IS SELECTED FOR **GOLD STAR DAY**

Impressive Ceremonies Will Be Held at Legion Hall by the Local Organization

The date of Wednesday, May 10, has been set aside by the Lester Myer chapter of the War Mothers of America as Glendale's "Gold Star" day, according to the decision reached yesterday afternoon at the regular bi-monthly meeting of the organization in the American Legion hall at 610 East Broadway. Mothers of sons who gave their all in the great World War will be invited as special guests of the chapter, and it is expected that a large number of local and Los Angeles wearers of the treasured gilt star emblem will be present.

In the afternoon members and their guests will gather in the American Legion hall, where the regular chapter business meeting will be turned into a social gathering. The entertainment will consist of a short to be named within the next few days, and refreshments. Invitations have been extended to the Auxilian musical program, a talk. the speaker days, and refreshments. Invitations have been extended to the Auxiliary of Glendale Post No. 127, American Legion, and the Local Women's Re-lief corps to attend the affair.

Glendale Day Is Set

Mrs. J. B. Sherwood, president of the chapter, announced that Friday, , has been set aside by the state officers as Glendale Day in the state convention of the War Moth-ers, which is scheduled to take place Single Ring Ceremony Takes in Los Angeles on June 15, 16 and 17. The form of entertainment for the delegates was not decided upon, although it is expected to be ar-

ranged within the next few weeks. Mrs. Alexander Mitchell and Mrs. George Hastings were appointed on a committee to communicate with the officers of the Chamber of Commerce in an effort to obtain the co-operation of that body in entertaining the

delegates. Mrs. H. L. Hock of 610 East Orange Grove avenue, who is secretary of the local chapter, has been selected to act as toasimaster at the in marriage by her father. opening night banquet of the con-Thursday night, June 15, in Los Angeles. The headquarters for Hill street, that city.

By GEORGE VAN SANDS

Radio Editor, The Evening News We often hear New York and Chicago spoken of as being the center of radio, and I have wondered just what they mean. Of course, I do not doubt but what one could find more homes in a block in Chicago equipped with radio than could be found in any given block in Glen-dale, and if it is quantity they claim, we are willing to grant it. But I want to tell you folks that wlfen it comes to quality, Glendale is not going to run second to any city in the entire country, regardless of size or location, and that statement cov-ers a lot of territory.

I was driving out in Grand View the other day, and had the pleasure of meeting L. C. Brand, and know-ing that I was interested in radio, he took me up to the "Castle" and let me look over his radio equipment, and you have my absolute assurance that there is nothing better in the entire country. It seems that the chief pilot in

charge of the Brand airplanes is a mechanical genius and when it comes to radio there are few to equal him. Mr. Brand wanted a complete wireless telephone equipment, both receiver and transmitter; the pilot was instructed to go ahead and install a set that would be in keeping with the other surroundings up there, and one that Mr. Brand would not have to be ashamed of. And I want to tell you absolutely nothing has been overlooked; what money could not buy on account of market conditions, was made, cer-tain parts that can only be made in a certain few factories and cannot

The Glendale Evening News Entered as second-class matter the clips are disconnected from the the imagination. Entered as second-class matter January 12, 1922, at the postoffice at Glendale, Calif., under act of con-gress of March 3, 1879. Published daily except Sunday.

The two binding posts are for the battery connection. The fuse is of the common plug type, and if it should blow out can be easily reewed

The feature of tapering charge is most valuable, since it eliminates the necessity of watching the battery and taking it off charge at any specified time. Usually, the battery is just connected before going to bed at night and disconnected in the morning. It is claimed that the upkeep expense is a minimum and that either a six or twelve volt battery can be charged for about five cents for current.

Daily **HEALTH-AGAIN** TALKS By Dr. Otey

HOW DO YOU PUT HEALTH INTO A DISEASED BODY?

A diseased body needs something done to it, not something put into it. We do not find health in medicines, drugs, vivisections, venesections, vaccinations, antitoxins, se rums and interminable experiments with poisons and the knife.

The principles of Osteopathy are readily understood by the laity when intelligently presented in a manner free from technical terms. The average layman has no difficulty in understanding how his telephone may become useless because wires are disturbed or because of wrong conditions in the central office, also that his electric lights may fail to work because of lack of power production at the power house. The municipal water supply and the city sewer system furnish similar problems to those found in the circulation and elimination in the human body.

One of the chief functions of Osteopathy is to correct structures so that the vital fluids and forces of the body, blood, lymph and nerve currents, may be unimpeded in their free. flow to and from every part of the body. To do this, we must get every muscle relaxed, every ligament pliable, every joint freely movable and every bone and other structure in its proper place.

Otey System

An encouraging sign is observed in the continued steady demand over the United States for goods, espe-cially for necessities. Ability of buyers to spend freely denotes that although many have been idle a large number of this class have been able to buy their needs out of reserve cash laid by in savings from former days.

Easier money conditions resulting from a general lowering of the inter-est rates is having the effect of releasing a large flow of capital to in-dustries for improvement purposes, or for resumption upon a scale more closely approaching normal, according to reports to the Federal Reserve Board.

Briefly, the financial prospects, as reflected in the attitude of banks in reports to Washington show a pur-pose to give "constructive" aid to business. This is being done without sacrificing any of the conservative methods of banking. It will mean an enlargement of bank accommodations, but will bring greater ease in the money market and thus speed up business and economic development.

CAN'T STOP SPECULATION WASHINGTON, April 27. -- The government will take no official step to check excessive speculation on the New York stock exchange, it was officially announced today a the treasury department. Officials declared it is not within the power of the administration by any restrictive measure in the banking system to stop investments of whatever character on the exchange with money easy and the investment public more confident of the value and safety of securities of the better grades.

A ton and a half stone taken from Culebra cut of the Panama Canal is to be erected as a monument over Theodore Roosevelt's grave at Oyster Bay.
