ATTACKS SOUTH OF ZAGETCHAR FAILED

Bulgarians Repulsed North of Nish by King Peter's Troops

RUSSIAN FORCE SAID TO HAVE LEFT ODESSA

Expected Anglo-French Fleet Will Shell Dedeagatch; Bulgarians Fortifying Port

Athens, Oct. 13.—The Serbian legation today announced the repulse of fresh Bulgarian attacks south of Zagetchar, on the Nish-Prachov railway.

The announcement added: "The Serbian forces still occupy the heights dominating Belgrade and have killed 2,000 Germans during the fighting now raging around the Serbian positions."

From Odessa.

Athens, Oct. 13.—A fleet of Russian transporters is reported to have left Odessa yesterday for the Bulgarian coast with a flotilla of destroyers and torpedo boats guarding it to prevent an attack by German submarines.

The fleet also was accompanied by two battleships to cover the disembarkation of troops.

Blockading Coast.

Paris, Oct. 13.—The Anglo-French fleet is blockading all Bulgarian ports on the Aegean sea, according to an announcement here today.

It is believed Dedeagatch will be bombarded.

Salonica, Oct. 13.—Believing the allies will attempt an invasion through that port, the Bulgarians to-day were busily engaged in the work of fortifying Dedeagatch, on the Aegean sea.

Suffered Reverses.

London, Oct. 13.—The issue between Bulgaria and Serbia apparently has been joined squarely. It is reported unofficially that Bulgaria has declared war on Serbia. Little is known here of the progress of hostilities between these combatants beyond the fact that Bulgaria has invaded Serbia and is said to have suffered reverses in the opening operations.

In Northern Serbia the Austro-German invaders are meeting with stubborn resistance.

Resisting Stubbornly.

Berlin, Oct. 13.—It is claimed in the official statement issued today that the Austro-German invasion of Serbia is making progress, but it is admitted that the Serbians, by their resistance, are interfering to some extent with the advance.

A village and other positions south of Belgrade have been captured. It is claimed.

Heavy Losses.

Paris, Oct. 13.—The following Serbian official statement, issued on Monday, has been telegraphed by the Havas correspondent at Nish:

"The situation was modified on the Danube front on the 10th. Two unsuccessful attacks north of Pozarevac cost the enemy heavy losses. By a night attack the enemy captured the village of Lipa. We counter-attacked and retook the village, driving the enemy off with serious losses.

"Two night attacks on the fortresses and town of Semendria also were repulsed with heavy losses for the Austro-Germans.

"The enemy attacked our positions from the environs of the village of Rencobahala, near Belgrade, during the entire day. Our troops repelled the attacks without firing on the town.

"On the Save front the enemy opened with his heaviest artillery, but our troops hold their positions."

RUMOR CIRCULATED IN WASHINGTON TO-DAY

Washington, Oct. 13.—A rumor that Great Britain is to make sweeping concessions to the United States in regard to commerce was circulated widely here to-day. It is known that the British ambassador, Sir Cecil Spring-Rice, recently called on President Wilson. Secretary Lansing refused to discuss the matter today.

It was learned this afternoon that the note of protest to Great Britain is being held up, and it was intimated that there is a possibility that it need not be sent.

2,000,000 DISABLED, SAYS PROVIDENCE MAN

New York, Oct. 13.—There are now 2,000,000 men in Europe who have suffered the loss of limbs, faculties, or both, as a result of injuries in the war, according to Frank B. Gilbreth, of Providence, R. I., who has just returned from Germany, where he studied methods for giving employment to cripples. Mr. Gilbreth has been requested by Germany to instruct a corps of teachers how to enable crippled fighting men to become productive members of society after the war.

SCANDINAVIAN HAS REACHED ENGLAND

Infantry Draft From B. C. Among Detachments Landed in Motherland

Ottawa, Oct. 13.—The militia department has received information of the safe arrival at a port in England of the steamship Scandinavian with the following Canadian troops on board:

Infantry draft from British Columbia, 19 officers and 438 men; infantry draft from Ontario, 15 officers and 150 men; draft from Army Medical Corps, 5 officers and 109 men; detailed medical officers and one Belgian reservist.

Quiet on Canadian Front.

London, Oct. 13.—There has been quiet along the Canadian front recently, though there have been numerous artillery engagements during the afternoons. A few nights ago the Germans became noisy. Compliments were exchanged over no-man's-land, where the trenches were close enough.

This led to active hostilities at one point and the Canadians gave the Germans a taste of fire. The enemy retaliated with a couple of aerial torpedoes which did little damage.

For the Wounded.

St. John, N. B., Oct. 13.—R. M. Burden, formerly of St. John, now residing in Boston, has offered to the Military Hospital's commission his fine farm and old colonial residence at Nerepis, on the St. John river, as a home for convalescent soldiers.

London, Oct. 13.—The drafts which reached here from Canada yesterday will be stationed at Bramshot, Surrey.

BROKE INTO FRENCH CONSULATE AT BEIRUT

Paris, Oct. 13.—The American ambassador was notified to-day that the American seals placed on the French consulate at Beirut, Syria, had been broken open by the Turks, despite the protests of the American consul, and that the Turks had examined all the papers stored in the legation.

WENT AGROUND.

Quebec, Oct. 13.—The steamer Lady of Gaspe, from Montreal to Quebec and Gaspe ports, went aground this morning in a dense fog. She was entering Quebec harbor when she struck near the Quebec bridge. The vessel is making water and it is feared she has suffered serious damage.

Pierced Last Line of Enemy's Defences on the Strypa River

Petrograd, Oct. 13.—Another striking victory has been won by the Russians on the southern front in Eastern Galicia. They have pierced the last line of Austrian defences on the Strypa river and stormed one of the strongest points on the Austro-German right flank.

GREEK GOVERNMENT'S REPLY TO SERBIA

Action of Bulgaria Does Not Call for Action by Greece

Paris, Oct. 13.—The Athens correspondent of the Matin says he has learned from a diplomatic source that the Serbian government, having raised at Athens the question of Greece being called upon to give her support under the terms of the treaty of alliance, the Greek government replied that the present aggressive action of Bulgaria had not a purely Balkan character, and therefore did not come within the provisions of the Greco-Serbian treaty.

Next Step.

Paris, Oct. 13.—"What will Greece do now?" This is the question which is being asked on all sides here. Her treaty with Serbia expressly stipulates that if one of the contracting parties, already engaged in war against a third power, is attacked by Bulgaria, the allied general staffs of Greece and Serbia must consult with a view of immediate action.

The next step therefore, it is maintained here, rests with the Greek general staff, whose chief is King Constantine. That the king will consent to depart from the policy of armed neutrality is doubted here, although Bulgaria has launched an army of 60,000 men against Serbia.

To Avoid Crisis.

Paris, Oct. 13.—After the adjournment of the Greek chamber, says an Athens dispatch to the Matin, M. Venizelos, former prime minister, called a meeting of his supporters, who constitute a majority of the chamber, and informed them that in view of the present circumstances it would be advisable to adopt a tolerant attitude toward the new cabinet. This would be done, he said, to avoid a crisis, the consequences of which might be grave, and to avoid giving a pretext for the dissolution of parliament.

VIVIANI BECOMES FOREIGN MINISTER

Prime Minister of France Succeeds Delcasse, Who Has Resigned

Paris, Oct. 13.—Theophile Delcasse, the foreign minister resigned to-day. His resignation was accepted.

M. Viviani, the prime minister announced the resignation of M. Delcasse and its acceptance at a meeting of the cabinet council to-day, presided over by President Poincare. It was decided that the prime minister should take over the portfolio of foreign affairs, with the presidency of the council of ministers.

Theophile Delcasse has been one of the foremost French statesmen during the last twenty-five years, having to his credit the inspiration which led to the formation of the Anglo-French entente cordiale. He also was credited with an effective influence in the settlement of differences between Russia and Great Britain, making possible the formation of the triple entente.

When he was foreign minister in a former cabinet, Germany became very hostile toward him, the Germans professing to believe that his policy aimed at the political isolation of their nation.

For some time M. Delcasse has been in ill-health, and for some weeks past M. Viviani has been acting as foreign minister.

ANOTHER GERMAN SHIP SENT TO THE BOTTOM

Copenhagen, Oct. 13.—Another German steamship has been destroyed as a result of the British submarine campaign in the Baltic, undertaken to prevent Germany receiving supplies from Norway and Sweden. The German steamship Walter Leonhardt, of 1,261 tons gross, was blown up and sunk in the Baltic yesterday by a British submarine after her crew had been permitted to take to the small boats.

BILL WAS SIGNED BY THE KING TO-DAY

London, Oct. 13.—The American loan bill, which was sanctioned yesterday by the House of Commons, was passed through all its stages in the House of Lords to-day and immediately thereafter received the royal assent.

INVASION FOLLOWED BY DECLARATION

Bulgaria, Her Forces Having Crossed Border, Has Declared War on Serbia

MONASTIR CHOSEN AS NEW SERBIAN CAPITAL

British and French Batteries Are Assisting Serbians Against Bulgarians

London, Oct. 13.—Bulgaria has declared war on Serbia, according to a Central News dispatch from Paris.

Bucharest, Oct. 13.—Dispatches from the Bulgarian frontier late yesterday stated that a declaration of war against Serbia would be posted throughout Bulgaria last night.

Bulgaria is the twelfth nation to enter the war.

Bulgaria's army, while considerably smaller than that of Roumania, is well-drilled and equipped. Her military strength in time of war is estimated at about 300,000 men.

Since the second Balkan war, in which Bulgaria fought Greece, Serbia and Montenegro after the victory of all four nations over Turkey, Bulgaria has been isolated to a certain extent from the other Balkan states. The second war, which resulted from a dispute as to the division of territory won from Turkey, was not participated in by Roumania, which also had kept out of the first Balkan conflict. Roumanian troops invaded Bulgaria, however, and forced the latter to make territorial concessions.

When peace finally was restored, Bulgaria was compelled to relinquish a large part of the territory she had gained in the first war.

The ill-feeling thus engendered made it doubtful whether Bulgaria would consent to enter the present war on the side of the Serbians and Montenegrins. Recently Germany induced Turkey to cede Bulgaria territory along the line of the Dedeagatch railway. Bulgaria also is said to have been pledged help in an attempt to obtain the whole of Macedonia, as well as part of Dobruja (Roumania). Bulgaria ordered the mobilization of her army on September 21. Bulgarian troops actually invaded Serbia about twenty-four hours before war was declared.

150,000 in Serbia.

London, Oct. 13.—One hundred and fifty thousand Bulgarians have invaded Serbia, official advices received here to-day from Nish say.

The efforts of the Bulgarians to cut the railways running to the north and south of Nish are said to have been successful.

The Serbians realize the new peril with which they are confronted, and Monastir, in the southwestern corner of the kingdom, has been chosen as the new capital, and the archives already are on route from Nish.

A number of French and British batteries are opposing the Bulgarian artillery and Krupp guns. German aeroplanes are directing the fire of the Bulgarian guns.

It was believed here to-day that the Russian expeditionary force which was reported to have left Odessa yesterday would land on Bulgarian soil on the Black Sea coast. Reports that Grand Duke Nicholas is in command could not be confirmed.

NO REPRESENTATIVES FROM THIS PROVINCE

Could Not Reach Ottawa in Time for Conference on Monday

Ottawa, Oct. 13.—Every province, with the exception of British Columbia, will be represented at the conference to be held in Ottawa on Monday next for the formation of a co-operative scheme by the federal and provincial authorities to secure suitable employment for returning soldiers. It is top far from British Columbia to permit of representatives arriving at the capital in time.

In the case of the other provinces, the premiers have notified the prime minister that they will be represented. Premier Scott, of Saskatchewan, will be here in person.

Already tentative plans have been prepared by the Canadian Hospitals commission, under Senator Loughheed, for supplying the returning men with suitable work whereby they will be able to supplement their pensions.

The co-operation of the provincial authorities and of influential industrial bodies all over the Dominion is desired. It is expected that the conference will have important results.

REPORTED TO HAVE TENDERED RESIGNATION

London, Oct. 13.—Reports that Sir Edward Carson, the attorney-general had resigned were circulated widely here this afternoon. Verification of the rumor had not been obtained up to a late hour.

MADE ATTACK NEAR SOUCHEZ; REPULSED

Enemy's Attempt Last Night No More Successful Than Preceding Ones

MANY BOMBS DROPPED BY FRENCH AVIATORS

Paris, Oct. 13.—The Germans last evening attacked the French positions near Souchez, and were repulsed at all points, according to the announcement issued this afternoon by the war office.

There has been artillery fighting of particular intensity between the Somme and the Oise, near Andechy and to the east of Rheims. Furthermore, German batteries have delivered a violent fire to the south of Tahure and to the east of Butte de Mesnil, in the Champagne.

In the Vosges the Germans succeeded in gaining possession of a short French trench. A portion of the trench was recaptured by the French immediately.

The text of the communication follows:

"At the conclusion of the bombardment reported yesterday, the enemy last evening delivered an infantry attack against our positions to the north-east of Souchez. These attacks, like the preceding ones, were everywhere repulsed completely.

Artillery Actions.

"Last night saw artillery actions of great intensity, in which both sides took part, between the Somme and the Oise, in the region of Andechy and to the east of Rheims, in the direction of Moronvillers. Batteries of the enemy have delivered a violent cannonade in the region to the south of Tahure and to the east of Butte de Mesnil. Our artillery held this fire back effectively, and in the meantime we are making further progress from trench to trench at a point at the east of the earthworks known as The Trapeze.

"There has been fairly intense fighting with trench machines in the sector of Filroy and more violent fighting accompanied by artillery exchanges, in which both sides took part, in the suburbs of Reillon.

Retook Part of Trench.

"In the Vosges the enemy, after a complete check to his attack along the front from the Lingé to Schratzmannelle, resumed his effort yesterday evening. A second outburst of artillery fire along the entire front, in preparation for an infantry advance, was followed by a fresh attack, which, generally speaking, resulted in failure. The Germans were able to gain a footing in our first line trenches at only one point, and this was to the south of the Lingé hills. The trench they took was between sixty and eighty yards long. Our counter-attacks made it possible for us to recapture a portion of the trench immediately.

"A squadron of nineteen French aeroplanes has thrown down 140 shells on the railroad station at Bazancourt (behind the German line in the Champagne), whence movements of the enemy had been reported.

"Another air squadron composed of eighteen machines has bombarded the railroad junction at Achiety-le-Grand, near Balaune. Other machines have bombarded the railroad tracks at a point near Warrmerville."

KILLED IN FRANCE

London, Oct. 13.—Captain G. S. Robertson has been killed in France. Captain Robertson came from the Rent college, Oxford university, where he won prominence as an athlete. He was a reserve member of the relay team of runners from Oxford which won its race at the games at the University of Pennsylvania last year.

ARE RETREATING ON FIFTY-MILE FRONT

Teutonic Forces in Zlota-Lipa River Region, Galicia, Being Pursued

MAY BE COMPELLED TO FALL BACK ON LEMBERG

Enemy's Front Broken by Troops Under Ivanoff, Brilliant Russian Leader

Petrograd, Oct. 13.—Advancing thirty miles in three days, the Russian army in Galicia, under General Ivanoff, has scored one of the most decisive victories in recent months, according to an official announcement issued by the war office to-day. The Teutonic forces are retreating on a fifty-mile front extending along the Zlota-Lipa river.

General Ivanoff's forces have crossed the Strypa river and are in close pursuit of the Teutons, the left wing of the Russian army having outflanked the enemy successfully. The Teutons offered stubborn resistance at the village of Halyvorenka, west of Trombowla, which was heavily fortified. The fighting at Halyvorenka lasted three days, the Russians capturing every point and bayoneting Teutons who refused to surrender.

"As the Teutons retreated across the Strypa river bridge," says the statement, "they set fire to the structure, but three of our regiments dashed through the flames and prevented the Austro-Germans from reforming on the west bank of the stream."

Front Broken.

London, Oct. 13.—The report from Petrograd yesterday of an important Russian success in Galicia has been confirmed officially. General Ivanoff has broken the Austro-German front along the Strypa, taking two thousand prisoners and a number of guns. If the Russian victory is as definite as is indicated in the official announcement, the Austrians may be compelled to fall back on Lemberg. Such a retreat would be certain to have considerable moral effect in the Balkans, where the continued neutrality of two states is believed to be due largely to the severe reverses suffered by Russia during the summer campaign.

In the Dvinsk region desperate but indecisive fighting continues, with the offensive shifting frequently from one side to the other. Field-Marshal von Hindenburg evidently intends to continue his attack, as it is reported that reinforcements for his army are on the way to the Dvinsk front.

Resuming Offensive.

From the western front come reports bearing evidence that the French are resuming the offensive in the Champagne. Paris reports slow but steady progress, accompanied by the capture of a few prisoners and heavy losses for the Germans.

A German correspondent at the front states that a great fight, in which all arms seem to be engaged, is proceeding now in the Champagne. This is regarded as an indication that the French intend to resume the offensive.

60,000 CANADIANS AT THE FRONT NOW

New Unit Under Brig.-Gen. Mercer Added to Two Divisions

Ottawa, Oct. 13.—Particulars of the composition of the new Canadian unit of "corps troops" which has been added to the two divisions at the front, were received by the militia department by cable this morning. The corps troops total about 19,000 men and bring the Canadian forces at the front up to very considerable total of nearly 60,000 men.

The unit, commanded by Brigadier-General Mercer, C. B., of Toronto, is composed of the following: Cavalry Brigade, with signal troop, about 15,000 men; Field Engineers, 600 men; Brigade of Royal Canadian Horse Artillery, about 1,700 men; 1st and 2nd Brigades Canadian Mounted Rifles, about 8,200 men; Royal Canadian Regiment, 1,000 men; 42nd Battalion, Montreal Highlanders; 40th Battalion, Edmonton; and Princess Patricia's, about 4,900 men; a company of engineers, a unit of the Army Service Corps and a supply and ammunition column.

In addition to the 60,000 men now at the front, upwards of 25,000 men are in training in the motherland, and there are over 32,000 in training in Canada.

ALL PARTS OF CANADA WILL BE REPRESENTED

National Liberal Convention Probably Will Be Held in About a Year

Ottawa, Oct. 13.—The Free Press says editorially:

"It is proposed that a national Liberal convention should be called. The question is under the consideration of leaders in Ottawa, Montreal, Toronto and elsewhere. An announcement may be expected shortly of the proposed date of the gathering, which would include representatives from every part of Canada.

"The organization of such a convention would require much preliminary preparation which hardly could be accomplished in less than a year.

"It is estimated that this would bring the convention on after British arms had achieved victory and a triumphant peace had been declared. Canada, as well as the continent of Europe, is likely to be in the reconstruction stage. The conference of representatives of the progressive Canadian party, it is thought, will be most useful at this stage of the country's affairs.

"It is 22 years since the last Liberal convention was held in Canada. Since it met the Liberals went into power and went out again. The principles declared at that convention had the opportunity for the tests of both time and administration.

"It is not proposed that the convention, though a party one, should be of a highly partisan character. It is not the achievement of office but the promulgation of principles which the promoters of the convention have in mind.

"In the 22 years which have elapsed since the last great Liberal convention, Canada has developed. The declaration of principles then made should be enlarged, in the views of many.

"It is felt that it would be only fair to the party leaders that they should have the opportunity of meeting the Liberal party in convention and giving an account of their stewardship."

ON THE OFFENSIVE ALONG WHOLE FRONT

Russians Hurdled Back Enemy and Crossed the Stryna, in Galicia

SUCCESSES IN DWINSK REGION AND TO SOUTH

Petrograd, Oct. 13.—The following official communication was issued last evening:

"On the west front German aeroplanes, flying over the Gulf of Riga, were driven off by our destroyers. In the Tukum district our Ilyamurovets aeroplanes threw scores of bombs on an enemy artillery transport column.

"In the Dwinsk region desperate fighting continues. Near the village of Dubelichky, northwest of Iloukai, the Germans succeeded in occupying part of our trenches. The fighting has not ceased.

"Near Lantzessghey, northwest of Nowo Alexandrowsk, our artillery dispersed the Germans. The fire of our artillery also forced the Germans to abandon their trenches and the village of Jorick, south of Lake Demmen. Under cover of a fog, our troops at dawn yesterday, without firing a shot, suddenly attacked the enemy near the southern end of Lake Demmen and captured three lines of his trenches and took prisoners and machine guns.

"Near Gersenthal, north of Lake Driestita, we gained a success, also taking prisoners. Our aviators, assisting field troops, threw fifty bombs in the enemy's lines on the front of Lakes Meduin and Driestita.

took Villages.
South of Lake Obole our troops crossed the River Prorwa and captured the villages of Rudzi, Golowitch and Gawranstia. They also occupied Isthmus on the northern end of Lake Bogensky. Near the Ogniski canal the enemy attempted to advance at some points, but was repulsed everywhere.

"Southwest of Pinsk the Germans were attacked and dislodged at the point of the bayonet from the village of Kuforna. They fled in disorder and suffered heavy loss from our machine gun fire.

"South of the Pripet region, on the left bank of the Stry, our cavalry made a series of successful raids. The enemy made attacks near the villages of Rafaloka and Swahuny, on the Stry, below Chirtorsk, and his attempts to cross were unsuccessful.

"In the Galicia region, at the village of Halvorenka, west of Trembowla, our detachments, following up the success gained the previous day, forced the enemy's last line of defence and occupied two lines of trenches. They also stormed a farm on a height east of Halvorenka. This position constituted a strong fort, with a complete system of trenches which covered it, connected by a corridor with loops protected by steel plates and two rows of barbed wire around the works. In the redoubt 252 men surrendered and we captured a gun and three machine guns. In an attempt to recapture the lost works the enemy launched a counter-attack with large forces, but was repulsed. By a fresh effort in the same region we forced the enemy's line on Mount Makova, where we captured an entire Austrian battalion.

"As the result of the fighting in the whole of this sector the enemy was defeated completely and began to retire in disorder. Our troops pursued him closely and entered Halvorenka by a bridge which was on fire. Towards evening we crossed the Stryna, our cavalry, which had been thrown forward to break up the enemy's forces, subdued many and captured a convoy. Our trophies this day consisted of 60 officers and over 2,000 men taken prisoners, with four guns and ten machine guns.

Turks Repulsed.
"On the Caucasus front, in the Iltoral regions, the Turks attempted, under cover, to cross the river Archave at several points, but their attempts were discovered in time and repulsed by our force.

"North of the Ochkan region of Mount Biraket there were some encounters with Turkish forces that had been repulsed previously. Near the village of Kechyk, southeast of Lake Tertum, there were a cannonade and rifle fire. A lively Turkish attack in the region of Jopul, northwest of Molozghet, was stopped near the village of St. Karich, and the enemy was driven back. There were some actions on the southern shore of Lake Van, east of the village of Vastan.

"On the remainder of the front there was no change."

German Statement.
Berlin, Oct. 13.—The following official report was given out yesterday:

"Army of Field-Marshal von Hindenburg. On our western front, at Dwinsk, our attack led up to the storming of an enemy position west of Iloukai, over a front two and a half kilometres wide. Three officers and 27 men were taken prisoners and one machine gun was captured. Russian counter-attacks were repulsed."

Austrian Statement.
Vienna, Oct. 13.—The following official communication was made public yesterday:

"There is no change. In the region south of Burkanow (East Galicia), we repulsed three Russian attacks. We directed a fourth attack, which was directed against a front of from two to three kilometres (124 to 136 miles).

"On the Korwin and north of Rafalowka, on the Stry, the enemy made unsuccessful attacks."

"Why so abstracted this morning, dear? I have a new gown in my mind." "Well, please don't get it on your back until after the first of the month."

PROGRESS CONTINUES IN THE CHAMPAGNE

Attempt Made by Enemy in the Vosges Ended in Failure

Paris, Oct. 13.—The following official statement was issued last night:

"The enemy this afternoon very violently bombarded the trenches which we took from him by our action yesterday to the northeast of Souchez. The number of prisoners taken in this action was 165, including three officers. The Germans have suffered heavy losses.

"Cannonading, characterized by intensity on both sides, has been going on to the south of the Somme, in the region of Tilloy and Pienens, and on the Aisne front, on the plateau of Neuvron. The enemy again having dropped shells on Salisans, we replied effectively against his trenches and batteries.

"In the Champagne our progress continues in the direction of the gully of La Goutte, which we dominate to the west of a somewhat extended front.

"The enemy resumed the bombardment of our positions in the direction of Maisons de Champagne, and to the north of Massiges.

"An attempt at an offensive in Lorraine against one of our advanced positions near Pont-de-Maugoue was checked completely by our shelling and barrier fire.

"In the Vosges, after an intense bombardment with shells of all calibres, a violent infantry attack was made against our position at Linze and Schratmansele, but was repulsed completely. Some groups which had taken foot in one of our trenches were driven out by an immediate counter-attack."

Belgian Report.
Paris, Oct. 13.—The following Belgian official communication was issued yesterday:

"After a quiet night and morning, the enemy artillery displayed activity in shelling Furnes and our trenches in the outskirts of Dixmude and Oostkerke, as well as Nieuwepelle. There has been an engagement with bombs in the direction of the Barrambaert House. In addition to our answering and sustained retaliatory fire, we directed our fire on the enemy's works."

Berlin Statement.
Berlin, Oct. 13.—The following official statement was issued yesterday:

"North of Atras the French continued their attacks. Two local attacks made against the trenches which were captured to the southwest of Loos on October 8 were repulsed.

"Strong attacks against our front from the northeast, directed to the east of Neuville broke down in places with severe loss to the enemy. Only in places did the French reach our first line.

"In the Champagne French attacks on both sides of Thure ended in a serious setback for the enemy.

"In spite of strong artillery preparation, the enemy yesterday nowhere succeeded in gaining ground."

ANNUAL MEETING OF G. T. P. HELD YESTERDAY

Montreal, Oct. 13.—The annual meeting of the Grand Trunk Pacific Railway was held yesterday, when officers and directors were chosen. President Chamberlin, in his address, outlined the extent of the constructional work that had been accomplished in the last year and discussed the prospects for the future.

E. J. Chamberlin was re-elected president of the road. Other officers are: M. Donaldson, vice-president and general manager; W. H. Flueger, K.C., J. E. Dalrymple and Frank Scott, vice-presidents; Henry Phillips, secretary; Frank Scott, treasurer; W. H. Biggar, K.C., general counsel; W. Hardley, comptroller. PROGRESS MADE BY KING VICTOR'S TROOPS

Rome, Oct. 13.—The following official statement was made public last night:

"Attacks and counter-attacks, following each other continually in the zone of the Aisne and its tributaries. An enemy raid in the direction of Malva Secundo Posto, to the north of Monte Corone, at the approach of dawn on the 11th, was repulsed. In the night Valdesa our troops were made further progress.

"On the rest of the front, particularly in Carnia, the enemy, as usual, has been ineffective with his artillery fire.

"On the Carso front during the night of the 11th, after an intense artillery and rifle preparation, the enemy made an extended attack against our positions east of Vermezzano and on Monte Selbus. He was stopped immediately and thrown back with heavy losses."

COTTON PIECE GOODS TO BE PUT ON LIST

London, Oct. 13.—In reply to a question in the house yesterday as to whether the government still was allowing cotton to go into Germany under certain circumstances, Sir Edward Grey said that raw cotton, cotton waste and cotton yarn all had been declared contraband, and every possible step had been taken to prevent these from reaching Germany.

It was intended, he added, forthwith to declare as contraband cotton piece goods and other cotton products and prohibit the export to neutral countries contiguous to Germany and Austria of such goods, if capable of being used in the manufacture of explosives.

FINE POTATOES GROWN AT PRINCE GEORGE

Prince George, B. C., Oct. 13.—The problems of a market for the potatoes and other vegetables of the Prince George district, which was worrying the growers, gives promise of being solved in a better way than any of them expected. Potato growers say that the potato raised in this district, if attended to properly, is the best they ever saw, beating even the famous Ashcroft product. This information and the fact that a market was looked for for this year's surplus evidently got to the ears of the Grand Trunk Pacific railway's dining car officials, and a trial order is being made up of 100 bushels. It is said that if the tubers are as good as expected the railway will make a specialty of the Prince George potato on its trains and boats and in its hotels, as the Northern Pacific does with its "big brown, baked potato."

O. WRIGHT WILL BE CONSULTING ENGINEER

Has Sold His Interest in Aeroplane Company to Syndicate

New York, Oct. 12.—Orville Wright has sold his entire interest in the Wright Aeroplane Company, of Dayton, Ohio, to a syndicate consisting of William B. Thompson, Albert H. Wilkin, president of the Chase National Bank of New York, and Frank Manville, of the H. W. Johns Manville Company, according to announcement today.

The Wright company, which controls all of the patents on aeroplanes secured by Orville Wright and his brother, the late Wilbur Wright, is capitalized at \$1,000,000, of which \$800,000 is outstanding. Orville Wright owns ninety-seven per cent. of the outstanding stock. The purchase price could not be ascertained.

It was learned that Orville Wright, although disposing of his entire interest in the present company, will become consulting engineer of a new aeroplane company which the syndicate will form. It also was said that Wright will be a stockholder in the new company.

The new aeroplane company will have a much larger capitalization than the present Wright company, and it will undertake to manufacture various types of aeroplanes and flying boats on a far larger scale than has been attempted heretofore in this country.

Dayton, Ohio, Oct. 12.—The sale of the Wright aeroplane factory to a syndicate of New York men was for a consideration of approximately \$1,500,000, it was reported here today.

Orville Wright has been in ill-health for nearly a year and announced that he would enjoy a respite from business affairs. He will take a rest for at least a year.

The sale includes, everything," he said. "I shall retain some stock in the company and probably will be consulted in an advisory capacity.

"I will give my time to scientific research along the lines of aviation. I think I shall enjoy the respite from business cares."

WILL RECEIVE PAPER.

Zurich, Oct. 12.—The Austrian government has issued an appeal to the public to take all gold and silver jewelry and plate and other articles made of these metals to the mints for conversion into coins or bars. The necessity of strengthening the gold reserve and meeting payments abroad for goods for military purposes is given as the reason for the appeal. Persons who surrender gold or silver will receive full payment in banknotes and certificates of honor for their patriotic acts.

SUCCESSES WON BY RUSSIANS IMPORTANT

Enemy Forces Between Nowo Alexandrowsk and Dwinsk-Poniewesch Ry, Menaced

Petrograd, Oct. 12.—Although little stress was laid upon it in the official report the success obtained by the Russians in a counter-attack on a front 12 miles long from Garbounowka to Lautzenzhey nevertheless was a decided one. The Germans were compelled to evacuate the territory around the highway from Dwinsk to Nowo Alexandrowsk.

The general staff regards the blow delivered to the Germans in this district as a serious menace to the disposition of their forces between Nowo Alexandrowsk and the railway from Dwinsk to Poniewesch. Simultaneously a strong movement of the Russians southeast of Dwinsk has pressed the Germans to the natural defences formed by the line of lakes. Pressing them westward from Widay, Russian cavalry occupied the village of Ostio, on the west bank of Lake Bogensky. Thus the Germans have been driven farther from the Dwinsk group of highways and the roads leading to them.

FOR THOSE RETURNING FROM BATTLEFIELDS

Problem of Providing Employment Will Be Discussed at Ottawa Monday

Ottawa, Oct. 12.—The problem of providing suitable means of employment for Canada's soldiers returning from the war, including two or three thousand who have been disabled already and the tens of thousands who will be coming back after the war is over, is to be discussed at a conference of federal and provincial representatives here on Monday next. Sir Robert Borden has invited all the provincial leaders and ministers of education to attend the conference and discuss with him and the members of the Military Hospitals commission the suggestions that already have been drafted looking to a solution of one of the biggest problems which confronts the Dominion.

Senator Longhead, president of the Military Hospitals commission, has been entrusted by the government with the chief responsibility for working out some comprehensive scheme, and he has prepared in a general way proposals looking to the active co-operation of the federal and provincial governments and of various public bodies in providing a solution. The draft plans will be considered at the conference on Monday.

There are already upwards of 2,000 men who have been disabled more or less by wounds or illnesses. Senator Longhead's plan provides for enabling them to supplement their pensions by giving them technical training of some kind under the direction of the various provincial schools which would enable them to take up callings suitable to their particular needs. For instance, there are several scores of soldiers who have lost their eyesight. They will be placed in schools for the blind, and a sum will be set aside for the expense of their education. Similar plans are being made for those who have lost the use of their limbs.

Larger Problem.

There is the still larger problem of providing work for 100,000 or more soldiers who will have to seek employment as soon as the war is over. Tentative proposals have been made for distributing these men through labor exchanges or for enabling them to settle on some of the agricultural lands under the control of either the federal or the provincial governments.

Experience has shown so far that with most of the men at the front little or nothing is saved out of their regular army pay. When the war is over the probabilities are that most of the soldiers will return to Canada under the necessity of finding some means of employment immediately. A suggestion has been made that a percentage of the pay now allotted be kept back by the government and placed to the credit of the men at compound interest, so that when they are discharged each one will have a small nest egg to keep him for at least some weeks until he becomes adjusted to the labor market in Canada again. The objection to this is that when the men enlisted they contracted with the government for the receipt of the regular pay at the end of each month. The government cannot break this contract arbitrarily, but it is believed possible that in the majority of cases the men themselves would consent to some scheme of government savings on their behalf. This would be following the same lines as obtain in the civil service, where five per cent. of the regular monthly pay is kept back and given in a lump sum to the civil servant when he retires.

The disablement fund which has been started by the Military Hospitals commission received another \$14,000 today from the Charitable Irish society, of Halifax. The amount was realized by popular subscription among the members.

A BATTLE VIEWED FROM A PORTHOLE

Correspondent Describes the Recent Landing of Troops at Suvla Bay

London, Sept. 23 (By mail).—The following has been sent to the Chronicle by E. Ashmead-Bartlett, Eastern Mediterranean.—When the fresh landing was made at Suvla Bay I was told one afternoon in August to go on board the steamship Minneapolis, which would sail some time during the night. The Minneapolis is a huge Atlantic transport liner.

I went on board her at Kephalos Bay about 9 o'clock. The night was pitch dark, and not a light was showing in any of the vessels in the harbor. I found her huge sides looming out of the darkness with apparently no means of climbing on board from the little tug which conveyed myself and two companions to her. Finally I found a rope ladder and managed to reach the deck, which was covered with soldiers, guns and gear of all kinds. I tried to find an officer, but in the darkness, in a ship of this size, it was almost impossible.

Finally I groped my way to the bridge and ran across the chief officer, and asked him how we could get our baggage on board. He then told me that a ladder was down round the upper side, which we had evidently missed in the darkness. I returned to the port bow, where I had left this small tug, just in time to prevent a sad catastrophe. I found an 18-pounder gun, suspended in mid-air, and about to be lowered on to the heads of my two friends and our precious baggage. In the darkness the quartermaster in-charge had mistaken our tug for a barge which was coming to take off a battery which had to be landed with the troops at dawn.

It was just in time to save my friend, Harry Nevins, and the press officer, and our baggage from being crushed beneath one of our own guns.

Transformation Scene.

A minute later we were installed comfortably in a first class compartment, beautifully clean, with linen, which none of us had seen for months, on the beds. The place was a paradise of luxury, and it seemed almost a sacrifice for us to enter such a haven of cleanliness in our dirty, war-worn clothes.

The idea of a landing at dawn seemed too unnatural when sitting in this luxurious cabin on a great Atlantic liner, surrounded by hot and cold water, clean stewards, ice champagne, excellent cigars and plenty of perfect sandwiches. I was wakened at 5.30 by the deafening roar of innumerable big guns, and having collected my thoughts, realized we were about to be landed. Dressing hastily, I went on deck, which I found crowded with officers, peering out into the darkness towards the land, which was just becoming visible.

Our first landing parties already were ashore, and troops were being disembarked hastily from the transports. We were lying about 1,200 yards from the shore, in Suvla Bay, and as the light increased we had a splendid view of all that passed.

War From a Window.

The scene in the saloon was strange. Some 50 officers sat down to breakfast, with the dishes set forth on a printed menu, and a steward behind every table. Outside half a dozen warships were blazing away for all they were worth. Our infantry was crossing the spit in front of the Salt Lake, under deadly hail of shrapnel, whilst his snipers kept up an incessant rifle fire, and the endless procession of motor lighters, with their crowded khaki freights, never stopped going and returning to the three chosen beaches, A, B, and C. From A beach came a series of explosions, followed by clouds of black smoke. Someone remarked,

"Those can't be shells; they must be mines." This was indeed the case, for the enemy had laid numerous land mines, and the first infantry landed there came in for a hot time. Every now and again a shell came whistling overhead, and one knocked off a funnel on a destroyer close by. Then a hostile aircraft dropped a bomb, which burst with a loud explosion just astern of us.

The colonel commanding the artillery on board was sitting by one of the portholes. He had a cup of coffee in one hand and some buttered toast in the other. Suddenly he looked up and remarked: "This is a strange way to do a war. From this window I can catch the action ashore. I can see the shells bursting. I can watch the enemy replying, and see all our infantry as they gradually advance, and at the same time eat my breakfast in comfort." This was indeed true. It was a weird, strange experience, that comes only once in a lifetime.

The Scene Ashore.

That night we again were obliged to sleep on board, as the lighters were not yet free to take us off. At 11 o'clock our chance came, and we slipped ashore, but not without a pang of regret at leaving such comfortable quarters. We knew they were the last we should enjoy for a long time to come. Five hundred yards separated us from A beach, but what a change there

was there! Troops were being landed in thousands and pushed up to the front.

Streams of wounded arrived from the firing line, those who were able to walk hobbling down to the beaches and others being carried on stretchers. We walked across the spit to Chocolate Hill, where our friends the artillery from the Minneapolis, had been landed. The day was as hot as a furnace, and now we were only to get a cup of dirty water, and our minds would revert to the Minneapolis, lying so calmly in the bay, and to all theiced drinks, so near and yet so far.

A vision arose before your eyes. It is that of the old steved with the vacuum cleaner, still at work dragging it slowly to and fro across the gaudy carpet at the top of the stairs. That old man has learned philosophy. He understands, tonight of the war and cares still less. He has his job, and the carpet must be kept clean. The world's work must be carried on in spite of this world struggle, and there is probably not one amongst the thousands who are lying in the open, hungry, thirsty, and weary, who would not willingly exchange places with him.

INTERNATIONAL PEACE TALK. It may be taken for granted that all the speeches delivered before the International Peace Congress in convention at Berkeley, California, referred to Europe as a frightful example of unchecked militarism.

After analyzing the recent German domestic loan which was voted to the skies by the subsidized Teutonic press a writer in the London News and Leader writes up as follows: "Now Germany enters afresh upon the campaign for war-loan. Greater difficulties appear. The people who invested their savings in the second loan have not been able to agree for the third. There will be a minute search for gold. Salaries are to be paid in advance, in order that they may be invested in the war loan, ten years being allowed for repayment of the salary drawn in advance. It is very significant. The serpent begins to devour his tail, Germany mortgages herself to herself. If needs be, compulsory subscription will be resorted to, for the whole economic life of Germany is subordinated to the war. Merchants and manufacturers begin to ask what will happen after peace is declared. They have sunk enormous sums in the war loan, which cannot be redeemed before 1924. They realize that they will need every penny of capital they can scrape together for the resumption of trade. They are met by the specious promise of indemnity; but things are not going well towards indemnity. Russia is unshaken. France just begins, and on the coast there is a British army of immense proportions, and far off on the horizon there is the smoke of the British fleet."

"The serpent is beginning to devour its tail." This aptly describes Germany's financial methods. They will succeed only as long as the German people can be convinced that their foes will have to pay for the war. When that delusion disappears evil days will fall upon the Kaiser's war-mad empire.

TURKS, HUNS AND ARMENIANS. For a time the Huns held the record for brutality and bestiality, but the Turks seems determined, while he has the opportunity, to retrieve his reputation. Lord Bryce says the Unspeakable already has murdered eight hundred thousand Armenians in cold blood and committed atrocities that even a Hun a rampage might be ashamed of. But the work of the Turk is not done, although the United States government has told the Porte that a continuation of the massacre may alienate the sympathy of Americans. Germany also, we understand, has received a "note" from President Wilson beseeching her to use her influence to check the assassins. To this no official reply has been vouchsafed, but Count Reventlow, who always is ready with a reply to a demand or with an excuse for a crime, says the matter is one which concerns Turkey alone, and anyhow the Armenians are an unreliable and bloodthirsty crew. Perhaps a world which has been edited and uplifted by the prayers of a pious Kaiser, while rather startled at the manner in which he exemplifies Christian principles, ought not to expect anything better than that. The fact to be remembered in connection with this matter is that while the Turks in the past have regarded the harrying of Armenians as an occasional pastime, this is no sporadic outbreak. It is a deliberately planned and systematically carried out campaign of lust and slaughter, and there is reason to believe that it is approved by Germany as a legitimate illustration of the efficacy of "rightfulness." American newspapers, commenting on the case, regretfully admit that their government is helpless to apply pressure. However, one of them says "the cynicism with which the German government and press face the matter will be long remembered." So many things have happened since the war began which the United States government ought to record on the tablets of its memory that it is to be feared there are some things which may be overlooked.

NATIONALISTS STILL ON DECK.

E. L. Patenaude, who has been appointed Minister of Inland Revenue in the federal cabinet, describes himself as a Conservative-Nationalist. This means that he divides his allegiance between Sir Robert Borden and Henri Bourassa. The minister he succeeds is Hon. P. Blondin, another Conservative-Nationalist who has become Secretary of State. Straight-line Quebec Conservatives are reported to be greatly annoyed over the preference shown for Nationalists in the filling of cabinet vacancies. They accepted the appointment of Messrs. Monk, Pelletier and Nantel, in the first instance with the best possible grace because they knew that it was the fulfillment of a pre-election pledge. But when Mr. Monk died, and Messrs. Pelletier and Nantel were translated to the bench they anticipated that Conservatives, not Nationalists, would succeed them. But Dr. Blondin and Louis Coderre, both whom followers of Bourassa and Levermore were selected, although one concession was made in the appointment of Mr. Cosgrain as Postmaster-General. The appointment of Mr. Patenaude, instead of L. T. Marchand, to fill the post vacated by the translation of Mr. Coderre to the inevitable haven shows, however, that Quebec Nationalists still have their pull. Politics makes strange bed-fellows.

DEVOURING ITS TAIL.

After analyzing the recent German domestic loan which was voted to the skies by the subsidized Teutonic press a writer in the London News and Leader writes up as follows: "Now Germany enters afresh upon the campaign for war-loan. Greater difficulties appear. The people who invested their savings in the second loan have not been able to agree for the third. There will be a minute search for gold. They realize that they will need every penny of capital they can scrape together for the resumption of trade. They are met by the specious promise of indemnity; but things are not going well towards indemnity. Russia is unshaken. France just begins, and on the coast there is a British army of immense proportions, and far off on the horizon there is the smoke of the British fleet."

TURKS, HUNS AND ARMENIANS.

For a time the Huns held the record for brutality and bestiality, but the Turks seems determined, while he has the opportunity, to retrieve his reputation. Lord Bryce says the Unspeakable already has murdered eight hundred thousand Armenians in cold blood and committed atrocities that even a Hun a rampage might be ashamed of. But the work of the Turk is not done, although the United States government has told the Porte that a continuation of the massacre may alienate the sympathy of Americans. Germany also, we understand, has received a "note" from President Wilson beseeching her to use her influence to check the assassins. To this no official reply has been vouchsafed, but Count Reventlow, who always is ready with a reply to a demand or with an excuse for a crime, says the matter is one which concerns Turkey alone, and anyhow the Armenians are an unreliable and bloodthirsty crew. Perhaps a world which has been edited and uplifted by the prayers of a pious Kaiser, while rather startled at the manner in which he exemplifies Christian principles, ought not to expect anything better than that. The fact to be remembered in connection with this matter is that while the Turks in the past have regarded the harrying of Armenians as an occasional pastime, this is no sporadic outbreak. It is a deliberately planned and systematically carried out campaign of lust and slaughter, and there is reason to believe that it is approved by Germany as a legitimate illustration of the efficacy of "rightfulness." American newspapers, commenting on the case, regretfully admit that their government is helpless to apply pressure. However, one of them says "the cynicism with which the German government and press face the matter will be long remembered." So many things have happened since the war began which the United States government ought to record on the tablets of its memory that it is to be feared there are some things which may be overlooked.

RETRENCHMENT NEEDED.

Aside from the war bill Canada's expenditure for the current year will exceed the revenue by many millions and the Manitoba Free Press declares that unless the government reduces its outlay by some \$40,000,000 per annum the Dominion will land in bankruptcy. It is nothing less than criminal for a country with falling revenue and heavy obligations over which it has no control to be as free with its ordinary expenditure as it was when times were good and it could borrow in several markets at reasonable rates. The interest on Canada's war loans and her pension account are expected to exceed \$20,000,000 a year. These will be unavoidable expenses and the taxpayers are willing that they should be a first call upon their resources, but if to them is added the interest on money borrowed in order to maintain the high rate of expenditure that prevailed before the war, the condition will be intolerable. There is some talk of the flotation of a domestic loan in Canada. If this is for the purpose of raising more money for the war the proposition has attractive features. Up to date, however, all Canada's war funds have been obtained in London and, saving the amount required for interest on these loans, the receipts from increased tariff rates and the new domestic duties have been used to fill the gap between the ordinary revenue and expenditure altogether irrespective of the war. If the purpose of a domestic loan is to avert the necessity of rigid retrenchment then it ought not to be issued.

THE TWO RULERS.

Ferdinand of Bulgaria is not a Bulgarian, nor is there a drop of Bulgarian blood in his veins. His father was Prince Augustus of Saxe-Cobourg and his mother Princess Clementine of Orleans, daughter of Louis Philippe. He was born in Vienna and held a commission in the Austrian army. When Prince Alexander of Battenberg, his predecessor at Sofia, was kidnapped and ejected from the country, a Bulgarian commission searched Europe for a new titular head. Ferdinand was the only one who was keen for the job. The throne in Bulgaria was a jobly institution, and everybody around it seemed bent upon assassinating everybody else. Ferdinand accepted the post and has been so lucky in dodging conspiracies and managing numerous private intrigues of his own that the masses of the Bulgarian people were satisfied to have him as their ruler, although they never liked him. They distrusted him while they admired his address. In the second Balkan war, however, what prestige he had gained as the champion double-shuffler of his time suffered a serious setback. He played Austria's game and for once backed the wrong horse, with the result that his country got the worst of it and he was blamed by the Bulgars for the fiasco. The day his subjects learn that Ferdinand again has jugged his nation into difficulties will be his last. Adherents of Stambouloff still believe that the czar had a hand in the brutal murder of their great peasant statesman, and they will seize an opportunity of squaring the account. Ferdinand believes he is playing safely; that Russia is impotent. Singularly enough, on the very day his forces invaded Serbia, Ivanoff penetrated the Austrian lines in Galicia with every prospect of rolling up the German right wing. But Ferdinand has crossed the Rubicon. He should give orders for the erection of his mausoleum right away.

Constantine of Greece, who wants his country to violate its pledge to Serbia and trail its honor in the dust, is no more Greek than Ferdinand is Bulgarian. His father was a Danish prince, while his mother was none other than the sister of the Grand Duke Nicholas, until recently, commander-in-chief of the Russian armies. He is impulsive, wilful and boastful and thinks he is a strong man, but as a matter of fact his is just the sort of personality that one might expect would be dominated by a determined, strong-minded woman. He is like clay in the potter's hands to the industrious Sophie, who puts a sternly admonitory letter from brother Wilhelm on his plate at the breakfast table every morning. Before ascending the Greek throne Constantine had made himself thoroughly disliked by the army. As commander-in-chief in the war with Turkey in 1897, his incompetence resulted in the defeat of the army and the humiliation of his country. But he clung to his position almost to the point of involving the abdication of his father, and it was not until the army actually turned against him that he gave way. In the second Balkan war, however, he regained considerable of his prestige, but he is still a long way from widespread popularity among his subjects. If he persists in his present course his tenure of the Greek throne is likely to be as short as that of Ferdinand in Bulgaria, for the prospects are that finally the Greek people will do what Venizelos bids them do and Constantine will have to join the procession or get out.

AN ADVICE AND ITS REPLY.

I. "Be kind to your German brother." The mock-mourning gentleman cries: "Show him by your calm forbearance how one may nobly die." "And say when his frenzied blood-lust works deeds true men shudder, 'I fear, dear sir, you're mistaken—' 'Fear pardon! this isn't war!'" "When he sinks a Lapsanta, Or sarks a fresh Louvato, Explain to him—not unkindly— He causes surprise and pain." "Have you rammed his pirate under? His crew in the rough sea tossed? Be quick with boats, brandy and blankets! Save life—though your own be lost! Give them! Donington Hall! Hydro-paths, Golf, billiards and tennis, instead Of the foetid enclosures in Deutschland! Where our men are starting for bread." "Be kind to your German brother. When this sinful war is o'er, Pray, don't hurt his cultured feelings, 'When he's beaten he may feel sore.'" II. "Be kind to my German brother? If the Lion is not an Ass, We shall pull the teeth of this Dragon, And, by Heaven! we'll give him gas! Tell every peace-prater and dastard Let us trample them—'Stand aside!' We have suffered too long and too nobly We remember the men who died! Remember the fate of Belgium, (To honor she dared be true), Men of Britain, with wives and mothers! Will you risk the same treatment, too? By the rape of her wives and virgins, By the graves of her defenceless slain; By a nation in ruin and ashes, By Termonde, Malines, Louvain. By wrecking, and rapine, and murder, By treachery black as well, He has filled up the cup of vengeance, Now lads, be men! drain it well! He has crucified, maimed and roasted Brave men who'd fought him fair, Priest, peasant, nor prattling infant Did the fiend in his frenzy spare. He has dealt down death from the Cloud-lands, From the depths of the cold, grey sea Sprung his bolts on our barques of commerce, The drowning he mocks with glee. He has poisoned the wells of water— He has poisoned with gas our men, Foul were the fumes that slew them— His soul is more foul again. Join, every true son of Britain, And crush this accursed Hun, Nor cease in your stern endeavor Till the work's securely done. We are sick of the namby-pamby, We are out with the hammer of Thor; He has taught us that war is frightful And, by Heaven! we shall give him war. —Dugald MacFadyen, Edinburgh.

TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, October 13, 1900

The Earl and Countess of Aberdeen arrived at the Briard hotel yesterday, on a tour of information about Canada.

Octavius V. Morgan, M. P. for Battersea, is on his way to Victoria with Mrs. and Miss Morgan.

A meeting of the young ladies of the Roman Catholic cathedral was held yesterday and arrangements discussed, having in view the formation of a branch of the Young Ladies' Institute in this city. The success attending the young men's society has shown to the ladies the good that may accrue to both themselves and the church by organization.

PATRONIZE DEALERS WHO SERVE YOU

The store that gives you what you want, when you ask for it and which charges less, fair prices, is the store to patronize.

If you see an article advertised in this newspaper and then see the goods in a retailer's window you know the merchant is a live store-keeper.

You know he is up-to-date—that he reads the newspapers. You know that when you ask for the newspaper advertised article by name you will get it. You know that the store-keeper puts "service first" in his lexicon of business.

FROM NORTHERN LILLOOET

Rancher Says Country Suffers From Lack of Transportation.

After 30 years in the district, J. S. Place, of Dog Creek, is well able to speak concerning the Lillooet district. Mr. Place is making a brief stay at the Dominion hotel, before leaving to-night for Vancouver. He has extensive interests in that section of the province.

"The ranching interests have done well this summer," he says, "rains having raised the grass that is needed for the stock, and the export of animals will be considerable. On account of the distance from transportation, it is not considered good business to stall feed, and the range stock chiefly reaches the railway in that manner. Some of the chief ranches are located in that section of the province.

"Mining activity is quiet, but I think the future will bring suitable openings in the district which stretches from the headwaters of the Bridge river to the Chilcoot, a considerable section of which has not yet been systematically prospected. Improvement in transportation would certainly lead to development of some of the existing properties. Some of the samples which have been brought in from those who have prospected have assayed well in copper, gold and silver.

"The district is handicapped by lack of transportation facilities, but when the Pacific Great Eastern railway is extended north from its present terminus it will help, though not altogether relieve the present difficulties. The district will be brought closer to civilization, but not to the same extent as the area east of the Fraser river, which is to be served by the line."

Chinese Who Jostle Liquor Business With Indians Get Two Months in Jail.

Lam Choy, a Chinese, was to-day in police court sentenced to two months at hard labor as a vagrant. He is one of the men in Chinatown who make a practice of selling whiskey to Indians and he seems to have been pretty cute in the way he went about it. He is only two months out of jail for an offence for which he was sentenced in Nanaimo.

Constable Bishop made the arrest late yesterday when the prisoner stopped an Indian at the foot of Yates street and asked him in the constable's hearing if he might buy some whiskey for him. Constable Bishop stated that the man was a loose and idle character, and had been giving the police quite a lot of trouble. While the Indians were in town he several times tried to stop them, presumably for the purpose of getting them whiskey.

Sergeant Fry said the Chinese had been trying for some days to get rid of the police on the beat, so that he could approach the Indians, by giving false information of some alleged happening, which trick he, and other officers had got on, after they had gone off two or three times on wild-goose chases.

License Inspector Hatcher corroborated this and spoke of the man's idle habits. He had been approaching people begging his fare back to Nanaimo.

City-Prosecutor Harrison commented upon the fact that although Lam was committed from Nanaimo, when his sentence was completed he was turned out on the city of Victoria to be a nuisance here.

Lam Choy would not go into the witness-box, but from the dock denied that he was guilty.

Royal Scarlet Chapter.—Victoria Royal Scarlet Chapter will open at 625 Courtney street, to-morrow, at 7.30 p. m.

Building Permit.—A building permit has been issued to H. Dickson for stores at 756 Bay street.

Tax Sale.—The city tax sale is concluding this afternoon, the properties which have been sold but not paid for being re-offered according to statute. Some 30 properties, the city treasurer says, will revert to the city in the absence of any bidders.

Mr. Hannington's Arrival.—The new city collector is not expected to take up his duties till November 1, it is stated at the city hall. Meanwhile the city prosecutor is acting in that office temporarily.

Old Country Mails.—Old country mails, containing many letters from men at the front, were received at the local post office on Sunday and Monday. These were as follows: 56 bags of papers and 22 baskets of parcel post, by the Princess Mary, via Vancouver; 9 bags of letters and 5 baskets of papers, which left London on September 25; and 12 sacks of letters and 7 baskets of papers, which left London on September 23.

Province Gets Mineral Claim.—An order-in-council has been passed by the federal cabinet, approving of the sale to the province of British Columbia, being lot 1747 in the Kamloops mining division and part of the "Night Hawk" mineral claim. The sale is made at the price of one dollar an acre, or \$120.91 in all, the lands having been declared, by the surveyor who went over them to be of no value for agriculture or for the timber growing on them.

Will Wait Upon Premier.—In the course of a few days, as soon as Sir Richard McBride fixes a date, the Board of Trade committees on agriculture and immigration, which have been dealing with the matter of employment for returned soldiers, will wait upon the premier to present the resolution which was passed at the quarterly meeting last week, on motion of Beaumont Boggs and William Blake-more, suggesting that vacancies in the provincial service should be given to men back from the front, all things being equal.

AT THE THEATRES

COLUMBIA THEATRE.

Mary Pickford, in her greatest film success, "Hearts Adrift," is the feature attraction at the Columbia, and is responsible for the capacity houses at this popular picture theatre the first half of this week. Besides the feature two good one-reel subjects, "The Bell-ringer's Daughter," and "The Countess of the West," are shown together with the weekly war gazette. Commencing to-morrow the Big Four (V. L. S. E.) special feature, "The Man Trail," will be presented for the remainder of the week. The advance notices of this production claim it to be one of the sensations of the season.

VARIETY THEATRE.

Lawrence D'Orsay, the eminent English comedy star, who will appear in the picturization of his famous Broadway success, "The Earl of Pawtucket," at the Variety theatre, Thursday, Friday and Saturday this week, could produce, on short notice, a line-up line that would compare in length with any ship's line. He has been known to fall. But he always came up smiling, for next to a natural humorist, D'Orsay is an optimist. He finds life very sweet because he has made it his business to look for the sweetness. He is always a success. Everybody knows him, but there are thousands who have never seen him. That is why the Universal Film Co. engaged him to give a screen version of "The Earl of Pawtucket." It was written for Lawrence D'Orsay by Augustus Thomas, and is one of the best comedies ever written.

ROYAL VICTORIA THEATRE.

The Royal Victoria is showing a programme of pictures for the last time to-night that will repay a visit. "The Meeting," a five-reel feature, featuring the charming actress Miss Beesie Barrisade, is a photoplay that both from a photographic and acting standpoint is all that can be desired in the silent drama. The story is written by the well-known author, C. Gardner Sullivan, and is well handled, and presents many bright ensembles. It also gives Miss Barrisade a part that suits her temperament best. She impersonates a school girl of ambition who finds herself socially neglected, and in order to raise her importance she writes letters to herself from the idol of the hour, a football player by the name of "Punkie Dick Ames." The scheme works out alright in the end, but not before a lot of amusing situations have taken place through her deception. The whole is very nicely told and Miss Barrisade cannot fail to hold attention by her interesting personality. In addition there is also shown a very funny cartoon comedy, a scenic special, and a one-reel comedy drama, entitled "The Heart of Sonny Jim."

PANTAGES THEATRE.

In addition to the big amateur act which is attracting so much attention at Pantages, there is a regular vaudeville bill which has been one of the most successful on the circuit. A distinct departure in vocalization

Very quietly the marriage of Ethel May, daughter of Major W. S. Weeks and Mrs. Weeks, of 1906 St. Ann street, and Frank Heywood Daly, of Vancouver, was celebrated yesterday afternoon at St. Mary's church, Oak Bay. The ceremony was performed at 2 o'clock, in the presence of a few of the more immediate relatives of the bride and bridegroom, Rev. G. H. Andrews officiating. The bride, who wore her traveling costume, was given away by F. W. Clayton, Miss Phyllis Clayton, who presided at the organ, playing the Bridal Chorus from Lohengrin as the bridal party passed down the aisle to the chancel steps. The Mendelssohn Wedding March was played at the conclusion of the ceremony, as the bride and bridegroom left the church. Mr. and Mrs. Daly left later in the afternoon for an extended honeymoon trip, a number of friends being at the wharf to give them a good send-off.

Vancouver arrivals at the Empress hotel this morning include George F. Whalen, A. W. Renwick, and H. P. Dickenson.

Mayor Gray, of New Westminster, was in the city yesterday, and in the afternoon took a motor run to Royal Oak in order to see the new Saanich paved road.

is the superb performance of the Countess Dornaine, the brilliant coloratura soprano, billed as "The Belgian Nightingale." The Countess is a most effective dramatic soloist; she is accompanied by two harpists, who also render an attractive instrumental number. The best feature of the act is the offering of a number of songs by way of impersonation of leading grand opera prima donnas.

The Van Der Koors have a novel and hilariously funny act, which consists of illusions and intelligently directed horse-play. The performances of "Felix, the Mind-reading Duck," are the occasion of most of the mirth.

Arthur Wanzer and Maybelle Palmer in "Just Tips," have a pleasing offering, which is well received.

"Six Peaches and a Pair," is the prize "bird act" of the circuit. The costume and staging being excellent, the chorus pretty, the song numbers, new, and the fun infectious.

Dainty Alpha Hall and Harry Norwood are seen in a really fine patter and song act.

TALLY-HO MAN MAKES ASSAULT ON ANOTHER

Edward Spilker, Familiar Figure in Police Court, Fined Heavily for Latest Offence

An assault was committed yesterday by Edward Spilker, an employee of Cameron & Caldwell, who is a familiar defendant in the police court, upon Benjamin O. Taylor, owner of tally-ho motors, and the former appeared in court to-day charged with the offence.

Both the city prosecutor, who is at present acting city solicitor, and the magistrates, warned owners that the disturbances which have been so frequent a feature of their business at the wharf, must stop, or steps will be taken which will effectually shut them off from the wharf altogether.

Mr. Taylor stated that while he was standing beside his car, in which were some passengers, on Belleville street, Spilker came up and tried to get the passengers out of it, claiming they were his. The police pushed Spilker back but he broke through and struck witness behind the right ear. They were jumped up on the running-board and pulled Taylor off. The witness had not struck Spilker nor used any language.

To Mr. Lowe Taylor denied that he had struck John S. Cameron. Constable Roberts, who is on duty at the Belleville street wharf, told of ordering and pushing Spilker away from Taylor's car. As the car was moving off Spilker burst through, struck Taylor in the head and pulled him off the car.

Boy McIvor saw Cameron and Spilker go over to Taylor's car to hand a couple of ladies some leaflets, and the constable pushed Spilker back a couple of times. When the car started Spilker rushed at Taylor and struck him.

For the defence David Nairn stated that a lady on Taylor's car wanted to take the Cameron & Caldwell car, and Spilker went over to get her. There were no blows struck, according to him.

Questioned by City Prosecutor Harrison the witness admitted that Cameron and Spilker both rushed at Taylor together but Spilker got there first. Lorne Gleason, driver of the Cameron & Caldwell car, said he had seen the whole thing and knew no blows were struck, but he was in direct conflict with the previous witness as to Cameron having been with Spilker.

John S. Cameron told the court that a lady wished to change to the C. & C. car and was being prevented by Taylor. He had gone over to see what the matter was and Taylor pushed him back, and when Spilker did the same he was pushed back. Then the constable arrested Spilker.

In cross-examination the witness contradicted both the prosecution witnesses and those for the defence as to occurrences which he said he had seen the whole of.

Spilker denied that he had struck Mr. Taylor, and his explanation was that he had stepped on the running-board of the Taylor car to speak to a lady who said she wanted his car, and when the car started he had taken hold of Taylor with one hand to steady himself.

To Mr. Harrison he admitted that he had been many times up on one charge or another, and that last year there had been a charge against him of assaulting a man named Chilton, which he avoided by leaving the city for three months, spending the time in Seattle.

Mr. Harrison, addressing the court, said there was a great deal of trouble at the wharf, and he was strongly suspected that the real cause was Spilker. If the men there could not get along together like gentlemen he was going to recommend to the council that the adjacent streets be closed entirely to every form of hired vehicle.

"The unseemly conduct which takes place at the wharf is very much to be regretted by all decent citizens," said Mr. Justice Jay. "I would think it would be in itself detrimental to tourist business, because nothing can be so aggravating or annoying to tourists as to find themselves the centre of such scenes."

"There has been quite a lot of contradiction between the witnesses as to the facts of this case, and in some instances flat contradiction. I do not think these men have perjured themselves, however, but that owing to their excitement and their desire to secure the best possible result they failed to take note of the circumstances and to remember them. There were two disinterested eye-witnesses of the occurrence, the constable and McIvor, and they tell a clear story."

"Spilker has been the cause of a good deal of trouble at this point; not the only one, but one of them. Something must be done to end this disgraceful conduct, but I will not impose a jail sentence, hoping that a fine will be a warning to the defendant and others."

HARVEST HOME.

Frederick Tenyson. Come, let us mount the breezy down And harken to the tumult blown Up from the champagne and the town.

The harvest days are come again. The vales are singing with the grain; The merry work goes on apace.

Pale streaks of cloud scarce veil the blue; Against the golden harvest hue. The autumn trees look fresh and new.

The handed sheaves stand orderly Against the purple August sky. Like armies of Prosperity.

Hark! through the middle of the town From the stony slopes run down Bawling boys and reapers brown.

Laughter flies from door to door. To see fat Plenty with his store Led a captive by the poor.

Some men get angry about that 7th point. Wise men sit down quietly to think it over.

AERO CLUB READY TO RECEIVE APPLICATIONS

Boys Who Wish to Take Course With Local School May Apply Now

Applications will now be received by the Victoria Aero club from any young men of this city and island who wish to take a flying course with the view to joining the military or naval wings of the flying corps of Great Britain.

Although the school has not yet been established, things are in such a satisfactory condition that the executive felt disposed at last evening's meeting to call for applications.

From time to time members of the executive have been confronted by many local boys who wanted to know whether the school would be started. Several young men have already forwarded applications, and there is every reason to believe that one hundred aviators can be trained in this city.

All applications must be addressed to A. H. Willis, secretary of the Victoria Aero club, P. O. Box 33. Great enthusiasm prevails amongst the executive. The prospects for the establishment of the school were never so bright as they are to-day. A number of prominent citizens have promised the club material assistance and there is every cause to believe that within the next two months the school will be in operation.

The progress made by the new school has been most amazing, and the presence of two experienced aviators, F. A. Thompson and D. G. Edelman, in this city, has been of invaluable assistance to the executive in settling many matters which required the judgment of flying instructors.

The site for the club has been decided upon, and it remains to be seen whether satisfactory arrangements can be made with the owner for renting of the ground for aviation purposes. Ald. R. Porter and two other members of the executive will interview the owner to-morrow, and have a report ready for the meeting which is to be held on Friday night.

The idea of getting a stretch of land adjoining a stretch of water has been abandoned on the advice of Edelman and Thompson, and the inner harbor will be utilized for hydroplane flying.

On Friday evening at 8 o'clock the honorary and active officers of the club will meet in the offices of the Victoria & Island Development association. This will be one of the most important meetings yet held. The matter of financing the club will be discussed. Judging from the support which the executive has already received, it is not expected that any great difficulty will be experienced in raising \$10,000.

The machines will be purchased along with the accessories and the necessary material for hangars. It is proposed to charge the pupils \$100 for the course, and this will come within the range of large numbers of the young men of this city. The club has been formed purely for patriotic purposes, and all pupils will first have to enlist. The instruction will take about six weeks, although some pupils may get through in much quicker time, while others may take a longer period.

SHOULD B. C. GO DRY?

W. C. T. U. Prize Essay Contest Opened: Rules for Competitors.

The Women's Christian Temperance union announces an essay contest, particulars of which are given herewith. The subject of the essay, which will be open to contestants between the ages of fifteen and eighteen, will be "Should B. C. Go Dry?" The word limit is from 1,500 to 2,000 words, and three prizes will be offered as follows: First prize, \$10; second prize, \$5; third prize, \$3.

The contest will close on November 25. Prize essays will become the property of the W. C. T. U. after the awards are made. Essays should be addressed to the W. C. T. U. "Essay Contest," and the following are some rules which must be observed by competitors: (1) Original work. (2) Write on one side of paper only. (3) Name and address of writer must be sent on separate sheet accompanying the essay, not written on the essay itself. The names of the judges will be announced at a later date.

CHURCH WORKERS CONFER

Officers of Various Organizations in First Presbyterian Church Discuss Winter's Work.

A conference of workers of the First Presbyterian church was held last night for the purpose of discussing plans for the winter work. The meeting was held at the instigation of Rev. J. G. Inkster, whose suggestion was placed before the quarterly meeting of the session last month, and received the complete endorsement of that body. Seventy-five invitations were sent out to office-bearers in the various church adult organizations, last night's conference being the result.

Proceedings opened with a supper, provided by the Ladies' Aid of the church. This concluded about 7:30, after which the officers entered into the more serious matter of the meeting. Mr. Inkster, after thanking the Ladies' Aid and the young ladies who assisted them in the supper arrangements, proceeded to outline his suggestions. The congregation was beginning the winter's work with greater heartiness and zeal than at any other time in the course of his ministry in Victoria, he said.

All the usual congregational work had been maintained, and the growth of the congregation itself had constituted something by way of a record in the Presbyterian church in Canada. The young men and several of the married men had devoted themselves with great energy to preparing the gymnasium for use, had fitted shower baths, lockers and equipment, doing the work voluntarily and presenting the gymnasium to the congregation for its use. Last Sunday they had had a further indication of the keen interest taken by the young people by the large attendance both at their own Sunday school and at the Gorge mission Sunday school, this being the biggest in the history of the church for the past fifteen years.

Another matter which was cause for much congratulation to the church was that during the year just past they had completed and taken possession of the new building. But a task still more momentous lay before them which should appeal to the heroic and Christian spirit in them. In the face of a setback which was affecting the whole people the church in Canada had to maintain all their missionary and other activities, their own congregation had, in addition, to their regular undertakings, to maintain an annual burden of \$2,500. If they are pulled together they could meet this, it is expected. This Mr. Inkster appealed to them to do, asking all the office-bearers to consecrate themselves to the great task before them as workers in the kingdom of God.

The following speakers also took part in the conference: John McLoche, Rev. Thos. Leitch, Alex. McKenchie, William Young, John Goldie, Henry Gilbert, W. C. Cunningham, John Perry, and Mesdames J. G. Inkster and Henry Norman. No formal resolutions were passed, and no organization created, but the following suggestions were made and acquiesced in by all present: That a district prayer meeting be organized; that more congregational socials be held; that entertain-

ments be devised for the soldiers quartered in the district; that social evenings be held at officers' homes for the choir and Sunday school teachers; that outdoor and street meetings be organized, and an appeal made for more teachers in the First Presbyterian church and Gorge mission Sunday schools.

ROTARY LUNCHEON.

C. H. F. Carter Will Speak on Electrical Matters and Will Give Practical Demonstrations.

The ninety-seventh meeting of the Victoria Rotary club will be held at the Empress hotel to-morrow at 12:30 o'clock. Following the usual luncheon

C. H. F. Carter will address the members on "The Evolution of Illumination by Electricity." Mr. Carter will give practical demonstrations.

The attendance at the luncheon last week was the largest the club has had outside the northwest convention banquet. There were 150 persons present. The annual business meeting of the club will be held on December 9.

BOSTON WINNERS OF WORLD'S TITLE HOME RUNS GAVE VICTORS TO-DAY'S GAME

Lewis Ties Score in Eighth and Hooper's Drive in Ninth Clinches Series; Score 5 to 4

(By Frank G. Menke)

Philadelphia, Oct. 13.—The Boston Red Sox are the world's champions. They won today by a score of 5 to 4, Philadelphia having taken only one game of the series.

Carriagan's crew won out in one of the most notable swiftest in baseball. California did it. Harry Hooper, Boston's great outfielder, hammered out two home runs, and Duffy Lewis came through with one. Ludrus for the Phillies was the only batsman of Moray's team to circle the bases.

With Meyer pitching for Philadelphia, Boston had a bad setback in the first inning, when Ludrus' double scored Bancroft and Paskert.

In the second inning Boston landed one run on Gardner's triple and Barry's single. In the third Hooper's war club drove the pit into the left field bleachers and the California speed merchant came home when Speaker singled. That settled Meyer. He was yanked. Then Eppa Jephth Rixey dragged his name into the pitcher's box. In the fourth Philadelphia did it again. Ludrus stung it for a four-bagger, the longest hit ever made on the Philadelphia grounds. Whitted fled out but Niehoff came through with a single, then Eddie Burns singled and Niehoff went to the third sack. Niehoff scored when Hooper threw low to Gardner. Then Rixey went out but two runs were safe in the second and it looked like all Philly.

For three more innings George Foster and Mr. Rixey struggled. Rixey had the better of it and Boston's chances looked blue. The lucky seventh passed and there was nothing doing. But in the eighth Gainer, who had replaced Houbitz, cracked out a single. Then Duffy Lewis swung for his home run to the centerfield and two more runs were in, while the Philadelphia crowd groaned and Bostonian rosters cheered with glee.

The eighth for Philadelphia was a blank. Foster came up for Boston in the ninth but Rixey fanned him, the first Red Sox fanned in the game. Then came Hooper. The Californian leaned against it and the ball sang into the right field bleachers while every Bostonian on the ground almost had apoplexy. Scott was out, Bancroft to Ludrus and the mighty Speaker smashed the air three times for Rixey's second strikeout.

Philadelphia tried all they knew in the last half of the ninth but Foster had stiffened up and they could not get by. Killifer was put in as a forlorn hope but he hit weakly and Scott threw him out at first. That ended the world's series for 1915.

Attendance, 26,500. Receipts, \$52,029. National Commission's share, \$5,202.90.

First Inning.
Boston—A murmur of surprise went up when Meyer was announced as Philadelphia's pitcher. Hooper singled to center on the first ball pitched. Scott fouled out to Ludrus trying to sacrifice. Speaker forced Hooper at second, Ludrus to Bancroft. Speaker was out stealing. Burns to Bancroft. Speaker kicked on the decision. No runs, 1 hit, no errors.

Second Inning.
Boston—Houbitz was out, Ludrus to Meyer. Bancroft threw out Lewis at first. Gardner hit a long three-base hit to right center, the ball bounding nearly to the top of the fence. Six inches higher and Gardner would have made a home run. Gardner scored on Barry's Texas-leaguer to left. Thomas singled to center. Barry went to second. Foster popped out to Ludrus. One run, 2 hits, no errors.

Third Inning.
Philadelphia—Niehoff fanned, on three pitched balls. Burns sent up a high one to Gardner. Meyer up. Meyer fanned. No runs, no hits, no errors.

Fourth Inning.
Boston—Hooper got a home run into the center field bleachers. Scott flew out to Paskert. Speaker singled to right. On Boston's ground it would have been a three-bagger or a homer. Hooper's hitting was too much for Meyer and Captain Ludrus replaced him with the left-hander, Rixey. Houbitz was withdrawn and Gainer batted in his place. Gainer will play first base for the victors. Gainer up, a double play followed, Bancroft taking Gainer's grounder, touched second, forcing Speaker, and then threw out Gainer at first. One run, 2 hits, no error.

Fifth Inning.
Philadelphia—Stock up. Gardner threw out Stock at first. Bancroft fled out to Hooper. Paskert drove a single over second. Cravath up. Paskert was out stealing. Thomas to Scott. No runs, 1 hit, no errors.

Sixth Inning.
Boston—The official attendance, 26,500. Lewis out at first. Bancroft to Ludrus. Gardner fouled out to Burns. Bancroft took Barry's grounder and threw wildly past first, Barry going to second. Cady batted for Thomas. Cady walked. Niehoff threw out Foster at first. No runs, no hits, no errors.

Seventh Inning.
Philadelphia—Empire Club announced that a runner may take two bases on an overthrow because of the extended field stands. This rule changed Gardner's error in the fourth inning to an error for Hooper instead, because Hooper's throw went to the stands. Cravath gained for the second time. Cady now catching for Boston. Ludrus walked. Ludrus was out stealing. Cady to Barry. Whitted fled out to Speaker. No runs, no hits, no errors.

Eighth Inning.
Boston—Gainer scratched an infield hit which Stock could not field in time. Gainer and Lewis scored on Lewis' home run into the right field stands. Gardner fled out to Paskert. Barry up by the Bancroft-Ludrus route. Cady fled out to Paskert. Two runs, 2 hits, no errors.

Ninth Inning.
Philadelphia—Scott tossed out Bancroft at first. Paskert popped out to Gainer. Cravath walked. Ludrus up. Ducey ran for Cravath. Ludrus was hit by a pitched ball, Ducey going to second. Foster threw out Whitted at first. No runs, no hits, no errors.

Tenth Inning.
Boston—Becker went to right field for Philadelphia. Foster struck out Hooper but a home run into the right center bleachers. It was his second home run. Bancroft threw out Scott. Speaker struck out, but Burns had to throw him out at first. One run, one hit, no errors.

Eleventh Inning.
Philadelphia—Niehoff fanned. Burns was out to Gainer. Killifer batted for Rixey. Scott threw Killifer out at first. No runs, no hits, no errors.

Twelfth Inning.
Philadelphia—Scott tossed out Bancroft at first. Paskert popped out to Gainer. Cravath walked. Ludrus up. Ducey ran for Cravath. Ludrus was hit by a pitched ball, Ducey going to second. Foster threw out Whitted at first. No runs, no hits, no errors.

Thirteenth Inning.

RAN McDONALD

Portland, Oct. 13.—Local papers are printing the news that Tommy Dundorde, the Victoria hockey player, has been traded to Portland for Ran McDonald, the Rosebud puck chaser. They are probably not aware that the deal was but through last June. Dundorde was the leading point-scorer of the league two years ago, but didn't pick-up to form last year. McDonald is in the city at present, and says he does not mind going to Victoria. Both players are among the best in the league and it is figured that it is about an even break.

OVERSEAS DRAFT STAGES TOURNEY

Splendid Boxing Show Given at Willows Last Night by Western Scots' Athletes

Under the auspices of the overseas draft of the 6th Western Scots, a lively entertainment was staged at the Willows horse show building last night. The soldiers who will shortly leave for the front put on a splendid show for the "khaki" audience. There was plenty of good old-fashioned mugging in the boxing bouts, while the wrestlers and singers also did their share towards making the evening an enjoyable one. The programme was run off in good style. Lieut.-Col. Ross and the officers of the regiment assisting in the ceremonies.

Pte. J. Nesbit, Corp. O'Connell, Pte. MacDonald and Pte. Farrell competed in the opening scow, all four being in fine voice, and their efforts were cheered to the echo. Pte. Howes and Mr. Cochran also rendered selections, while Piper Angus presided at the piano.

Corpl. James T. Hewitt, handled the boxing bouts in his usually efficient style, making the contestants break in the clinches, and generally speeding up the different bouts. Ptes. Hann and Quinn opened the athletic show with a clever three-round clash, the pair both being on their feet when the final bell clanged. Pte. Nichols outlasted Pte. Kiley in their meeting, the latter's gameness, however, winning him a lot of applause. Pte. Pinfold and Pte. Pryde were evenly matched, the pair providing an exciting contest. The Ashton-Gook-a-bing at the hands of Pte. Levy, the latter finishing very strongly and having a big edge on his opponent. Pte. Howe outboxed Pte. Parsons in a weird display, while Ptes. Wells and Preston also afforded a unique exhibition. The former reminded one of Uppercut Hicks in his palmy days.

Cyclone Scott and Russ Leighton, who is now a R. N. C. V. R., were featured in the main bout, the pair putting up the finest show that has been seen at the Willows this fall. Cyclone, who is now Pte. McHugh, gave away about 30 pounds, but he was game all through, and gave away as much punishment as he took. Leighton is the first boxer seen at the Willows who has been able to make the 6th star extend himself, and the crowd hollered for more at the finished of the third round.

Pte. Cleveez took a fall from Pte. Bailey after nearly 14 minutes of clever wrestling. This bout was handled by Pte. Wallace and proved a creditable exhibition.

EDMARMO II. REPEATS VICTORY IN CABBORO BAY HANDICAP RACE

The handicap motor-boat race of the Royal Victoria Yacht club, held on Saturday, was a most interesting event. J. B. Rickaby's "Edmarmo II" capturing first prize for the second time over the same course, which was from the club float to the spar buoy off little Zero rock, and return. He was closely followed by Mr. Beauchamp Tye's "Houman", which was only one minute and ten seconds behind, the "Sheila" taking third place, closely followed by the "Nemont" and "Moween". The "Rover", which was giving the "Edmarmo II" a close race, unfortunately developed carburetor trouble, and dropped out half a mile from home. The prize was a beautiful hand-hammered brass tray from Benares, India, kindly donated by Messrs. George Carter & Son.

AGAIN STORM CENTRE

Cyclone Taylor, the famous Vancouver hockey star, is again the centre of a row between the Coast League and N. H. A. According to reports from Ottawa, Cyclone will be transferred back to Ottawa by the immigration department, of which he is an employee. This means that he will have to play with the Ottawa club or drop out of hockey.

VICTORIA FRANCHISE AGAIN UPHELD P. C. H. A. SCHEDULE HAS BEEN DRAFTED

Coast Hockey Moguls Decide on Four-Club Circuit; Pete Muldoon May Manage Seattle

Lester Patrick returned this morning from Vancouver, enthusiastic over the prospects of the Victoria hockey club for this season. He stated that the annual meeting of the P. C. H. A. was a big success, and he looks for a bumper year, despite the fact that a great many of Victoria's hockey enthusiasts are now at the front. The inclusion of Seattle, according to the Victoria magnate, rounds out a very compact circuit, and with a number of new players this year, a keen fight for the championship may be looked for.

As a result of the adoption of the schedule and the admission of Seattle, the selection of a Seattle manager was the most important item. The choice lies with the Seattle club owners, but it is understood that a deal is now under way whereby Pete Muldoon, the Rose City pilot, will be transferred to Seattle to handle the club in that city.

The Seattle club will be known as the Metropolitan, as a compliment to the Metropolitan Building company, which financed the new team, and this rink will open early next month.

The directors of the Pacific Coast Hockey association refused to listen to the request of Frank Patrick that he be relieved of the presidency of the organization. Lester Patrick, of Victoria, and E. H. Savage, of Portland, refused election to the office, and Frank Patrick was again elected, this being his third term. Other officers are: E. H. Savage, vice-president; A. J. Small, Vancouver, secretary-treasurer; S. C. Smead, Portland; Lester Patrick, Victoria; J. E. Douglas, and G. W. Lester, Seattle, directors.

FAMOUS RUGBY STAR WAS BADLY INJURED

Toronto, Oct. 13.—The condition of "Glad" Murphy, who suffered a fracture of the vertebrae of the neck in Saturday's Hamilton Tiger-Toronto Argonauts football game, has not improved, and there is little hope held out for his recovery. Late yesterday evening it was stated at the hospital that no change had been observed, but that he was in a very critical condition.

The injury to Murphy has caused a movement locally for the abandonment of the "Big Four" schedule, and the idea has gained considerable support. A meeting of the Argonauts is to be held shortly to discuss the matter. Unofficially, however, some of the officers of the club stated their belief that the members wished to leave such a movement to the four clubs in the inter-provincial as a whole.

He was closely followed by Mr. Beauchamp Tye's "Houman", which was only one minute and ten seconds behind, the "Sheila" taking third place, closely followed by the "Nemont" and "Moween". The "Rover", which was giving the "Edmarmo II" a close race, unfortunately developed carburetor trouble, and dropped out half a mile from home. The prize was a beautiful hand-hammered brass tray from Benares, India, kindly donated by Messrs. George Carter & Son.

AGAIN STORM CENTRE

Cyclone Taylor, the famous Vancouver hockey star, is again the centre of a row between the Coast League and N. H. A. According to reports from Ottawa, Cyclone will be transferred back to Ottawa by the immigration department, of which he is an employee. This means that he will have to play with the Ottawa club or drop out of hockey.

PLAYERS GET SMALL FORTUNES, AS SHARE IN WORLD'S SERIES
Boston, Oct. 13.—Yesterday's game was the last in which the players share the receipts. The announced attendance was 4,000, which is less than Monday's. A total of \$144,850 awaits division among the members of the two teams. This is the share allowed under the National Commission rules, by which players participating in the profits are limited to the first four games. The winning team will receive \$65,000, or sixty per cent of the total. As 23 players on each team are eligible contestants in the games, the individual share will amount to \$2,778 each. If the division is equal. The players themselves are the authorities in deciding how the money shall be divided, and may reduce the allowance to utility men, who have figured little in the activities of the league season. In the world's series, by a vote among themselves.

SAANICH MUST PAY SHARE OF SEWER COST

Contribution to Trunk Sewers Must Precede Connections; Laundry Water Rates

To the city council last evening the city engineer made a report with regard to Saanich's position in connection with the northeast and northwest trunk sewers. He stated that an agreement respecting the northeast sewer was prepared by the city last March and submitted to the municipality. It provided for the payment by Saanich of \$22,000 towards the cost of that sewer. So far Saanich had apparently not done anything in the matter. As regards the northwest sewer, a tentative agreement was prepared between the city, Esquimalt and Saanich. Esquimalt had signed it, but Saanich had not, though the latter approved of the terms of the agreement when it was discussed at a joint meeting of the three councils. The engineer stated that he understood the reeve of Saanich took the stand that the agreement could not be signed until the ratepayers of the municipality had approved of it. In the meantime no connections had been made by Saanich with either of the sewer systems.

The council passed a resolution instructing the engineer not to allow any connections to be made by Saanich with the sewers until the payments have been made, and asking the solicitor to apply to the Saanich council to have the agreements signed accordingly to promise.

Fixtures to the amount of \$330 will be purchased by the city for installation in the new police headquarters building, Esplanade street. The fixtures will comprise counters, railings, etc.

Alderman Dilworth's motion to repeal the expropriation by-law with regard to Block W was read and given a first reading. It was then laid on the table.

The council declined to make a reduction in water rates, the mayor observing that a reduction would not result in any advantage being given the laundries in competition with outside concerns, as no such competition existed, and he doubted if a reduction would result in a cut in the prices charged by the laundries.

The water commissioner reported that for the year ended October 31 last four steam laundries in the city used 23,302,075 gallons at the rate of 17 1/2 cents per 1,000 gallons, producing a net revenue, after allowance of discount, of \$4,069.75. The same quantity at 12 1/2 cents per thousand gallons would produce a net revenue of \$2,921.25. The commissioner stated that there was no doubt if the reduction were given in the case of the laundries other concerns would seek a cut also, and at the present time a reduction in revenue would be inadvisable.

After some discussion the council declined to authorize the expenditure of \$40 in transplanting 4,000 ash trees from Beacon Hill nursery to Elk lake. Half the members present were willing to plant 2,000, but the vote involved rejection of the proposal.

Four protests were received against the issue of a permit for a wood-yard on Broughton street, between Douglas street and Blanshard street. The application came from Angus McKeown, who asked for permission to use Lot 62. The chief of the fire department and building inspector reported favorably on the application.

The Victoria wood-yard applied for a permit to use Lots 385 and 288 Johnson street for a similar purpose.

While the latter application was pending, on Alderman Todd's suggestion, the former was laid over for a week, to consider the protests of the objectors.

Alderman McNeill thought it might be possible to designate an area for woodyards in the city.

The caution of the New Englander in giving a direct answer to a direct question is proverbial. Two natives of a New Hampshire town met after the funeral, and the first asked, "Was not your father's death very sudden?" Slowly drawing one hand from his pocket, and pulling down his beard, the other replied, thoughtfully—"Was, rather sudden for him."

WILL BE PRESENT AT SCHOOLS' MEETING

Alderman McNeill Says Saanich Has Hedged on Subject Throughout

The city council last evening decided to be represented at the conference on Monday with regard to high school tuition fees, which is to be held under the auspices of the education department.

In moving the motion to refer the matter to the finance committee, which has had the matter in hand, Alderman McNeill said in part: "I want to say, it is a rather strange proceeding, in view of the circumstances under which we adjourned at the last meeting (Sept. 18). You will recollect that after Oak Bay and Esquimalt had accepted the offer of the finance committee, we adjourned for Saanich to consult with its trustees and municipal solicitor, and then to come back with a proposition to the city of Victoria. In spite of the arrangement at adjournment, the Saanich council has gone to the council of public instruction without making any proposition to us. They have simply hedged in every way. The action is in keeping with their policy in every other matter. I should like a conference with the school board before the matter is taken up again, and have a fair understanding with the board." Alderman McNeill said he was anxious to see the principle established for the future.

SCHOOL BOARD TO-NIGHT

Plans for Reopening of Night School Will Be Confirmed by Trustees.

Arrangements for the reopening of the night school under the auspices of the city school board will be the principal matter before the trustees at the meeting this evening.

A synopsis of the syllabus has already been published. The board will be asked to confirm the appointment of the staff who are to give instructions in the various subjects. If all the classes planned are started, the necessary support being forthcoming from pupils, a larger appropriation will be needed than was the case in 1914-15. It is impossible, however, to know just what the expense will be till the necessary registrations have been received. These will be taken at the offices at the city hall, between 9 a. m. and 5 p. m. any day up to next Monday.

The board will doubtless take some action with regard to the conference called at the request of Saanich with regard to high school tuition fees, as the department of education has invited the city board to participate. In discussing the matter in city council last evening it was stated that the chairman of the school board had expressed his approval of the offer made by the civic finance committee to the neighboring municipalities. Otherwise there is as yet nothing on record showing how the city's offer on Sept. 18 is regarded by the trustees.

Among other matters which will come before the board is a report on cadet training in the schools, a subject which has received a stimulus from the military activity, and the support given by patriotic associations in the equipment of the various school corps. To judge by the demonstration when the governor-general was here, there is still much to be done in the way of uniforming and equipping the boys.

SAANICH LIBERALS

Oak Bay Association Meets on Tuesday and Burnside Association on Friday Following.

There will be a meeting of the members of the Oak Bay Liberal Association in the High school building, Oak Bay avenue, on Tuesday evening next at 8 o'clock.

The members of the Burnside Liberal association, taking in Wards Two and Seven, Saanich, will meet on Friday evening, October 2, in the Liberal rooms, James Beck, Cormorant street, at 8 o'clock.

Both of these meetings will be addressed by F. A. Pauline, the Liberal candidate for Saanich, who will deal with the policy of the party and the contrasting record of the government.

PROPOSES EXTENSION OF MUNICIPAL HALL

Saanich Council Leaves Matter to Committee; Payment on Contracts

The Saanich council yesterday afternoon had before it a plan prepared by the engineer to provide for an extension of the municipal hall. Additional accommodation has been badly needed for some time, and the council has been without a chamber for nearly two years, having met successively at the Royal Oak school and public hall in the meantime. The cost of the contemplated work was set at \$3,350.

The plan was referred to the chairman of the finance committee (Councillor Jordan, Councillor Somers and the engineer, to call for tenders as soon as the committee is satisfied that the plan is the best means of relieving the pressure.

The reeve was appointed as a representative at the meeting to be held under the auspices of the education department on Monday next at the legislative buildings with regard to city high school tuition fees.

The engineer certified to payment on the Quadra street and Saanich road improvement of \$65,371.51 on paving, \$2,292.75 for subgrading and kerbing, or \$67,664.26. As \$22,900 has already been paid to the contractors, a cheque for \$44,764.26, less a hold back of \$500, was accordingly ordered to be issued by the council.

The sum of \$12,500 was ordered to be paid on the Haffour-Guthrie contract for waterworks, for material arriving on the City Hall. On Randall & Greenshaw's contract the sum of \$216.48 was confirmed, and on Forsyth & Co.'s contract the sum of \$2,355.40.

In passing finally the waterworks regulation by-law, Councillor O'Connell wanted an assurance that the profits on the waterworks would go towards paying the interest and sinking fund, and would not be spent for extensions of the system.

The reeve assured him that there was no intention of making extensions out of profits. Such had never been contemplated.

The councillor also asked if the frontage cost of eight cents was not too much to ask, and if it would not be a means of discouraging consumers.

The clerk doubted if the revenue in the first year, even on the basis now arranged, would be sufficient to meet

the expenditure, and he estimated that the difference would have to be made up from the rates. It was absolutely necessary, Mr. Cowper said, for the council to raise sufficient revenue to meet the anticipated obligations. The frontage rate had been raised from the original estimate of six cents in order to meet such anticipated expenditure as the scheme developed, and the council had cut the rates to prospective consumers.

The council authorized the purchase of \$10 worth of photographs from prints submitted by a local photographer of the Saanich district for use in the agent-general's new office in London, England.

It had been decided to ask for a conference with the board of directors of the Royal Jubilee hospital with regard to indigent patients from the municipality at the institution.

The opinion of the municipal solicitor will be secured with reference to the preparation of the voters' list for the municipality. The district assessor pointed out that the statute called for a statutory declaration from agreement holders, and there was nothing on the assessment roll to determine who were registered, and who were agreement holders. The cost of the information from search at the land registry office he estimated at \$500.

The council took the view that the roll should be prepared in accordance with plans adopted in the past, consenting, however, to a legal reference first.

Councillor Grant saw in the legislation only a complication of the circumstances, and said there was no assurance if the roll was so prepared, it would not be eventually attacked. He favored leaving matters as they have been in the past.

Allusion was made in council to the frequent shooting from automobiles on the Saanich roads and the desire of stopping the acts, which had resulted, it was stated, in killing birds on private property to the prejudice and danger of residents. The reeve said a prosecution of this character will shortly come before the police court.

Difficulties having arisen with regard to cleaning out the Colquhoun creek, riparian interests having become involved, the matter was left to the councillor for the ward and the engineer for attention.

A very stout lady at the zoological gardens was seeing the lion fed for the first time, and was rather surprised by the limited amount of meat that was given them. "That seems to me to be a very small piece of meat for the lion," she said to the attendant. The man looked at her with a glimmer of amusement in his eyes. It may seem a small piece to you, mum, he said, but it's heaps for the lion."

When Health is Wrong The Pay is Short

Getting ahead in this world calls for mental and physical forces kept upbuilt and in trim.

Often the food one eats "makes" or "breaks"—it depends upon the kind of food. In many cases the daily dietary lacks certain essential elements for keeping brain and body at their best.

Over 18 years ago a food was perfected to offset this lack—

Grape-Nuts

—and it has stood the test of the years.

Made of whole wheat and malted barley, this famous pure food supplies all the nutriment of the grains including their mineral salts—Phosphate of Potash, etc.—necessary for building brain, nerve and muscle.

Grape-Nuts has a delicious nut-like flavor; is always ready to eat—fresh and crisp from the package; so thoroughly baked it is partially predigested.

LIEUT.-GOV. BARNARD TO REPRESENT CANADA ACTIVITIES IN 1914 HAVE BEEN NUMEROUS

Will Proceed to San Francisco Exposition at Request of Dominion Government Annual Meeting of Women's Canadian Club Held Yesterday; Interesting Reports

An announcement of great interest, which will be heralded with much gratification by British Columbia's citizens, has just been made. This is that His Honor Lieutenant-Governor Barnard has been requested by the Dominion Government to represent Canada at the Panama-Pacific International exposition.

On receipt of the invitation his honor immediately sent a reply in which he intimated his willingness to undertake the mission, and arrangements have just been completed by

THE LIEUTENANT-GOVERNOR

which his honor has been granted leave of absence for the purpose. He and Mrs. Barnard will leave for San Francisco shortly, and will be followed a few days later by Mr. Muskett, private secretary to his honor, and Captain Drake, A. B. C., who will attend upon the lieutenant-governor at the ceremonies coincident to the celebration.

Up to the present few particulars as to the exact character of the "Canada Day" proceedings have been received at Government House, but an interesting rite will be the planting by Mr. Barnard of a tree in the garden in front of the beautiful Canadian building which has been the subject of such admiring comment among thousands of visitors to the Panama-Pacific fair.

LEADING CITIZENS CALLED TO MEETING

Preservation of Beaches Committee Will Hold First Session on Friday Afternoon

The following delegates have been summoned to the first meeting of the preservation of beaches committee which will sit at 4 o'clock on Friday afternoon at the city hall.

City council—The mayor, Aldermen McNeill, Porter, Todd and Dilworth. Oak Bay—The reeve, Esquimalt—Councilors Wolfenden, Quarry and Mesher, Saanich—The reeve, Councilors Adams and Borden. Board of Trade—Dr. Lewis Hall, P. R. Brown, M. E. Jackson, H. O. Kirkman and A. W. McCurdy. Rotary Club—L. A. Walker and E. Tomlin. Island Automobile Assn.—Stephen Jones, J. L. Eeckwith, J. Kingham, G. G. Fraser and C. L. Harris. Retail Merchants Association—G. G. Barton and H. Amphlett. Retail Employees Organization—James Talbot, J. N. Anderson, and Dan W. Poupard.

The object of this meeting is to organize a policy of preserving and developing the sea beaches around Victoria, to make them more accessible and useful to the public, and to secure through the provincial government the necessary road allowances in order that the access of the public at all times may be preserved. It is hoped to have some definite scheme established before next season. The various bodies whose representatives are named above were appointed at the invitation of the resolution adopted on the motion of Alderman McNeill. In the past spasmodic efforts have been made to protect the beaches, which form one of Victoria's chief natural assets, but no comprehensive scheme ever has been arranged. For instance the city, Saanich, and Oak Bay have parks at Cordova Bay, and the Wolfowas beach respectively, but each has no relation to the other.

Widow—"But I have nine children!" He—"Wretched deceiver! Widow—"They are all working and earning good wages." He—"Dearest one!"

The following officers were elected at the annual meeting of the Women's Canadian club held yesterday afternoon at the Alexandra club ballroom.

President, Mrs. Margaret Jenkins; first vice-president, Mrs. A. C. Burdick; second vice-president, Mrs. McDiarmid; secretary, Mrs. Bradshaw; treasurer, Mrs. Frank Andrews; executive, Lady McBride, Mrs. Bowser, Mrs. Clark, Mrs. Ker, Mrs. Perry, Mrs. Hyndman and Mrs. T. W. Paterson. Mrs. Jenkins, the president, was in the chair, and in her capacity of premier officer of the organization, delivered a short address in which she referred with gratification to the work of the club during the year just closed. Despite the numerous demands made on the members they had shown enthusiasm in the work of the society, and the results had been most gratifying to all. Her personal thanks as well as those of the club as a whole were embodied in the expression of appreciation extended to the hard-working secretary and treasurer, also to the executive.

Activities of Club. A comprehensive statement of the activities of the club during the past twelve months was embodied by Mrs. Nicol in her secretarial report for the year. They had closed the year with a paid-up membership of 427, which was 22 more than last year. The undertakings of the club had been largely of a patriotic character, and besides contributions to the Red Cross, United Service, and other work for the soldiers they had made a donation to the High School Portia club to be spent in prizes for the best debaters. Twelve regular and eleven special meetings had been held during the year. Committees, with the following conveners had taken charge of the principal undertakings: Sewing committee, Lady McBride; knitting committee, Mrs. McPhillips; programme, Mrs. E. C. Harris; musical, Mrs. Shaw. The programme during the past season had been interesting, the following giving addresses before the club: Dr. Helen Ryan, Dr. Gertrude Flumerfelt, C. H. Laurin, Miss Ravenhill, Madame Sanderson, Yvonne Kodinoff von Helmet, Mrs. Van Ogle, Mrs. Cleland, Miss Helen Stewart, Mrs. Sudaby, Miss Helen Bouillon, Mrs. Reekaby, Miss Saunders, Mrs. Nellie McElving and Rev. J. G. Inkster.

The last entertainment held was that given for the visiting Australian, Canadian and New Zealand clubs. The record of the patriotic work included the sending of socks, shirts and comforts at fourteen outposts on the island last Christmas; 30 jars of jam, cake, etc., to patients at Work Point hospital; supplying shirts to soldiers on their way from the Fiji Islands to the front; socks, wristlets, etc., for the 1st and 2nd Ambulance Corps leaving for France in the early part of the present year, and Red Cross contributions still going forward.

Two Deaths Chronical. With regret the death of two members of the club was chronicled, and a reverent tribute was paid to those members who had given sons or husbands to their country since the war began.

The report concluded with an expression of thanks to the Men's Canadian club for courtesies extended, to the press; to the president, honorary treasurer, first and second vice-presidents, and members of the executive.

A resolution of hearty appreciation and thanks to Mrs. Nicol, the retiring secretary, was passed by standing vote of the meeting at the conclusion of her annual report, this being coupled with a warm tribute from the chair and from Mrs. E. E. Young. Mrs. Andrews read the treasurer's report for the year ending October 12, showing receipts amounting to \$1,636.60, as follows: To balance \$95.45 Contributions 11.29 Proceeds of reception and tea 170.30 Refund Mrs. McPhillips' knitting committee 1.39 Refund Lady McBride's sewing committee 4.75 Refund change for garden parties 63.09 Membership fees 111.39 Receipts garden party, Lady McBride's 261.62 Receipts garden party, Mrs. Pemberton's 57.18 \$1,626.69

The statement of expenditures included rent, expenses of receptions, lectures, tea, postage, garden parties, etc.; also fund \$10 to Canadian tobacco contribution of \$25 to Canadian tobacco United Service club, \$30 to Red Cross association, \$25 to the Lady Jellison fund, and \$20 to the Duchess of Connaught's prisoners of war fund, totaling \$1,411.41. Of the cash balance of \$225.19 in this bank \$112.39 was being retained as general fund and \$112.80 for the wounded soldiers' fund.

The following was the statement of the disbursement of the \$279.94 collected in the Belgian relief boxes: To Brackman & Ker, flour \$122.30 To W. S. Terry, Canadian high commissioner, for flour for Belgians 25.00 To W. S. Terry, Belgian consul, for Belgian relief boxes 30.00 To W. S. Terry, for Dr. Sarolea's fund 25.60 \$212.90 Cash balance in bank 58.74 \$271.64 The hospital trust fund, including cash in bank, \$59.48, and interest, \$28.50, amounts to \$87.98. The report was adopted as read, and a standing vote of thanks passed to the treasurer. Christmas Boxes. Mrs. Hamilton, during the distribution of the balloting papers, explained the
