball team, inasmuch as they have no more than nine on a side. "And may the best side win!" say the fair co-eds.

Garbage, Rubbish Rules
So many violations of the garbage collection and rubbish burning rules are reported to the police department that the Chamber of Commerce has issued the following statement:

"Garbage cans should be kept in a sanitary condition, and should be set out on the curb line, rather than the property line. The schedule for garbage collections is as follows: West route—Monday and Thursday. All that portion of the city lying west of and including the west side of Eagle Rock boulevard. Central route—Tuesday and Friday. All that portion of the city lying between Eagle Rock boulevard and Vincent avenue, including the east side of said avenues, East route—Wednesday and Saturday. All that portion of the city lying east of and including the west side of Townsend avenue.

"Trash should be burned between 6 and 9 o'clock in the morning, unless a special permit has been obtained, and all fires should be extinguished by throwing dirt over the embers after the blaze has died down. Infractions of this ruling should be reported at once to the police fire department, at the city hall, telephone Garfield 5380. The police have been instructed to reprimand all who light fires at hours other than that stated above."

Sergeant Now Lieutenant
Sergeant J. D. "Jud" Cornwall, popular desk man at the local office, has been transferred to the Lincoln Heights station, with the rank of acting lieutenant. Sergeant John Level, formerly of the night shift, has been put in charge of the Eagle Rock department.

On the day shift with Sergeant Level are Officers F. A. Whelan, R. H. Brown and A. Rivera. Sergeant J. A. Piron, recently from Lincoln Heights, has been placed in charge on the night shift, with Officers J. E. Irvin, B. W. Thomson and C. M. McBride constituting the force. Sergeant J. P. Conley, with Officer M. C. Hillier and Elmer Gee, will continue on the "graveyard" shift.

ARMY MEN WILL FOLLOW FLIGHT

American Aviation Future Depends Upon Success of Air Cruise

(Continued from page 1)

To be made, routine blanks to be filled out, travel slips to check over, accounts to keep accurately, expense vouchers to approve, diplomatic duties to perform, affairs of state to attend, and countless other items to look after.

The ability of the aviators and their mechanics will be taxed to the uttermost by flying conditions they will encounter, and the kind of "breaks" they may have. The pilots will have to adjust themselves to handling a ship fitted with pontoons for over-water flying, after having flown ships fitted with land rigging. After the water jumps are mastered, the change back to land rigging will have to be made.

It is easier to become accustomed to pontoons on the gear of a ship than it is to drop pontoons and handle a ship fitted with landing rigging for the first time, according to seasoned aviators who have handled both types of planes.

The flights around the world will not only be one of the biggest events in the history of American aviation, but it will bring out many salient points in flying, according to C. E. Pyle, former army aviator and now connected with the Brand boulevard branch of the Pacific Southwest Trust & Savings Bank.

Decide Air Future
"The flight, if accomplished, as every member of the American air force is confident it will be, will have a great bearing on the future of aviation in this country and especially in the army," said Mr. Pyle. "It will demonstrate that reliable, stanch ships can be built in the United States, and that an all-American ship that can fly can be turned out here."

"The four ships being taken on this flight are strictly all-American ships. Every bit of material used in them originated in the United States, and the ships were designed, made and assembled at the Douglas factory at Santa Monica.

International Mail
"The flight will show the feasibility of an international air mail service. The hardships these men may encounter on their trip will not be any more difficult than the trials of the pilots in transcontinental air mail service today, and this has proved successful."

If the four ships maintain their schedule and the trip is a success, it will clearly demonstrate the need for a bigger and greater air fleet in the United States. It will demonstrate what any other nation could do in the matter of air attack with a large fleet."

Mr. Pyle served as an army aviator during the war, putting in two years in France attached to headquarters squadron, sent to the army flying camp, and has looked over the ships to be used on the flight. He announced he would be at Clover Field for the hop-off Monday morning.

VALUES TO CLIMB ON SOUTH BRAND

Big Opportunities Are Seen in Boulevard Property at Present Time

Specializing on South Brand boulevard properties, W. T. Burton, of the Burton Realty Company, realtors, 110 West Broadway, calls attention to the fact that wise investors are buying now.

"The shrewd man buys when others are selling and sells when others are buying," says Mr. Burton. "This applies not only to real estate but to business in general. It applies particularly to South Brand boulevard properties at the present moment."

Prices Going Up
"We find a great activity along this boulevard. Last year we sold more property along South Brand boulevard than we have any other firm in Glendale. This year we will greatly exceed even our 1923 record."

"The reason? Prices are way below values and are going up all the time. South Brand boulevard presents the investor with a constantly rising market. I do not believe there was ever such an opportunity in business property as there is on this boulevard today. Truly, without the slightest exaggeration, fortunes will be made almost overnight."

Values to Climb
"Six months will witness a great change along South Brand boulevard. I look to see many values here doubled by Labor Day of 1924. Comparatively small cash payments will secure large and tremendously valuable pieces of property. Corners that can be snapped up now will net thousands of dollars' profit by fall."

"The Burton Realty Company is doing a big business on South Brand boulevard because the business is there. It will pay anyone in the market for business property to investigate our offerings at once. And it will pay anyone who is not in the market to get in—before it is too late."

DRAMA STUDENT DIRECTING PLAY

Takes Charge of Local Players in Production 'Mice and Men'

(Continued from page 1)

even snipping out the materials and shaping the latter, or climbing on a ladder and sitting half the night to retouch scenery which the professional artist had not executed to his complete satisfaction.

In addition to his dramatic work Mr. Sturgis has done some fine, tapestry work and also oil paintings, as well as writing short stories and one-act plays.

In speaking of "Mice and Men" Mr. Sturgis says: "Glendale must not expect a startling or professional representation of the plays we are going to give. This is a community enterprise. It is work designed to please the participants and their friends."

From All Sections
"There is no attempt to do the high-brow drama, nor to do the startling, unusual sort of staging, which does not always appeal to the majority of a city. The Community Service belongs to everyone in the city, not to a select few."

"The casts for these plays should come from all sections, and everyone interested in the drama should feel himself or herself a part of it and free to offer his or her ability, whether he has ever before had opportunity for self-expression or not."

"Let no one go away to criticize harshly any of the efforts of the people concerned. Let us unite to make the community theatre of Glendale equal to that of any other community."

Glendale people, old or young, interested in the Community Service dramatic work, are asked to register at the Chamber of Commerce offices on South Brand boulevard.

Democrats to Demand Roosevelt's Dismissal

WASHINGTON, March 13.—Theodore Roosevelt, occupying the same post that his father held a quarter of a century ago, stands at the head of the United States navy today, while President Coolidge pores over the records of half a dozen men in an effort to find a successor to Edwin Denby, resigned.

The situation is unique in history. Denby is gone, and Roosevelt himself is under fire. Democratic senators who were responsible for the ousting of Denby allowed it to become known they will not long reserve their fire on his assistant. They are demanding that Coolidge hasten the selection of a naval head.

Would Go to Chair in Murderer's Place

HARRISBURG, Pa., March 13.—The state board of pardons has refused the first request in its history from a man who asked to take the place of another to be electrocuted. The request was received from Walter J. Kirkwood, of Philadelphia, who asked that he be allowed to replace Joseph B. Trinkle, convicted murderer, sentenced to be electrocuted April 7.

Colorum Attack on Constabulary Feared

MANILA, March 13.—Colorum agitators have aroused the wild natives in Northern Mindanao and trouble is feared in Agusan province, where a band of 200 is reported preparing to surround the constabulary detachment stationed there. Reinforcements are being rushed from the provincial capital.

WILL HAVE EXHIBIT

An international exhibition of dairy products and equipment will be held in April at Milan, under the auspices of the Italian government.

VICTIMS OF MINE BLAST RECOVERED

CASTLE GATE, Utah, March 13.—The dark, slimy, passage ways of Mine No. 2 of the Utah Fuel company, continued to give up their dead throughout the night and early morning hours. Body after body has been carried by the application of a prescribed tunnel and it seems certain that the 173 workers that entered the mine Saturday morning have perished. Practically every nook and corner in the farthest reaches have been searched but no evidence of existing life has been found by the hundreds of volunteers who have worked night and day since the terrific let-go of the poisonous gases.

Fires Hinder
Search for bodies was halted for a time Wednesday night while the rescue crews turned their attention to fighting fire, which undoubtedly has been smoldering since the series of explosions wrecked the mine on Saturday. Pure air pumped into the mine is believed to have fanned the smoldering masses into numerous fires.

A furor of excitement swept over the bereaved little mining camp late last night when a report reached the groups of women gathered around the shaft that a man had been found alive, but a subsequent investigation proved the rumor without foundation. While many of the bodies found have been terribly mutilated, mute testimony of the terrific force of the explosions, some of the bodies are without a mark, but in no instance is there any evidence that life existed but for a few seconds after the blasts.

Members of the crew found one man dead, face downward in a small pool of water, the dirt around his hands indicating that he had moved after being felled. Many of the men have been found with hands raised in front of their faces as if to ward off blows.

It is believed all of the bodies will have been removed from the mine tonight. No definite arrangements have been made as to the burials, many of the bodies still lying in the morgue. Less than a score of the bodies remain unidentified.

Fail to Find Burglar Man Claimed He Healed

Responding to a call from W. W. Hensberry, 1120 Yale dr. that his house was being burglarized, at 9:30 o'clock last night Detective Sergeant Charles Blake and Officer Condy conducted a search of the premises, but locate no one on the premises, friend Dusenberry's mother and friend who had accompanied home.

Dusenberry maintained that he had heard men's voices outside debating who should enter the house first, but a careful examination by the officers failed to disclose any signs that burglar had been present, according to their report.

HEARING RESTORED OFTEN IN 24 HOURS

Amazing Results Secured in Day by Use of Virex Formerly Known As Rattle Snake Oil

Deafness and Head Noises not to be dreaded any longer since recovery of a widely known physician. One of the most obstinate cases of deafness to be relieved in a day's time by the application of a prescription formerly known as Rattle Snake Oil. This treatment is successful in every case.

Mr. D. Dey, a Nebraska resident 67 years old, says: "I have used treatment for only two weeks my hearing is restored perfectly. The application of Virex is wonderful and now the head noises I had disappeared. My catarrh, a case many years standing, is improved wonderfully. Fairly well now."

Mr. Ben Jackson, who lives in Indiana, says: "I used Virex and could hear nothing. After ten days I could hear my watch tick."

Angeline Johnson, a Mississippian resident had been stone deaf for eighteen years. She says: "Virex has stopped my head noises and can hear the train whistle 3/4 m away."

Roy Fisher, Iowa man, says: "I have used Virex for eleven years—now I can play on the table and hear plainly."

Mr. W. A. Lumpkin, of Oklahoma says: "After being deaf 38 years your treatment only a few days and hear fairly well."

Mr. Anthony Chapman, of Michigan, says: "The terrible head noise I had stopped entirely and my hearing is practically back to normal."

Mr. O. A. Valentine, of Arkansas says: "My little boy, now 5 years old, had been deaf since about 18 months of age. He hears as well and is learning to talk."

Mr. Mather Pelley says: "My young son, deaf for years, has Virex for only three days and hears almost as well as ever before."

Such amazing reports come from all over this country and Canada. The prescription which is known as Virex is easy to use and seems to work like magic in rapidity on people of all ages. Send no money—just your name and address to the Dale Laboratories, 1088 Gateway Station, Kansas City, Mo., and the treatment will be mailed to you. Use it according to the simple directions. If the end of ten days your hearing is not relieved, your head noises are entirely, just send it back and money will be refunded with question. This offer is truly unprecedented, so write today and this wonderful compound a trial advertisement.

90,396,000 Bushels of Wheat Held in U. S.

WASHINGTON, March 13.—The crop reporting board of the Agriculture Department estimates that 90,396,000 bushels of wheat were held in elevators and interior mills of the country on March 1, 1924, as compared with 92,538,000 on March 1, 1923, and 75,071,000 on March 1, 1922.

Japs to Drop 10,000 Navy Yard Employees

TOKIO, March 13.—It was learned yesterday that the Japanese navy is arranging to drop 10,000 civilian employees from the payrolls of the navy yards because of curtailment of war vessel building, due to the Washington conference. This cut in employment will be completed by the end of June. Plans are being made to take care of the huge number to be rendered jobless.

TWO BREAK FAITH

REDDING, March 13.—Two more convicts escaped Tuesday night from the highway camp at Greenhorn. They are Thomas Taylor, Humboldt county, sentenced for four years, and John Simmons, San Diego county, six years.

X-Rays are successfully used to detect hidden flaws in airplane parts.

Grill Tribesmen in Indian's Death Probe

SANTA ROSA, Cal., March 13.—Several Indians are detained at the county jail for questioning in an effort to solve the mystery of the death of Ned Posh, 45, leader in the movement for recognition of early treaties with the California Indians.

Bruised and battered by contact with the sharp rocks which line the bed of Santa Rosa creek, the body of Posh was found today. All indications pointed, according to Sheriff John M. Boyes, to the Indian having been flung from the bridge above.

Anglo-Persian Co. to Drill for Canada Oil

TORONTO, Mar. 13.—The Anglo-Persian Oil company, the largest oil combination in the world, is about to undertake an exclusive drilling campaign in Canada, according to cable advices from London. The report says the Anglo-Persian company will exploit lands of the Hudson Bay company.
