SUMMER 1916 FALL

WILD FLOWERS

Ferns, Vines, Shrubs, Trees

BOTANICAL NURSERY COMPANY

LAPEER, MICH., U. S. A.

BOTANICAL NURSERY CO.

LAPEER, MICH., U. S. A

*Our Aim: "To furnish any wild flower or plant that grows
in America."*

We are located on a tract of 200 acres of land inland seven miles from Lapeer on the banks of beautiful McKeen lake, bordering on a tract of several thousand acres of uncleared land from which we procure many of the choice things of nature. We can be reached by long distance telephone or telegram from Lapeer. Shipments can be made by Michigan Central, Grand Trunk or Pere Marquette railroads, or American, National, or Wells Fargo Express Companies.

Our nursery contains hills and valleys, swamps, swales, springs, growing conditions for all kinds of plants. In addition to this and our large gathering fields in Michigan we have gathering points in other states as well as from the Great Lake Superior region.

We ask that our many friends who traded with us in the past as Botanical Gardens of Utica, Mich., continue with us in the change of name and opportunity. We can serve our customers much better now than formerly.

The name of "Nursery" as yet has little significance, but the rows of seedlings and cuttings are fast crowding themselves forward. This year practically all our goods are collected but another year standard nursery grown will be quoted as well as those collected from nature.

TIME TO PLANT

NATURAL law governs all things in the universe. We cannot change or alter them, neither should we attempt it, but always comply with its conditions. Such a course will produce the best results.

The natural law causes the leaves of the *Claytonia Virginica* for instance, to wither away and disappear in this latitude usually before June 1st, and what is true of the leaves is also true of the rootlets. The dormant season has arrived and it is time to gather the bulbs of this plant and set them out. As these bulbs lie dormant until September they can be gathered anytime from June to September. The *Trilliums* again are through blossoming in early June or before August 1st. Their rhizomes have taken their annual partial decay and new blossoming buds are being brought forward and new rootlets are now growing for the following season. *Trilliums* should be set out before their new growth starts so that every new rootlet shall be sent forth in the soil in which the plant is to blossom. If dug later and set out they may blossom, but you cannot get full value for your money if you allow the rhizome to grow a crop of new rootlets. Tear them off in digging and grow others. Again you cannot handle these plants with large blossoming crowns without injuring the coming flowers. For this plant we recommend July as the proper month. We have set out *Trillium* bulbs in April and secured flowers the same year, but they are inferior to what the bulbs would do if planted the preceding July. Again *Trilliums* set out in April may blossom all right but with no rootlets to feed the plant the entire effort comes from the rhizome and weakens it for the next year. We state the best time to plant each bulb, etc., together with the price. Any plant can be successfully transplanted in fall or spring but for best results consult our list. Never, however, order plants for mid-summer delivery unless you can care for them when received.

LARGE ORDERS

WE especially desire large orders. We are organized to handle these as readily as the smaller ones. We can furnish any plant in numbers as high as price quoted. If any plant is quoted only to 100 and you wish 5,000 write and see if we can furnish it. We are constantly exploring and locating new fields. For instance a year ago we would doubt our own ability to fill an order for 1,000 *Hepatica Acutaloba*. Today an order for 100,000 or even 250,000 would not be too much for us. The same is true of other plants. Again some plants are quoted only by tens in this catalogue. By the time you receive this we may have the location of large beds of the particular plant and be able to quote you a close price on one, five or more thousands.

BOTANICAL NURSERY CO., LAPEER, MICH., U. S. A.

EXPOSURE—SOIL—MOISTURE

For the convenience of our customers we have marked after each herbaceous plant and fern letters of the alphabet to indicate exposure, soil and moisture as we find predominates in the native haunts in which we collect the wild flowers. The table below tells the significance of the letters:

SOIL		EXPOSURE	
A	Means very light sand.	O	Means knolls surrounded by moisture and wet soil.
B	Means light soil, black loam and gravel.	P	Means dry low lands, occasionally flooded.
C	Means heavy soil.	Q	Means dry hill sides, etc.
D	Means muck.	R	Means well drained soil.
E	Means leaf mold.	S	Means approaching arid.
F	Means any soil	T	Means Sphagnum Moss.
G	Means rocky soil.		
MOISTURE			
K	Means aquatic condition.	V	Means dense shade.
L	Means swamp.	W	Means $\frac{1}{4}$ sun.
M	Means springy	X	Means $\frac{1}{2}$ Sun
N	Means wet in seasons and dry in seasons.	Y	Means $\frac{3}{4}$ sun.
		Z	Means full sun.

Frequently you will notice two or more letters of each classification as "ZX," which means that plant will grow in full sunshine to one-half shade, or "LM" which would indicate that either condition would maintain the plant.

TIME OF PLANTING

Following each plant, soil, exposure, moisture key you will find Roman numerals, which indicate the planting months we suggest: "1" indicates January; "6" June; "7" July, etc. This suggestion contemplates only express shipments and immediate planting in summer season. If you cannot give your plants this attention, "**don't**", then use spring or fall.

We sell nothing by the "Clump." We sell by plant buds, rootstock, brick, etc. We leave in "Clump" if best for plant. Cypripedium or lady's slipper is counted by the number of buds, violets by the rhizome, etc. We find this the most satisfactory and business-like way of dealing. You know just what you are getting. If you buy by the "Clump" you are buying a pig in a poke.

SHIPPING

We will book your orders and ship any time you order us to, or if you leave it to us we will ship in the appropriate season varying only as the season varies. Our plan is to ship as fast as dug. State manner of shipment you desire, freight, express or parcel post.

TERMS

Cash with order in all amounts of \$10.00 or under. Larger amounts ten days, which allows you ample time for verifying the number of plants. Make all drafts or money orders payable to Botanical Nursery Co. Postage Stamps accepted for small amounts. We will send package C. O. D. if 25% of purchase price accompanies order.

Five at the price of 10, 50 at 100, 500 at 1,000, 5,000 at 10,000, etc.

BOTANICAL NURSERY CO., LAPEER, MICH., U. S. A.

MERITS OF INDIVIDUAL PLANTS.

We shall not in this Catalogue discuss the merits of plants or give you lessons in landscape gardening. We give only the name of plants we are ready to dig and sell. There are, however, hundreds of plants not listed that we can furnish if desired.

HERBACEOUS PLANTS

Unless otherwise mentioned the prices quoted are for large blossoming plants, from which all young and inferior plants and those without blossoming buds have been sorted. We will furnish "wild run" or "woods run" plants at from 10% to 50% below prices quoted. If these are satisfactory, write for discount on "wild run" on any amount of plants. Single plants are sent post paid at prices quoted.

ASSORTED PLANTS

Many of our customers ask for an assortment of plants for some certain location, not naming the particular kinds they desire. We have therefore arranged the following groups:

Plants For Full Sun—Low Sorts (Group No. 1)			Sun Bog Garden (Group No. 6)		
No. of Plants	No. of Varieties	Price	No. of Plants	No. of Varieties	Price
10	5	\$ 1.00	10	5	\$ 1.00
100	10	6.00	100	16	7.00
1000	15	40.00	1000	17	50.00
Plants For Full Sun—Tall Sorts (Group No. 2)			Aquatic or Water Plants (Group No. 7)		
10	5	\$ 1.50	10	5	\$ 1.25
100	10	8.00	100	6	7.00
1000	15	50.00	1000	7	50.00
For Dry Shady Places, Assorted Sizes For Woodlands, etc. (Group No. 3)			For Lake or Brook Border (Group No. 8)		
10	5	\$ 1.00	10	5	\$ 1.25
100	10	6.00	100	6	7.00
1000	15	40.00	1000	7	50.00
For Moist Shady Places—Low Sorts (Group No. 4)			Number of Plants Required For Planting 100 Square Feet of Space:		
10	5	\$ 1.00	Group No.	No. of Plants	
100	10	6.00	1	500	
1000	15	40.00	2	200	
For Moist Shady Places—Tall Sorts (Group No. 5)			3	300	
10	5	\$ 1.50	4	500	
100	10	8.00	5	200	
1000	15	50.00	6	300	
			7	150	
			8	200	

Common and Scientific Names

All prices are given after Scientific names of plants. If not familiar with Scientific names, the following will assist you.

Common Name	Scientific Name	Common Name	Scientific Name
Adam and Eve	Aplectrum Hyemale	Blue Cohosh	Calophyllum Thalictroides
Adders' Tongue, White, Erythronium Albidum	Erythronium Americanum	Blue Flag	Iris Versicolor
Adders' Tongue, Yellow	Erythronium Americanum	Blue Vervain	Verbena Hastata
Alum Root	Heuchera Americana	Boltonia, Aster-like	Boltonia Asteroides
American Calla Lily	Calla Palustris	Bouncing-Bet	Saponaria Officinalis
Anemone, Canada	Anemone Canadensis	Buck Bean	Menyanthes Trifoliata
Angelica, Purple Stem, Angelica Atropurpurea	Angelica Atropurpurea	Bullrush	Juncus Effusus
Arrow Head	Sagittaria Brevirostra	Bugbane or Black Snakeroot	Cimicifuga Racemosa
Arrow Head, Broad Leaf, Sagittaria Latifolia	Sagittaria Latifolia	Bulbous Cress	Cardamine Bulbosa
Arrow Head, Long Lobed	Sagittaria Longiloba	Bush Clover, Round head, Lespedeza Capitata	Lespedeza Capitata
Arrow Head, Sessile Fruited	Sagittaria Longiloba	Buttercup, Early ...	Ranunculus Fascicularis
Asparagus	Asparagus Officinalis	Buttercup	Ranunculus Hispidus
Baby's Breath	Gypsophila Paniculata	Butter Cup, Marsh	Ranunculus Septentrionalis
		Buttercup, Meadow	Ranunculus Acriis

BOTANICAL NURSERY CO., LAPEER, MICH., U. S. A.

Common Name	Scientific Name
Baneberry, White	Actaea Alba
Baneberry, Red	Actaea Rubra
Bear Grass	Yucca Filamentosa
Bellflower, European	Campanula Rapunculoides
Bellwort, Large	Uvularia Grandiflora
Bellwort, Perfoliate	Uvularia Perfoliata
Bishop's Cap	Mitella Diphylla
Bishop's Cap, Naked	Mitella Nuda
Black-Eyed Susan	Rudbeckia Hirta
Blazing Star	Chamaelirium Luteum
Blood Root	Sanguinaria Canadensis
Bluets	Houstonia Coerulea
Bluets	Houstonia Purpurea
Blue-Eyed Grass ..	Sisyrinchium Bermudiana
Butter and Eggs	Linaria Linaria
Butterfly Weed	Asclepias Tuberosa
Button-Snakeroot	Lacinaria Squarrosa
Button-Snakeroot, Dense, Lacinaria	Spicata
Callirhoe, Crimson	Callirhoe Involucrata
Cardinal Flower	Lobelia Cardinalis
Cardinal Flower, Blue	Lobelia Syphilitica
Cardinal Flower, White,	Lobelia Syphilitica var Alba
Cattail	Typha Latifolia
Cattail, Narrow Leaf ..	Typha Angustifolia
Cichory	Cichorium Intybus
Cichory, White	Cichorium Intybus Alba
Clintonia	Clintonia Borealis
Columbine, Blue	Aquilegia Alpina
Columbine, Garden	Aquilegia Vulgaris
Columbine, Wild	Aquilegia Canadensis
Comfrey	Symphytum Officinale
Coneflower Purple	Echinacea Purpurea
Cowslip	Caltha Palustris
Cowslip, Virginia	Mertensia Virginica
Cow Parsnip	Heracleum Lanatum
Crinkleroot	Dentaria Diphylla
Cut Leaf Pepper Root,....	Dentaria Laciniata
Dogbane, Spreading	Apocynum Androsaemifolium
Dragon Root, Green ...	Arisaema Dracontium
Dutchman's Breeches	Bicuculla Cucullaria
Dwarf Cornel or Bunch Berry	Chamaepericlymenum Canadense
Early Saxifraga	Micranthes Virginiensis
Everlastings	Antennaria Assorted
False Dragon Head	Dracocephalum Virginianum
False Lily-of-the-Valley, Unifolium	Canadense
False Mitterwort	Tiarella Cordifolia
False Rue Anemone ..	Isopyrum Bitternatum
Fire Ball	Lychnis Chalcedonica
Fire Pink	Silene Virginica
Five Finger or Quinquefol	Potentilla Canadensis
Floating Heart	Nymphoides Lacunosum
Flowering Spurge	Euphorbia Corollata
Forget-Me-Not, True	Myosotis Laxa
Foxglove	Digitalis Gloxonoides
Fox Glove, Beard Tongue,	Pentstemon Digitalis
Fringed Polygala	Polygala Paucifolia

Common Name	Scientific Name
Galax	Galax Aphylla
Garden Orpine	Sedum Telephium
Garlic, Meadow	Allium Canadense
Gentian, Closed	Dasystephana Andrewsii
Gentian, Fringed	Gentiana Crinita
Gentian, Small Downy	Dasystephana Puberula
Geranium or Cranes Bill,	Geranium Maculatum
Giant Sunflower	Helianthus Giganteus
Gill-over-the-Ground	Glechoma Hederacea
Ginger, Wild	Asarum Canadense
Ginger, Short Lobed, Wild .	Asarum Reflexum
Ginseng	Panax Quinquefolium
Ground Nut	Panax Trifolium
Golden Glow	Rudbeckia Laciniata
Golden Marguerite	Anthemis Tinctoria
Golden Ragwort	Senecio Aureus
Golden Rod	Solidago
Golden Seal	Hydrastis Canadensis
Goldthread	Coptis Trifolia
Grass, Pink	Limodorum Tuberosum
Grass of Parnassus	Parnassia Caroliniana
Ground, or Moss Pink	Phlox Subulata
Hairy Beard Tongue,....	Pentstemon Hirsutus
Hairy Sunflower	Helianthus Molle
Harbringer of Spring,	Ergenia Bulbosa
Harebell	Campanula Rotundifolia
Heart Leaf	Hexastylis Virginica
Hemp, Indian	Apocynum Cannabinum
Hepatica, Round Lobed ..	Hepatica Hepatica
Hepatica, Sharp Lobed ..	Hepatica Acutiloba
Hymenocallis	Hymenocallis Occidentalis
Indian Cucumber Root ..	Medeola Virginiana
Indian Pipe	Monotropa Uniflora
Indigo, Wild	Baptisia Tinctoria
Indigo, Wild Blue	Baptisia Australis
Iron Weed	Vernonia noveboracensis
Jack-in-the-Pulpit	Arisaema Triphyllum
Jerusalem Artichoke ..	Helianthus Tuberosus
Joe-Pye Weed, Spotted,	Eupatorium Maculatum
Ladies' Tresses, Nodding,	Ibidium Cernuum
Lady's Slipper, Large Yellow	Cypripedium Pubescens
Lady's Slipper, Pink	Fissipes Acaulis
Lady's Slipper, Ramshead	Cypripedium Arietinum
Lady's Slipper, Showy....	Cypripedium Reginae
Lady's Slipper, Small White,	Cypripedium Candidum
Lady's Slipper, Small Yellow	Cypripedium Parvillorum
Larkspur Tall	Delphinium Exaltatum
Leek, Wild	Allium Tricoceum
Lily, American Turks Cap,	Lilium Superbum
Lily Bind	Convolvulus Sepium
Lily, Field	Lilium Canadense
Lily, Orange-Red	Lilium Philadelphicum
Lily, Red Canadian,	Lilium Canadense Rubrum
Lily, Red Day	Hemerocallis Fulva
Lily, Tiger Bulbet Bearing,	Lilium Tigrinum

BOTANICAL NURSERY CO., LAPEER, MICH., U. S. A.

Common Name	Scientific Name
Lily-of-the-Valley	Convallaria Majalls
Lily White-to-Lilac ..	Trillium Grandiflorum
Lobelia, Brook	Lobelia Kalmii
Long Leaved Houstonia, Houstonia Longifolia	Lysimachia Terrestris
Loosestrife, Wing Angeled, Lythrum Alatum	
Loosestrife Bulb Bearing	
Loosestrife, Swamp ...	Decodon Verticillatus
Loosestrife, Spiked or Purple	
Lotus	Nelumbo Lutea
	Lythrum Salicaria
Lupine, Wild	Lupinus Perennis
	Podophyllum Peltatum
Maximilian Sunflower, Helianthus Maximiliani	
May or Mandrake Apple	
Meadow Beauty	Rhexia Virginica
Meadow Bitter Cress ..	Cardamine Pratensis
Meadow Rue, Early	Thalictrum Dioicum
Meadow Rue, Fall ...	Thalictrum Polygamum
Meadow-rue, Tall or Purple	Thalictrum Dasyarpum
Milkweed, Hairy	Asclepias Pulchra
Milkweed, Swamp	Asclepias Incarnata
Milk Weed, Sullivant's, Asclepias Sullivantii	
Mint, American Wild ...	Mentha Canadensis
Mint, Corn	Mentha Arvensis
Moneywort	Lysimachia Nummularia
Mossy Scdum	Sedum Aere
Mother Wort	Leonurus Cardiaca
Mountain Mint, Narrow leaved	Koellia Flexuosa
Mountain Mint, Virginia, Koellia Virginiana	
Musk Mallow	Malya Moschata
Orchis, Bracted ...	Coeloglossum Bracteatum
Orchis, Hooker's	Lysias Hookeriana
Orchis, Northern, Green,	Limnorchis Hyperborea
Orchis, Showy	Galeorchis Spectabilis
Orchis, Small Bog	Lysiella Obtusata
Orchis, Small Purple Fringed	Blephariglottis Psychodes
Orchis, Small Round Leaf,	Orchis Rotundifolia
Orchis, Tall White	Limnorchis Dilatata
Orchis, White Fringed,	Blephariglottis Blephariglottis
Orchis, Yellow Fringed, Blephariglottis Ciliaris	
Oswego Tea	Monarda Didyma
Ox-Eye Daisy,	Chrysanthemum Leucanthemum
Painted Cup	Castilleja Coccinea
Partridge Berry	Mitchella Repens
Peppermint	Mentha Piperita
Phlox, Hairy	Phlox Pilosa
Phlox, Wild	Phlox Divaricata
Phlox, Wild White ...	Phlox Divaricata Alba
Pickeral Weed	Pontederia Cordata
Pinkroot, Maryland, ...	Spiegelia Marylandica
Pitcher Plant	Sarracenia Purpurea
Plantain, Rattle Snake, Large	Perceutum Tessellatum
Primrose	Primula Auricula
Primrose	Primula Polyanthus
Primrose, Evening	Oenothera Fruticosa

Common Name	Scientific Name
Primrose, Missouri,	Megapterium Missouriense
Primrose, Showy	Hartmannia Speciosa
Princess Pine	Chamaphila Umbellata
Purple Cress	Cardamine Douglassii
Pyrola, One Sided	Pyrola Secunda
Pyrola, Round Leaf	Pyrola Grandiflora
Queen of the Meadow, Eupatorium Purpureum	
Ragged Robin	Lychnis Flos-Cuculi
Rattle Snake Plantain, Lesser	Peranium Ophioides
Rattle Snake Master, Eryngium Aquaticum	
Red Lily	Trillium Erectum
Reflexed Stonecrop	Sedum Reflexum
Robins Plantain	Erigeron Pulchellus
Rose Pogonia	Pogonia Ophioglossoides
Rough Ox-Eye	Heliopsis Scabra
Rue Anemone	Syndesmon Thalioides
Sanicle, White	Eupatorium Urticaefolium
Sarsaparilla, Wild	Aralia Nudicaulis
Saw Tooth Sunflower	
Seoke or Garget	Phytolacca Americana
Scouring Bush	Equisetum
	Helianthus Grosse-Serretus
Shin Leaf	Pyrola Elliptica
Silk Weed	Asclepias Syriaca
Silver Weed	Argentina Anserina
Snakeroot, Samson's ...	Psoralea Pedunculata
Snakeroot, Senega	Polygala Senega
Snakeroot, Virginia ...	Aristolochia Serpetaria
Sneeze Weed	Helenium Autumnale
Solomon Seal	Polygonatum Biflorum
Solomon Seal, Large, Polygonatum Giganteum	
Solomon Seal Star Flowered	Vagnera Stellata
Sorrel, Violet Wood	Ionoxalis Violacea
Sorrel, Whitewood	Oxalis Acetosella
Sorrel, Yellow Wood ...	Xanthoxalis Stricta
Spearmit	Mentha Spiicata
Spiderwort	Tradescantia Virginiana
Spikenard	Aralia Racemosa
Spikenard, False	Vagnera Racemosa
Spring Beauty	Claytonia Caroliniana
Spring Beauty	Claytonia Virginica
Squaw Weed, Round Leaf, Senecio Obovatus	
Squirrel Corn	Vicuculla Canadensis
Star Flower	Trientalis Americana
Star Grass	Aletris Farinosa
Star of Bethlehem, Ornithogalum Umbellatum	
Strawberry, Barren, Waldsteinia Fragarioides	
Strawberry, Mountain ...	Fragaria Americana

FERNS

Ferns that are to be set in shade and moist positions can be better set out in August, while other positions will do better set out in October, April or May. For indoor planting or pot culture you can plant any time. You will find our fern bulbs and root stocks large and of unusual vigor. The height of the ferns is given after each name as well as soil, moisture and sun exposure.

MOSS.

We can furnish you in addition to the Club Mosses listed, an abundance of sheet moss for trimming and for transplanting. As there is no classification to the hundreds of mosses it is impossible to list them. Send us a sample or ask us for samples, or order from us by the "square" at prices given below, stating where you wish to use them, and we will furnish mosses for the use. "Squares" are 12 in. square, or 144 sq. in. The mosses are gathered in sheets with enough soil, decayed wood, etc., to allow them to be transplanted.

BOTANICAL NURSERY CO., LAPEER, MICH., U. S. A.

TREES AND SHRUBS

Below is given a list of trees and shrubs we are prepared to furnish our customers. As practically all of these are collected stock, varying in height from a few inches to full grown trees as demanded by the landscape architects, we ask that you write us for prices on any size and quantity you may wish from the following list:

- ACER RUBRUM Scarlet Maple
- ACER SACCHARINUM Silver Maple
- ACER SACCHARUM Sugar Maple
- ACER NEGUNDO Box Elder
- AESCULUS HIPPOCASTANUM
Horse Chestnut
- AESCULUS OCTANDRA, Yellow Buckeye
- AMELANCHIER CANADENSIS,
Shad Bush
- AMORPHA FRUTICOSA False Indigo
- ARONIA ARBUTIFOLIA Chokeberry
- ASIMINA TRILOBA .. Papaw, N. America
- BETULA LENTA Sweet Birch
- BENZOIN AESTIVALE Spice Bush
- BETULA NIGRA River Birch
- CALYCANTHUS FLORIDUS
Hairy Strawberry Shrub
- CARPINUS CAROLINIANA, Water Beech
- CASTANEA DENTATA
American Sweet Chestnut
- CATALPA CATALPA Catalpa
- CATALPA SPECIOSA Catalpa Western
- CELTIS MISSISSIPPIENSIS
South Hackberry
- CELTIS OCCIDENTALIS
American Hackberry
- CEPHALANTHUS OCCIDENTALIS
Button Bush
- CERCIS CANADENSIS Red Bud
- CLADRASTIS LUTEA Yellow Wood
- COMPTONIA PEREGRINA ... Sweet Fern
- CORNUS FLORIDA, see Cynoxylon Flori-
dum
- CORNUS STOLONIFERA,
Red Ozier Dogwood

VINCA MINOR Blue Myrtle	

RUSTIC WORK

We furnish all kinds of wood for rustic work. We will carry a stock, gathered in proper season and treated to hold the bark for the longest possible period but orders that require special attention, **and most of them do**, should be filed before February 1st, for immediate or later delivery the same year. Any order received between December 1st and February 1st can receive special attention. Seldom can these designs be gathered and successfully treated **later than February 10th.**

We can furnish any kind of wood, but cedar and sassafras are generally considered the most durable for outside work, while white or paper birch is considered for its beauty, but must be occasionally renewed.

We keep a card system of odd designs of trees and can usually meet the unusual demands for any nook or corner. Consult us on these unusual effects.

We cut to lengths desired, saving you waste, and we charge by the linear foot.

We pack so as not to bruise by wrapping the bundles in burlap. Limbs, if any, are sawed off one inch from body of piece being cut. The price of burlap is extra but we will buy it back at price charged any time in 60 days.

BOTANICAL NURSERY CO., LAPEER, MICH., U. S. A.

Prices.

Diameter	Price	Cedar	Max. Length	
			Birch	Sassafras
1 to 3	3c	5 ft.	6 ft.	
2 to 4	4c	5 ft.	6 ft.	
3 to 5	8c	6 ft.	8 ft.	
4 to 6	10c	8 ft.	9 ft.	
5 to 8	12c	10 ft.	12 ft.	
6 to 9	15c	10 ft.	14 ft.	
7 to 11	18c	10 ft.		
8 to 12	20c	12 ft.		
10 to 15	30c	14 ft.		
12 to 18	35c	16 ft.		

Extra Lengths.

Should you wish pieces within diameter range with greater than maximum length given, the price will be increased 50 per cent for each **extra foot** in length on account of the difficulty in procuring.

Extra lengths can be secured without increase in price if larger range in diameter is allowed. For instance "3 to 5" we cannot supply longer than 8 ft. in cedar at price given. If you can give us a range of 3 to 8 inches we can supply you with a maximum of 20 feet at a cost of 10c per foot.

Odd Diameters.

Should you wish an odd diameter, say 4 in. to 9 in., add the two prices, "4 to 6" and "6 to 9" or 10c and 15c—25c, divide by two and the price will be 12½c.

Y's, Bows and Crooks.

We furnish crotches, bows and crooked pieces at 50 per cent above the prices quoted.

Out of Sight Pieces.

For pieces that go in places not seen, we supply, wired in bunches without packing or burlap at 33 1-3 per cent below price given. Bark in these may be bruised, partly removed or ragged but the wood will be sound.

Birch and Sassafras.

We can rarely furnish Birch or Sassafras over 9 inches in diameter, but orders placed 6 months or more ahead of delivery can likely be filled in the larger sizes.

In Ordering.

Give smallest and largest diameter you will accept. Never say "average" diameter unless you want a wide variation of diameters for artistic effect.

Cutting Lengths.

We cut all lengths with saw at prices given. We will cut pieces "woodsman style" by chipping with axe for an advance of 15 per cent over quoted prices.

FERTILIZERS

We furnish in bags of about one and one-half bushel capacity the following fertilizers, soils, and mulches:

	Single Bag	10	100
Rotten Hardwood	\$.35	\$2.75	\$23.00
Rotten Wood30	2.30	20.00
Rotten Sawdust30	2.00	17.00
Pine Sawdust30	2.00	17.00
Ground Cobs30	2.00	17.00

BOTANICAL NURSERY CO., LAPEER, MICH., U. S. A.

Rotten Leaves30	1.75	15.00
Dried Granulated Muck30	2.30	20.00
Rich Potting Earth30	2.30	20.00
Dry Bird Manure	1.00		
Propagating Sand30	2.50	

Rotten Hardwood is used everywhere for mixing in beds, and for mulch. It is rich in potash, etc.

Rotten wood has less potash and is good for heavy soil.

Rotten Sawdust is used like rotten wood on ginseng and golden seal beds for mulch and fertilizer.

Ground cobs are unusually rich in potash. They make a good mulch and slowly feed the soil a rich fertilizer.

Dried muck can be mixed with ordinary light soil to bring it up to grade for pots, porch boxes or beds, or can be used as received.

The bird manure is splendid to mix thoroughly with soil to increase the flower crop. It is rich in phosphoric acid.

Let us give you a rule that will help you out of any kind of poor soil difficulty. If the foliage is of a yellow appearance and spindling the plant needs nitrogen.

If the plant bears only a few blossoms you should add phosphoric acid.

If the fruit, seed or stalk of the plant are poor or small they want potash.

We are prepared to ship muck of the richest quality by the carload. We have some of the finest beds in the country and can ship promptly.

HERBARIUM SUPPLIES.

We carry in stock at all times a fine of supplies for making up your herbariums. Prices as follows:

	25	100
Herbarium pages30	\$1.00
Tag Covers, each10	
Plaster, package10	

We also furnish loose leaf binder, presser and blotters. Write for prices. Specimens of any plant furnished. Ask for prices.
