IX	CONCLUSIONS	Warden Fukui has an exceptionally good educational and vocational training program. He is attempting to improve and modernize his institution the best he can, considering budget limitations and type of buildings.
X	RECOMMENDATIONS	(1) Concur with Warden's Comments and Remarks. (2) Request consideration be given to placing skylights in kitchen roof rather than moving and rebuilding kitchen. (3) Recommend that all future warehouses be constructed that they will be ratproof. (4) Additional equipment be immediately provided for the expansion of the vocational training.

4. Out-side labour
   We are always beeing proposed to abolish or reduce the out-side labour by the labour stabilization office from the view point of the releafe of unemployee.
   In-side work
   We are always suffered from competition with private industry, especially concerning printing, sewing and wood work, so it is very difficult to recieve private industry order.

9. Especially., we are suffered from the shortage of machines of wood working and tools. We wish to buy table band saw machines and high speed log band saw machines with automatic rope feed.

   There are so many old and old-type machines in this prison, so productive efficiency of each shops are very low. Raw materials are good enough to buy if we have a budget.

VII *PHYSICAL PLANT AND EQUIPMENT

A Rated capacity -------- 976 persons

B Type of construction
   Administration Office --- Brick made
   Cell blocks --- ditto
   Working shops --- Wooden made

1. This institution was built fourty years ago, so it is very old now. Especially, wooden made working shops are necessary to re-build. We submitted the document to N.A.G.O to secure needed budget to rebuild these old shops in next fiscal year, and also there are so many places to repaire in other administration office or cells blocks. Even though this institution is so old, we do our best to clean and beautyfy it, and the conditions are not so bad.
2. Ventilation is not so bad.
3. Lighting is not so good, because the type of building is so old and the windows of the building are so small and narrow.
4. There are no heating in the cell blocks and working shops, except administration office rooms and hospital bed-rooms in the winter.
5. Good

   We are always using D.D.T enough for W.C., kitchen, cells, office room and s clothes and beds of all prisoners, especially for the new comer's belongings.

   We are always sterilizing prisoners table-wares by boiled water and sunlight. Bedings of the prisoners are always sterilized by sun light, especially those of patient's are sterilized by steam.

   a. It is not so good. We are now improving the swag disposal system of this institution.
6. We have large bath-tubs.
   a. General --- one time in each five days.
      Scabies patients ---- two times in day.

C. Security Features
   1. Brick made
      a. six mater high and solidity.
   2. General type locking system.

   d. Ammunitions for pistol ------- 304
      " for rifle ------- 284
      112 (vacant)

D Kitchen
1. Equipments are little enough but conditions are not good, because kitchen is located under the earth and has no Ventilation, so very dark and very damp and very bad the sewage disposal.
2. As above the mentioned, the conditions of the kitchen are so bad that as to the sanitation of the kitchen we are always doing our best to take care of them keeping clean and always washing the room and equipment and use D.D.T. for the sewerages. We are always doing our best to sterilized the table-wares by boiled water and also, doctor makes a check for the food-handlers twice in a month, and emphersi,ed them to cut cut their nails daily.
3. Partly Screened.
4. It is rather wed concerning underground food storages,but it is better on-the-ground food storages.
