WEDNESDAY MORNING, JAN. 26.

The Question of Licensing Gambling-Houses.

We perceive that our respected compatriot of the *Bee* is taking strong ground against it. It gives us pleasure to note that the press of New Orleans will uniformly oppose it. We do not, however, consider it a wise course to argue the question in so many words. We never say "No" to an argument in favor of public gambling houses, but we do say "No" to the proposition that they are to be licensed. We have no objection to a subterfuge, and wished to say, when we made our statement, that we did not mean to give it.
