POLITICAL NOTES

Sheriff "Billy" Nesbitt has announced his candidacy for re-election. He is not only a very competent official, but has always surrounded himself with an efficient force. Sure, we'll vote for him at the Primary election on August 27, and again in November.

Honest Jim Taylor is another official who desires to succeed himself, and we know no reason why his wish should not be gratified. In the position of County Treasurer he has been a veritable "watch-dog of the treasury," and the people cannot afford to swap horses—old-war-horses—just now.

City May Buy

Theatre Property

A number of those interested in securing a desirable location for the Harrison memorial fountain gathered at the City Hall on Monday evening. Several sites were suggested, but it was the general opinion, provided the Forest Theatre property could be acquired, that it was the proper place to locate the fountain.

A committee was appointed to look into the matter. Among those present were A. P. Fraser, W. L. Overstreet, Mrs. J. W. Hand, Miss M. D. N. Morgan, Mrs. E. K. de Sable, Peter Taylor, A. Vachell, D. W. Willard, W. T. Kibbler, G. F. Bearisley, J. N. Hilliard and C. J. Arne.

WEEKLY GREETING

Of all the habits that we may use to help us in our life, there is none easier to acquire or more useful than the habit of enthusiasm.

EDITORIAL BRIEFS

The Forest Theatre Society is fortunate in having this year a producer of the ability and the enthusiasm of John Northern Hilliard, competent artists like Arthur Vachell and Daniel W. Willard, and as business manager W. T. Kibbler. The combination should make this one of our most successful dramatic seasons.

A rumor circulated to the effect that summer hotels may be forced to remain closed this year on account of food shortage is without foundation. The Food Administration announces that reports of this kind are so opposed to facts that they may be regarded as enemy propaganda.

Many visitors here, away from their home Red Cross chapters, are invited to continue their work at the headquarters of the local chapter. Do not take a vacation from this great mercy work.

This is no time to talk of money or of profits, for the world is using a new medium of exchange today. That medium is the precious blood of our soldiers. They go forth singing: "As he died to make men holy, let us die to set men free." The man who comes out of this war with one dollar more than he had when it began is not only disloyal, but a knave and a fool. May God forgive him! The American people never will.

Artists and students painting in and about the forest near Carmel and vicinity are requested not to toss their used tubes and rags where persons are likely to have shoes and clothing spotted with paint.

Trustees Hold Two Meetings

At a special meeting of the City
Board of Trustees on Monday
evening, C. J. Arne was installed
as Trustee to succeed D. W. W.
Johnson.

The board met in regular month-
ly session on Tuesday evening.

The meeting may be termed one
of routine and discussion.

Inquiry concerning the proba-
bility of repairing the Forest The-
atre road brought from Trustee
Fraser the short reply that as long
as much-traveled streets were in
sad need of attention, it would not
be consistent to repair that partic-
ular roadway.

While the monthly bills were
being read, Trustee Kibbler ex-
pressed the opinion that the office
of city attorney was unnecessary,
but his motion to dispense with
the services of that official was
lost. Those who voted against the
proposal based their opposition
upon the ground that there would
be no economy in engaging the
services of a lawyer every time
legal services were required.

Trustee Arne's suggestion that
the marshal do work other than
police work was taken under
advisement.

There was considerable discus-
sion regarding street work, partic-
ular emphasis being laid upon the
necessity of doing something on
Ocean avenue. Mr. Kibbler is to
obtain from a Monterey street con-
tractor approximate figures per lot
for clay streets, said figures to
vary from \$15 to \$20.

A building permit ordinance was
given its first reading.

Bills aggregating \$398.66 were
presented and approved.

It was stated at this meeting
that Harris D. Comings had been
employed by the electric light
company to attend to its mechan-
ical business here.

OFFICIAL FOOD NEWS

Issued by
U. S. Food Administration
for California

Anticipating a critical shortage of both cultivated and natural feedstuffs for stock cattle in California after August 1st, the federal livestock commission of the United States Food Administration for California today issued an appeal to farmers to conserve straw of all kinds which can be used as a base for cattle feed.

Prof. Gordon True, chairman of the federal livestock commission of the United States Food Administration for California, issued the following statement:

"The range cattle situation for the year 1918 is critical.

"The rains of the past season came too late to put the ranges of the State into anything like normal condition. The result is an unprecedented shortage of cattle feed.

"It is too late to extend irrigated crop areas for this year. The situation must be met by saving where there has formerly been waste. This means that every pound of straw from beans and all the grains must be most religiously stored for feed.

"The food administration is taking the stand that the burning of any straw will be regarded as wasteful practice and the man who does it may expect to be prosecuted under the federal law.

"On account of the needs of the cattlemen the citrus and deciduous fruit growers are urged for this year to abstain from the use of bean straw and alfalfa as fertilizer or mulch. The cattlemen on the other hand are as strongly urged to conserve every possible pound of manure for the use of the fruit growers in lieu of the straw usually taken by them.

"The destruction or waste of anything that can be used as a stock feed or as a fertilizer at this time is a national calamity."

All Americans Can Serve

Every man, woman and child in this country, who wants to serve the country, can serve it and serve it in a very simple and effective way, says Secretary McAdoo.

That service is to lend your money to the government. Every 25 cents loaned to the government is a help at this time and practically every man, woman and child, by making some trifling sacrifice, some denial of a pleasure, or giving up some indulgence, can render the government that support.

Casts to Be Announced Shortly

Rehearsals of the Forest Theatre Society's annual summer plays, "Pygmalion and Galatea" and "Alice in Wonderland," are now actively underway, and from now on up to the evenings of the performances, July 3, 4, 5 and 6, there will be few idle moments for actors, stage artists, scene builders, costume makers, instructors of dances, and those who have charge of the work of production. Every one is entering heartily into the work and cheerfully doing his or her "bit" toward making these plays—which are given for the benefit of the Red Cross—a success.

The casts for both plays are almost complete, and undoubtedly they will be ready for announcing in next week's Pine Cone. There are few parts in "Alice in Wonderland" yet to be filled, and many children are needed for ensembles and dances. The producers wish to state that all rehearsals for "Alice," except the last two dress rehearsals, are being held in the morning. This will obviate the keeping of young children up at night. The rehearsals for "Pygmalion and Galatea" are held in the evening. This arrangement prevents any conflict between the two plays.

The plays this year will be practically all-Carmel productions. So far there are no non-residents in the casts. The costumes will be entirely the work of local artists. The stage settings and scenery will be designed and painted by Daniel W. Hilliard and Arthur Vachell. The dances will be in charge of Miss Jeannette Hongland and Miss Grace Wickham. W. T. Kibbler is attending to the business end of the production. The producers are John Northern Hilliard and Miss Katharine Cooke.

Authority on Russian Affairs Now Here

Today when we are talking of "Runaway Russia" it is most interesting to find some one who is capable of answering our questions.

Camping on the river bank with his artist wife is Alexander S. Kaun of the University of California. He was born in Ukraine and knows the Russian not only analytically, but with a fine sympathy.

Mr. Kaun will give a course in Russian literature at the summer school in Berkeley, and while he is vacationing here he is entertaining his friends "who want to know all about the Bolshevik."

"Bolshevism never really represented Russia, it was no more essential Russia than autocracy," said Mr. Kaun and added that the present chaotic condition was due to the fact that the Russians have studied republican methods of government and found them imperfect. Asked if Russian ideas are socialistic he said he should consider state socialism as opposed to the Russian mind.

One thing he is thoroughly convinced of—that in spite of Russia making peace terms with the Kaiser she will never allow her country to be dominated by the Germans. He considers the deposed Kerensky the highest expression of Russian idealism.
