Your committee will also observe that whilst they are considering the planting interest of the state, and the means of affording to nazigation so increasely to its existence, all the facilities which its important dediction of the sight of other interests equally important to our prosperity. In accordance with this view, it was an important of S France X was of Review. ve—25 yeas: they are considering the planting interest of the And that Messrs Brashear, Breazeale, Dizon, state, and the mouns of affording to navigation so its imper ance demands, the constitute our prosperity.

Other purposes

An act to incorporate the Roman Carbolic congregation of the remaining of the purposes.

An act to incorporate the Roman Carbolic congregation of the remaining of the parish of the constitute not materially to crest, or to affect the value of property acquired on the belief and faith of the continuance of the reculation made by the act of 1827.

In connexion with the change proposed by your o mninee, and as a part of one system for amelirating the condition and supplying the wants of he navigation inferest, they down it their duty to arge upon the serious consideration of the house he expediency of authorising the enterprising ciezens of New Orleans to make the projected imrovement of the port lying above canal street, upa the terms and in the manner proposed by them. chis privilege is greater, and the projected imrivement is completed, it will form an epoch in acumuls of our state, and give a new spor to its ravigation, commerce and agriculture, well calcuact to promote the solid and permanent interest the state.

Your committee are of the opinion that the folwing const erations are conclusive of the quesion of expediency of the proposed alteration, and t auth aising the prejected improvement.

The present accommodations for the commerce I New Orleans (which is the commerce of the ate) when it did not amount to more than one half s presen value. Then it did not excood twenty, ow a has risen to near forty millions.

That the sceam loats and other craft which was our port the vast productions of the valley of the lississippi have to pay levee outles very onerous then compared with the limited means of accomedition affeded, and are, moreover, subjected to elage in discharging their cargoes, that to bem lave proved much more operous and vexatious, i'm that of excessive levee duties.

The lateau in front of the 1st and 6th wards, he space assigned to steam houts and flat boats to ay at and discharge upon, have gradually encroached upon the rivery in this sense dimeterally to renear the accommodations intended for them less found should relate the mean attorned to improve the new actions the fact to authorise certain percent therein mentions to consequence of this extension of the butteau the improve the protection of the section of the butteau the sense of the section of the butteau the sense to the account of the section of th Ly at and discharge upon, have gradually encroachseparation of the same to low water mark, with a tion.

The speaker appointed Mr David on the low · increase, but long experience has proved that hey do not answer the expectations of the most

a haziastic in favor of their crection. In the first place, they only afford accommoda ons to steam and flat boots during the highest age of the river, and even then, boats discharge erson are necessarily connelled to roll their crace of sugar, cotton, &c. upwards of one huned yards over them, in order to place them in st rations for the drays to receive them. The exwase incident to this made hasides the loss and amage sustained by the planter in having his cr. p righty ban fled, and exposed to the inclemency if he weathe .) is in many instances a very se-

. as drawlack upon the profits of the vessels enmue I in that bracch of the trade. In the second place, most wharves are only tem orary in their nature, and besides this not answering the ends proposed, their reparation from year to year, draws from the city/treasury large sums of

The crection of a levee and extending the streetis represented on the diagram of the projected in provements, could in the opinion of the committee, s well, also, as these long conversant with the hanges to which our river is naturally subjected, e the means of preventing or avoiding any future hange, and at the same time afford permanent and mple accommodations to meet the growing wan's which the increasing trade of the city necessarily eman 's in our port arrangement.

Another evil very serious in its nature, would e in some measure overcome by completing the tensure contemplated by the memorialists.

This batteau, as its name implies, is subject to an ne nondations for several months, and the remainder of ear exposed to the rays of the sun, which, in the one is the f many whose knowledge of the causes of the local dis axes of the city entitle them to much confidence, has been one of the exciting means to gen rate the yellow fever: a one of the exciting means to gen rate the yellow fever: a scutting that has imposed very a rious draw backs upon the increase and pro-perity of the empo sum of the West, and capital of the state. Reclaiming this extensive batteau is the projected plan eventually contimplates, and rendering it a suitable receptacle for the produce of the wast trade which congregates thereon from 14 states, would be one of the most a spic ous eventually would not detract from the mint of those who nided to accomplish such a measure. ne embellished and certainly would not detract from the nint of those who nick to accomplish such a measure. If the preaent inch quate means of accommodation should remain an the proprietors of ateam bone and those engaged in selling their cargoes when landed lere, would not under the necessity of imposing greater the a supen he article consigned to their care, and who would feel the effect of this additional charge, certainly the grower of the copy but the measure commodations as will tend to cover the present rates and experite the discharging of boats. In conclusin of these suggestions were committed. In c nelusi n of these suggrations, your committee would ask who that has witnessed the limited space on which 500 H00 bales of cotton, 100,000 hogsheads of sugar, 35,000 hogsheads of tobacco, pork, fluir, do ack are usually landed, and that, during a few norths, that dies not feeling along of timestic feeling space. not feel a glow of dissatisfaction arise within him. A street, and that only 6's feet wide, enough for such a business! The id-a is too absurd for serious contemplation. If the whole butteau was reclaimed and sappropriated to hat purpose the secommodations of the port would not be to mensurate with the demands of great and growing
