Market Garden-
ers' Price List
of "Reliable ...

Seeds

THAT GROW,"
offered
by

: 1902 :

Shugart & Ouren Seed Co.

COUNCIL BLUFFS, IOWA

A few words to our many

customers and friends:

As you doubtless well know to be permanently successful it is necessary to sell "GOOD SEEDS." What a world of meaning in these two words; what loads of disappointment implied by two words which express the reverse. We do not feel warranted in lowering the price of our seeds to meet competition on the basis of low prices. We depend on winning patronage solely on the firm basis of value received. Our trade thus far has come from careful conservative growers and dealers who continue with us from year to year. We have great confidence in the superiority of our seeds. It is with assurance of our ability to render your investments in our seeds profitable and satisfactory that we solicit your patronage.

Yours truly,

SHUGART & OUREN SEED CO.

Our shipping facilities are unexcelled, as we are located at a great railroad center. This advantage enables us to ship direct over only one road to point of destination, which saves time and freight. Council Bluffs as a distributing center is not surpassed by any other city in the west. The large number of railroads, extending to all points of the compass, puts us in direct communication with towns in Nebraska, Iowa, Minnesota and the Dakotas, enabling us to get supplies to you from two to three days sooner than others.

Please bear in mind that freight charges going *west from Council Bluffs are the same as from Omaha*, whereas, shipments east require a less rate, hence, *goods from Council Bluffs cost less freight.*

Seeds Postpaid by Mail. Prepayment of postage on all seeds by the packet. Postage must be added at the rate of 15 cents per quart and 10 cents per lb., when ordered by mail.

ASPARAGUS.

	OZ.	¼LB.	LB.
✓ Conover's Colossal.....		10	30

NEW TOMATO.

WHITE'S EXCELSIOR. The vines are of a dark green, grow rapidly and to a great size, bearing a heavier crop than any other variety and continues bearing until killed by frost. The fruit is dark or purple red, very large, and in great clusters, and retain their size until the last end of the season. The seed cavity is small, the skin is tough, will bear long shipments.....

While we exercise the greatest care to have all seeds pure and reliable, we do not give any warranty, express or implied. If purchaser does not accept the seed on these conditions, they must be returned at once, and the money that has been paid for same will be refunded.

Shugart & Ouren Seed Co.

Price List of **Field Corn**

Offered by Shugart & Ouren Seed Co.,
growers of carefully selected Seed Corn.

Our Farm Seeds are uniformly of the very best grade. They have been grown especially for seed, carefully selected and thoroughly cleaned. The prices quoted include bags and delivery to any freight depot in Council Bluffs.

Champion White Pearl.—True merit alone, has won bright laurels for this corn. "It being now recognized as the leading standard sort of pure white, very long grained, very floury, best milling, early general crop corn, of the highest possible quality. Very small white cob. Short, thick, robust, deeply rooting stalk with its ear very low upon it. Thus standing severe storms and drouths well. Very uniform in fertilization and maturity. Maturing in 100 days. An immensely high average yielder all over the corn belt, and in the cotton states. A beauty, and in every respect a first-class, white, sure cropping crop. Prices, peck 50c; half bushel 85c; bushel \$1.50; 5 bushel \$1.45; 10 bushel or more \$1.40.

Early Yellow Rose.—This corn is a bright golden yellow, stalks from 8 to 10 feet high, full dark foliage, setting its ears 4 to 5 feet from the ground, and from one to five shoots, usually maturing two good sound ears 8 to 12 inches long, cob small and red, grain about three-fourths inch, 16 to 24 rows, and will shell more to the 70 pounds of ear than any other corn grown, one test giving 64 pounds of shelled corn from 70 pounds in the ear. Will fully mature in 90 to 100 days. Prices, peck 50c; half bushel 85c; bushel \$1.50; 5 bushel \$1.45; 10 bushel or more \$1.40.

Iowa Gold Mine.—A popular yellow dent corn originated in Iowa. It has very long grain, and very small red cob. Matures in about 95 days, and has given fine satisfaction throughout the corn belt. Our seed was grown from direct headquarters stock. Prices, peck 50c; half bushel 85c; bushel \$1.50; 5 bushel \$1.45; 10 bushel or more \$1.40.

Pride of the North.—An extra early yellow dent corn, too well known to warrant us giving a detailed description of it here. Suffice to say we have genuine pure seed. Prices, peck 50c; half bushel 85c; bushel \$1.50; 5 bushel \$1.45; 10 bushel or more \$1.40.

Improved Leaming Corn.—This popular corn is too well known to enter into a description of its merits here. Suffice is to say: That it is a very uniform, medium-sized, very early (maturing in 90 to 115 days), very heavy, long eared corn. With stalk growing medium tall and very thick and strong, with a large amount of foliage. During the past two years this corn has come to the front in the dairy regions of the northern U. S., and in the Dominion, as a hard to beat ensilage corn. During the past winter and spring, we had a very large trade in this variety, for ensilage corn. We have nice pure seed of it. Prices, peck 50c; half bushel 85c; bushel \$1.50; 5 bushel \$1.45; 10 bushel or more \$1.40.

St. Charles White.—A large growing red cobbled white dent corn, with a profuse growth of foliage. Originated and much esteemed in the vicinity of St. Louis, Mo., and in the south as a general crop sort, and quite popular in the north as an ensilage corn. We have nice pure seed. Prices, peck 50c; half bushel 85c; bushel \$1.50; 5 bushel \$1.45; 10 bushel or more \$1.40.

Champion Yellow Dent.—A grand thoroughbred corn. Tested and proven. All and more than claimed for it. It is with much increased confidence that we again offer Champion Yellow Dent Corn. A tested variety which, having gone through the crucible of wide-spread and thorough test in all parts of the corn belt and in the cotton states the past summer, has proven to be all and more than we claim for it. We are much gratified with the enthusiastic reports coming from all localities. Champion Yellow Dent is destined to be a money maker. This corn is a very high average yielder. And high average yields for a series of years are what fatten the farmers "pocket books." Then it rarely fails to produce paying crops even in the most unfavorable seasons. Very diligent selection has produced a profuse growth of pollen in the tassels, and an abundance of silk on the ear. And the simultaneous appearance of these on the same stalk, and on all the individual stalks, combine to produce a very perfect fertilization. To this alone do we attribute its high average yields and uniformly superior quality of grain. Prices, peck 50c; half bushel 85c; bushel \$1.50; 5 bushel \$1.45; 10 bushel or more \$1.40.

Iowa Silver Mine.—One of the most popular varieties of white corn that has been tested and proved satisfactory in all parts of the corn belt. Prices, peck 50c; half bushel 85c; bushel \$1.50; 5 bushel \$1.45; 10 bushel or more \$1.40.

..SEED OATS..

A change of Seed Oats is quite as necessary as a change of Seed Potatoes, and stock should be renewed at least every second or third year. Our Seed Oats have all been extra re-cleaned and contain only plump, heavy grains.

..Iowa Silver Mine..

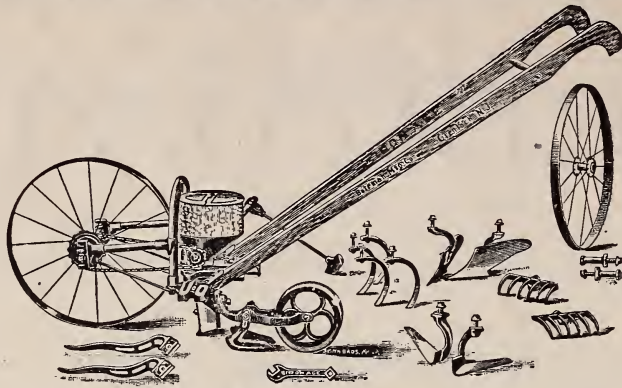

The grandest White Oat in cultivation, very early and productive. 75c per bushel.

Space will not permit our listing but a few varieties of our farm seeds. We will be pleased to name prices by letter if you will send us a list of your requirements on

Red, White and Alsike Clover, Alfalfa, Timothy, Cane Seed, Millet, Dwarf Essex Rape, Bromus Inermis, Fancy Kentucky and English Blue Grass, Red Top, Orchard Grass, Rye Grass, Seed Potatoes (Irish), Seed Sweet Potatoes, Hand Seeders, Etc.

Market gardeners who use twine for tying up vegetables, and fruit growers using grape twine will find it to their advantage to get our prices before buying elsewhere.

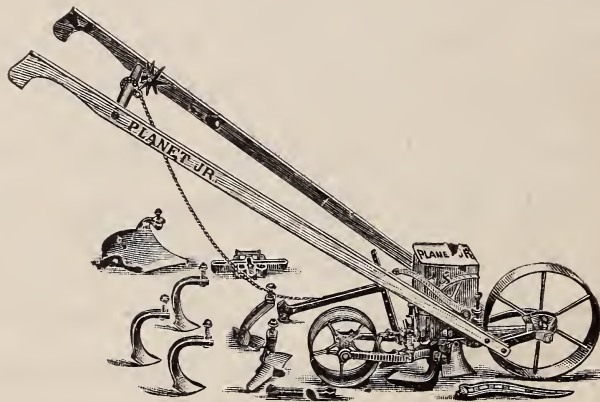

We issue a separate BEE-KEEPER'S SUPPLY CATALOGUE which we will mail free to intending purchasers.
