ALLIES HUSTLING THE RETREATING GERMANS

Progress of Foch's Forces on Long Front Continues With Rapidity

DEMORALIZATION IS GROWING IN GERMANY AND SPIRIT OF MUTINY IN GERMAN ARMY IS INCREASING

Correspondent at Rotterdam Says He Has Received Corroboration of Reports of Falling Away of Morale; Over 20,000 Deserters in Berlin Alone

London, Sept. 7.—General demoralization of the German population and widespread and growing dissatisfaction in the German army, accompanied by mutiny and desertions, are described in dispatches to The Daily Telegraph from its Rotterdam correspondent under date of Thursday. The correspondent says that the information reaching him is so sensational as to inspire doubt, but declares he has received corroboration from authoritative sources which establishes the authenticity of the information beyond doubt.

He asserts that the German army is filled with despondency and seething with mutinous spirit and that alarming outbreaks have occurred in several units, principally Bavarian and Silesian. One incident on the Arras front ended in a whole Bavarian division being disarmed and transported to Bavaria, where it was placed in a prison camp, and the mutiny of one Silesian regiment resulted in nearly a hundred of its members being executed.

A huge number of desertions are occurring, the correspondent says, and it is estimated that there are more than 20,000 deserters in Berlin alone. Large numbers are scattered throughout the country and the authorities are having the greatest difficulty in trailing deserters owing to the continuance of the working classes. Nevertheless hundreds have been arrested and generally these have been sentenced to fifteen years' imprisonment. A great number of imprisoned deserters, broken by solitary confinement, have been released and sent back to the ranks.

Disobedience.
Disobedience and defiance of officers is common at the front, according to the correspondent, and a similar spirit is shown in the munitions factories, where the workers deliberately are slowing up, with the result that the output has been seriously decreased.

British Watching.
London, Sept. 7.—Public interest here to-day is quite equally divided between the unbroken advance of the Allied armies in France and the apparent signs that the German people are in a state of nervous anxiety bordering on demoralization. More editorial space is being devoted here to future events than to the retreat of the German army.

The belief that something like a panic has seized the German populace is not based on stories from neutral sources such as have raised false hopes in the past, but upon the utterances of the leaders of the German nation and the appeals of the newspapers to the public to keep its head, while they themselves admit the seriousness of the military situation.

Indicative Incidents.
The Kaiser's bold vein of assurance, Chancellor's speech on the Prussian upper House, General Linsingen's stringent order, and above all Field-Marshal von Hindenburg's proclamation, are cited as manifest efforts to check the falling spirit which, it is contended, must exist to have called them forth. In short, it is declared that the German people, and perhaps also the military chiefs, evidently are greatly disturbed by recent events.

Damaging of Railroads.
London, Sept. 7.—The military commander in the district of Altona, Prussia, has issued a proclamation warning the populace against damaging military railroads and thus exposing military transports to danger, says a dispatch to the Exchange Telegraph from Copenhagen.

Crew of Schooner Drowned Near East Coast of Canada
A Canadian Atlantic Port, Sept. 7.—A schooner, believed to be the Belle of Burgeo, of Burgeo, Nfld., has been found floating bottom up near here. It is supposed the vessel, which looks to be a craft of about eighty tons, capsized in the gale last night, and that her crew was drowned. Fishermen along the shore this morning picked up several pieces of wreckage and another "Belle" was reported on the sea in the vicinity of the coast.

The schooner Belle of Burgeo sailed from this port with a general cargo including a quantity of oil for Newfoundland.

PERSHING GATHERING FORCES FOR BIG BLOW ON UNNAMED SECTOR

Washington, Sept. 7.—The organization of the American First Field Army in France is progressing so rapidly, General March told members of the Senate Military Committee to-day, that nearly ninety-five per cent. of the American troops brigaded with the British and French have been withdrawn and are being assembled at a point he did not designate.

There are now only between 90,000 and 100,000 American troops with the British forces. This accounts for the small number of Americans engaged in the present forward movement of the Allied Forces.

Because of the gradual withdrawal of American troops, the Senators afterwards said they had been told, only one division—the Thirty-Second—is now engaged in the present battle.

INTEREST CENTRES IN MANGIN'S CAMPAIGN

London, Sept. 7.—The interest of the military commentators here, while not ignoring the continued British progress in France, centres chiefly on the important French successes on the southern end of the line of attack. The stiffening of the enemy's resistance west and south of the La Fere-Laon region, is noted and the difficult operations before the French and Americans are recognized.

The Times, referring to the Franco-American arrival before "the great pivotal position of the enemy in France, where the forest of St. Gobain forms the glacis," says a frontal attack in this forest is out of the question and now, as last year, the French doubtless will prefer to go around, but have some very difficult ground to cover before they are on the Chemin-des-Dames.

CELEBRATION ON MONDAY WILL MARK NOTABLE EPOCH IN INDUSTRIAL PROGRESS

All citizens of Victoria, young and old, are expected to do their duty by turning out on Monday next in honor of the celebration ushering in the new era of prosperity assured to the city by the placing with the Foundation Company, Limited, a contract for twenty new ships of a larger tonnage than any built heretofore in Victoria, with the promise of more to come, the establishment of a new yard in which vessels to Norwegian order are to be built, and the inauguration of track laying on sections of the Canadian Northern Railway to complete the line, and connect the capital with one of the richest timbered portions of Vancouver Island.

JAPANESE CAVALRY OCCUPIED POINT ON THE USSURI FRONT

Tokio, Aug. 30.—(Delayed.)—Japanese cavalry on August 28 occupied Krasnoyarski, on the Ussuri River front in Siberia sixty miles northeast of Lake Khaba, according to a statement issued to-day by the Japanese War Office.

TERGNIER, WEST OF LA FERRE, IN HANDS OF FRENCH NOW AND HAIG'S MEN GAIN SOUTHWEST OF CAMBRAI

Allies Have Warned Bolsheviki Regarding Consular Officials

Washington, Sept. 7.—The Bolsheviki authorities in Moscow have been warned by the Allied Powers through the Ministers of Holland, Denmark, Switzerland and Norway that they will be held personally responsible for the safety of the Allied consular officers and missions now detained in Russia.

Germans Now Trying to Get Finns Into the German Forces

Paris, Sept. 7.—(Havas)—A treaty of alliance has been concluded between Germany and Finland, under which the entire man-power of Finland is put at Germany's disposal, according to a dispatch to The Matin from Copenhagen.

Bolsheviki Papers Urging British and French Be Murdered

Washington, Sept. 7.—Reports from Petrograd received to-day through Stockholm say the Maximist papers are openly advising the murder of British and French nationalists in Petrograd.

Allied Thrust May Carry Germans Past Their Former Line

Paris, Sept. 7.—The Allied advance in the region west of St. Quentin, according to the opinion of military critics of The Petit Journal, will prevent the enemy from halting even temporarily on the Crozat Canal, which was the basis of his line in that region during last year.

French Made Attack East of Asiago, on the Italian Front

Italian Headquarters in Northern Italy, Sept. 7.—(Havas Agency.)—French troops yesterday executed a surprise attack east of Asiago after a short but intensive artillery preparation. The enemy resisted stubbornly, and lost heavily through the French artillery fire and grenades. The French destroyed a number of enemy shelters and made prisoners. The losses of the French were slight.

German Aeroplanes Bombed a Hospital But Got No Victims

With the American Army in France, Sept. 6.—(Via London, Sept. 7.)—German aviators' sent two direct hits on Wednesday night on a large Red Cross building between the wings of the French-American hospital southwest of Soissons. There were no casualties, as the patients had been removed to nearby caves before the bombing, began soon after dark.

BRITISH CASUALTIES REPORTED IN WEEK ENDING TO-DAY 20,640

London, Sept. 7.—The casualties among the British forces reported in the week ending to-day totaled 20,640 officers and men, compared with 14,491 reported in the previous week. The casualties are divided as follows: Killed or died of wounds—Officers, 279; men, 3,528. Wounded or missing—Officers, 1,634; men, 15,690. Total officers, 1,413; total men, 19,218.

Forward March Continues on Practically Whole Front From Havrincourt Wood South to the Aisne Region; French on New Ground West of Laon

London, Sept. 7.—1 p. m.—Allied progress on practically the whole battlefield from Havrincourt Wood, southwest of Cambrai, to the river Aisne, continued this morning with greater rapidity than had been expected.

Tergnier, three miles west of La Fere, has been captured by French troops without opposition.

The French have advanced on a twenty-mile front to an average depth of two miles and at some places to a depth of four miles. French troops also reached the Forest of Coucy, and are now on a big stretch of entirely new ground.

Accelerating the flight of the retreating Germans, the British, French and American armies gained important new ground last night and to-day along the entire front from the Aisne to the west of Cambrai.

On the northern part of the front the British have pushed forward on a front of more than fifteen miles. They have driven in hard on the left flank of the German line protecting Cambrai along the Canal du Nord, occupying the greater portion of Havrincourt Wood and capturing several additional towns to the southwest.

South of the Somme the French are reported to have effected a gain to an average depth of two miles on a twenty-mile front. They took the important town of Tergnier only two and one-half miles from the Hindenburg line at La Fere and swept over several towns northward toward the British front in their progress.

Mangin's Operations.
It was beyond the Oise that French forces made their most important gains. General Mangin's army has a difficult task before it there, where the Germans are established in the extensive forest of St. Gobain, the key point of their defensive system. The French already have pushed through the outlying Forest of Coucy, however, and by taking Barisis have begun to press on the St. Gobain Massif itself.

In the Noyon sector the French now hold the important junction point at Ham and a further retreat of the Germans on the old Hindenburg Line between La Fere and St. Quentin is anticipated.

New Ground.
At points along the front the French apparently have reached ground beyond the former German defensive line. The official statement from Paris to-day shows them on the edges of the upper Forest of Coucy, also a part of the St. Gobain bastion defending Laon and they are now officially reported to have pushed into a big stretch of entirely new ground in this area. The Germans are desperately resisting there.

On the Aisne the French have taken the Conde Fort and Conde-sur-Aisne, whence their movement threatens the Germans who still are clinging to the edge of the Chemin-des-Dames held by the Americans. Thus it seems that there can hardly be more than a momentary halt by the enemy there, and the reports from the American front indicate that the Allied lines already are moving ahead, particularly to the east towards Rheims, where a movement is in progress to force the Germans out of the angle south of the Aisne where they are yet holding.

French Report.
Paris, Sept. 7.—On the front between the Somme and the Oise the French continued to progress last night, overwhelming the resistance of the German rearguard, according to to-day's War Office report.

Advancing east of Ham, French troops occupied the towns of Dury and Oizey, more than three miles beyond Ham.

North of the Ailette French troops made a further advance, winning the entire lower Forest of Coucy. Barisis was captured in heavy fighting.

South of the Ailette French troops took Nanteuil-le-Posse, Conde Fort and Conde-sur-Aisne.

The statement follows: "Between the Somme and the Oise French troops continued to make progress during the entire night, overcoming local resistance and forcing back the enemy rearguard."

"Advancing on both sides of the Somme, French forces occupied Pithon, Somme-et-Eaucourt, Dury and Oizey, farther south French troops are holding Gigny and have reached the western edge of Genlis Wood."

"North of the Oise French troops are in Tergnier. They have pushed east of this village to the railway and canal."

"North of the Ailette the lower Forest of Coucy is entirely in our hands, as well as Barisis, which was captured in heavy fighting notwithstanding the stubborn resistance of the enemy."

"North of Quincy-Bassee French troops have passed beyond the villages of Aulers and Basoelles-Aulers. South of the Ailette, Nanteuil-le-Posse, Conde Fort and Conde-sur-Aisne are ours."

BRITISH TROOPS PUSHING ON TOWARDS MESSINES IN BATTLE AREA IN FLANDERS

London, Sept. 7.—In Flanders British forces are pushing toward Messines, near the southern end of the Messines Ridge, and advanced their line last night a short distance in the direction of the town, Field-Marshal Haig reported to-day.

North of La Bassée Canal British patrols made headway in the enemy positions in the vicinity of Canteleux and Violaines, according to the report, which says:

"North of the La Bassée Canal our patrols gained ground in the German positions about Canteleux and Violaines. Farther north we carried out a successful minor operation yesterday evening between Hill 63 and Wulverghem as a result of which we captured fifty prisoners and advanced our line a short distance in the direction of Messines."

HSU SHIH CHANG IS CHINESE PRESIDENT

Peking, Sept. 6.—Hsu Shih Chang, former president of the Privy Council, has been elected President of the Chinese Republic by a large majority.

Hsu Shih Chang became prominent during the latter days of the Chinese monarchy. He was one of the leading statesmen who conducted the negotia-

tions preliminary to the settlement of the relations between Japan, Russia and China as the result of the Russo-Japanese War.

When the constitutional Government was established, Hsu became Vice-Prime Minister. In June, 1917, he was named dictator by a rebel conference at Tientsin. When Hsuang Tung relinquished the role of Emperor in the Summer of 1917, Hsu was appointed his guardian. Last month he was nominated for the presidency by the general assembly of the northern Chinese army.

COMPANY STANDS BY SIX-CENT FARE

B. C. E. R. Claims It Has Legal Right to Charge That in Vancouver

Vancouver, Sept. 7.—In a politely worded but firm letter addressed to Mayor Gale and the City Council, George Kidd, general manager of the B. C. Electric Railway Company, reaffirms his belief in the company's legal right under the six-cent fare by-law to charge that amount for street car rides in the city and declines to recede from that position. Mr. Kidd not only contends that his company has a legal right to charge a six-cent fare on its cars, but maintains further that that right holds good for nine months from the passage of the by-law on July 8.

Mayor Gale suggested to the City Council at its special session yesterday that the "jitney by-law" should be repealed. He said he made the suggestion so that any alderman might take it up if he saw fit. As none of the aldermen seemed in a hurry to adopt the suggestion, the Council acted on a motion to adjourn which had been moved just before the Mayor made the suggestion.

"FRANCHISE REFORM" IN PRUSSIA SEEMS NOT TO MEAN MUCH

Amsterdam, Sept. 7.—In the course of a debate on franchise reform in the Prussian upper House yesterday, Friedberg, vice-president of the Prussian State-Ministry, said that the Government respected the sentiments which had found expression and therefore was striving for an understanding which, however, must not conflict with the fundamental ideas of the Kaiser's message of July 13, 1917.

He said he did not believe a necessary outcome to the extension of the franchise would be parliamentarization of the Government. The appointment of Ministers was the privilege of the Crown, he declared, and would remain so.

FORWARD SWEEP OF ALLIES CONTINUED

London and Paris Last Night Reported Further Strides in Offensive

London, Sept. 7.—Field-Marshal Haig reported last night: "On the southern portion of the battlefront our progress continues, in close touch with the French army on our right. South of Peronne we already are nearly seven miles east of the Somme and advanced to the general line of Monchy-Lagache, Vraignes and Tincourt, all of which place are in our hands.

"The resistance of the enemy's counter-attacking troops, who had attempted to delay our advance, has been rapidly overcome, and numbers of prisoners have been taken in this sector.

"South of the Cologne River, on the high ground about Nurlu, the enemy has contested our advance with great stubbornness. Sharp fighting occurred about this village and around Equancourt, in the valley north of it. These villages are in the hands of our troops.

"Pressing forward beyond this line, we have captured Longueveuve and Liermont, and are approaching Metz during the day. In the southern portion of the Havrincourt Wood. Number of prisoners have been taken on this part of the battlefield.

"North of La Bassée Canal local fighting has taken place west of La Bassée and east of Bac St. Maur. We captured a few prisoners in the latter locality.

"Our line has been slightly advanced opposite Erquinghem and southeast of Tyres."

French Report.

Paris, Sept. 7.—The following official report was issued here last night: "On the whole of the front between the Somme and the Aisne the advance of our troops has not slackened during the day. In spite of the efforts of the Germans to stem it, particularly to the north of the Ailette.

"We hold Ham and Chauny.

"To the east of the canal du Nord we have fought our front on a line running past Lanoy, the forest of Villers-St. Christophe Estouilly, east of Ham, Brouchy, Villerselle, Unygle-Gay, Viry and Loureuil, and northeast of Chauny.

Ten Kilometres.

"Since yesterday our troops have made progress in several places to a depth of ten kilometres.

"To the north of the Ailette we have occupied the lower Forest of Coucy up to Petit Barisis. The Germans were compelled to abandon in the forest materials and considerable munition depots.

"Farther to the right we hold the outskirts of Fresnoy, Quincy-Basse, Lisieres, west of Vauxaillon, and the Lefaux farm.

"We have recaptured our old trenches on the whole of the front to the north of the Aisne.

"South of the Aisne American forces have made further progress in the region of Villers-en-Prayeres and Revillon."

New Phase.

With the French Army in France, Sept. 6.—Via London, Sept. 7.—(By the Associated Press).—At the present rate of progress the Allied force will soon have driven the Germans from all the ground gained by them last year and the offensive operations may enter a new phase.

Fires Set by Enemy.

With the British Army in France, Sept. 6.—Via London, Sept. 7.—(By the Associated Press).—The enemy has been driven from east and west of Peronne. Over the whole area from which the Germans are retreating on this large section of the front many fires are raging, and numerous explosions have been heard. Villages are aflame between the British positions and the Hindenburg line. Here and in the northern areas the Germans are burning quantities of material.

South of Havrincourt Wood the advance north and south of Equancourt met with heavy resistance. Just east of there the whole town of Pins is aflame. The resistance probably was offered to give a chance to the destruction squad in Pins.

Numerous fires have been reported in the area south of the Estaires-Armouettes road.

In the Lens sector, and northwest, the retirement continues in various sections. The British troops are speeding the retreating Germans wherever they do not move fast enough. In this region, also, many fires are burning, and the Germans are blowing up their stores and works.

Revolutionary Spirit.

British Headquarters in France, Sept. 6.—Via London, Sept. 7.—(By the Associated Press).—Sparks of revolution seem to be flying in the German army. Prisoners taken by the British mention the distribution of pacifist and revolutionary pamphlets among the troops.

One, who had recently returned from leave, said that when he was in a large number of Bavarians he was shown revolutionary pamphlets which he was told were being widely circulated. All the pamphlets were in French and the man appealed to the men to refuse to fight.

It was said that during the recent fighting the commanding officer of the 13th Pioneer Battalion of the 2nd Division was shot by his men when he attempted to stop a panic rush from the trenches.

German Statement.

Berlin, Sept. 6.—Via London, Sept. 7.—An official statement issued here this (Friday) evening says: "The day passed quietly along the battlefield. There were minor engagements in the Arras sector fronting our positions."

ARTILLERY ACTIVE ON AMERICAN SECTOR IN WOEVRE REGION

With the American troops in France, Sept. 6.—(Via London, Sept. 7).—The artillery fire on the American sector in the Woevre region was heavier to-day than it has been for two weeks. In the Vosges, however, the firing activity decreased.

The pilot and observer of a German aeroplane that was shot down by the French and fell within the American lines, were captured to-day by American troops.

American patrols had a sharp encounter with an enemy ambushing party last night. Another enemy patrol approached the American wires, but made a hasty retreat when it was fired upon.

HOLD ENEMY FLEET IN HIDING PLACE

Allies Have Played Havoc With U Boats Operating From Belgium

London, Sept. 7.—(By the Associated Press).—A number of interesting developments in and aspects of the present naval situation have just been made available from an authoritative source.

Since the Jutland Battle the German high seas fleet has not been in the North Sea except for some "tip-and-run" dashes of a few ships.

The German short distance submarine fleet making its bases in Belgian ports has been virtually wiped out. The enemy reinforced the Flanders flotilla with long-distance submarines, some of which have dashed through the Allied naval barrage, but between the end of March and July the Allies definitely destroyed more than fifty per cent. of the flotilla.

The British are active in the Heligoland Bight and are carrying out operations with various kinds of light forces in the North Sea, the average number of such operations being no less than five daily. The number of German surface craft destroyed in the Bight during the year runs into three figures.

Mediterranean.

There are no enemy submarines in the Dardanelles, it is revealed, while the moveable barrier established by the Allies in the Straits of Otranto, at the entrance to the Adriatic, is responsible for the diminution of the sinkings in the Mediterranean. The losses of enemy submarines in the Adriatic since 1917 have been twenty-five per cent. of the number operating.

When German submarines first appeared off the American Atlantic coast, naval experts in London said the move was merely a feint to draw off American anti-submarine craft from European waters. They argued that it was impossible for Germany to maintain such long-distance operations. However, it is pointed out, both cruiser submarines and mine-layers are working far afield and worrying American shipping along the Atlantic coast.

The general tendency of the U boats now is to operate farther from the shore—at some points from 200 to 250 miles out.

HINDENBURG TALKS FOR THE AUSTRIANS

Amsterdam, Sept. 7.—The Neue Wiener Journal, of Vienna, quotes Von Hindenburg as saying in an interview: "The fact that the Austrian offensive on the Piave was carried out must not be taken too tragically. It certainly was not for a lack of courage, for the troops fought splendidly. The reason must be sought in the flooding of the Piave."

The field-marshal said he looked with confidence to Albania and Macedonia, while in Palestine the British had met with numerous bloody attacks in shaking the resistance of the Turks. He also referred to the British expeditions in Persia and on the Murman coast of Russia, and then said: "The decisive battle for the Central Powers, however, is taking place on the Western Front, where the Central Powers are standing shoulder to shoulder in a defensive battle."

"It is true we are suffering grievously from the war, but we shall emerge stronger from it. We shall return home after the glorious battle assured of peaceful labor, and then pluck the fruits of our fight. To this end the watchword is 'Persevere.' We may look serenely into the future."

DOMINION EXPRESS EMPLOYEES TO STRIKE IF BOARD REFUSED

Ottawa, Sept. 7.—Dissatisfied with their present working conditions and having been unable to obtain any satisfaction from the company, the employees of the Dominion Express Company throughout the Dominion have decided to go out on strike unless the Government grants them a conciliation board which has been asked for.

The date fixed for the strike is Tuesday next, and should it occur it will affect nearly 100 employees of the company in this district.

BOLSHEVIKI BITTER AGAINST BOURGEOISIE

Stockholm, Sept. 7.—American refugees from Moscow, who arrived at Haparanda, Sweden, Thursday, say that while the storm raged in Moscow and Petrograd against the bourgeoisie the Bolsheviki newspapers demanded the lives of 1,000 members of the bourgeoisie for every Bolsheviki killed. The Bolsheviki newspapers charge the British and French with attacks upon Premier Lenin and Moses Uritsky.

—Is imperative to-day! Canadian women have long ago learned the sane and practical reasons that underlie this call for "conservation," and they are doing their part loyally and well.

But if the thought of whole wheat bread has been put aside for the time, it has been happily demonstrated that a wise blending of substitute cereals with the approved war flour will result in wholesome, satisfying loaves.

GOVERNMENT OWNERSHIP URGED BY METHODISTS

Toronto, Sept. 7.—The building up of a new social order is the programme set before the Government and people of Canada by the Methodist Board of Social Service and Evangelism, which has just concluded its annual meeting here.

"Capitalism and its stimulus to great private profits should give place to efficiency," the report says.

"National and public utilities should be controlled by the Government for the general good. Such national utilities should include at least all the railways, canals, waterworks, coal mines and all means of communication.

"Excess war profits and luxuries should be taxed to the utmost. Methods of taxation should be devised to prevent the holding of lands and national resources for speculative purposes."

A special committee was appointed to consider the whole question of taxation.

MAKING OF BEER IN U. S. TO CEASE AFTER DECEMBER

Washington, Sept. 7.—Manufacture of beer in the United States will be prohibited after December next, as a war measure. BRITISH IN RUSSIA HELD BY BOLSHEVIKI

London, Sept. 7.—News of the grave situation of British residents in Russia reached London Friday and has caused great anxiety.

The Daily Express says that the entire British colony in Petrograd is under arrest, including Consul Woodhouse.

Matters at Moscow are still more alarming, according to the newspaper, which says the Bolsheviki there have acted in frenzied hostility toward the British and French residents. It adds that full details have not been received, but that enough is known to cause the worst fears.

The Government lacks news concerning the fate of certain officials.

DUNCAN TAG DAY.

The local branch of the I. O. O. F. to-day took up its first active work, holding a tag day under the auspices of the Navy League of Canada in aid of the sailors, both naval and merchant services and their dependents.

The Cowichan chapter also is quietly collecting this of tag to go to the soldiers at the front. Four cases will shortly be sent. This may be obtained from the secretary of the chapter, Mrs. F. Price, at the Red Cross shop.

PUTTING IN PHONE WILL COST MORE

Installation Charges in Seattle Increased by Postmaster-General—Effect on the Raise

Seattle, Sept. 4.—The Times says: Installation of a new telephone will hereafter cost Seattle residents and business men from \$10 to \$15 instead of \$3.50, according to a statement issued by Postmaster-General Burleson, in which a new schedule of service charges is outlined for the entire country.

A dispatch from Washington, D. C., quotes Burleson as saying the change is necessary for the conservation of labor and material and to eliminate a cost now borne by permanent users of the telephone.

Installation charge, says the statement, where the rate is \$2 a month or less will be \$5. Where the rate is more than \$2 but not exceeding \$4 a month, the charge will be \$10, and where the rate is more than \$4 a month, the charge will be \$15. The moving charge to the subscriber, says the statement, will be the actual cost of labor and material necessary for making the change.

Seattle has no telephone service at \$2 or less a month. The lowest rate at the present time is \$2.25 a month on a four-party residence telephone. The company makes a flat charge of \$3.50 for the installation of all the phones. This installation, it appears, will hereafter cost most Seattle subscribers \$10 instead of \$3.50.

The only monthly rates of more than \$4 at present are unlimited service telephones at \$7.50 per month—installation of which is now to cost \$15—and "limited service phones" at \$5 per month and 3 cents for each call over 100; also a limited service phone at \$5 a month not to exceed 150 calls, and 2 1/2 cents per call over 150. These will also be in the \$15 class as far as initial installation is concerned. No mention is made of any increase in monthly rates. Any change in rates must be approved by the postmaster-general.

BOLSHEVIKI-GERMAN TREATY RATIFIED

Amsterdam, Sept. 7.—The instruments of ratification of the Russo-German supplementary treaty were exchanged yesterday by the Bolshevik and German representatives, according to an official dispatch from Berlin.

A Fish Dish That Is Nice

It uses up cold fish in a way that really makes it as nice and tasty as fresh.

Make a sauce of 1/4 cup of butter, 2 1/2 tablespoons flour, 1 cup Pacific Milk, 1 cup of water.

Mash the yolks of four "hard boiled" eggs and mix in 1 teaspoon of anchovy sauce, add to flour, milk, etc., then add two cups of cold boiled and flaked fish.

As soon as heated serve on toast-brown bread.

Mrs. English gives us this recipe.

MRS. RALPH SMITH VISITING TORONTO

Toronto, Sept. 7.—Mrs. Ralph Smith, who has a seat in the British Columbia Legislature representing Vancouver City, arrived in Toronto to-day from New York and Washington.

Mrs. Smith asked that she be called a woman member of Parliament and not a lady member. She said "woman" was good enough for any female.

She earnestly hopes that after the next election in British Columbia she will have women colleagues with her in the Legislature, and also that the day is quite near when women will enter the House at Ottawa from every province.

No woman is ashamed to tell what her age was.

It's Better Than Home-made Bread

4-X VICTORY BREAD is better than home-made bread because every loaf is uniform in quality, light and perfectly baked with a rich, nut-like, well-browned crust.

4-X VICTORY BREAD has all the good points of home-made bread, and some that are distinctly its own. It's made fresh every day by our master bakers.

4-X VICTORY BREAD is better than home-made bread for the housewife, because it saves her long weary hours in the kitchen. Bread making is an art, and when Shelly's master bakers are employed to do it the housewife need no longer have the responsibility.

A constant stream of Shelly's 4-X Victory Bread leaves the bakery daily. Your grocer can supply you, or our driver passes your door every day.

MONDAY'S DEMONSTRATION.

On Monday Victoria will celebrate the opening of an era of marked industrial expansion with special relation to the shipbuilding industry. Prominent features of the occasion will be the commencement of the Foundation Company's contract for the construction of twenty ships, which, it is confidently expected, will be followed by a contract for twenty more, and the launching of a vessel in the new Cholberg yard. These auspicious circumstances will be attended with noteworthy ceremonies in which, we are sure, the public of Victoria will be more than pleased to do its part.

But while the demonstration will revolve chiefly around the shipbuilding programme, it will observe another development which will have a beneficial bearing upon the future of Victoria. This will be the inauguration of the track-laying on the Canadian Northern, which when completed will give Victoria additional railroad connection with the West Coast, and the Premier, befitting an occasion in the creation of which he has played a determining part, will drive the first spike.

Monday's demonstration will have a special significance new to commemorative events in this city. It should not really be regarded as a celebration; it should be viewed as an opportunity to dedicate the place to a policy of enterprise and progress, to the development and perpetuation of a buoyant community spirit. This is an aspect which concerns everybody with an interest in the city, and no element will be more pleased to hear of the new prospects of Victoria than the thousands of her sons who so nobly represent her at the fighting front.

Victoria should fly her flags on Monday, giving special prominence to the glorious Tricolor which will wave over the ships the Foundation Company will build, and to the ensigns of the two great English-speaking nations so happily combined in the development which is about to put the city solidly on her feet and help her to face the problems of the future with confidence.

NEARING THE LINE.

With the exception of the sector towards Cambrai where they have smashed the Queant switch, and in the Coucy forest southwest of Laon, the Allies have not yet arrived at the Hindenburg Line. East of Bapaume and Peronne they have reached points within six to twelve miles of the line. South of St. Quentin they are within three miles of it at Tergnier; between the Oise and the Aisne they are almost on it for a considerable part, and beyond it near the St. Gobain forest, west of Laon.

Where the front turns eastward beyond Soissons the Allies have occupied the positions north of the Aisne taken by them after the first battle of the Marne. Farther east the Americans are on the south of the Aisne but advancing towards the river. The Germans along the Aisne are still seven miles from the Chemin des Dames from which they expelled the French last May, and nine miles from the Ailette, from which their Aisne offensive was launched. Undoubtedly they will retreat to the Chemin des Dames, but whether they will be able to stay there will depend upon the extent to which General Mangin's army north of Soissons has outflanked this plateau.

Thus, with the exception of the two important flank positions, the enemy has been able to keep his front intact, giving ground without fighting at some places and offering a stiff rearguard resistance at others where he has to fight hard to get his guns away or where he thinks he can exact a heavy price from his pursuers. But he has had to pay dearly, himself, in making his get away, notably north of Soissons where, in order to be able to withdraw from the south of the Aisne, he has had to use numerous reserve divisions to prevent Mangin working to his rear.

Laon, as before, is protected on the west by the St. Gobain forest and on the south by the Chemin des Dames and the difficult country between that plateau and the Aisne. Last year the French, wisely refraining from trying to take the forest by frontal attack from the west, decided to drive to the Chemin des Dames from the south. Nivelle made the first attempt and succeeded in gaining only a part of the crest, although his objective was Laon. Subsequently, Petain, in several smashing attacks, captured the whole plateau and threw the Crown Prince's army into the valley of the Ailette beyond it and then the campaigning season came to an end. If the French had been able to advance northward from the Chemin des Dames ten miles they would have been at Laon on the south and the St. Gobain forest which protects it on the west would have been useless to them.

DIFFERENT THIS YEAR.

Retiring to the Hindenburg Line and holding it are two very different problems this time. In the first place the enemy is weaker than he was last year and the Allies are much stronger than they were then. Von Ludendorff last fall and winter withdrew the best fighting men from the German armies and organized and trained them as shock units for the big offensives this year with which he was certain he could win the war. His million or more gross casualties since March consist largely of this material.

Obviously, the standard of the German armies was materially lowered by this withdrawal of their elite and that reduction, of course, is much more than one of mere numbers, for it involves morale and general efficiency as well. If the five best players of a football team are taken off the loss to the team is much greater than a loss of five players. Thus, the other day, we found the enemy unable to hold the vital Queant-Drocourt switch positions, which were torn from him in twenty-four hours. Last spring he was able to keep the Allies from even getting in front of those positions.

On their part the Allies, with unity of command under a master strategist, better organization in every way, greater numbers, not to speak of the American army and the enormous moral stimulus it gives, superiority in the air which is becoming overwhelming, and vastly increased resources in other services, are infinitely more formidable than they were in 1917. Foch can take the Hindenburg Line when he wants it. But does he want it now? Will he prefer to have the enemy commit himself to a long front in Belgium and France while he launches a blow against the Rhine with the American army and picked troops from the Allies generally? And, if so, will the Germans, knowing this, remain on the Hindenburg Line?

What Foch intends will be revealed when the Allies reach the Hindenburg Line. As for the Germans, the declarations of the Kaiser and Ludendorff that German soil is menaced suggests that, although they may try to hold the Hindenburg Line for a while, after public opinion at home has been sufficiently prepared and other arrangements completed they expect to retire at least to the Meuse, probably under cover of inclement weather.

WILL MOBILIZE HERE.

The announcement that the Canadian Expeditionary force to be sent to Siberia is to be mobilized at Victoria, while not surprising, is none the less gratifying. It was scarcely conceivable that the authorities would select any other locality in view of the manifest advantages offered by the Island as a place of training and point of departure for troops destined to cross the Pacific. It may be assumed that considerably more than a brigade will be mobilized here, for the original arrangement was that troops of other nationalities would participate in the Siberian expedition besides units from Great Britain, France and Italy are almost sure to be represented and at one time it was stated that Serbia and Belgium also would send representatives. The European contingents, while comparatively small in any case, should be sufficient to give the expedition a full international aspect. Furthermore, as it will be necessary to send reinforcements from time to time a base probably will be maintained here for many months. Victoria will be a very cosmopolitan military community during the next few months.

"HEAR, HEAR," SAYS GERMANY.

J. P. Thomas, Labor member of Parliament for Derby introduced a resolution at the British Trades Union Congress urging the Government to begin peace negotiations as soon as the enemy, whether voluntarily or by compulsion, evacuates France and Belgium, and reaffirmed belief in the principles of the internationale as the safest guarantees for the world's peace.

Germany will vote for this with hands and feet. It is just what she is about to propose. All she wants is Poland, Courland, Estonia, Lithuania, the Ukraine, military domination over Russia, Austro-Hungary and the Balkans so as to prepare for "the next war."

The resolution invoked the principles of the "internationale." Great thing, is "internationale." We heard a lot of it a few weeks before the war, about the time of the International Socialist Congress in Brussels, inspired largely by Scheidemann, Haase and other German "internationalists" to lull the suspicions of the proletariat of the Entente countries.

We remember how furiously at that convention the German delegates denounced competition in armaments and the resolution they introduced, on the subject of neutrality. And we recall, also, the impressive phrases in which those same delegates declared that there could not be a great war because the proletariat of all the nations simply would refuse to fight, the German proletariat leading the way. Three weeks later some of those perfervid "internationalists" were goose-stepping through the ruins of murdered Louvain.

See how the principles of the internationale have helped Russia! The German Socialist leaders assured their innocent Russian brethren that if they would overthrow the Kerensky Government and demobilize the Russian army the German proletariat would rise and do the same. The Russians did it, and the German army marched into their country, while Scheidemann and the German Socialists almost split their sides laughing.

Finally, we note that the Thomas resolution would callously abandon the Russian internationalists to the Prussian conqueror, for it provides for the negotiation of peace immediately Germany evacuates France and Belgium, and makes no reference to Russia. Surely that is not in accordance with the "principles of the internationale."

TERGNIER, WEST OF LA FERE, IN HANDS OF FRENCH NOW AND HAIG'S MEN GAIN SOUTHWEST OF CAMBRAI

(Continued from page 1.)

Marshal Haig crossed the Nurlu-Fins road. In the Lys salient the British north of Erguinghem are pushing toward the western bank of the River Lys. British troops have advanced north of Hill 65 to Le Rossignol.

British troops are well to the east of Pancourt and are more than nine miles to the east of the River Somme. Along the Cologne River, Tincourt has been reached.

The Line.

London, Sept. 7.—A dispatch received here from France this forenoon said the British line, starting at Havrincourt West, of which the British occupy practically one-half, ran through Metz-en-Couture and Fins, then by Liermont, Longuevesnes, Tincourt-Boucy, Pancourt and Terty to Lanchy, where it joined the French line.

The French line ran as follows: Augigny, Dury, Oisey, south of Frieres-Faillionel, Tergnier, then west of Amigny, through Petit Barisis, Bas-soles-Aulers, which the French also have captured, then to the west of Mont-des-Singes, the Laffaux Mill and west of Nancy to Celles on the Aisne, where the line joined the old front.

Aisne Region.

With the American Army on the Aisne, Sept. 7, morning—Additional forces and supplies were brought up by the Americans and the French during the night, and early to-day Franco-American line was again advanced. The Allied artillery of both heavy and small calibre guns is being used to tear holes in the enemy lines.

The new forces were brought up along the Aisne to the west of Fismette, where the Germans are entrenched along the canal parallel to the river. The big guns behind the Franco-American line were set in play upon formations far to the rear, while every crossing was subjected to a punishing fire.

Enemy Falls Back.

With the American Army in Aisne, Sept. 7, noon.—The Germans fell back a short distance early to-day, before the pressure of the French and Americans to the east of Reville, at about the centre of the line between Conde and Rheims.

German Statement.

Berlin, Sept. 7.—On the heights northeast of Fismes, in the Vesle River region, German troops yesterday repulsed attacks by American and British forces. The official statement issued to-day by the German army headquarters.

On the Somme and Oise Rivers the enemy followed the Germans retiring by way of Ham and Chauny and then crossed the Aisne and French fighting German rearguards on the line of Aubigny-Villequier Amont.

On the Aisne River to the east of Vailly, the statement says, the Germans are in fighting contact with the enemy.

NEARLY ALL GROUND WON BACK BY FOCH

Big German Stroke Launched in March Now Virtually Cancelled

London, Sept. 7.—As a whole, through the campaign in France inaugurated by Marshal Foch on July 18, and in particular through the Franco-British drive during August, the German stroke of March 21 now has been virtually cancelled. The Germans have been pushed from all the territory they conquered by the great offensive they opened on that date except for a narrow strip between La Fere and Cambrai.

Along his old line the enemy is facing an Allied force that is under a unified command and that instead of a somewhat anxiously awaiting a powerful German stroke, is on the aggressive and powerfully reinforced by the imposing mass of American forces that has been transported to France since the early spring.

\$250,000 SUIT FOR BREACH OF PROMISE

San Francisco, Sept. 7.—A suit for \$250,000 damages for breach of promise was filed here yesterday by Mrs. Olga Olsen, against her former husband, Fritz Olsen, of San Francisco, president of the Norway Pacific Steamship Lines.

The couple were married in London in December, 1912. They were divorced in Norway in August, 1916.

Subsequent correspondence between the couple regarding the welfare of their child, according to the complaint, eventually led to a proposal by Olsen that they remarry. This alleged promise, the complaint recites, was not kept.

LETTER TO THE EDITOR

DANGEROUS.

To the Editor.—I would like, through your columns, to draw the attention of the beach-going public, the majority of whom take children with them, to the fact that at Cordova Bay there exists a very dangerous shifting sand. It does not cover a great area, probably only a few feet square at present, but I was informed that it was constantly getting larger. The reason for my writing you is this: While at Cordova Bay last Sunday with my wife and two children, my attention was drawn to the spot I refer to, and my horror I say my eldest boy, aged three and a half years, had been enveloped in this sand right up to his neck, and if it had not been for my quick action I would have lost him. A few minutes later while I was at the water's edge washing him free of the slime, a soldier had stepped in the same place and went in to this waist, and it was with great difficulty he was released. Now, I think something should be done in this matter, and sincerely hope the authorities will attend to it, as it is a

THE POLICE FORCE.

To the Editor.—The recent demands by local policemen for more money and the strike for a like object by the London force, bring conspicuously into the public eye that particular branch of civic administration. And the query arises, "Do we get our money's worth?"

Crime appears to be very scarce hereabouts. We seldom hear of a robbery; holdups are unknown and banks are never bothered nowadays, except with legitimate withdrawals. In the heyday of the circus and the faker, when Victoria was an "open" town, when the saloon thrived and the old "black-jack" plants prepared an extensive organization for the prevention of crime and the apprehension of criminals was one of our chief needs. The glib and the innocent had to be protected; the elusive sleight-of-hand operator had to be kept in check; the wealth of our community had to be watched; the intoxicated had to be cared for. But now, since these industries and occupations have passed into the discard, gone out and are fast being forgotten, we should surely be able to affect some considerable saving in the matter of hired protection.

Our need for police cannot be so great as it was, yet the force has never been thinned out. At least sufficient elimination might be inaugurated to cover the additional expenditure occasioned by the increased wages demanded, thereby making the force a trifling loss in personnel but holding the pay-roll down to what it has been.

The "Factor of Safety"

WHEN an engineer designs a bridge he provides not alone for the exact stresses and strains the structure is expected to carry. He makes certain that unforeseen loads will be taken care of by providing extra strength. This is called the "factor of safety."

Financial institutions provide the "factor of safety" by means of surplus funds. The Mutual Life of Canada has assets of \$32,165,432 and included in the assets is a magnificent surplus. That surplus is the factor of safety—the amount held against unexpected stress and strain.

The Mutual Life bridge is the net government reserve plus the factor of safety, which in the case of this company amounts to millions of dollars.

There are more than 50,000 Canadian homes whose security, should death remove the head of the household, is dependent upon the solidity of the Mutual Life of Canada, yet there is no shadow of a doubt but that every guarantee of the company will be more than fulfilled because of the factor of safety. Well has it been said that—

"There is nothing in the commercial world which approaches even remotely the security of a well-established life insurance office."
 When selecting a company look for its "factor of safety."

A BEDTIME STORY

UNCLE WIGGLY AND BULLY NO-TAIL

Copyright, 1918, by McClure Newspaper Syndicate. (By Howard R. Garis.)

Uncle Wiggly Longears, the bunny rabbit gentleman, hopped out of his hollow stump bungalow down at the seashore beach, where he was spending his vacation, and started toward the ocean.

"Are you going to take a swim?" asked Nurse Jane Fussy Wuzzy, his maid and lady housekeeper.

"No, not this morning," answered the bunny rabbit. "I'm just going to watch the waves wash the sands of the beach, making them so clean and white."

"Well, be careful of the skuddlemagoon doesn't nip your ears or your pink twinkling nose," said Nurse Jane, as she went in to make a seaweed pie.

"I'll be careful," Uncle Wiggly said, with a laugh.

Down on the beach the old rabbit gentleman sat on the sands and watched the waves. He was thinking that it was about time for him to have an adventure, though of course he wanted a nice one, when, all of a sudden, he heard a funny noise behind him.

It went something like:

"Jer-um! Jer-um! Umph! Boom! Jer-um!"

"My goodness me sakes alive and some stewed prunes!" cried Uncle Wiggly. "I wonder if that can be the skuddlemagoon?"

He looked around carefully, but all he saw was a big green frog boy, dressed in a rubber suit so it wouldn't be spoiled if he went in the water, which frogs so often do.

"Hello, Uncle Wiggly!" cried the frog boy.

"Well, I do declare! If it isn't Bully Notail, my little frog friend, from the Orange Woodland Mountains," cried the bunny. "How did you get down here?"

"I hopped," answered Bully, who, having no tail, was called that for his last name.

"You hopped all the way down here?" asked Uncle Wiggly, in surprise. "Wasn't it very far?"

"Oh, not so very," answered Bully. "You see my brother Bawly came with me. We swam and hopped, and as he swam and hopped half the way, it was only half as far for me, as if I'd come alone."

"Of course!" laughed Uncle Wiggly, and he made his pink nose sparkle like an apple pie lollypop, he was so glad.

"But where is Bawly now?" asked Uncle Wiggly.

"Oh, he's playing tag with Jimmie Wibblewobble the duck," answered Bully. "I came down here to see you."

"Let's have a game of ball," said Bully Notail, the frog boy. "I have a rubber one here, and it will bounce just fine on the sand. And if you want to, you can fill the ball with water and squirt it at me."

"Well, I won't do that now, as I haven't a bathing suit on," laughed the bunny. "We'll just play bouncing ball."

So, Uncle Wiggly and Bully Notail, the frog boy, played ball on the nice sandy seashore beach, bouncing the

rubber up and down as fast as anything.

All of a sudden, as they were having lots of fun, out of the ocean popped a funny animal. It was like a fish, but it had the tail and paws of a monkey and it cried:

"I'm the bad old skuddlemagoon, and I haven't come a bit too soon!"

"Too soon for what?" asked Uncle Wiggly.

"I haven't come a bit too soon to grab you!" cried the skuddlemagoon. "Here's where I take you!"

"Oh, please don't!" begged Uncle Wiggly.

"Yes, I shall!" gurgled the skuddlemagoon. With that he caught the bunny rabbit gentleman in his monkey claws, and, with his tail about Mr. Longears, jumped with him into the sea.

"Oh, save me! Save me!" cried the bunny.

"There is no one here to save you!" sneered the skuddlemagoon. "There is no one here who can swim under water as I can, and you can't yourself, Uncle Wiggly. The water will stop up your nose so you can't breathe. I'll soon finish you!"

"Oh, you will, eh? Well, well, we'll see about that!" cried Bully the frog. "I can breathe under water as well as you."

Then Bully sprang into the ocean to save Uncle Wiggly. The bad skuddlemagoon pulled the bunny under water and Uncle Wiggly couldn't breathe. He was fast choking when Bully suddenly swam up to him.

"Here, Uncle Wiggly," said the brave frog boy, "breathe some air from this rubber ball. I filled it full of air before I jumped in." And Bully held the rubber ball close to Uncle Wiggly's pink twinkling nose, and squeezed out some air for the bunny. Mr. Longears breathed, and then the frog boy tickled the skuddlemagoon hard that the bad chap had to giggle, and then he let go of Uncle Wiggly.

"Quick now! We'll swim to the top!" croaked Bully, and he and Uncle Wiggly did the rubber breathing air from the rubber ball until he was safe on shore. And so he was saved again, you see. Aren't you glad?

And if the lemon pie doesn't poke sour faces at the orange shortcake, and make it stretch out long like an eel, I'll tell you next about Uncle Wiggly and Bawly Notail.

A PARDONABLE ERROR.

The millionaire, whose wife had recently died, walked through the general office to his private room. While so doing, something caught his eye, and he called the manager.

"Wilson, I am very glad to see you sympathize with me in my recent loss by decorating the office with a little crepe," he said, pointing in the direction of a black piece of cloth hanging on the wall.

The manager looked dumfounded. "Crepe, sir! Crepe! That's not crepe; it's the office boy's towel." Ideas.

The number of families receiving grants at July 31, 1918, were 8,318 children, a total of 16,235 individuals.

CAMOSUN CHAPTER, I.O.O.F.

Generous Contributions of Jam Promised by Members at Recent Regular Meeting.

Promises of donations of 107 pounds of jam for the men in the trenches, in addition to the Chapter's cash donations to the Jam Fund, were made by several members of the Camosun Chapter, I. O. O. F., at the monthly meeting on Wednesday, Sept. 4. The present president, at the meeting and fifteen members were present.

The correspondence included a request from the Red Cross Society that the chapter continue its support to a general fund for the Prisoners of War instead of the "adoption system" hitherto in vogue, and the members decided to accede to the request. The members have decided not to contribute to the Local Council's "Book of Records."

Miss Fell reported that 154 pairs of socks had been handed in for July to field comforts and donations were received from Mrs. Luxton, Mrs. J. A. Turner, Mrs. Burroughs, Mrs. J. E. Wilson, Mrs. Andrew Wright, Mrs. J. A. Macdonald, Mrs. Colthorn, Miss Fell and Miss Leitch.

The new flag-staffs were much admired and to augment the Chapter's funds, Miss Agnew has offered to

Women's Coats for Autumn Wear

Handsome Models of Widely Accepted Vogue

ORIGINAL as they are in design and trimming, their real object—that of protection—has not been overlooked in any detail. Probably the most noticeable innovation in the New Coats is the somewhat narrower skirt; belts and convertible collars continuing in unabated popularity. Warm, soft pile fabrics have first rank; the most interesting of these being of velours in various weaves.

A glance through our new stocks, which is very representative of the correct autumn modes, would suggest that warm tones of brown, taupe and burgundy to be the most popular colors.

Collars of furs are perceived on a large number of these models.

A Coat of unusual smartness and distinctive appearance is made of brown velour of exceptional quality. It has a large novelty collar and cuffs trimmed with opossum fur, and tubing of velour hand-stitched in a pleasing design round the bottom edge. It is fully lined with a splendid satin.

A Coat of velour in taupe shade. It has a large collar and cuffs of Mouflon fur, a smartly pleated back, vertical pockets, and a belt that is trimmed with silk stitching.

Trench colored wool velour is here made up into a handsome novelty Coat. It features a fancy belt, large diagonal pockets, a round convertible collar, turned-back cuffs and two box pleats at the back.

Wool velour in an African brow shade is utilized in the making up of this beautiful Coat, its principle features being a large collar of Western sable, fancy belt and pockets and pleated back. It is further enhanced by neat pintucks.

MUSIC IN THE HOME

The Clear Call for MUSIC

Music is to-day closer to the heart of our nation than ever before in its history.

One of the Generals of the Allied armies says: "Music in battle is not an innovation. From time immemorial bands have cheered the soldier as he closed with the enemy. In civilian life, music promotes equanimity of mind, which is a basis of confidence in the ultimate triumph of our struggles. In the army, music promotes morale—that great indefinable spirit which holds an army together and animates it with a single idea of victory."

We need music in our armies to stimulate and infuse the spirit of victory. We need

Music in the Home

to keep our spirits high and our confidence at the pitch it should be while our men are at the front fighting the meanest nation on earth.

The possession of a New Edison in the home will give you the real music necessary to give you comfort and pleasure and inspire you with confidence in the success of our men.

OLD VIOLINS

Labels Are Not Regarded as Guide to Age.

From one-half to two-thirds of the questions addressed to the enquirers' columns of the various music journals' violin departments are regarding the question of old violins and the labels inside them. Speaking generally, the label has no value other than to indicate the model after which it is patterned. An expert judge looks at a fiddle and the last thing he glances at is the label. There does not seem to be any country where there is a law against the placing of counterfeit labels, for perhaps this very reason that they are not intended to deceive people by posing as the genuine originals.

Genuine Cremona fiddles are extremely scarce and the average violin

dealer or player sees very few in the course of his life. It has been estimated that there are at the very least over a million imitations of the old Cremona models. Some of the imitations are quite old, for makers of fiddles began to imitate the old masters as soon as the latter's superiority became known. Other imitations are so new the varnish is only nicely hardened, so to speak. Some are good copies. Some are crude. London, England, is the greatest old violin market in the world. There the greatest number of competent judges reside.

NEW NATIONAL HYMN

Composed by Gena Branscombe; Recently Sung in Calgary for First Time.

"God of the Nations," a new national hymn by Gena Branscombe, a composer of whom Canada is proud, was sung for the first time in Calgary at the Hotel Palliser recently. Mrs. Blake Mahoney and Horace Reynolds, taking the soprano and baritone solos and the choral part being rendered by a picked chorus of sixteen voices, under the direction of Mrs. Glen Broder.

The words were written by Mrs. Sara Branscombe, mother of the composer, who is a well-known member of the Canadian Women's Press Club and lives at Picton, Ontario. They commence as follows:

"God of the nations, make us know Thy vast dominion still, Thy kingdoms' boasted strength will show And mock Thy sovereign will. But when war's trumpet and battle cry Thy helpless people plead Hear Thou, that out of wrath be born A world from terror freed."

A recent composition of Miss Branscombe's, which obtained a large measure of popularity was entitled "Son o' Mine."

LOCAL ARTISTS WILL ASSIST AT RECITAL

Leslie Grossmith to Appear at Pantages in Aid of Veterans

Leslie Grossmith, who is to appear at Pantages Theatre on Monday and Tuesday, September 16 and 17, under the auspices of the Army and Navy Veterans, is a member of the famous English family of Grossmiths, of whom George and Weedon are well-known Old Country players.

Mr. Grossmith, who was born in Birmingham, England, has toured throughout the English-speaking world and achieved considerable success with his recitals. He is a talented pianist and in addition has many compositions to his credit, while his musical monologues have proved exceedingly popular.

Assisting at his recital on Monday evening will be Mrs. Harry Pooley and Sgt. Merryweather, who will contribute vocal selections, while on Tuesday Mrs. Macdonald Fahey and Edmund Petch have kindly consented to sing. Sgt. Will Edmunds will also render instrumental solos at each performance.

COMMUNITY SINGING COMES TO PANTAGES

Miss Winnifred Evans Scores a Big Hit With Novel Turn

Community singing was launched at Pantages Theatre this week and the measure of its success has proved that the idea has become popular with the people of Victoria. Miss Winnifred Evans, of Toronto, who inaugurated the fashion at this theatre, is an ardent apostle of the movement, and has done all in her power to further community singing in each of the cities in her tour of the west. Her invariable custom is to explain the motive underlying the idea—that of creating a mutual feeling of good fellowship—and then appeal to her audience to join in the various choruses, the words of which are thrown upon the screen.

Somewhat diffident through lack of knowledge of the tune of "Over There," the first number at Pantages this week, the audience failed to create much volume of sound, but warmed up appreciably for the chorus of "The Long, Long Trail," which went with a fine swing. The third number, "The Glory of Our Grand Old Flag," is a recent publication and the singing of this suffered somewhat in consequence of its unfamiliarity to the audience.

Miss Evans has an attractive personality and quickly imparts her enthusiasm to her audience. Throughout her trip she has taken every opportunity to help the Red Cross. While in Vancouver during the recent fair she raised much money for patriotic causes by selling copies of music, which she first sang.

CHILDREN AND MUSIC.

A notable pianist and teacher of music when asked at what age children should begin their musical studies said: "Children can never start too early; they do not listen to music with their ears, but with their soul. But everything depends on physical development. If that is satisfactory, it is not too late to let them begin under five years of age and then you must try them individually, and find in what direction their inclinations lie. I have some pupils whom I do not compare to practice half an hour a day; they take lessons only a kind of kindergarten form. In some cases it takes me a term before I get an adequate insight into a student's temperament. Only recently I had an interesting experience. I had nine children between the ages of six and nine years play before me. They played according to their choice, and then criticized the players. I asked them to pick out which piece they regarded as 'excellent,' and they did so without the slightest trouble—and their judgment was absolutely sound."

New Songs Published—Some charming songs, which probably will be frequently heard on the concert platform, and will be in great demand among teachers during the coming season are: "There are Fairies at the Bottom of Our Garden," and "Good Morning, Brother Sunshine," by Liza Lehmann; "All I Ask of Life," and "In Her Old-Fashioned Way," by Guy Dirdot; "Homing," by Teresa del Riego; "Roses of Picardy" and "It Is Only a Tiny Garden," by Haydn Wood; "Our Little Hope," by Eric Coates; "Because of You," by S. Liddle; "A Prayer at Dawn," by Arthur Baynon; "Be Brave and Smile," by Harry S. Pepper; and "The String of Pearls," by H. Lyall Phillips.

PROGRAMME FOR MONDAY'S "SING"

Miss Eva Hart to Contribute Solo; Foundation Band Will Assist

One of the leading features of Monday's celebrations will be the community sing to be held at the Parliament Buildings in the evening commencing at 7:30. Considerable interest will be added to the occasion by the appearance of the newly organized band of the Foundation Company, which has for its bandmaster Professor Lou Turner, and comprises some of the best amateur talent of the city. The band will contribute selections and will also accompany several of the community numbers.

Miss Eva Hart, James Hunter and J. H. Mitchell have kindly consented to contribute vocal solos.

The complete programme will be as follows:

1. March..... Foundation Band Bandmaster Lou Turner.
2. O. Canada..... Silver Birds, Le Thiere W. R. Davies.
3. (a) Joan of Arc.....
- (b) The Long, Long Trail.....
4. Vocal Solo—Waltz Song..... God Save the King, Mrs. German Eva Hart.
5. Overture, Christian Soldiers.....
6. Rule Britannia.....
7. Old Black Joe.....
8. Chery Song.....
9. Solo by J. H. Mitchell.....
10. Sing, Sing, Why Should We Sing? Solo by James Hunter.....
11. Auld Lang Syne.....

As with the previous community sings, Frank J. Sehl will conduct, and everyone will be expected to join heartily in the choruses.

GODOWSKY SAYS GOOD PIANOS ARE ESSENTIAL

Children Should Be Given Best Opportunities for Learning

When Leopold Godowsky speaks on a practical subject he has the ear of the whole country for when he switches off from the technical to the practical piano study he is intensely, bluntly and definitely practical. On a recent occasion he diverged briefly from itemizing how a good teacher should proceed with the child, to say: "Any piano is better than none, and old pianos and second hand pianos have their places, but their place is not under a beginner's fingers. Maybe it is economical for children to learn to ride a bicycle on a second hand bicycle, but it is not economical to teach a child to play the piano on a worn-out instrument. Children will not injure the best piano, if it is properly cared for, and they cannot learn best on any other."

Sense of Tone.

"The first thing that must be cultivated in a child is its ear, its sense of tone. It must drink in to the full the beauties of tone and must learn to distinguish one from another. It must know and feel the difference in the smallest gradations of tone. It should develop a sense of absolute and relative pitch."

To train a child on a piano the tone of which has become dull and dead and which is always sliding out of tune is a serious error. To train the child's ear and sense of beauty a piano of excellent tone should be obtained, and it should be kept always absolutely in tune. This means tuning probably every three months. That is not extravagant. It is as good an investment as the piano itself, for it will double the life of your instrument."

THE GLUE FACTORY.

A glue factory stands near a certain railway. Its chimneys are not for the nose, and therefore a lady often carried with her a bottle of lavender salts. One morning an old farmer took the seat beside her. As the train neared the factory, the lady opened her bottle of salts. Soon the whole car was filled with the horrible odor. The farmer put up with it as long as he could, then shouted: "Would you mind putting the cork in that 'ere bottle?"—New York Tribune.

His Early Days.

The work of the missionary escaped with his life and how the savages became converts and were active assistants of Mr. Duncan in evangelizing their countrymen reads like a romance.

In the course of time Mr. Duncan found it necessary to remove his converts from debasing surroundings and he selected Metlakatla, about twenty miles away, and a good farming and fishing centre. Fifty went over in six canoes. Within a week three hundred more came. The conditions were, giving up devil worship, keeping the Sabbath and abstaining from fire water. A school was built, with houses for the people, and a church, which at the time was the largest church north of San Francisco.

These were halcyon days. A saw-mill was erected and salmon cannery, a co-operative store and other establishments, and the work prospered. Mr. Duncan was never ordained to the ministry, but taught and preached. It was a model community and the work of the Lord prospered and many missionary natives went to the surrounding country teaching and preaching the Gospel.

In this world ye shall have tribulation" of the word of the Apostle, and, after twenty years, troubles began. The Hudson's Bay Company did not like interference with their trade. Lord Dufferin visited the mission in 1874, and in his speech in Victoria said: "I have visited Mr. Duncan's wonder-

HOME MUSIC BASIS OF COMMUNITY MUSIC

Dr. Thomas Tapper Says Home Playing is Prelude to Community Singing

Music, like charity, should begin at home, and home music in turn is the foundation of community music. This is the conclusion reached by Dr. Thomas Tapper, music lecturer and editor, after a careful study of family and community music, with their possibilities and limitations.

Awakening the Crowd.

He believes that only so much of community music can be called real as involves active participation by the community residents in the production of music. Mere listening to a chorus or orchestra, no matter how well backed financially by the local people, cannot come under that head. "The community music is always beneficial, awakening as it does, great masses of people to their artistic possibilities, their power to give pleasure to others, and the joy of learning how to express themselves better and better."

"Let the community chorus often tend to become institutional, hide-bound and unprogressive. The community orchestra all too frequently becomes a static in musical life. The reason is," says Dr. Tapper, "that these organizations are not able to rely sufficiently on an ever renewing crop of young enthusiasts with tastes and talents already developed at home."

Music At Home.

"Home is the place," he emphasizes, "where individual skill is attained and where the power is acquired by singers and players for taking effective part in a community chorus or a community orchestra."

The stream of community music, therefore, can flow steady and strong and 'get somewhere' only when constantly fed by innumerable tributaries of family music."

WM. DUNCAN OF METLAKATLA

By a Duncan Contributor.

Last week there passed away one of the most successful missionaries. We read of the work of the Jesuits among the Indians in the early days of Eastern Canada's settlement by the French, of the hardships they underwent, of their self-sacrificing spirit; but if all the facts were brought forward the labor and self-sacrifice of William Duncan are not surpassed by any of the early Fathers in our country.

His work among the natives was something like that of Mackay, of Uganda, teaching Christianity and industrial work. Unfortunately Mackay was cut off before his work was finished. Stanley, in his "Through the Dark Continent," writes: "The British philanthropists should endeavor to impress themselves with the undeniable fact that man, white, yellow, red or black, has also material needs which must be understood and supplied. It is not the mere preacher that is wanted. The bishops of Great Britain with all the classic youth of Oxford and Cambridge would effect nothing by mere talk. It is the practical Christian tutor who can teach people how to become Christians, cure their diseases, construct their dwellings, understand and empty agriculture, and turn his hand to anything like a sailor."

Such was Mr. Duncan, born in Yorkshire, England, in 1831. In early life, filled with the missionary spirit of his father, he came to Canada with Captain Prevost in H.M.S. Satellite, leaving London in 1856 and reaching Esquimaux in May, 1857. In the northern country life among the Indians was not too safe, and Mr. Duncan was strongly urged by Governor Douglas to desist from the folly of going among the savages of the North Pacific. "It will be throwing your life away," he said, "and none know the Indians better than Sir James, who spent many years of his life among them from the Red River to the Pacific. It was engraved on the tombstone of John Knox that he never feared the face of man. The same could have been placed on Sir James Douglas's monument."

His Early Days.

Mr. Duncan reached Port Simpson in due time and lived within the Hudson's Bay Company's fort until he had learned the Tsimpsian language. Round this fort were armed sentinels night and day, and only a few of the natives were allowed to enter at the same time.

When Mr. Duncan had mastered the language a school was opened and the work seemed prosperous until the jealousy of the medicine men was aroused. The work of the missionary escaped with his life and how the savages became converts and were active assistants of Mr. Duncan in evangelizing their countrymen reads like a romance.

In the course of time Mr. Duncan found it necessary to remove his converts from debasing surroundings and he selected Metlakatla, about twenty miles away, and a good farming and fishing centre. Fifty went over in six canoes. Within a week three hundred more came. The conditions were, giving up devil worship, keeping the Sabbath and abstaining from fire water. ful settlement and the Methodist mission at Port Simpson and have thus been enabled to realize what scenes of primitive peace and innocence, of idyllic beauty and material comfort can be presented by the stalwart men and comely maidens of an Indian community under the wise administration of a judicious and devoted Christian missionary. In a work, "Stranger Than Fiction," a writer says: "Mr. Duncan's work presents a series of incidents without parallel in the missionary annals of the church. The foundation on which this wonderful superstructure was raised was Jesus Christ, the chief cornerstone." After an absence of twenty-five years Admiral Prevost visited Metlakatla and seeing the transformation from cannibalism, could only exclaim "What God hath wrought! It is His doing and marvellous in our eyes."

Refused Orders.

I have said tribulation came. A change came on the appointment of a new secretary of the Church Missionary Society, and Mr. Duncan refused to take holy orders, saying his work among the Indians was to save sinners not to teach dogma. The mission was visited by the late Bishop Cridge and others. In 1879 Bishop Ridley was sent north. In his diocese was the mission. Mr. Duncan declined to have any ritual. I quote from Howay's History of B. C.: "The little community was rent in twain in the dispute between the bishop and Mr. Duncan. The former levelled at the head of the latter all manner of charges, into the details of which we cannot go, further than to say that the Christian charity which he was supposed to show forth to the world was painfully lacking in his conduct, for in every case there was a plain explanation in the missionary's favor, and even if there had not been, his zeal in the cause and his years of faithful service should have been remembered. From religious questions the dispute passed to worldly affairs relating to the varied industries and interests at Metlakatla." It all ended in the transfer of the Indians and Mr. Duncan to New Metlakatla in 1886, on Annette Island, opposite Ketchikan, Alaska, where Mr. Duncan died.

MUCH LOCAL FRUIT ON RETAIL MARKET

Housekeepers Are Jamming Now, While Fruit is Plentiful

The anticipated rise in the price of beef did not materialize on the local retail market this week; though the butchers claim that this is the first occasion on which their prophecies, especially with regard to an advance in the price of meat, have failed. Housewives, facing the eternal high cost of living, will rejoice that the predictions of the butchers are not infallible, and that there is now no indication of a rise in price in the immediate future.

In the fish-department prices remain steady and lately there has been an abundant supply of ocean fish. Small fish are more in evidence now, though salmon is still plentiful.

Feed prices remain unaltered, while little change is experienced in the prices of groceries. Local fruit is now at its best, pears, plums and peaches being supplied by the local growers in large quantities. Householders are making jam while the fruit lasts, and sugar is being purchased for preserving purposes. The small fruits, except for blackberries, are rapidly disappearing, but honey dew melons from California have made their appearance. The price of new potatoes has decreased, and sweet potatoes are now for sale, while green corn is much in evidence.

ORDER REVERSED.

That the war has reversed the order of many things is a fact that must particularly impress the American soldiers in Italy who are now, according to the dispatches, laying railroad tracks that country. And it cannot be wholly lacking in humor to the Italians who formerly labored in America and are now in the ranks at home and, perhaps, looking on—Christian Science Monitor.

Child Delinquency Is Cause of Alarm

By W. F. P.

The serious question of juvenile delinquency is one that is confronting the nations of the world to-day. It is causing no little concern as to how matters are to be improved, and what the results will be if something is not done at once to curb the natural instinct of the young to run riot when the restraining influence of the parent is not felt.

It is true that social service and church organizations have realized the danger, and have united their forces in the common cause. Though the work carried on by them is worthy of praise, the magnitude of the field to be covered is so great that comparatively no impression has yet been made on the Education arising out of wilful juvenile obstinacy.

In all European countries the increase in juvenile delinquency has gained at an alarming rate since the advent of the war. Official reports show that in England during the first year of hostilities the number of children under sixteen years of age arrested for larceny increased by more than fifty per cent.

Affects Victoria.

Similar increases were shown in charges of assault, gambling, and offences against the Education Act. It is not necessary to go as far as England to find the same condition of affairs, and there is no exact means of judging on what relative scale they exist in Canada, in British Columbia, and right here in Victoria.

It is not hard to explain the reason for this state of affairs, so far as European countries are concerned. Fathers have gone to the front to fight the nations' battles, and the demoralized workers of all kinds has made big inroads into the homes, where mothers and daughters have been called upon to take their place in the factory, thus reducing the power of parental and disciplinary discipline. Here exist the same conditions as regards the fathers and elder male relatives going to the war, but society is not confronted with the condition resulting from mothers and elder sisters having to enter the munition factories—perhaps the situation might be improved in some instances if such circumstance arose.

Apparent Apathy.

Whatever the excuse, there seems to be a particularly marked apathy toward a question the seriousness of which is scarcely recognized yet, whether through a feeling of individual helplessness, or a repugnance to the thought of bringing matters pertaining to intimate home affairs into the limelight. So it is left to drift with the fustian and jetsam of public movement.

European countries realize that it is beyond the possibility of individual effort to deal with such matters, and extensive investigations have been set afoot by the various governments effectively to repair the damage that is being done.

Violation of Law.

The United States, throughout which country, especially in the larger cities, violations of law and discipline by boys and girls under sixteen are daily growing more common, is conscious of the fact that the most immediate measures of prevention are taken, the growth of juvenile delinquency may, as the war goes on, parallel the proportions it has attained in Great Britain, France, Russia and the Central Empire. The Children's Bureau of the Department of Labor is making an intelligent study of conditions in all countries, and the first report has already reached President Wilson.

While Canada has every advantage over the European countries from the standpoint of the intricacy of the situation to be dealt with and the facilities for doing comparatively nothing have been done toward alleviating a condition of affairs which is causing deep concern to all self-respecting parents, and most who realize the responsibility placed upon them.

The Spectre.

It is not necessary to impress upon the minds of thinking people the fact that if something forceful and effective is not done to destroy the spectre, which is haunting the minds of the parents of the most tender branches of our race the future nation will totter under irresponsible men and women.

If there are any so unobscrant as to imagine that the spectre of this beautiful land, and its people as it to have noticed what is going on, is full time that they were awakened to the full realization of their responsibility as good citizens and British subjects.

Help the Mothers.

There is a charge to keep—to maintain the house in order while the brave defenders of homes are keeping the enemy at bay at a safe distance from the trenches. The mothers who have been left with the full responsibility of keeping the home clean and honorable should be enabled, by legislation and the watchfulness, diplomacy and kindly care of fellow British subjects, who privilege it has been to remain behind, to perform, with every possible facility, the heavy duties devolving upon them.

Great Britain, France and Russia have been amazed and startled by the extent and variety of juvenile delinquency, and stringent means are being adopted for overcoming the difficulties. The Canadian churches and their workers are the only influence actually at work in the Dominion to combat the evil, and the time has arrived when the Government and the individual must take up the fight.

A New Slogan.

The ancient preacher of economy said, "Look after the cents and the dollars will take care of themselves." In these perilous times when virtue, national integrity and loyalty have been the requirements in laying the foundations for the Empire's future welfare it is necessary to coin a new national slogan, "Look after the cents and the nation will take care of itself."

Local Conditions.

However, the individual needs assistance and it must be forthcoming from the proper authorities without delay. When boys of ten and upward are seen in groups in the vacant lots of Victoria smoking the vacant lot and pipes; when other groups are to be seen engrossingly engaged in card games; when young girls and boys are to be seen nightly haunting the streets, the refreshment parlors and various places of amusement unaccompanied; when the cigarette habit has fastened its clutches even on young girls in the sanctuaries of their homes; when night-fall has become the signal for the youth of the city to turn loose in the streets and the secluded places, and when matters have come to such a pass that even girls accompanied by their fathers on the street at night are subjected

To-morrow's Services in... The City Churches

to cowardly remarks flung over the shoulders of youths who are only brave when traveling in herds, then, surely, the time for action has arrived. While the millions of soldiers engaged in warfare are subject to strict discipline, those in whose interest they are fighting are allowed the unlicensed freedom which can only result in additional burdens of worry and responsibility being placed on their shoulders when they return.

In France, ever since the war began, not only was the Curfew law strictly enforced in the case of minors, but a second curfew was rung for the adults, and this practice is still maintained, so that civilians, young and old, are subjected to discipline as well as the soldiers.

Curfew and Playgrounds.

There are two solutions which will aid greatly in dealing with the juvenile delinquency question—namely, the strict enforcement of the curfew law, and the establishment of adequately supervised playgrounds for girls and boys. Much could be accomplished through the formation of a Parents' Association in each section of the city, with a joint board of representatives to investigate and deal with the various questions affecting child delinquency.

JEWISH NEW YEAR

To-day Marks Beginning of Year 5673

Services Being Held at Local Synagogue.

Members of the Jewish race the world over are to-day observing the beginning of the Jewish New Year—Rosh Hashana—5673. Observance of this day commenced last night at the local Synagogue at the corner of Blanshard and Pandora Avenues, and services were resumed at 9 o'clock this morning.

Although the day really marks the new moon of the seventh month (Tishri) of the Jewish calendar, it is the beginning of the "ten days of penitence" ending with the Day of Atonement and the holiness of the period has gradually led to its assuming the importance of the New Year. The day is observed among the Jews as a day of solemn joy and happiness, in contrast with the rest of the period which is given over to sadness and penitence.

The day will this year have a special significance to the Jewish race, for it sees the Holy City—Jerusalem—freed from the hands of the enemies of the Jews for the first time since the Crusades in the thirteenth century.

NOTED MISSIONARY HERE

Rev. R. E. S. Taylor, Methodist Missionary in Western China, to Speak on the Orient.

An interesting visitor to the city is Rev. R. E. S. Taylor, a Methodist missionary from West China, who will spend a month here. For the past nine years a missionary in Western China, Mr. Taylor has been a close student of political events in the Orient, and his lectures on eastern matters are based upon his own experiences.

Mr. Taylor is in the city in connection with the Victoria Methodist programme, and it is worthy of note that the Methodist Church of Canada raised \$769,000 last year, an increase of \$95,000 over the previous year, while their objective this year is the raising of \$975,000. During his stay in the city Mr. Taylor will deliver a series of lectures in the week, and appear in the various city churches on Sundays. To-morrow he will occupy the pulpit at James Bay Methodist Church in the morning, and at the Wesley Church for the evening service.

BACK FROM OVERSEAS

Adjutant Scotney Will Speak at Citadel Here To-day and To-morrow.

A special series of meetings have been arranged to take place in the Salvation Army Citadel, Broad Street, to-day and to-morrow, in connection with the visit of Adjutant Scotney, a returned Australian officer from France, who is returning to his home after two years of active service with the Australian troops overseas.

The adjutant is a typical Australian, a fluent speaker and brings a story of first-hand information that is most interesting. He will speak in the Citadel on Saturday night at 8 o'clock and on Sunday at 11 a.m., 3 and 7 p.m. In the afternoon at 3 o'clock he will deliver a lecture on "Salvation Army Activities at the Front."

PASTOR RETURNS.

The Rev. H. S. Osborne, pastor of the Metropolitan Methodist Church, arrived in the city to-day, having spent one month at Deep Cove, and will assume his duties to-morrow.

Reformed Episcopal Church—Rev. W. W. Winters, of Happy Valley, will be the preacher at the Church of Our Lord to-morrow at both services. The hour of the Sunday School has been changed from the morning to 2:30 in the afternoon, commencing to-morrow. Miss Reid will again resume her Bible Class for boys, which was discontinued during the summer months owing to the absence of so many boys on S. O. S. work.

Bishop Lander in Seattle—Conditions in China will be the subject of addresses to be delivered by the Rt. Rev. George H. Lander, Lord Bishop of Hongkong, who has gone over to Seattle to-day. On Sunday morning the Bishop will preach at St. Mark's Church and on Monday will address the China Club in the Sound City. During his stay in Seattle His Lordship will be the guest of Rev. E. V. Shaylor. Bishop Lander has been spending some time in Victoria.

Royal Jubilee Hospital—Service in Memorial Chapel to-morrow, Sunday, 8th inst., at 2 p.m. Nurses, patients, members of Hospital staff and the general public living in the neighborhood are cordially invited.

SOME DOUBT OVER RE-ATTESTATIONS

Great War Veterans Suggest a "Nigger in the Wood Pile"

When Comrades Gielma and Ault called upon General Leckie on Thursday the matter of attestation was taken up, and so far as could be gathered the G. O. C. had received no official intimation that the civilian members of the clerical staff would have to re-attest as a condition upon which their jobs would be secure. He did say, however, that an endeavor had been made to work in the "C" men, but that it was found to be more expensive than the present plan, and in consequence discouraged it.

The special meeting of the local branch of the Great War Veterans held last night came to the conclusion that there was a "nigger in the woodpile" somewhere, as more than one member declared that official notification had reached the Pay Department from the Paymaster-General that re-attestation was the order and the alternative tantamount to a notice to quit.

Will Find Out.—In the absence of a general order to the civilian members of the staff the impression left upon those affected is that the thin end of the wedge is about to be driven in, and that unless some sort of protest were lodged at once the whole wedge would be in too far. Coupled with the discussion was the question of wages and an allegation that promises of an increase made some time ago had failed to materialize, suggested to the majority of members present that the time had arrived when a more definite understanding should be reached. For that purpose, and to find out exactly what the prospects of re-attestation are, a committee will wait upon Major-General Leckie and Lieut.-Col. Tooley District Paymaster.

Why Re-attest.—It was pointed out last night that once a man re-attests he immediately loses his pension allowance for the time being, while it was not understood, if the Government could afford to pay the re-attested man more, why the increase in wages could not be given to the veteran without requiring him to become a soldier again.

One of the members suggested that it was the first step to stiffen the returned man's individuality and to muzzle his public utterances. Because if a man re-attested—and he trusted there were none so weak willed as to be caught—and in any way "kicked" military discipline would immediately enmesh him, and before he knew where he was he would be back to \$1.10 per day, boarded, and sent to France as the price of his well-earned freedom, his battle scars notwithstanding.

BOYS' CONFERENCE

Meeting to-morrow Preliminary to Provincial Gathering Next Month.

A Provincial Conference for Boys will be held in Victoria early in October. A conference is planned to-morrow afternoon in the Y. M. C. A. building at 3.45 p.m. to make arrangements. This meeting has been called by the Local Advisory Committee for Co-operation in Boys' Work, composed of officially appointed representatives of the Anglican, Baptist, Congregational, Methodist, Presbyterian and Reformed Episcopal Churches in the city and the Young Men's Christian Association, Ministers, Sunday school superintendents, male teachers of boys' classes, and all interested in boys and work among boys are especially invited. On account of the issues involved, it is important that every church and Sunday school should be well represented. The plans to be placed before this gathering call for action, and as all the work undertaken is in the interests of the boy life of the entire community, this opportunity afforded for all interested agencies to be consulted before definite action is decided upon.

WILL CONCENTRATE TROOPS IN VICTORIA

Decision Regarding Mobilization of Canadian-Siberian Expeditionary Force

When it was decided by the Dominion of Canada that a Canadian Expeditionary Force should be sent to fight against the reactionary elements in Siberia, Major-General Leckie, C. M. G., General Officer Commanding Military District No. 11, immediately pointed out to the authorities at the National Capital that the capital city of British Columbia was the ideal spot for the concentration of those troops.

He supported his recommendation with the best military reasons, and it is extremely satisfactory to note that Victoria will be permitted to place her military advantages at the disposal of Canada's four thousand. Moreover, it is altogether likely that a large number of Imperial, French, and Italian troops will find themselves quartered here during the process of supplying military aid to the Czech-Slovak forces. The advice received from Ottawa by General Leckie late yesterday afternoon give the bare announcement without any specific details as to when mobilization plans are likely to be formulated or when troops may be expected to arrive here. That there will be little delay, however, is emphasized by the fact that a recent announcement purporting to come from Ottawa suggested the date of the Canadian contingent's departure for Vladivostok as before the end of the present year.

Both Dr. S. F. Toimie and J. C. McIntosh, federal members for Victoria and Nanaimo ridings were similarly advised of the Dominion Government's intentions regarding the central mobilization camp, and both gentlemen will regard Ottawa's decision as proof that Victoria really has all the superior advantages when military matters are in the balance. The military authorities will immediately concern themselves on the selection of suitable sites upon which the huge cosmopolitan army may be housed during its stay in Victoria. Macaulay Plains, the Willows Camp and the William Head location are all mentioned as possible of utilization. These are details upon which an announcement may be expected at an early date. In the meantime recruiting for the British Columbia company is proceeding apace, and already one hundred have been enrolled.

DIES FROM WOUNDS

The sad news has been received by his widowed mother, Mrs. Conacher, of the Mount Edwards Apartments, that her only son, Kenneth, died on August 27th, from wounds received in action. She had previously received word less than two weeks ago, that he was seriously wounded. He had seen considerable service in France, transferring from the 79th Battalion from Brandon, to the 42nd Cameron Highlanders eight days after he arrived in England. He was a fearless and courageous soldier, and his work in France had caused him to be marked out for a Commission when his military career was cut short. The sympathy of a large circle of friends will be extended to Mrs. Conacher, and her two young daughters, Hazel and Grace.

BODY OF STATESMAN MURDERED HERE WILL NOT GO ON "KATORI"

The liner Katori Maru, it was announced today, will pass through here on September 14, and the Suwa Maru will probably arrive here from the Far East on Thursday. It had been expected that the body of Tuang Hua Lung, the eminent Chinese statesman who was assassinated here on Sunday, would be taken to China for burial on the Katori. The Secretary of the Maritime Commission, however, told The Times this morning that he had not recovered sufficiently from the recent tragedy to make the trip on Monday, and that he would wait for the next steamer bound for the Orient. Mr. Ho Te Huit suffered a very severe shock at the death of his chief, and in the attempt upon his own life. So much so, that he has been confined to his room since the assassination.

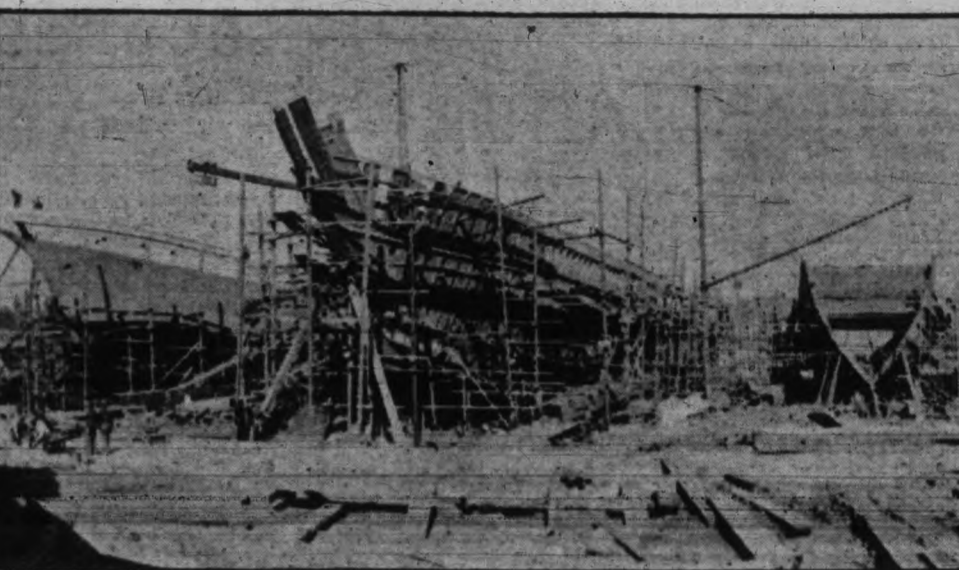

BRANCH LINE OPENED BY G. T. P. ON PRAIRIE

Prairie people in this city will be interested in an announcement made by the officials of the Grand Trunk Pacific with regard to a change in the schedules of the various lines, which went into effect on September 1. In addition to various local changes throughout the system, to which reference has already been made in these columns, the company announces the opening of a branch line from Talmage to Weyburn on the Regina-Northgate Branch. Commencing Tuesday, September 3, tri-weekly service will be operated between Regina and Weyburn, leaving Regina at 5 p. m. Tuesdays, Thursdays and Saturdays, and arriving at Weyburn at 10:30 p. m. Returning trains leave Weyburn at 8 a. m. Tuesdays, Thursdays and Saturdays, arriving at Regina at noon.

REPAIRS ON CANADA MARU TO START SOON

By the end of next week in all probability, the Canada Maru, which recently went ashore near Cape Flattery, will take the place of the tanker El Lobo in the Esquimaux drydock. Yarrows, Ltd., will make extensive repairs upon the damaged liner. The El Lobo, after completing repairs, will carry supplies to Callao, returning to Vancouver with oil from the Lobitos oilfields for the Imperial Oil Company.

EVIDENCE ON GUILD QUESTION WILL BE TAKEN IN ENGLAND

Commission Sitting in Vancouver Has Nearly Completed Evidence Now

Vancouver, Sept. 7.—Before the Royal Commission investigating the dispute between the Merchant Service Guild and the shipowners hands down its finding on the question of recognition of the Guild, evidence will probably be taken in England through a supplemental Commission, and also at Nelson, dealing with the lakes service, if evidence is deemed necessary by the Commission, it will likely hold sittings at the inland city. The Commission has practically concluded hearing evidence on the other features of the dispute, such as the request for increased wages and better working conditions. The morning witnesses testified on the towboat phase and also with regard to recognition. Captain H. Mowatt, at present inspector of shipbuilding construction for the Imperial Munitions Board in British Columbia, but for ten years Marine Superintendent for the C. P. R. at Liverpool, informed the Commission that while the duties of hiring the masters and mates for the company's vessels at Liverpool had been in his hands, during that time he had never had any dealings with the Imperial Merchant Service Guild, and had not heard of any negotiations being conducted by the Guild with any other companies.

Working Conditions. Capt. Hamborough, master of the Dominion Government patrol boat, for the past twenty-one years in that service, patrolling out of New Westminster, reviewed the conditions under which he and his men worked, and went at length into the wages situation. Formerly, he said, he received \$109 a month and board, and in addition received money on all lines imposed. Since the war the Government has abolished money, he said, it taking all the fines now, and in addition the men have to board themselves. The Government allowing an extra \$10 a month for each man and a yearly bonus of \$5. "When we received the money we had a fairly decent living wage, for two years the share of each man on our boat totaling \$400. There were only three of us, but we split the

Lord Atholstan's party will travel east over the Grand Trunk Pacific Railway line, stopping at points of interest en route, as the proprietor of the Montreal Star is taking the present trip in order to glean first-hand knowledge on conditions in the west.

GOVERNMENT OF FIJI WANTS GASOLINE BOAT

The fame of British Columbia as a shipbuilding centre is spreading. This latest tribute to her ability to construct vessels is the action of the Government of Fiji in calling for tenders for a gasoline craft to be built under the supervision of Dodwell & Co., agents for the Fiji Administration. The specifications of the craft wanted by the Fiji Government show that she is to be 160 tons net. Her length is set at 136 feet over all, and 124 feet six inches between perpendiculars, molded depth eleven feet, and beam twenty-eight feet. She is to be built of steel, hardwood or soft woods. The craft is to be propelled by twin screw engines, which must be of the Skandia, or semi-Diesel type, and speed of ten knots is asked for. The vessel is to be built to Lloyd's highest classification. Construction of the boat in British Columbia will be quite a tribute to the shipbuilding of this province.

BRITAIN ROBC UP AGAIN

Wherever the Germans in this war have made a move, political or military, they have found themselves opposed by the British. At the beginning their mercantile marine was blocked by the British fleet; the "contemptible little army" of Lord Kitchener saved Northern France and Belgium; British submarines were in the Baltic and British gunners in Galicia. When the Austro-Germans made their irruption in Italy last year British air, land and sea forces rushed to her defence. Like a good player, Britain has thwarted every move of the Germans on the chess board of the world.—New York Herald.

PROPHECIES FULFILLED

A little sentence written in 1871, "I am a republican, I desire a republic for every country in Europe. I believe no country of Europe is so fitted to be a republic as Germany; I believe her difficulties are from her Hohenzollerns and Hapsburgs, and nothing else. I believe she will end by getting rid of these gentry." Let this be succeeded as a piece of far-seeing criticism to its author, Matthew Arnold, who put the words into the mouth of his fictitious German visitor to England, Arminius, Baron von Tronech.—London Daily Chronicle.

A COSMOPOLITAN COCKNEY

From The Christian Science Monitor.

Since a Cockney has been defined as a person born within sound of Bow Bells, it is to be presumed that, with all his American citizenship, Mr. Gompers may take his place with that distinguished race, Spitalfields, where Mr. Gompers was born, lies just beyond Bishopsgate Without; and the street which contains Mr. Gompers's birthplace must, consequently, have been part of the land of the great Priory of St. Mary Spital, which stood there amongst green fields at the end of the twelfth century. Five centuries later, when Louis XIV. and the French bishops were engaged in revoking the Edict of Nantes and making France impossible for a Protestant to live in, the Huguenot weavers shook the dust of their country off their feet and migrated across the Channel to a country where they were secure of being able to practice their religion in peace. Hundreds of these men settled in what is to-day known as Spitalfields. There they built their picturesque houses, with their lighted lofts and practiced their trade with such success that the silk weaving of Spitalfields became a great British industry.

It was in such scenes that Mr. Gompers was born, and amidst such surroundings that he passed his youth. The "Great Bell of Bow" hammered out his career, over the roofs of London, until the day came when the Cockney cigarmaker migrated, like the silk weavers before him, and found his way to the United States. The rest of Mr. Gompers's career is tolerably well known. He has become the captain of the American labor unions. And in this capacity he has journeyed to his old home in a great crisis, in the struggle called Armageddon, in an effort to bind all the labor of the allied countries together in a solid determination to fight out the war until not merely German militarism has been crushed, but that German militarism is so completely annihilated that it is not a word in the singularly delicate one. He goes to the country of his birth, but he goes as a citizen of another country, and he goes to endeavor to reconcile the division in the Labor Party of the country of his birth, so that the war may be prosecuted, in accordance with the wishes of the overwhelming mass of the allied peoples. Now curiously enough Mr. Gompers arrived in London in the midst of a condition not altogether unknown to him, a great strike. Not only was it a great strike, but it was a most peculiar one, for the mission of Mr. Gompers was to address the body of the famous London Metropolitan Police. As a consequence Mr. Gompers will see London even more unlike itself than usual. The "gentlemen in blue" will not hold up the traffic for the United States army motor car in which he rides. That office will be performed for him by a special constable, whose only uniform is his truncheon and a badge. And so Mr. Gompers will see London, for the first time in his life in the midst of a great war and a police strike, and the condition is not one which is likely to impress upon him a lasting memory.

No whether or not Mr. Gompers will feel at liberty to address the Metropolitan Police Force, or whether the Metropolitan Police Force desires to be addressed by Mr. Gompers, is just one of those things which, as Lord Dunsyre says, "No fellow can tell." But in any case Mr. Gompers has a higher mission in London than that of a police strike. His mission is to induce British labor against Kultur and to persuade Mr. Ramsay MacDonald and Mr. Philip Snowden that it is absolutely impossible to make terms with German labor when German labor is, in its desire, every man as tarred with Kultur as the Headquarters Staff. It is also his mission to endeavor to persuade Mr. Henderson that peace by negotiation with Germany is an impossibility, seeing that peace by negotiation with Germany means peace by negotiation with the General Staff, who, if they could once succeed in making a German peace with the Allies, would account for the Labor Party and the Socialists in Germany with subsequent rapidity and thoroughness.

Now whatever Mr. Ramsay MacDonald, Mr. Snowden or Mr. Henderson may think on the subject, Mr. Gompers is under no delusion as to the meaning of Kultur and the way to combat it. One thing, he told the representatives of the press, on his arrival in Liverpool, that labor in the United States was unalterably determined upon, and that was

To stand by our republic, and with our allies to the end until the war is won. That is the unanimous expression of the organized labor movement of the United States, and represents the view of the people of the United States. There can be no change in that clear, clear cut policy and purpose. Indeed in order to place his meaning quite beyond misrepresentation he went on to explain that American

CELEBRATION ON MONDAY WILL MARK NOTABLE EPOCH IN INDUSTRIAL PROGRESS

(Continued from page 1)
will be a plentiful supply of the very best music during the celebration.
Three bands, the Portland, local Foundation and Fifth Regiment organizations will dispense lively airs throughout the day's proceedings. The Department of Education has granted the school children a half-holiday, and they will be in attendance and will sing a number of choruses under Supervisor H. J. Pollard at the launching of the War Nanook at the launching of the War Nanook at 4.30 in the Foundation Company's yard where the bands will also play. At 7.30 the Parliament Buildings will be thrown into Fairland-like relief, by the light of thousands of electric globes for the big Community Sing.
By permission of Major-General Leckie, O. C. M. D., No. 11, and Captain Martin, of the Naval Yard, the soldiers and sailors will be granted a holiday, and will attend the various events. The Royal Naval Brigade will also be on hand at the shipyard of the Foundation Company, where the ceremonies begin at 3 o'clock.
In order to avoid all possibility of accidents, Mayor Todd issues a warning that people will not be permitted to congregate on the Point Ellice and Johnson Street bridges, and it is useless for anyone to expect that they will be permitted to stand on these structures. Everybody must keep moving, and it is pointed out that there will be plenty of room at other vantage points to see and hear all that is going on.
At the Spike Driving.
An event of particular significance will be the track-laying ceremony on the line of the Canadian Northern Railway, which, when completed will prove an open sesame to the rich spruce belt, the mining, fishing and timber resources of the wonderful West Coast of Vancouver Island.
At a meeting with C. N. R. officials yesterday, it was decided to lay the first rail at the termination of the Foundation Company at Point Ellice and on the Songhees Reserve. Here an afternoon of unprecedented activity will commence at 3 o'clock, and continue until nearly six, during which time three miles will be laid, and the War Nanook, the last of the five ships built for the Imperial Munitions Board, will take her first plunge in to the water. With two large bands in attendance, and with the foremost men in the province assisting, the ceremony will be conducted on an unprecedented scale.
Details of Program.
In the afternoon a forty-three piece band will arrive from Portland, and with the twenty-four piece aggregation of musicians of the local Foundation Co., will take a large share in the subsequent proceedings. The band from the Victoria Station, the old Vancouver Genoa yard at Point Ellice, now Yard Two of the Foundation Co., where a band concert will begin at 3 o'clock, followed by short speeches from the prominent men gathered for the occasion, which is to celebrate the building of ships for France, will be addressed by two French officers who are coming from Seattle for the purpose.
The First Spike.
At half-past three the first step in the largest project yet undertaken in the history of the Province, which is only appreciated by men who know the shipbuilding business, will be taken when the keel timbers of the first ship in the new programme are hoisted into place, and an actual start is made upon the twenty vessels which the Foundation Company will build for the Government. The first spike in the first ship of the many which are to follow, will be hammered in by Premier Oliver and Hon. Dr. Tolmie, M. P.
As the first spike is driven home the band will play the Marschallie of the Tricolor along with the Union Jack will be unfurled in the breeze.
The first spike in the second keel will be driven by Hon. John Hart and Mayor Todd, and after this ceremony the crowd will move over to the old Foundation Co. yard, now Yard One, where the same gentlemen will repeat the ceremony of driving the first spike in another keel.
Amid the strains of the band gathered upon the bridge of the War Nanook, the latest addition to the war-fleet of wooden ships, the vessel will slide down the ways, with the foam of the bottle of champagne which Miss Oliver will break, still upon her bows. As she takes her first cold plunge pigeons will be loosed from the tower, and roses will be scattered from the launching platform in accordance with an old Japanese custom.
Music and Dancing.
In the evening the celebrations will be continued in the form of a community sing at the Parliament Buildings, commencing at 7.30, and a big "bottle" ball at the Empress Hotel at 9 o'clock. Particular interest centres round the community sing, as it will give the public an opportunity of hearing the newly-organized Foundation Company band, which is to make its inaugural appearance at the day's ceremonies. This band, which has for its bandmaster Professor Lovy Turner, the well-known conductor of the Empress Orchestra, includes some of the finest talent in the city, and it is safe to say that under such able leadership it will quickly assume an important place in the city's musical aggregations.
Frank Schell will be the conductor of the community sing, and the programme is to include a number of choruses known to the man in the street. The numbers have been chosen with an eye to their familiarity to the general public, as it is hoped that the volume of song will be sufficiently loud to be heard for a long distance and create the impression of real jubilation. Miss Eva Hart, James Hunter and E. J. Mitchell will be the soloists for the occasion, while W. R. Davies will contribute a piccolo solo.
As a fitting wind-up to the day's festivities, a grand citizens' ball is to take place at the Empress Hotel, commencing at 9 o'clock, and the committee in charge of the arrangements and Manager Calza is co-operating with them to bring about the fruition of their plans to make the event one of the biggest successes of the social season. The dancing will be under the management of Mrs. George Simpson. The Empress Hotel Orchestra is to be considerably augmented for the occasion, and Professor Turner has given much time and forethought to the preparation of the dance music, which will include some of the latest airs from New York.
Plenty of Flags.
An appeal is made by Mayor Todd and others in charge of Monday's celebration for a special effort on the part of every merchant, company and individual to clothe Victoria in appropriate

CANADIAN ADVANCE IS FIFTEEN MILES. Correspondent Describes the Country in Battlezone Where Canadians Are

With the Canadian Forces, Sept. 7.—(By J. F. B. Livesay, Canadian Press Correspondent.)—Some idea of the task performed by an Ontario infantry battalion in its advance on the north Cambrai road and between there and the Senese River when, with Imperial divisions, it stormed the Quant-Droucour line on the morning of Monday last, can be gathered from a trip along this road up to the villages bordering on the Canal du Nord. Yis-en-Artois, hands. Thence the ground climbs gently upward eastward to the sunken road connecting Hendicourt and Dury.

Quebec Battalion. A Quebec battalion fought through the marshy ground along the river. This area is dissected by ditches and was filled with machine gun posts. Some British land battleships had very stiff fighting between this hornets nest was cleaned out and we had established ourselves solidly between the river and the canal.

HORTICULTURAL SHOW OPEN THIS AFTERNOON

Cottage Gardeners of Ward 7 Compete for 200 Prizes Offered

With the enterprise characteristic of the residents of Ward Seven, Saanich, a horticultural show was opened today in Tillicum school under the auspices of the Cottage Gardeners Society. Anticipating the show for some time, keen rivalry has been existing among the members of the society, and an excellent entry was made in all of the classes. The exhibits were arranged in seven sections, making a comprehensive list of exhibitors, who were on hand early this morning, staging their exhibits to the best advantage. Provision was made for the exhibition of vegetables, flowers, fruit, poultry, rabbits, dairy produce, war time cookery and amateur photography.

In the specials, there was keen competition in a class for the best collection of vegetables, grown by wives of soldiers and sailors serving overseas, and a competition for the best bouquet of flowers by children of service men. With an eye to war time conditions and economy, two novel features were included in section six, where there was competition for a prize for the best cake, scones, butteries and milkies, and for the best "pair of boy's pants, made from father's."

The following are the officials of the show: President, Councilor H. M. Digson; vice-president, Mr. Huddleston; secretary-treasurer, Mrs. Huddleston; Major Hibben, F. G. White, Tomes, Thompson, Butterfield, Lloyd and Mrs. Hobbs. Opening Ceremony. The opening ceremony was performed by Mr. S. Tolmie, M.P., and during the succeeding reference was made to the help to the country that the holding of shows gave at such a time. Those who are unable to help in other ways, it was stated, can do their part in aiding to win the war by developing their gardens or lots at home as the conservation and production of food at home was necessary. Shortage both here and overseas could be guarded against. Attention was called to the fact that Ward 7 is exhibiting at the N. & S. Saanich Fair at Saanich, on October 4 and 5. Those who are able to loan exhibits will please notify any members of the committee, from whom all particulars can be obtained.

NEW RED CROSS PLAY OPENS ON THURSDAY

"His Excellency the Governor" at Princess Theatre; Miss Eva Hart

"His Excellency the Governor" will make his bow to the Victoria public at the Princess Theatre for the first time on Thursday next. This latest production of the Red Cross Company is a far-spread romance from the pen of R. Marshall, well-known playwright, and has achieved a wide measure of success wherever it has been produced. A caste splendidly representative of the wealth of talent with which Victoria has been blessed, has been brought together by Reginald N. Hincks who, as with the previous successes of the Red Cross Company, is the presiding genius of the production. In the role of the leading lady, Miss Eva Hart, whose recent "hit" as "Jane" is still fresh in the minds of the public, will again play the leading lady. In "His Excellency the Governor" she assumes the character of a little sourette who "happens" upon an island and creates havoc with the hearts of the islanders. Colin Cummins has a part to suit her abilities as a comedienne; Capt. Turnbull, of "The Mandarin" and "King of the Cannibal Isles" fame, will play the part of the Excelsior; Mrs. Dorothy Stuart-Robinson, Capt. Craddock and Capt. Hendy are also among the leading characters. The stage setting is in the hands of A. M. D. Fairbairn. Mrs. Gertrude Hunt-Green's orchestra, without which no Red Cross production could be considered complete, will furnish the incidental music.

The cast will open on Monday and although the play is scheduled to run for one week early application is necessary to prevent disappointment.

NO INVITATIONS

Police Make Final Arrangements for the First Dance.

The Victoria Police Department, which is arranging a series of dances this year as in former seasons, has decided to dispense with invitations to the affair, but those holding invitations from last year are invited to bring any of their friends. All rights are reserved by the committee in charge.

The first dance will be held in the hall at the station on Monday, September 16, at half-past eight, and dancing will continue until half-past ten. The committee has been fortunate in securing Oard's orchestra, and all other arrangements have been concluded, so that there can be no doubt as to the success of the weekly gathering.

Case Adjourned.—The trial of the County Court action of Rex vs. Johnson has been adjourned by Judge Lampan until Monday, September 16.

Plaintiff Wins.—In the case of Camassa vs. Christie and Smith, Judge Lampan has given judgment in the County Court for the plaintiff in the sum of \$870. The hearing of the trial occupied several days and was commenced before long vacation.

Local Wills.—The following probates of the wills of deceased persons were issued during the week in the Supreme Court Registry: Henry Rothwell, of Nanaimo, killed on active service; John A. Finch. Probates resealed: Henry Pelham Webb. Administration with will annexed: Chester Fleming Boyd, who died on active service. Administration: Angus MacKenzie.

UNLIMITED RECRUITING

Officers of Military District No. 11 were informed by telegram this afternoon that the limit of a company in British Columbia for the Canadian-Siberian Expeditionary Force imposed at Ottawa has been withdrawn, and unlimited recruiting will be encouraged until further notice.

COLONEL HARVEY IS OF THE WRONG AGE

Thirty-Five is Limit for Canadian-Siberian Company Command

Originally recommended by the Department at Ottawa, heartily endorsed by Major-General Leckie, passed by the Military Board as in perfect health and fully measuring up to "A1" standard, Colonel J. S. Harvey, in spite of all these very essential factors, must perform relinquish all hopes of commanding the British Columbia company in the Canadian-Siberian Expeditionary Force.

The only hindrance to approving the wish of the well-known Victoria officer is set forth in a wire received by Major-General Leckie from the Adjutant-General this morning, in which the age limit for company commanders in this contingent is definitely set at thirty-five.

Colonel Harvey, unfortunately for him, saw the light of day too soon—a fact which was apparently overlooked when the Militia Department first suggested his name for the command. Military District No. 11, and particularly that branch over which the Colonel has so successfully presided, will reap the benefit. There will, in consequence, be no alteration in the command of District Depot No. 11 and, while General Leckie regrets that Colonel Harvey's latest endeavor to get into the active zone has been unsuccessful, he feels that the Military District No. 11, and particularly that branch over which the Colonel has so successfully presided, will reap the benefit.

Colonel Harvey, however, is not alone in his disappointment. Captain David Orr, who was recently recommended to be captain and second in command of the British Columbia company for Siberia, has failed to secure the appointment.

It is expected that several names will be submitted by General Leckie from this District, it being his keen desire to see the British Columbia company commanded by a British Columbian soldier.

An announcement as to the new nominees for the command and second in command will be made in due course. The four lieutenants have already been named and formal ratification from Ottawa is daily expected.

COL. J. E. LECKIE FOR MURMAN COAST

Brother of G. O. C. Gets Important Appointment With Imperial Army

The many friends of Colonel J. Edwards Leckie, C. M. G., D. S. O., brother of the General Officer Commanding M. D. 11, will learn with interest that he has recently been appointed to a command in the Imperial Army for service on the Murman Coast. Colonel Leckie is a veteran of the South African war, during which he won the Distinguished Service Order, adding the C. M. G. to his list of honors during the present conflict. A few months ago he was loaned to the War Office, and since then has filled the role of instructor at the School for Senior Officers at Aldershot, where his special ability has been profitably employed.

It will be remembered that the distinguished officer saw a good deal of service during the early days of 1915 as second in command of the 16th battalion under his brother, now Major-General Leckie. When the latter received his Brigade command the Colonel went to the head of the valiant 16th. A training Brigade in England at a later stage, with the full rank of Colonel, preceded his service under the immediate jurisdiction of the Imperial War Office.

Alaskan Earthquake.—The seismograph at the Gonzales Observatory to-day commenced, at twenty-six and a half minutes after ten o'clock, to record a severe earthquake shock, and the record continued for well over three hours. It is presumed that the centre of disturbance is somewhere in Alaska, presumably in the Aleutian Archipelago. It is assumed to be distant 900 miles.

Without a Light.—The National Motor Company, charged in the City Police Court this morning with leaving a motor car standing on the street without a light, was fined \$5 this morning. F. O. Mackay, charged with the same offence, was fined a similar amount.

YOUTHFUL JACK TARS PARADED IN PUBLIC

Premier Extended Cordial Welcome to Detachment; Flag Day on Streets

Diminutive Jack Tars shouldering rifles, clad in diminutive replica of the garb known and respected on every part of the seven seas, the Victoria Boys' Naval Brigade drew up before the steps of the Parliament Buildings a little before noon today. Twenty-four members of Canada's navy in the making presented an extremely business-like appearance. As they filed up to the Legislative pile their rhythmic step reflected great credit on the quality of training voluntarily given by Instructor Ellis, while the keen look in every eye suggested the bulldog pertinacity of the lads in navy blue, and the determination of the British race to maintain its unvanquished tradition: "Britannia Rules the Waves."

Welcomed by Premier. The procession was arranged by the Victoria branch of the Navy League of Canada, the youngsters leaving the Tag Day headquarters on View Street and waiting their way by a circuitous route to the Parliament Buildings.

And as he wished the boys every possible success in their labors, he paid tribute to Instructor Ellis, of the Navy Yard, who has given much of his time to the young tars. F. A. McDiarmid, President of the Victoria branch of the Navy League of Canada, also accompanied the detachment to the Buildings.

To-day's Flag Day. The Flag Day headquarters on View Street have been the scene of bustling activity from an early hour. Mrs. A. Thomson, Mrs. Thaw and Mrs. R. B. McMicking are the conveners in charge of the general arrangements, and they, with a bevy of assistants, have been busily engaged in preparing the neat little tags for distribution. Mrs. Rowlands, convener of the refreshment arrangements, assisted by Mrs. Moore, Mrs. Travis and Mrs. Hilscocks, presided over the tables at which the tags, as well as the small members of the Boys' Naval Brigade, were served with tea and cakes of delectable variety.

J. Wright Hill, Port Missionary, had charge of the chart, and the distribution of the boxes, and the weightiness of the various boxes as they were brought in aroused the hope that the total collection will exceed even the most rosy anticipations.

Nearly every patriotic organization of the city is represented in the army of collectors and the neat little tag in it to be seen on most of the pedestrians in the main part of the city. The public, which seems to keep an especially soft spot in its heart for "Jack," is contributing generously and willingly. One lady reported the receipt of a cheque for \$100, while another gleefully announced that two ten-dollar bills had been dropped in her box.

The distinctive armbands, with their appropriate showing of an anchor, were the work of Mrs. R. B. McMicking, who made two hundred of these badges to be worn by the taggers.

FALL ASSIZES WILL OPEN ON OCTOBER 1

Only Four Cases to Be Heard in Victoria; Cases Elsewhere

Dates have been set for the opening of the Fall Assizes as follows: Vancouver and Victoria, and Clinton, October 1; Nanaimo and Kamloops, October 8; New Westminster and Revelstoke, October 15, and Nelson, October 22.

In Victoria there are only four cases set down, namely: Rex vs. Campbell, manslaughter; Rex vs. Lalonde, furious driving; Rex vs. McE, theft; and Rex vs. Menghini, bigamy.

In Vancouver there are twelve cases to be heard, including two murder charges, the only two charges of this nature in the province to be heard at the forthcoming assizes. There are eight cases to be heard at New Westminster.

MURDERER'S LETTER

Translated After Much Difficulty; Assassination of "Patriotic" Grounds.

A translation of the letter left to his partner by Chong Wong, the local Chinese barber who assassinated Tang Hua Lung here on Sunday night, has been secured by the police after much trouble. Not content with one version of the communication the officers obtained a second translation to confirm the first, and the translation, which is appended, is practically a confirmation of the summary published in these columns yesterday.

The translation of the letter runs as follows: "Dear Sir, I cannot bear to sit here and watch my country perish. I have determined to act with a blood and iron doctrine. My dear friends, used to think that the business was entirely my own, but I have told Wong Hoy that the business was a partnership. You also have a share. When you see this, do not be sorry on my account. Now my better stop gambling, save your money and go back to China, and should you see my father, mother, brothers and sisters and friends, comfort them for me. What I shall do you know nothing of, but you shall see. The seventh year of the Chinese republic, September 1.

"CHONG," "Snake hands." Buried Yesterday.—The funeral of the late Thomas Jones Williams, who died suddenly in Chicago on August 26, was held yesterday from the Sands Funeral Chapel. Rev. F. A. P. Chadwick officiated. J. Meldron, J. Grant, Owen Davis, T. Wilson, D. Maynard and Capt. Anderson were pallbearers. Interment was made in Ross Bay cemetery.

Provincial Normal School.—The Normal School opened on Monday last with 120 students, of whom over fifty per cent are from the Mainland and Upper country. This represents an increase of about twenty-five per cent over last year's attendance. On Monday Miss Helen Stewart will commence a series of twelve or fourteen lectures along similar lines to those she conducted last year. One lecture will be given each week, and she will deal with the relation of libraries to schools, the value of books and suitable books for children. It is hoped that a member of the Provincial Library staff will be able to assist at these lectures, as was done last year.

NUXATED IRON. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as Nuxated Iron. States Sen. Dr. James Francis Sullivan, former physician of Bellevue Hospital (Out-door Dept.), New York, and the Westchester County Hospital, Nuxated Iron often increases the strength and endurance of weak, nervous, run-down people in two-weeks' time. It is now being used by over three million people annually, including such men as Hon. Leslie M. Shaw, formerly Secretary of the Treasury, and ex-Governor of New York; former United States Senator and Vice-President nominee, Chas. A. Tamm; General John L. Clem (Retired), the drummer boy of Shiloh, who was sergeant in the U.S. Army when only 12 years of age; also United States Judge G. W. Atkinson of the Court of Claims of Washington, and others. Nuxated Iron is dispensed by all good druggists everywhere.

GREAT WAR VETERANS ENTERTAINED LADIES

Members of Auxiliary Guests at Delightful Social on Thursday Evening

During the past year the Women's Auxiliary to the Great War Veterans' Association have rendered the parent body much available and material assistance, and as a mark of their appreciation of these services, the Veterans on Thursday evening gave a delightful social in honor of the ladies. The guests of honor were the past executives of the Auxiliary, but in response to a general invitation, nearly two hundred members of the auxiliary and their friends attended the gathering.

The Veterans' rooms were gaily decorated for the occasion, and a general air of good-fellowship prevailed throughout the proceedings. The ladies were cordially welcomed on arrival by a committee of the Veterans, and by the time the musical programme commenced the accommodation was taxed to the utmost.

The programme opened with a piano-forte solo by Mr. Robertson, after which President Ault of the Association, in a speech of welcome, thanked the ladies for their ever-ready co-operation and cordial assistance. Mrs. Thos. Palmer, the President of the auxiliary, replied for the guests. Vocal solos were contributed by Miss Palmer, Miss Taylor, Messrs. Purser, "Jock" Robinson, and Major Chaffey, M.C., a duet by Miss Forrester and Miss Headley. Miss P. Shearer gave a graceful exhibition of Scottish dancing, accompanied on the bagpipes by Pipe-Major Donald Cameron, who later gave a pipe solo. Every item on the attractive programme was heartily enjoyed.

Frank Grolma, M.P.P.-elect, gave a short address during the evening, his remarks being received with enthusiasm. After the serving of dainty refreshments, the floor was cleared for dancing and the strains of the National Anthem at 11:30 brought a most enjoyable evening to a close.

SCHOOL NURSE BEREAVED. R.-Q.-M.-S. Harley-Grimmer, Brother of Miss Muriel Grimmer, of Victoria, Dies of Wounds.

Miss Muriel Grimmer, school nurse for Victoria, has this morning received the distressing news of the death of her brother, Regt. Q.-M.-S. Harley M. Grimmer, who has succumbed to the effect of wounds and German gas at a clearing casualty station in France. Regt. Grimmer left his home town in New Brunswick three years ago for duty overseas with the 6th C. M. R. Although he escaped wounding before receiving the injury which led to his death, Regt. Grimmer had been several times on the casualty list. An acute attack of typhoid contracted some time ago left his heart in a weak state and prevented his return to the trenches, so he was detailed for duty at the base.

Too Many Passengers.—J. A. Anderson, charged with carrying more passengers in his for-hire car than allowed by the Vehicles Act, was found guilty in the City Police Court this morning, as the result of which the sum of five dollars was added to the city treasury.

Charged With Assault.—George Pretty was charged in the City Police Court this morning with assaulting John Raitton. Frank Higgins appeared for the accused, and the case was stood over until Wednesday, September 11. Mr. Hankey will prosecute in this case.

Did Not Appear.—When the case of George R. Warner, charged with stealing from the person of F. Landsberg, was called in the City Police Court this morning, the latter failed to appear, and Magistrate Jay dismissed the case. It had been alleged that while Mr. Landsberg was in an unconscious condition following an accident certain moneys which he had on his person had been taken from him. Mr. Landsberg is still very ill as the result of his injuries, which is taken as the explanation of his inability to appear.

Too Much Speed.—Edwin Fatt appeared in the City Police Court this morning charged with driving a motor car at a speed beyond the rate set by the regulations. He pleaded guilty, and was fined the sum of \$10. Cyril A. Beough, charged with the same offence, pleaded not guilty, and for putting the city to the trouble of proving that he was guilty, the fee he was ordered to pay was raised to \$15.

RETURNED MEN WANT SOUND EXPLANATION

To Establish Mr. McIntosh's "Guilt" Before Asking Resignation

One of the members of the local branch of the Great War Veterans' Association informed the special meeting of returned men last night that he had many things to say relative to conditions which had been allowed to prevail at the Navy Yard, but that his lips were more or less sealed for the moment by legal advice. Whether or not other members of the audience had come prepared to lift the veil on allegedly unfair practices could not be determined since the statement of the first comrade appeared to close effectively the channel for "new business."

EDWIN C. SMITH

Treasurer and Collector.

James Macfarlane, whose commission in the Royal Canadian Navy is alleged to have been secured over the heads of equally capable returned soldier candidates by the political influence of the Federal Member for Nanaimo, the gathering proceeded to discuss the modus operandi for securing a satisfactory explanation from Mr. McIntosh. Two plans were advocated: the chief complainant, Comrade Miller, of the Navy Yard, suggesting the appointment of a committee of investigation to probe the incident to the limit, suggesting that keen scrutiny on general grounds might reveal other cases even more serious than the one reported by him on Tuesday last.

Head On a Charger.

The other method relied upon the alleged complete proof supplied to the Association on Tuesday as sufficient to demand the passage of a resolution for submission to the various returned men's organizations in Mr. McIntosh's riding, calling upon them to ask for his resignation from the House of Commons. While agreeing in the main that the case in point needed action that would be felt, there was a strong plea advanced that the Federal member should be afforded an opportunity to state his side of the case. Again came the rejoinder that the alleged accurate copies of the official documents provided all the proof that was necessary to back the association's suggestion for Mr. McIntosh's resignation. In further support of this line of argument it was declared that the member stoutly protested on the public platform that the abolition of patronage would have his hearty support.

Right of Defence.

Comrade Food advised the association to ask the presidents of the various island branches of the G. W. V. A. to attend the next general meeting, affording Mr. McIntosh an opportunity to be present and give his explanation, and upon the outcome thereof action could be taken to accept or suspend. Others pleaded for no delay, alleging that Mr. McIntosh's responsibility had been established by the letters read out on Tuesday night. "I don't care how guilty he is; I don't care if he is ten times as guilty as I am; I have a right to defend himself in this room before judgment is passed by the returned men of Canada," was the final rally of Comrade Food.

Committee Appointed.

Comrade Tait, who supported the original request of the chief complainant for a committee of investigation, declared that such a special body could probe deep and possibly find out a great deal. Whereupon Comrade Miller appealed with success for the dropping of the more summary plan, and a committee of five was appointed, as follows: Comrades Food, Tait, (Secretary), Berry, Williamson, Tait and Mac.

COMPANY RECOVERS ON STOCK PURCHASED

New York Stock Exchange Deal is Aired in County Court

Judgment for over \$800 in favor of the plaintiff has been handed down by Judge Lammiman in the County Court action of Wise & Company vs. Mason, a case of particular interest, as the defence alleged that the amount claimed was in the nature of a gambling debt.

Mason had been speculating in some stock and shares, mostly Denver & Rio Grande Railroad shares, on the New York Exchange. The stock fell very heavily, and Wise & Company, it was stated, tried to sell out, but Mason instructed them to carry it on, and threatened if they did not do so that he would bring action against them. The company therefore held on to the stock, and it eventually fell from \$48 to \$4. Mason then refused to make payment of the money that Wise & Company had invested for him on his instructions, and they brought action to recover. Mason put up the defence that it was purely a gambling speculation; that there was no real purchase of the stock, and that it had never been delivered to him.

The Court held that there had been delivery as the shares had been purchased through Logan & Bryan on the New York Exchange and held to the order of Wise & Company, who were acting for Mason. Judgment was given accordingly.

Leonard C. Mills appeared for the plaintiff company and H. A. Maclean, K. C., for the defendant Mason.

DOESN'T LOOK IT.

"You say Bankus is a genius?" "That's his rating. Why?" "He doesn't look it. His clothes fit him and he lives regularly, and he isn't overlastingly trying to be funny."

SWEEPING STREETS BY MODERN METHOD

City Council is Advised to Do Away With Obsolete System

In all probability the time-worn practice of the city employing men to sweep the streets in the public streets in the occupation of street sweeping will be abolished at the next meeting of the City Council. The system of carrying out this work has been a matter for considerable discussion of late, and the arguments for and against the adoption of more modern methods has resulted in a good deal of criticism of what is claimed to be an obsolete way of handling the situation.

At the meeting of the Streets Committee held yesterday afternoon the recommendation of City Engineer and Water Commissioner Frank M. Preston that the city should purchase an Elgin Street Cleaner at a cost of \$8,350 laid down here was endorsed by all but Alderman Harvey, who claimed that the twenty-five or thirty men, whose services would be done away with, were entitled to consideration. This phase of dismissing employees of this class, however, has already been the subject of warm discussion in the Council Chamber. It was pointed out that, far from being dependent on the city for work, the city was experiencing difficulty in getting men, owing to the demand for labor elsewhere at better pay.

It was also pointed out that when the shypards are extensively operating the city will be in even a worse position as regards labor, so that there was no fear but that the men leaving the city's employ would have much cleaner and more remunerative work in the shypards than among the dirt of the roads and the danger of the traffic.

Mr. Preston explained that the Elgin cleaner is gasoline driven, travels rapidly, cleans the streets thoroughly and

employs one man. He furnished an estimate showing that from an expenditure of \$2,100 a month at present, the machine will reduce the cost by about fifty per cent, do away with all the obstacles of men, brooms, cans and carts, and result in absolutely clean streets.

Recently a number of street sweepers were dismissed, and Mr. Preston pointed out also that with a reduced staff the streets could not be kept clean.

"SOME" DRIVE.

It is all in the way one looks at things. Yesterday The Nugget displayed in its window a war bulletin announcing that the total German casualties were now over six million. "By geez," said one man, who was studiously reading the bulletin over audibly, "that sure was some drive."—Cobalt Nugget.

To Keep Fit

The best work is demanded from all at this crisis in the world's history. We can't do our best when the system is full of poisons.

The liver and kidneys must be kept active so that the blood will be properly filtered. Dr. Chase's Kidney-Liver Pills are the most effective regulators of these important organs.
