Vol. 12, No. 38, November 13, 1980

## Olympic and World Team Skaters Star in 'Around the World on Ice'

**A** colorful international setting will transform RIT's Frank Ritter Memorial Ice Arena when the Genesee Figure Skating Club presents "Around the World on Ice," Nov. 21, 22 and 23.

Highlighting the show, which will feature music and dances from many countries, will be U.S. Olympic and World Team members.

F. Ritter Shumway, an honorary RIT trustee, will lead the members and cast of the Genesee Figure Skating Club in the major production numbers.

Among the U.S. Olympic and World Team members appearing during the show's three-day run will be Lisa Marie Allen, U.S. Ladies' Silver Medalist; Scott Hamilton, U.S. Men's Bronze Medalist; Peter and Caitlin Carruthers, U.S. Pairs' Silver Medalists, and Judy Blumberg and Michael Seibert, U.S. Dance Silver Medalists.

Also appearing will be Rene Roco of Fairport, who is currently training with her skating partner, Andrew Quелlette, in Columbus, Ohio.

The show benefits the RIT Scholarship Fund and the U.S. Figure Skating Memorial Fund. It is sanctioned by the U.S. Figure Skating Association.

RIT community members participating in the show are: Eugene Boldewskul, Alan Church, Steve Leftwich, Shari Morgage and Chris Steubing, all students, and Wick Smith of the Learning Development Center. In addition to skating in the show, Smith is assembling the program for the production.

Show times are 8 p.m. on Friday, Nov. 21; 2 p.m. and 8 p.m. on Saturday, Nov. 22, and 2 p.m. on Sunday, Nov. 23.

All tickets are \$5 and are available at the Frank Ritter Memorial Ice Arena office.

LISA MARIE ALLEN

## Mobile Lab Puts RIT in Vanguard

RIT will celebrate its latest educational innovation on Monday, Nov. 17 at noon in the Administration Circle. Dr. Homer D. Babbidge Jr., vice chairman of the Frank E. Gannett Newspaper Foundation, will turn over the keys of a tractor-trailer-turned-classroom to President Rose in a brief ceremony, followed by an open "house" of the 40-foot trailer. In case of inclement weather, the ceremony will be moved to the lobby of the Administration Building.

"RIT on the Move," donated by the Gannett Foundation, will be introduced Nov. 17 with tours for faculty, staff,

students and trustees from noon to 4:30 p.m. On Tuesday, the mobile unit will be open for tours from 10 a.m. to 4:30 p.m. and Wednesday, from noon to 7 p.m.

With its freshly painted graphics and collection of equipment, the unit is designed to be a traveling RIT showcase of state-of-the-art technologies characteristic of its colleges.

"I visualize it being changed with equipment representing programs RIT is working on," says Ralph I. Squires, coordinator of the mobile unit. Currently the unit is equipped with the latest news

writing, editing and production technology.

Plans for the van range from use as a unique recruiting tool by admissions counselors to a distinctive place for alumni to gather and for professionals to gain continuing education through specially developed extension courses around the country.

Second stop for "RIT on the Move" is Eisenhower College, Nov. 24 to 26. Open "house" hours for the Eisenhower community are: Monday, 2-5 p.m.; Tuesday, 10 a.m.-3 p.m. and 6-8:30 p.m.; Wednesday, 10 a.m.-3 p.m.

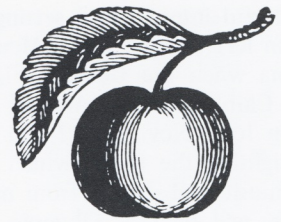

# CCE Students' Techniques Appreciated

Patricia Ladd, a founder of the Rochester chapter of the Epilepsy Foundation and presently a member of its Board of Directors, receives a check from H. Donald Scott, RIT assistant vice president for Finance. I.C. Shah, part-time RIT faculty member, is on the right. At left is Charles Spoelhof, president of the Rochester Epilepsy Foundation's Board of Directors.

The Greater Rochester Chapter of the Epilepsy Foundation of America recently received a check for more than \$3,000 from RIT. The most remarkable aspect of the donation was that the entire amount had been raised by CCE students enrolled in I.C. Shah's effective selling class.

Shah is a part-time faculty member and president of Executone Telephone Systems. Since he began teaching sales techniques at RIT four years ago, his classes have raised more than \$60,000 for local charities.

## Spiotti Named Intercollegiate Athletics Director

Lou Spiotti, acting director of Intercollegiate Athletics since July 1, has been named permanent director, effective immediately. Announcement of his appointment was made this week by Dr. Fred W. Smith, vice president for Student Affairs.

"During Lou's brief time as the acting director of Intercollegiate Athletics, he has demonstrated outstanding leadership abilities. These abilities are reflected in

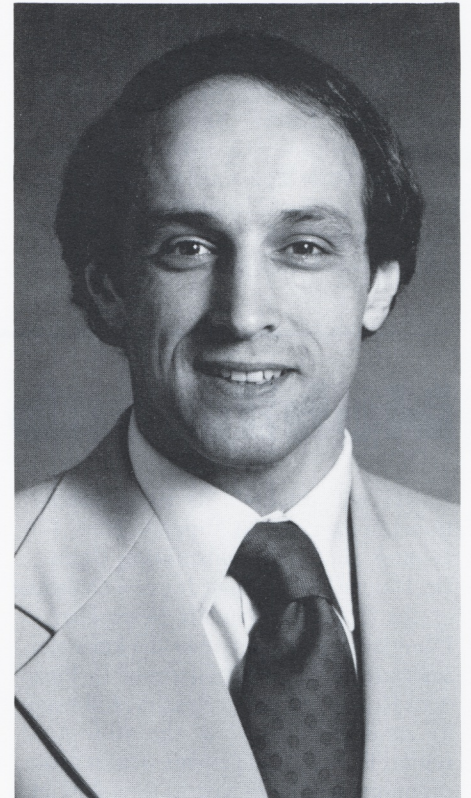

the responses of members of the coaching staff and the captains of the athletic teams, who indicate their unanimous support for him," stated Smith.

As director, Spiotti has overall responsibility for budgeting, scheduling, and promotion of the athletic program as well as staff leadership and development, policy making, evaluation and direction of the intercollegiate athletic department.

"I'm very pleased to have the support of the Institute as we move ahead with exciting plans for the intercollegiate athletic program at RIT," stated Spiotti.

He joined the Institute in 1974 as head football coach. The Aquinas Institute and Ithaca College graduate assumed the role of coordinator of secondary recruitment in 1977, a position he held until this past July.

Spiotti received his master's degree in education at the State University of New York at Brockport in 1979 and is currently completing advanced study in educational administration there.

LOU SPIOTTI

## NEWS & EVENTS

Published weekly on Thursday during the academic year by the Communications Office at Rochester Institute of Technology and distributed free of charge to the Institute community. For information call 475-2750.

## POLICY & INFORMATION

### Deans Meeting 10/4/80

1) Discussion and development of a response to Dr. Rose's memo re beginning the process of defining the position of dean; 2) Exchange of experiences and identification of potential difficulties in administering the present policy on "Visiting Professor"; 3) Discussion of preparation necessary for forward planning meetings with Dr. Rose; 4) Review of proposed changes in diplomas awarded to graduates; general consensus that proposed changes are desirable.

### Intercollege Curriculum Committee

11/11/80—Received proposal from Institute College for an energy engineering technology program (BT degree); 11/18/80—Will receive proposal from College of Graphic Arts and Photography for program in printing and applied computer science (BS degree)

### Graduate Council Meeting 10/31/80

Appointed committee to study criteria for full-time graduate student status. Anyone wishing the source or additional information on any of the above, call ext. 2527.

## Winning Speakers

The RIT Toastmaster Club placed first and second in the Rochester area competition held downtown on Saturday, Nov. 1.

John Montean, an MBA student, won first place in the speech evaluation contest. Susan VanCaesele, a fourth-year business administration student, won second place in the humorous speech contest.

Competitors included chapters from Eastman Kodak, Xerox, Rochester Gas & Electric, and others.

Montean will represent RIT at the district competition, Nov. 15.

Toastmasters is the largest national organization—with 75,000 members and 4,000 chapters—dedicated to the development of verbal communication skills. The RIT club was established last June. Its members include faculty and staff as well as students. Meetings are held every other Thursday evening; the next one is at 7 p.m., Nov. 14.

The president is Jeff Colton.

## Local Laser Expert Addresses Institute Forum

*Dr. Moshe Lubin (right) and Dr. Earl Krakower, chairman of RIT's Dept. of Chemistry, had a few moments to discuss Lubin's work at the UR Laser Lab before he addressed Institute Forum.*

"Tonight what I'm going to do is proposition you," Dr. Moshe J. Lubin announced at the opening of his lecture "Energy Options: Building Blocks in a Technical Society." Lubin, the Oct. 30 Institute Forum guest speaker, presented three propositions and a number of energy choices for his audience to consider.

His first proposition was that "energy is convertible into most of the requirements of life," such as food, water, shelter, metals, fibers, and energy. The other two propositions were that "energy available in nuclear sources is essentially inexhaustible" and that "limitations on the use of energy come from environmental side effects." He added that the limit imposed by these side effects is very large.

The challenge, as Lubin sees it, is to integrate high technology and inexhaustible sources into our normal energy system.

His main argument is that we must eventually and inevitably begin to draw on fuels that are essentially in inexhaustible supply.

Harnessed nuclear fusion is one of these inexhaustible resources. Solar energy and thermonuclear fusion, both available from the sun, still await technological advances to be commercially feasible.

Lubin presented a series of eight energy choices, ranging from "business as usual" to the development of new sources.

He believes the ultimate objective in the future will be to produce electricity, because it is the cleanest form of energy. He pointed out that New York has a surplus of electricity.

While praising RIT's applied research efforts with solar and wind energy, Lubin encouraged work on ways to make these technological innovations more useful and readily available.

Lubin is director of the Laboratory for Laser Energetics and a professor of mechanical engineering and optics at the University of Rochester. He presented a clear explanation of the laser fusion process and thermonuclear fusion, areas in which he is internationally recognized as a leader.

## Tigers to Defend Crown

Pairings for the 15th annual Lincoln First Basketball Tournament were announced recently.

Defending champion RIT will meet Hobart at 5 p.m., Wednesday, Dec. 3, in the opening round at the Rochester War Memorial. The Tigers are seeded second in this year's classic. Head coach this season is Bill Nelson.

Other games and seedings: Alfred (three) vs. Nazareth (six) at 3:00; University of Rochester (one) vs. winner of Roberts Wesleyan (ninth) and Brockport (seventh) at 7:00; and St. John Fisher (fifth) vs. Geneseo (fourth) at 9:00. Brockport and Roberts Wesleyan will meet in a one-game playoff with the winner advancing to face UR.

The winner of the RIT-Hobart contest will meet the winner of the Alfred-Nazareth game on Friday, Dec. 5. Finals are slated for Saturday, Dec. 6. All contests are played at the War Memorial.

Last year RIT captured the crown with a thrilling 59-58 victory over UR. In that tournament, Luther Nicholas of RIT was named MVP. The Tigers finished with a 19-7 record last year and advanced to the finals of the Eastern College Athletic Conference Upstate Division III Championships where they bowed to Elmira.

As a prelude to the Lincoln First, RIT competes in the Brockport State Invitational on Friday and Saturday, Nov. 21 and 22. Participants in that tourney include Albany, Upsala, RIT and Brockport. Pairings have not been announced.

---

## CCE Registration

Winter quarter registration for CCE courses continues on campus through Nov. 18, with open registration in the gymnasium on Nov. 24 and 25.

Classes begin Dec. 1.

CCE fall registration showed a record increase of better than 10 percent, reports Dean Robert Clark, and partly reflects the college's efforts to reach out into the community by offering courses at many off-campus locations, he says.

*Elizabeth Croft, director of the Criminal Justice Department at RIT, enjoys lunch conversation with New York State Commissioner of Corrections Thomas Coughlin, on her left, and Roy Satre, vice president for Academic Affairs, on her right, at the recent annual meeting of the Northeast Criminal Justice Educators Association, hosted by RIT at the Hilton Inn. Patricia Carter, assistant professor of criminal justice, served as program chairperson for the conference, which featured talks by Coughlin, Prof. Ernest van den Haag of the New School of Social Research, and a panel of college presidents, led by Pres. Rose, on the current state of criminal justice education.*

---

## James Wilson Jr. Dies

**JAMES WILSON JR.**

Professor James Wilson, Jr., a chemistry faculty member in the College of Science since 1946, died Oct. 15 after a brief illness. Wilson served as assistant to the dean from 1965-1973, and had just retired from the college after teaching in the summer session.

After he left the dean's office, Wilson reorganized the "Chemistry for Printers"

course, writing the textbook that is currently used in the course. Wilson had previously been co-author of two other organic chemistry books.

His own last chapter at RIT was his two-year effort in helping to organize the American Chemical Society's Sixth Biennial Chemical Education Conference hosted by RIT this past summer. He had been a member of the society since 1955, and was treasurer for 10 years.

Before joining RIT, Wilson worked for Standard Oil as an analytical research chemist and for Merck & Co. as a production chemist. He received his bachelor's degree from New York University in 1943 and an M. Ed. from the University of Rochester in 1952.

RIT has learned from his wife Enid that it was Wilson's desire that there be no funeral service. The College of Science, along with the family, has respected his wishes. Those who wish to remember him may want to contribute to the Greece Ambulance Society in his name. Wilson had been a medic with the ambulance service since 1976.

# Employee Services Offered

## Assistance Program

The Employee Assistance Program (EAP) offers consultation and referral services for all RIT employees. According to Jim Papero and Leslie Berkowitz of Personnel, such services are designed for people in need of professional assistance in overcoming a persistent personal problem that interferes with job performance or work relationships. Personnel will assist these employees in acquiring the services needed, whether they contact Personnel individually or are referred by their supervisor.

Services available to employees cover treatment and prevention in the following areas: alcohol/drug, financial, marital/family, medical, psychiatric, psychological.

Aside from EAP, Personnel also provides advice, counseling or referrals to employees who voluntarily seek some help with a problem that may not affect job performance but that may be helped by discussion or professional counseling.

During the month of November the Personnel office is holding EAP orientation programs for deans, directors and managers. Those who have received an invitation to these meetings are urged to attend because complete awareness of all aspects of the program is considered vital.

The first program was an update for those who had attended orientation in 1975. The programs on Nov. 18 and 20 are for all who did not attend in 1975.

## Health Services

Student Health Services is announcing a new schedule of services and fees for faculty and staff, effective Monday, Nov. 17.

RIT employees will be able to receive increased services on a walk-in basis daily from 9-11:30 a.m. and 1:30-4 p.m.

In addition to emergency care while at RIT, services offered at no charge include temperature check, simple dressing change, suture removal, single dose of aspirin or cold tablet, blood pressure check, and visual acuity check for driver's license.

Other services will be offered at cost during the walk-in hours: flu shots, \$2; throat cultures and premarital Wassermans, \$4; allergy shots, tetanus injections and immunizations, \$5.

Individuals must provide a list of the immunizations needed to the health service office in advance to ensure the availability of the vaccines.

The eight-member medical staff includes physicians, nurses and nurse practitioners.

## Berkowitz Heads Staff Training

Leslie Berkowitz has recently been appointed administrator of Staff Training and Development in the Personnel office. She will coordinate all phases of Personnel's training and development activities, working with various RIT departments to determine specific training needs and implement training programs.

According to Berkowitz, "Training includes activities that are designed to improve the overall competence of the employee in a specific direction and beyond the job now held. We must be concerned with preparing RIT employees so they can move with the organization as it develops, changes and grows. In addition, we must strive to create organizational conditions that facilitate and support individual job satisfaction and growth."

She believes that "the talents and expertise of many of RIT's faculty and staff members will equip us to meet the growing responsibility of developing our human resources."

Berkowitz came to RIT in 1977 as administrator of personnel services for Campus Services.

Announcing her appointment, Jim Papero, associate director of Personnel, stated that it "is based not only in my confidence in her but also on the positive comments from those employees who have attended her training programs."

## JOB MART UPDATE

Secretary, Office of Development

## LOCOMOTION VAUDEVILLE RETURNS

Locomotion Vaudeville, the exciting comedy group of jugglers, acrobats, and clowns that sold out the NTID Theatre with their performance last spring, returns this week for two shows of fun-filled entertainment for the entire family.

Performances are scheduled for Friday and Saturday, Nov. 14 and 15 at 8 p.m. in the NTID Theatre. Tickets are only \$1 for children under 12 and \$2 for all people over the age of 12. There is no reserved seating for these performances.

## Vets Office Receives Award

For the second consecutive year, RIT's Office of Veterans Affairs has received the Model Office Award from the National Association of Veterans Programs Administrators.

Gene Clark, director of Veterans Affairs, received the award at the association's annual convention in Tucson.

The award was given to RIT's Veterans Affairs office for its work in outreach programs.

"We are really pleased with this award," says Clark. "This is the first time a Veterans Affairs office from anywhere in the country has received the Model Office Award two years in a row." Clark adds that the RIT Veterans Affairs office was in competition with 500 other colleges and universities.

During the past year the Office of Veterans Affairs has done extensive advertising with billboards and newspaper ads. The department also produced two television public service announcements (PSAs) currently being shown at television stations throughout the state.

The theme of the ads and PSAs was to ask veterans to consider using their benefits as an investment in the future.

Members of the RIT Communications office assisted Clark with the ads and announcements.

According to Clark there are still 41,500 eligible veterans in the five-county area who have not yet used their benefits. Statewide there are almost 200,000 eligible vets. The RIT ads and PSAs are aimed at this group.

# NEWS & NEWSMAKERS

**Dr. Richard J. Paige**, associate professor of geography and instructor of Arabic at Eisenhower, completed an eight-week research program at Harvard University this past summer. The program, funded by the NEH, dealt primarily with the topic of "Discovery and Exploration." Paige also was able to continue into advanced stages of research for his forthcoming book: *Arabs in Africa—Impressions and Influences in Geographic and Historic Perspective*.

**Dr. Rosemary Agnoito's** article (**Dr. Joseph Agonito**, co-author), "Resurrecting History's Forgotten Women: A Case Study from the Cheyenne Indians," has been accepted for publication by *Frontiers: Journal of Women's Studies* in a special issue (summer 1981) devoted to Native American women.

**Dr. Joseph Nassar** of the Learning Development Center attended the annual meeting of the New York State English Council and gave a presentation entitled "Writing Lab Instruction: Beyond the Band-aid."

**Ajit S. Sabharwal**, chairman of the Economics Committee in the College of General Studies, has received a National Science Foundation grant to attend a seminar entitled "New Uncertainties in Macroeconomics." The seminar will be held at Temple University in Philadelphia and will be conducted by Professor Lawrence Summers of MIT. Sabharwal will be visiting Temple University twice—once in late October and again next March.

**Jon Meyer**, consultant to the vice president for academic affairs, recently returned from a trip to England where he did research on his upcoming publication, "Glass in England." In addition, four British museums, including the Victoria and Albert Museum in London, purchased his glass and print works. During his trip, Meyer also worked on arrangements for a traveling glass exhibition to museums in the U.S. and Great Britain, which he is guest curating.

**Donna J. Jackson** has been promoted to administrative assistant to the executive director of Development for Eisenhower College.

**Bruce A. Austin**, assistant professor in the College of General Studies, has had an article published in the *Journal of Psychology* (vol. 106, Sept. 1980). Austin's article, "The Influence of the MPAA's Film-Rating System on

Motion Picture Attendance: A Pilot Study," reports the results of an experiment which investigated how the movie rating system (G, PG, R, X) effects movie attendance.

**Professor Emeritus Loy Golladay** represented NTID recently at the unveiling of a bronze plaque in LaBalme, France, the birthplace of Laurent Clerc. Clerc was the first deaf teacher of the deaf in America and helped establish the first American School for the Deaf, Hartford, Conn., 1817, with T.H. Gallaudet. Golladay's biographical articles on Clerc have been published in both French and English. While in France, he and four other deaf Americans were guests of the French National Association of the Deaf and visited several programs for hearing handicapped in northern and southern France.

**Dr. Barbara Braverman**, Research Associate, Department of Instructional Television at NTID, has been invited to address the annual meeting of the National Association of Educational Broadcasters in Las Vegas. Her presentation is part of a panel designed to provide broadcasters, researchers and deaf consumers with information from research results indicating the most effective approaches to captioning television programs.

The Corporation for Public Broadcasting has announced that "People of the First Light," a New Hampshire Educational Television Production, with script by **Sam Abrams**, visiting assistant professor, College of General Studies, has been selected as a finalist in the 1980 "Emmy" Award Competition in the Instructional Programming category.

A paper titled "Stability Analysis of a Thristor DC-DC Converter" by **Dr. R. Unnikrishnan**, associate professor of electrical engineering, has been published in the latest issue of the IEEE Transactions on Industrial Electronics and Control Instrumentation (vol. 27, Nov. 3, 1980).

**Harold M. Kentner**, professor emeritus, Continuing Education, was named a Fellow of Extension by the National University Extension Association at its annual meeting in San Diego. The FX key and certificate were presented in honor of his 30 years service and distinguished achievements in extension and continuing education.

**Associate Professor Jack Tishkoff**, department of mathematics, recently attended the 30th annual meeting of the Association of Mathematics Teachers of New York State held in Monticello, N.Y.: The new three-year integrated mathematics sequence for college bound students approved by the N.Y. State Education Department, currently being evaluated in numerous high schools, was one of many topics of interest for those attending.

**Dr. Lothar Englemann**, dean of the College of Graphic Arts and Photography, gave a talk to the Association of German Photographic Industries during his recent trip to Photokina, a biennial photographic fair held in Cologne, Germany. Englemann spoke on "Photographic Education in the United States," in German.

Englemann has also been named to the GraphComm '80 Honorary Committee. Sponsored by the Printing Industries of America, GraphComm '80 looks at the future of the graphic arts technologies, markets and productions.

Also attending GraphComm '80 is **Dr. Mark Guldin**, director of the School of Printing. Guldin is a panelist in one of the GraphComm sessions on "The Work Force - Utilizing Technology To Increase Productivity."

"The Work Ethic That Never Was," by **Dr. Paul Bernstein**, dean of graduate studies, was published in the Oct. 1980 issue of *The Best of Business*. The article was originally published in *The Wharton Magazine*, Spring 1980. Articles appearing in *The Best of Business* are selected from all American publications in the field of business as representative of the best contributions available during a given year.

The article suggested that the work ethic has never been as strong as its proponents in Europe and America claimed. A digest of the article will also appear in the magazine distributed on Transamerica's airlines.

**Dr. Gary Miller**, Eisenhower, has been named a consultant for the U.S. Department of Education. He will be working with faculty from other universities overlooking the "Pre-college Teaching Development in Science" program.

# PROFILE

## Salisnjak to Retire from General Studies, Will Pursue Varied Interests

While many consider RIT the quintessential American institution in its devotion to the development and teaching of technology, the Institute also has always attracted faculty and students from diverse cultural backgrounds.

For the past twenty years Julian Salisnjak, professor of economics, College of General Studies, has shared his European background and devotion to preserving the traditions of his native Ukraine with many fortunate members of the RIT community.

Born and raised in one of Europe's most volatile areas, Salisnjak and his family were citizens of the Ukrainian National Republic, a country that changed hands repeatedly during the upheavals of the Russian Revolution and two world wars.

The son of a diplomatic officer, Salisnjak was educated in the West Ukrainian city of Lviv, where he became adept at foreign languages at an early age.

"I have actually been teaching since the age of 12," he recalls. "My sister and I earned our own tuition by tutoring in German, English and Latin."

Through his father's diplomatic connections, the family escaped into Austria just ahead of the Russian arrival in the Ukraine, and Salisnjak attended university there in spite of the country's acute instability between the encroaching German and Russian empires. He eventually obtained a Ph.D. in economics from the Alpine University in Innsbruck.

However, he and his family did not long escape the growing European conflict. His father ultimately perished in a Russian concentration camp and Salisnjak lost an arm and an eye after being drafted to fight on the Russian front.

Shortly after the end of the war, he and his wife, also a native of the Ukraine, emigrated to Canada, where she practiced medicine and he worked as a stockbroker and helped to found and served as the comptroller of a small mining company.

In 1961 the Salisnjak's arrived in

Rochester, she to accept a position as a pathologist at Rochester General Hospital and he to join the RIT faculty.

Throughout the tumultuous years and major uprootings of his life, Salisnjak has retained an unwavering devotion to his Ukrainian heritage. He has been especially active in preserving the art of his native country and is the translator and publisher of a volume in Ukrainian and English on the work of the Ukrainian enamelists, Maria Dolnytska.

JULIAN SALISNJAK

He believes, as he states in the foreword of the beautifully printed and illustrated volume, "It is the duty of those Ukrainians who live in the free world to save as many as possible of our art treasures and to preserve them for the Ukrainian people and also to acquaint our non-Ukrainian fellow citizens of the free world with the contributions of Ukrainians."

Wallace Memorial Library has purchased copies of the book for its collection.

This week, Prof. Salisnjak completes 20 years of teaching at RIT and will be honored on his retirement at a reception hosted by the College of General Studies.

During his years at RIT, he has served as chairman of the Faculty Council, chairman of the social science staff and, until two years ago, chairman of the Economics Committee. Looking back on his career here, he is especially proud of his participation with Dr. Fred Smith in the establishment of grants for faculty development, in the development of a Keogh Plan for faculty members, his origination of the first Principles of Economics course at the Institute, and his creation of one of the most popular courses in the college, Personal Finance, which he has taught for 16 years.

In addition, Salisnjak developed one of the first computer programs in the country for producing economics examinations. "Our model is quite simple, but still the most cost-effective method available in the field," he stated.

In 1974 he was the recipient of one of the first Eisenhart awards for outstanding teaching.

He and his wife, who is also retiring this month, look forward to living year round in their new home on Canandaigua Lake. "Canandaigua means 'chosen place' in the Seneca language," he explained, "and my wife and I chose it soon after we arrived in Rochester." They are actively working to preserve the sacred lands of the Seneca Nation at Bear Hill on Canandaigua from further commercial development.

An avid hunter and fisherman and champion skeet shooter, Salisnjak looks forward to more time out of doors. He also may try his hand at short stories about their wilderness experiences in northern Canada.

There is one more activity he plans to enjoy. "I really am a good maker of mead. It's derived from fermented honey and one of the oldest alcoholic beverages known to man—another ancient tradition worth preserving," he smilingly explained.

## Mobile Lab ...

Cont. from p. 1

When the unit is not on the road, it will be parked in a permanent location on the west side of the James E. Booth Memorial Building (fine and applied arts). Squires says that plans are in the works for building a pad with electrical and telephone hook-ups, and for landscaping the area to help incorporate the unit into the campus setting.

While parked at RIT, the van will be available for academic use by colleges and other divisions on campus.

## DATEBOOK

thru Nov. 19—"Pastiche" by Sylvana Scelsi, Gallery 2, Wallace Memorial Library\*

Nov. 13—The Art of Loving, lecture by Lee Lovenheim, 12:10 to 12:50 p.m. at City Center, 4th floor

*Requiem for a Heavyweight*, 7:30 p.m. (I)+  
*It's a Gift*, 10 p.m. (I)+

Nov. 14 & 15—Locomotion Vaudeville, 8 p.m., NTID Theatre (see story on p. 5)

Nov. 14—*All That Jazz*, 7:30 & 10 p.m. (I)+  
Men's Hockey—at Geneseo Tourney, TBA  
Women's Volleyball—at NYSIAIW Championships, TBA

Nov. 16-Dec. 17—"Communicating Arts: Rochester," an invitational show of some of the best regionally art directed and designed visual communications, Bevier Gallery, daily, 9 a.m.-5 p.m.; Monday through Thursday, 7-9 p.m.; Saturday, 1-5 p.m.; Sunday 2-5 p.m.  
Nov. 15—*The Mouse on the Mayflower*, 2 p.m. (I)+

*Kramer vs. Kramer*, 7 & 9:30 p.m. and midnight (I)+

Men's Hockey—at Geneseo Tourney, TBA  
Women's Volleyball—at NYSIAIW Championships, TBA

Cross Country—NCAAs in Rochester, TBA  
Nov. 16—*Charly*, 1:30 & 4:00 p.m. (I)+

*Belle De Jour*, 7:30 p.m. (I)+  
Nov. 17-22—Fall Textbook Buyback, RIT bookstore, 8:30 a.m.-9:00 p.m.

Nov. 17—Men's Bowling—WNY League in Buffalo, 7:30 p.m.

Women's Bowling—WNY League in Buffalo, 7:30 p.m.

Nov. 18—Men's Hockey—at Brockport, 7 p.m.

Nov. 19—Men's Hockey—at Buffalo, 7:30 p.m.

\*-Library hours: Monday-Thursday, 8 a.m.-11 p.m.; Friday, 8 a.m.-9 p.m.; Saturday, 9 a.m.-6 p.m.; Sunday, noon-11 p.m.

+Talisman Film Festival: (I)=Ingle Auditorium; (W)=Webb Auditorium; \$1.50 unless otherwise indicated

## NTID Communication Classes

Simultaneous Communication involves the use of speech and manual communication (signs and fingerspelling). The Division of Communication offers the following courses in Simultaneous Communication for staff (and intern) instruction. These classes will run from Dec. 8-19, resuming after the Christmas Break on Jan. 5 and run until Feb. 13. Evaluation will take place from Feb. 16 through 20.

**Intensive Sign Training**, 9-1000, MWF

**Basic Communication I**, 8:30-10, 11-12:30 MTWTh; 2-4 MWF

**Basic Communication II**, 8:30-10 MTWTh; 2-4 MWF

**Basic Communication III**, 11-1, 2-4, MWF

**Basic Review**, 12:30-2, TTh

**Intermediate I**, 11-12:30, TTh

**Intermediate II**, 12:30-2, MTh

**Intermediate III**, not currently being offered

**Intermediate IV**, 11-12:30, TTh

**American Sign Language**, 8:30-10, TTh

Sign language learning lab and tutoring also available. Class registrations, formal requests for tutoring and any questions regarding classes should be directed to Karin Blood, 60/2250, ext. 6497. Registration will end Dec. 1.

Calculator, Bldg. 12. Call Len, ext. 6603 days and identify.

## Just in Case There's Snow ...

The following procedure will be implemented in the case of an emergency closing of the Institute, due to severe weather conditions, or other Institute emergency plant operational problems, such as water line breaks, heating/boiler shutdowns, or electrical outages.

Physical Plant personnel, namely Bill Mets or Roy Dementint, will contact a "control person," stating the problem and an opinion. The control person will consult with either Dr. Satre or Dr. Rose whenever possible before closing decisions are finalized.

Physical Plant will be responsible for notifying the Communications Department and radio and television stations. Effort will be made to have a closing announcement on the air by 6 a.m. for the cancellation of day classes, and by 2:30 p.m. with regard to CCE and other evening programs. Food Service, Physical Plant and Campus Safety will follow the instructions of their respective departments.

The Eisenhower campus will be independent of this procedure, with closing announcements coordinated by Tom Plough and Russ Wright.
