A NEW ACADEMY IN LOUISIANA. OUISIANA possesses numerous establishments for the education of her youth; and yet every year a voice issues from the legislative hall, and from the fathers of families, pronouncing these institutions to be insufficient to supply the wants of the state; and any one, at all acquainted with its moral geography, will readily percieve that these complaints are not wholly

acfounded. The father of a family, in the impossibility of in-culcuting in the minds of his children the first principles of science, is obliged to send his offspring to a distant part of this, or to a foreign country, where they are subject to manners and habits foreign to the land if their birth, and denied the benignant solicitude and guardianship of their immediate friends. This depriation is not only a loss to the pupils themselves and

heir immediate friends, but to the state, Why, at a time when liferature and the arts are flour ishing among us: when our industry is in a state of the highest perfection; and when our commerce is extending iself in every direction, and strangers are viewing our prosperity, with a jealous eye, have we no national institution, upon our own soil, to which our youth may commensurate with the individual wealth of our citizens approved endorsed paper, secured by moregage until and which shall qualify them to sustain the dignity of

the state? As it is now, many of our young creoles are forced to win their academic laurels beyond the seas. Must it then be that while they are thus acquiring the elementary principles; that the enterprising genius is accomplishing its rotation; and we are learnedly cultiva-ting our lands; that that part of our youth who are de mined by need or other circumstances at home, to cultivate the crops, are to remain in their primeral igno-

Events are rapidly developing themselves, in the moral world; a vast crater has been opened in one of the two hemispheres, from whence arise rumbling murmars. Between the two continents there is but the intreval of the sea, which is speedily traversed by our ressels. Power and capidity have suspended the aword of Danucles over the disciples of liberty; and at some time or other, one of those ulcers which consume vitality, may fix itself upon the institutions of this repubtooth ache, prepared by Monsieur Chabert, the to circliff and libert for the celebrated French fire king. A fresh supply of the and illustration, to prepare for such an epoch; for ignorance is but the presage of the reign of tyranny and the death of freedom. An academy is open at Pointe Conpée, where a number of pupils, not exceeding twelve, will be taught

all the sciences embraced in the course of the French colleges, together with contemporaneous studies in the English language,
Address, immediately, at the office of the Bee, or Mr. LABBE DE L'HOSTE, curate of Pointe Coupee.
It is desired that the pupils should previously be able

to read and write.

The price of boarding and lodging will be 212 dollars in advance; the course to commence on the 1st of Octoer next, and close on the last of July 1833, the com-

mencement of the sickly season. The young men will be obliged to wear the uniform which is already prescribed. They will furnish their ownsbeds, and will pay their own doctors bill. All other expenses at the cost of the establishment.
L'ABBE DE L'HOSTE.
