### TRANSPORT AGROUND.

Nagasaki, Japan, Nov. 15.—The United States transport Hancock is ashore on the south side of the Straits of Shimoda. A German gunboat is assisting her. The transport grounded on a sandy bottom.

### ADMINISTRATOR OF DOMINION.

Sir Henry Strong was sworn in administrator of the Dominion to-day during the absence of Lord Minto in New York. This is the first time that a Canadian has ever acted as administrator. Heretofore it has always been the senior officer commanding at Halifax who acted as administrator. This has now changed, and the Chief Justice of the Supreme court or senior judge who may be acting will be administrator while the Governor-General is outside of the Dominion. Sir Henry Strong was sworn in by Justice Sedgewick in the presence of the secretary of state.

### CANNOT EXTERMINATE DOGS.

Topeka, Kan., Nov. 15.—Statistics collected from official sources show that prairie dogs occupy and render worthless or nearly so for agricultural purposes 1,224,854 acres of land in Kansas. All efforts to exterminate the dogs have failed, even with the co-operation of the department of agriculture.

### HUNTING FOR A CABINET MINISTER

### MESSRS. PRIOR AND DRURY APPROACHED

### Premier Manifests Anxiety to Fill His Cabinet—Post of Provincial Secretary Offered Mr. Drury.

The public meeting which was held in the Victoria theatre on Monday night last has not been without its effect upon the Premier, if rumors which have been current for several days past can be relied upon. It is stated that he has become impressed with the desirability of filling the vacant portfolios in his cabinet without delay, although he emphatically denies that any suggestion of that nature has come from Government House.

But the same criticism which has opened his eyes to the necessity of filling his cabinet has convinced the Premier that the feeling in Victoria against the government is so pronounced that he will require a very strong candidate to carry the city at the by-elections. To this end he has opened negotiations with prominent men on both sides of politics with a view to securing their candidatures in the government interest in the city, with the prestige of a portfolio to assist them.

It is understood that within the last day or two two public men have been approached with regard to the matter, namely, Col. Prior and B. L. Drury, the latter of whom is a member of the Liberal interest in the last Federal elections. The latter was asked to-day if he would be approached with the post of provincial secretary was correct, but he declined to discuss the matter. There is nevertheless good ground for believing that such an overture has been made, with what success remains to be seen.

Col. Prior, it is stated, frankly told the Premier that it would be impossible to elect even a cabinet minister as a supporter of the administration in this city. He also declined to discuss the subject.

It is said that the senior member for the city (Col. Prior) is not without aspirations in the local field of politics, the more so as the party to which he belongs at Ottawa seems doomed to a pilgrimage in the political wilderness longer than the natural limit of his life. Notwithstanding his refusal to enter a cabinet of which Mr. Dunscombe is premier, it is understood that if he himself were to be premier the proposition would be regarded in an entirely different light. If the president of the council were to place his resignation in the hands of Sir Henry Joly, with a recommendation that Col. Prior be asked to form an administration, his friends think that the gallant colonel might be induced to assume the role of Cincinnatus and form a government. Neither would such a cabinet be upon party lines, but would be representative enough of the two political parties to make it acceptable to both. The colonel thinks that, relieved of the responsibility for the acts of the present government, he would be able to carry the city.

The Premier leaves in a few days for California to attend the marriage of his son Robin, which takes place shortly.

### THE BOER RAIDERS IN CAPE COLONY

### SHOT A POLICEMAN WHO HAD SURRENDERED

### Also Blew Up a Few Yards of Railway Track—Work of Fouché's Commando.

(Associated Press.)  
New York, Nov. 15.—A correspondent of the Times, writing from Middleburg, Cape Colony, says that within the last two days the Boers have approached still nearer to Cape Town, either to obtain fresh horses or to revenge themselves on the Dutch farmers who have not supported them as they were expected to do.

In the northeast district Commandant Fouché and sixty men, leaving the main body, made a raid last Saturday to a few yards of the track and shot in cold blood a Cape policeman who had surrendered. Fouché has since returned to the neighborhood of Jamestown.

A patrol of district mounted troops was worsted on Monday by an insignificant force of the enemy.

### OPPOSES RECIPROCITY.

Senator Gallinger, of New Hampshire, Hostile to Reduction of Canadian Imports.

(Associated Press.)  
Washington, Nov. 15.—Senator Gallinger, of New Hampshire, who was one of the President's callers to-day, not only opposed a revision of the tariff but also any tariff concessions to other countries through reciprocity treaties. He is especially hostile to any treaty looking to the reduction of Canadian imports. "We sell three times as much to Canada as the Dominion sells to us," said he to-day at the White House.

"Why should we make concessions? In my opinion there will be no reciprocity treaty with Canada. I was in Toronto recently and heard Sir Wilfrid Laurier, the Canadian Premier, say in a speech that Canada was through with sending delegates to Washington looking for trade concessions. He said that if negotiations were to be resumed we would have to take the initiative."

### ELECTION PETITION.

The examination of E. G. Prior, M. P., one of the respondents in the election petition Fairful et al. vs. Prior and Parle, the trial of which is fixed for the 23rd inst., commenced before the registrar of the Supreme court, as special examiner, at 11 a. m. to-day at the Law courts. The petitioners were represented by Gordon Hunter, K. C., while Robert Cassidy, K. C., was present in the capacity of counsel for the respondents.

On the ground that the proceedings were not being held in open court, counsel objected to the presence of anyone not directly interested or not an officer of the court, and the examiners sustaining the objection, press representatives were directed to withdraw. Consequently a full report of the proceedings could not be obtained.

Col. Prior's examination was completed this morning, and Mr. Enay's examination is being heard this afternoon.

The post mortem examination of Police Christian of Cumberland showed that his death was caused by his swallowing a cherry stone.

### PARLIAMENTARY CONTEST IN GALWAY MARKED BY SCENES OF FIGHTS BETWEEN RIVAL SUPPORTERS.

(Associated Press.)  
Dublin, Nov. 15.—The parliamentary contest in Galway resulting from the vacancy in the House of Commons caused by the elevation of Martin H. P. Morris to the peerage, is being marked by a succession of fights in which it takes all the constabulary of the neighborhood to keep the contestants within bounds. Horace Plunkett, Unionist, former member of parliament for the South Division of Dublin county, is opposing Col. Arthur Lynch, who served on the Boer side in South Africa.

The use of firearms has not yet been reported, but sticks, stones, bricks and bottles figure in the daily encounters. The windows and doors of Mr. Plunkett's committee rooms were smashed in during the night. The police have been obliged on several occasions to charge with their batons and disperse the mobs. There is a lengthy list of injured people.

A double murder is reported from the country near Oran (Algeria), by which a farmer and his wife, who was blind, was shot dead while sitting on the veranda of their house. It is believed that the murder was the work of natives, but no one seems to have seen who fired the shots.

### WOMAN NAMED JULIA LOTH WAS ENGAGED TO MARRY A FRIEND OF HER HUSBAND'S.

A woman named Julia Loth was engaged to marry a friend of her husband's, and at night, in company with several men laborers, it is reported, she and a man named K. C. were seen to be in the act of entering a house, and upon her attempting to kiss the woman, and upon her resisting, she was seized by the others and dragged to the burning fire, the men dancing around while she was burned to death.

### PREPARING FOR SOLDIERS.

Special Provision Being Made on the Empire of China.

(Special to the Times.)  
Vancouver, Nov. 15.—Special quarters are being fitted up aboard the Empress of China for the accommodation of four officers and one hundred and thirty-eight men and families of the Royal Garrison Artillery, who are bound for the Orient to take the places of those who recently camped some time at Work Point barracks on the way home to England.

The city clerks are protesting to the authorities against allowing the Italian band to play in the Opera House on Sunday night, as they would be obliged to take the places of those who recently camped some time at Work Point barracks on the way home to England.

Several coast logging camps have shut down on account of the rainy weather.

Campbell's Prescription Store

We keep the largest stock of Drugs and Toilet Articles in the province. Prescriptions promptly and carefully executed.

BY BUSINESS MEN NOT POLITICIANS

ROSEBERY SUGGESTS EXPERIMENT FOR YEAR

Would Like to See Government Formed of Such Men as Lipton and Carnegie.

London, Nov. 14.—Lord Rosebery, speaking to-night in Edinburgh, said he did not intend again to try to secure a reform of the House of Lords, as this was not a task for an individual, but one needing a national impulse.

MINERS' BODIES RECOVERED

Nearby of Men Killed at the Pocahontas Mines Not Yet Known.

Bluefield, W. Va., Nov. 14.—Five dead bodies have been taken from the Baby mine at the Pocahontas. Other persons are unaccounted for and 25 persons have been rescued more or less severely injured.

At 3 o'clock this morning it was discovered that the Baby mine of the Pocahontas Colliery Company at Pocahontas was on fire; an alarm was sent in and the fire company responded promptly.

It is supposed that the mines caught fire from a defective electric light wire. Five bodies had been recovered up to 6 o'clock to-night, and it is uncertain how many more are dead, though it is now known that there are several, perhaps 8 or 10 men, still in the mine, unless they succeeded in making their escape through the Tugz river entrance.

LIVES LOST IN STORM

Nearly Two Hundred Persons Drowned on Coasts of United Kingdom.

London, Nov. 14.—It is still impossible to estimate the total loss of life and property resulting from the protracted gale, and probably the full extent of the damage will never be known. Tons of wreckage of unidentified vessels are still being thrown up.

KIDNAPPED GIRLS

Pierce Fighting Between Tribes in Morocco—Many Lives Lost on Both Sides.

Tangier, Nov. 14.—Pierce fighting has occurred between the Benihasra and Mezzula tribes resulting in the killing of many on both sides. The Benihasra razed a number of villages on the plains and carried off eighteen Mezzula girls. They had been threatened by the Sultan with punishment for abducting a Spanish boy and girl, and took this method of demonstrating that they were prepared to fight any force that might be sent against them.

MOSQUITO INDIANS

A Misunderstanding Regarding the Negotiations With Nicaragua.

Washington, Nov. 14.—The statement in a Nicaragua dispatch, credited to Mr. Paet, British secretary of the legation there, to the effect that the United States has approved the claim of Great Britain to be recognized as a protector of the Mosquito Indians, has attracted the attention of the diplomatic body here. Inquiry indicates that there is danger of a complete misunderstanding of the matter. The British government is endeavoring to negotiate a treaty with Nicaragua which will enable the British to retire from all claims of jurisdiction on the Mosquito coast, leaving Nicaragua with sovereignty there, with the guarantee for the proper dealing with the Indians hitherto under the British protection. The United States government has taken no action in the matter, but it is of course to the interests of the United States that some such absolute recognition of the sovereignty of Nicaragua should be made and the pending questions arising out of the treaty of Managua between Great Britain and Nicaragua gotten out of the way.

THE KILLING OF KAFFIRS

London Times Says as Far Back as May Boers Murdered Kaffirs of Blacks.

London, Nov. 15.—In an article on the war in South Africa, the Times says today: "The Boers as far back as last May were guilty of murdering whole hordes of Kaffirs in order to destroy traces of movements of their own commandos. The British authorities at the time, for some reason not specified, prohibited any mention of these outrages."

BUTLER'S APPOINTMENT

London, Nov. 14.—General Sir William Butler, formerly in command of troops in South Africa, who was recalled at the beginning of the campaign against the Boers, is at last having his merits recognized. According to the Daily Chronicle he has accepted the offer of an appointment as president of the most important committee in connection with war office reform.

BECAME INSANE

Miss Vanderbilt-Wickerman, of New York, Will Probably Be Given Over to Her Friends.

London, Nov. 14.—The examination of Miss Vanderbilt-Wickerman, of New York, who was taken to St. Giles infirmary as a wandering lunatic, was held yesterday. The marked improvement in her condition makes it probable that she will be handed over to her relatives as soon as they are able to arrange for her care.

STARTS FOR ENGLAND

Buffalo, N. Y., Nov. 14.—Mrs. John Vanderbilt-Wickerman started today for New York, from where she will sail Friday for England to be with her daughter, Miss Helen Vanderbilt-Wickerman, who became violently insane in London yesterday. A cablegram received by Miss Wickerman's father reports her condition unchanged.

NURSES EXONERATED

Chicago, Ill., Nov. 14.—Mrs. Kate Green and Miss May Shea, nurses charged with starving two female patients at the Dunning asylum, were cleared from all blame in connection with the death of the patients by the report of the county civil service commission made public today.

Once or twice a year the good housewife has a thorough house cleaning. The house has been swept and dusted every day in the year, but the housewife knows that in spite of vigilance dust accumulates in cracks and corners, and is only to be removed by special effort.

It's the same way with the body. You look after it every day. You take all the ordinary precautions, cleanliness, healthy diet. Yet the body needs a special cleaning to rid it of the accumulations of waste and poisonous matter which invite disease. Doctor Pierce's Golden Medical Discovery, taken regularly once or twice a year, would save many a sickness. It purifies the blood, strengthens the stomach, and cleanses the body of poisonous accumulations.

HARDRESS CLARKE, 86 Douglas St.

RAILWAY TROUBLE ENDED

By the Formation of the Northern Securities Company.

New York, Nov. 14.—The Times will say tomorrow: "James J. Hill, president of the Great Northern railway, was yesterday (Thursday) elected president of the Northern Securities Company, the new \$400,000,000 corporation, through the medium of which the Northwestern railroad struggle will be disposed of. Two are distinctly representatives of the Northern Securities Company, the other two were elected. They are as follows: John S. Kennedy, D. Willis, Samuel Thoro, James J. Hill, E. T. Nicholas, Geo. F. Baker, Robt. Bacon, Geo. W. Perkins, Daniel S. Lamont, E. H. Harriman, Jacob H. Schiff, James Stillman, W. P. Clough, George C. Clark and N. Terhune. Of these \$4 may be considered as representatives of the Great Northern interests, three represent the interests of J. P. Morgan & Co., and three more stand for the Harriman interests. Two are distinctly representatives of the Northern Pacific railway, and the remaining director, Samuel Thorne, who was president of the Pennsylvania Coal Co., which now belongs to the Pennsylvania road, is regarded as representing Eastern interests.

BANKERS ELECT OFFICERS

Montreal, Nov. 14.—At the annual meeting of the Canadian Bankers' Association held here today, General Manager Farwell, of the Eastern Township Bank, brought up the violation of the agreement that only three per cent interest be paid on deposits, by making payments half yearly, which made the return more than 3 per cent. He thought disciplinary measures should be taken against banks and bankers who adopted unapproved methods, securing business from other banks. The matter was referred to the executive committee for consideration. The following officers were elected: Honorary president, Lord Strathcona; president, Lord Strathcona; vice-president, Mr. G. H. Hage, Merchants' Bank of Canada; president, Mr. R. E. Clouston, Bank of Montreal; vice-president, Messrs. Thos. McDonald, Quebec bank; Duncan Colson, Bank of Toronto; H. Stillman, Bank of Montreal; W. P. Clough, Bank of Ottawa; Chairman of executive council, Mr. R. E. Walker, secretary-treasurer, Mr. J. T. P. Knight, Montreal. The next annual meeting will be held in Toronto on November 14th, 1902.

FROM HAZELTON

(Special Correspondence of the Times.) About 30 Chinamen, who have been employed in various ways in the mines in the interior are making this place their winter headquarters. We are looking anxiously forward to the coming of the railway. It will mean a great deal for this country. It will enable us to obtain our supplies when needed, and at a reasonable rate, to say nothing of a regular mail service. We get mail only twice during the winter and only letters then. We have a rich mine and a farming country large enough for all comers. Dr. H. C. Winch, of Kishpix, and Dr. T. A. Wilson, of Port Essington, performed a successful operation for cancer on Mrs. Garing, wife of our Indian agent here. She is making a rapid recovery.

PORT ESSINGTON NOTES

(Special Correspondence of the Times.) Mrs. Flewin and Miss Flewin, of Port Simpson, were visitors here. Messrs. Gray and Cuppige, of the Port and Hazelton railway survey party, were here on Saturday on route to Vancouver. They have finished their work for this year. We expect railway construction will begin early next year. There is an attendance of twenty-five pupils at our public school, which has been reopened after having been closed for ten years. P. Herman is enlarging his hotel by building two additions to it each 30 ft. by 24 ft. One will be used as a dining room and the other as a kitchen. Indian Agent Todd, of Metlakatla, is here on official business.

BRIEF TELEGRAMS

La Banque Nationale, Quebec, has decided to increase its capital by \$80,000. It is reported that a big shortage exists in wheat and flour. They sold at Toronto yesterday for 50 cents, the highest figure in years. The American Sugar Refining Co. of New York, with its principal offices in New York city, was incorporated yesterday with a capital of \$3,500,000 to manufacture refined sugar. The twelfth biennial convention of the Dominion W. C. T. U. began a two-days' convention at Montreal last evening with exercises in the Young Women's Christian Association, conducted by Mrs. Asa Gordon, evangelistic superintendent. Chas. Guy has returned to Montreal from taking the census of Labrador. He has been absent since April 17th, during which time he, his assistant, cook and two sailors, travelled 2,000 miles. The population was found to number 9,960, including 1,800 Indians. The Toronto Evening Telegram's London cable says Lord Strathcona will represent and attend to the British interests of the Northern Securities Company, incorporated at Trenton, N. J., with a capital of \$80,000. This is the company which is reorganizing the Northern Pacific railway. A man said to be Dr. James Irvington Barclay, had his life crushed out in a folding bed at Buffalo on Tuesday night. Persons living on the floor beneath heard a crash in the doctor's room and upon investigation found the folding bed lying upon the floor; it was opened and Dr. Barclay's body found inside. In a cave-in at Oroquo, near Joplin, Mo., the entire plant of the Aurora Mining Company, one of the great zinc producers in the district, was swallowed up. No lives were lost. The plant composed of hundred-ton mill, office buildings and engine house, all of which were engulfed together with six gravel cars and an immense tailing pile. The condition of Queen Wilhelmina of the Netherlands, according to a dispatch to the London Standard from Brussels, is worse than has been officially reported. Three physicians are in attendance upon her, and the Queen's mother has been summoned. The royal patient will be obliged to keep her couch for six weeks. Another adjournment of the stockholders' annual meeting of the C. E. & Q. R. was taken yesterday. This time until November 21st. The Chicago Post says that while details which would show the reason for the delay in the election of the directors are lacking, it is apparent that the settlement of the Great Northern difficulty does not carry with it settlement of the Burlington troubles.

BUFFALO EXPOSITION

The Financial Report Shows the Deficit To Be Over Three Millions.

Buffalo, N. Y., Nov. 14.—The directors of the Pan-American Exposition Co. and a number of creditors conferred this afternoon and listened to the reading of the financial report of the company as prepared by the auditor. The report shows the total liabilities of the company at the present time to be \$3,326,114.69 net, assuming that the assets of \$146,454.15 are collected at face. The company owes operating expenses, and on construction work \$577,945.73, which item is of course embodied in the figure of total liabilities. An interesting fact shown by the report is the total cost to the exposition company of the exposition. The cost, according to the report, was \$8,800,757.20. The total receipts from admissions after May 1st were \$2,467,996.58, and the receipts from the exposition were \$1,011,522.70. A balance due to the first mortgage bond holders is \$174,978, and to second mortgage bond holders, \$500,000, both of which are included in the liabilities as given above.

ARMED GUARDS

Are on All Trains Running Out of Lincoln, Neb.

Lincoln, Neb., Nov. 14.—Local officials of the Burlington road admitted to-night that since the first of the week their night trains leaving Lincoln have gone out with a guard armed with Winchester rifles. This precaution was taken following the discovery last Sunday of 24 sticks of dynamite together with a number of masks hidden under a bridge just outside of the city. Sunday night three men attempted to board the express car as a train pulled out of Lincoln for the East, but they were driven off. Monday the same three men were at Ashland and an effort was made to arrest them, but they disappeared. A watch has been kept on the bridge where the dynamite was stored, but no one came to claim it.

The medical authorities declare that typhoid is free from the plague. All those who were suspected of suffering from the disease have recovered.

PEOPLE FREE COUGH AND WHEEZE OFF THE COLD. Laxative Bromo-Quinine Tablets cure a cold in one day. No Cure, No Pay. Price 25 cents.

WRIGGLESWORTH IS STILL CHAMPION DEFEATS MORRISON IN WRESTLING MATCH

Capital Exhibition of Manly Art at the Benefit Last Night in Philharmonic Hall.

Rarely have Victorians had an opportunity of witnessing a more enjoyable performance than that presented last night at the Philharmonic hall upon the occasion of the benefit to Prof. Bob Foster, the instructor of the Victoria athletic club. The performance throughout was clean and sportsmanlike, and of a character to which none could take exception. The veteran trainer was given a bumper house as a mark of appreciation of the way in which he has sought to advance athletics in this city. Capt. Clive Phillips-Wolley, who had consented to referee the boxing event, was unable to be present, and his place was taken by the San Francisco lightweight, Dal Hawkins.

The events opened with a four-round contest of two minutes each between Jones and Reider. This proved to be a very close fight, the men being well matched and was awarded on points to Reider. The prize was a set of boxing gloves given by Prof. Foster. Then followed a clog dancing contest between Pat Connor, of H. M. S. Warspite, and J. Duggan, of H. M. S. Phoenix. Connor's dancing is familiar to many Victorians, and he has few peers here. He was champion of the Mediterranean sea when on that station, and as he intimated last night, he is anxious to accept the challenge of any one who will dispute his claim to the same title on the North Pacific. Mr. McPhillips' medal was won by Connor.

A great deal of interest was excited in the boxing bout between Ted Brown and Jimmy Burns, two of "Bob's" pupils for Col. Prior's medal. Burns was a trifle taller than Brown, but the latter made up for it in his longer reach. At the conclusion of the third round the referee was about to declare it a draw, unless the men consented to another round. This the audience clamored for, and as Burns was willing, but Brown, owing to an injury to his face, declined, the medal went to Brown.

J. Mellich, whose clever bar and club work is familiar to Victorians, followed in a pretty exhibition of Indian club work. The only knockout of the evening was developed in the next event—a fight between Gibbs, of the Warspite, and champion of the Chatham station, and Stubbs, of the Condor. Stubbs was inferior in size to his opponent, and for a few minutes he rushed the fighting, working with great speed, which caused an impression to be made that he was the better man. Gibbs, however, woke up and punished him severely, bringing him down once, and again in a moment or two knocked him out. The contest was awarded to Gibbs.

Then followed the event of the evening—an exhibition which in itself was worth the price of admission. This was the wrestling contest, catch-as-catch-can, between Charles Wrigglesworth, Victoria's favorite exponent of the wrestling art, and N. A. Morrison, a clever young wrestler from Ladysmith. The men were evenly matched, but for a few minutes Wrigglesworth stripped at only 155 pounds, while his opponent tilted the beam at 175, the local champion more than made up for the difference in weight in experience and agility. Repeatedly the strapping young man littered Wrigglesworth with his arms and legs, but he gained nothing. When forced to move, Wrigglesworth worked like a flash of lightning, which puzzled his less experienced opponent. Nevertheless the superior weight, youth and training of Morrison, gave him a great advantage. Wrigglesworth, having only trained for about a fortnight, and that in a rather perfunctory way. Finally by a swift movement Wrigglesworth prostrated himself on the mat, and succeeded in getting his opponent on his back across his opponent's form, suffering intensely, and Wrigglesworth knowing that every moment his opponent's shoulders were in Chancery meant tremendous loss of energy to his antagonist held in him in a death-like grip. It was exactly 12 minutes and 37 seconds after the opening when Wrigglesworth threw his arms.

A pretty exhibition of boxing was given by A. Kilby, of H. M. S. Warspite, who was matched against Jack Spence, the champion middleweight of the fleet. They fought for four rounds, Spence having the best of it throughout, although Kilby fought with great pluck and intelligence, and kept the champion busy, landing effectively several times. The next event demonstrated the superiority of Wrestler Wrigglesworth over his opponent, for in 4 minutes and 27 seconds he put his doughty antagonist under, thus winning the championship. The applause for the two men was unqualified and indiscriminate. For the audience recognized that although, as was hoped, the handsome cup donated for the contest by ex-Mayor Redfern came to the local man, he had found in Morrison an exceedingly clever opponent. Morrison is a trifle slower and lacks the grip of Wrigglesworth, but additional experience and development will likely equalize these, and he may be looked to develop in a few years into no mean successor of Dan Macleod.

Davis, trainer of Martin Sullivan, engaged Morrison, one of "Bob's" pupils, in three rounds, in which the youngster showed his well considering the man against whom he was pitted. In the final round he went in pluckily, ignoring

the punishment he was receiving and got in some swinging blows on the trainer's face. The concluding portion of the programme consisted of some clever tumbling and horizontal bar work by Mellich and Hill; a pretty sailor's horncpipe, by Master Douglas, and a final clog dance by Patsy Connor. Then the bluejackets lined up on the platform, and led by the orchestra, sang "God Save the King," and the gathering dispersed.

A VILLAGE BLACKSMITH SAVED HIS LITTLE SON'S LIFE

Mr. H. H. Black, the well known village blacksmith at Grahamville, Sullivan Co., N. Y., says: "Our little son, five years old, has always been subject to croup, and so bad have the attacks been that we have feared many times that he would die. We have had the doctor and used many medicines, but Chamberlain's Cough Remedy is now our sole reliance. It seems to dissolve the tough mucus, and by giving frequent doses when the croupy symptoms appear we have found that the dreaded croup is ever before it gets settled." There is no danger in giving this remedy for it contains no opium or other injurious drug and may be given as confidently to a babe as to an adult. For sale by Henderson Bros., Wholesale Agents.

GERMAN TARIFF BILL

Berlin, Nov. 14.—The Reichsan Zeiger today publishes the German tariff bill as passed by the Bundesrath. All the essential features of the agricultural schedules have been retained. Hops have been increased from 40 to 60 marks per metric hundred weight. Hop meal has increased to 90 marks per metric hundred weight. Raw cotton fabric, weighing 80 grammes or more per square metre, will now pay from 50 to 60 marks per metric hundred weight. Grease will pay from 6 to 10 marks per metric hundred weight. Rice for the manufacture of starch will be reduced from 6 to 4 marks per metric hundred weight. Rough hockery huddies have been increased from 8 to 13 marks, and lightest shoes will increase from 120 to 180 marks per metric hundred weight. Horses under two years of age will pay 10 marks, and those over two years will pay 20 marks per head. Photographic paper will uniformly pay 12 marks, and varnish seven marks per metric hundred weight.

SAVE YOUR SNOWSHOE TAGS

The most popular brand of Cheating Tags in Canada today is "PAY ROLL." Every plug of "PAY ROLL" bears a "Snowshoe" Tag. Consumers should save these tags, as valuable presents are given for them. When you buy "PAY ROLL" Cheating Tags, ask your dealer for our new illustrated catalogue. Tags are good up to January 1st, 1902.

PAULTY KIDNEYS—Have you backache? Do you feel drowsy? Do your limbs feel heavy? Have you frequent headaches? Have you falling vision? Have you dizzy feeling? Are you depressed? Is your skin dry? Have you a tired feeling? Any of these signs prove kidney disease. Experience has proved that South American Kidney Cure never fails. Sold by Jackson & Co. and Hall & Co.—6.

WANTS

WANTED—A respectable girl for general house work, in family of three. Apply 219 Fort street, mornings or after 6 p. m.

# KNOX'S GELATINE

**Is for Those Who Like Good Things**

Although all "good things" are food, all kinds of food are not "good things," nor is any other kind of Gelatine like Knox's; your grocer will tell you so. All good grocers carry it in stock. But look out for spurious brands that imitate my name.

**The Genuine is Spelled K-N-O-X.**

A large package of Knox's Gelatine will make two quarts (a half gallon) of jelly.

Charles, R. Knox, 62 Knox Avenue, Jamestown, N. Y.

**R. P. Rithet & Co. Ltd.**

## FAVOR EXTENSION OF THEIR SYSTEM

### PROPOSED LOOP LINE TO GORGE DISCUSSED

#### Conference Between Local Manager of Tramway Company and Residents of Victoria West Last Night.

The residents of Victoria West last evening in Seiple's hall held a conference with A. T. Goward, local manager of the B. C. Electric Company in regard to a proposal to establish a loop line to the Gorge, via Craigflower road, returning by the Gorge road to Douglas street.

There was a large attendance, and the greatest interest was manifested in the movement. Ald. Beckwith was voted chairman and explained the object of the meeting.

S. H. Matson, the first speaker, after referring to the proposal, said that the property owners along the route were agreeable to contributing a fair amount to the bonus. The meeting would like to hear from Mr. Goward on the subject.

The local manager of the company, by way of explanation, said that for two years the company had received many requests for the construction of the loop and the speaker had referred the proposal to the general manager during his recent visit here. He then read the following letter from Mr. Horne-Payne on the subject:

With regard to your request for improvements here (Victoria), I have to draw your attention to the fact that in installing your branch has been treated with special favor. Moreover, the new car barn and the three new coaches for the Esquimalter service represent a considerable further capital outlay.

I regret that I am unable to recommend to the board at present the construction of the Gorge road extension, to which you have drawn our attention. Our engineers have supplied us with a detailed estimate of the capital expenditures which would be involved by the Gorge road extension, which I append. Of this latter the total expenditure amounts to \$54,640, including two new cars, to which must be added \$1,500 for the cost of the public park and pleasure ground, and the improvements on same, without which the route would not pay in any shape or form; the total cost, therefore, of the proposed work, would amount to say, \$56,000.

I have been pressed by many people here when I would have only too glad to please, to build this extension, and I feel with you that it is a popular demand. I wish to oblige these people in every possible way, and it is my wish to do everything in my power to gratify the large owners of the unoccupied land, or therefore if I could see my way to the operation of this line without actual loss I would recommend it to the board of directors, hoping that the future growth of the city would justify the outlay.

The annual cost of this road would be not less than \$4,000, arrived at as follows: Interest on money, 5 per cent., \$3,000; Depreciation, not less than 100.

Therefore, to pay, we must show a net profit of not less than \$4,000. This appears to be quite out of the range of possibilities. If, however, or anyone else, would be willing to bear one-half of the cost of construction, I would endeavor to induce my board to strain a point, in deference to the public wish, and I would recommend them to accept half either in cash, or land taken at a fair present market value.

Continuing, Mr. Goward said that the proposed extension would be about five miles long, and would require for an adequate service at least three cars, running 18 hours a day. The cost of construction, including the purchase of ground at the head of Victoria arm and converting same into a pleasure resort, would, as had been stated, cost in round figures \$90,000. The operating expenses of the line he had figured out would amount to \$13,200 yearly, or \$36.20 per day, requiring the patronage of 905 passengers per day to cover actual expenses.

He was very desirous of meeting the wishes of the people of Victoria West and Gorge road, and would be pleased to submit any proposal they might offer to the management of the company. He personally heartily favored the improvement if the company could be protected from loss, but he regretted that he could see no immediate chance of the operating expenses being earned, provided the road was constructed.

Mr. Spinks, who had been canvassing the district, reported that he had been promised up to date \$3,800 from 18 subscribers, principally residents of the Gorge road. Some had promised to double their subscriptions if necessary.

D. R. Ker suggested that a subscription list be opened at the meeting.

Mr. Matson thought the proposal to

## THE IMPORTANCE OF SICKER MINES

### THEY ARE PROGRESSING ON A SOUND BASIS

#### Expert Engineer Finds There All the Essentials of a Permanent and Flourishing Camp.

The news of the widening of the lead in the Tyee workings mentioned in yesterday's Times revives general interest in the flourishing camp and gives the Tyee an additional status as one of the first class properties of that mountain.

W. M. Brewer, M. E., returned a few days ago from Mount Sicker, where he examined a number of properties. Without any desire to boom that camp he says there is no doubt at all but that the camp is a permanent one. He visited the Tyee workings on the invitation of the superintendent and found that the claims that had been made since work commenced there, to the effect that the management was blocking out ore in order to test the capacity of the mine before they commenced shipping and treating to be absolutely correct. They have already reached a depth in their new shaft of 235 feet, and during his visit were arranging to continue sinking another hundred feet. The ore body which occurs between the 235 foot level and the surface certainly contains a large tonnage. Without making a careful measurement he should say there is at least 20,000 tons in sight. On the hundred foot level cross-cutting and drifting has proven the ore body to exceed thirty feet in maximum thickness. No stopping has been done, but on the hundred foot level two hundred tons of ore were mined and shipped. This ore was taken from the level of the station one set of timbers high, and the full extent of the ore body was undetermined even at that level at the time of his visit.

The Lenora mine was shipping regularly about 80 tons of ore daily. Following the belt of schist which the Tyee and Lenora ore bodies occur to the westerly across the Chemainus river he found that it is continuous into Mount Brent, but how far beyond has not yet been determined.

The Copper Canyon group of claims which is owned by W. A. Dier, of this city, occupies 4,700 feet along this belt or zone. While the development work on this group has been limited yet, all the indications point to a large body of ore between the level of the station one set of timbers high, and the full extent of the ore body was undetermined even at that level at the time of his visit.

While the development work on this group has been limited yet, all the indications point to a large body of ore between the level of the station one set of timbers high, and the full extent of the ore body was undetermined even at that level at the time of his visit.

The Copper Canyon group of claims which is owned by W. A. Dier, of this city, occupies 4,700 feet along this belt or zone. While the development work on this group has been limited yet, all the indications point to a large body of ore between the level of the station one set of timbers high, and the full extent of the ore body was undetermined even at that level at the time of his visit.

## THE GAZETTE

Official Notifications in the Issue of Yesterday Evening.

The Provincial Gazette issued last night contains the following announcements:

All places claims on the Clinton mining division of Lillooet are laid over from November 15th to May 1st.

The annual meeting of the V. & S. railway is to be held here on the 29th inst.

W. H. Beatty, of Victoria, provision dealer, has assigned to R. W. Clarke, of Johnson street.

Jin & Tamura, Japanese merchants of Vancouver, have dissolved partnership.

Madden & Dallas, hotel keepers, have dissolved partnership.

James Frecheville, of Rossland, has succeeded Bernard MacDonald as attorney for the Le. Roi Company.

The British Columbia Steamship Company, with a capital of \$50,000; the Kalevan Kansu Colonization Co. with a capital of \$100,000; the Pastime Athletic Club, of Rossland, and the Victoria West Athletic Association, are incorporated.

The Marysville Townsite & Development Company, of Spokane, with a capitalization of \$32,000 and local office in Marysville, E. C. Smith, attorney; and the Northwestern Hydraulic Mining Co. of Pierre, South Dakota, capital \$100,000 and provincial office at Big Bar, with Wm. F. Gore, attorney, are registered as extra-provincial companies.

Teachers also being called by the government for the erection of a one-roomed school house at Deadwood.

The following applications are chronicled:

Engene Couture, of Windermere, to be a Justice of the Peace in and for the province.

Alfred Marchmont, Watson, of Alberni, M. D., to be a Justice of the Peace in and for the province.

Charles C. Daley, of the city of Kaslo, to be deputy mining recorder for the Alsworth mining division; deputy district registrar of the Kaslo registry of the Supreme court; deputy registrar of the County court of Kootenay, holder at Kaslo, and a collector of revenue tax for the Slocan riding of the West Kootenay electoral district.

R. J. Stenson, Kaslo, to be a clerk in the office of the government agent at the said city.

James Pollock Nimmo, of Extension, B. C., to be a member of the board of license commissioners for the South Nainaimo electoral district, vice W. J. Bailey, deceased.

Ernest Thomas, of Princeton; Charles A. C. Stewart, of Kootenay, and Frank Forrester Ketchum, of Beaverdell, to be notaries public in and for the province.

George Thomson, of Nanaimo, J. P., to be government agent at Ladysmith for the South Nainaimo electoral district; stipendiary magistrate in and for the county of Nanaimo; assessor and collector under the Assessment Act, and collector of revenue tax for the South Nainaimo electoral district, vice Archibald McGregor, resigned.

Arthur David Morgan, of Nanaimo, M. D., C. M., to be resident physician at Quesnel.

Thomas Alfred Mills, of Nelson, to be deputy registrar of the Nelson registry of the Supreme court, and deputy registrar of the County court of Kootenay, holder at Nelson. Such appointments to take effect on the 1st day of December, 1901.

K. A. S. SCHOLEFIELD.

Photograph and a Sketch of His Career Published in Montreal Star.

In the last issue of the Montreal Star appeared a photograph of K. A. S. Scholefield, of the Victoria Rugby football team, appears, together with the following eulogistic sketch of his career as an athlete.

"K. A. S. Scholefield, the subject of the accompanying photograph, is one of the most popular members of the Victoria Rugby football club. 'Kenny,' as he is affectionately called by his friends, is a native of the Isle of Wight, but his long residence in Victoria has earned him the title of veteran sportsman. He has played the game of Rugby since he was seven years of age, and it has now become a sort of second nature to him to run with the 'oval.'

"For five years he has played the position of three-quarter back on the Victoria Rugby team, and has been the means of carrying his club to victory in many a hard fought game contested in the most popular clubs from the navy or from other twigs on the Pacific coast. Mr. Scholefield is fleet of foot and his staying powers are of the best. Football is not the only sport of which he is an expert. He played with great skill in basketball, cricket, tennis and lacrosse for several seasons, playing centre of the Victoria lacrosse club. Mr. Scholefield is still a young man, and an active player, and represents all that is manly and honest and excellent in British Columbia amateur athletics."

A snowstorm which set in at Montreal on Wednesday evening continued until yesterday, and the city and surrounding country are now in their winter garb.

## THE ESQUIMO

The Esquimo eats blubber. The lumbermen eat pork. These people are constantly exposed to cold and physical strain. Experience has taught them that fatty foods give warmth and nourishment.

For those who have cold and thin bodies, or are threatened with consumption or any wasting disease, there is no fat in so digestible and palatable a form as Scott's Emulsion. Physicians prescribe it.

We'll send you a little to try, if you like. SCOTT & BOWNE, Chemists, Toronto.

## ISLANDER FUND.

Contributions From the Officers and Crew of the Beaver.

The following additional subscriptions have been received by the civic authorities from the officers and crew of the steamer Beaver for the benefit of the widows and orphans, officers and crew lost on Steamer Islander:

A. Goodly	5.00
Fred. McIntosh	5.00
Frank Creeden	5.00
J. Creeden	5.00
Sing	1.00
Fred. Banford	50
Joseph Barber	50
W. Frost	50
M. Gibbs	50
John Ross	50
Joe Florence	50
Patrick Deegan	50
F. W. Reid	1.00
W. H. N.	5.00
Total	\$26.50

## SPORTING

### WEEKLY TOURNAMENT.

At the J. H. A. A. whist tournament, held last evening in the club rooms, the winners were Messrs. Tom Watson and A. J. Dallala.

### ATHLETICS.

SANDOW CHALLENGED.

New York, Nov. 12.—G. H. Rolando, through his manager, M. H. Hyrd, of this city, today issued a challenge to Sandow, who claims the world's championship, to meet him in a contest in 10 days of strength, each man to have five feats to be decided at any place and time, New York preferred, which Sandow may suggest. As a guarantee of good faith, Rolando today posted a forfeit of \$200 in the hands of George Condine to bind the match.

### BASKETBALL.

VANCOUVER Y. M. C. A.

The basketball players of the Vancouver Y. M. C. A. met on Wednesday evening and organized their ranks into a regular club. About 30 players attended the meeting. After reviewing the prospects for the winter season, it was decided that the Y. M. C. A. possessed sufficient basketball players to put four or five teams in the field, and it was moved and carried that the teams could be better organized if the players were to form themselves into a club. The suggestion was acted upon without delay, and the following officers were unanimously elected: President, Matt. Barr; vice-president, J. Reynolds; secretary-treasurer, G. Hoeking; coach, W. Fere. It was announced at the meeting that F. Armstrong, the jeweller, had very kindly offered a trophy cup for basketball competition, a hearty burst of applause following the announcement.

The secretary was instructed to write to the largest club, asking it for the use of the club uniforms for the basketball matches.

### RUGBY FOOTBALL.

HIGH SCHOOL VICTORIOUS.

The match between the High and Collegiate schools at the Oak Bay grounds yesterday was a repetition of the games played last season between these two aggregations. Although the Collegiate team is swift, smart and works together well, the heavy weight of the High school completely demoralized their play. This was the case in the game played yesterday, and the High school won by a score of 9 points to nil. The great advantage of the High school boys by reason of their weight was most noticeable in the scrummages, when the latter aggregation would entirely outplay their opponents. However, it may safely be stated that the greater number of individual brilliant plays were made by members of the Collegiate team.

As usual, the Collegiate team from the start of the match put up a plucky fight, never giving up hope of passing the High school backs.

At first the game looked decidedly bad for the Collegiate team, for the High school resolute matters and succeeded in getting several tries, and the latter aggregation was again taken possession of by the High school, only to be sent flying down the field with a splendid kick by the Collegiate back, W. Todd. In spite of the fact that the High school got the ball over the line, the try was not converted. From this point on half time honors were about even. The Collegiate school kept the High school team in check, and even succeeded in several occasions of coming within a few feet of a touch down. In this part of the game Marshall, of the Collegiate team, distinguished himself by making a run which covered nearly three-quarters of the field. He passed the forwards and the backs, with the exception of the full back, and was decidedly the best runner on the field. Kerfoot, of the same team, also shared honors with him. Allist and Netherly, of the High school team, also played well.

The High school, after making many unsuccessful attempts, managed in the second half to cross the line a second time and secure another try, which was converted, making the score 8 to 2 to the Collegiate's nothing. The rest of the match was much the same as the latter part of the first half, being very even. No further score was made.

### ASSOCIATION FOOTBALL.

WHY VANCOUVER LOST.

The Vancouver Province says that the Vancouver Association football team were defeated by Victoria on Saturday last by a score of 10 to 2. The latter were more accustomed to playing in the rain than the former.

It may, therefore, be safely presumed that the Vancouver aggregation is a dry weather organization, which probably accounts for the number of defeats they have received at the hands of the Victoria Association football team on their own grounds.

Doubtless it was raining heavily in Vancouver four years ago when the Victoria "Rain" or "Brook" Club captured the medals awarded by the Columbian Society. The same weather conditions must have prevailed last year, according to the deductions of the Province, when Victoria again turned the Terminal City team down with two goals to one. Last Saturday, of course, it was also raining, and Victoria won with three goals to one.

It rains occasionally in Victoria, but the local men are not afraid of getting wet, and that is why they can put up a good game even under a Vancouver downpour, which has an international reputation.

It is not the fault of the Victoria team if the clerk of the weather does not see fit to treat the flourishing Malahat city to the phenomenon of shutting off the Vancouver nozzle of the supernal reservoir on rare occasions, out of courtesy to the visitors from the Capital City.

The Vancouver team is undoubtedly an excellent one, as their victory over the local Columbia indicates, but rain or shine they will have to play as they are played before they can win the colors of the Victoria Association Football Club.

### PLETHORA OF GAMES.

To-morrow afternoon a number of games will be played in this city. The most important is the match between the Garrison and Victoria. An intermediate game in the city district league will be played at before 2 o'clock, the colors of the Victoria association football club.

The New Vancouver Coal Mining & Land Co. LIMITED. Supply from their Nanaimo, Southfield and Protection Island Collieries. Steam Coal for House.

The Daily Times. Published every day (except Sundays) by the Times Printing & Publishing Co.

- Times Printing & Publishing Co. W. TEMPLEMAN, Manager. Office: 25 Broad Street. Telephone No. 45. Daily, one month, by carrier \$7.50. Daily, one week, by carrier \$2.50. Twice-a-Week Times, per annum \$1.50.

POLITICAL INDEPENDENCE. We really cannot see why the Times should be called upon by the Colonist to undertake a justification of the course of Mr. McBride.

TRAFFIC IN STRONG DRINK. The liquor problem, like the political crisis in British Columbia, is always with us. The fact that Anglo-Saxons are a liberty-loving people may explain why Great Britain, the United States and Canada appear to lag behind some despoticisms in their treatment of this perplexing question.

Lord Rosebery has announced his willingness to leave his lone furrow and assist in the settlement of some of the difficulties which are perplexing the public mind of Great Britain. Like our Mr. McPhillips, he thinks it is time to cast out political prejudices and work for the advancement of the interests of the country.

which govern their employees. This movement is spreading to all lines of business. The tippler is distrusted and his abstaining brother is preferred before him. The temperance problem is becoming a business problem.

Our esteemed morning contemporary is rapidly estranging its friends; but what matter so long as it abides by its principles. Now there is Mr. McPhillips, a Tory of the Tories, brought up in the household of the faithful. He has fallen from grace and given up the thought of making British Columbia a stronghold of the true faith.

No publication in the world exercises a more beneficial influence upon the Anglo-Saxon race than the Youth's Companion, of Boston. In these days when so much that is vile and vicious in literature is circulated, it is of more consequence than is apparent on superficial consideration to be able to point out to parents and all interested in the welfare of the rising generation a publication the moral tone of which is beyond question.

The Irish Nationalists have conceived the brilliant idea of electing Kruger to Parliament. The ex-President is not likely to be strongly drawn to any position to which there is not a salary attached. The Nationalist endowment fund is running rather low, and perhaps it is thought the Dutch as well as the Irish in America might be appealed to if Kruger were given a seat.

President Roosevelt has refused promotion to a United States army officer because the military man felt a young lady to whom he was engaged to be married. The officer was a Philippine hero, too. The President has a proper conception of the responsibilities of office.

Our esteemed morning contemporary is rapidly estranging its friends; but what matter so long as it abides by its principles. Now there is Mr. McPhillips, a Tory of the Tories, brought up in the household of the faithful. He has fallen from grace and given up the thought of making British Columbia a stronghold of the true faith.

No publication in the world exercises a more beneficial influence upon the Anglo-Saxon race than the Youth's Companion, of Boston. In these days when so much that is vile and vicious in literature is circulated, it is of more consequence than is apparent on superficial consideration to be able to point out to parents and all interested in the welfare of the rising generation a publication the moral tone of which is beyond question.

The Irish Nationalists have conceived the brilliant idea of electing Kruger to Parliament. The ex-President is not likely to be strongly drawn to any position to which there is not a salary attached. The Nationalist endowment fund is running rather low, and perhaps it is thought the Dutch as well as the Irish in America might be appealed to if Kruger were given a seat.

The above recital, based on the statements of a correspondent, may be colored to suit the ideas of a prohibitionist, but he makes out a strong case. Compulsory temperance appears to have had a good effect in the country so often looked upon as semi-barbaric; and, while the freedom-loving Britisher may deem it an infringement of personal liberty for the government to dictate how much he shall drink and how long he shall remain in a public house, it must be admitted that government control in Russia has brought beneficial results, even though the correspondent's picture be a little more roseate than the facts justify.

Lord Rosebery has announced his willingness to leave his lone furrow and assist in the settlement of some of the difficulties which are perplexing the public mind of Great Britain. Like our Mr. McPhillips, he thinks it is time to cast out political prejudices and work for the advancement of the interests of the country.

THE CANADIAN. The Canadian are as loyal to England as any people can be who have intimate relations with a republic. It can't be helped, of course, and it is not our fault, but the fact that we and they are commercially interwoven makes them wonder if they will some time knock out our family dog, and makes us wonder if we should be glad to have them knock. In the meantime all is serene on both sides of the border.

MR. McPHILLIPS EXPLAINS. To the Editor:—The Colonist attempts to lead the discussion upon the present political situation into other channels, notably into what were at one time the different views of those in political life, as to the advisability or non-advisability of party lines, etc. Liberal or Conservative. In so doing the Colonist merely quotes the concluding paragraph of my letter that appeared in the Times on the 13th instant, and endeavors to make capital against me by stating that I stood for party lines, but does not attempt to answer the reasoning of my letter. Yes, I stood for party lines, and did so strenuously, until in the end I agreed that it was right, under the particular and peculiar circumstances, that all good Liberals and Conservatives should band together and bring about the restoration of responsible government. It was pressed upon me by strong personal friends of mine, who were Liberals, that it was not fair to divide upon party lines in 1900, as it would result in dividing many Liberals into the ranks of Mr. Joseph Martin, and that it was unfair to the Liberal party as a whole, as the Conservatives would stand to win owing to the disintegration that would ensue in the Liberal party.

MAKING HIM USEFUL. Mr. Finkle (to his wife)—"My dear, the doctor says a brisk walk before going to bed will ensure sleep to insomnia sufferers like myself."

HOW TO TREAT A TROUBLESOME CORN. To remove a troublesome corn or bunion: First soak the corn or bunion in warm water to soften it, then pare it down as closely as possible without drawing blood and apply Chamberlain's Pain-Expeller ointment daily; rubbing vigorously for five minutes at each application. A corn plaster should be worn for a few days to protect it from the shoe. As a general treatment for rashes, bruises, lacerations, and inflammation, Pain Expeller is unequalled. For sale by Henderson Bros., Wholesale Agents.

THE GREAT DECLINE IN THE PRICE OF ENGLISH RAILWAY SECURITIES DURING THE LAST SIX MONTHS HAS BEEN ATTRACTING MUCH ATTENTION AND CREATING MUCH DISCUSSION IN FINANCIAL CIRCLES.

PROF. PARKES'S PICTURES. They Will Be Shown To-Night and To-Morrow—The Frawley Company. No one in the city should miss the opportunity of seeing the beautiful moving pictures to be exhibited to-night, to-morrow afternoon, and to-morrow evening in the Victoria theatre by Prof. Parkes. The leading subjects are outlined in the advertisement in another column, but no description can do justice to the artistic character of these scenes. An examination of the films and plates in the possession of Prof. Parkes only whet the curiosity to see them when thrown upon the screen. Into his photographs the artist has managed to weave the marvellous colorings of the north, the brilliance of the aurora borealis, the spectral-like midnight sun, the variegated tints of the Calico cliffs, the odd effects in color and tone which are peculiar to the great district in the sub-Arctic.

Three years and thousands of dollars have been expended in procuring these pictures, and already the owner has refused very large sums from the Edison and other moving picture companies. In addition to the northern views, of which there are over a hundred, the manager shows also a number of amusing views—elephants' Resurrection from the Tomb and The Artist's Dream. In the former the tomb is invaded and the mummified corpse robed of its jewels and cut in two. To the consternation of the robbers Cleopatra returns to life and foils the persistent attempt of the robbers to destroy her. The Artist's Dream pictures the beautiful ideals of the artist, visiting him in his sleep, but when he attempts to embrace them, they vanish, breaking his dream.

Good plays properly presented are always sure of the patronage of the theatregoers throughout the country, consequently Dan'l Frawley and his clever company will doubtless draw a very large house Monday evening, November 18th, when they will present for the first time in this city R. C. Carton's greatest success "Lord and Lady Algy."

MISS VAN BUREN IN THE COMPANION PART OF LADY ALGY HAS BEEN ALSO VERY WELL RECEIVED.

THE GREAT DECLINE IN THE PRICE OF ENGLISH RAILWAY SECURITIES DURING THE LAST SIX MONTHS HAS BEEN ATTRACTING MUCH ATTENTION AND CREATING MUCH DISCUSSION IN FINANCIAL CIRCLES.

CITY OF TOPEKA IN THE DRY DOCK

STILL ANOTHER SHIP COMES FOR REPAIRS

Probability That the Goddard Will Be Raised—Machinery Shipped From Toronto—Shearwater Sails.

Because of the crowded condition of the docks on the Sound, the Pacific Coast Steamship City of Topeka is in the dry dock for repairs to damages sustained in a collision with an iceberg on her last trip north. The vessel arrived from Seattle last evening and was being placed on the blocks this forenoon, the dock being not pumped out until 12 o'clock. The injuries of the ship are located forward, and commence just below the water line on the stem, which is badly bent. The full extent of the damage will not be known until after a survey has been made this afternoon or tomorrow. Tenders for her repair will then be invited and the work carried out where the ship lies. Mr. Leary, the Pacific Coast Steamship Company's chief engineer, who, with Mr. Miller, the superintendent of the company, came from the Sound on the Topeka, considers himself very fortunate in getting the dry dock for the Phoenix, of the warship fleet, had been occupying it and he feared, in view of the many contracts now on hand here, that he would find no accommodation for his ship. The Topeka is a bulkhead vessel, otherwise she would probably have sunk. The iceberg which she encountered was submerged, and in the dense weather prevailing at the time she struck could not be seen. After the collision she was taken to Douglas Island and beached, when it was found that she could make the voyage to Seattle with safety. On reaching the Sound port it was discovered that all the docks were occupied and would be for several weeks.

Owing to the Topeka's accident, the Senator will be placed on the run on the southeastern Alaska route. The Cottage City, the other Alaskan liner of the Pacific Coast Steamship Company, is still undergoing repairs and will be in the hands of the mechanics for some time yet.

the water and the bottom touched, it was found she could make nearly twenty miles an hour. This experts attribute to the new feature of placing a hood or arch over the wheels, which prevents the water being distributed.

GODDARD WILL BE RAISED.

H. A. Munn, who returned from the North yesterday, and whose company owned the steamer Goddard which sank in a storm on Lake La Barge last month, states that the steel hull of the vessel will likely be raised. The loss of the steamer was a heavy one, for two weeks before she was wrecked she had been extensively repaired, and there was not a cent of insurance on her. Mr. Munn reports that the Emma Knott was tied up at Seiwon on the 4th, but as it was raining on the 7th it was believed that she might reach White Horse with the mail before the river froze. Marsh lake, Mr. Munn says, was covered when he left, but Lake La Barge was free of ice.

MARINE NOTES.

Steamer City of Puebla is again in the fine performance business. She not only made a record trip South, but returning she arrived here at 5 o'clock yesterday afternoon, just 54 hours from the Golden Gate. She brought 49 passengers, of whom 15 landed for Victoria. To-day the Unatilla will have among her passengers going South from here when she sails for San Francisco (this evening) Mrs. J. Tiedmann, Miss P. Westall, Miss F. E. Elzold, A. G. McKenney, G. W. Griffiths, P. McGeehan, Mrs. McGeehan, Mrs. W. A. Ward and Miss Davie. There is a probability that after all the large schooner James Bennett, which went ashore at Unimak pass, Alaska, this summer and was reported to be a total loss, may be saved. Captain Goldrop and a Mr. Scudits have chartered the schooner Rio Rey for the purpose of trying to float the vessel Scudits.

Another large steamer is to be added to the fleet of colliers plying between Ladysmith and San Francisco. This is the steamer Sutherland, which is now on route from Portland to Shanghai with a cargo of lumber. Upon her return the steamer will at once be placed in the coal trade.

Steamer Rosalie brought in from the Sound this morning twenty odd tons of machinery for the Esquimalt Marine Railway Company's new repair plant, which will shortly be one of the finest on the coast.

H. M. S. Egeria, which has been making a survey of the northern coast, with Alert Bay as her headquarters, is expected back in Esquimalt in a day or two.

H. M. S. Shearwater, the vessel recently commissioned in England to relieve the Icarus on this coast, is reported to have left for Esquimalt.

RITHEH & CO.'S CIRCULAR.

R. P. Ritheh & Co.'s freight and shipping report for October says: "The decline in grain freights, mentioned in our last, has been followed by a further reduction, recent charters having been made at 35s. 9d. for San Francisco and 35s. for Portland or Puget Sound loading. There has been abundance of tonnage in the market, but the lower rates are, to a certain extent, caused by steamers entering the grain trade. In lumber freights there is a fair amount of business doing, and tonnage can be obtained at unchanged rates. Sealing catches for the season amount to 24,160 skins, against 35,548 in 1900, and 35,471 in 1899. The decrease in the Behring sea catch may, in some measure, be attributed to the unwillingness of Indians to go out, preferring to fish their time this season to salmon fishing. Several schooners were in consequence unable to get crews, and others were short of the numbers of boats usually carried.

"We quote freights as follows: Grain: San Francisco to Cork, f. o. b., 35s. 9d.; Portland to Cork, f. o. b., 35s.; Tacoma and Seattle to Cork, f. o. b., 35s. Lumber: British Columbia or Puget Sound to Sydney, 40s.; Melbourne or Adelaide, 47s. 6d.; Port Pirie, 45s. to 46s. 3d.; Fremantle, 57s. 6d.; Shanghai, 41s. 3d. to 42s. 6d.; Kion Chan, 42s. 6d. to 45s.; Taku, 50s. to 52s. 6d.; Vladivostok, South Africa, 65s. to 67s. 6d., and U. K. or Continent, 75s. to 77s. 6d."

PAPERS TO BE RESTORED.

Capt. Alven, master of the steamship Garonne, whose license was suspended for ninety days by Capt. Bryant and Capt. Cherry, of the United States marine inspection board, has been restored his master's papers. This decision has been formally announced by Capt. John Berningham, supervising inspector of the First inspection district, sitting as an appellate judge in the case of Chief Engineer Crew of the Garonne, whose license was also revoked.

NEW STEAMER FOR B. C.

The Toronto Telegram of a recent date contains an item which will be of interest to marine men. That paper says a shipment has been made from the Bertram shipyards of that city, of a splendid steamer for use on the rivers and lakes of British Columbia. The vessel is a model of improved steamboat building in every respect, and will no doubt prove valuable in the construction of much larger vessels. It is a twin screw steamer of the most improved type, especially with reference to its wheels. Each wheel is set in what is termed an arch, with about an inch clearing all round, so that the water is thrown by each revolution in one direction, directly behind the wheel, which, as this vessel demonstrated in its trial trip, adds much to the speed. For instance, she was built to run about twelve miles an hour, but when put in

Mr. Bennet, who was 48 years of age, was one of the most widely known characters in North Yale, having lived in Kamloops since construction. He leaves a widow and child who are at present in the Old Country.

VANCOUVER.

The marriage of William Cameron, of the British Yukon Navigation Company, and late of the Union Steamship Company, and Miss Dorothy Thompson, of Horaty street, took place on Monday. The ceremony was performed by Rev. L. Norman Tucker.

According to the terms of the agreement, the new library must be completed before October 15th, 1902. Contractor Adams will push its construction as rapidly as possible, and expects to have the building in shape long before that date. Work will begin as soon as the weather permits.

On Tuesday afternoon between the hours of 4 and 7.30 some evil-disposed person entered the Technical school by one of the windows, smashed all the electric lamps, tore down and scattered over the floor about a hundred large sheets of blue-print drawings and paintings, and tumbled about almost everything in the room. Except the lamps, nothing is broken, and only a few of the drawings are damaged.

In the Supreme court chambers, before Mr. Justice Irving, the following application was disposed of on Wednesday: Stewart vs. Vancouver Printing & Publishing Company—To dismiss action. Order made.

The city council will consider the question of the disposal of the False Creek flats next Monday. It has been advised that the provincial government will yet have to give their formal consent under certain conditions to relinquish their rights to the city. A. H. Jones has a proposition to dredge a channel for boats from the flats to deep water with the Melanor dredge he recently purchased. He asks part cash and part redeemed land in payment.

The following appeals have been heard by the Full court: Waterland vs. Greenwood; decision reserved. Waterland was awarded heavy damages against Greenwood owing to a defective road causing the flooding of Waterland's land by water. Malone vs. Ferguson; appeal dismissed. Hall vs. Latta; appeal allowed with costs and all costs of court below, and a new trial directed. Cleary et al vs. Boscowitz; appeal dismissed with costs.

ROSSLAND.

The Rossland St. Andrew's Society is reorganized for the ensuing year and the affairs of the society are in excellent shape. The annual general meeting took place on Monday night. The report of the honorary treasurer was read and adopted. It demonstrated that the society had a cash balance to its credit of \$28.17. The election of officers ensued and resulted as follows: A. B. Mackenzie, president; John M. Smith, vice-president; W. Wiley Johnson, honorary secretary; James Anderson, honorary treasurer; A. H. MacNeill, J. K. C. Fraser, A. B. H. MacNeill, J. H. W. Taylor, directors; Dr. Colthart, physician; Dr. J. Millen Robinson, L.L.B., chaplain; J. A. MacDonald, solicitor; Hector McEae, bard; Thos. S. Gilmore, standard bearer; J. B. Johnson, warden; K. E. Mackenzie and John Jackson, jr., auditors.

PASSENGERS.

Per steamer Charmer from Vancouver—Mr. Falout, E. F. Boisseau, Miss I. Keating, A. Langton, R. Machin, T. Turner, Miss Virginia, A. J. McMyrn, F. Rickles, Mrs. Jefferson, B. G. Gleason, Joe Wilson, A. Eagle, J. McKeel, M. Dolan, W. Baxter, Geo. Martin, Mrs. Johnson, C. E. Hope, F. W. Cates, Mrs. Pollard, F. S. Higginson, S. C. Court, Dean Spencer, E. Melrose, E. A. Lester, S. J. Pitts, Wilson Bros. W. & J. Wilson, W. E. Nachtrieb, Watson & Hall, W. A. Jamieson, W. A. Ward, B. C. Marine Ry. Co., G. Musais, Hong Tai, G. Bevelockway, Taylor, Smith & Co., Wm. Hogan, W. H. Heddie, G. Cunningham & Sons, Brown & McGregor, F. E. Stewart, G. H. Treen, Hood, Aldred, S. Pader & Co.

Per steamer Majestic from the Sound—D. Fleming, Geo. Everett, Vic. B. & Sta. Co., Dennison T. W. Co., Holt Croft & Co., Rodigh & Jamieson, Royal Jubilee Hospital, W. Wilby, Speed Bros, Watson & McGregor, J. M. Colbert, C. D. Travers, Brackman-Ker-M Co., Wilson Bros.

Per steamer Rosalie from the Sound—D. Spencer, W. F. Bullen, E. G. Prior & Co., Brackman & Ker-M Co., W. Nelson, R. W. Clark, Brown & Cooper, A. McGregor & Son, Vio Le, M. G. Co., J. H. Mills, P. R. Stewart, Watson & McGregor.

Anyone troubled with boils, pimples, rashes, festering sores, or any chronic or malignant skin disease, should use Burdock Blood Bitters externally and take internally. It will cure where others fail.

There are nearly 25,000 gipsies in Britain. Seventeen per cent. of all the doctors in Britain live in London.

A Great Sale of Cloth Bound Novels

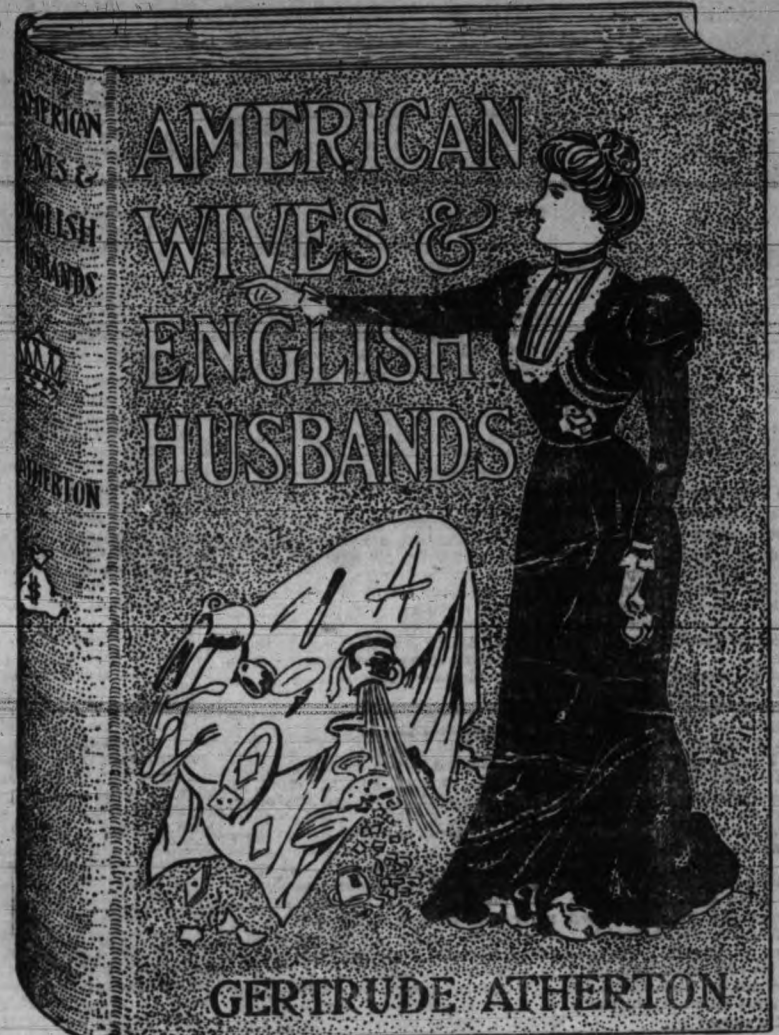

Attention need only to be called to the great distribution of high-class literature by the best modern authors at the lowest price ever touched in the making of well-bound books to secure the interest of every one who appreciates fine fiction. The International Association of Newspapers and Authors have, through co-operation, secured a representative novels by each of the

20 Greatest Modern Writers

which have formerly been published at \$1.50 and \$1.25 a copy, for a limited time may be had

Handsomely Bound in Art Cloth 25c A COPY

Every book is reproduced directly from the original plates of the high-priced edition, and is fully protected by copyright. As soon as the present printing is exhausted no more copies will be obtainable at less than the full published price. The authors depend upon the immense sale to increase their popularity and thus reimburse them. The two new books on sale this week for the first time are:

American Wives and English Husbands

By Gertrude Florence Atherton (author of "Senator Nord")—A novel describing two international romances.

The Last Meeting By Brander Matthews (author of "The Secret of the Sea")—weird adventures of a New Yorker with an Oriental enemy.

THE CUTS SHOW THE EXACT SIZE AND APPEARANCE OF THESE NOTABLE NOVELS WORTH \$1.25 AND \$1.50 A COPY. NOW TO BE HAD FOR A LIMITED TIME FOR 25 CENTS, IN ART CLOTH.

Cut out the little voucher and bring or send it to-day with the little price for the greatest of book bargains ever offered.

Book Voucher.

Put cross before names of books wanted. OFFERING THIS WEEK. ( ) American Wives and English Husbands—Atherton ( ) The Last Meeting—By Brander Matthews.

Already offered: ( ) "SIMON DALE"—Anthony Hope ( ) "A FAIR BARBARIAN"—Frances Hodgson Burnett. ( ) "THE GREAT K. & A. TRAIN ROBBERY"—P. L. Ford. ( ) "I, THOU AND THE OTHER"—A. E. Barr. ( ) "THE RUDDER GRANGERS ABROAD"—Frank R. Stockton. ( ) "FACE TO FACE"—Robt. Grant. Orders for "Simon Dale" and "A Fair Barbarian" will be filled on arrival of second shipment. (Add five cents postage for each book ordered by mail.)

The Last Meeting BY BRANDER MATTHEWS AUTHOR OF The Secrets of the Sea.

City readers secure the volumes for 25 cents each, and the voucher at our book counter. Out-of-town readers mail 30 cents each with the above voucher clipped from this paper and the books ordered will be sent postpaid. It is best to apply promptly either personally or by mail.

### THE MURDER CASE COMMENCED TO-DAY

#### SEVERAL WITNESSES HAVE BEEN EXAMINED

#### More Light Thrown on the Cause of the Fighting—The Men Had Been Drinking.

The preliminary hearing of Frank Nicholes, the Greek fisherman, charged with the murder of Tom Netes, about a week ago, commenced in the police court this morning.

There was a large crowd in attendance, representatives of many diverse peoples, and the greatest interest was manifested in the proceedings. The case for the prosecution is in charge of Deputy Attorney-General H. A. McLean, while the defence is in the hands of S. Perry Mills. Several witnesses were examined, after which an adjournment was taken until this afternoon.

The cause of the quarrel between the two men, Netes and Nicholes, was made fairly clear this morning. The accused had complained that Netes's brother, Constantine, had broken his agreement in the sale of his fish, and Netes retorted that he would stay with his brother and inaugurate competitive prices. That started the trouble.

Justin Gilbert was sworn in official stenographer, and the taking of evidence commenced.

Constantine Blackstock, the first witness called, said he found the deceased, Tom Netes, on Government street, between Herald and Chatham, at 12.40 o'clock on the morning of the 8th. He was walking along his beat when he heard a groan. Investigation disclosed Netes lying partly on the sidewalk and partly on the edge of a vacant lot.

A sketch showing the block bounded by Chatham, Government, Herald and Store streets was then produced, and witness designated the spot where Netes was found, on the west side of Government street. He also answered questions relative to the locality on the diagram, showing an alleyway 250 feet long running through the block.

The Greeks had a colony at the foot of Herald on the other side of Store street, where Netes lived. Witness only knew the deceased by sight. When he found Netes, witness did not know what the matter was, and removed him to the police station in a carriage. He was bleeding at the mouth. At the station it was found he was wounded in the abdomen on the left side.

Subsequently when Dr. Robertson arrived, witness noticed another wound in the breast in the region of the heart. The doctor arrived ten or fifteen minutes after they reached the station. The wounded man was unconscious—could not speak.

Witness had seen neither Netes nor the prisoner previously that night. Netes died at the police station between twenty and thirty minutes after arriving there.

Cross-examined by Mr. Mills for the defence, witness said it was very dark on Thursday night and early Friday morning, but he could not say it was extremely dark. There was a light at the corner of Herald and Government streets. The alleyway through the block was very dark. It was about four feet wide.

Tom Netes, the deceased, was about six feet in height. He was a powerfully built man. Witness could not tell whether he was "hard-boiled" or whether he was soft.

When Netes was found was not a part of witness's beat. He was on the corner of Herald and Government street when he heard Netes groaning. He had passed this corner previously about 12.10 a. m. Deceased wore a coat and a white sweater.

Dr. Hermann Robertson, the next witness, under examination by Mr. McLean swore that he arrived at the police station at 1.15 a. m. or thereabouts. The wounded man was moaning. He did not speak English, and subsequently when it was found impossible to make him understand through an interpreter, witness concluded that he was unconscious.

He was in a state of collapse, had no pulse, and was at times unmanageable. In the left side of the abdomen there was a clean cut wound about an inch to an inch and a half in length penetrating the abdominal wall.

About one and a half inches internal to the left nipple was another wound, three corners in shape, about three-quarters of an inch in length. Considerable hemorrhage had taken place from this wound. The blood had soaked his shirt, but had not penetrated the outer clothing. There was very little hemorrhage from the lower wound. Externally no blood would be seen unless his coat was raised.

The prisoner's knife was then submitted as exhibit B, and witness said the abdominal wound might have been caused by it, and it was possible for the other wound to have been inflicted by the same weapon. The wounded man died twelve or fifteen minutes after witness arrived.

On the afternoon of the 8th witness performed an autopsy.  
Dr. Robertson then described the nature of the wounds as disclosed by the

post mortem, the details of which have already been published.  
Cross-examined by Mr. Mills, witness said the upper wound was about three-quarters of an inch in length. He examined the margin of the wound near the heart. The skin was incised, but the wound was not gaping. He did not recollect saying at the coroner's inquest that the abdominal wound must have been inflicted at close quarters. He did state its direction.

The breast wound was oblique. Netes was a powerful man, about 5 feet 8 or 10 inches in height.  
The night in question was ordinarily dark—the moon was not shining. Witness had seen the prisoner before, having at the request of counsel for the defence made an examination of him on the day after his incarceration.

On the right side of the prisoner's nose were three scratches, one extending from the centre to the right corner of his mouth. There were two or three small scratches on the right side of his mouth. There were also some scratches on the opposite side of his face and others in the vicinity of both ears. Behind his left ear there was a tender swelling, which was in an inflammatory condition. Prisoner also complained of stiffness in the left shoulder, but examination disclosed no indications of external injury.  
Re-examined by Mr. McLean, witness said that the prisoner also appeared to be a strong man.

To Mr. Mills he said that it was a fact that "severe blows" were dealt, attended by external marks of violence.

Michael Angelo, the next witness, was called, and Mr. Bancroft was about to officiate as interpreter, when Mr. Mills stated that he had been instructed to object to him, to the reasons for which he did not desire to give publicity. One of them was that he would be partial.

The deputy attorney-general observed that his learned friend could have another interpreter to check him if he desired.

This Mr. Mills decided to do, and Peter Brown took a seat by counsel's side to watch the interpretation in the interests of the defence.

Mr. Bancroft was then sworn as interpreter, and the examination of Michael Angelo commenced.

To the deputy attorney-general witness said he lived near the water, below Store street. He knew Tom Netes and the accused.

He remembered the night Netes was killed. He met him in a restaurant in company with a woman and an Austrian. Netes had two bottles of beer.

He did not know on what street he met the prisoner. They and two others went to a gambling house, where Nicholes played, losing 30 cents. They then went to another place, where witness and the accused gambled. They met Tom Netes at the last place, and from there they went to a saloon. The party were witness, Nicholes, Netes and two others. After going to another saloon Nicholes, Netes and witness went to a house of ill-fame.

He did not know where it was, and could not say the time. While there he heard a dispute between Netes and the prisoner in another room. One was telling the other that he was fighting. Witness's fishing business properly—that he did not maintain a standard price, but undersold him.

They left the house, being ejected by the woman in charge. Tom Netes and the prisoner renewed their dispute about their fishing business. Nicholes and witness separated them, but they again started to fight. He was about to separate them again, calling for a police officer, when they drew apart themselves.

The prisoner ran up the street, and Netes through the alley. The witness ran down to tell Tom Netes's brother, who lived near the wharf. The prisoner returned toward Government street. Witness ran toward Store street, and Netes turned up the alley to Chatham street.

He had not seen the prisoner after that. The two were fighting with their fists at first, then they grappled, throwing each other to the ground. The second fight was with fists. Witness could not say who started the fight, as he was somewhat drunk at the time. Netes and the accused were in the same condition, "feeling happy." They knew what they were doing, however, and could not say who started the fight.

Cross-examined by counsel for the defence, witness said Netes and the prisoner came out of the house first. They commenced fighting on the road, and were struggling on the ground. They were cursing in Greek, calling each other opprobrious terms.

Neither was getting the worst of the fight. When witness called for the police the two separated themselves. The prisoner ran first, asking for Herald street. Witness asked Netes to come home, but the latter would not do so.

Witness saw Netes drinking beer after leaving the restaurant or club house. Netes, a woman who was with him, and witness went into a saloon, drinking about three glasses of beer each. He remained there about 15 minutes, leaving Netes and the woman in the saloon.

He then met the accused and went to a gambling place, which they left together. Tom Netes came after them to the latter house, where witness won some money. The three and some others went to another saloon, where they did some more drinking.

They had met Constantine Netes at the first saloon. He saw his brother Tom was drunk, and it was here that Constantine implored him to go home.

The quarrel in the house of ill-fame was commenced by Tom Netes about 12.10 a. m. The conversation between the two was to the effect that Frank Nicholes said that Constantine Netes had broken his agreement in regard to the sale of herrings. Tom replied that he would stay with his brother in competition against the others.

The dead man had two rings on his fingers. Witness, after notifying Constantine, went to the police station, subsequently returning to the scene of the trouble. There was a carriage there and some policemen. Tom asked if his brother was hurt, and a policeman replied "not much." Tom Netes was a much bigger man than the accused.

Stella Cameron, who lives at 16 Herald street, was the next witness. She designated the position of her house on the diagram, and answered questions regarding the locality in which her house is situated.

She remembered some men coming to her house about 12.15 a. m. on the 8th.

### FOOT ELM.

Some dealers offer substitutes because they make bigger profits. Shun such men. Honorable Druggists sell Foot Elm.

#### RAILWAY PUNCTUALITY.

In the year 1890 the English board of trade called for returns from the various railway companies with regard to the running of their trains, and on these being furnished they showed the most punctual railway was the Great Eastern. The percentage of their trains running into Liverpool street was 97.7 per cent. for the month of September, 1890, as compared with 88.01 per cent. in 1889, and 85.63 per cent. in 1888. The number of passengers passing through Liverpool street station every day is now over 150,000, as compared with about 90,000 in 1889.—London Telegraph.

#### CAREER AND CHARACTER OF ABRAHAM LINCOLN.

An address by Joseph Choate, Ambassador to Great Britain, on the career and character of Abraham Lincoln—his early life—his early struggles with the world—his character as developed in the later years of his life—and his administration, which placed his name so high on the world's roll of honor and fame, has been published by the Chicago, Milwaukee & St. Paul Railway, and may be had by sending six cents in postage to F. A. Miller, General Passenger Agent, Chicago, Ill.

Some specimens of the artificial silk which is being manufactured at Elberfeld, Germany, by a German company, have been forwarded to us. It is stated that the "silk" is manufactured from chemically-pure cotton, cellulose compounds in no way entering into its composition. The journal in question presumes that some new process of mercerizing has been discovered, and adds that there is no question that this artificial silk is far superior to ordinary mercerized cotton.—Sells' Commercial Intelligence.

### CASTORIA

For Infants and Children.

The Best of Castoria is in every bottle.
