Major milestones:

2015 – the audience is students and teachers of history faculty of Chernihiv university;

2016 – 2nd year; the audience is first year students of history faculty of Chernihiv university;

2017 – 3rd year; 5 schools from Chernihiv joined WikiStudia.

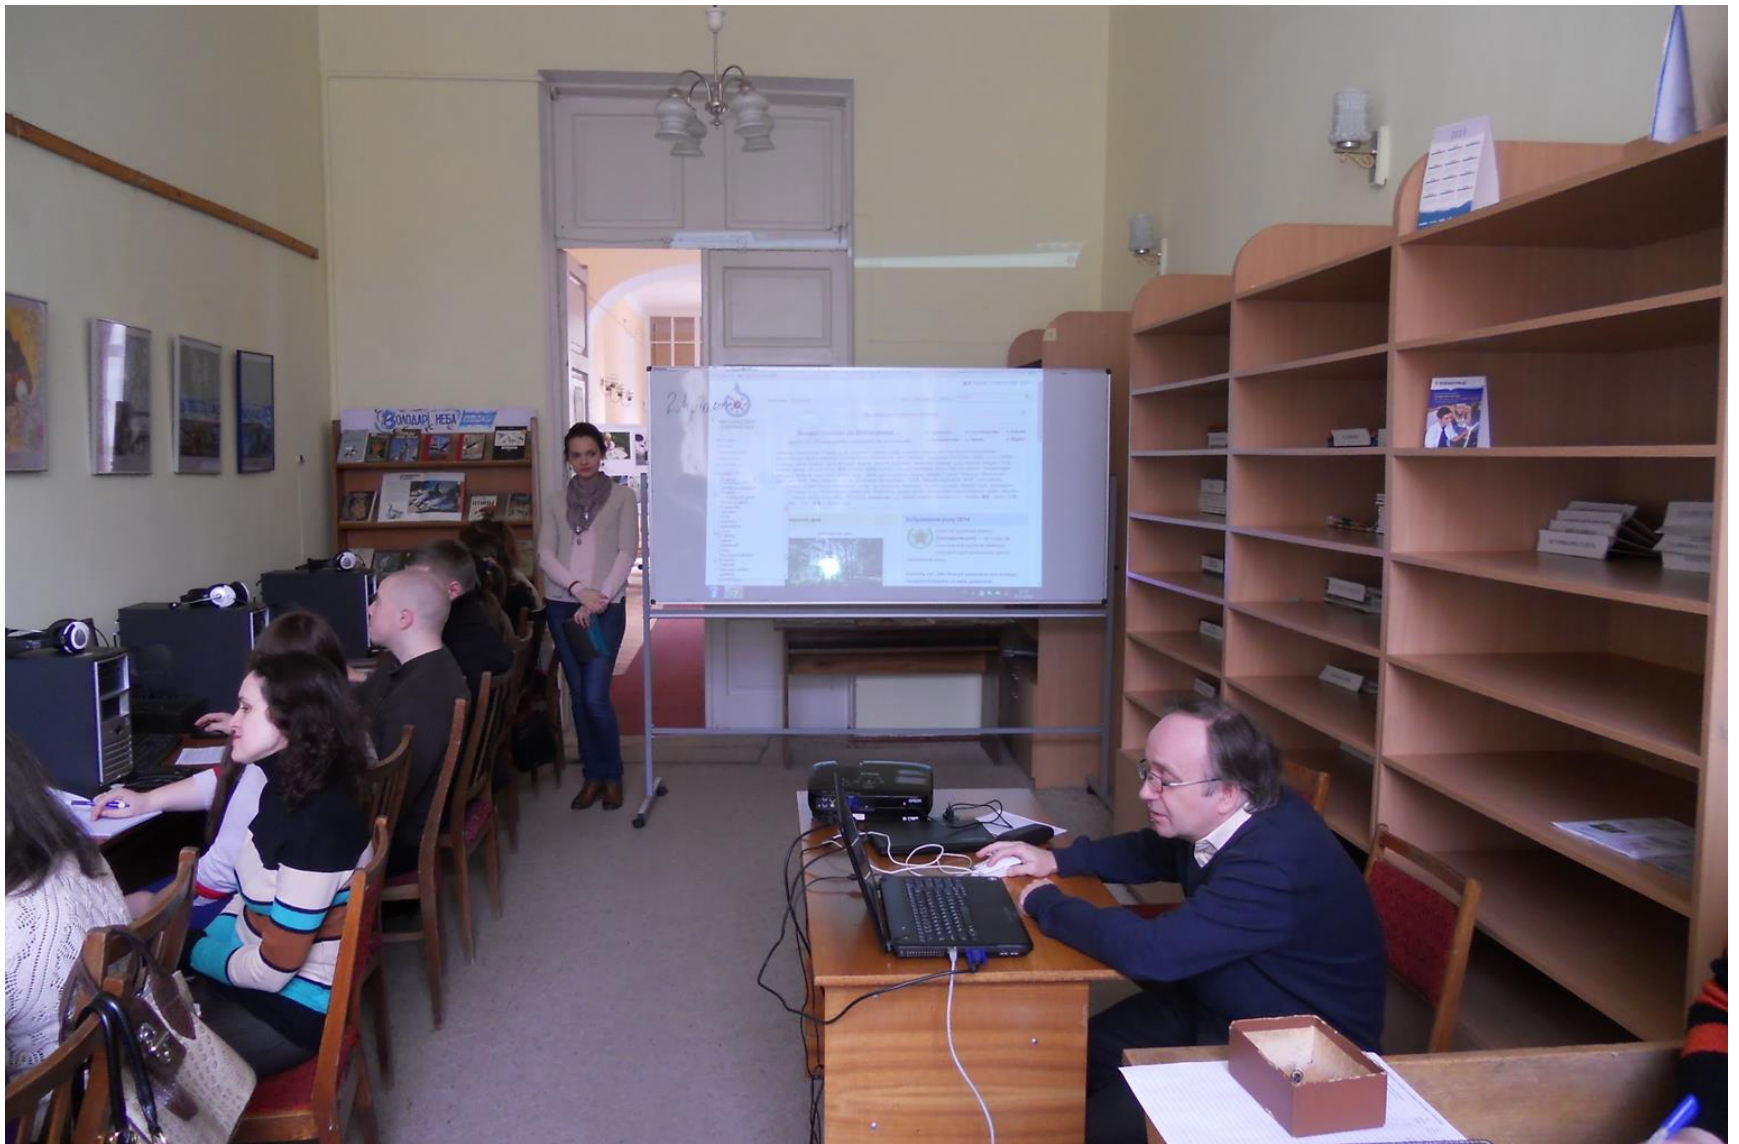

Results so far:

- ~**150** persons participated in our wikitrainings;
- ~**110** persons received diplomas;
- WikiStudia **brand** became recognizable – more than **30** videos, audios and articles in media (3 TV-channels, 3 radio stations, newspapers and web-sites);
- ~**400** articles in Ukrainian Wikipedia;

**They say that information is better
consumed with pictures or photos**

**(that's why we still prepare
presentations ;-)**

Right: **Vira Kazymir** (Chair of WikiStudia) and **Oleksandr Kovalenko** (Honorary Chair). Author Star61, CC-BY-SA-4.0

How to involve students?

1. Create a team
2. Find partners (contacts in universities and schools)
3. Organize presentations for students and teachers
4. PR in media (if possible)
5. Reach an agreement with an educational institution about additional credits for students (or some other benefits)

6. Organize workshops for teachers and students (at least 3-4)
7. Give them tasks (at least 3 articles created in the end)
8. Evaluate their work
9. Prepare diplomas
10. Have an awards party ;-)
11. Start again

Challenges:

1. Finding dedicated administrators, teachers and students
2. Creating the program that is both interesting and useful
3. Evaluating their work and patrol their articles on Wikipedia 😊
4. Explaining to partners challenges and deadlines...
