MANUFACTURERS HOLDING CONVENTION

Hon. James Dunsmuir, Millionaire, Is Dead, Former B. C. Premier

Head of Wealthiest Family in Western Canada Collapsed Suddenly; Active Career in Public Affairs Culminated As Lieutenant-Governor.

Hon. James Dunsmuir, former Premier of British Columbia and then Lieutenant-Governor, the wealthiest man in Western Canada, whose millions were amassed from the development of the natural resources of Vancouver Island, was suddenly taken ill and collapsed at the family's summer home at Cowichan River about 9 o'clock Saturday evening.

Medical men were summoned from Victoria, but they could do nothing. Hon. Mr. Dunsmuir died at 7 o'clock Sunday morning. The body was brought down to Victoria for the private funeral from the family residence, Hatley Park, Colwood, on Wednesday afternoon. The Hon. Mr. Dunsmuir would have been sixty-nine years of age next month.

The loss of his son, Lieut. James Dunsmuir, who was drowned in the Lusitania disaster in May, 1915, was a shock from which he really never fully recovered. Since the disaster, Hon. Mr. Dunsmuir has been living more or less of a retired life. Of late his health has been somewhat improved and the sudden collapse at the end of the week came as a shock to the family.

Family All Home. With the exception of Robin W., the only surviving son, who is in Buenos Ayres, all the children are in Victoria at the present time. Miss Dola Dunsmuir, who has been in school in San Francisco, returned yesterday. She was met in Seattle by her mother and Miss Muriel Dunsmuir, who crossed the Sound on Saturday. They received the news of the collapse and hurried home yesterday.

Mrs. Dunsmuir survives her husband. The daughters are: Mrs. Audain of Victoria; Mrs. Audain of this city; Mrs. Bromley, wife of Commander Bromley, R.N.; Mrs. Stevenson, wife of Lieut.-Col. Stevenson; Mrs. John Hope, wife of Major Hope of this city; Mrs. Ed. Humphries, wife of Major Humphries of this city; Miss Eleanor Dunsmuir, Miss Muriel Dunsmuir and Miss Dola Dunsmuir.

There are a number of grandchildren including: Laura Audain, Jimmy Audain, the son and daughter of Major Humphries, and the three daughters and one son of Lieut.-Col. Stevenson.

Mrs. Henry Croft of Mount Adelaide, Victoria, is a sister of Mr. Dunsmuir. Four other sisters are in England: Lady Musgrave, wife of Sir Richard Musgrave; Lady Gough-Calthorpe, wife of Vice-Admiral, Sir Somers Arthur Gough-Calthorpe; Mrs. Burrows and Mrs. Chaplain.

Sold Valuable Holdings. The Dunsmuir family from the early Hudson's Bay days, has been prominent in the industrial, political, financial and social life of Western Canada, particularly Victoria and Vancouver Island.

Their business interests have been confined almost solely to Vancouver Island, the development of the coal properties around Cumberland and Ladysmith, which Hon. Mr. Dunsmuir sold to the Mackenzie & Mann interests several years ago for \$10,000,000, and the Esquimalt & Nanaimo Railway which was taken over by the C.P.R. for \$2,500,000. There were also valuable holdings worth millions.

The younger Dunsmuir generation has been prominent in the social life of the capitals of the world. During the war the daughters were engaged in various war activities in England and in France.

(Concluded on page 2.)

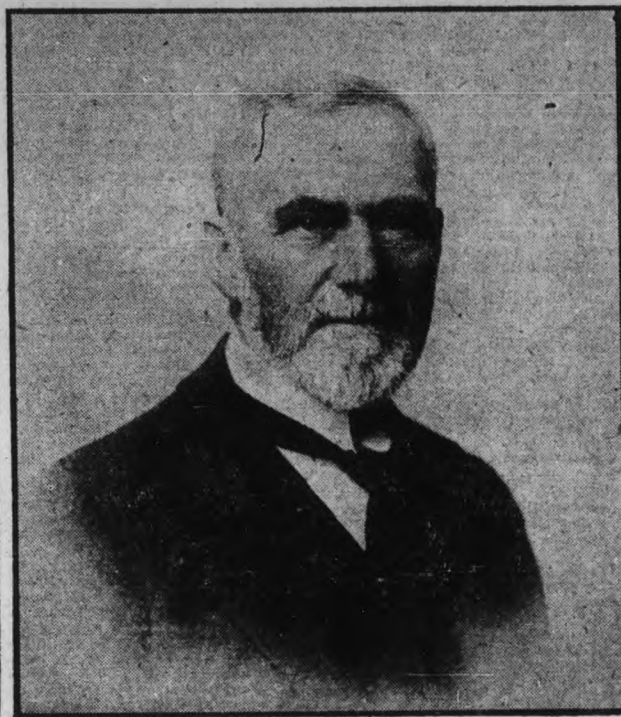

SAY COMMUNISTS SEVERELY HANDLED

British Laborites, Back in London, Tell of Conditions in Hungary

London, June 7.—Measures of the most drastic character against Communists are being taken by the Hungarian Government and the civil authorities of that country are exercising their power with severity, according to a report by the British Joint Labor Board made public here to-day.

The Board has just returned from Hungary, where its investigations were not hampered by the Horthy Government, and it relates many detailed instances of alleged cruelty by military officers and others. These charges include the persecution of all persons who do not support the Horthy regime, suppression of the right of trade unions to strike, anti-semitic executions and wrongful imprisonment. Many excesses are laid to officers of the Civil Guard.

WAS PROMINENT FIGURE: LATE HON. JAMES DUNSMUIR

TURKEY HAS TILL JUNE 25 TO REPLY ON PEACE TERMS

Paris, June 7.—The Turkish Government has been given an extension of time amounting to fifteen days in which to make its reply to the terms of peace presented by the Allied nations. The reply, under the new arrangement, will be due June 25.

CRIMINALS TO BE BROUGHT TO BOOK

Lloyd George Says Government Is Taking Steps in Ireland

London, June 7.—The Government intends to bring to Justice all persons associated with crime in Ireland, Premier Lloyd George declared to-day in the Commons in answering a question.

He added that with this object in view, the Government was reorganizing the Irish Executive, and was strengthening the police, naval and military forces in Ireland. It would probably also be necessary, he said, to strengthen the law for dealing with crime.

It was the intention of the Government, Mr. Lloyd George asserted, to put down the present organized campaign of murder and assassination.

UNITED STATES IS TO REMAIN "DRY"

Supreme Court Upholds Prohibition Law and the Enforcement Act

Washington, June 7.—Both the prohibition amendment to the constitution of the United States and the Prohibition Enforcement Act, passed by Congress, were held to be constitutional to-day by the Supreme Court of the United States.

The Court also dismissed Injunction proceedings brought by the State of New Jersey to prevent enforcement of prohibition within that State.

Sustained. Federal Court decrees dismissing injunction proceedings instituted by the Kentucky distillery & Warehouse Company, of Louisville, Ky., to enjoin enforcement of the Act against it were sustained by the Court. Injunctions sought by George C. Dempsey, a Boston, Mass., wholesale liquor dealer, to restrain enforcement of the Enforcement Act against him were also denied by the Court.

No More Opportunity. Chicago, June 7.—Levy Mayer, of Chicago, who argued the case for the distillers in the Supreme Court, said on hearing of the decision: "I advanced every possible legal argument. The avenue of the courts is now exhausted."

\$1.50 WAS PAID FOR NINETEEN POTATOES

Kingston, Ont., June 7.—Nineteen potatoes sold on the market here Saturday for \$1.50, but they were exceptionally large, their total weight being eighteen pounds.

British Columbia Sells \$2,000,000 Bond Issue

Toronto, June 7.—A syndicate composed of Wood, Gundy & Company, the Dominion Securities Corporation and A. E. Ames & Company, all of this city, and Halsey, Stewart & Company, of Chicago, were on Saturday awarded a block of \$2,000,000 of Province of British Columbia five-year six per cent. bonds. The purchase price was 88.14 per cent. in New York, which at the prevailing rate of exchange enables the Province to realize practically par in Canada. The only other tenderer was a syndicate headed by the Canada Bond Corporation, which bid 86.95 per cent. for only \$1,000,000. The bonds are to be publicly offered in the United States to-morrow.

URGUE MEMBERS TO FORSAKE BORDEN

Veterans in Calgary Want Redman, M.P., and Tweedie, to Change Attitude

Calgary, June 7.—At a meeting addressed by J. Harry Flynn here last night, 700 veterans and others unanimously passed a resolution asking Major Redman, M.P., and T. M. Tweedie, M.P., the Calgary members, to withdraw their support from the present Government and resolving to use their efforts to elect a Government at the next election if they did not do this.

A resolution also was passed asking the Governor-General to receive a deputation of veterans with a request for a cash bonus to re-establish the soldiers properly in civil life. Flynn made a vitriolic speech against the Government.

PROGRESSIVES TO HOLD A CAUCUS

Ottawa, June 7.—(Canadian Press)—A caucus of the National Progressive Party has been fixed for tomorrow morning, when the main question to be discussed is the various forms of taxation proposed in the budget and now before the Commons in the committee stage.

SPA CONFERENCE WILL BE PUT OFF TILL ABOUT JULY 6

Paris, June 7.—Postponement of the conference between Allied and German representatives which was to have been held at Spa June 21, is considered certain in French official circles because of the inability of officials to prepare material for discussions at the date fixed for the meeting. It is indicated that the conference will be held about July 6.

London, June 7.—Confirmation of the Paris report that the Spa conference would be postponed until July was given here to-day.

HIGHER SALARIES FOR MINISTERS

Recommended in Report of Finance Board of Presbyterian Assembly

Pensions to Aged Ministers Increased; Commissioners See Experimental Farm

Ottawa, June 7.—(Canadian Press)—The influence of the high cost of living on this year's Presbyterian General Assembly has been seen throughout the proceedings and again at this morning's session it manifested itself.

The big report of the day was that of the board of finance. It recommends a widespread increase of salaries to church officials and in minister's salaries. The discussion on this question will be staged to-morrow.

A natural corollary of high salaries is increased giving, and in every report greater donations were urged.

In the same manner pensions to aged and infirm ministers were increased on a vote of the Assembly. Bonuses were also approved to ministers' widows in both the western and eastern sections.

Visit Farm. The Assembly has reached its high tide. Reports and discussions on reports are being got through with greater rapidity, and the amount of business disposed of this morning was great. But the commissioners are getting tired. It was announced that an automobile drive to the Experimental Farm had been arranged by the Rotary and Kiwanis Clubs at 4.30. A few wanted to go on with the business, but it was decided by a great majority that the Assembly adjourn at 4.30.

The laymen, many of them members of the United Farmers of Ontario, no doubt voted for the trip, which was to be inspected, as the venerable senior clerk, Dr. Robert Campbell, said.

HEAD OF CANADIAN MANUFACTURERS IS HEARD ON POLICIES

President of Canadian Manufacturers' Association

THOMAS PALMER HOWARD President of the Canadian Manufacturers' Association.

Mr. Howard, in industrial life, is managing-director of the Phoenix Bridge & Iron Works Co., Limited, Montreal. He was born in Montreal on August 17, 1869, educated at the Montreal High School, and Montreal Business College, and started active work with the Grand Trunk Railway in 1886. From 1890 to 1895 he was in the service of the Park Steel Company and in 1896 joined Mr. James W. Pyke in the formation of the Phoenix Bridge & Iron Works.

During the war the name of T. P. Howard was always to be found in connection with the work of patriotic associations, culminating in his acceptance in 1917 of Canadian Manufacturers' Association, Mr. Howard has carried on his executive duties with energy and tact. During his term of office great progress has been made and he will be remembered as the president who engineered the big membership drive of December, 1919, which added over 500 new members to the roll.

Washington, June 7.—Secretary Colby, on behalf of the American Government, has tendered a verbal apology to the British Ambassador for the burning of a British flag here last week by Irish women.

Mr. Colby said this action had been taken pending receipt of an official report on the incident which the District of Columbia authorities had been asked to submit.

When the report is in hand a formal apology probably will be made to the British Government.

GALVESTON PUT UNDER MARTIAL LAW; STRIKE CAUSE

Austin, Tex., June 7.—Galveston was declared under martial law to-day in a proclamation issued by Governor W. P. Hobby because of freight congestion there resulting from a strike of longshoremen.

PAPER SUPPLY FOR CANADIAN DAILIES

Ottawa Citizen Says Legislation Will Be Passed at Ottawa

Ottawa, June 7.—The Citizen to-day says that the Dominion Government will introduce legislation this week compelling Canadian makers of newspaper to supply fifteen per cent. of their total output to Canadian publishers, this being sufficient for the needs of the newspapers of the country. The bill to be introduced, the paper states, will not fix the price.

A Meeting. Ottawa, June 7.—(Canadian Press)—At a special general meeting of the Canadian Daily Newspapers' Association, held here Saturday to consider the precarious position of many Canadian newspapers with regard to the newspaper supply, it was decided to appeal to the Federal Government for legislation requiring each newspaper manufacturer unwilling to do so to supply his proportion of the domestic requirements of newspaper at prices not higher than the current contract prices for export to foreign countries.

SIR CHAS. MATTHEWS DIED IN LONDON

London, June 7.—Sir Charles Matthews, Director of Public Prosecutions since 1908, died Sunday night. He was born in 1850, and was created a baronet in 1917.

Ballantyne Will Make Statement On Navy Plans

Ottawa, June 7.—(Canadian Press)—A statement on naval affairs and the re-organization of the Canadian naval service will be made in the House of Commons by Hon. C. C. Ballantyne, Minister in charge of Department, shortly. The introduction of the estimates of the Department of the Naval Service which, it is expected, will take place this week, will furnish an opportunity for the submission of this statement and a discussion of the whole matter. Since the order was issued demobilizing the Canadian naval organization, which, as subsequently explained by the Minister, was for the purpose of clearing the decks for re-organization, there has been no official statement on the matter.

T. P. Howard States Stand Assumed By Manufacturers' Body

President of Canadian Organization Opens Convention at Vancouver With Statement on Labor, Taxation and Tariff Issues.

Vancouver, June 7.—(Canadian Press)—About four hundred members of the Canadian Manufacturers' Association were guests at a luncheon tendered by the Vancouver Board of Trade to-day. Addresses of welcome were delivered by Premier John Oliver, who dwelt at length on the abundant resources of British Columbia in particular and Canada in general; Mayor Gale and J. T. D. Malcolm, president of the Board of Trade.

Premier Oliver stated that capitalization was the friend of mankind; that civilization cannot exist without it. He deplored any flaunting of extreme wealth in the face of poverty, saying that it provided ample material for agitators. "The accumulation of great wealth," he declared, "is not the proper standard by which to measure success." He said that service should be the gauge.

President T. P. Howard, Montreal, said that the manufacturers could well take a lesson from what the Premier had said. "We have come from Eastern Canada to learn," he stated, "and we are learning."

Tariff, labor, and taxation problems were all dealt with in the presidential address of the Canadian Manufacturers' Association, which opened its annual convention to-day.

It was ten years since the organization was last in convention on the Coast, and allusion was made in the report to the extensive development of industry within the decade, during which the C. M. A. had grown steadily.

President Howard emphasized that the radical element in labor which went to extremes after the Armistice had given place to a new sentiment of rational industrial organization.

The president in the course of his report said: "During the past year the Executive Council of the Association dealt with great many important matters that are recorded in the reports of the various standing committees that supervise the technical departments of the association. As these reports will be submitted to you for approval, I will not anticipate their contents, but I can assure you that they represent a great deal of valuable accomplishment."

"The report of the Executive Committee, who are practically your board of directors, gave a summary of their work and the report of the General Manager will deal with the administrative side of the association's affairs."

"We are especially interested in the industrial growth of Canada. For a period of 50 years, this can best be illustrated by a comparison of the value of goods manufactured at the beginning and end of that period. The census estimate of the value of the output of Canadian factories for 1870 was \$221,000,000. For 1917, the last year for which figures are available, it was \$3,000,000,000, an increase of about 1,400 per cent. A comparison of the census figures for 1900 and 1917 shows an astonishing development in manufacturing since the beginning of this century."

Manufacturing—Developed

Seattle, June 7.—Three young Canadian women who escaped from the detention station of the Immigration Department at the foot of Union Street here early Saturday morning are now back in their cells and the screen through which they escaped has been fitted with a new lock and new staples. The young women, Irene Magee, aged twenty; Hazel Gernson, seventeen, and Mary McClair, thirty, were arrested by Police Sergeant Hielow and Patrolman Legate at 1214 Main Street, whether they had been traced by the police.

Pried Lock Off. The young women are being held for deportation to Canada. They had been put to bed at 10.30 Friday night and the matron discovered them gone at 5.30 Saturday morning. They had pried the lock off their heavily-screened window and had had them dropped eight feet to the street. They took the lock with them.

The women were re-arrested at 10 o'clock yesterday afternoon and were returned to the detention station at 6.30 p.m.

Revolutionary Element

"The outstanding feature in labor matters during the year has been the gradual elimination of the revolutionary element by moderate labor men. The political and social ideas put forward with considerable vehemence by a minority have been tried partially, and have failed utterly in the submission of wage earners themselves. On the other hand, a great deal has been done by the moderate wage earners, who are in the great majority, with the co-operation of other citizens who have the welfare of the country at heart to make conditions and rewards of wage earning citizens more satisfactory. More will be accomplished."

(Concluded on page 16.)

SIX LOSE LIVES BY DROWNING

Two Brothers in Alberta; Four Men in Saskatchewan-Lake

Calgary, June 7.—Conrad and George Leinweber, brothers, were drowned yesterday afternoon in Nose Creek while swimming.

Four Drowned.
Prince Albert, Sask., June 7.—It is believed that four men, Frank Newton, Anton Gould, Geoffrey Henning and Robert Kinnard, have been drowned in Stony Lake.

The men went out in a motor boat on Sunday, May 30, and nothing was again heard of them until Saturday last, when wreckage identified as part of their boat was picked up on the shore of the lake, which is northwest of this city.

Five Killed.
Grand Rapids, Mich., June 6.—Five persons were killed and a large number injured at Andrew's Crossing, ten miles west of Grand Rapids, on the Holland Interurban line, late yesterday afternoon.

FORBIDDEN TO USE SUGAR AS BAIT

Commerce Board Bars Consumers' Association's Method of Recruiting

Ottawa, June 7.—(Canadian Press).—The Consumers' Association of Windsor, Ontario, of which H. V. Martin is manager, has been ordered by the Board of Commerce of Canada to discontinue the practice of soliciting membership, under its present or any other name, offering as an inducement the right to purchase such articles as sugar at specially low prices and without profit, and recouping its losses through the sale of other necessities of life at unreasonable profits, in excess of 25 per cent upon cost.

The Association also is restrained from selling assortments of commodities, some of which are advertised at low prices, while the prices of the others are sufficiently high to make a profit. It is restrained from selling sugar or similar articles at less than cost on condition that other articles are purchased at the same time.

Situation in U. S.
New York, June 7.—A joint distribution committee to ration sugar to confectioners throughout the United States will be formed here within two weeks, Antrim W. Riley, special assistant to Attorney-General Palmer, announced today.

Characterizing the sugar situation in the United States as more critical than at any time during the war, Mr. Riley said an effort would be made to have bakers economize on its use in pastry and to have hotels and restaurants ration sugar to their patrons.

Winnipeg, June 7.—Several members of Parliament at Ottawa have started a movement for the release of the Winnipeg strike leaders who are in jail. Thomas Dunn, who had returned from a trip in the East with Alderman A. A. Heaps, told a meeting held at the Victoria Park Hall yesterday afternoon under the auspices of the Defence Committee.

Mr. Dunn said he did not want to betray any of the confidences that had been passed about at conferences held in the capital, but he was convinced "there would be something doing soon."

WIPER'S

1421 Gov't St. 607 Yates St.

HON. JAMES DUNSMUIR, MILLIONAIRE, IS DEAD; FORMER B. C. PREMIER

(Continued from page 1.)

The late James Dunsmuir was born at Fort Vancouver, Washington, on July 8, 1851, the son of Robert and Joanna Dunsmuir. His father, who was destined to lay the foundations of the fortunes of the family on Vancouver Island, was an Astorian miner whose father and grandfather had been coal masters in Scotland. Robert Dunsmuir was twenty-six when induced to emigrate in his journey to this coast, where off the Columbia River, his sailing vessel stranded, the crew abandoning, attracted by the reported gold discoveries in California. There he made considerable money, and Mr. Dunsmuir had to land. James was born at Fort Vancouver, while his parents waited a vessel to convey them to this island.

His Early Years.
Mr. Robert Dunsmuir was engaged for many years with the Vancouver Coal Company, successors of the Hudson's Bay Company, as a mining expert at Nanaimo, and during his explorations in 1869 he discovered the famous Wellington mines, out of which grew the collieries which were the Wellington Colliery Company. Meanwhile James Dunsmuir, after some preliminary education in the common schools at Nanaimo, was apprenticed as a machinist in the colliery shops of that town. He spent four years in learning the machinist's trade, and was given a finishing touch by the Westley Iron Works at Portland, Oregon.

James Dunsmuir had attained his majority before he completed his education. He went back East to the Wesleyan Institute at Dundas, Ontario, and later to the Military School at Blackburg, Virginia. It was about that time he met Miss Laura Surles, daughter of W. B. Surles, of Fayetteville, North Carolina, whom he married in 1876.

Return to British Columbia.
On returning home James Dunsmuir found himself, like his brother, Alexander, required to work hard, and his father was developing and building up the great coal connection which placed him before his death at the head of this class of industry on the Pacific coast.

James Dunsmuir meanwhile acquitted himself with credit in the Wellington collieries.

Among his most pronounced characteristics was his ready grasp of complex problems of effective management and constructive detail. He was a tireless worker and he never shirked the roughest part of the work.

He was already known all over the West as the young man who had mastered coal mining from the lowest level up before he was twenty. The superior efficiency of his management was frequently the subject of contemporary inspection and study by owners or operators of other mines.

Death in 1889 removed his father, at a time when Robert Dunsmuir had become President of the Council, and a leading political figure in the Province.

The Island Railway.
In 1882 Robert Dunsmuir undertook the building of the E. & N. Railway under the terms of the Settlement Act. He secured the co-operation of the famous Big Game and Charles Hunter, Senator Stanford, L. P. Huntington and Mark Hopkins, the well-known California millionaires.

The railway was opened in 1885 from Victoria to Nanaimo. Its builders incorporated as the Pacific Improvement Company, secured a subsidy of \$750,000 cash from the Dominion Government, and a land grant of two million acres from the Provincial legislature. The Californians owned a half interest in the enterprise and the same share in the Union mines at Comox. All these interests were acquired by James Dunsmuir in 1897.

Three years later he sold the E. & N. Railway and land grant to the Canadian Pacific Railway at a figure said to have been between \$2,000,000 and a half and three million dollars. By the terms of the deal Mr. Dunsmuir reserved to himself all the coal rights as regards these lands.

After Robert Dunsmuir's death, James and Alexander continued the business as formerly for some seven or eight years, when they acquired the interests of the late Alexander Dunsmuir looked after the San Francisco end, while his brother James directed the railway enterprise and the coal mining operations. The death of Alexander, to whom estate he succeeded, placed the entire responsibility on James Dunsmuir.

Famous Lawsuit.
A great deal of litigation arose subsequent to Alexander Dunsmuir's death. Edna Wallace Hopper, the actress, a step-daughter of Alexander Dunsmuir, instituted an action against James Dunsmuir in an effort to break the will by which his brother's estate had been left to him. Incidentally with this legal proceeding was begun from within the family. The outcome, however, was favorable to James Dunsmuir before the various courts, before which these rather celebrated actions were heard, terminating with the decision of the Privy Council in 1906.

His Extensive Interests.
Mr. Dunsmuir spent a number of years steadily developing his extensive commercial connections, inheriting a great fortune he showed ability not only to keep the fortune intact, but to increase it enormously. Instead of public endorsements and other forms of fortune he always maintained a low profile and was much criticized of his attitude to society, particularly to organized labor and the Asiatic question, a criticism which never abated and always smouldering, was often blazed up by events of current history.

However, Mr. Dunsmuir went on pursuing the even tenor of his way, never complaining or explaining, and succeeded in building up a business of colossal proportions, and adding to the family millions. In 1910 the coal interests at Comox and Lady Smith were held to a company known as the Canadian Collieries (Dunsmuir) Ltd., promoted by Mackenzie & Mann.

Of late years, however, his direct influence on business had been declining. On that account, after being for eleven years a director of the Canadian Pacific Railway, he withdrew from the board at the annual meeting in 1911. It was his practice always to entertain the directors on their annual Fall visit here at his stately home.

The secure foundation upon which the business was founded was shown in his office management, his principal advisers having grown grey in his service.

His Political Career.
His political career began in 1898, when he was elected from Comox as a supporter of the Turner administration. In the following session, during the stormy period of the Semlin regime, he sat in opposition. After the defeat of Hon. Joseph Martin in the memorable campaign of 1900 Mr. Dunsmuir, then member for Nanaimo South, was called upon to form a Cabinet on June 15, 1900. Affairs in the Province were in a chaotic condition and the belief was general that a man of his business experience would best direct the helm. His Ministers included Hon. D. M. Eberts, Richard McBride, W. C. Wells, and J. D. Prentice. He resigned November 21, 1902, making room for Colonel Prior, the present Lieutenant-Governor, was during his term of office that a rift took place in his following. It was caused by the selection of J. C. Brown, of New Westminster, as Provincial Secretary, upon the retirement of Hon. J. H. Turner to accept the Agent-Generalship in London. Railway matters proved a disturbing factor during his term of office and were particularly responsible for the troubles he encountered as Premier.

He was scrupulously honest and hated sharp practice. When he heard suspicious rumors in a land deal he at once checked the delivery of the grants and set in motion the machinery for their cancellation. An expression he used on that occasion has become historic. "I won't have any monkey business as long as I am Premier," was his warning to the politicians. And he kept his word. Later when the matter was brought up in the Legislature, Mr. Dunsmuir showed no disposition to conceal anything and gave the committee full advantage of his knowledge.

Better Terms.
In 1901 he visited Ottawa with Hon. Mr. Eberts to plead better terms for British Columbia. A year later he represented the Province at the coronation of King Edward, in August, 1902, with Mrs. Dunsmuir, who had entertained the present King and Queen here during the Royal tour of 1901. As Premier, he directed affairs with no little skill. He was appointed Lieutenant-Governor on May 11, 1906, and held office until December, 1909. It was during that time that Charles Dunsmuir went to England, and were presented to King Edward at Windsor Castle in June, 1908.

Hatley Park.
During his term of office as Lieutenant-Governor Mr. Dunsmuir decided to leave British Columbia, his home in Victoria, and to build the magnificent home at Hatley Park, which is the most stately private residence in Western Canada, probably on the whole Pacific Coast. Situated in the village of Colwood, seven miles from Victoria, comprising 232 acres, the estate fronts on Esquimalt lagoon. The magnificent Fifteenth Century Gothic pile which Mr. Dunsmuir reared on the site has elicited the admiration and astonishment of every visitor. Gradually the grounds have been improved and extended until they are perhaps the most beautiful in the province.

Yachting and Golf.
Two things will always distinguish his association with sport in this community, one the building and operation of the magnificent yacht Dolaura in Scotland, which is now under new auspices figuring in the America Cup series, in which it is said an investment of \$200,000 was made, and the purchase of the Colwood links. Mr. Dunsmuir took a subsequent part with Mr. J. A. Sayward in buying the property which has now become one of the favorite links here, and adjoins the Hatley Park estate.

**M. W. HENDERSON NOW
AN M.D. OF MCGILL**

Montreal, June 7.—The degree of M. D., C.M., was conferred by McGill University Saturday on the following, who had fulfilled all the requirements of the University:
M. W. Henderson, Victoria; W. E. Henderson, Chilliwack; C. A. Ryan, Vancouver; A. W. Young, Revelstoke.
The degree of Master of Science was conferred on W. F. Edmonds, Vancouver.

**FARM CONVENTION
IN SASKATCHEWAN**

Regina, June 7.—How to make ends meet on the farm in the dry years and make progress in the favorable years is the problem which the convention at Swift Current on July 6, 7 and 8, authorized by Hon.

C. M. Hamilton, Minister of Agriculture, is setting itself to solve. Letters have been sent out by the Department to the rural municipalities covering a considerable area in the southwest of the province, requesting them to have delegates present at this convention in the hope that a way to combat drought conditions may be found as the result of the discussion among farmers who have made a success in the dry districts.

**TALLYING VOTES IN
UNION ELECTION**

Indianapolis, June 7.—The board of canvassers of the International Typographical Union met here to-day to canvass the votes cast in the recent election of international officers. Officers at the Union's headquarters here said it probably would be a week or ten days before the work was completed.

**PREMIER BAUTISTA
DIED IN LISBON**

Congestion of Lungs Caused Death; Petro New Government Leader

Lisbon, June 7.—Antonia Maria Bautista, Portuguese Premier and Minister of the Interior, died at 6 o'clock Sunday morning at the Ministry of the Interior. He was seized with a sudden attack about 1 o'clock Saturday afternoon during a ministerial conference. Physicians who were summoned diagnosed the condition as congestion of the lungs.
Ramos Petro, Minister of Justice, subsequently was appointed Premier.

**109 OFFICERS WERE
PUT ON PENSIONS**

That Many Officers of Canada's Permanent Force Retired Since Armistice

Ottawa, June 7.—According to returns received at the Dominion Bureau of Statistics for the week ended May 28, the quantity of grain in store at the different public elevators throughout Canada had decreased by 3,188,935 bushels as compared with the previous week. Wheat, oats and barley showed decreases of 1,490,992 bushels, 1,679,114 and 99,013 bushels respectively. Flax and rye increased 15,735 and 64,399 bushels.
Stocks in store at all points on May 28, 1920, were: Wheat, 21,592,945 bushels; oats, 6,559,949 bushels; barley, 3,056,892 bushels; flax, 504,600; rye, 256,928.

**FLIN FLON PUT
UNDER OPTION**

Mining Corporation of Canada Looks Over North Manitoba Copper Property

Toronto, June 7.—The Mining Corporation of Canada has secured an option on the Flin Flon property in Northern Manitoba, according to a statement made at the annual meeting of the Mining Corporation here on Saturday by W. R. Parker, second vice-president.
Diamond drilling on the Flin Flon copper property, Mr. Parker said, had established the presence of between 20,000,000 and 30,000,000 tons of copper ore and option has been secured on most advantageous terms.

**STATES TO RECEIVE
ABOUT \$500,000,000**

Will Have About That Amount From Germany's First Reparation Payment

Paris, June 7.—The share of the United States in the first 20,000,000,000 marks, gold, of reparation bonds, which Germany is requested to issue under the Treaty of Versailles will be about \$500,000,000, it was stated here to-day.
This sum will be for the first twenty months occupation of the Rhineland by American troops.

**GRAIN IN STORE
SHOWED DECREASE**

3,188,935 Bushels Less in Canadian Elevators May 28 Than Week Before

Ottawa, June 7.—A return tabled in the House of Commons by the Minister of Militia shows that 109 officers of the permanent military forces in Canada have been retired since the armistice on pensions ranging from \$416 to \$5,300. One over \$5,000, one over \$4,000, three over \$3,000, fourteen over \$2,000, and ninety under \$1,900 comprise this list of officers receiving permanent annual pensions.
Five officers have been promoted to generalships since the armistice. Of these, only General Sir Arthur Currie and Major-General J. H. Macbrien are still in the service. Of the eleven promoted to be brigadiers since the armistice, only Brigadier-General A. E. Swift is still in the service.

**LAND SETTLEMENT
CASE IN WINNIPEG**

Winnipeg, June 7.—Evidence given by D. W. Campbell, Director of Loans for the Soldiers' Settlement Board, at Saturday's session of the case of Mathew B. Fleming, contained several rather startling admissions of unfairness to Fleming. Maladministration of the Soldier Settlement Act and ignorance of how Fleming's application had come into the office or how R. W. Gardiner had received instructions to inspect the land at Amaranth. He admitted having written a misleading letter to the head office in Ottawa, in which he stated that the board here was quite satisfied with the land and with the purchase price and had examined Fleming.

It was quite true, he said, that the officials at Ottawa in all probability would gain a false impression from such a letter, but he could not say why he had written such a letter.

**MACKENZIE KING
TO SPEND MONTH
IN NORTH YORK**

Newmarket, Ont., June 7.—Hon. W. L. Mackenzie King, Dominion Liberal Leader, will spend a week in North York at the close of the session of Parliament. Then he will leave for a tour of the West, and on his return from the West he will put in a month in the riding, where he is to be a candidate in the next Dominion election, according to an announcement made as a result of a meeting of the North York Liberal Association.

**TECHNICAL EDUCATION
PLAN IN MANITOBA**

Winnipeg, June 7.—Vocational training centres at which young men and women graduating from primary and high schools may receive thorough practical education in various branches of industry as home economics may be established in the near future by the Manitoba Government. The Government has decided not only to participate in the \$10,000,000 fund for technical education purposes provided recently by the Federal Government, but also to embark upon a vigorous course of action in this connection.

**BANK FAILURE IN
ECUADOR REPORTED;
PANIC DEVELOPED**

Guayaquil, Ecuador, June 6.—The Bank of South America at Quito has been forced to close after a panic and heavy withdrawal of deposits.

HON. JAMES DUNSMUIR.

In the death of the Hon. James Dunsmuir, which occurred with startling suddenness at his Cowichan Lake residence early yesterday morning, British Columbia has lost a pioneer citizen whose varied activities and interests have filled a spacious part in its life and have been an important factor in provincial development. Practically his entire career had been spent in this Province, to which he came with his parents shortly after his birth at Fort Vancouver, Washington; for many years he directed vast industrial enterprises; he was a member of the Legislature, afterwards becoming Premier and subsequently Lieut.-Governor of the Province, and his name, therefore, is known throughout not only British Columbia, but the whole of Canada and the neighboring states.

It is not our purpose to review Mr. Dunsmuir's activities in industrial circles or in public life in detail in this comment; that has been done elsewhere in these columns. He was a man of outstanding business ability and unusual force of character whose able direction of the great interests he inherited and enlarged won for him a prominent place among the industrial captains of the continent. His incursion into public life was prompted by a genuine sense of duty, by a desire to place his business ability and experience at the service of the country for the country's good. No man cared less for notoriety or public acclaim; none was more intolerant of the requirements of what is called practical politics or political strategy, and it is one of the ironies of his career that it should have fallen to his lot to become Premier at a time when the political pot was boiling as it never had boiled before and seldom has boiled since.

His sole political ambition, as he often expressed it at the time, was to give British Columbia an efficient business administration, and he did his utmost to realize it. If he fell short of it, it was not for want of honest and earnest effort on his part. Those who know how little he cared in a personal way for political prominence or the prestige of high political position can best appreciate what it cost him in peace of mind, comfort and convenience to discharge the duties of Premier of the Province. The office of Lieut.-Governor which he filled successfully some years later was less exacting in the sense that it involved no party political activities or obligations.

In Mr. Dunsmuir the domestic virtues were highly developed. He was intensely devoted to his home and family. He took keen interest in the development of his beautiful estate at Hatley Park and later in his country place at Cowichan Lake. Although to outsiders he appeared to possess much of the reserve which is regarded as a characteristic of the country of his ancestors, his disposition was naturally kindly and considerate, and in his own, unostentatious way, he always was ready to render assistance in cases which appealed to him as deserving. The death of his gallant younger son, who went down in the Lusitania while bound for overseas service, was a heavy blow from which he never recovered. Nevertheless, while he had been in indifferent health for some time, there was nothing to indicate that the end was so near, and the tragic occurrence yesterday morning must prove a most poignant shock to Mrs. Dunsmuir and the family, to whom the sympathy of a very wide circle of friends will be extended in their bereavement.

WILL MR. WADE RESIGN?

British Columbia's Agent-General in London and the Premier apparently have a different conception of the status of a public servant and the extent to which he may level criticism against those who make the laws of the country and conduct the public business. It is patent, for instance, that Mr. Wade considers it quite within his right to defend his position when it is assailed by a member of the Legislature. It will be recalled that recently he objected to the remarks made by one of the Vancouver representatives during the recent session of the House, and communicated his rejoinder to the press. The Agent-General was promptly censured by the Premier, who categorically classified him as a civil servant in its strictest application, and his resignation is reported to be contemplated as a sequel. It must be admitted, of course, that all semblance of discipline would disappear if the Civil Service in its entirety were allowed to adopt the course pursued by Mr. Wade when the occasion appeared to demand it. But the

question arises, can the Agent-General of British Columbia in London be placed in precisely the same grade as, say a clerk at the Parliament Buildings, and, as such, be subject to the same limitations of redress if attacked? Does not the Province's representative overseas fill a special role? If he is not clothed with appropriate dignity and authority the Premier's admonition is incomplete unless it takes note of the many Old Country journals which have given this Province such useful free publicity through the application of Mr. Wade's peculiar journalistic talents, a branch of activity that has brought the name of our agent a good deal of prominence with its attendant profits to British Columbia.

We are of the opinion, therefore—and it is strengthened by the numerous marked copies of important periodicals which reach us from time to time, whose flattering references to the possibilities awaiting the investor in British Columbia may be traced to the efficacy of the Agent-General's work—that if the reported resignation follows as a result of the official admonition a serious blow will have been given to the prestige of this Province, and its London office will have been unwittingly reduced to the status of an unimportant branch of the public service of British Columbia maintained on sufferance. As such its usefulness would disappear.

THE CITY AND MR. PATTULLO.

Both Mr. Pattullo, on behalf of the Government, and the Mayor, as the civic representative, are to be congratulated upon the amicable conclusion of the second round of the housing controversy. At the inception of the scheme as far as Victoria was concerned the two authorities did not see eye to eye. As a result of a series of conferences, however, the necessary agreement in accordance with the terms of the statute was negotiated, and Victoria followed the lead set by many other cities in the Province. That benefit to many returned men in this locality would follow always was a foregone conclusion. But it might be well to suggest that should any difficulty arise in the future of such a nature as that just disposed of five minutes telephone conversation between the City Hall and the Parliament Buildings ought to be sufficient to settle it.

NOTE AND COMMENT

From Cambridge, Mass., comes the report that Autumn now has set in in Mars and that the first snowfall of the season has been recorded. The notification of the event reached Cambridge from Jamaica and it stipulates that the snowfall occurred at Isidis, which is in the neighborhood of that part of the planet known to observers as Syrti Major. It is gratifying to note that the strawberry crop at Gordon Head will not be damaged by this careless behavior of the elements.

The League of Nations is due for its first real test on Friday of next week when its Executive Council will meet in London to decide upon what official course shall be taken to combat the Bolshevik menace in Persia. Opinions appear to be divided upon the amount of responsibility which the Anglo-Persian treaty casts upon Great Britain. Mr. Bonar Law stated in the House of Commons the other day that its provisions did not involve the Motherland in armed interference with Persia's affairs. A large section of the press, however, inclines to the view that the treaty constitutes a protectorate. In the meantime, however, an age of mobile transport and a type of Bolshevik audacity may conspire and involve the Near East in a serious conflagration that would not wait for the League's decision.

Senator Hiram Johnson of California, who hopes to become President of the United States by his attacks upon the League of Nations, says his object in opposing the covenant is to protect the independence of his country. The Senator is unduly alarmed. No other country is cherishing any designs upon the independence of the United States, while every power which has become a party of the League of Nations is as jealous of its independence as the great republic is. The South American states, for example, without exception have joined the League for the purpose of obtaining a greater guarantee of protection for their independence than they could possibly have out of it—with all respect for the Monroe Doctrine.

A well-known German Independent Socialist leader declared that if the new German Parliament did not show a majority for his party they would seize power by violent means. That was what Lenin and Trotsky did. They called an election and the results showed that their party was a small minority of the constituent Assembly. Thereupon they abolished the constituent assembly at the point of the bayonet and have kept themselves in power by "violent means" ever since. No people who know the meaning of government would tolerate such a situation and the Independent Socialists of Germany never will succeed in setting up that sort of a regime.

OTHER NEWSPAPERS' VIEWS

SURPRISING STATEMENTS

(The Hamilton Times)
In a talk before a church forum in New York last Saturday night, Frank I. Cobb, editor of the New York World, made the surprising statement that the foreign language papers of New York exceed in circulation the New York Times, The New York World and The New York American, the three great papers in point of circulation. No doubt the majority of those who read the foreign language publications could not read the English language papers if they tried. There is apparently much need to Americanize the foreigner.

'T WAS ALL A CASE OF 'CHARACTER'

(The London Morning Post.)
A north-countryman was looking for work, and he applied at a certain mill for it. "Hasn't gotten character?" quoth the one in authority. "Nay, but a can get it." And off he went. An hour or two later he returned and again the same one demanded, with some asperity, "Hasn't gotten thy char-rac-ter?" "Nay, but I brought mine, but a've gotten thine. Good-mornin'!"

LETTERS TO THE EDITOR

Letters addressed to the Editor and intended for publication, must be short and legible. The Editor reserves the right to shorten the length of articles. All communications must be addressed to the Editor, and not to the publisher, and must be accompanied by a return address. The Editor is not responsible for the return of papers not submitted to the Editor.

WHAT THE MEETING DID.

To the Editor:—Owing to the fact that the account of the semi-monthly meeting of the Comrades of the Great War held on June 4 and published in your issue of to-day's date was cut short, I am afraid that same as reported does not altogether represent the spirit in which the meeting passed the resolutions and to those who were not present it is rather misleading.

You state that a telegram was sent calling upon the Federal Government to resign, owing to the fact that it had carried out its promises as made through one of its Cabinet Ministers, which is quite correct, but I would point out that no motion was carried out by the Hon. Dr. Tolmie in resigning personally, but that a copy of the telegram forwarded to Premier R. Borden was sent to Dr. Tolmie. In connection with the disapproval expressed with the other organizations represented in the Ex-Service Council, I would advise that a resolution was passed stating that it appeared that one or more of the other organizations represented upon that council had broken the agreement made between the four ex-servicemen organizations that nothing in the nature of an employment agency would be carried on by any of the four organizations, but that all employment would be handled through the S. C. R. Disapproval was expressed at the action of an association breaking the agreement and it was agreed that in the future the Comrades of the Great War would resume their activities in securing employment for its members.

Past President J. McKenzie and Sgt. A. Arms R. Smith did not resign from the Association. With the consent of the meeting they resigned from the Executive owing to the fact that they were not in a position to continue to act on that body at the present time.

ROBT. MACNICOL,
Pres., Comrades of the Great War.
MRS. ANDREWS REPLIES.

To the Editor:—I have been accused of giving information to the press regarding what took place in a private meeting of the School Board on Wednesday evening last. I wish to say that I merely corrected a misstatement in the report of that private meeting which appeared in The Colonist the next morning. That report stated: "Almost as soon as the doors were shut Mrs. Andrews and Trustee Aitken engaged in a verbal free-for-all that caused the chairman to call for several times. The vote for the appointment of Mr. Paul as Principal was three to one. Mrs. Andrews alone opposing the Board's action."

I gave no information whatever to The Colonist, but as the information that paper had received was misleading, in fact, I thought it right to give the correct statement to The Times. My statement to The Times was just what was in the official record of that meeting, which record is always open to the inspection of the ratepayers. It was correct, viz., that Mr. Wood one and I voted blank. As to that "verbal free-for-all" it was almost wholly on the part of Mr. Aitken, who very actively demanded of me why I had not attended two special meetings held quite recently for the purpose of considering the teachers' schedule. My reply was that that was my own business, whereupon he began a vicious and most offensive attack upon me. I appealed to the Chairman for protection against this most uncalled-for and ungentlemanly attack, but his answer was, "You can answer back if you want to, but it is no use several times." He made no attempt to stop the tirade of Mr. Aitken.

As to my absence from those meetings, I was in the city at the time, as I can easily prove by my physician and by a neighbor. I have been a member of the School Board for two years and I have attended all regular meetings, regularly held and all but four special meetings. In regard to my right to sit as a member of the Board, I supposed that matter was settled finally when I published in both daily papers the legal opinion of Mr. T. A. McDermid to the effect that I had a perfect legal right to be a member of the School Board notwithstanding the fact that my husband was a member of the High School Staff. I had previously been given the same opinion by Mr. Mason, former City Solicitor, who came to me and voluntarily assured me of my legal right to be a candidate when he found on election day that an unjust canvas was being made against me in the polling booth.

For one year previous to the last election Mr. Aitken was a member of the Board with me and he never raised the slightest question as to my legal rights to a seat on the Board. He saw me nominated again in January last, re-elected with a much larger vote than he had in the previous election, and again sworn into office, and was among the first to offer congratulations on my re-election. Now, possibly if I had always meekly followed his lead in certain matters he would not have needed to raise the question. Mr. Aitken accuses me of staying away from those special meetings when the teachers' schedule was being considered because I was interested in this schedule. When the first new teachers' schedule was drawn up in 1918 Mr. Jay, then Chairman of the Board, appointed a committee to draw up this schedule and made me convener of that committee. I not only was not afraid to act on that committee then, but I did the greater part of the work in preparing that schedule. At that time I had the thanks of many of the principals of our schools for my work in connection with that schedule, among them the Principal of the High School.

In the discharge of my duty as a School Trustee I have allowed no personal interest of any kind whatever to influence my actions. I have sought solely to discharge the duty I owe to the children and to the ratepayers as I understand it. Can my accuser say the same?

VANDALS STEAL GOLD FROM TOMB OF POET GOETHE

Weimar, June 6.—Via London, June 7.—Vandals last night invaded the Grand Ducal vault in the cemetery here in which lie the bones of Schiller and Goethe, the German poets, and did considerable damage. They stole gold and silver wreaths from their caskets.

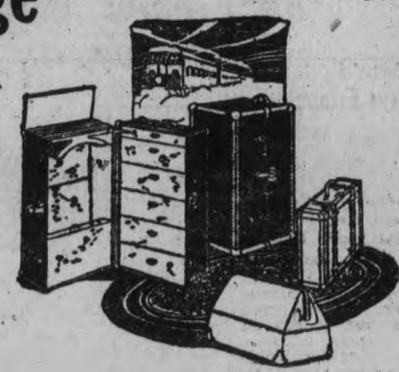

RAIN WELCOMED IN NOVA SCOTIA

Halifax, June 7.—(Canadian Press)—Welcome rain has fallen in Nova Scotia. The rain set in at 10 o'clock on Saturday night and since then there has been a continued downpour.

The rain brought great relief to the whole country and was particularly welcome to those whose homes were endangered by forest fires, and to the hundreds of fire fighters. It will also be a great help to the crops.

HUNDREDS OF STEERS EATEN BY SHARKS

Stamped and Jumped Overboard From Ship Near Havana, Cuba

Havana, June 7.—Virtually all of 800 fine steers aboard the American steamship St. Charles were drowned and devoured by sharks which infest the waters off Moro Castle when the animals stampeded and plunged overboard Saturday afternoon. A comparative few swam ashore and are now wandering about the suburbs. When sanitary officers boarded the ship on her arrival they found the bodies of 300 dead steers on the decks and discharged the carcasses. While the crew was engaged in this onerous task the animals aboard became stampeded. They rushed up and down the tigers of the deep awaiting them. Four were seen to strike the water almost simultaneously, and in an instant they were dragged beneath the surface, only a trail of blood telling their fate.

COUNTY COURT TRIALS

- Judge Lammpan in the County Court to-day set down the following list of trials for the June court:
- James Cronk (Tait) vs. George McMullen (Greig)
 - The Union Bank (Child) vs. C. R. V. Bishaw (Robertson)

COUNTING BALLOTS IN GERMANY NOW

Polling Was Conducted in Orderly Manner; Day Was Rainy One

Heavy Vote in Middle and South Germany and Ruhr Region

Berlin, June 7.—At 6 o'clock Sunday evening the polling booths throughout Germany closed, and the election committee is now busy counting the votes.

Reports late last night indicated that everything had been conducted in an orderly manner, the predictions of riots and insurrections having proved to be false. A steady downpour of rain doubtless helped to dampen the ardor of the more fiery spirits.

The participation of the electors was fairly active, but there was no rush at the polls. These were extremely numerous, 2,000 having been set up in Greater Berlin alone. At 9

o'clock in the morning, President Ebert and his wife recorded their votes together. They were followed shortly by Dr. Mueller, the Premier; Dr. Koester, Minister of Foreign Affairs, and various other Ministers. Reports from middle and South Germany and the Ruhr District indicated no disturbances and heavy balloting.

GOLDEN WEDDING OF MR. AND MRS. PETERS

Happily United For Half Century; Friends Congratulate Them

Happily married for fifty years, Mr. and Mrs. Robert William Peters, of 2883 Heron Street, Oak Bay, received the congratulations of a number of friends on Saturday.

They were married at Christ Church, Watney Street, St. George's in the East, London, on June 5, 1870. Mrs. Peter's maiden name being Hannah Mickleborough. Mr. and Mrs. Peters have been residents of this district since May, 1906, when they arrived from England with their daughter, now Mrs. James McGuire, and the eldest son, Sergt. Robert Peters. The other sons, Walter and Arthur, had come to Canada a short time previously.

Mr. Peters incidentally yesterday celebrated his 75th birthday. He was associated on leaving school with the London Dock Company for a number of years, and then in the carrying trade, first with old established firms, and later for sixteen years in his own account, in Aldgate Street, London, E.C. At that time the dock system in the East end of London had not grown to its present dimensions, and during the time he was there he saw the whole system of shipments revolutionized by the application of the electric telegraph. Most of the ships coming into the docks brought wool from Australia, wines and spirits from the ports of Spain and Portugal, and other commodities of a similar character. Where formerly, he told The Times, it was necessary to ship large quantities of southern wines into England as soon as the submarine telegraph connections were made to the continent, smaller direct shipments could be handled at once. He remembers the launching of the Great Eastern, and the celebration at the peace after the Crimean war.

Mr. and Mrs. Peters were called upon, among others, on Saturday by Mrs. Campbell, Mr. Gravin, Mrs. Mason, Mrs. Hines, Mr. Hydes, Mr. Pomeroy, Mrs. Lawley, Mrs. McKinnon, Mr. and Mrs. Scroggs, Mr. and Mrs. Sheard, Mrs. and Miss Short, Mr. Sowerby, Mrs. Stanion, Rev. William Stevenson, Mr. and Mrs. Thornby, Mr. and Mrs. Turner and Mr. and Mrs. F. Woods.

ALDERMANIC TOP

HATS ASSAILED

Island Paper Says They Have Long and Glorious History

Sometimes, not often, but sometimes, the duty of a Victorian alderman is lighted, for a moment, by a passing ray of sunshine. But these periods of brief happiness are so transient and so rare that when an item like the following appears in the "Chronicle," as it did the other day, it is really appreciated by the city fathers:

"Occupying a prominent position in the grand parade at the Hudson's Bay Co. pageant in Victoria on Empire Day, was the civic automobile conveying His Worship the Mayor and certain aldermen. Many of the spectators did not recognize the City Fathers at first and it was not until explanations were made that the citizens and visitors realized that the civic heads had entered into the celebration with great zeal and forethought and vied with each other in the exhibition of ancient and honorable headgear. The contrast between the silk hats worn by the Lieutenant-Governor and party and those of the Mayor and aldermen was most startling and Lieutenant-Governor Prior and his party appeared in modern, up-to-date silk titles, which were most becoming and properly placed, while those donned by the City Fathers were productions of days long gone by and the wearers were not particular in which direction the hats were tilted. Mayor Porter, for instance was arrayed in a silk "plug" which first saw service in the year 1215, when King John was constrained to sign the Great Charter that affirmed all the great principles of constitutional government. Alderman Todd looked well in his silk "dud" which has been handed down from generation to generation from the time of the Irish Kings. It has been stated on excellent authority that this particular hat was manufactured for an Irish King and was actually worn by him at his coronation. Then Alderman Sargent appeared in a relic which took its initial trip to America on the ancient, but palatial ship "Mayflower." It speaks volumes for these gentlemen and their ancestors that these particular silk hats are in so perfect a state of preservation and should their descendants exercise the same social degree of care, these hats will, no doubt, again appear two hundred and fifty years hence when the H. B. Co. celebrates its 500th anniversary."

Says Sangster Responsible
Members of the City Council whose headgear is assailed in this article declare that Alderman George Sangster, who refused to deck himself in a silk hat on the occasion in question, was responsible for the literary outburst. Alderman Sangster, who is a friend of the editor of the "Chronicle," does not deny this allegation and he has taken a great delight in showing the item to all and sundry about the City Hall.

staying for a few weeks with Mr. and Mrs. Tom Gore.

Mrs. J. C. Bahame, of Burnaby, and her sister, Miss Helen McLeod, arrived in the city this morning and are the guests of their aunt, Mrs. Duncan MacKenzie.

A motor party from Nanaimo, consisting of Mrs. J. Langham, Mrs. R. Scott, Miss C. Chadwick and E. B. Chadwick, are guests of the Dominion Hotel.

The Earl and Countess of Kerry left last night for Vancouver, after

having spent some days in Victoria and up the Island.

Mrs. Graham Thomson, first vice-president of the National Chapter, I. O. D. E., and Mrs. A. J. Stewart, National Organizing Secretary, made a short visit in Victoria last week prior to returning to Toronto.

Seattle visitors in the city over the week-end include Lieut. Carvel Hall, U.S.M.C., Mrs. G. Alston Hole, Miss Alice Hole and Mrs. Clinton Douglas, under Miss Leighton, senior captain.

Mrs. Jambé Cameron will be "at home" to her friends at "Roseboro," 1085 Moss Street, on Friday, June 11, from 4 to 6 p. m.

Walter Pumfrey, former engraver at the Times, who is now in business at Vancouver, was in the city over the week-end.

Fred G. Cox, A. F. Hall and A. Kneen motored down from Port Alberni and are stopping at the Dominion Hotel.

Among yesterday's arrivals at the Dominion Hotel are James Vipond and Miss Vipond, of Nanaimo.

Miss Lily Price, of St. John, N. B., is visiting her brother, Mr. R. B. Price, 1615 Richmond Avenue.

Lt.-Col. and Mrs. Lindsay, of Kelowna, are registered at the Empress Hotel.

Mr. J. H. McConnell has returned from a ten days' holiday at Kamloops.

F. C. Smith, of Saturna Island, is a new arrival at the Dominion Hotel.

D. Stewart, of Cowichan Lake, is registered at the Dominion Hotel.

Mrs. R. Knox Hougate is in the city from Vancouver.

"J" UNIT CHAPTER GIVES SILVER TEA

CAMPAIGN WEEK COMES TO CLOSE

Hospital campaign week which has engaged the attention for some days past of the Women's Auxiliary of the Jubilee Hospital, came to a close on Saturday when the total was brought to \$1,052. The subscriptions on Saturday amounted to \$68.75. It is not too late yet for anyone to send their \$2 which places them on the membership roll of the auxiliary.

Members of the auxiliary worked hard all the week to gathering in the membership fees which will materially assist in the activities of the organization which is a very useful adjunct to the hospital.

TAKE UP BEE-KEEPING.

A great many women are turning their attention to bee-keeping as a profitable side line on the farm. The Central Park Women's Institute is making a feature of an address on the subject at their next meeting on June 17.

LAST LECTURE OF SEASON.

L'Alliance Française will hold the last lecture of the season in the Provincial Library next Friday at 8:30 p. m. when Madame de Kerpedron will speak on Madame Victor Hugo and La Poésie Provinciale.

Celebrated Golden Wedding.—Mr. and Mrs. James Simpson celebrated their golden wedding last Tuesday at their home, 611 Superior Street. Mr. and Mrs. Simpson came to the city from Scotland in 1907. Mr. Simpson is an authority on the raising of forest trees and generally in forestry matters. He is well-known in Victoria for his advocacy of thorough cultivation of soil and aeration of trees. The couple have surviving a family of six sons and four daughters, all married. Three sons and two daughters are in British Columbia, two sons in the United States, one in Scotland, and two daughters in Australia. The surviving grandchildren number twenty. In the Great War they were represented by two sons, two sons-in-law (one killed), and three grandsons. The eldest son, Charles, was captured at Vimy Ridge and spent two years in Germany as a prisoner of war.

PROMINENT "Y" WORKER.

Miss Caroline Macdonald who about fifteen years ago inaugurated Y. W. C. A. work in Japan, and was for ten years national secretary in Japan, is visiting British Columbia. She was recently the guest of Mrs. W. J. Baird, Balfour Avenue, Vancouver. Lately Miss Macdonald has been performing social service for prisoners, ex-prisoners and their families.

CLEAR GRATIFYING SUM.

The gratifying amount of \$400 was cleared from the proceeds of the garden party held last Wednesday at "Gonzales" under the joint auspices of the Ladies' Guild to the Connaught Seaman's Institute, and the Navy League Chapter, I. O. D. E. The thanks of the guild and the chapter are extended to the Women's Canadian Club, the Nest of Kin Association, the Philo Society Daughters of the Covenant, Mrs. Kingham, and everybody who contributed to the success of the event.

GARDEN CITY INSTITUTE.

The Garden City Women's Institute will hold its monthly meeting at the home of Mrs. Dewar on Thursday, June 10, at 2 p. m. A social afternoon has been planned.

St. Jude's Mission.—The members of St. Jude's W. C. are arranging to hold a garden party at the home of Mrs. Abbey, "The Firs," Gorge Road, on July 7. There will be various stalls, ice cream, etc.

GIRL GUIDES HOLD FETE

Lieutenant-Governor Reviews Them at "Gonzales"; Outdoor Entertainments Provided.

Girl Guides, under their Commissioner, Mrs. Albert F. Griffiths, held their fete at Gonzales Saturday afternoon. Lieutenant-Governor Prior, accompanied by Mrs. Prior, reviewed the companies as they filed past under Miss Leighton, senior captain.

Then the Victoria Brownies formed a fairy ring, the 2nd Victoria Lady Douglas's company demonstrated ambulance work, the 1st Victoria Camosun company gave a fire drill, the 4th Victoria Gonzales company gave a flag drill. The Strawberry Vale company and the 3rd Victoria James Bay company, newly organized, made their debut.

During the afternoon the Commissioner presented a thanks badge to Miss Unwin for her work in promoting the success of the corps. Miss Unwin has been secretary for the rally for some time.

The Oak Bay Brownies gave "Curly Locks," a sketch, the Camosun company directed a fish-pond, the Gonzales company hired ponies, the Brownies conducted the "Imperial, Limited," the James Bay Guides under Capt. Fowle, a butterfly competition, a "hoop-la" and a candle lighting contest. The Lady Douglas company conducted attractions such as clock golf, "making the money fly," big game shooting of teddy bears, bunnies, rabbits, small and big puppies and a baby elephant. There were also stalls which sold articles.

Boy Scouts under B. G. Goward watched the gates.

London, June 7.—Miss Rhoda Broughton, the novelist, died Saturday at her residence near Oxford.

A Cure for Pimples

"You don't need mercury, potash or any other strong mineral to cure pimples caused by poor blood. Take Extract of Roots—druggists call it "Mother Seigel's Curative Syrup"—and your skin will clear up as fresh as a baby's. It will sweeten your stomach and regulate your bowels." Get the genuine. 50c. and \$1.00 Bottles. At drug stores.

ACCOUNT BOOK FOR USE BY THE FARMER

Provincial Department of Agriculture Issues An Up-to-Date Aid to Success

Acting upon periodical suggestions from agriculturalists and realizing the fact that the time has arrived when the farmer should keep an accurate and up-to-date record of all his business transactions, the Provincial Department of Agriculture has

produced a farm account book for the convenience of the farmer who wishes a general summary of his year's business without entering into too much detail. It is designed for a record of farm business only and is not intended to include either personal or household accounts.

A book of this character, the Department considers, should prove of considerable value in the matter of assessment and income tax for the purpose of making appeals, and generally to act as a proper check upon the general business of the farm. It is contended that it should be beneficial to the farmer who is desirous of negotiating a loan for the simple reason that the average banker will more readily incline favorably towards accommodation if he is shown an easily understandable statement. The Department takes the view that the absence of records in any business is not a recommendation which is calculated to inspire confidence, and a tighter money market very probably will be responsible for more exacting conditions in connection with monetary advances of any kind.

In general the book has been divided for the following records: Farm receipts, farm expenses, inventories of real estate, livestock, supplies, and so forth, at the beginning and at the end of each year. Subdivisions provide for the complete record relating to acreage and yields of crops, crops held for sale, seeding, fall ploughing, feed, seed and other supplies, cattle, horses, colts and mules, sheep, swine, poultry, machinery, livestock service record, poultry breeding record, daily egg record and memorandum.

A good cream wove paper has been employed in the manufacture of the book which is bound in a stiff manilla cover; forty-four pages comprise its bulk and the size is convenient for the busy man.

Borden Gives Assurance Building of Dry Dock at Esquimalt Will Proceed

Tells Board of Trade President Question Has Been Settled Definitely By The Government; J. L. Beckwith Hopes For More Satisfactory Fishery Regulations After Visit of Minister.

Assurance that it is the Federal Government's intention to proceed with the construction of the Esquimalt drydock was given to J. L. Beckwith, president of the Victoria Board of Trade, during a recent visit to Ottawa, by Sir Robert Borden himself. Mr. Beckwith, who returned to Victoria yesterday afternoon, states that the delay so far in the commencement of construction has been due to the unstable condition of labor and the price of materials. He declares that the sooner these conditions become more settled the sooner will it be possible for contractors to tender on the work.

During his stay at the Capital Mr. Beckwith discussed with Hon. C. C. Ballantyne, Minister of Marine and Fisheries, the new fishery regulations that have met with such protest from Pacific canners. He was greatly surprised to find that the Minister's views on the matter coincided to a great extent with his, but not with those of a number of high fishery officials. In view of these facts Mr. Beckwith is hopeful that later on, following the visit of the Minister to the coast in the Fall, the canners may have cause to be more satisfied with conditions.

Construction Will Proceed. "For information I gained at Ottawa from authorities worth having," said Mr. Beckwith when interviewed today, "there is no doubt in my mind that the building of the drydock will go on. There are difficulties in the way of an immediate start chiefly on account of unsettled conditions just at the time. It is hoped, however, that these will be righted in the very near future, and there is no question, in my opinion, that the work will proceed. The quicker there are some signs of stability in the matter of labor and of securing materials at steady prices the quicker contractors will know what to do in placing figures and tenders on the work."

"The delay so far undoubtedly is due to unstable conditions, and the longer costs continue to advance the longer is the prospect of delay. However, I had an interview with the Prime Minister—who, by the way, appears in most excellent health, and completely recovered from his recent illness—and he stated to me, when discussing the drydock matter, that the Government had definitely settled the question of building the dock at Esquimalt."

"I also spent a good deal of time with Hon. F. T. Martin, who is performing faithful service to his constituency if ever a man did. All he needs is strong support, and not criticism to help him in his work. I feel that the people of Victoria should show due consideration and a little patience in the matters he has in hand."

Ballantyne to Come West. "I had an interview with Mr. Ballantyne, who hopes to be out to the coast in September, and to secure a real insight into fishery conditions," said Mr. Beckwith, who is one of the best known canners on the coast, pointed out to Mr. Ballantyne a number of points in connection with the new fishery regulations so unsatisfactory to the canners. "I found," said Mr. Beckwith, "that his views coincided with mine to a great extent—but not those of certain officials who have a good deal of authority in the matter. While Mr. Ballantyne is criticised severely in some quarters, in my opinion, when he becomes more fully conversant with fishing conditions on this coast, it is altogether likely we shall be better satisfied."

Royal Arcanum Business. Mr. Beckwith spent some days at Montreal as the representative of British Columbia and Washington States at the 43rd annual meeting of the Supreme Council of the Royal Arcanum. A large number of delegates from Canada and the United States, he says, attended the sessions of the Council in the Windsor Hotel, the meeting lasting for seven days.

"A large amount of important business was transacted," Mr. Beckwith stated, "and the various reports submitted show that the Royal Arcanum is in a more satisfactory condition than it has been in for many years. The results of the last year show a big gain in membership and a magnificent standing. The greatest degree of satisfaction prevailed among the delegates. On account of the fact of having been

incorporated under the laws of Massachusetts the Royal Arcanum has been unable to make investments outside the United States. But owing to an amendment to the Massachusetts laws this has been changed, and while in session the order invested \$100,000 in Canadian bonds. The Order has a reserve fund of nearly ten millions of dollars all well invested.

"Great satisfaction was expressed among the delegates over the manner in which the order had handled its claims due to losses in the Great War, all of which were paid in full without any extra levy on the members—a record not shown by many institutions doing life insurance. "Plans were made for an active campaign during the coming year. The next place of meeting will be in Massachusetts, probably near Boston. Toronto invited the Council to meet there next time, but Massachusetts won out."

HON. J. D. McLEAN PLEASUED WITH TRIP

Cordial Reception Accorded Premier and Himself in the Interior

Gratified by the cordiality of the reception accorded to the Premier and himself during their two weeks' tour of a number of the interior constituencies, the Hon. J. D. MacLean, Minister of Education and Provincial Secretary, returned to his office at the Parliament Buildings this morning.

No Discontent. "At all points visited," Dr. MacLean observed to The Times representative, "a lively interest is being manifested in the work of the Government, and the absence of complaint, with the exception of a few minor departmental matters which were capable of adjustment, indicates to my mind that the people as a whole are satisfied with the policies of the present administration. At any rate we were unable to discover any trace of the signs of discontent to which the Leader of the Opposition has referred so frequently during the last few weeks. On the other hand, what may be called a more or less general distaste for politics in the accepted sense of the term has been replaced by an intelligent examination of the affairs of the Province and their treatment at the hands of the Government. That our accounting to the several ridings visited was a satisfactory one may be deduced by the enthusiasm demonstrated by the meetings at the cordiality with which our addresses were received."

Dealt With Representation. On each occasion both the Premier and Dr. MacLean dealt exhaustively with the legislation passed at the recent session of the Legislature and, without exception, the Minister of Education says there were frequent expressions of surprise that such an amount of beneficial measures already were the law of the land.

To a number of statements made by the Leader of the Opposition since the House prorogued, both Ministers devoted the requisite amount of attention, their side of the question receiving the effect of what Dr. MacLean described as a type of tactics freely indulged in by the Opposition. Apart from dealing with the political situation generally Dr. MacLean dwelt upon matters pertaining to his department, which included an explanation of the policy adopted by the Government in respect of public health, education, financial support for schools, hospitals, and so forth, as well as an account of the treatment meted out to returned soldiers by the Government.

Taxation and Finance. The Premier embodied the subjects of taxation, finance, new registration and the Government's public works programme in most of his platform utterances.

LIQUOR SALES FOR MAY NOW COMPLETE

Official Returns Show Brisk Business in Ship of Importations

In spite of the facilities by which the private individual may import liquor into this Province for his own use the returns tabulated by the Prohibition Commissioner indicate that the total official sales for the month of May and April this year were largely in excess of those for the corresponding months last year, when the individual was barred from the privileges of importation. The "health" of British Columbia, therefore, appears to have been subjected to a serious decline during the intervening period, the chief malady

HEART SO BAD

Was Not Safe To Leave Her Alone.

Miss Eva P. Yateman, Krugersdorf, Ont., writes: "I feel that I must write and tell you of the great benefit I have received from Milburn's Heart and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and was down in bed for about six months. I doctored with two different doctors and seemed to get better, although the fainting spells would not leave me. I would take such terrible falls, when I was that it was not safe to leave me alone at any time. At last I decided to resort to proprietary medicines and took several different kinds, but seemed to receive but little benefit from them. One day noticing the advertisement of Milburn's Heart and Nerve Pills, I decided to try them, and before I had taken more than two boxes I could see they were helping me. I have taken about ten boxes, and am almost cured of those terrible spells, and I feel that your medicine has proved a blessing to me, and I advise any one troubled with their heart to try them, as I am confident they will find relief."

Milburn's Heart and Nerve Pills are 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

BRIEF LOCALS

Buy Plot at Elk Lake.—John Wood, of Toronto, has bought one and one-half acres of strawberry land in the Percy Estate at Elk Lake. There is a modern bungalow on the property. Mr. Wood is to make his home here.

To Visit School.—Lieutenant-Governor Prior will visit the singing classes at Quadra School to-morrow at 2.30 o'clock.

Music Examinations.—The local examinations in music, to be held in the city by McGill University, will commence on Wednesday, June 9. The officiating examiner is Dr. Hodgson.

Earthquake Recorded.—An earthquake was recorded at the Gonzales Observatory on Friday at 8.33 p. m. Shocks were recorded for two hours and a half, the origin of the quake being 5,000 miles distant, in the South Pacific.

Arion Club.—The members of the Arion Club are requested to attend a short rehearsal this evening in preparation for the concert to be given at the Royal Victoria Theatre on Thursday evening in connection with the visit to this city of the Canadian Manufacturers.

Burglars Active.—During the last week or ten days burglars have been active every night in some section or other of the city. On Saturday night the Belleville Street ticket office of the C. P. R. was broken into, and ransacked, but the thieves apparently found little. C. E. Bagnshaw, of Richardson Street, also reported that his house had been attempted by a burglar who, however, was not successful in his objective.

Cost of Living Bonus.—Extract from District Order, M. D. 11, contain the following: The civilian cost of living bonus has now been authorized for 1920-21. O. C. units, heads of departments and their employees will therefore forward pay list in quadruplicate for April and May, 1920, prior to June 7, and the twenty-fourth of each succeeding month. Separated into its components to be shown on separate pay list headed "Supplementary." Instructions are being mailed.

Vital Statistics.—Vital statistics compiled for Victoria and District during the month of May show a decided majority of births over deaths. Marriages were unusually numerous. Separated into its components the table runs: Victoria, 109 births, 49 deaths, 46 marriages; Oak Bay, 1 birth, no deaths, 2 marriages; Esquimalt, 4 births, death, 1 marriage; Saanich, 8 births, no deaths, 5 marriages. Totals, 122 births, 50 deaths, 54 marriages. Boys predominated in all districts except Saanich.

Prepare For Lawn Fete.—The ladies of St. Andrew's Cathedral are preparing for a garden party on Wednesday afternoon and evening, June 16, at the home of Mr. and Mrs. Alex. McDermott, Uplands. There will be the usual decorated booths and a variety of lawn games. As Uplands is looking very lovely just now it is expected that many will take the opportunity of visiting this beauty spot.

Court of Appeal Continues.—The Court of Appeal to-day, continued the hearing of the appeal of Manson vs. Campbell in which S. S. Taylor, K.C., of Vancouver is acting for the plaintiff-appellant. L. J. Ladner is appearing for the Campbell interests. Cases set down for this afternoon are: Nantel vs. Hemphills, Standard Bank vs. Kirkpatrick and Re: vs. Mah How et al.

To Discuss School "Frills."—Taxpayers of Ward Seven, Saanich, will hold their meeting at Tillamook School on June 14 to discuss with J. W. Gibson, of the Department of Education, and Reeve Watson, of Saanich, the question of educational "frills," such as manual training, school gardening and domestic science. Many taxpayers are claiming that these educational features are chiefly responsible for High School taxes and should be suspended.

Monthly Police Record.—Fifty-seven cases were recorded by Jailer Hall in the May report at the police court, of which fifty-five were convictions. The record runs as follows: Aiding lottery, 2; city by-laws, 7; drunkenness, 25; fraudulently obtaining lodging, 1; Indian Act, 2; inland revenue Act, 1; vagrancy, 1; safe-keeping, 15; unsound mind, 1; accidents with first aid rendered in 17 instances. The patrol wagon made the total activity of the police by any means, as during the holiday on May 24, not less than four pickpockets were caught at work and shipped out of town immediately, while in numerous other instances the presence of certain persons, it was intimated, could be dispensed with without loss to the community.

Mr. Emerson G. Goodwin, Cambridge, N. B., writes: "For nearly ten years I suffered from boils and pimples on my face and neck, and nearly all of my body was covered with the pimples. I tried most everything, but got no relief. One day a friend advised me to try Burdock Blood Bitters, and after using three bottles the pimples and boils had all left me and there is no sign of them returning. I can strongly recommend B. B. to anyone who is troubled with skin disease."

Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

NEW GOLF COURSE OF PRIVATE NATURE

Would Replace Recently Defeated Municipal Links Plan

If negotiations which have been proceeding during the last few days come to a satisfactory conclusion Victoria will have a new golf course operated by private enterprise, but much along the lines of a municipal links.

Following the rejection of the municipal golf-links scheme by the electors recently a number of gentlemen interested in golf and the attraction of tourists to the city have been considering the possibility of establishing a privately-owned links. It is their desire that such a links should offer as nearly as possible the same advantages as regards fees and proximity to the city, as were offered by the plan which was defeated at the polls.

Developments during the last thirty-six hours make them confident that the scheme which they have evolved will mature satisfactorily.

The gentlemen who are backing the scheme, and who intend to invest money in the project, it is understood, are well-known citizens of Victoria, but until definite arrangements have been made they prefer to remain in the background.

NEW LIQUOR PRICE LIST IS NOW READY

Eight Ounce Ailments May Now Be Cured For Seventy Cents Up

In the new price list issued by the Prohibition Commissioner there is an additional column. Hitherto there were only two. Their mission was to advise the medical man and the druggist what it would cost to cure the two-quart ailment. The third column now informs the feeble patient what it will cost him to alleviate the pangs of an eight-ounce ailment.

But the way from seventy cents to \$1.50 there are varied prices at which the abbreviated portion may be obtained on presentation of the regular prescription. For instance, eight ounces of alcohol can be obtained for ninety cents. The identical amount cost \$1.50. And if the ailment is not sufficiently acute to require the more expensive cure there is a brand of rye costing seventy cents for the eight ounces. A variety of Scotch is obtainable at prices ranging from one dollar to \$1.30.

These being spirituous liquors, their use means increasing the amount of the prescription unless the doctor is prepared to subscribe to an oath in which he must conscientiously believe. The life of his patient demands a whole bottle, or two whole bottles, with which to effect a cure.

But in the case of malt liquors and wines the old quantities may be prescribed according to the judgment of the doctor without declaration. Thus champagne and beer are still outside the pale of the new limitation.

AT NANAIMO REVIEW.

The following officers and members of Queen Alexandra Review left on Sunday afternoon for Nanaimo to attend the Review as well as several candidates for class initiation: Commander, Mrs. Galbraith; Lieutenant-Commander, Mrs. Laing; Record Keeper, Mrs. Ritchie; Chaplain, Mrs. Bloom; Lady-at-Arms, Mrs. Stephens; Sergeant, Mrs. Burnett; Sentinal, Mrs. Bell; Musician, Mrs. Watson; Captain of Guard, Mrs. Hoey; Color Bearer, Miss Watson and Mrs. Irvine; Mrs. Bly, Mrs. Manson and Mrs. Hoey, Jr.

OBITUARY RECORD

The death took place at her family residence, 1274 Mitchell Street, Oak Bay, of Mrs. Maria Norcross, widow, after a residence of several years in this city. The late Mrs. Norcross was born in Liverpool, England, and is survived by relatives in this city and elsewhere. The remains are to be deposited at the B. C. Funeral Chapel, and will be forwarded to-morrow to Duncan, where interment will take place in the Quinceville Cemetery. Rev. Mr. Stevenson officiating. The family will accompany the body.

The death occurred on Saturday, at his residence, 915 King's Road, of M. Daniel Martin, aged sixty years, a native of Ireland, and a former resident of Sooke, where he was a well-known farmer. The late Mr. Martin had been a resident of Canada for twenty-eight years and after a residence of several years in this city. The funeral will take place from the B. C. Funeral Chapel to-morrow at 3 o'clock, when service will be held. Interment will be in Colwood Cemetery.

The death took place at the Jubilee Hospital on Saturday night of Nellie Emma Conway, aged thirteen years, after a long illness. The little girl was the daughter of Mr. and Mrs. Edward Conway, 608 Pioneer Street, Esquimalt, and is survived by ten brothers and sisters. The funeral will take place to-morrow at 1.30 o'clock from the B. C. Funeral Chapel, Rev. Hugh Allen officiating. Interment will take place in Ross Bay Cemetery.

Her choice among Gifts

WOULD undoubtedly be a piano—for what other wedding present is there that could possibly mean so much in true and permanent enjoyment?

Her choice among Pianos

WOULD undoubtedly be this little gem of an instrument, the Nordheimer Apartment Upright—for what other pianoforte could so completely fulfill her idea of what is required for "her home beautiful"?

She knows it—she will fully endorse the selection of it—she admires it as much for its artistic design as for its notable tone.

NO TAX CHARGED on Pianos at This Store

MARKET OPEN ON HALF HOLIDAY WEDNESDAYS

Certain Classes of Goods May Be Sold As in Other Establishments

If recommendations to be submitted to the City Council immediately by the Market Committee are adopted, the Public Market will remain open on Wednesday afternoon for the sale of a considerable class of products mentioned in the Weekly Half-Holiday Act.

In making this announcement to-day, Alderman Robert Dinsdale, chairman of the Market Committee, declared that it was only fair that the market should be given the same opportunity as retail stores. He pointed out that a number of retail establishments were able, under the provisions of the Weekly Half-Holiday Act, to open for business on Wednesday afternoons. The market, however, was closed and the stallholders could not compete with the retail stores doing the same class of business.

"I see no reason why we shouldn't have the same opportunity as the stores," said Alderman Dinsdale, mentioning particularly a new market which has opened in the city.

The goods which will be sold in the market Wednesday afternoons include all dairy products, cut flowers, bakery products, fresh fruits, ice cream and confectionery.

Local Branch Has Membership of Thirty-Four

Organization of Victoria manufacturers and the co-ordination of their activities with those of manufacturers throughout Canada was effected last year.

Two years ago the British Columbia Manufacturers' Association was organized with fifty-seven members. The membership has increased since that time to 177. Last year Victoria manufacturers formed the local branch of the B. C. Division, a membership of fifteen. The membership has been swelled now to thirty-four. It is hoped soon to have a membership of fifty here.

At the time of organization Edwin Tomlin was chairman. He was succeeded this year by Norman A. Yarrow, R. W. Mayhew becoming vice-chairman. The executive consists of

M. W. Graham, J. L. Tait and Mr. Tomlin. T. J. Goodlake is secretary.

VANITIE DEFEATED RESOLUTE TO-DAY

Newport, R.I., June 7.—Vanitie defeated Resolute to-day in the second of the official trial races to determine the defender of the America's Cup.

The official figures gave Vanitie, which led Resolute over the finish line by 2 minutes 20 seconds, a corrected margin of 1 minute 34 seconds.

Don't Hawk, Blow, Sneeze, or Cough Use "Catarrhazone"

When germs attack the lining of the nose make you sneeze and gag—when later on they infest the bronchial tubes—how can you follow them with a cough syrup?

You can't do it, that's all. Cough syrups go to the stomach—that's why they fail.

But Catarrhazone goes everywhere—gets right after the germs—kills them—heals the soreness—cures the inflammation—makes Catarrh disappear. Not difficult for Catarrhazone to cure, because it contains the essences of pine balsams and other antiseptics that simply mean death to catarrh. Large size costs \$1.00 and contains two months' treatment; smaller sizes 25c. and 50c., all druggists and storekeepers.

VANCOUVER WOMAN GAINED 21 POUNDS

Flu Had Left Her in a Deplorable Condition. Says Mrs. Wedd; Tanlac Again Proves Its Worth.

"When I started taking Tanlac I only weighed ninety-five pounds. Now I weigh a hundred and sixteen and never felt better in my life."—was the truly astonishing statement made by Mrs. E. T. Wedd, of 1290 18th Avenue East, Vancouver, B. C.

"I had such a severe attack of the flu about a year ago that I wasn't expected to pull through, and when at last I was able to get up I was in such an awfully weak condition I couldn't seem to get back my strength no matter what I did. I had so little appetite that the very smell of food upset me, and often I couldn't be coaxed to sit down to the table at all. I had throbbing headaches most every day that almost drove me frantic, and spells of utter weakness when I thought I was going to faint. I was just a nervous wreck for the least little noise, would make me jump, and every thing seemed to irritate me. The least bit of noise kept me awake at night, and I couldn't rest until my husband had gone to

"When my husband advised me to try Tanlac I said to him: 'Well, bring me home a bottle if you think it will do me any good.' The very first few doses seemed to do me good, and in a very short time I had such an appetite that I wanted to be eating all the time. I am now so much stronger that I can do all my housework without even getting tired, and just think of it! I have actually gained twenty-one pounds in weight. I haven't had a headache since I started on Tanlac, and my nerves are so much better that nothing affects or worries me, and I sleep just fine. It is six months ago now since I stopped taking the medicine, but I feel just as well now as I did when I left off taking it. I don't know when I felt so well as I do now, and I am very grateful to Tanlac for the great good it has done me."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

TAG DAYS TO RAISE FUNDS FOR OLYMPIAD

Ottawa, June 7.—With a view of obtaining sufficient funds to send Canadian athletes to the Olympic games, the Ottawa Amateur Athletic Federation may hold a tag day in this city and will turn over the bulk of the proceeds to the Olympic committee.

It now develops, says a local paper, that the Canadian committee are sadly in need of funds to send the team across the ocean.

The Dominion Government has granted \$20,000 towards the fund, but an equal amount is still necessary.

In Toronto, the scheme of holding a tag day was first proposed by the Sportmen's Patriotic Association and by this way they are confident they can raise considerable money.

The federation, at Saturday night's meeting also decided that if Ottawa is to have representative at the Olympic games, that Mike Goodwin be sent over in charge of the Canadian boxers and wrestlers.

UNIVERSITY BOYS MAKE NEW RECORDS

Eight New Track Records Hung Up by Schools Boys at Their Annual Sports

Exceptionally creditable performances were made by the track athletes of the University School at their annual sports held at Mount Tolmie on Saturday afternoon.

Not less than eight new records were hung up for the school. Several sprinters, who should develop into splendid athletes, were uncovered.

The performance of Hulse II. in the sprints for boys under 14 years, was particularly fine.

Parker, who is under sixteen, ran the quarter mile in 57 seconds, which is good for a junior.

Alvazoff, a fifteen-year-old boy, stepped over the 100 yards in 11.8 seconds, which would do credit to sprinters years his senior.

The new records set up on Saturday were as follows: Quarter-mile, under 16, by Parker, in 57 seconds.

100 yards, under 11, by Coulter II, in 15 seconds.

200 yards, under 15, by Alvazoff, in 27.2-5 seconds.

100 yards, under 13, by Williams, in 12.4-5 seconds.

Quarter-mile open, by Pritchard, in 53.2-5 seconds.

220 yards, under 14, by Hulse II, in 29.3-5 seconds.

100 yards, under 14, by Hulse II, in 10.9 seconds.

100 yards, under 15, by Alvazoff, in 11.1-5 seconds.

The sports were about the most successful the school has ever held. There was a large and distinguished assemblage of parents and friends who applauded the efforts of the young athletes.

Presented Prizes. His Honor the Lieut.-Governor was present and before presenting the prizes made a short address in which he complimented the boys on their performance.

He took occasion to remind them of the great deeds of their fathers and brothers in the late war and said that those deeds were possible because of such days as Sport Days.

Bonar won the senior championship with 14 points, and Clark I. was the runner-up with 8 points.

Hulse II. was the junior champion with 11 points, and Coulter I. was the winner up with 3 points.

Besides presenting the prizes won at sports His Honor also presented the following additional prizes: Gymnastic championship (the Croft Cup), won by Alvazoff.

Boxing championship, won by Helgesen.

Boxing prizes: Class II, Dawson; Class III, Bonar; Class IV, Ramsay, and Class V, Law.

B. C. Senior Cadets' shooting competition, second prize, Stuart.

Serjeant-Major Watson acted as starter; A. G. Boulton as timekeeper; J. Heimken, R. D. Harvey and R. Hall were the judges; J. C. Barnackie was clerk of the course; and the stewards were E. S. Shore, R. Schleg, G. C. Stuart, C. H. Helgesen, R. W. Goodie and P. E. Dawson.

RESOLUTE IS READY FOR SECOND TRIAL

Newport, R.I., June 7.—A ten-knot westerly breeze was sweeping across Lower Narragansett Bay to-day when Resolute, with a new steel mast, and Vanitie, handled by a somewhat impatient crew, made sail for the second of their trial races at this course to determine the defender of the America's Cup.

The regatta committee planned a triangular course to-day. Just before the start it looked like two reaches and a beat to the finish. The weather was clear with skies somewhat overcast.

CONGOS TAKE LEAD IN CITY CRICKET

Defeat Five C's During Rain Storm Saturday; Garrison Easy For Victoria

By Veritas. As a result of Saturday's games, the Congos are, for the time being, undisputed leaders of the league.

The Five C's batted first and scored 90 runs. The Congos commenced their innings with Ferris and Tucker, playing careful cricket.

The innings had not been long in progress, however, before the rain drove the players to the pavilion, and no less than four starts were made before the Congos concluded their innings with 94 runs for six wickets, thus gaining a four wickets victory.

Victoria gained a somewhat easy win over the Garrison, the scores being Victoria 99 for 2, Garrison 87.

The Army and Navy put up a game fight against the Incogs, but were beaten. However, although at the bottom of the league at present, they have nothing to be ashamed of, as all the teams they have been up against so far, are exceptionally hard nuts to crack at any time.

The season is only young yet, and while they may not have gained any points, the Veterans have made a reputation for good sportsmanship second to none.

The full score follows: Five C's.

TERRIFIC HITTING FEATURE OF RACE

Total of 1,103 Hits Made in American and National Leagues Last Week

New York, June 7.—The close races for leadership in the two major baseball leagues are almost eclipsed by the heavy batting and scoring of nearly all the teams.

The American League amassed a total of 209 runs and 571 hits in 28 games last week, while the National League had a total of 250 runs and 532 hits in 27 games.

Of the 30 home runs made in the younger league, 21 were pounded out at New York, where "Babe" Ruth, the Yankee slugger, brought his season total to 15.

In the National League 18 home runs were made. New York at Top.

Brooklyn and Cincinnati, world champions, both with pitching staffs going steady, are fighting for first place honors in the National League, with the Eastern team leading by one game.

Grimes of the Superbas, won his fifth game yesterday, blanking New York. Reuther, of the Reds, lost his first game yesterday after eight consecutive victories.

were pounding Philadelphia's pitchers. The Cleveland pitching staff is faltering and only the stickwork of the Indian batters is keeping them in the running.

The two leading teams in each league meet in the series starting next Saturday.

Cubs Are Slumping. The Chicago Nationals slumped badly after their winning streak of nine games was broken and the Cubs lost their sixth game in a row yesterday.

All their star pitchers suffered defeat last week, including Alexander, who had run up a record of 11 straight victories.

Pittsburgh, Boston and New York are doing good work with the bat, but are unsteady in the field.

St. Louis is displaying another flash of winning form, and yesterday captured its fifty straight game, Philadelphia appears weak in scoring power.

In the American League, Boston is fast losing ground, through light hitting, dropping its first game in a row, counting yesterday.

The Chicago pitchers are receiving almost perfect support and have tightened up somewhat, with the result that the White Sox climbed into third place yesterday, ahead of Boston.

Washington, after having its pitchers pounded by New York, now faces a long tour in the West.

St. Louis has recovered from its losing slump and is doing well against strong opposition. Poor fielding and weak pitching are keeping Philadelphia low in the race.

BILL HART STARS
IN ROYAL FEATURE

"Blue Blazes Rawden" is Typical Story of Lumber Camps

The attraction at the Royal Victoria Theatre, for three days only, commencing to-night, will be that popular screen artist, Bill Hart, in "Blue Blazes Rawden." This play

TO-DAY'S AMUSEMENTS

Princess—"So Long, Letty."
Pantages—Vaudeville.
Dominion—"His House in Order."
Variety—"Sooner or Later."
Columbia—"All of a Sudden, Peggy."
Royal Victoria—"Blue Blazes Rawden."

deals with life in the lumber camps, where virile manhood wrests wealth from the forest. It is a story with more depth of plot than is usual in

Bill Hart plays, and it is crammed full of exciting action. It is a big, clean, wholesome drama which holds the attention and interest without exaggerating the conditions under which these men live, and the romantic love of the big lumberman touches the hearts of the audience. Bill Hart has never failed to entertain Victoria audiences, and there is no doubt that those who see this photoplay will not be disappointed. A good comedy, weekly, and a scenic round but the balance of an excellent programme.

CHARMING STORY OCCUPIES COLUMBIA

Marguerite Clark in "All of a Sudden, Peggy"

In "All-of-a-Sudden Peggy," which comes to the Columbia all this week, we have the happy assurance once more that "God's good to the Irish" even when they are stranded in an English home. Thus, with mischief in her eye and intrigue in her heart, Marguerite Clark, as the impulsive Peggy, flits gracefully amid the staid surroundings of a British manor and receives the flattering glances from every male member of the household. It is a gay, frolicky comedy with a wealth of wit in the subtleties, and a laugh at almost every turn of the wheel. Whether Marguerite Clark, so typically of the "maid in America" stamp, should be awarded the generous Irish brogue with which the author has invested her, might be questioned. At any rate her interpretation of irresistible Peggy is delightful.

The cast has been wisely chosen, and includes foremost among its members Jack Mulhall as an ardent and altogether charming lover, and Orral Humphrey, who has mastered to a fine degree the details of an eccentric make-up and characterization. Lillian Leighon, Maggie Fisher and Sylvia Jocelyn have the other important roles. As a background for constantly varying scenes appropriate and pleasing sets have been secured.

The Story
Anthony, Lord Crackenthorpe, who is given to hunting and trapping spiders, invites Mrs. O'Mara, wife of a late professor of zoology, to help him write a book on his favorite subject. His mother, Lady Crackenthorpe, is infuriated at the presence of Mrs. O'Mara and her daughter, Peggy, who take up their abode at the Crackenthorpe home.

Fearing that Anthony will fall in love with the vivacious Peggy, Lady Crackenthorpe's brother invents a scheme for distracting Peggy's attention from the heir to the Crackenthorpe estate. In reality, a romance is well under way between Anthony and Peggy's mother, who is quite as deeply interested in spiders as he is. Thus, when Jimmy, the younger son, returns, he is advised to start an "affair" with Peggy, which he does quite willingly. She, however, is more devoted to play-writing than to Jimmy.

But upon learning that her mother is in love with Anthony and has refused to accept him until she sees her daughter safely married, Peggy is obliged to use strategy. She departs from the Crackenthorpe residence and leaves a note saying that she has become the wife of Jimmy.

"All of a Sudden"

Upon arriving in the city, her purse is stolen from her, and, being unacquainted, she suddenly decides to go to Jimmy's rooms. Her movements are watched by a scandal-loving neighbor, who annoys the girl, but does not deter her from carrying out her plan. In the morning Jimmy rushes in, finds her, and soon reads of his marriage to her in the morning paper. Presently Lady Crackenthorpe arrives, indignant and unforgiving. The situation does not improve upon her learning that the story of their marriage was false. Disaster to all seems imminent, but Peggy saves the day (for herself and Jimmy at least) by making up her mind that she does love him and will marry him "all of a sudden."

STORM SPECTACLE

HEADS PANTAGES

"Thunder Mountain" Presents Stage Drama in Its Most Thrilling Form

Headlining an excellent bill of vaudeville at the Pantages this week is another premier spectacle production by Langdon McCormick, vaudeville's Lincoln J. Carter. Following closely on his "On the High Seas," which created great interest at the Pantages a few weeks ago, his "Thunder Mountain" is expected to even surpass its popularity.

"Thunder Mountain" opens with a beautiful scenic panorama. This prologue is introduced in a series of drops that are artistic bits of stage painting and lighting. The act closes with a tremendous dramatic spectacle in which a lonely cabin in the mountains is blown to pieces during a fight between outlaws and the Northwest Mounted Police. Realistic thunder and rain add to the convincing effect of the presentation.

Like all of the other McCormick productions, there is a well enacted dramatic plot to "Thunder Mountain" and, headlining the competent cast are Charles Bartling and Ann Hamilton.

A second big act on the bill is "Broadway Echoes," featuring Billy Sharp. It is similar to minstrel productions, in that every member of the company contributes a specialty, but there are no black face comedians. There are seven girls and three men in the cast, the musical numbers and dancing is perhaps the best of the season.

Lohse and Sterling, a smart couple in "Frolicsome Follies," demonstrate remarkable agility on the Roman rings and trapeze. The male partner accomplishes much clever work on the trapeze while balanced on a chair.

Mabel Harper and company contributed an excellent repertoire of fetching songs coupled with some first-rate chatter, while Winchell and Green offer a singing, talking and dancing novelty entitled "Puppy Love."

Another episode of "Adventures of Ruth," starring Ruth Roland, makes the movie fans sit up and take notice.

Allan Dwan, after a semi-vacational expedition through the mountains of California in search of "atmosphere," has begun work on the last of the series of six pictures he contracted to produce for Mayflower. As yet no title has been decided upon for this picture.

Mrs. Morton (angrily): "Tommy Horton, what made you hit my little Jimmy?"
Tommy: "He struck me w/d a brick."
Mrs. Morton (more angrily): "Well, never let me hear of you hitting him again. If he hits you, you come and tell me and I'll whip him."
Tommy (in disgust): "What! He hits me w/d a brick, and you have the fun of hokin' him for it? Not much."—Blighty.

THOUGHTFUL WILLIE.

Mr. Slim—"Willie, didn't you go to the trunk-maker's yesterday and tell him to send round the trunk I ordered?"
"Willie—"Yeh, pa."
Mr. Slim—"Well, here is the trunk, but no strap. Didn't he say anything about the strap?"
Willie—"Yes, pa; but I told him I thought you hadn't better have any strap."

DOMINION OFFERS SOCIAL LIFE STUDY

Elsie Ferguson Is Happily Cast in "His House in Order"

Elsie Ferguson is happily cast in the film version of Sir Arthur Wing Pinero's drama of British social life, "His House in Order," which will begin a week's run, at the Dominion Theatre to-day.

The story relates the troubled adventures that befel a vivacious English girl who entered the home of a Member of Parliament as a governess and afterward became his second wife. The discovery that his first wife was not exactly the paragon which he thought her and the insults to which the heroine is subjected by the relatives of the dead woman, lead to a highly dramatic situation which is worked out in an entertaining manner.

The action has been portrayed against a background that is thoroughly beautiful from a natural standpoint. The English countryside has been reproduced with striking faithfulness and the whole photoplay has been mounted upon a large measure, of course, due to the talented star.

Miss Ferguson is thoroughly at home in her portrayal of the gover-

STARRING AT DOMINION

ness. It is a part that calls for considerable versatility as well as emotional talent, and the beautiful star meets every occasion adequately. She is supported by Holmes Herbert, Vernon Steel and other excellent players. Hugh Ford directed the picture. It is a Paramount Artcraft.

VARIETY PRESENTS

"SOONER OR LATER"

Owen Moore Appears in Well Adapted Role

When a man tries to effect a reconciliation between his pal and his pal's wife, he usually lands in hot water, even though the scheme was proposed by his pal.

This is what happened to Patrick Murphy (Owen Moore) in "Sooner or Later," which opens at the Variety Theatre to-day. Patrick enters into a conspiracy with his bosom friend, Robert Ellis, to do the Sherlock Holmes act and locate the whereabouts of Robert's wife. The young bride has disappeared from home, and Robert believes that she has become false to her marriage vows and has fled from his manly protection.

Patrick sets forth on his mission and then the complications begin to arise. He abducts a girl who proves to be the "wrong girl," and before the confusing tangles have been straightened he finds himself married to a girl whom he before had never known.

"Sooner or Later" is straight comedy-drama of the cleanest variety, and is said to furnish Owen Moore with a role to which he is particularly well adapted.

TRADING WIVES

DID NOT ANSWER

Exchange of Spouses in "So Long Letty" Played at Princess

This week's offering at the Mildred Page Players, "So Long Letty," a comedy in three acts, promises to be a very pleasing attraction, especially for those who like the comedy.

The plot is of two young unmarried couples very much unsuited to each other, and tells how the two husbands decided that they should exchange wives, but soon learn that the trade was a poor bet, but then to trade back again was not the easiest thing in the world, and unforeseen complications set in which cause many humorous situations.

Miss Page, as "Letty," has a role in which she excels, while Byron Aldern has a part admirably suited to his particular style of acting. Miss Nina Guilbert, who scored such a hit in last week's bill, will again be seen in a comedy role, while Tom Sullivan, Jack Phipps, Geo. Sullivan and the other male members of the cast all have excellent roles. Miss Berkeley, as a newspaper reporter has a splendid role.

Altogether the show promises to make a big hit with Victorians.

Men and Women, You Now Have a Chance of Regaining Your Health Since the Importation of

"VITAL" TABLETS

The Great French Tonic

At All Leading Druggists.

Weak and run-down, tired and full of pains. Do you know you can feel better in a few days if you are only wise enough to take VITAL, the Great French Tonic. Your pains and aches will go. If you are run-down, no ambition, tired and lazy, VITAL will make you strong. VITAL builds up the nerves, purifies the blood, removes rheumatism, cleanses the whole system, drives out everything that pertains to disease. Disease cannot live where VITAL is. Why suffer? COMEDY AND TRAVEL PICTURE

THE CANADIAN MANUFACTURERS' ASSOCIATION

(INCORPORATED)

The Canadian Manufacturers' Association, the National Organization of the Manufacturers of Canada, is holding its Annual General Meeting at Vancouver, B. C., on June 7th, 8th and 9th, and in Victoria on June 10th and 11th. In order to give some information in regard to the history, objects and organization of the Association the following statement is being published:

HISTORY OF THE ASSOCIATION

ALTHOUGH the history of The Canadian Manufacturers' Association goes back as far as 1872, for many years it consisted of local organizations in two or three principal industrial centres and its activities were necessarily provincial, with the result that, in 1899, when it was launched as a national organization, its membership was only about 300. It was incorporated by Act of Parliament in 1902. By 1905 its membership had grown to 1,604; by 1910 to 2,450; by 1915 to 3,098, and the present membership is 4,100. From a few isolated groups with no common policy, the Association developed into a national organization extending from coast to coast.

OBJECTS

According to the Constitution "the objects of the Association shall be to promote Canadian industries and to further the interests of Canadian manufacturers and exporters, and to render such services and assistance to the members of the Association, and to manufacturers and exporters generally, as the Association shall deem advisable from time to time."

While the Association has adhered constantly to these objects it has not confined its energies entirely to their pursuit. Through its president, its council, its committees and its members, and its general activities as an incorporated body, it has striven not only to promote and safeguard the interests of its members, but also to contribute in every possible way to the national welfare.

QUALIFICATIONS FOR MEMBERSHIP

Any individual, firm, partnership or corporation, carrying on in Canada, under his or its own name, a manufacturing business that gives employment in its mechanical department to not less than five employees, shall be deemed to be eligible for active membership.

GOVERNMENT OF THE ASSOCIATION

The government of the Association is thoroughly democratic and is based on the theory of responsible government. All members of the various governing bodies are elected. Any member is eligible for the position of president and any member can nominate whom he pleases for any office.

The organization of government is described briefly as follows:

1. **Annual General Meeting.** The annual general meeting called in June is the supreme governing body. Each member has one vote irrespective of the size of the firm he represents and all policies submitted at the annual general meeting are determined by open voting.

2. **The Executive Council.** The Executive Council is elected by ballot on the basis of one member of the Executive Council to every fifty members of the Association. The Council governs the Association between annual general meetings.

3. **The Executive Committee.** The Executive Committee is a small committee elected from the Executive Council, having functions similar to those exercised by a board of directors.

4. **Standing Committees.** The following Standing Committees are elected annually:

Transportation Committee	Membership Committee	Commercial Intelligence Committee
Tariff Committee	Insurance Committee	
Legislation Committee	Industrial Relations Committee	Publishing Committee
		Education Committee

These Committees supervise the work of departments bearing the same name and report to the Executive Council.

5. **Officers.** The Officers of the Association are:

President	Second Vice-President
First Vice-President	Treasurer

They are elected each year at the General Meeting.

6. **Staff.** The salaried staff consists of a general manager, general secretary, department managers, secretaries, and clerical assistants.

SPECIALIZED DEPARTMENTS

The Head Office of the Association is situated at 1404 Bank of Hamilton Building, Toronto. The Association maintains a number of specialized departments which furnish members with various services. These departments are described as follows:

1. **Transportation Department.** This department advises members on all matters affecting rail and water transportation, and also telegraph and telephone communication.

2. **Tariff department.** This department advises members in regard to rulings, decisions and regulations of the Board of Customs, Orders in Council, entries, post entries, dump duties, refund, drawbacks, seizures, etc. It studies the tariffs of other countries in order to advise exporters in regard to foreign tariff rates and invoice requirements.

3. **Insurance Department.** This department gives expert advice on all matters pertaining to insurance. It also devotes special attention to the study of fire prevention.

4. **Legal Department.** This department studies Industrial and Commercial Law.

5. **Commercial Intelligence Department.** This department keeps up to date a list of all Canadian manufacturers and the articles which they make. It seeks to inform members of opportunities to sell goods, both at home and abroad, and also to furnish information where raw material may be bought.

6. **Industrial Relations Department.** This department studies questions relating to Industrial Relations between employers and employees such as welfare, industrial councils, wages, hours of work, and conditions of labor. The Association does not interfere in strikes or other labor disputes.

7. **Trade Sections Department.** Through this department problems of specific lines of trade are studied.

8. **Publishing.** The publishing department attends to the works of issuing all publications.

9. **Education.** The Association has always tried to improve the standard of education in the country especially that of technical education.

10. **General.** The Association encourages all kinds of research. At the present time special committees are dealing with such problems as the development of an adequate fuel supply in Canada, production, industrial and scientific research, and technical education.

DIVISIONS

For administrative purposes the Association is divided into five divisions.

1. **Maritime** (Nova Scotia, New Brunswick, and Prince Edward Island). Division office, Amherst, N. S.

2. **Quebec** (Quebec Province). Division office, 113 Board of Trade Building, Montreal.

3. **Prairie** (Manitoba, Saskatchewan, Alberta). Division office, 503 Northern Crown Bank Building, Winnipeg.

4. **Ontario** (Province of Ontario). Division office, 1404 Bank of Hamilton Building, Toronto, Ont.

5. **Pacific** (British Columbia). Division office, 705 Board of Trade Building, Vancouver, B. C.

The Association also maintains an office in the Booth Building, Ottawa.

Workers Employed in Canadian factories and their families and dependents number over two millions. The value of products manufactured in Canadian factories this year will be about four billion dollars.

Manufacturers Have Added to Membership During Past Decade

In Ten Years Since Association Last Met in Vancouver Organization Has Supplemented Roster by 1,500 Names; 160 in British Columbia.

A whole decade has elapsed since members of the Canadian Manufacturers' Association last toured Western Canada and held their annual convention in Vancouver.

The membership of the association, which was barely 2,600 in 1910, has swelled to over 4,100. Its offices, its staff, its committees and its services have expanded remarkably. What was a loosely-knit organization has become a well-rounded and systematized body, fully national in its scope, and yet organized to deal with local problems as well.

Growth of Association
To the growth of the Association the West has made notable contributions. In 1910 there were in the Province of Manitoba 102 members; there are now 343. Alberta and Saskatchewan had together but 16 members; they have now 173. British Columbia's membership has grown

from 113 to 162. The four western provinces combined have increased their membership in the decade by 447 or 139 per cent. In the same period the increase in all Canada was 1,500 or approximately 58 per cent. The expansion of the Association in Western Canada, while coincident with the industrial growth of the

country, has been greatly assisted by the adoption of the policy of establishing branch offices to care for the needs of different sections of the country. The Association has for some years operated offices in both Winnipeg and Vancouver, which have been specially charged with looking after the interests of the manufacturers of the prairie provinces and of British Columbia.

Modelled on Constitution
As a matter of fact, the entire system under which the Canadian Manufacturers' Association operates is modelled very closely on the constitution of the Dominion of Canada. There is the General Association, with its headquarters in Toronto, which approximates to the Dominion Government at Ottawa. Its five divisions—Maritime, Quebec, Ontario, Prairie and Pacific—correspond to the provincial jurisdictions. The branches are like the municipalities. Governments in each case are thoroughly democratic, every member having an opportunity through his vote to express his convictions.

Based on Service
The growth of the Association has been based on service. At the head office, which is located in Toronto, there are to be found those departments which exist for the purpose of assisting members with the many problems that crop up continually in the conduct of manufacturing establishments.

There are in all eight regular departments in operation at the head office, and, with the growth of the

work, the staffs of these departments are steadily being enlarged. They are all in charge of men who are recognized experts in the several lines of activity in which they are engaged. The transportation department is one of the most important of the departments, being charged with the task of advising and assisting members on all matters affecting rail and water transportation. The tariff department is thoroughly conversant with customs matters and dealing with problems connected with the application of the tariff. The insurance department gives advice and information on insurance matters, fire prevention, etc. The legal department, as its name implies, deals with questions of industrial and commercial law. The commercial intelligence department is actively engaged in keeping records of manufacturers and their products and furnishes information on many matters connected with industry and trade. The industrial relations department studies questions involving the relations of employers and employees. The trade sections department deals with the problems of specific lines of trade. Finally, the publishing department attends to the task of issuing all Association publications.

The saving to industry and through industry to the country as a whole resulting from the constant endeavor of the staff of the association to solve the problems of industry, will mount up in the course of a year to a very large sum.

T. P. HOWARD EXPLAINS MANUFACTURERS' STAND ON DOMINION POLICIES

(Continued from page 1.)

but it would appear now that progress will be made in the spirit of co-operation and in the knowledge of the fact that there is a relationship between the interests of all classes of citizens, irrespective of their occupations.

Russia's Experiment
"Although there is perhaps not sufficient information to pronounce a verdict on the great Russian experiment which has a few enthusiastic admirers, even in this country, we can at least point out some of the reasons why it has not been attained to date. In the first place, it withdraws Russia from the war and increased the loss of life and money suffered by the allies; second, it is maintaining Russia in her position of complete isolation from the rest of the world; and, third, it has produced the announcement published recently in the American official organ of Sovietism, that the Russian Soviet is conscripting the labor of the entire population above sixteen years of age. Further, the state department of the United States says that the experiment of a ten and twelve-hour day in Soviet Russia was announced by the Bolsheviks on February 19 last.

Hours of Work
"Hours of work must be governed by a country's necessity for production. The result of the experiment of establishing the national eight-hour day in France by law does not seem to have been satisfactory, according to an announcement made by the Minister of Commerce in France at Paris, on April 11 last. In referring to the report of the commission which had been appointed to investigate the results of the establishment of the eight-hour day, the minister said that the production in France, had decreased in exact proportion to the reduction in the hours of labor. It is being realized that there is no vague fund provided by supernatural means, out of which wages, interest charges, operating costs and dividends are paid. These have a common origin, and that origin is production.

This Province
"The Province of British Columbia, for example, fifty years ago did not promise any man a living or even a minimum wage or fixed hour of labor. The Province of British Columbia said: "There is timber in the forests; there are fish in the rivers; there are valuable minerals in the mines; there is wealth in the land. If farmers, miners, fishermen, lumbermen and manufacturers come here to take these natural resources, and out of them fashion something that will sell, and find someone who will buy it, they can have a living." That was the bargain the Province of British Columbia made with its settlers. These pioneers provided capital or borrowed it; they secured directing ability; and they worked as long and as hard as they could. The result was that a portion of the great natural resources of British Columbia, over and above what was needed for her population, was made saleable, and markets have been secured for it, and out of the proceeds of these sales wages have been paid, organizing and directing ability has been paid, and capital has been given a return. In other words, the production of British Columbia has been a source of wealth. It is against this iron fact, that so many of the theories of social and political re-organization break to pieces. Improvement of the living conditions of those engaged in industry, and of the people as well, comes gradually, not by violence and revolution, but through the application of science, intellect, experiment and industry to the processes of production and distribution.

The Cost of Living
"The high cost of living, which oppresses us all, is not a local condition in Canada—it is world-wide—the inevitable result of a great war which is caused partly by scarcity of materials and the immense demand of Europe for everything we produce. Another cause is the great inflation of currency which is largely a credit expansion necessitated by government borrowing. A further cause is extravagant living for it is obvious that, if every family in Canada increases its luxuries and comforts, the scarcity of material will also be increased, and the price of commodities will rise in consequence. It has been stated, in some quarters, that manufacturers favor high prices. This is not true for a very good reason. Manufacturers are the heaviest buyers. During a period of high prices materials are scarce, dear and difficult to secure. Wages are enormously increased owing to the increased cost of living. This adds to the risk of manufacturing operations. Moreover, when prices are unduly high, the purchasing power of the public is decreased, which results in decreased production and output. People will not build, for example, after prices reach too high a point. In a country, such as Canada, which is of great area and of a relatively small population, a manufacturer especially desires output because the most satisfactory results are secured from a large turnover at a price that will induce the public to buy freely. An increased production of materials from farm, factory, mine and forest, is the greatest need of Canada today, and will do more than anything else to lower the high cost of living.

Export and Import Trade
"The following statistics from the returns of the Department of Trade and Commerce indicate our position in regard to export and import trade:

Year Ending March 31.	Imports.	Exports.
1918	\$ 942,543,746	\$1,586,109,792
1919	1,064,516,177	1,286,628,709
1920	1,215,715,528	1,185,194,620
Total Trade.	\$2,548,715,528	\$2,857,933,121

Taxation
"Taxation is not a popular subject, certainly not with manufacturers, who are the heaviest taxpayers. Manufacturers pay the bulk of customs tariff duties. They pay excise taxes, stamp taxes, taxes on insurance, taxes on goods sold to them, income taxes, corporation taxes, and, in addition, the ordinary taxes paid by the consumer; but we must face

Been Waiting Had They?

Store too small to hold the crowds! Door had to be kept locked greater part of the day Saturday

Judging from the crowds in attendance here since the opening of this Sale Saturday, I should say they've been waiting for some time for a real old-fashioned Cathcart Sale. It was an impossibility for us to give everybody service on Saturday, and many people had to be turned away. We are sorry for this, but the selling will continue for several days yet and we hope to see you all back, and feel sure that the values we are handing out will amply repay you for the extra trouble. We'll be better able to take care of you from now on, but we would like you to shop mornings where possible. Exchanges must be made before 11 a.m. Store opens 9 o'clock during Sale.

621 Fort Street, Pemberton Building

the fact that Canada has been through a great war which has cost enormous sums of money, and our increased taxes are for the purpose of helping to pay the cost of the war.

"The government must have struggle with the difficult problem of securing it by current taxation than to adopt the easier and more dangerous method of unnecessary borrowing.

"The association last year also went strongly on record in favor of tariff preference among the various countries constituting the British Empire. The war strengthened the ties which bind the Empire together, and we believe these ties would be further strengthened by the extension of imperial preferential tariffs.

Transportation
"Since our last meeting the Dominion Government has added to its railway systems, by the purchase of the Grand Trunk Railway. The people of Canada will not be so much concerned with alleged principles underlying ownership of railways as they will be with results. They want service at the lowest cost, consistent with quality of service. The standard of railway service furnished by the Canadian Pacific Railway in the past and at present to the people of Canada is a tribute to the efficiency of private management, and should be maintained. The success of the government's experiment cannot be estimated at the present time, and it will succeed or fail according to the quality and cost of the service supplied, and to

the extent to which government is divorced from political interference.

Public Ownership
"During the year, there has been some extension of the principle which is commonly known as public ownership. Again here we should not yield to the temptation to argue over abstract principles. The application of the principle of public ownership is, after all, entirely a matter of degree. There must always be public ownership in the sense that the government must control certain services, and this has been admitted for centuries. No one, for example, would advocate placing the army or the navy under private ownership and management. The post office should be under government management. As in similar cases, the real question is, where shall the line be drawn? Some people advocate that all transportation systems should be owned and operated by the government. A great many people argue that water power should be owned and controlled by the government. A few people even advocate that all factories should be owned and operated by the government. Other progressives contend that all land, including farms, should become government property, should be divided into areas, and that over each area a government inspector should have full control and that all farmers should become government employees on salary.

"Similar proposals are advocated in regard to publishing, banking, in-

surance and wholesale and retail trade. If government ownership and control is carried to the extreme lengths which are advocated by some people it logically means that private property will disappear and, to some extent, that personal freedom will disappear, and that the entire population will become civil servants on the national pay roll, to be promoted, transferred, pensioned or dismissed according to the pleasure of the government in power. One naturally wonders in contemplating this tremendous scheme, who would make the appointments, who would decide the type of work that would be done by each individual, who would fix his pay and decide his hours of labor, and what would be the incentive of the individual to put forth his best efforts?

I believe that moderate-thinking men do not condemn or approve public ownership or private ownership as such. On the other hand, they are inclined to say "Let us have public ownership where it can be demonstrated that it is more satisfactory to all classes than private ownership." It has been the practice of British people to go very slowly from precedent to precedent, and only to accept what appears to have reasonable chance of succeeding; and in regard to this question of public ownership we should do well to be guided by this practice.

The president dealt with agriculture and immigration, and stated at the conclusion, that the membership of the association had grown from 2,600 in 1899, to 4,061 at present.

H. H. BROWN

The Tailor and Costumier

Makes a Slaughter of His Entire Stock

COMMENCING TO-DAY (MONDAY)

Men's Made-to-Measure Suits Regular \$75 and \$80, Sale Price and No Tax to Pay

\$44.75

NO TAX TO PAY

Women's Made-to-Measure Suits Regular \$75 to \$100, Sale Price and No Tax to Pay

\$59.75

True, the town's full of sales, but there's only one best in anything, and in suits (made to order) for men and women this suit sale is to beat them all. If you're skeptical, just come in and look the goods over, or merely take a look at our windows.

You've often wanted a real tailored suit, but held back because you couldn't afford it—isn't that so? Well now's your chance to be measured and perfectly fitted from the most exclusive line of suitings ever imported into Canada.

You Ask Why?

You ask why such a sacrifice of high-grade made-to-measure suits. Indeed, you have every right to wonder "why," for we've never done it before, and hope we will never be compelled to do it again; but MONEY is the reason. Yes, MONEY! MONEY! MONEY!

We have a stock we can't afford to carry. There's no bluffing about it, for if we attempt to hold on to our stock we go under. We want to remain in business, so we've GOT TO GET THE MONEY, and get it this month.

Over Eight Thousand Articles Now Listed Being Made In Canada

Steady Progress of Industry; 8,500 Firms Engaged In Manufacture, According to Survey.

There is matter for satisfaction to all who are interested in the industrial development of Canada in the progress that is being made towards rendering the Dominion more and more self-contained industrially. The war threw this country back on its own resources and right well did it rise to the necessities of the occasion. The story of Canada's achievements in munition manufacturing and in shipbuilding, two industries with which the people were largely, if not quite, unfamiliar at the outbreak of war, is one of which all Canadians may well be proud. Incidentally, during the war period, there were important developments in the way of metallurgical and chemical production which helped materially in the stupendous task of winning the war.

In Trade Index.
The industrial progress of recent years is set forth in the most illuminating way by comparing the statistics contained in the new 1920 edition of the Canadian Trade Index with those in the 1917 edition. This reference work, compiled at regular intervals by the Commercial Intelligence Department of the Canadian Manufacturers' Association, is the most complete record available of industrial production. According to its showing, the number of different lines of goods made in Canada three years ago was 6,251. To-day the classification extends to 8,446 articles, an increase of well over 2,000. Interestingly enough, the number of manufacturers has grown in almost like proportion, there being listed in the 1920 volume approximately 8,500 firms, and in 1917 just about 6,500.

Structural Steel.
Some very important new industries have been started in Canada within the past year or two, industries which will produce materials and commodities that have hitherto been entirely imported. Take, for example, structural steel. Up to the present time Canada has imported 99 per cent. of her requirements from the United States, only making herself a limited quantity of the smaller-sized shapes. To-day the Algoma Steel Corporation at Sault Ste. Marie is venturing an investment of from six to seven million dollars in the erection and equipment of a structural steel mill, capable of rolling beams and channels up to 24 inches. This mill will give employment to 600 operatives and will be able to supply the greater part of Canada's requirements.

Ship Plate Mill.
Down at Sydney, N. S., the Dominion Steel Corporation are also producing a very important product, viz., ship plates, an essential material in the shipbuilding industry and one never before made in Canada. Their ship plate mill represents an investment of five million dollars. It is equipped to roll between 3.16 inch to 2 1/2 inch gauges.

"I Wonder Would It Help Me?"

THIS question has been answered by many thousands of women who have found health and happiness in the use of Dr. Chase's Nerve Food.

Sleeplessness, irritability, nervousness, gloomy forebodings of the future, depression and discouragement—these are some of the symptoms which tell of exhausted nerves.

In order to avoid nervous prostration or some form of paralysis it is well to get the building up process established at once by use of Dr. Chase's Nerve Food.

50 cents a box, 6 for \$2.75, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

In widths up to 98 inches and lengths up to 8' feet and has a capacity of 500 tons daily.

Soda Ash.
During the war great difficulty was experienced in Canada in securing a supply of soda ash, a chemical product that enters into many industrial processes. It was not made in this country and had to be imported from the United States or Great Britain. This condition brought about the establishment of a large soda ash plant at Amherstburg, Ontario, from which Canadian requirements are now effectively supplied. These amount to over 50,000 pounds per annum.

Coincident with the tremendous expansion in the Canadian pulp and paper industry has come a demand for paper mill machinery. Some of the smaller equipment have been made in Canada, but the big machines have always been imported, representing immense expenditures outside the country. Again Canadian enterprise has come to the fore and the Dominion Bridge Company, having cleaned up its war work, is starting to build the huge and complicated mechanisms used in the manufacture of paper.

Increasing Production.
On all hands there is a steadily increasing production of goods that have up to the present figured in imports. This is particularly true in the automobile and motor truck industries, which are becoming more and more self-contained every year. At first Canadian automobile plants were simply assembling shops, putting together parts imported from the United States. To-day they are still in the main assembling shops, but the parts are coming from Canadian factories, either operated by the automobile companies themselves or by independent companies. Thus, there are now very few parts of a Canadian automobile that are not made in Canada. The establishment of these auto supply plants has been one of the outstanding features of post-war industrial history, covering a wide field of production.

That Canada now supports a linen industry that carries out all processes from the flax to the finished sheets and towels may be news to some. This interesting industry is located in Guelph, Ontario, and it is making favorable progress. In the paper industry, which has reached a high state of perfection, new products are still being added, the latest being blotting paper and vegetable parchment paper, both of which have hitherto been imported. Numerous chemical products are being added to the list of Canadian manufactures from time to time, plans now being carried out for operating a huge plant at Trenton, Ontario, which will produce several lines new to Canada. In a word, the progress being made on every side to develop Canadian sources of supply for all articles for which there is a sufficient home and export demand is exceedingly gratifying.

T. R. DEACON

An ex-chairman of the Prairie Division and a member of the Executive Council of the Canadian Manufacturers' Association. Mr. Deacon is President of the Manitoba Bridge and Iron Works, the Manitoba Rolling Mills and the Manitoba Steel and Iron Company. He is a former mayor of the City of Winnipeg. During his term of office the Greater Water Ways District was formed for the construction of an aqueduct for bringing soft water from the Lake of the Woods to Winnipeg. Being an Engineer Mr. Deacon saw the possibilities of this scheme and it is to his personality that the citizens of Winnipeg and district owe their present supply of soft water.

W. J. BULMAN

Ex-President of the Canadian Manufacturers' Association and a member of the Executive Council. Mr. Bulman is President of the Bulman Bros. Ltd., printers and engravers, Winnipeg. He is Chairman of the Winnipeg School Board and has been a member thereof for many years.

W. R. INGRAM

A member of the Executive Council of the Canadian Manufacturers' Association and a former Chairman of the Prairie Division. Mr. Ingram is Manager of the Swift Canadian Company, Winnipeg.

D. J. DYSON

Chairman of the Prairie Provinces Branch. Mr. Dyson is President of the Dyson Vinegar Company and a former alderman of the City of Winnipeg.

J. B. THOMSON

Chairman British Columbia Division. Mr. Thomson is the head of one of the largest and oldest established clothing and garment manufacturing industries on the coast. In addition to his activities in the Canadian Manufacturers' Association he is a member of the Council of the Vancouver Board of Trade and Chairman of the Wholesale Bureau of the latter body.

CAREFUL TESTING OF WILLYS OVERLAND

Magazine Describes Care Taken to Put Out Best Product

The routing of work in a large factory is an interesting factor in the development of industrial efficiency. Especially is this so in a plant where quantity production is essential, and

Canadians concerned as to the progress being made by Canadian manufacturers may be interested in the following description of routing in an industry typical of modern conditions. It is from Motor Magazine for May—an article on mass production of an all-Canadian automobile. After describing the celebrity with which Willys-Overland Ltd., "tooled up" for peace production, and reached an output of fifty cars a day in less than a year, the writer adds: "In visiting the factory one is impressed by the fact that while quantity production is the most pressing need, nothing is being sacrificed of careful production. Automatic machinery is used, of course, to a very large extent but there is an admirable checking and testing system in effect and no opportunity is afforded defective materials or poor workmanship to find their way into the final product. The testing system is

highly commendable, and is in effect all along the line on which the materials are routed. The routing has been carefully worked out and all raw materials coming in travel steadily along through the various processes of manufacture until, in the end, they are all brought together in the final assembly. Thus, a cylinder casting comes in from the freight platforms where it is received and travels along a circular track, going through a number of processes until it is brought, all finished and machined, to a point where it meets the crankcase, the crankshaft, etc. "After these parts are brought together the motor continues on its travels and comes to that part of the factory where the transmission assembly (gear box) are joined to it and is then carried along by overhead track to the testing benches where it receives the most grueling treatment that the writer has ever seen a motor subjected to. If it

passes these tests satisfactorily it is carried on to where it is placed in the chassis, and the chassis then proceeds to a place where the body, which has been finished in one of the upper stories of the building, is lowered on to it and made secure. The car is then ready for its road test which consists of driving it hard over bad roads and up steep inclines. If it passes this final test, which is the most severe test of all, it is then considered ready for the market, and goes to the freight platform or to the yard for drive-away, according to what its destination is."

REASON ENOUGH.

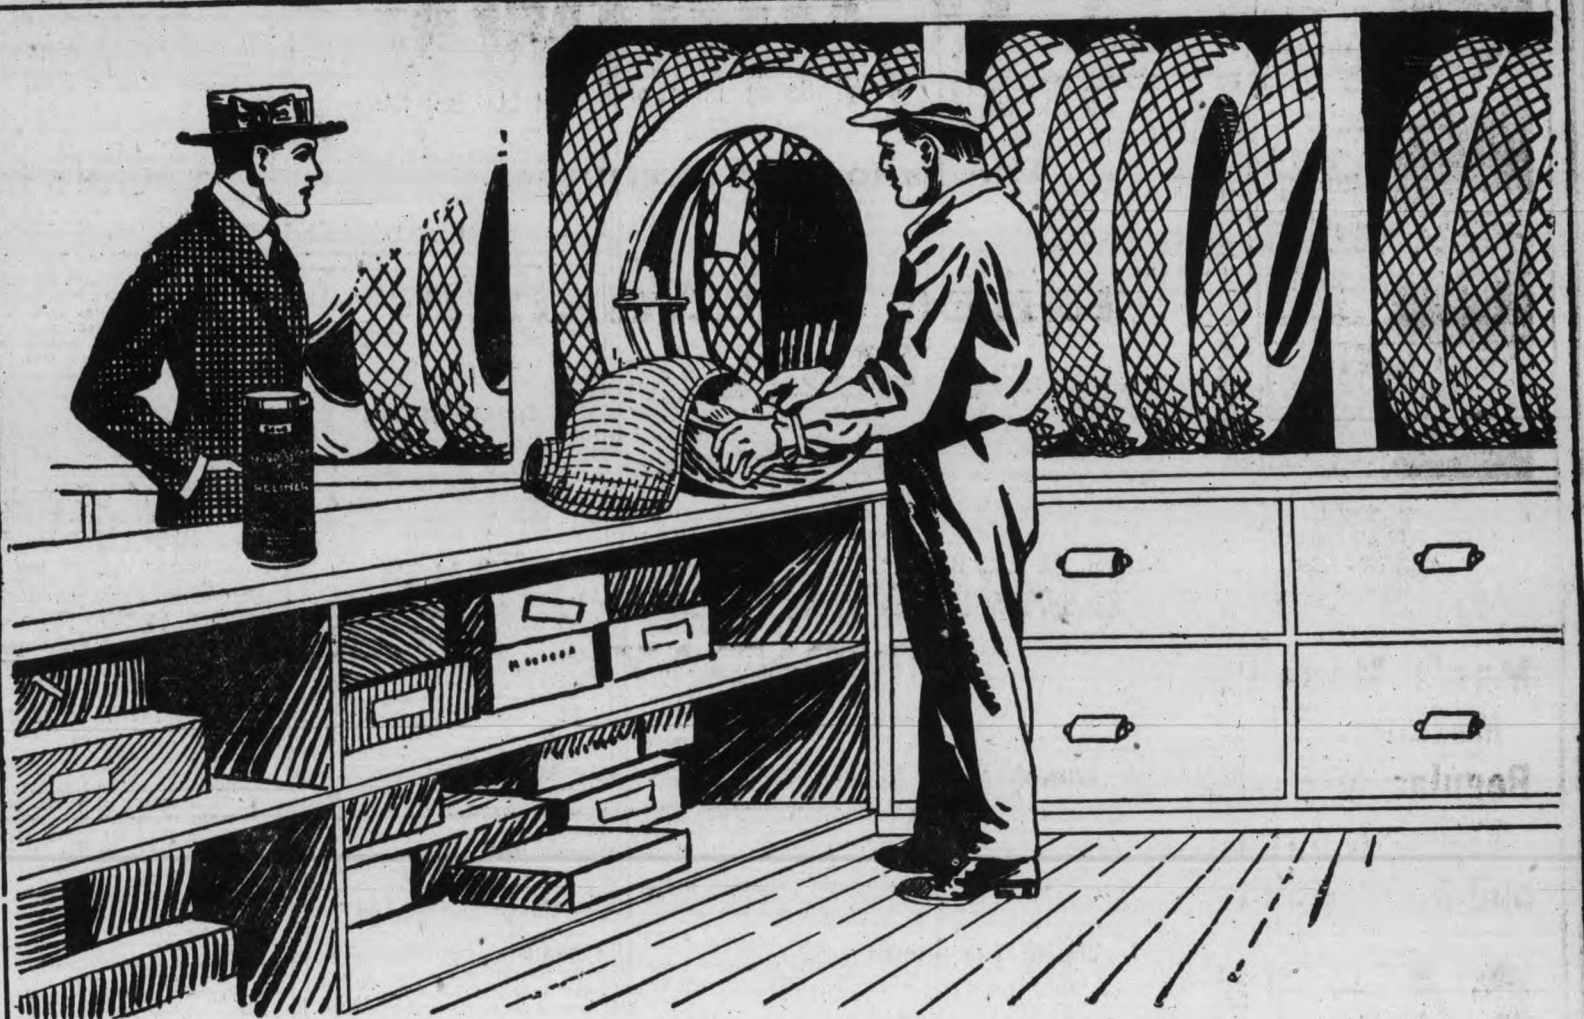

"Why did you strike the telegraph operator?" asked the magistrate of the man who was summoned for assault.
"Well, sir, I gives him a telegram

to send to my gal, an' he starts readin' it. So, of course, I ups and gives him one."—London Tit-Bits.

VIE-DE-PEAU

is a scalp tonic. It does NOT contain oil, alcohol or perfume. Do not use alcohol solutions, as alcohol burns out the natural scalp oil. Your hair will then comb out. To be real sure, ask for Vie-de-Peau.

HALL & CO. PRESCRIPTION DRUGGISTS. Yates and Douglas Sts. Phone 201. We Deliver

You Can Get All the Mileage which is Built into Goodyear Tires

OBVIOUSLY, the maker cannot guard an automobile tire against all the accidents incident to a strenuous career.

But Goodyear has produced Tire Savers and Service Stations to cure or prevent things which shorten tire life.

The Goodyear Tire Reliner is one of these Tire Savers—a complete new lining for tires weakened by injuries or hard driving—the cure for fabric breaks, the prevention of premature blowouts.

This reinforcement, given the tire as soon as weakness shows in the fabric, should add a thousand or more miles to the service you usually get.

Goodyear Service Station Dealers recommend and use Goodyear Tire Reliners and other Goodyear Tire Savers solely for one purpose—to make Goodyear Tires go farther, and thus build up their sales.

These same Service Stations do many other things for their customers—watch wheels for alignment, warn against under-inflation, give advice on tire care.

All of which is part of a Goodyear policy—to help users get all the generous mileage which is built into Goodyear Tires—a policy which has built the largest sale of any tire in the world.

You can benefit directly by going to a Goodyear Service Station for tires and tubes, and by writing us at Toronto for our free Tire Conservation Course.

In Your Quest for Quality Dentistry Do Not Overlook This Modern Dental Office

Our work stands the severe test of time.
We present each patient with a ten-year guarantee.
Our charges are fair and honest.
Our service satisfactory in every way.

By sacrificing Nature's teeth you are placing yourself at a great disadvantage, so it is necessary for you to have your failing teeth attended to immediately, if you wish to avoid artificial teeth.

Delay is the cause of all teeth decay. If decay is taken in time it can be eradicated and the Natural teeth can be retained. Our service is devoted to the saving of all teeth that Nature supplied.

Our office being well and properly equipped, and having our own laboratories, we are able to keep close attention on all work as it progresses.

With every modern dental convenience while, and with skilled and efficient operators, we are thus able to produce very fine work—dentistry that stands up to the requirements of our ten-year guarantee. And despite all the features of our service—quality work, dependability, durability and our painstaking care, we are able to offer our service at very modest fees. More than this, we permit patients to pay a little at a time.

Open Three Evenings Weekly—Mondays, Wednesdays and Fridays

DEPARTMENT OF PUBLIC WORKS. NOTICE TO CONTRACTORS. COMOX DISTRICT.

Highway Bridge Over Quinsam River, 3 Miles From Campbell River Wharf.

Tenders will be received by the Honorable the Minister of Public Works up to and including Saturday, 19th June, 1920.

(1) For the erection of a proposed highway bridge.

(2) For the demolition and disposal of the existing bridge over the Quinsam River, on the Strathcona Park Road, 3 miles from Campbell River Wharf, Vancouver Island.

Plans, specifications, etc., may be seen, or may be obtained upon depositing five dollars as security for their return, at the Dept. of Public Works, Victoria, B. C., the Assistant District Engineer, Courtenay, B. C., and the District Engineer, Courtenay, B. C., on or after the 2nd June, 1920.

An accepted bank cheque or certificate of deposit for 10 per cent of the amount of total tender, made payable to the Honorable the Minister of Public Works, must accompany each seal to enter into contract when called upon to do so, or falls to complete the work contracted for.

Cheques of unsuccessful tenderers will be returned upon execution of the contract.

The lowest and any tender not necessarily accepted.

A. E. FOREMAN,
Public Works Engineer,
Department of Public Works, Victoria, B. C., 21st May, 1920. No. 8978.

LAND REGISTRY ACT. Section 150.

In the Matter of the East 50 Ft. of Lot 312, Victoria City.

TAKE NOTICE that an application has been made to me to cancel a Right to Purchase registered in your favor under Agreement dated the 12th day of June, A. D. 1912, from George Holford to yourself, as registered in the Register of Charges, Volume 22, Folio 325, No. 9948-0.

AND TAKE NOTICE that you are required to attend before me at the Land Registry Office, Victoria, B. C., at 11 a. m. on Wednesday, the 7th day of July, A. D. 1920, when I will hear all parties attending, and upon proof to my satisfaction of breach of covenants on your part contained in the said Agreement and re-entry and recovery of possession by the registered owner I shall cancel the registration of the said Agreement for purchase upon the register, and thereupon the Agreement and thereupon the Land described therein shall cease and determine, but without releasing you, the said purchaser, from your liability in respect of any agreement in such Agreement expressed or implied.

Dated at the Land Registry Office, Victoria, B. C., the 1st day of June, A. D. 1920.

Name of Applicant.
C. A. FROST, Agent.
Dated 3rd May, 1920

UNINSTRUCTED DELEGATES ROLLED INTO CHICAGO.

But the best claims for any of the three amounted to little more than one-fourth of the total delegate strength on the first ballot, and it takes a majority to nominate.

ANNUAL LABOR CONVENTION HELD

Samuel Gompers Addresses American Federation of Labor in Montreal

Montreal, June 7.—Any attempt to enforce compulsory labor by making strikes unlawful must be resisted at all costs, Samuel Gompers, president of the American Federation of Labor, declared to-day in his address at the opening of the Federation's fortieth annual convention.

"I have no fear as to what the results will be," he said. "As long as I have life and my mind is not impaired, I shall stand for the right of the men and women toilers of the world to be free, untrammelled and unbound by any force."

Under a big parade through the streets of the city, the annual convention of the Federation began its business sessions in the St. Denis Theatre this morning.

Senator Gideon Robertson, Minister of Labor of Canada, in behalf of Sir Robert Borden, the Prime Minister, welcomed the delegates, declaring that this convention would promote closer co-operation between labor in the United States and Canada.

"The American Federation," he said, "comes to Canada as an organization covering the entire American Continent, and should have as good co-operation from Canadian labor."

Senator Robertson appealed to Canadian labor men not to listen to the agitation of promoters of the One Day strike, and "willfully misrepresenting" the Federation.

HARD BOARD BEDS IN POLISH HOSPITALS

Area in Stricken Eastern Europe Badly Served With Institutions

Warsaw, June 7.—To a Canadian, the name "hospital" suggests white enameled beds with thick mattresses, fresh linen, cleanliness that goes far beyond mere soap and water and a nurse ready to administer to every want.

Against this picture, a bed of boards with a single coverlet and hard pillow seems a mockery of the name. There are many hospitals in the unconstructed territories bordering on Poland to the east that have beds of hard board. But to a people living in cellars under the ruins of shell-wrecked houses, these poorly equipped hospitals are a luxury.

The passing of German and Russian lines back and forth over this area left it bare of all materials that could be utilized for civil or military purposes. Transportation has not yet been restored. The people lack soap, public baths and fuel for heating water so as to keep themselves clean. They have no disinfectants.

Thus in the isolated spots reached by automobile or field workers of the Joint Distribution Committee, the best must be done with the poor materials at hand. A building is scrubbed and disinfected, emergency beds set up, and a hospital put into operation which corresponds rather to a field hospital at the front. Although many comforts are lacking, it serves

WATCH YOUR GUMS—BLEEDING A SIGN OF TROUBLE

Medical science knows how serious is the sign of bleeding gums. For it knows that tender and bleeding gums are the forerunners of Pyorrhea, that dread disease which afflicts four out of five people over forty.

If the disease is unchecked, the gum-line recedes, the teeth decay, loosen and fall out, or must be extracted to rid the system of the Pyorrhea poisons generated at their base—poisons which seep into the system and wreck the health. They cause rheumatism, nervous disorders, anaemia, and many other ills.

To avoid Pyorrhea, visit your dentist often for teeth and gum inspection, and use Forhan's For The Gums.

Forhan's For The Gums will prevent Pyorrhea or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean. Start using it today. If gum-shrinkage has already set in, use Forhan's according to directions and consult your dentist immediately for special treatment.

35c and 60c tubes in Canada and U.S. If your druggist cannot supply you, send price to us direct and we will mail tube postpaid.

Forhan's FOR THE GUMS

FINANCIAL NEWS

UNEVEN MARKET IN WALL STREET

(By Burdick Brothers, Ltd.)
New York, June 7.—On higher money rates the market closed soft. This advance in money, which opened at 6 per cent and closed at 10 per cent, had a depressing effect on the market and prices at the close were the lowest for the day. There was also some selling of stocks on failure of the reserve bank to strengthen its position.

TO-DAY'S EXCHANGE

Burdick Bros. Ltd.
Montreal, June 7.—New York funds to-day, 12 1/2 per cent. Demand New York silver to-day, 94 1/2. London bar silver to-day, 54 1/2 d.

TO-DAY'S TRADING IN WINNIPEG MARKETS

Winnipeg, June 7.—There was little or no feature to the market to-day, which has been dull and slow for the last few days. The cash market, however, was manifested for the few offerings, spreads being reported half cent higher. For cash barley the premium remains unchanged at 20 cents over July.

Oats closed 2 1/2 cents lower for July, 4 cents higher for October and December, which was quoted for the first time to-day, closed at 2 1/2.

Barley closed 2 1/2 cents lower for July and 2 1/2 cents lower for October; flax 3 1/2 cents down for July and 2 1/2 cents lower for October.

VANCOUVER ISLAND NEWS

Dominion Day.
Ladysmith-Ladysmith is one of the cities to plan a Dominion Day celebration. The forenoon will be devoted to athletic and field sport and the afternoon to a regatta and water sports. A grand parade will be held during the day and valuable prizes will be offered for the best decorated cars and floats. The whole affair will terminate with a public ball at the evening.

Visiting Daughter.
Nanaimo—Mr. and Mrs. A. Chatfield, of Brooks, Alberta, arrived in Nanaimo to spend the Summer with their daughter, Mrs. Harvey Murphy, Hecate Street.

Sale of Glebe Land.
Courtenay—Keen interest is being taken, says the Comox Argus, in the proposed purchase by the Soldiers' Settlement Board of 25.00 acres of Glebe land belonging to the Anglican Church at Sandwich. An offer of a hundred dollars an acre has been made for this property to the Synod and in view of the fact that some opposition to the sale has arisen a public meeting of parishioners will be held next Wednesday at St. John's Church to obtain local opinion on the matter. Percy Wollaston, late treasurer of the diocese, will be present in order to find out the wishes of the parishioners on the matter. The land is a strip running from the Upper Road to the Taolium River, and has belonged to the church ever since the valley was peopled. Some Glebe land above Headquarters Road has recently been sold.

10,000 MILES OF FILMS.

Britain is to have the largest studio for producing cinema films in the world. It will be at Harrow or Hampton Court, and the floor of the great hall will be 30,000 square feet in extent with a pool of water 5,000 square feet.

Thirty miles of wire will be used for the electric lighting and it will be possible to concentrate half a million candle-power on any given spot. The plant for lighting will be 1,800 horse-power.

In addition to the studio there will be offices, rest rooms, dressing-rooms, a restaurant, bath-rooms, a laboratory, carpenter's shops, wardrobe, furniture stores, workshops, with every possible kind of equipment; and for the buildings a million bricks, 200,000 slates, 210 tons of cement, and 4,000 cartloads of earth will be required.

When completed, it is believed that this vast studio will produce 850,000 feet of negative film a year, and that the finished films sent all over the world will be nearly 10,000 miles in length.—Tit-Bits.

INTELLIGENT INVESTMENTS

Our monthly pamphlet "Investment Suggestions" deals not only with the leading securities but conditions and situations which affect investments; are accurately reviewed. Investors will find it invaluable in appraising the merits of securities and in deciding how to make the best use of funds at their disposal.

Investment Suggestions for May has just been received from the printers. Copies mailed or delivered to any address without cost or obligation.

TRUSTEES CONSIDER NEW APPOINTMENTS

Deliberate on Suitable Men For Important School Positions

With two important positions to fill and a small staff for the new affiliated college to select School Trustees are giving the question of appointments serious consideration. The most important appointment will be that of a municipal inspector to succeed E. B. Paul, who is to be the head of the new college. A number of Trustees assert that there is no Victoria teacher or educationist at present available for the position. For this reason they favor bringing in a man from another city—a man who would have no pre-dilections for any teachers and no fear of removing whatever members of the teaching staff he considered unsuited for their positions. T. W. Cornett, of the High School staff, and Dr. Alexander Robinson, former Superintendent of Education, are mentioned for the vacant position as principal of the High School. The Trustees and Mr. Paul have in mind a number of gentlemen for positions on the staff of the new affiliated college. It is hoped that the services of E. Howard Russell, who formerly was a member of the High School staff and who now is a member of the B.C. University Faculty, may be secured. It is understood that Mr. Russell would consider an offer from the Board if the arrangements were as advantageous as those prevailing at the University.

IF IT'S DOUBTFUL IT'S DIRTY

Many a man goes through a day just missing looking right because he put on a doubtful shirt or collar.

Remember, if it's doubtful it's dirty.

When you open a bundle of clothes we have laundered there will be no doubt. You'll be pleased.
