

2023

edition

The **BIGGEST** Science
Photography and Imagery
Competition!

Wiki Science Competition

Who can participate

Everyone can participate!

Open to all fields and profiles: researchers, technicians, amateurs, teachers and students

How to participate

Create any science-related photo, video, scheme or graph: from archeology to volcanology, from zoology to organic chemistry

The competition has **8** categories: **People in Science**, **Microscopy images**, **Non-photographic media**, **Image sets**,

Wildlife & Nature, **Astronomy**, **Marine Sciences** and **General category**.

If your file can be used to illustrate a scientific paper, an encyclopedia entry, a textbook or a newspaper article, it's suitable for this competition!

Register at commons.wikimedia.org (Wikipedia's multimedia database) providing your email address

Do not forget to provide a proper scientific description!

Warning! Users must be the authors of the uploaded files (excluding institutional accounts)

All files must have a free license, such as CC BY-SA
