BRIEFING MEMORANDUM

MEMORANDUM FOR THE DIRECTOR, FBI

FROM: SAC, NEW YORK (100-157341)

SUBJECT: [Illegible]

As you reported on 3/1/50, the following information is being furnished to you for your information:

Part I

Use of indicators of alien personnel by Government forces:

1. A limited list of indicators of alien personnel:

a. Personnel of the Government forces:

a. Personnel of the Government forces:

b. Personnel of the Government forces:

c. Personnel of the Government forces:

d. Personnel of the Government forces:

e. Personnel of the Government forces:

f. Personnel of the Government forces:

g. Personnel of the Government forces:

h. Personnel of the Government forces:

i. Personnel of the Government forces:

j. Personnel of the Government forces:

k. Personnel of the Government forces:

l. Personnel of the Government forces:

[Illegible stamp or text at the bottom of the page]

CONFIDENTIAL

g. All Others such as Technical Service

Depots, Headquarters Administrative, etc. 70,814

3. Indigenous Civilian Personnel Average Daily

Employed for December 1949 210,573

4. The above totals include indigenous personnel utilized by the Army, Navy, and Air Force as well as authorized non-military agencies such as Red Cross, Atomic Bomb Casualty Commission, etc. Also included are 11,422 which are utilized exclusively in providing logistical support to Allied Powers other than the U. S.

5. The maximum number of indigenous personnel utilized by the Occupation Forces in 1949 was 265,822. In the interests of reducing the impact on the Japanese economy this figure was reduced in september to 238,747 and in December to 236,578, of which only 210,573 were actually employed.

The Commander-in-Chief, Far East, has determined the above provide only the minimum essential requirements for the support of the Occupation Forces.

Part II

1. Rough estimate of savings of appropriated funds accomplished through use of indigenous personnel on essential civilian work:

a. Ordnance Big 5, Vehicle Rebuild Program

The projected total cost of rebuilding 24,600 vehicles plus 188,100 engine and power train assemblies in FY 1951 is estimated at \$30,529,900 of which \$21,665,500 is the cost in dollars of indigenous labor and supplies. If rebuilt in the United States these items would cost \$48,062,700 resulting in an estimated saving of \$17,532,800. This does not include the cost of transporting these items from the United States to the Far East Command.

CONFIDENTIAL

CONFIDENTIAL

b. Engineer Big 9. Base Maintenance Program

Actual figures for the Big 9 Program which is just getting started disclose the following:

1. Estimated savings in labor only for ensuing twelve months will be \$2,594,108.
2. Estimated savings in shipping charges from Tokyo to Granite City, Illinois (Engineer Repair Depot) and return estimated at \$60 per long ton. Estimated shipping savings next twelve months \$1,030,320 plus 6 months savings in ordering and shipping time on each piece repaired.
3. Of the total indigenous personnel employed for the Occupation, 40,368 are employees for which reimbursement in dollars is made by occupation personnel to the Japanese economy. This has the effect of reducing the requirement for U. S. appropriated funds for GARIOA.

Part III

Metropolitan and Resort Hotels.

1. The metropolitan hotels now being used by the Occupation Forces represent the minimum requirements to house occupation personnel. Due to the critical housing shortage and the necessity for maintaining reasonable health standards, it is not deemed practical to release these facilities for use by tourist trade at this time. However, as soon as it is determined the need for these hotels as billets no longer exists, they will be released.

2. In Japan, the Occupation Forces are using 23 resort hotels, having a total bed capacity of 1213. Over 50% of the bed capacity of the remaining

3
CONFIDENTIAL

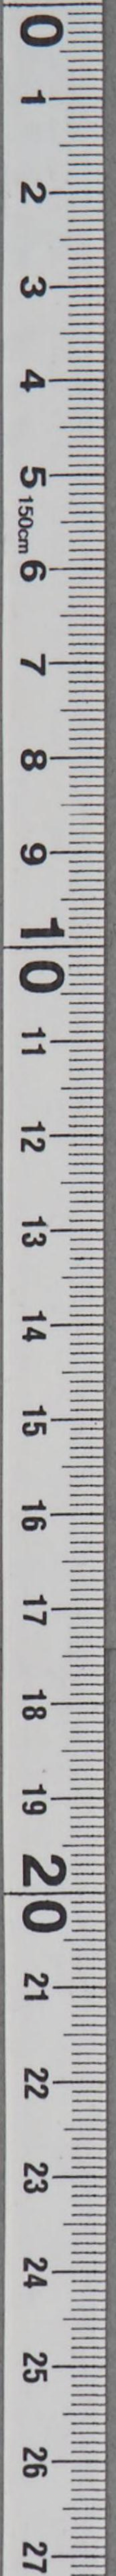

CONFIDENTIAL

23 resort hotels are used on a full time basis as temporary billets for dependents. This is necessary due to the critical shortage of permanent type billets. The remaining bed capacity is made available to Occupation Personnel for recreation and leave periods. These are the only recreational facilities which insure the health and well being of occupation personnel.

3. Three resort hotels were released to the Japanese economy in December, 1949.

EDWARD M. ALMOND,
Major General, General Staff Corps,
Chief of Staff.

Just informed that House Appropriations Ctee may start GARIOA hearing this Friday or next Monday. These dates are merely guess depending on estimated length ECA hearing now on. Believe desirable for Fox to come immediately.

Through work Fleming and Fine did with Garvin here, we have full info from them. While we would welcome having them here, believe above facts probably make it unnecessary to interrupt their regular duties. We are prepared to furnish Fox detailed info necessary. Suggest Fox use commercial transportation charged to GARIOA appropriation to conserve his time and strength. We anticipate hard struggle due to intense congressional economy pressures but we are fully prepared.
