The WESTMINSTER NURSERY

J. E. STONER, Proprietor

WESTMINSTER, MARYLAND

Planter's Special Price List---For Fall 1928

Our New General Offices and Sales Room with display gardens situated on Lincoln Highway to Baltimore, just outside of Westminister.

To our mail order trade:

We have a few facts to tell you, backed up by our millions of choice, healthy, vigorous, well grown and graded Peach, Apple, Pear, Cherry and Plum trees, also Berry plants, California Privets, Barberry Thunbergi, Evergreen Shrubbery, and Asparagus plants, etc.

Our stock has made a fine growth. You can't get better anywhere at any price.

The best is the cheapest, is the verdict of old, experienced orchardists—profit by facts established by others. We ship direct. We are the lowest priced Nursery on earth for sterling quality. We attach Entomologists certificates to all shipments.

Nothing you can grow will give you the permanent income that comes from an orchard.

Place your orders now. Make sure of your trees. Name kinds, grade and number wanted. We will reserve the trees until you want them shipped.

Special Discount—We will allow a special discount of 8 per cent on all cash orders received on or before Oct. 1st; after that date 3 per cent discount for Fall shipment 8 per cent discount before March 15th; after that date 3 per cent discount for Spring shipment.

Boxing and Packing Free—We box and pack all orders without charge. All orders are put up in boxes or bales which are lined with heavy paper to guard against stock drying out. The trees and plants are packed in moist excelsior and straw. This is expensive, but good packing pays—pays customers, pays us. We guarantee the arrival of stock in good condition.

Freight and Express Rates—Do not be influenced by the story of the agent who says that the freight or express on your order will bring our price up as high as his. If you will consult your railroad agent you will find that the freight rates from Westminister to points east of the Mississippi range from 20 to 40 cents per 100 pounds. First class trees will average about one pound each.

PRICES NAMED IN THIS PRICE LIST SUPERCEDE ALL FORMER QUOTATIONS AND ARE SUBJECT TO CHANGE

Therefore, at the highest rate, 40 cents for 100 pounds, it means that you pay less than one-half cent per tree for freight. Nursery stock is carried by all express companies at a discount of 20 per cent less than merchandise rates.

Misrepresentation of the cost of getting stock from us by freight or express is sometimes made by others. Remember, if you bought your stock delivered, or freight prepaid, the freight would be included in the purchase price. The cash discounts which we allow will, in many cases, more than cover your freight or express charges.

Grading—We guarantee every tree to be up to the grade specified, or better. Many times trees are sold by height only. This, we believe, to be very misleading as we have seen trees which belonged to the second or third grade (if graded by size and caliper) sold for first grade, as they had the required height. We grade and sell our trees both by height and caliper, and believe this to be the only way that gives entire satisfaction to the planter.

Location—Westminster is located twenty-eight miles northwest of Baltimore, on the main line of the Western Maryland R. R., running from Baltimore to Pittsburgh, which gives us good shipping facilities.

Our Soil is a deep limestone and rolling, and our nursery grounds lay high, which is just the kind to grow plenty of fibrous roots and form a good stem that will support a tree when it is transplanted into the soil.

Special Prices on Large Orders. Special quotations on large orders will be given on application. When writing, tell us what varieties are wanted, the approximate number of trees of each variety, and the size.

Can't you arrange to visit our nursery and see how we grow our Stock?

NOTE:—1 TO 4 TREES OR PLANTS OF A KIND ARE SOLD AT "EACH" RATES; 5 to 29 ARE SOLD AT THE "10" RATES; 30 TO 299 ARE SOLD AT THE "100" RATE; 300 ARE SOLD AT THE "500" AND "1000" RATES.

All stock nicely packed F. O. B. cars here, in good boxes or bales at prices named in price list.

TERMS:—Orders from parties without rating, billed cash before shipment or one-quarter cash with order, balance when stock is shipped. If all cash with order you get the discount. No discount unless all cash with order. This price list is our salesman, and opens the way for every planter to secure our sterling quality trees at the lowest possible prices.

APPLES: The following varieties of Apple Trees at prices below:

	Each	10	100	500

Parcel Post Size 2 to 3 ft. and 3 to 4 ft. only at 5c extra per tree.

Our Peach Trees have made an excellent growth and will grade up fine and we have a good supply to offer. Mostly 5 to 6 ft., 4 to 5 ft. and 3 to 4 ft. trees. Nice trees. A large stock of Elberta, J. H. Hale and Roberta.

I wish to call your special attention to the fact that every one of our large stock of peach trees are budded on North Carolina Natural seedlings, the most hardy in the U. S. Our trees are well grown, smooth and well rooted. Our prices are low, considering the quality. Let us have your order at once that we may reserve the varieties for you. Notice about time of Ripening for Westminster, Md.

ORDERS CALLING FOR A QUANTITY WRITE FOR SPECIAL PRICES.

STRAWBERRIES

Any soil that will produce a good crop of corn is adapted to growing good Strawberries, but as they should be kept free from weeds, we believe it will pay to select land free from weed seed, even if it is not your richest land.

All plants of this class, tied 25 plants in a bunch; less the usual discount for cash with orders. Plants nicely packed on cars here. If by mail add 10c per 100 plants. No plants dug for shipment before October 1st.

Owing to State Quarantine, Currants and Gooseberries can be Shipped into the following States only: Conn., N. Y., Pa., Md., Del., N. J., Va., N. C., S. C., Ohio, Ind., and Mich.

Note the Evergreens, Privet, Barberry, Shrubbery, Asparagus, Rhubarb, and other stock we are offering. We would appreciate the opportunity of quoting you letter prices on orders calling for quantities.

This price list contains greatly reduced prices, on some items due to the fact that it has been issued many weeks after our 1928 catalogue was received from the press. Use this price list for prices, and ask for our new 1928 Catalogue for description, which will be mailed to you promptly.

NUMBER OF TREES TO AN ACRE

30 feet apart each way	50	10 feet apart each way	345
25 feet apart each way	75	8 feet apart each way	684
20 feet apart each way	110	6 feet apart each way	1,210
18 feet apart each way	135	5 feet apart each way	1,742
15 feet apart each way	205	4 feet apart each way	2,723
11 feet apart each way	300	3 feet apart each way	4,840

RULE—Multiply the distance in feet between the rows by the distance the plants are apart in the rows, and the product will be the number of square feet for each plant or hill, which divided into the number of feet in an acre, 43,560, will give the number of trees in an acre.

DISTANCE FOR PLANTING

Standard Apples	30 to 40 feet each way
Standard Pears and strong growing Cherries	20 feet each way
Standard Plums, Apricots, Peaches, Nectarines	14 to 18 feet each way
Dwarf Pears	10 to 12 feet each way
Grapes	rows 8 to 10 feet apart, 7 to 8 feet in rows
Strawberries, for field culture	1 by 4 feet apart
Strawberries, for garden culture	1 to 2 feet apart
Raspberries	rows 4 to 6 feet apart, 2 to 3 feet in rows

We sell only trees we grow. This is for your protection as well as our own. Our trees always prove to be just what they are sold for.

SHIPMENTS BY PARCEL POST cannot be larger than 72 inches including the length and circumference of the package. Weight must not exceed 70 pounds within the First and Second Zones—that is within a radius of 150 miles of the shipping point; elsewhere, not more than 20 pounds can be sent by Parcel Post.

Parcel Post. Trees not larger in size than 2 to 3 feet can be sent by parcel post prepaid, at 3 cts. per tree extra.

HOW TO CARE FOR TREES WHEN RECEIVED

If Frozen when Received bury the package unopened in well drained ground or place it in a cool cellar, so that it will thaw out slowly and gradually without being exposed to the air.

If they should appear Dry or Shriveled When Received, through delay in transit, or from any cause, take them from the package and plunge into a tub of water or bury the roots in the ground in an inclined position, so as to cover one-half or more of the tops with earth, and then thoroughly soak with water, and then let remain for twenty-four hours or more, until they regain their fresh, plump appearance, when they may be planted.

Our Guarantee—While we exercise the greatest care to have every tree and plant true to name and are ready, on proper proof, to replace anything sent by us that proves untrue to label, free of charge, it is understood and agreed between purchaser and ourselves that we are not to be held liable for any greater sum than that paid us for said trees that may prove untrue.

Time of Shipment—To the Fall trade, we will commence to ship trees as soon as the leaves are off and the wood ripe, and plants about the 1st of October and continue as long as the weather is mild. For the Spring trade, in most seasons, we can fill orders as early as February for the South, as late as May for the Northern customers. Always name date when you want stock shipped, but have it reach you before you need it. We endeavor to handle your stock in the best manner, pack it up nicely and give you good count.

When Best to Order—Order now, do not wait until you are ready to plant. Your order will not be shipped until the proper time.

How Best to Remit—Remit by Bank Draft, Express Money Order, or Post Office Money Order on Westminster Post Office, Registered Letter, or stamps for the fractional part of a dollar. Payments invariably in advance.

Prices named in this list supercede all former quotations and are subject to change without notice.

Claims for Deduction should be made within five days from receipt of goods.

This special price list is our agent and the kinds and varieties of stock named herein are comprised largely of the stock we grow.
