The ... Bearing Mfg. Co., Ltd. has three plants. The Kuwana
plant was established in 1930, the exemption of which is being
requested. The Mukogawa plant was established in 1937. The Ko-
mano plant was established in 1943. The latter two are also
on the reparation list.

Importance of the Kuwana plant to Japanese industry of
this region is such that Mr. Hoshijima, the Minister of Commerce
and Industry, made a statement in the Diet to the effect that
he was making a special plea to G.H.Q. for the exemption of this
plant from reparation. If this plant were to be removed, it
would add to the cost of production of every manufacturer in this
region using precision bearings.

Petition

1 September, 1946

General of the Army, MacArthur,

We are fully aware that a directive was issued on 24 August to our factory for its custody and maintenance as one of the plants designated for reparations, and we are quite ready to perform our responsibilities for same in faithful obedience to the directive.

The bearings we are manufacturing are used mainly for coal-waggons, automobiles and agricultural machinery and implements, and we are devoted to their production in the belief that it is a prerequisite to the reconstruction of Japan.

Now, if the entire equipment of our factory should be removed, would it be possible to produce the estimated amount of bearings required for industries which form an indispensable factor in the reconstruction of Japan? This is a question about which we are gravely concerned.

Appealing to your great generosity, we earnestly entreat you to retain the factory where we are working desperately believing that we are thereby contributing our share in helping Japan out of her present chaotic confusion.

1,271 employees of the
Kuwana Factory of the
Oriental Bearings Manu-
facturing Company Ltd.

Petition

1 September, 1946

General of the Army, MacArthur,

The Kuwana Factory of the Oriental Bearings Manufacturing Company Ltd. has recently been designated as one of the reparations plants. So far as the knowledge of the Kuwana people is concerned, the above factory is, despite all difficulties, mobilizing all its capacity for the manufacture of bearings required for deep coal-mining, and agricultural machinery and implements with the hearty cooperation of the citizens, thereby to contribute toward the reconstruction of Japan into a democratic nation. The factory has been in operation for more than twenty years, and the number of its employees at present totals 1,500, most of whom are inhabitants of Kuwana City, and contributing their share to the economic rehabilitation of the city.

Kuwana City is immensely indebted to the factory for its prosperity attained during the twenty and more years, and the citizens ardently desires its continued existence for the rehabilitation of their war-ravaged city. The possible removal, therefore, of its entire equipment would profoundly affect the reconstruction of the city.

We should deem it a highest favor if you would be considerate enough to cancel, if possible, the designation of the said company in special consideration of the rehabilitation of the war-damaged city.

Kunji Fukuyoshi,

Mayor of Kuwana City

Copy

Sept. 1, 1946.

(Mr. Reday.)
(Mr. C.D. Ross.)
Attention: Mr. N.J. Meikle John,
Reparation Office, E.S.S., GHQ.

Dear Sir,

We who belong to the bearing factories that are appointed for reparation appreciate a great deal to the announcement which made it clear that a part of bearing factories has remained and that the bearing industry is allowed to exist.

But it is a matter of regret for the future of New Japan that free competition in respect to technique and management has to be stopped, as the remaining two factories in one company means monopolization of the industry.

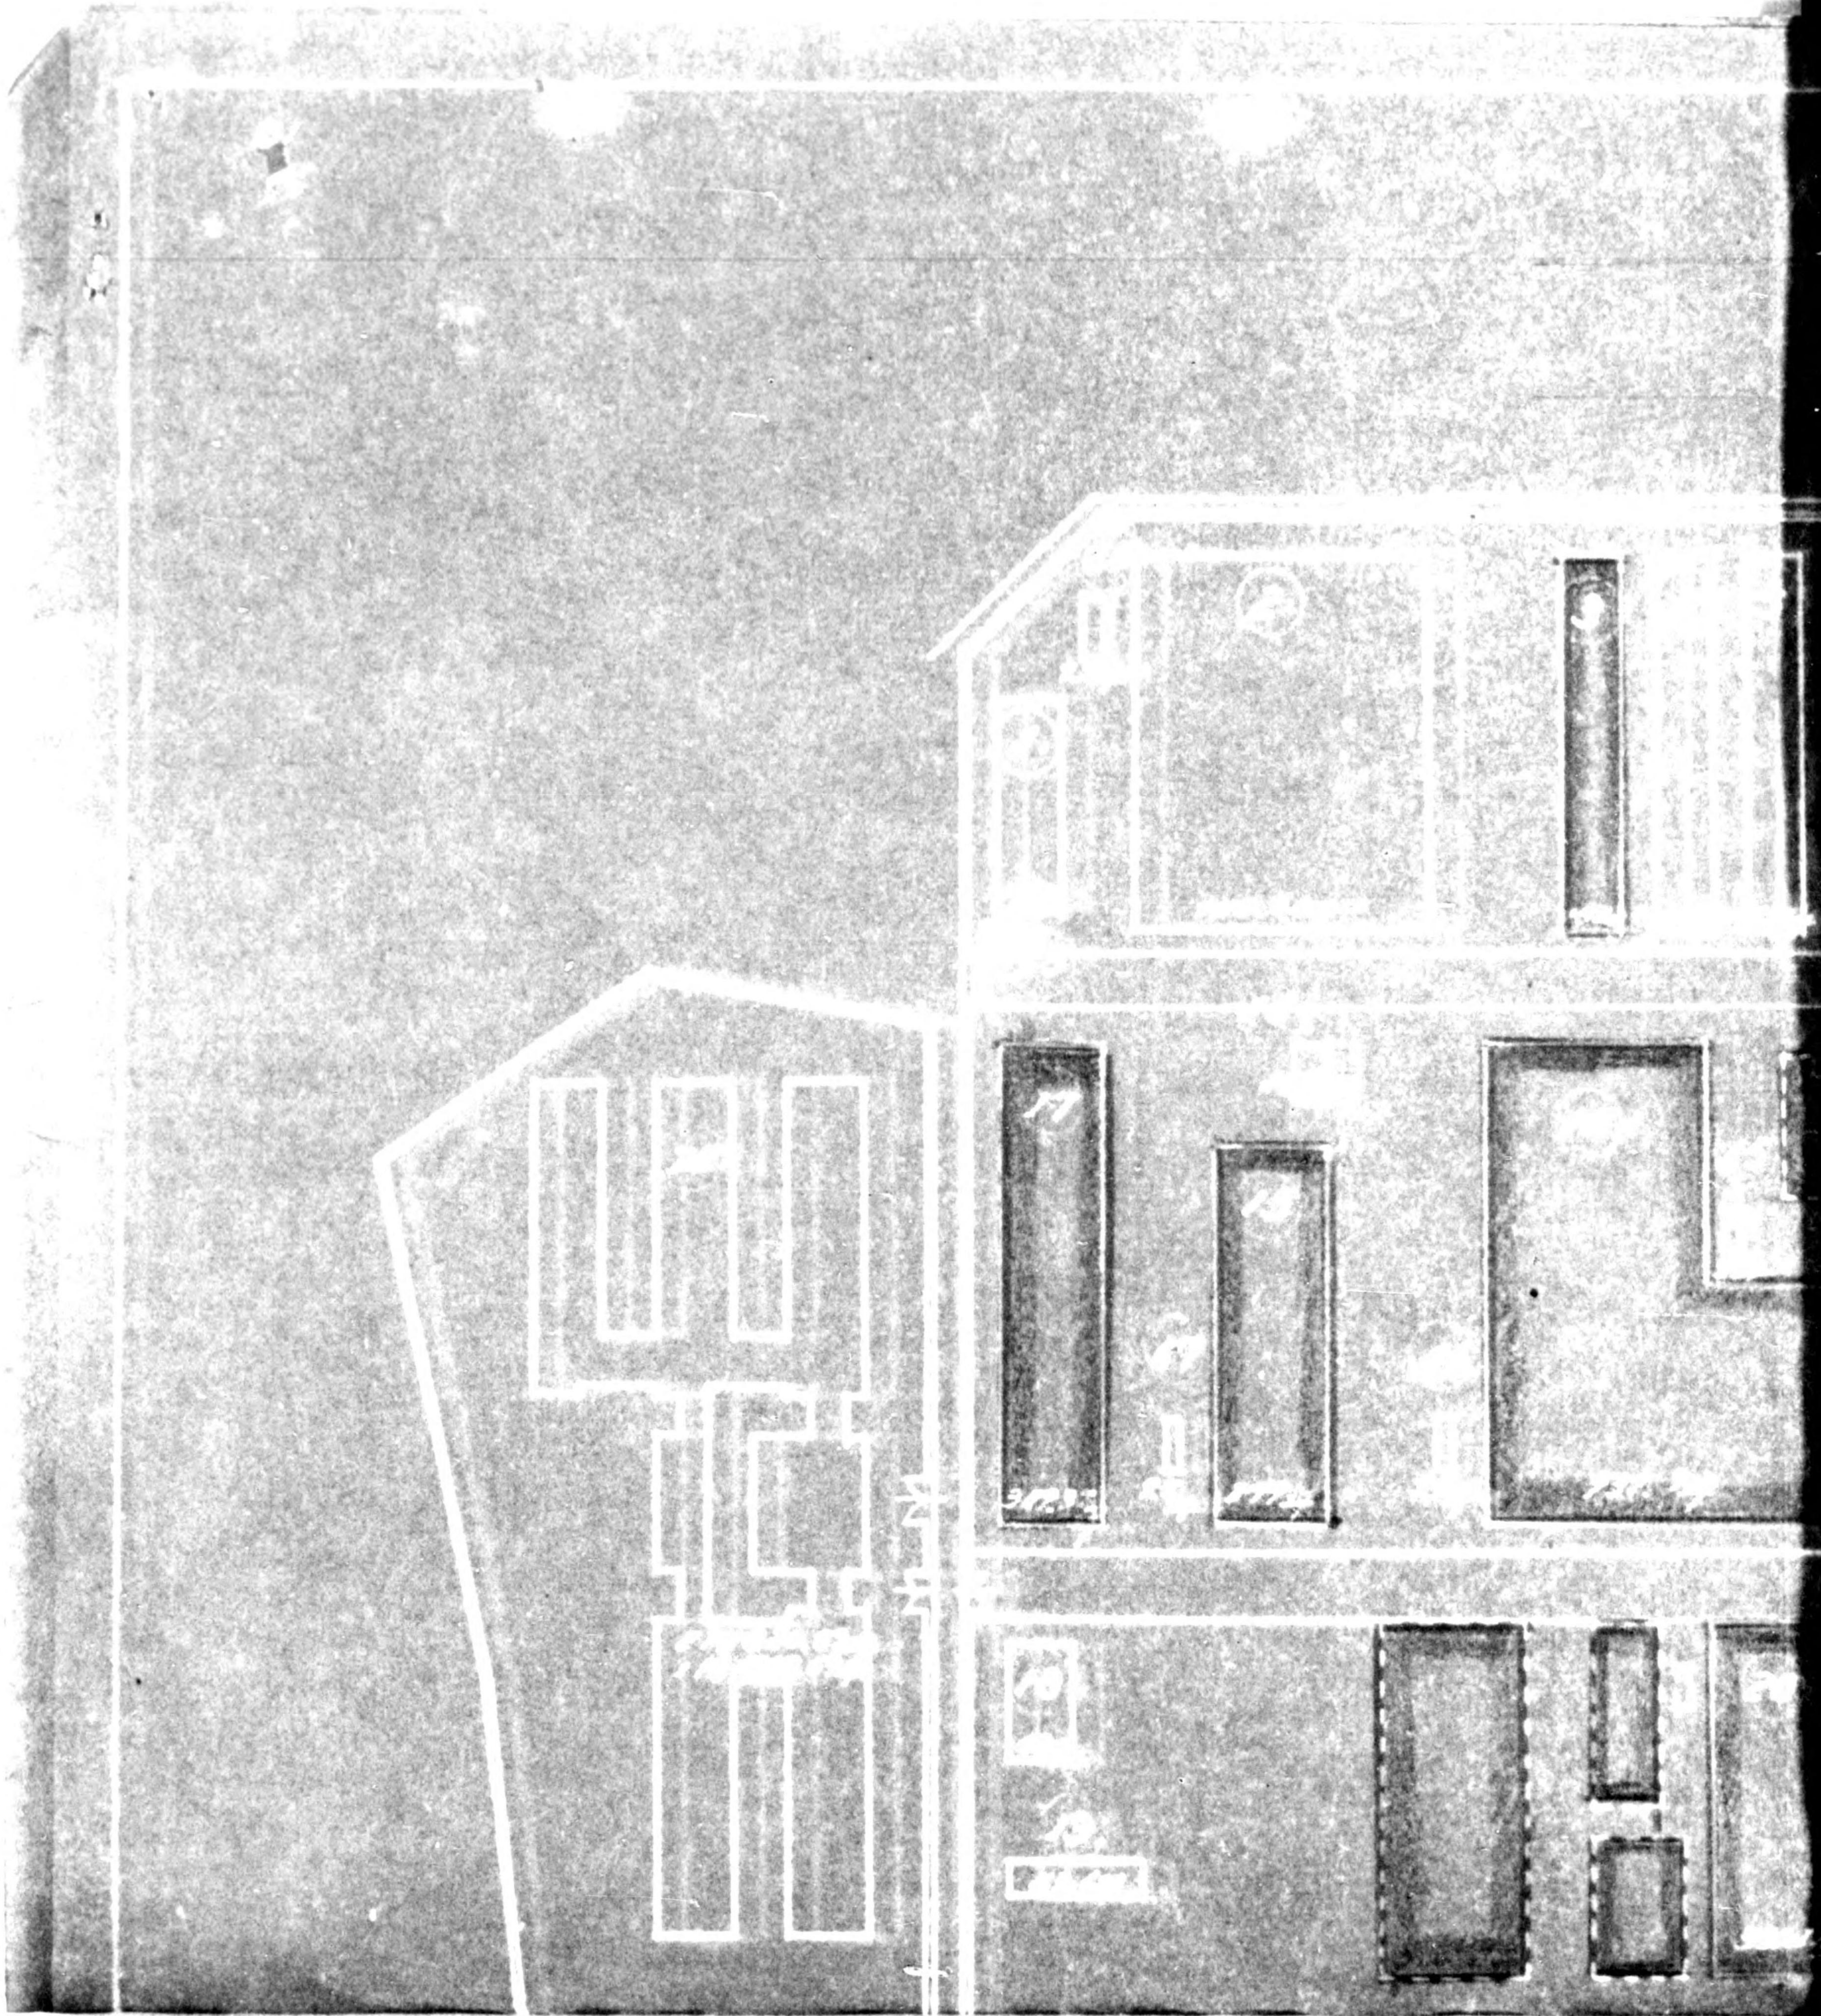

We should be very much obliged if you would give this point your keen consideration.

Yours truly,

Board of Directors,
Japan Bearing Association.

DirectorMasayuki Hara Toyo Bearing K.K.DirectorNobuo Kobayashi Koyo Seiko K.K.DirectorHikosaburo Yamamoto Fujikoshi Kozai

1. The Toyo Seiko K.K., Mie Prefecture, has been assigned code number 19 by your headquarters for purpose of inventory. The company owns and operates a number of precision bearing plants throughout Japan, among which the Mukogawa Plant, Komano Plant and Kuwana Plant are listed for reparations. This application is intended to apply solely to the Kuwana Kojo.

2. The application of the Toyo Seiko K.K. for exemption of the Kuwana Kojo is based on the importance of this factory to the postwar industrial reconstruction of Japan, and the serious effects that the closing of this factory would have on the city of Kuwana. The factory is employing, at present, approximately 1300 employees, and the removal of this factory would have serious consequences on the community.

3. Selection of plants of this nature for reparations has been based on the policy of removal of industrial capacity considered surplus to an overall Japanese economy. In absence of specific criteria, the application of this company for removal of the Kuwana Kojo from the list of reparations plants is forwarded to your headquarters without recommendation.

Kuwana City, Mie Prefecture.

P E T I T I O N

TO: His Military Government Team.

SUBJECT: Movement of the Machines.

The reparation machines which are the property of the Toyo Bearing Mfg. Co., Ltd. Kuwana Plant, has been loaned to subcontract works since War-time.

The subcontract works are far from our plant and some of them are using the reparation machines, so we can not maintain and repair completely, so we would like a permission from your office to the movement of the reparation machines from subcontract works to our company.

We beg you to excuse the inconvenience we are causing you.

Item

(1) Subcontract Works and Machines.

Home of Works.	Address	Owned Machines Name	Number
Chudoryoko	Kotobuki-cho, Kuwana City	Bench Drilling machine	3 No serial number
Tetsuichi Ueda	Takehi-cho, Kuwana City	Induction Motor	1 No serial number
Kanejiro Kouri	Saki, Asahi-mura, Mie-gun, Mie Prefecture	8 Feet Lathe 6 Feet Lathe	1 No serial number 1 number
Shoichi Minoki	Totsukihara-cho, Kuwana City.	8 Feet Lathe Bench Drilling Machine. Motor Generator	1 No serial number 1 number 1
Yanagawa	Toyodaishiki, Sawagomura, Mie-gun, Mie Pref.	6 Feet Lathe	1 No serial number
Total			10

(2) Place to be move: Toyo Bearing Mfg. Co., Ltd. Kuwana Plant.
No. 2454, Tsuchizima, Higashigata, Kuwana City, Mie Prefecture.

MILITARY GOVERNMENT OFFICE
TSU, MIE PREFECTURE

M-3

13 December 1945

Subject: Application for Conversion Toyo Bearing Mfg. Co. Ltd.
Kuwana Factory.

To : Senior Military Government Officer.
98th Division
A.P.O. 98.

1. Inspection and Survey was made 11 December of the above mentioned plant on their application for conversion.
2. Under paragraph 3 Mr. Fukuda manager states that all owners of stock not listed own less than 50/o of the stock.
3. Machines were checked and found listed incorrectly. They list 419 grinders, whereas 467 were found. Only a small part of the 278 drilling machines were seen, but some were disassembled, and it is quite possible that they have 278. In addition to the ones they have listed 129 ball dropping machines and 24 presses, 45 ball trumblers and 72 rolling sanders were found. In addition to these discrepancies there is a considerable number of machines damaged by fire from bombs, that may be salvaged at least in part.
4. Under paragraph 11 future plan of production the manager states, that in addition to roller and ball bearings they plan to make spindles for gringing machines and bearing cases.
5. All raw materials, finished and unfinished goods belongs to the Company according to the manager.
6. This is a tremendous plant. The manager states that this factory made 300/o of all ball and roller bearings used in Japan during the war, and that this plan of future production will be 300/o of production required for peace time use in Japan. They plan to employ 1000 people 300/o of which will be women.
7. This officer can see no reason for not permitting this Company to convert for peace time use, except the large quantity of production. It is suggested that a study of this plant be made in connection with other bearing plants to determine if this quantity of production is needed.

APO 710

14 February 1947

SUBJECT: Letter of Transmittal

TO: Commanding General, 45th Division Artillery, APO 25,
(Attn: War Materiel Section)

1. Transmitted herewith is Inclosure 1, applying for the release of a former seized target, a Privately Owned Reparation Installation, Toyo Bearing Manufacturing K.K. (23-19), 2454 Tsuchijama, Higashigata, Kuwana City, Mie Prefecture, consisting of 70 buildings. Inclosure 2 is a map, showing location of 21 buildings used for housing reparation machinery, and 70 buildings that can be released.

2. Subject buildings were constructed in 1923 for the manufacture of ball bearings, and continued this manufacture through-out the war. The 70 buildings that can be released are requested for the manufacture of essential consumer commodities.

3. Since said buildings, requested for release, are not needed to house reparation machinery or for use of Occupation Forces, it is recommended that they be released to the Japanese Home Ministry for return to the rightful owner.

1. Paragraph 2d, Section III, Operational Directive No. 5/5, Headquarters Eighth Army, dated 24 September 1946, authorizes this headquarters to release land, buildings and facilities of arsenals, aircraft and munition plants which are designated for reparations, provided they are not required for proper custody of equipment subject to reparations. This authority does not extend to precision bearing plants. The application of the Toyo Bearing Manufacturing K.K. for release of the land and buildings indicated in inclosure 1, is forwarded to your headquarters for consideration.

2. It is the recommendation of this headquarters that favorable consideration be given the application of the Toyo Bearing Manufacturing K.K.

FOR THE COMMANDING GENERAL:

4th Ind.

Headquarters Eighth Army, APO 343, 15 Mar 1947

TO: Commanding General, I Corps, APO 301

1. The release of those buildings not formerly used in the manufacturing process as an integrated unit and no longer needed for custody and control of reparations equipment, is approved.

2. Until the allocation of plants now under custody and control as integrated facilities is determined it will be necessary to maintain the equipment and machinery within the buildings in which it was set up for production purposes. Inspection of these plants by claimant nations would be hindered by the centralization for storage purposes of any of this equipment.

BY COMMAND OF LIEUTENANT GENERAL FICHPLEBERGER:

Hq I Corps, APO 301, 20 MAR 1947

TO: CG, 25th Inf Div, APO 25

1. Your attention is directed to 4th indorsement.

2. Precision bearing plants designated for reparations are considered to be integrated units. This implies that successful operation of a plant of this nature requires not only the machines located in the plant, but also such installations as cranes, boilers, furnaces, etc., which are necessary for efficient operation. The authority contained in paragraph 1, 4th indorsement, extends to release of such buildings of this plant as would not affect the operation of the plant as an integrated unit. Any buildings which are essential to the operation of the Toyo Bearing Manufacturing K.K., will not be released.

BY COMMAND OF MAJOR GENERAL ROYDORF:

APPLICATION FOR RELEASE OF PRIVATELY OWNED REPARATION INSTALLATION

1. Location of the property in terms of map number, map scale, and military grid coordinates and the Chome-Cho-Ku address, if known:

Map number is unknown. Map scale is 1/1200 inches. Military grid coordinates are 1167.7-1342.2. The installation is the Toyo Bearing Manufacturing K.K. (23-19) 2454 Tsuchijima, Higashigata, Kuwana City, Mie Prefecture.

2. Acreage:

82.968 acres.

3. Number and type of buildings:

70 wood one-story buildings.

4. General description of the whole installation:

Installation was constructed in 1923 for the manufacture of ball bearings, and continued this manufacture through-out the war. Condition of buildings is poor. It is to be noted that this installation was seized by the tactical troops. No improvements have been made by the Occupation Forces.

5. Proposed use:

It is proposed that this installation be used for the manufacture of essential consumer commodities.

6. Recommendation:

It is requested that these buildings be released to the Japanese Home Ministry for return to the rightful owner, for the reason stated above.

TOMOHIDE OKUDA
Chief, Commerce and
Industry Section, Mie
Prefecture Government.
