POLICE: RURAL POLICE HEADQUARTERS CONTACTED ON ATTITUDE TOWARDS DEROGATORY SPEECHES AGAINST U.S. OCCUPATION; RESERVED ATTITUDE SUGGESTED

Speakers stated:

From: "KUBO Shinichi, Agricultural Land Committee nominee, made a supporting speech on 14 August at 0900 hours before a group of 50 to the following effect: 'We have to pay high taxes no matter how hard we work because of the expenses entailed by the Occupation and the difference in prices amounting to ¥20-billion. For instance, the Government is buying rice from the farmers at ¥3,500 (Ex: per "koku"; 1 "koku" = approx. 5 bushels), whereas rice from the States is bought for ¥18,000. On the other hand, machines (Ex: presumably sewing machines) made in Japan are sold for as low as $70. For this reason, subsidies to balance the difference in price are necessary. The U.S. Army now occupies Japan, but they can leave after a People's Government is established. The YOSHIDA Cabinet has calculated ¥70-billion for these expenses. Instead of such foolishness, we can raise the price of our goods by trading with Russia, Korea and China. We should all unite in speeding the evacuation of the Americans by establishing a People's Government under the Occupation.'"

To : "Such comment has appeared in the AKAHATA (List: X-76) and the JIMMIN HYORON (People's Review) and is not worth taking up as a problem. The Rural Police Headquarters is avoiding the arousing of public feelings, and I think it better not to touch on the matter."

From: "It was also said in the speech supporting an Agricultural Land Committee candidate; 'The Tsuruga (Fukui-ken) Incident was true and the police exerted pressure. The Government is troubled since it had actually happened. A crowd of 3,000 turned out to welcome the repatriates, against which a police force of 2,000 was dispatched, inflicting injuries. The Government announced that it would give a warm welcome to the repatriates at Maizuru, which turned out to be an outlay of 8 cannons, machine guns and 800 armed policemen, utterly depriving them of their liberty. This is due to the occupation by the Americans and proof of our enslavement.' Do you think this should be taken up?"

To : "That has already appeared in the AKAHATA and been discussed in the Diet."

From: "Wouldn't this become a problem if we took it up? Debates in Parliament are outside of the law. The Osaka and Tsuruga Incidents are well publicized facts."

To : "Ever since the Osaka Incident, wall newspapers in different localities have excluded the expression 'Tall man with blue eyes', but the Rural Police has temporarily dropped the matter, especially the Kyoto Case."

From: "The National Law allows freedom of speech, but this is more of slander and adverse criticism against the U.S. Army and the MP's rather than against the Japanese police force. Is the Rural Police only to concern itself with actions and facts? We do not have a strong resolution, but I think something should be done with the Public Security Committee after the election is over."

To : "We received inquiries from Hokkaido and Shizuoka on the setting up of cannons. We don't think that such preparations constitute violation of public security."

From: "Are subjective conditions necessary?"

To : "The objective viewpoint is essential. It is hard to say that criticism is against public security, but that is immaterial. INOUE of the Supreme Public Procurators' Office says to overlook the Communist propaganda and wall newspapers. Police operations would involve emotional conflict and the matter is better left unsettled."

From: "But all arguments lead to the Occupation, placing it at fault, you know."

To : "Well, the Rural Police hold reserved opinions in this matter, so I think you'd better leave things as they are."

From: "Then we will take a reserved attitude also."

POLICE: WOMEN-STABBER COMPLAINS OF TORTURE HE RECEIVED WHILE INVESTIGATED IN NIHOMBASHI POLICE STATION

Writer states:

"The newspaper report is not correct; I am not a malicious sexual maniac. On the 23rd, in a subway train I stabbed a woman in her back, and not in her hip, as was reported in the paper, mistaking her for my divorced wife who had been offending me by requesting consolation money of ten thousand yen (¥10,000). I was taken to the Nihombashi Police Station after getting off the subway tram. The detective thought I had committed the crime with malicious design, and tortured me in several ways. They kicked me, beat me, threw water upon me and made me hold a basin full of water all night, just like the way the secret police did in former days."

POLICE: COMMUNIST SYMPATHIZER IN POLICE DORMITORY IN TOKYO TO ENDEAVOR TO AID IN EMANCIPATION OF MASSES; CLAIMS TO HAVE GAINED A NUMBER OF SYMPATHIZERS AMONG POLICEMEN.

Writer states:

"I am very glad to hear that you are devoting yourself in the struggle for emancipation. Since I came to Tokyo two (2) years ago, I have been fighting together with other comrades for the democratization of our dormitory.

"The authorities here have conducted repeated special police-like investigations on both my public and private life with a view of discharging me. However, unable to secure any grounds for my discharge, they have resorted to other tactics. For example, they urged me to change my job because of my ideology. They stated that 'you might have become tired of your work here. As your thoughts may hinder your promotion, you might as well seek another position.' I believe now is the time for ousting these persons, but since I am only engaged in a negative activity, I fear, that I may become a burden to the Party if I join it now. However, within half a year from now, I am endeavoring to put my full time into the struggle against the reactionary forces and for that reason I am now desperately preparing for it.

"About one-third (1/3) of those who had branded me as red or spoke ill of me, have come to support my activities. Through my explanation of the controversy between the actual incidents and the reports in the bourgeois newspapers, the misconducts of the leaders of the people, etc., they have come to see it my way. Our superiors are driving us hard, training us for two to four (2-4) hours daily. One (1) of them lecturing at the commencement of patrol-training, quoted Admiral TOGO's words, 'There is no limit to training.'

"I have not yet joined the party, but am looking forward to my entry into the party. Let us fight for the emancipation of the people hand in hand with each other!"

POLICE: RE-TRAINING OF POLICE INSPECTORS AND SUPERINTENDENTS TO BEGIN 16 OCTOBER

Writer states:

"According to your letter, the re-training of police inspectors will soon begin. I think all concerned are very busy with preparations. The course for police superintendents is to be opened from the 16th. You had better ask the authorities concerned to put off your participation in this training though your name is included in the list of trainees for the first course. I believe that a special arrangement should be granted you at this time in consideration of the importance of the pistol training now under way, and of the actual condition of our section members.

POLICE: POLICEMAN COMPLAINS INADEQUATE SCIENTIFIC EQUIPMENT AVAILABLE FOR CRIME DETECTION

Writer states:

"The intellectual offences are increasing day by day and the social condition is now uneasy, nevertheless we policemen are obliged to stand idle as we have no good measures against them. If every one of us could always carry a small excellent camera, it would be very convenient for our work. POLICE: TRAINING METHOD IN TOKYO DISTRICT POLICE SCHOOL SAID TO RESEMBLE THAT TAKEN BY RECRUITS IN FORMER JAPANESE ARMY

Writer states:

"This is the first day of the two (2) months' training course in this police school. The education in the second term is likely to be practiced in the usual way, though the training in the first term suggested the recruit training taken by the former Japanese Army. As to our daily lessons, we receive various instructions in our classrooms in the morning and practical instructions or physical training out of doors in the afternoon. After school is over at 1620, we have our free hours.

"In regard to our food, in which we are very much interested, we are unexpectedly being supplied with a very sufficient amount and do not need the rice we brought from home."

I also visited the Economic Stabilization Board and the Tokyo District Price Board to confer on financial problems, police offices under the jurisdiction of our prefecture and materials for general equipment and repairing of official buildings. I also took up the matter of how to make good the deficit of our Mutual Aid Association. As a result of my two (2) days' endeavor, I was able to attain about eighty percent (8%) of my aims, and we were permitted to purchase the national property Butokuden, and about one million two hundred thousand yen (¥1,200,000) was decided to be appropriated for the transaction, six hundred fifty thousand yen (¥650,000) for the account of our Mutual Aid Association, and paint materials were promised for construction."

POLICE: POLICE STUDENT CRITICIZED TRAINING, CALIBER OF POLICE, AND UNNECESSARY TRIPS INVOLVING LARGE EXPENDITURES FROM METROPOLITAN FOUNDS

Writer states:

"More than one hundred twenty (120) days have elapsed since I came here. So far I haven't done anything worth mentioning. Daily, I have six (6) hours of lessons from extremely democratic instructors. We get a leave of one (1) and a half (½) days a week, and twice a month we make a trip or an inspection tour. It is no wonder that people call us unreliable police. The other day, I was sent out to a police box in order to learn the actual work. Policemen there have awfully bad manners. They wear uniforms which have no trace of crease and work with sleeves rolled up. They will make good souvenirs if photographed by GI's.

"The whole school made a tour to Okutama, (Nishi Tama County, Tokyo) the other day. A hardly justifiable number of two or three hundred (200 - 300) policemen swarmed and carouzed there in a highhanded meanner priding themselves on their police school at the expense of the metropolitan citizens. I feel abashed when I look back upon the behavior of my fellow students."

POLICE: GRIEVANCE AGAINST ALLOWANCE SYSTEM OF MUTUAL AID SOCIETY IN METROPOLITAN POLICE BOARD REVEALED

Writer states:

"The retirement allowance system of the KYOJOKAI (共助会, Mutual Aid Society) recently formed in the Metropolitan Police Board) is so irrational that despite the same fee payment by members every month the retirement allowance to be paid by the society to those who retire from the service - widely differs according to the length of service. For instance, those who served thirty (30) years will receive about four hundred thousand yen (¥400,000) while those of one (1) or two (2) years' service are entitled to receive only about one half of the amount they paid in. Such a rule is too partial to those of long service.

"Though the rules state that membership to this society is voluntary, we policemen are forced to join it.

"Such being the case the system is very disadvantageous to young policemen.

"Since I protested against this system my superiors seem to look upon me as a man of dangerous ideas. Even in other cases our superiors are always too despotic to allow subordinates to freely express their opinions."

Writer states:

"The retirement allowance system of the KYOJOKAI (共助会, Mutual Aid Society) recently formed in the Metropolitan Police Board) is so irrational that despite the same fee payment by members every month the retirement allowance to be paid by the society to those who retire from the service - widely differs according to the length of service. For instance, those who served thirty (30) years will receive about four hundred thousand yen (¥400,000) while those of one (1) or two (2) years' service are entitled to receive only about one half of the amount they paid in. Such a rule is too partial to those of long service.

"Though the rules state that membership to this society is voluntary, we policemen are forced to join it.

"Such being the case the system is very disadvantageous to young policemen.

"Since I protested against this system my superiors seem to look upon me as a man of dangerous ideas. Even in other cases our superiors are always too despotic to allow subordinates to freely express their opinions."

Writer states:

"The F.U. The other day I went to see the instrument under the guidance of Police Superintendent TAKAO (高尾) oneof the teachers of our school and a connoisseur, I find it cleverly made and very easy to operate.

POLICE: RAILWAY WORKER CHARGES POLICE WITH FALSE ARREST

Writer states:

"Concerning the Mitaka Train Incident Mr. YAMAMOTO, Chief of the union of the Nakano Train District, and eight (8) men were arrested.

"I was surprised while sleeping by six (6) detectives on the morning of 30 July and released on the night of 8 August. I know nothing of this Incident. Neverthless I was forced to spend ten (10) days in a detention room on the one-sided evidence of the authorities. And upon release they gave me a single word 'You need not be detained'. This is quite an infringement upon people's rights. The Government is anxious enough to oppress us laborers at its own will.

"I am now struggling for the establishment of our hopeful future as a full-time union worker for the Nakano Train District."

Byron -

I don't see how we can take any action against this writer. If the Gardiner's note is correct, the writer is an NRP policeman who simply has obtained info from NRP or from observation - he is under no obligation to maintain secrecy. NRP may be at fault for permitting this leak of info. NRP should not have discussed this with any MP yet - and if they did should have cautioned against leaks. NRP has been anticipating something like this because of MP jealousies over NRP getting guns first. Shall I back NRP find out how this got found out or just drop it?

POLICE: MALFEASANCE BY NATIONAL RURAL POLICEMEN IN NAGASAKI-KEN REPORTED BY KYOSANTO CELL MEMBER

Fukuoka: It was learned at Sasebo (EX: Nagasaki-ken) that some policemen of the National Rural Police are smuggling and committing other malfeasances at various ports where smugglers land.

Details are as follows:

1. The repatriation ship for Korea, KOGANE MARU is usually accompanied by fourteen (14) policemen, who are allegedly bartering parasols and other Japanese goods for Korean leather bags, sugar, etc. The KYOSANTO (Japan Communist Party) (List: X-76) cell of the KOGANE MARU reported this to the Police Department Chief, who swore that he would inspect the policemen.

2. The seven (7) policemen on board the ferry-boat NIPPON MARU, which entered the port of Sasebo on 15 August 1949, purchased two hundred ten (210) kin of sugar at Keelung (EX: Formosa). When the ship stopped at Nase (EX: Nagasaki-ken), the departure was delayed because the policemen were half an hour late in getting back to the vessel. They landed at Hario Island (EX: Nagasaki-ken) secretly with the sugar in order to evade the custom officials. In order to call-them to account, the Captain of the ship protested to the National Rural Police Director SAITO. According to Wireless Bureau Chief HORI, they seem to have visited a brothel at Nase.

Examiner's Note: 1 Kin is 1.32 lbs.

POLICE: POLICE FAIL TO CHECK BLACKMARKETEERS AND SELLERS OF OBSCENE LITERATURE AT UENO STATION

Writer states:

"I always see women blackmarketing tobacco and obscene book sellers or others doing illegal business at Ueno Station, Tokyo. This is the place where various crimes are being done and they are increasing day by day. Nevertheless, the railway security officials let them pass, and go around on inspection only as a nominal routine. I reported this to the police box within the compound of the station and asked the officer there why he did not check them and got his answer that he could not help it. They should protect us from these crimes. Such a policeman and security officials who will not do their duty have no right to be employees of the National Railway Public Corporation, whose salaries are paid out of the poor people's purse."

POLICE: JAPANESE POLICE REPORTEDLY ARMED WITH BOMBS AND GUNS

Writer, a spinning factory worker, states:

"We must rise to overthrow the reactionary YOSHIDA Cabinet. We desire peace. Yesterday the policemen were receiving military training in our factory ground. I was burned with indignation at the scene. Policemen exist not for the purpose of arresting robbers, but to impose pressure upon laborers and to start another war. Nakano (中野) Police Station, which is being equipped with armament, has three tanks. Other police stations are equipped with bombs and machine-guns. We, Japanese, who renounced war, must oppose war. We must fight against the present administration.

"In order to build a democratic Japan with a people's government, we must make Japan like Soviet Russia. Some say that Japan is in peace because the Americans are here. I feel the opposite. We are suffering and the administration is not functioning smoothly because of the Americans. I oppose the Pacific Treaty. The capitalists cannot carry on without assistance from America. I do not like a capitalistic country. I will be happy when trade between China and Japan is opened."

Examiner's Note: Nakano Police Station mentioned above is probably the station in Tokyo-to (6 Hommachi-dori 3-chome, Nakano-ku). (Source: Examiner's knowledge)

POLICE: CHIEF OF NIHOMMATSU TOWN POLICE STATION IN FUKUSHIMA PREFECTURE REITERATES DETERMINATION TO SUPPRESS COMMUNIST UPRISING

Writer states:

"I am compelled to work even on Sunday because we are pitted against members of the KYOSAN TO (Communist Party, List: X-76) every day. It is not peaceful here (Ex: Nihommatsu Town, Fukushima Prefecture Source: letter), and it appears that the situation will be aggravated again soon due to the Taira and Koriyama incidents.

"We are now bracing ourselves against them so as not to repeat the disgraceful Taira incident. I will not tolerate such shameful actions so long as I remain chief of police. Even in this remote rural district, cells of the KYOSAN TO visit us every day to lodge protests."

Examiner's Note: Early in July, members of the KYOSAN TO occupied the Koriyama and Taira police stations in Fukushima Prefecture in protest against the order issued by local police authorities to remove all propaganda bulletin boards. Source: Examiner's knowledge.

POLICE: NATIONAL POLICE TRAINING SCHOOL PROVIDES COMFORTABLE CONDITIONS FOR STUDENTS

Writer states:

"Our regular collective life is different from the army life in the past. As the democratic education is being given, we are leading our lives in high spirits every day in order to accomplish our individualities. At the student's meeting place-canteen, various daily necessities are being sold for us. Baseball ground and tennis-courts were also constructed, so we play very often.".
