Balfour Says Four More Great Powers Will Join League

Without Them It Is Impossible to Predict What League May Accomplish, He Declares; Council Adjourns at Brussels; Assembly to Meet at Geneva.

Brussels, Oct. 28.—That four great powers not now members of the League of Nations will enter it shortly was a statement made by Arthur J. Balfour, British representative on the Council of the League, in a closing address before the Council adjourned its sessions here this morning prior to the meeting of the Assembly in Geneva next month.

Brussels, Oct. 28.—The Council of the League of Nations this morning closed its sessions in Brussels. The Council took a final adjournment after referring the question of Danzig, the regulations concerning which are in dispute between Poland and the authorities of the free city, to the Assembly of the League, which is to meet at Geneva next month.

The Council took other important action in deciding upon a plebiscite as to the disposition of the territory in dispute between Poland and Lithuania, this including the line fixed by the supreme Council in December, 1914.

EMBARRASSMENT CAUSED BY SPEECHES

Japanese Vice-Foreign Minister's Statements on California Issue Published

Tokyo, Oct. 27.—(Associated Press)—Some embarrassment has been caused by the publication of addresses by Masano Hamihara, Vice-Foreign Minister, before various political groups of the Diet on developments in the negotiations with the United States relative to the California land question.

It is understood that talks given by Mr. Hamihara to political leaders have been a sort of concession to politicians who have been demanding less secrecy in diplomatic matters. They have been of a confidential nature, but nevertheless full reports have been published by newspapers here. In this connection the Vice-Foreign Minister has made a request that a statement be published that newspaper reports of his address before the Kenyūshi Party in the House of Peers on October 16 were distorted and that if the referendum measure should be adopted by the California voters, there would be an appeal to the Supreme Court by Japanese residents of that state; a demand for the nullification of the law as an infringement on the Japanese-American treaty and negotiations for a new convention between Japan and the United States.

LABOR MINISTER AVOIDS DISPUTE

Robertson Not Discussing Employees of C.N.R. and Political Offices

Says Persons Desiring Information Should Ask Hanna, Head of C.N.R.

Ottawa, Oct. 28.—(Canadian Press)—"Any person desiring information about the order made by President Hanna, I am not being drawn into any controversy regarding it." This was the statement of Senator Robertson, Minister of Labor to-day, when asked regarding a Toronto dispatch which stated that he was being drawn into a controversy with the Toronto District Trades and Labor Council in regard to the order prohibiting employees of the Canadian National Railway from entering political offices. From the outset Senator Robertson has taken the stand that the administration of the Government railways was completely in the hands of President Hanna and the board of management and that any objection to the order should be made to them and not to the Government. MR. KING SPEAKS IN SASKATOON

Church Building Crowded For Meeting and Hundreds Turned Away

Saskatoon, Oct. 28.—(Canadian Press)—Before an audience of probably 2,500 persons, completely filling the Third Avenue Methodist Church this evening, the doctrine of the Liberal Party in Canada were expounded here last night by Hon. W. L. Mackenzie King, its leader, by William Duff, M.P., and by O. Ferguson, M.P., who supported the Opposition Leader on the platform. Hundreds of men and women were unable to secure even standing room in the building.

Meeting Will Seek Unity of Veteran Party

A determined effort to bring all political opinion among ex-service men to a focus will probably be made on Sunday afternoon, as all the ex-service men's associations were this morning invited to send delegates to a meeting to discuss conditions.

The circular letter emanated from members of the Army and Navy Veterans, and suggested that, if suitable, those quarters would be available on Sunday afternoon.

Points which will be brought up for discussion are questions as to whether the various societies are allowed to give moral support to any political candidates, and whether it is possible for such a frankly political organization as the Grand Army of United Veterans to work in full accord with the other societies with their non-political methods of securing their aims.

Another matter which will be brought up for consideration is the rumored candidacy of various well-known ex-soldiers. As an instance of the entirely unauthorized use of names, Brigadier-General R. P. Clark has been freely mentioned in connection with a suggested soldier ticket, and also as a candidate in the Conservative interest with a strong ex-service plank in his appeal. N.Y. Bond House Asked Mr. Bowser For Bigger Percentage, Letter Shows

Finance Minister Finds Statement in Archives of Late Government; Liberals Plan Nominating Convention At Early Date.

Liberals of Victoria are to pick their four candidates for the provincial elections at a great Liberal nominating convention between November 3 and 8.

All Liberals who have had their names on the official rolls will be sent cards of admission. Those who are not on the lists will be given their admission cards at the Association Rooms, Arcade Building, or by the ward secretaries at the door of the convention.

This was decided at a meeting of the Victoria Liberal executive last night under President W. M. level. The executive resolved itself into a campaign committee. Tom Hick was appointed campaign secretary. Committees were appointed to make the conventional arrangements and to find a hall to accommodate the great throngs that are anxious to be in on the nominating day.

A joint meeting of all ward executives is called for next Monday night at headquarters.

Left Legacy of Debt. Premier Oliver to-day is as confident as any man can be of being returned with even a greater majority than he has had, said the Hon. John Hart, Minister of Finance. "Every member of his Cabinet is also sure of being returned."

"We were left a legacy of the debts and liabilities which we took over last night under President W. M. level. The executive resolved itself into a campaign committee. Tom Hick was appointed campaign secretary. Committees were appointed to make the conventional arrangements and to find a hall to accommodate the great throngs that are anxious to be in on the nominating day."

"Some people say that we have borrowed a lot. But what are we to do? Are we to let the railway go to rust and rot? It is much better to put some more on it and protect what is there than to let it go by the board."

"The whole of our borrowings this year is in respect to the P. G. E., except the loan a few days ago for industrial purposes and for good roads."

Bowser Bonds Hard To Sell. Hon. Mr. Hart told how British Columbia is now borrowing its money at a lower rate of interest than Ontario, as is evidenced by the six per cent. issues under similar terms put out by the two provinces recently.

British Columbia's last loans have been put through on a cost basis of 4 1/2 per cent. He asserted that Mr. Bowser put through loans similar to these, also payable in New York, but (Concluded on page 4.)

MAGSWINEY FUNERAL SERVICE IN LONDON

Cathedral Crowded During Pontifical Requiem Mass This Morning

Four Men of "Irish Republican Army" Stood About Casket

London, Oct. 28.—A pontifical requiem mass was celebrated this morning in St. George's Cathedral over the body of the late Lord Mayor of Cork, Terence Macswiney, who died in Brixton prison Monday on the seventy-fourth day of his hunger strike. Roman Catholic dignitaries, the Lord Mayor of Dublin, the Deputy Lord Mayor of Cork and deputations representing the British Parliamentary Labour Party and various Irish political and civic organizations attended.

Thousands of persons thronged every available space in the large cathedral, gazing at the casket in the aisle, straining for a glimpse of the casket, where the casket reposed on a catafalque with four officers wearing the uniform of the "Irish Republican Army" standing motionless as a guard of honor.

The casket was surrounded by wreaths and the hat which the Lord Mayor formerly wore as commandant of the Cork brigade of the volunteer army.

The breastplate of the coffin bore an inscription in Gaelic reading: "Murdered by the foreigner in Brixton prison, London, October 25, the fourth of the Republic. Aged forty years. God have mercy on his soul. The Sinn Fein flag was draped over the coffin."

Just as the service was beginning the four men of the guard of honor were relieved by a quartet wearing long coats, which they took off as they stepped to their places, exposing the uniform of the "Irish Republican Army."

Toronto, Oct. 28.—Colonel George Ham, of Toronto, the well-known publicity man of the Canadian Pacific Railway, had the distinction of being the only man at a dinner given in the Board of Trade rooms here last night by the Toronto Women's Press Club.

Colonel Ham, replying to a toast proposed by himself, expressed gratification at having been made an active member of the club, and intimated that his ambitions might lead him to seek the presidency. He said that a Spanish was President of the "Irish Republic," and a Serb was King of Austria, and he did not see why a man should not be president of the Toronto Women's Press Club.

Among the guests who spoke were Mrs. Ambrose Dickens, of Edmonton; Miss J. A. Kerr, of Vancouver; Mrs. Gordon, of Calgary; and Miss Eugenie Perry, of Victoria.

SOME PROHIBITION CHANGES IN QUEBEC

Montreal, Oct. 28.—D. R. Murphy, K. C., general administrator of the prohibition law in Quebec, stated in an interview that changes in the law will be made at the next session of the Legislature with a view to the better carrying out of the law.

It is regarded as likely that this is the last year of the licensed vendor system, which is generally admitted to be working out badly, says a writer in a Montreal paper. The Quebec Government, he states, is averse to going into the liquor business and there may be changes involving the handing over of licenses to hotelmen of proven high reputation.

Probable Republican states are Delaware, Utah and West Virginia, with 15 votes. Probable Democratic states are Arizona, Kentucky, Maryland, Montana, Nevada, New Mexico and Tennessee with 46 votes.

TEN CONSTABLES IN IRELAND DISMISSED

London, Oct. 27.—Sir Hamar Greenwood, Chief Secretary for Ireland, announced in the House of Commons tonight that ten constables had been dismissed this week from the Irish Constabulary for various offences. He added that everybody was being dismissed who deviated a hair's breadth from the strictest discipline of the constabulary.

A dispatch from Cork said the funeral of Joseph Murphy, who died while on a hunger strike in Cork jail, was held today.

Notwithstanding an order which limited the number of persons who might participate in the funeral procession, the presence of two armored cars and six lorries with troops, thousands of persons followed the body of Murphy to the cemetery this afternoon. The display of armed force was even greater than at the funeral of Michael Fitzgerald, the other hunger striker who died in Cork jail, but this created none of the tension that prevailed at Fitzgerald's burial.

As the coffin, draped in the "republican" flag, was taken from the church the entrance to the church grounds, saluted. Then they climbed into the lorries, which, with their armored cars, fell in behind the carriages of the mourners.

The burial of Murphy's body had a remarkable finale—the firing of a salute over the grave by Irish Volunteers. The military made no attempt to interfere with the procession on the way to the cemetery, and did not enter the cemetery.

The military inquiry into the death of Joseph Murphy resulted in the following verdict: "He feloniously killed himself by refusing all forms of nourishment."

FALL FROM TRAIN KILLED WOMAN

Winnipeg, Oct. 28.—Mrs. Ida Engren died at a hospital here yesterday afternoon from the effects of injuries received when she fell from a passenger train westward two miles east of Winnipeg, October 19.

Mrs. Engren, who was fifty years old, had just come from her native land, Finland, to her family, who had decided to bring the mother out to end her days with them. She was en route to New Westminster, her daughter, Mrs. H. X. Fink, of this city, but came East to meet her and was on the train at the time of the accident. Mrs. Engren was endeavoring to pass from one coach on the train to another when she fell from the platform.

KNEW RUTH BETTER.

Chicago, Oct. 28.—"What do you know about Absalom?" the Rev. George Craig Stewart, pastor of St. Luke's Episcopal Church of Evanston, asked that question of 200 students of the Northwestern University. "Ignorance of the Bible is appalling," Dr. Stewart said. "Out of these two hundred there were only nine who had ever heard of Absalom; and about 199 who could tell me all about 'Babe' Ruth."

FUNERAL OF LATE GREEK KING FRIDAY

All Newspapers of Greece Join in Expressing Regret Over Death

Athens, Oct. 28.—Funeral services for the late King Alexander, which will be held Friday, will be attended by the Crown Prince of Sweden, according to present arrangements. He is in the city at the present time. Other nations probably will be represented by their diplomatic officials here.

The entire press of Greece, in commenting on the death of King Alexander, deplored the loss of the young sovereign, who during a short reign had won great popularity.

King Alexander died at 4:10 o'clock Monday afternoon. His wife, Madame Manos, was at the bedside at the military staff of the King was in the room. Hope had been abandoned for two days and the King lived only with the aid of oxygen.

Extreme emotion was given an hour before he passed away.

Madame Manos, her beautiful face showing the ravages of grief, sat at the left of the bed weeping. Her sorrow was the greater because she is expecting motherhood soon.

Sophia Absent.

There was deep disappointment and surprise that the Queen Mother Sophia did not come for family sentiments in deep in Greece.

About four o'clock the last crisis occurred and death followed within a few minutes. The King died fully conscious, but wearied to utter exhaustion by the long agony. He seemed to be making extreme efforts to speak but could not.

Immediately after the King's death the Metropolitan of Athens came to Tatol to recite prayers for the dead.

The body of the King lies in the uniform of a generalissimo. His four aides-de-camp in dress uniform watch beside the bier.

Condolences.

Premier Venizelos and the members of the Cabinet came to Tatol yesterday to offer the widow the Government's respects and condolences.

Dowager Queen Olga, who has spent much time in the seclusion of a nunnery, arrived alone in Patras and came at once to Tatol.

The body of Alexander will lie in state to-day and to-morrow in the cathedral at Athens. The funeral will take place Friday, the interment being at Tatol, where King George Alexander's grandfather is buried.

No Hydrophobia.

London, Oct. 28.—Scientific examination of the blood of the monkey which bit King Alexander, of Greece, and caused his death, according to an Athens dispatch to The London Times, shows no signs of hydrophobia, or other disease. The animal was alive and in good health in October 23, at which date it was reported by a Rome newspaper that the monkey which had attacked the King had been artificially inoculated with rabies.

GREAT BRITAIN AND GERMAN PROPERTY

Paris, Oct. 27.—The French Foreign Office received official notification to-day that the British Government had renounced the right of confiscation of German property in the United Kingdom. This has caused great surprise, which is freely expressed in French official circles.

French officials emphasize the gravity of this move, as they fear Germany will make a similar request of France, which, it is declared, could not be granted.

However, they point out that the renunciation by Great Britain is not as sweeping as reported at first. It was said at the Foreign Office to-day that France would send a reply to the British note, but what form the reply would take could not be disclosed at this juncture.

The measures which the Allied and Associated Powers shall have the right to take, in case of voluntary default by Germany, and which Germany agree not to regard as acts of war, may include economic and financial provisions and reprisals, and in general such other measures as the respective Governments may determine to be necessary in the circumstances.

SPANISH SOLDIERS KILLED IN MOROCCO

London, Oct. 28.—Spanish troops commanded by General Berenguer, high commissioner for Morocco, have been savagely attacked in the outskirts of Sheeban by tribesmen, says a Tangier dispatch to The London Times. In addition a column commanded by General Barrera has suffered severe losses, it is stated. While clearing gardens around the city of hostile tribesmen, more than 120 were killed or wounded, it is stated.

ASK FOR CHANGE IN TAX ON PIANOS

Ottawa, Oct. 28.—A deputation of three men representing the union labor movement in the manufacture of pianos, organs and phonographs, and who are affiliated with the American Federation of Labor, waited on Sir Henry Drayton, Minister of Finance, and Hon. Gleason Robertson, Minister of Labor, yesterday, urging removal of the luxury tax on certain kinds of production, declaring that its imposition has led to a great deal of unemployment. Over 600 men in Toronto, it was stated, were out of work as a result of the luxury tax on pianos.

It was suggested to the Government that the luxury tax be included in the sale price of pianos, organs and phonographs instead of over and above the sales price, as at present.

The delegation was given a sympathetic hearing, and consideration of its request was promised.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save many of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. To avoid any possibility of giving your child opiates, or narcotics of any kind, keep Fletcher's Castoria in the house, and Save the Babies.

New York, Oct. 28.—A letter signed "Tom Flinn" has been received by the Mayor which places the blame for heavy auto fatalities on the short skirts now worn by the fair sex. DAYLIGHT SAVING CAUSE OF TROUBLE

Chicago, Oct. 28.—Daylight saving time figured as a provocation for marital troubles in court here a few days ago. Frank Shaw swore his wife Bettie refused to recognize the new time and get up. He had to go without breakfast. Then he left home and lived where he could get something to eat in the morning. He asked for a divorce.

BAPTISTS NOT SUPPORTING VISIBLE CHURCH UNION

Brantford, Ont., Oct. 25.—The Baptist Convention of Ontario and Quebec last evening dealt with the pronouncement of the Bishops of the Lambeth Conference in England a short time ago on the question of the union of the various Christian denominations and while pleasure at the tone of the pronouncement was expressed, the Convention did not favor "visible unity of the churches."

THE CRISIS PASSED.

There is every reason to suppose that Great Britain has passed her industrial crisis. The Miners' Federation has received new proposals from the Government upon which the men will be asked to give their opinion by means of another ballot.

As far as can be gathered at this stage the basis of the agreement upon which the men will pronounce their verdict would assure an increase in wages of two shillings per shift. There is a condition, however, which would automatically reduce the men's pay by sixpence per shift in the event of coal revenues dropping below a certain stipulated point.

One of the most remarkable features of the strike has been the absence of any attempt to divert either the attention of the idle miners or public opinion in general from the main business of settling the dispute.

THE RIGHT SPIRIT.

Mr. D. S. Curtis, one of the leading prohibitionists of New Westminster, stated yesterday that the Prohibition Party would do everything in its power to assist the Government and the Moderationists in framing a good Act.

NATIONAL DECLINE?

It is quite true that a general tendency on the part of the younger generation to move citywards is a condition into which the Governments of this country might examine with national advantage.

British Columbia presents not a little evidence that the pastoral scene lacks the appeal of the bright lights to many who linger in the cities of the coast in the hope of something turning up.

REALLY ORIGINAL.

According to Mr. W. G. McQuarrie, federal member for New Westminster, the Oliver Government is lacking in sincerity and honesty by not remaining in office long enough to enact legislation to meet the wishes of the majority instead of saddling the Province with the cost of a general election.

NOTE AND COMMENT

"I am pointing out as each of my meetings that we need Scottish experience and Scottish capital in 'British Columbia,'" observed Mr. George Bell, of this city, in a letter from Scotland, published by The Times yesterday.

WHERE IT STARTED

This common illuminant was discovered by Weeber, in 1862. His discovery of the action on water on calcium carbide was useless for practical purposes until the advent of the electric furnace made the cheap production of the carbide possible.

CADET DAVENPORT ENJOYS EXPERIENCE

Writes interestingly of His Experiences on First Voyage to China

One of the former Boys' Naval Brigade boys, Cadet Wilfred Davenport, who joined the Melville Dollar, writes an interesting letter to his parents here, from Shanghai, China, dated September 9.

Shanghai.

"I hope you are all like me, fine and dandy. I sure like this life here, and it is a very interesting, healthy and educational life. It is a fine boat, and so are all the officers fine, too. We are very interested in our work. We get up at six in the morning. One of us stays and cleans up the room, while the other one goes up on the bridge, and washes paint and keeps a look-out. We then have breakfast, which is very good, at eight o'clock. From 9 till twelve noon we do odd jobs. We have dinner and then from one till four we study. From 4 till 5.30 we are up on the bridge, and we take it in turns steering and keeping a look-out. We have supper at 6, and then from about 6.30 till bedtime, we have a time off, in you see we are not worked at all hard here.

"We made a very fine trip across, but when we neared the mouth of the river we struck the tail end of a typhoon, the waves being from twenty to thirty feet high. We next ran on a sand bar, and after we got off that we missed the pilot and had to wait all Sunday for him. It sure was a lovely trip up the river. The Chinese are very funny people with their junk and sampans. We have a great assortment of people come aboard. There are barbers, dentists, laundry men, tailors and tobacco and liquor merchants. When the Chinese lift a heavy weight they all sing to each other.

"We went ashore with a very kind man by the name of Mr. Marshall. He took us round the city in his car, and then we went to his place for dinner. It is not like I thought it would be. The street-cars are divided into first and second class compartments in the native quarters the people eat in the streets on the sidewalk.

"We are getting near Hong Kong now the hills are very green around here and we pass many boats. As it is too late to go up the river, we are anchored outside.

Hong Kong.

"Hong Kong sure is some town. We went ashore at 2 o'clock in the company of the Purser, and the second and third mate. First we went to the Hong Kong Hotel, where we drank ginger beer and lemonade until we were full. Then we started for a hill called the Peak. You go up this in a car which runs on rails and has a cable attached to it and to the other so that as the one comes down it pulls the other up. This line is the steepest in the world, and the top is 1,200 feet high. When we got up to the top we got into a sedan chair and went further up, but we could not go all the way as we did not have time. We stopped at about 1,500 feet, and it is a lovely view up there; you can see most of the island and all of the harbor. There are some beautiful houses, and a fine hotel up here as well. A Wiltshire Regiment is quartered up here. There is one place where the hill drops five hundred feet in a distance of fifty feet. When we got down, we got a rickshaw and went to a store and bought our pith helmets. We then went to another store and bought our white duck suits.

In the harbor here there is a destroyer 600 feet long, with a speed of 48 knots. There is also a K submarine, a Japanese warship, a scout, and a French warship. This place is very well fortified; at the entrance to it you can see all the guns, and also the barracks it has a dandy harbor, and the country all around is very hilly, like the island is. The Chinese are not such good workers and do not make so much noise. The next port of call is Manila, and we shall be there before you receive this letter as it only takes about two days to do it. It is very hot here, and I will close now as we are going in for a swim."

COULD NOT CLOSE FINGERS, HE SAYS

Vancouver Man Suffered Dreadfully With Rheumatism; Tanlac Ends Troubles

Here is another instance of the remarkable reconstructive powers of Tanlac as related a few days ago by Charles Klemmer, of 923 13th Street, Vancouver, B.C., a well-known resident there for the past twenty-one years.

"I'm actually feeling so fine since I got Tanlac," said Mr. Klemmer, "that although I'm seventy-two years of age, I'm going north in a little while to trap during the winter. I had suffered with rheumatic pains in my arms for five years, and at times it was just almost unbearable. Why, I could hardly raise my hands to my head, and my fingers were so stiff I couldn't close them. My appetite was very poor, and even the little I did eat bloated me up with gas until my breathing was very difficult. My back pained me terribly, and for days I was hardly able to move about. At night my sleep was very restless, and when I got up in the morning I felt worse than when I went to bed.

"Well, sir, I found a real medicine when I got Tanlac, for it has simply made me feel like an altogether different person. I have a corking good appetite now, eat just anything I want, and never have an ache or pain of any kind. Why, I'm feeling just fine in every way, and I want to let others know how Tanlac has fixed me up in such good health."

Tanlac is sold in Victoria by D. E. Campbell, Corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

TO-DAY'S JEWELS. The turquoise, which is to-day's tawny stone, has most curious powers and associations. In the East, it is known as a "horse amulet," and for that reason it is regarded even to-day as a powerful talisman (or those whose business activities or diversions are concerned with horse-racing). Because the horse was regarded as the symbol of the sun in its course through the blue heavens, the celestial turquoise was associated with other powers attributed to the turquoise, is protected from accident.

WOMEN TAKE OVER SMOKING PIPES

London, Oct. 28.—Yet another stronghold sacred to men has fallen before the advance of modern woman—the briar pipe. For some time past the Continent has accepted the coming of the pipe for women. The new fashion has now reached England, and pipes of dainty appearance, graceful outline, and elegant proportions are being made by experts in the West End of London.

SAANICH POLICE PROVED SPLENDID HOSTS AT BALL

Over four hundred guests of the Saanich Police Department were last night highly delighted with the arrangements made for the first annual ball, held in the beautifully decorated Saanichton Hall. The affair was generally conceded to be the finest of its kind ever held in Saanich, the proceedings going with a swing and spirit which was most marked.

Dancing was continued until two o'clock this morning, although a large number of city residents retired at one o'clock, when the special car provided by B. C. E. R. Interurban Railway left. Heaton's Orchestra provided the music, with a large number of the latest dance hits on the card.

NEVER HAD DR. FIEG'S

DUTCH CASES, AT ALL

Manager of Rithet's Tells Judge Customs Seized Them For Unpaid Charges

What became of Dr. Constant Fieg's seven cases of costly ancestral home furnishings and Old Country linen that he brought here from Holland and left while he went to fight Germans, was argued at greater length yesterday afternoon when J. A. Aikman, attorney for R. P. Rithet & Co., put Harry G. Allan, manager of the firm, in the box. Mr. Allan swore that although Dr. Fieg testified that Rithet's gave him a receipt for the seven cases, his firm had never actually received the cases from the Customs. He explained that the Customs seized them for the charges due on them. After the Customs decided to get rid of the cases they just pushed them out of their department into the free-for-all department of a safety storage company. Mr. Allan swore that Rithet's were not entrusted with the cases and that if they were the cases would not have been handled so carelessly as they never handle any customer's property that way. Mr. Justice Morrison reserved his judgment.

TERMS OF COAL SETTLEMENT IN UNITED KINGDOM

London, Oct. 28.—The terms outlined by the Government which the executive body of the Miners' Federation is recommending to the men for a settlement of the coal strike provide for an advance of two shillings per shift for persons of over eighteen years of age, with a corresponding advance for younger miners, and the miners to pledge themselves to cooperate to the fullest extent to obtain an increased output. The Government issued a statement, similar to that of Mr. Hodges, adding that the ballot of the men would be taken immediately. The terms provide that the increased wages will remain operative until a permanent wage board is established, which will be operative by the end of March. The additional cost of the miners' claims will come out of the excess revenues obtained from the export of coal. The output for last September is the average struck, which will influence the rise or fall of a sliding scale, which is to operate to the extent of a sixpence reduction in wages if the output does not come up to the September figure, or a rise of sixpence if the output is bigger. The news of the solution of the crisis, for the time being at least, evoked loud cheers in the Commons this afternoon when Sir Robert Horne, President of the Board of Trade, announced the success of the negotiations.

MANITOBA INDIANS ARE FARING WELL

Winnipeg, Oct. 28.—Manitoba Indians are well and happy, according to information received at the Indian office here. So far there are no indications of epidemics in any part of the country. "The Summer was a good one," said Inspector J. R. Bunn. "Fishing in Lake Winnipeg was fine. Many Indians have been working in the harvest fields, and employers report their work very satisfactory." Prospects of a fur catch promise to be as good as any previous season. The fur market is unsettled, but they should receive a fair price for all skins, it was said.

ROTARY ORCHESTRA BUSSONIS FORTH

Talented Musicians Found in Rotary Circles, Under Benedict Bantly

Benedict Bantly took the Rotary Orchestra into instant fame today from the opening bars of the initial overture. With such a well known gathering of representative professionals on his roll the conductor's new organization could not have attained less than fame, with Frank Higgins leader of the violins, J. H. Beatty the cornets, Herbert Kent, flute, and Frank Sehl operating the drummer's roll from bass drum to church bells, while the remainder of the orchestra included such well known artists as Jack Wood, E. J. Down, Fred Butterfield, Justin Gilbert, L. D. McLean, H. E. Hallwright, and T. R. Myers. All that was lacking was a trombone, which the conductor stated he would like for jazz purposes and effects. Assisting the orchestra and aiding them to no mean extent was a collection of artists who rendered numerous selections of a sentimental and serio-comic nature.

L. D. McLean's mandolin solo was cheered to the echoes as was Lester Patrick's "Return of Balthaz", while James Hunter and F. Brawn contributed appreciated vocal numbers. R. R. West started with a breezy exposition of "Oh By Jingo," in which he led the entire company for several choruses. On the conclusion of their talented programme, Benedict Bantly introduced his artists under slightly different names for stage purposes, realizing that a prophet is without honor in his own country. Frank Higgins, E. J. Down, F. Higgins, Herbert Kent, Herr Kents, Frank Sehl, F. Salino, Jack Wood, J. Woodruffsky, and J. Gilbert, Justin Gilbert, and so on through the list of artists.

The Rotary orchestra, after being kept playing constantly for a long period, was finally allowed a rest and was received by cheers that rocked the rafters of the Empress Hotel grillroom. President Clifford Denham, in complimenting the conductor on his talented organization, stated that he felt sure the Rotary Orchestra had arrived to stay. Referring to the value of the orchestra at conventions the president said: "If you take the Rotary Orchestra to Seattle, and practice for the next few months, it will be a valuable feature at the next convention and great credit is due to Benedict Bantly for the gathering he has got together. To-day there are 47 per cent. of the Rotary orchestra." I attribute that to the Rotary orchestra.

A valedictory was given to Joseph Burgess, who is leaving the city, Mr. Burgess replying suitably. He then, post office inspector, was elected to the membership of the Rotary Club. Guests from Vancouver Rotary and Winnipeg circles were introduced.

KU KLUX KLAN IS BUSY AGAIN

Visits of White Caps Result in Negroes Getting to Work

Greenville, S. C., Oct. 28.—While the Ku Klux Klan is being revived in sections of the South in a fraternal spirit for law and order, the hooded night riders, in long flowing white gowns, have actually appeared in South Carolina to force certain planters to pay less for cotton-picking and also to compel thousands of negroes to work. White caps, several hundred strong have ridden into several towns in the State, principally in Florence County, and as a result the cotton fields the next day were thick with cotton pickers and the housewives have all the help they need in the way of cooks and washerwomen. Farmers now see a way out of the ruin which faced them by having their crops spoil in the fields for lack of pickers. The White Caps appeared in Lake City for a second time. First they called on some farmers who had been paying as much as \$1.50 a hundred pounds for picking cotton and suggested to them that this was too much. The several problems arising from the Ku Klux cry of reconstruction days to the negro section and threw out several hits to the effect that more work and hence loafing would be required. Hence the new horde of pickers.

Confined to Negro Problems

Mayor W. H. Whitehead was visited at 9 o'clock this morning and in response to word news resembling the Ku Klux cry of reconstruction days he came to his door and was told he must enforce the Vagrancy Law more vigorously. The White Caps went about their business quietly, few of them carrying the flaming cross. There was no evidence of any intention to offer violence to any of the many persons visited, but they made it plain they meant business. The same course was pursued in other towns, indicating that the "Invisible Empire" is slowly but surely spreading. Warning to ginners to shut their plants until the rice of cotton advances to 35 cents a pound is not believed to be the work of the Klan, according to the officials who have been investigating these outrages. The White Caps are confining their activities to negro problems arising from the enfranchisement of colored women and refusal of men to work in the fields. A report that one negro died of fright in future residence in the State lacks confirmation.

THRESHERS WANTED FINE BREAKFASTS

Granum, Alta., Oct. 27.—"Grape fruit or oranges for breakfast or we quit!" This ultimatum was not made in a metropolitan restaurant, but to the operator of a threshing outfit east of here. Juicy Alberta-grown breakfast and porridge were not enough for the epicurean appetites of these men. They demanded a balanced diet. But they could not convince this particular thresherman of the justice of their claim and they "hit the road."

CAPTURED WOLF WITH HIS LASSO

Lethbridge, Oct. 28.—To the credit of Jim Meeks goes the capture of a wolf at Raymond through his accuracy with his lasso. Mr. Meeks saw a band of about twenty-five coyotes and wolves and he gave chase on horseback with two hounds. With his second throw he roped a wolf and then proceeded to rope two coyotes. This occurred on his ranch. The captured wolf measures over five feet from nose to tip of tail.

THREE LINERS STOP RUNS TO EUROPE

Cost of Coal Too High For Profitable Operation in Winter

New York, Oct. 28.—In shipping circles it is the opinion that the announcement by the International Mercantile Marine Company of the withdrawal for winter of three large American Line steamships from trans-Atlantic service and their assignment to West Indies cruises will afford a diversion to Americans seeking to escape the Prohibition Law.

The vessels retired from the New York, Cherbourg, Southampton run are the St. Paul, New York and Philadelphia. Their trans-Atlantic cables hereafter will be made by the Kronland and Finland, also American flag liners, which will continue, as at present, to call at Antwerp.

This statement was issued by P. A. S. Franklin, President of the International Mercantile Marine Company.

The withdrawal of the steamships was prompted by exceedingly heavy operating expenses, particularly the high cost of coal in England, making their operation unprofitable during the winter months, when the passenger business is expected to be light.

The move is simply one of economy in operation, to adjust tonnage to suit the business, particularly as it is thought that the steamers can be used to better advantage this winter in the Caribbean tourist trade, to which they are well adapted.

Published statements that the termination of the American Line mail contract on Oct. 12 had some relation to the withdrawal of the ships are misleading, as there was no such relation. The American Line made no offer to renew the contract.

It is probable that in the Spring the present American Line ships will go back on their old run.

KEEL PLATES ARE ABOUT TO BE LAID

Wallace Yard Plans to Complete New Steamship For C.P.R. by Next Fall

"I understand that the keel plates are being made ready, and it is altogether probable that the contractors will be in a position to commence laying the keel next week," said Captain J. W. Troup, manager of the British Columbia Coast Steamship Service, when questioned to-day as to progress made on the new coastwise steamship, the contract for which recently was placed with the Wallace-Shipyards, Ltd.

Apparently, the Wallace people propose to waste no time in getting the C. P. R. contract well under way. Full gangs of mechanics will be employed on the craft until it reaches the completed stage.

Steel is on the ground and arrangements have been made for regular deliveries of materials.

It is expected that the new steamship will be ready for delivery by next fall.

PLAN NOW TO TRANSPORT IMMIGRANTS

SS. LEVIATHAN

CHANGE IN SERVICE EFFECTIVE SATURDAY

Regular C.P.R. Boat Will Ply to Seattle Mondays to Handle Empress Traffic

In order to provide better facilities for the transportation between Victoria and Seattle for trans-ocean passengers arriving from the Far East by the big Empress liners, the C.P.R. coastwise organization is making changes in its trans-gulf schedule, providing for the substitution of a larger vessel in place of the steamer Sol Duc on Monday of each week.

Effective on Saturday the steamer Sol Duc will sail from the Belleville Street wharves every Sunday afternoon at 4:30 o'clock for Seattle, instead of Monday afternoon, as in the past.

The Monday afternoon sailing to the Puget Sound port will be taken by one of the regular C.P.R. boats. The daily service to Seattle will remain the same as usual, the changes affecting only the Sunday and Monday sailings.

The big Empress liners, operating on their time schedule, always reach this port from the Far East on Mondays, invariably in the forenoon. Large numbers of passengers bound to the United States disembark here, and the Sol Duc is considered unsuitable on the arrival of an Empress liner.

Another change effective on Saturday provides for the elimination of the 11:45 p.m. sailing from Victoria to Vancouver Saturday nights, a regular midnight sailing on Sunday being substituted.

On Friday night next the steamship Princess Maquinn will take the 11:45 p.m. sailing for Vancouver, and as her berthing accommodation is not as extensive as other boats, intending travelers on that day are advised to take this fact into consideration by booking early, or, as an alternative, taking the afternoon boat.

FORHAN'S, LTD., Montreal

Professional football players have many pet superstitions. To put on the right foot first is held to court defeat, and the utmost ill-luck attends the breaking of a lace or the use of any borrowed article of clothing. A few years ago a player in a league match broke his leg, and a fortnight later a second member of the team also fractured a limb. As it was found that both men had worn the same boots the committee promptly ordered those ill-omened articles to be destroyed.

ASKS PREMIER FOR RAILWAY SUBSIDY

Bowser Government Promised \$5,000 a Mile to Kettle Valley Road

J. J. Warren, of Trail, President of the Consolidated Mining and Smelting Co., visited Premier Oliver on his return from Vancouver to-day and asked him for the \$5,000-a-mile subsidy that the Bowser Government promised for the fourteen miles of the Kettle Valley Railroad from Princeton to Copper Mountain. The payment of this money is due now that the road has been completed.

Premier Oliver said that the late Government had agreed to pay the money, and as the agreement is an act of Parliament, the present Government must admit the obligation.

"It is just another legacy which the late Bowser Government left us to pay and for which they blame us for borrowing money" said the Premier.

Contracts are Sent to Victoria Puck-Chasers

Lester Patrick Will Make Announcement In Few Days As to Personnel of Aristocrats to Battle For P. C. H. A. Title This Winter; Games Here Every Friday Night.

"I have mailed contracts to all the players I hope to have with the club this season and I expect replies in a few days, when I will be able to announce the personnel of the Aristocrats for the 1920-21 season," was the statement made this morning by Lester Patrick, manager of the Victoria professional ice hockey team, when questioned as to what players he would have with his club this season in the P. C. H. A. race.

Manager Patrick desires to remain silent on the hockey situation here for a few days, but promises an interesting announcement. Vancouver intends to have practically the same team as last year and Pete Muldoon, leader of the Seattle Meis, has made the statement that all of his champions have signed contracts with the exception of Roy Riskey and Charlie Tobin.

The fans are getting keyed up for the race again. There is little doubt left in the mind of Westerners as to which is the fastest and most thrilling sport played in the Dominion and Victorians always get itchy about this time of the year for some news from the hockey camps. Lester Patrick is now preparing to give the fans a budget of news that will interest them.

The Pacific Coast Hockey Association has decided to stick to the same days for its games this season as were in effect last year. Victorians will be able to witness a programme every Friday night at the Arena, while the teams will play in Vancouver on Mondays and in Seattle on Wednesdays.

Frank Patrick, president of the P. C. H. A., announces that the annual meeting of that organization will be held in Vancouver on Friday, November 19, when officers will be elected and the schedule drafted.

Minor changes in the rules will also be considered at the annual meeting.

Relay Racing Becoming Most Popular Track Event

While other branches of the track and field game have been marking time during the past few years, relay racing has been slowly but surely plodding along until it has finally stepped out into the front ranks of popularity. To-day it is one of the leading athletic competitions in Great Britain and the United States, and it threatens to take up a prominent place among other universal contests of team strength and ability.

Just as soccer is a test of team foot-balling skill, as hockey is a test of team dash, agility and stamina, so relaying is a test of team speed. Wherever it has been introduced, this spirited cinder-track event has scored a distinct success. To-day there is hardly a sports meet either in Britain or the States that does not include the relay in its bill of fare. Every international meet, college meet, school and playground meet—every one has its relay race. The event is a splendid criterion of team running strength, and it has been adopted with as much success in minor meets as it has secured in the world's greatest athletic festivals.

SCOTLAND PRODUCES WONDERFUL ATHLETE

College Boy Shows Great Ability at Sprints, Jumps and Shot-put

London, Oct. 28.—Edinburgh was the scene of two sporting incidents of historical significance recently. One was G. H. Croile's score of 292, not out, for Grange against Oxford Athletics. The other, and perhaps the greater of the two, was L. J. Dunn's basket of successes at Watson's games—made up of 100 yards, 10 2-5 seconds, 220 yards, 24 1-5 seconds; hurdles, 14 seconds; high jump, 5 feet 8 inches; long jump, 20 feet 4 1/2 inches; shot, 30 feet 1 inch; and cricket-throw, 31 yards 1 foot. It is doubtful if these in a cumulative sense have ever been exceeded in the history of school athletics, certainly not in Scotland, whatever may have happened in England, which is admitted to be the home of sporting records.

Havana to Be Scene of World's Richest Fight

Dempsey Will Receive Sum of \$300,000 For His Effort to Punch Carpentier Dizzy or "Do a Flip-Flop" Himself; Conditions Satisfactory to All.

New York, Oct. 28.—The fight between Jack Dempsey and Georges Carpentier for the heavyweight championship of the world will be held in Havana, Cuba, it was announced here last night.

Selection of Havana as the scene of the contest was made by Tex Rickard, Charles B. Cochran and William Brady, who stated they had received an offer of such proportion from a syndicate of Cuban capitalists that it was finally determined the championship battle would be staged in Havana.

Details of the match have been agreed upon and the actual signing of the articles of agreement merely await the arrival of a representative of the Cuban syndicate. He is expected to reach here within a week and upon his arrival definite announcement of the date of the contest will be made.

The three promoters made the announcement after a lengthy conference in W. A. Brady's office. None of them would disclose the identities of the Cuban capitalists who had successfully for the big battle.

"I am perfectly satisfied with the Havana arrangements," said Rickard, "but I cannot disclose the identity of the representative of the Cuban syndicate yet. He will be here in a week or so and everything will be announced upon his arrival. The Cuban capitalists have made us an offer which means a safe guarantee for success for us and eliminates to a great extent any chance of gambling on the proposition."

Carpentier and his manager, Desamps, who were present also signified their satisfaction with the Cuban offer. Dempsey, who arrived a little later, said that if his manager was pleased with the proposition he was more than satisfied.

Jack Kearns, Dempsey's manager, insists that the purse be given the champion before the match. "I want to protect our interests," said Kearns. "Some reputable man-bonded by a first-class surety company must be entrusted with the \$50,000 for the promoters and the other half deposited by Desamps and Carpentier. Then I will cough up the money promised to the two contestants in the hands of this stakeholder twenty-four hours before the men are to meet in the ring."

Dempsey Palmy Meet. "I wanted to take 40 per cent of the gate for Dempsey's end," continued Kearns, "but the promoters would not agree to this. They made me a flat offer of \$300,000, which I understand that Carpentier will receive in the neighborhood of \$100,000."

"Of course the question of choosing a referee will have to come up later. It will greatly depend on the locality in which the bout takes place, but I don't anticipate any difficulty to arise over the choice of the third man in the ring."

Everything Alright. Last night, however, Kearns came forward with a proposition and declared that everything was satisfactory to him and that the arrangement had his unqualified approval.

CANADIAN PLAYERS WIN FROM VARDON AND RAY. Dixie, Que., Oct. 28.—In the thirty-six hole match here yesterday between Harry Vardon and Ted Ray, the British golf champions, and C. B. Grier and Charlie Murray, local players, the latter won by 3 up and 2 to play. Murray made a round of 18 holes in 71, which neither Vardon nor Ray could approach.

JOHNNY EVERS PILOT OF CUBS NEXT SEASON. Chicago, Oct. 28.—Johnny Evers will manage the Chicago Nationals next season, it was announced today by William Veeck, president of the club. Evers will succeed Fred Mitchell and is expected to arrive in Chicago in a short time. He is now in Cuba with the New York Giants.

ROYAL VICTORIA The Prouty Boosters' Ball was to blame for all the trouble. And the theatregoers of Victoria have the Prouty Boosters' Ball to thank for affording them one of the most appealing photoplays of the year in "The Fighting Shepherdess," screen version of the famous book by Caroline Lockhart, starring Anita Stewart and which will be seen at the Royal Victoria Theatre again to-night.

VARIETY Concerning the big feature film showing at the Variety, the great theatrical weekly, says: "Are You Legally Married" is a wallop right from the start as far as the title goes, and to anyone with a showman's instinct it suggests untold possibilities in an advertising way. The picture itself lives up to the sensational title in a perfectly legitimate manner and carries the theme that the title suggests to a most complete end. The story is based on a United States Supreme Court decision that was handed down in the case of a couple divorced in one state. The wife remarried in another. Her marriage was not legal for the state in which she was re-married did not recognize the validity of the divorce granted in the other state. Therefore, she was guilty of bigamy. After the production was completed it was shown in Congress, and as a result two measures were introduced that would nationalize divorce laws and compel each state in the Union to adhere to a same standard law on the question. The production was made by the Success Pictures Co., of Los Angeles, and the first-pret-see-be-see-see New York last week. The story is by Miles Dobson, and Henry C. Warner supplied the scenario. Robert Flinn directed and Edna Andrews was the camera man. The Robert Brunton studios furnished the art detail.

LAUGHS CONTINUED AFTER CURTAIN FELL "The Unkissed Bride" at the Princess Proves Succession of Funny Situations As the audience at last night's opening performance of "The Unkissed Bride," at the Princess Theatre, was leaving the show, they were still under the control of the laughter which had prevailed practically all through the performance, and the comedy was unanimously voted to be the most hilarious offering ever staged here by the versatile Mildred Page Players.

ROYAL VICTORIA Captivating her audiences by her clever manipulation of the concertina the youthful musical wonder Margaret Strain is assured an enthusiastic reception during the course of her engagement in Pantages vaudeville. Margaret is billed as "The Child Wonder," and if the ovation accorded to her at the opening houses can be accepted as a criterion, the youngster will stage the most popular act during the remaining performances of the current bill at the Pantages. In her interpretation of the overture from "Foot and Hoop," the tiny wonder literally took the house by storm, and her versatility was displayed in the presentation of the jazz selection "Oh, By Jingo." The dainty little performer has a most pleasing stage personality, and her act must be stamped as a musical treat. Her repertoire is a varied one ranging from grand opera to ragtime and each number is most skillfully interpreted. Margaret Strain will be given a warm welcome by her audiences wherever she goes.

ROMANO A new line of humorous patter which is bound to please. The tenth episode of the film serial, "Trilled by Three," featuring "The Slave Market," is the screen offering for the week.

MARY PICKFORD COMING TO VARIETY The general consensus of opinion is that screen artists always insist upon being seen at their best on the screen and incidents where they are not displayed to their best advantage are ruthlessly eliminated from the story, but it is no more than the world famous beauty, Mary Pickford who has set this maxim at naught in her forthcoming production for United Artists Corporation of "Suds," which will be the attraction at the Variety all next week.

IS DUE NOVEMBER 8. "Chu Chin Chow" with its special train of scenic equipment, a company of 300 and a complete new costume edition will arrive in Victoria, Monday, Nov. 8, and on Tuesday night will begin a five days engagement at the Royal Victoria Theatre, which will include a Wednesday and Saturday matinee. Owing to the great length of the performance, patrons are requested to be in their seats at 8 o'clock. It is well to note that the Century Theatre, N. Y., cast remains intact and includes the giant Englishman, Henry Latimer, who played the role in England for Oscar Asche, Majorie Wood, Eugene Cowley, Roy Cropper, Elma Malabar, Gladys Earls, Don W. Ferrandou, Adelaide Messer and many others including a ballet of sixty, headed by the famous English danseuse, Hilda Lee.

Taking The In Out of Indigestion Stuart's Dyspepsia Tablets Are Nicely Balanced to Enable You to Eat What You Like Without Distress.

Indigestion is about the most universal complaint of mankind. And when the stomach is sour, gassy, bloated-like and you get that peculiar bilious taste in the mouth due to indigestion or dyspepsia, there is nothing more relieving than one or two Stuart's Dyspepsia Tablets. Many people are afraid of nearly all the good, savory dishes, the fried eggs, sausage, steak and onions and so on, as they usually experience the peculiar acidity which often follows such food. But Stuart's Dyspepsia Tablets were designed to supply the stomach with the alkaline effect to offset the acid condition. For this reason many physicians recommend these tablets and you can get them in any drug store at 60 cents a box.

DRIVE FOR SAANICH NURSES ON NOV. 4 It is true that the Public Health Nursing Service is in Saanich to prevent wherever possible, but the nurses are also "a very present help in time of trouble" as so many of the residents of Saanich have found, for there is no one too rich, no one too poor, no one too old, no one too young, no one too good, and no one too bad, for the nurses to help if the call comes, and no matter what time during the twenty-four hours, or what the conditions of weather. The nurses answer the call in person.

The WEATHER Daily Bulletin Published by the Victoria Meteorological Department. Victoria, Oct. 28—5 a. m.—The barometer is rising on the Coast and fair weather is becoming general on the Pacific Slope. Rain is falling in Cariboo and moderately cold weather prevails in Manitoba.

GUARD AGAINST CHILLS Simple Precaution Against Dangers of Cold and Damp. Cultivate the habit of taking a cup of hot Oxo—a cube to a cup—before going out in the cold or damp. Such weather is a tax upon the system, and the strengthening and warming powers of the concentrated beef-goodness fortify you against the evils consequently upon exposure.

TORONTO'S NOTED SURGEON GIVES UP PROFESSORSHIP

Dr. Cameron Has Been Outstanding Figure in Medicine For Years. Toronto, Oct. 25.—Dr. Irving Heward Cameron, who has recently resigned the professorship of surgery and clinical surgery of the University of Toronto Medical Faculty and as a member of the staff of the General, St. Michael's and the Sick Children's hospitals, has for many years been an outstanding figure in the medical profession. When the middle-aged men of today were boys, Dr. Cameron was known as Toronto's leading surgeon, he having early in his career, after a course in both London and Edinburgh, been a specialist of that branch of the medical profession. Dr. Cameron has the manner of the old school, or rather of the English school. He prefers to be called Mr. Cameron, as surgeons are called in England, rather than Dr. Cameron, and while other professors on the staff of the Toronto Medical school have long since discarded the cap and gown during the delivering of lectures to classes, he has never departed from the traditional custom. Worked For Culture. Dr. Cameron is a man of high cultural attainments as well as a skillful surgeon, and if there is one feature of his career as a professor which transcends all others it is the persistency with which he has striven to stimulate the students that came under his influence to aim at the possession of similar qualities of mind. In other words, his aim was to make the members of the medical profession cultured gentlemen as well as competent surgeons. His lectures, consequently, were invariably punctuated with digressions on subjects designed to attain that object. Sometimes these digressions were amusing, but they always scored. When calling the roll of a new class, and the name of a student corresponded with that borne by someone famous in Canadian history, the doctor would pause and ask if there was any relationship. And whether there was a relationship or not he would usually for a moment or two dilate upon the qualities that had characterized the aforesaid prominent Canadian. "What famous man was born on this date?" he would frequently interject before beginning to lecture. And if none of his students could give a prompt answer, the doctor would not only supply it, but would enter upon a recital of the qualities of mind and heart that marked its possessor. "Another common practice of Dr. Cameron, while addressing the students, was to chalk a classical Latin quotation on the blackboard and then ask for its translation. But whether he had to translate it himself, as he usually found it necessary to do, it always served as the text for a brief moralizing talk. If there was anything Dr. Cameron tried above anything else to inculcate in the minds of his students it was the importance of thoroughness. "Never operate, unless absolutely necessary, for the mere purpose of finding out what is inside a patient," he would in effect frequently say. "First discover, if you possibly can, what is wrong by a careful diagnosis of the case. And furthermore, try and put yourself in the place of your patient and consider whether, knowing what you do about his case, you would under the circumstances consent to an operation." His High Degrees. Here is an instance showing how Dr. Cameron practices what he preaches in this respect. A certain surgeon had decided that it was necessary that a patient should undergo an operation, but being prevented the last moment from

Buy Fabrikoid Upholstered Furniture

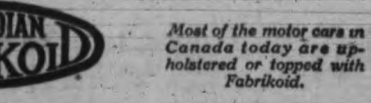

FURNITURE dealers, who give their customers the best possible value and service, sell furniture upholstered in Fabrikoid. These men know that Fabrikoid not only wears longer than leather, but that it costs less and looks better after long use. They realize that they can give Fabrikoid a 100 per cent guarantee, because Fabrikoid is built exclusively for such service.

And Fabrikoid cannot be told from leather in appearance—it's color, the grain, the texture and other details are such that it is often mistaken for leather, but there the comparison ends. Fabrikoid is a fabric with a coating that is impervious to grease or water, is more durable than leather, and is soft and pliable, is sanitary, and above all more economical.

Insist on Fabrikoid upholstery. Your dealer will supply it.

Our book, "Fabrikoid in the Home," tells about Fabrikoid and gives many useful hints about how it can be used in the home. Write for your free copy today.

CREDIT IS "FROZEN" SAYS COMMISSIONER

Expert Gives Admirable Precise of European Financial Situation

Henry W. Grady, trade commissioner of the Bureau of Foreign and Domestic Commerce of the United States, spoke at a luncheon in the Sorrento Hotel, Seattle, recently, on conditions of European trade, J. Middleton, vice chairman of the foreign trade bureau of the Chamber of Commerce, presided.

Mr. Grady returned recently from London, having been in Great Britain and continental Europe since the armistice to investigate financial conditions. He summarized the situation there and indicated the extent of the problem to be solved in adjusting governmental budgets to revenues. He said that when the saturation point in credit has been reached the banks cannot finance trade further, Australia, New Zealand, and the Far East and South Africa will be potential fields of trade to which America can turn profitably, enabling this country to render real service and meet responsibilities in restoring normal conditions throughout the world.

In reviewing the fiscal problems of Europe, Mr. Grady cited the report from a conference at Brussels that only one country, those engaged in the war is now meeting its budget. Financial recovery, he said, is slow, although the industries are being revived and rehabilitation is being undertaken courageously. But while production is increasing there are obligations of which payment is imperative, such as pensions and rebuilding devastated areas, and the deficiencies in revenues can be met only by new loans or new issues of bank notes which inflate the currency and depreciate further the rates of exchange.

So, although the countries of Europe are certain to work their way back to solvency, the problems of finance are stupendous, and credit has been strained to the point where trade cannot be expanded further, or even be maintained, until conditions begin to swing toward normal.

England Making Headway.

According to Mr. Grady, the position of Great Britain is relatively encouraging, for the budget is being met, and there is a surplus by which the capital indebtedness can be reduced, if the rate of progress can be maintained. If the rate of export is kept up, England can feel that the corner has been turned, and can work toward putting her house in order.

But Great Britain is still facing two problems, Mr. Grady said. One is the big floating debt, which it has not been found practicable to fund. So new bills are issued to meet the old as they fall due, and these new issues must be absorbed by the banks. This floating debt amounts to approximately a billion pounds sterling (normally \$1,600,000,000) and the London banks are also carrying huge continental credits, and so feel the effects of conditions in France, Italy and Germany. Eventually America is also affected, since this country is carrying some \$2,700,000,000 in paper or bank credits on Europe.

France, with a \$9,000,000,000 franc budget (normally \$10,000,000,000) is raising 20,000,000,000 by taxation, 7,000,000,000 by a loan, 3,000,000,000 by sale of American war stocks disposed of to that country, and is counting on payment of indemnity by Germany to meet a special budget of 20,000,000,000 francs. Germany in turn faces a deficit of 39,000,000,000 marks, and must make heavy expenditures for transportation, food and maintenance of the Army of Occupation, which is to remain for ten years or longer if the terms of the treaty are not met.

Must Revive Industry.

Unable to raise the amount of taxation, the German government is inflating the currency further by issuance of 2,900,000,000 marks a month, the only hope of paying the indemnity is through a greater industrial progress than has been shown thus far in the revival of its enterprises. The country must increase its exports to obtain credits for paying the indemnity to France. Conditions in Italy, said Mr. Grady, are reported similar to those in France, though his personal investigation had not extended to that country.

The Scandinavian countries, Finland, Holland and Spain, are financially sound in their finances, he said, and afford promising markets, though they are all depressed to greater or less degree by the situation in the other lands of Europe.

During the war and since the armistice, said Mr. Grady, Europe had eaten into its capital, and as a result credit is "frozen." Banks cannot finance trade if credits cannot be insured, and it is difficult to say how long it will be before Europe can again be a market for American goods under the favorable conditions that prevailed before the hostilities. Meanwhile, if America is not to feel the strain of decreasing exports at a time when our expanded industries need markets, they must be sought elsewhere, by "selling goods where they can be paid for," the policy recommended by the British committee entrusted with preparing a programme to restore trade prosperity. This means the diversion of commodities produced in the industrial centers of the East and Middle West from the old channels of trade through Pacific ports to lands ready to take the surplus production which Europe cannot buy.

"The immediate problem," declared Mr. Grady, "is to establish means of financing such trade through acquiring the fullest possible knowledge of trade conditions in those countries. If we have the imagination and the courage to meet this opportunity, we will maintain our favorable balance of trade and keep our industries going. By such constructive programs our prosperity will continue, and we can fulfill our duties in helping the old world to restore normal conditions."

"What brought you here, my poor man?" inquired the prison warden.

"Well, lady," replied the prisoner, "I guess my trouble started from attending too many weddings."

"Ah! You learned to drink there, or steal, perhaps?"

"No, lady; I was always the bridegroom."

LOWER CLOSE FOR STOCKS TO-DAY

(By Burdick Brothers, Ltd.)

New York, Oct. 28.—The earnings statement exhibited by the U. S. Steel Corporation yesterday was a favorable one, but not quite up to the expectations of predictions in certain quarters. There was also a little disappointment because something in the nature of an extra dividend was not declared on the junior issue, the result was selling by the disappointed ones and the heaviest in this particular stock had a depressing effect on others in the list. Mexican oil shares, however, held up well, and it seems to be the opinion of a substantial kind is going on in this group.

Call money rates continue to average quite high, and the heavy withdrawal of deposits by the Government this week from local banks is chiefly responsible for the higher average rate for accommodations. It is thought that after the first of the month, money rates will be somewhat easier.

The Iron Age says that slackening in the demand for steel products is more pronounced. Notwithstanding the many adverse trade reports in circulation, however, the market is showing a tendency toward slow fashion. This is no doubt due to the fact that weak holdings have been pretty well eliminated in the share list and there is more substantial class of securities anxiously looking for the appearance of the equipment, good roads and oils at every favorable opportunity.

SHORT COVERING CAUSES ADVANCE

(By Burdick Brothers, Ltd.)

Chicago, Oct. 28.—The grain market opened weak, but an shorts began to cover the market advanced sharply. On further news that the French Government would not buy wheat for export during Nov. and Dec., however, the bear element started another active drive on the downward side. They succeeded in driving the close when another wave of short covering commenced and the finish found prices practically on the top for the day's trading.

Mr. Beatty, in his opening address, criticized a report of the inaugural meeting of the Victoria Automobile Club that had appeared in the Daily Colonist of Sunday last under the caption, "Motorists here sparring for clash," which he stated was an entirely distorted view of the actual facts.

"There can be no competition in doing good," he stated, "and I know I am expressing the feeling of this gathering when I say that there is no idea of competition or rivalry in our motives; we merely wish to form a club for social purposes and the welfare of the motorist in general."
