OF INTEREST AND IMPORTANCE TO YOU . . .

FALL SEED—In spite of scarcity of some items and erratic markets, we have fairly complete stocks—and are trying to hold down prices. We try to sell the highest quality the market affords. If you haven't bought various fall seed, it will likely pay you to buy at once.

OATS AND RYE—Rye is short and will likely give out. It did in '57. Good oats are not plentiful, and almost sure to advance in price. Better be safe than sorry—and get covered on your reasonable requirements. Moisture is plentiful. Cattle prices are up. This promises a heavy demand. Oats, Rye and other seed are moving well.

HAY TO BALE—July rains made grass grow. There is plenty to bale. Farmers ran out of hay last winter. "Make hay while the sun shines!" Quality of our two brands of twine unsurpassed. Prices are right!

THE STOCKMAN'S HANDBOOK By Dr. M. E. Ensminger

This new livestock handbook should be a "must" on everyone's bookshelf interested in the business. Its 585 large, easy-to-read pages also contain hundreds of drawings and charts to make it the most complete volume of its kind that we have found.

It has complete coverage of breeds and breeding, feeding and diseases (both prevention and treatment), forage crops, marketing, fitting and showing, and many other timely and valuable subjects. We rate it "tops".

In order for you to be convinced of its value order a copy today! Look it over for 10 days and if not completely satisfied, return it and we will refund the purchase price. To be a successful stockman, we must be well informed. This book will supply the needed information to help get the job done. Send for your copy today.
