# SPRING PRICE LIST

# Mixson's High-Grade Seeds

W. H. Mixson Seed Company, Charleston, S. C.

This folder will quote you on all Vegetable, Field and Farm Seeds for Spring of 1923. As you no doubt know, our business is mainly wholesale, our trade being principally with smaller seed houses, merchants and large truck farmers, and we think that we can say without contradiction that we are the largest wholesale dealers in the Southeast.

The purpose of this price list, is therefore, to enable farmers to buy smaller quantities from us, giving them the benefit of the very lowest prices, and at the same time sending them only high-grade seeds such as we supply to our very largest customers. In other words, we have but one stock—the best—and if you order a 5c packet of cabbage or cucumber for instance, you get absolutely the same stock as the man who buys in thousand pound lots.

## BEFORE WRITING YOUR ORDER PLEASE READ THIS

**Seed That Are Postpaid.** All seed quoted by the packet, ounce, or pound includes postage to be paid by us. Seed is also quoted "by express," and this always means express charges to be paid by you. In this connection you have the choice of having them sent by Freight or Express, and we will use our judgment unless you instruct us. If, on the other hand, it is more convenient for you to have them come by Parcel Post, add the necessary postage to your remittance. Please make this very plain in your order.

**Cost of Sending Money To Us.** In all cases where your order amounts to \$1.00 or more, deduct the cost of your Post Office or Express Money Order.

**Our Prices.** Quotations made in this Catalogue are those in force when this book goes to press. It can be very easily seen that changes may have to be made in some articles. We will, however, hold them as long as we can. We have priced everything very low, and if advances occur, we will notify you.

### MIXSON'S HIGH GRADE BEANS

#### Green Podded Bush Beans.

	Postpaid				Express collect

**Terms.** They are Cash with order. Our reliability is unquestioned, but if for any reason you wish to have your order sent C. O. D., and if it amounts to \$5.00 or more, remit us about one-fourth of the amount, and we will send out the goods with C. O. D. charges for the balance. On large orders we will be very glad to quote prices, and enter into correspondence with you.

**Warranty of Seeds.** There are manifestly many causes for a poor crop—too much wet—or too much dry weather, too deep or too shallow planting, until it is impossible for any responsible seedsman to guarantee results; therefore, in common with the other members of the American Seed Trade Association, we give no warranty expressed or implied as to description, quality, productiveness or any other matter of any seeds sent out and are not in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

#### Mixson's Select Cabbage Seed.

We sell every year in the South more Cabbage Seed than any other seedsman in the world. Most of these seeds go into cabbage producing sections where they are grown for market, and if we can please these men, many of whom buy in thousand pound lots, we can please you. No matter how small your order is, you get the identical seed they do.

**Mixson's Reliable Seed Potatoes**

This is probably the biggest single item in our vegetable line. We sell to many truckers in the big potato producing sections in from car lots to thousand bag lots. These men have thousands of dollars tied up in their crops, and they demand the very best they can get. They don't try to skimp on the quality, and it won't pay you to either.

Now, with this responsibility on us, we can't afford to play hit or miss. We must have the very best, and our Mr. W. H. Mixson looks after this himself. He goes every year to Maine, goes over the crops, and selects the best. His forty years experience is behind his judgment. Of course, cheaper potatoes can no doubt be bought, but we do not claim to enter into competition with "pick up" stock so often offered by grocery and commission houses. A few cents difference on the bag may mean barrels of difference at digging time. All of our potatoes are Maine grown. All prices are F. O. B. Charleston; freight or express charges collect.

	Peck	Bushel	Sack
Irish Cobbler	.65	2.00	4.00
Early Norther (Rose type)	.65	2.00	4.00
Ealy Rose	.65	2.00	4.00
Spaulding Rose	.65	2.00	4.00
Red Bliss Triumph	.75	2.50	5.00

Get our prices in more than sack lots.

We will also have potatoes for planting in the summer for fall crop. Get our prices in June and July.

TO MARKET GARDENERS—If you want potatoes in larger quantity than quoted, write us, stating how many you want. We will figure on your order and give you lowest prices on that day.

FOR POTATO BUGS—Use Corona Dry Powdered Arsenate of Lead. (See page 4, column 1.)

Texas Ribbon Cane	.25	.90	1.20		
Yellow Milo Maize	.20	.75	.85		
White Kaffir Corn	.20	.75	.85		

### Carpet Grass.

Strictly a pasture grass, and specially adapted to light or sandy soils near the Coast or Gulf sections. It is capable of being very closely grazed or trampled, and in fact seems to do better when trampled. It has a creeping habit of growth which enables it to spread rapidly when close grazed. When a patch once becomes established, it spreads very rapidly, and on a well trampled field, a good sod will be established in two years. It is best seeded in the Spring, and attains its best development during the Summer and Fall. It seeds in September and October, and while it cannot be depended on to give very much if any green feed during the Winter, frost and cold does not kill it. It needs sunshine for its best growth. There is little danger of grazing it too closely, and a good carpet grass pasture will support as much stock as a good blue grass pasture. This valuable grass has sprung very recently into prominence and its use is being advocated by many Agricultural authorities. Per lb. 50c, postpaid; 10 lbs. not prepaid, at 35c. Write for prices in larger quantities.

### Millets, Grasses, Etc.

	—Postpaid—			Express	
	Lb.	5Lbs.	10Lbs.		
Pearl or Cat Tail Millet	.35	1.20	1.65	} Write for Prices on larger quantity.

Bermuda Grass	.45	1.80	3.25		
Beggar Weed					
Rhodes Grass					
Chufas					

Write for Prices.

### Lespedeza or Japan Clover.

This is a Legume that should be on every Southern farm. It is a pasture and hay crop, yielding several cuttings a year, and like Alfalfa it is perennial, rapidly taking possession of the land, though it can be eradicated if desired. Can either be pastured or cut for hay. Sow in March or April, 25 pounds to the acre. Lb., 45c; 5 lbs., 90c, postpaid. 10 lbs., not prepaid at 28c; 25 lbs. at 23c. Write for prices in larger quantity.

### Peanuts.

White Spanish Bunch	.25	1.00	1.60	} Write for Prices on larger quantity.
North Carolina Running	.25	1.00	1.60	
Red Spanish	.30	1.10	1.65	
Valencia	.30	1.10	1.70	

### Velvet Beans

### Mixson's Extra Selected Seed Corns.

All grown and selected especially for our Southern trade. Not showy ears of Northern and Western corn, but well bred selections of Southern varieties that have the inbred qualities that make them "crib-fillers." All stocks are planted only from pedigreed seed, are selected, butt and tip grains are removed, and are then shelled, fanned, and screened, presenting a uniform stock of each variety. It is only by handling large quantities in our wholesale business that such prices are possible.

# Mixson's Improved Strains of Pedigreed Cotton Seed

Cotton seed has all along been one of our specialties, in fact we operate a special department for it, same being in charge of an experienced cotton seed man who gives his entire to that end of the business. Since we organized this department seven years ago, our business in cotton seed has grown until now we doubt if there is a dealer or grower in the entire South who sells as many bushels of planting seed as we do in a season. This healthy growth in cotton seed sales is very gratifying to us and is proof of the care which we take in the selection, growing and handling of our cotton seed. We believe that the best is none too good for each and every one of our customers and we strive at all times to furnish at all times only the highest grade of seed that can be had.

It costs but little extra to plant high grade cotton seed, so why not sell your old run-out seed to the oil mill, add a few cents to each bushel and buy selected cotton seed, bred for productiveness? Any one who for the sake of a few cents per acre, plants gin-run cotton seed, lacks business sense, because in so doing, he is wasting the time and expense necessary to cultivate plant which cannot produce full yields.

We have the very best improved strains of all varieties listed below; in addition we have an efficient organization and every facility for handling your cotton seed order in the way, it should be handled, and our prices are reasonable, quality considered.

Due to poor crop conditions all over the cotton belt, the majority of farmers did not save their seed, and are all counting on buying new seed the coming Spring. This we believe will cause a

shortage of planting seed and higher prices, so it is our advice to place your orders at once.

All cotton seed put up in new 2¼ bushel bags under our trade-mark, terms are cash with order or for larger orders, sight draft Bill of Lading attached.

## Mixson's Evergreen Lawn Grass.

A mixture of grasses and clovers so arranged that a continuous succession is the result. Excellent preparation of land is the first essential; do no use stable manure, unless you are sure it is well rotten, but some good ready mixed fertilizer is preferable. Our mixture makes a very quick showing and the lawn will be even, and velvety. The great problem is to get a lawn that will be in a condition all the time; some die down in winter, others in summer but Mixson's Evergreen Mixture fills the bill better than anything else we have ever seen. Sow this at the rate of 50 lbs. to the acre. Price, per lb. 60c; 3 lbs. \$1.45, postpaid; 10 lb. lots, not prepaid, 45c per lb.

## Insecticides and Spraying Materials.

Dry Powdered Arsenate of Calcium	100 lbs. @ 22c	25 lbs. @ 25c	
Dry Powdered Arsenate of Lead	½ lb. 30c	lb. 50c	5 lbs. 2.00
Paris Green	100 lbs. @ 27c	25 lbs. @ 29c	
Lime Sulphur Solution (Dry Powdered) (post paid)	½ lb. 35c	lb. 60c	5 lbs. 2.75
Dusting Sulphur (post paid)		lb. 40c	5 lbs. 1.40
Bordeaux Mixture (post paid)		lb. 20c	5 lbs. .80
Tobacco Dust		lb. 45c	5 lbs. 1.60
		lb. 20c	5 lbs. .75

Write for prices in larger quantities. Arsenate of Lead, Arsenate of Calcium and Paris Green cannot be sent by mail as it is against postal regulations. Prices on all others are postpaid.

We have ready for distribution absolutely free a booklet describing every bug and insect that attacks your garden or truck patch, giving also the kind of poison to apply. Write for your copy.

## Dusters and Sprayers.

Dry Dusters (for gardens)—\$2.65, postpaid.  
Triumph Dry Dusters (for truck farms and boll weevil control)—\$15.00, not prepaid

Small Spray Pumps (1 qt. capacity)—75c, postpaid.  
Continuous Spray Pumps (1 qt. capacity)—\$1.75, postpaid.  
Auto Spray Pumps (Capacity 3½ gal.)—  
Brass (No. 1-B)—\$9.00, not prepaid.  
Galvanized (No. 1-D)—\$6.50, not prepaid.  
Bucket or Barrel Pumps (No. 7)—\$7.00, not prepaid.

## FARMOGERM

The Purest and Most Virile Form of Inoculating Bacteria.

It is now a matter of common knowledge that Legumes attain their full development and growth, and that the maximum amount of nodules on the roots are found only when inoculation is done. It is conceded now that even on lands where legumes have been grown successfully, inoculation pays.

Farmogerm Is the Oldest and Best Form of Inoculation.

First on the market, it is protected by several valuable patents which cannot be used by other manufacturers; and in addition to this it has always maintained its high standard of purity and virility. It has always been higher in price than the other cultures, but this season the price has been reduced to the same figure and in some cases lower than the other products. A few of the other cultures are no doubt right, but why take a chance when you can get FARMOGERM for the same or lower price?

### OF INTEREST TO MERCHANTS, TRUCK FARMERS, AND CO-OPERATIVE TRUCKERS' ASSOCIATIONS.

As already stated, our business is essentially very largely wholesale, and if you are interested in placing a bulk order we shall be glad of the opportunity to figure with you. We know that we have the quality of seeds you want—our years of success in supplying seeds in the principal trucking sections testify to this fact—and we are in position to quote the very lowest prices, consistent, of course, with high quality. Write us, therefore, and get in touch with us. Market gardening and trucking farming is a very hazardous business, and success is attained only by farmers who use the right seed. Remember, also, that the knowledge we have gained in our years of service is absolutely at your disposal. We do not claim to be able to answer any and all questions put to us, but what we do know is at your command. Don't hesitate, therefore, to write us.
