# INTRODUCTION AND GENERAL INDEX

---

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1953-54 edition of the Concord City Directory, which also includes Beverly Hills, Brown Mill, Cannon Mill, Franklin Mill, Hartsell Mill, Jackson Park, Shankletown, Sidestown, Silver Hill, and the rural routes emanating from the Concord Post Office.

Confidence in the growth of Concord's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Concord to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the results of their labors will meet with the approval of every user, and that the Concord Directory will fulfill its mission as a source of authentic information pertaining to the community.

## Six Major Departments

The six major departments are arranged in the following order:—

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is the first major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Concord and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE BUYERS' GUIDE, the second major department, printed on goldenrod paper, contains the advertisements of leading manufacturing, business and professional interests of Concord and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Concord, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is the third major department, printed on yellow paper. This department lists the names of all business and professional concerns of the whole community in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, is the fourth major department. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

THE CONCORD RURAL ROUTES DIRECTORY is the fifth major department, printed on white paper.

THE NUMERICAL TELEPHONE DIRECTORY, on blue paper, is the sixth major department.

### **Community Publicity**

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Concord and vicinity.

### **The Concord Directory Library**

Through the courtesy of the publishers of the Concord City Directory, a Directory Library was established recently in the offices of the Concord Chamber of Commerce, for free reference by the general public. This is one of more than 600 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

### History

Concord was founded in 1793 by Scotch-Irish and German-Dutch settlers, and named Concord when the two factions settled a dispute over the location of the county seat. The first court house was built in 1796. In 1872 a new and larger court house was built, but three years later it was destroyed by fire. The present court house was built in 1875.

The first gold discovered in the U. S. was in Cabarrus County in 1799. The nugget weighed approximately 17 pounds. In 1903 a nugget was found which weighed 28 pounds, one of the largest ever found, and a replica of this nugget is in the Smithsonian Institute in Washington, D. C.

The name, Concord, has prophetic significance. The city has lived up to its name in mutual understanding and helpfulness among its citizens.

Concord's growth has been accomplished through working together, sharing together, and planning together for a better city and a better citizenship. It is a city that honors its past, that fosters civic pride in building for a better future.

### Government

Concord is administered by a board of aldermen and a mayor, who are elected by the people. Every man on this board is a business man, and the city is run on a business basis. Cabarrus County is governed by a board of county commissioners, who are elected by popular vote of the citizens. The City and County government is among the best to be found anywhere.

A Complete Street and Avenue Guide

1953

Including Beverly Hills, Brown Mill, Cannon Mill, Franklin  
Mill, Hartsell Mill, Jackson Park, Shankletown, Sidestown  
and Silver Hill.

Copyright, 1953, by Hill Directory Co., Inc.

In the following list the numbered streets are arranged in numerical order followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol © following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers, as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

(The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.)

# Please! Do Not Lend Your CITY DIRECTORY

## IT COSTS YOU MONEY—Every Time It Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

**THE PUBLISHERS**

## VITAL INFORMATION AT YOUR FINGER-TIPS!

► Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communication, etc. Also, Directory usage is **up** among regular subscribers.
