## MANY LIBERALS DESERT ASQUITH

### CAMPAIGN IN PROGRESS IN OLD COUNTRY

#### House of Commons Adjourns —Lords Ignore Govern- ment's Veto Bill

London, Nov. 25.—Sir John Rees, a Liberal member, crossed the floor of the Commons on Wednesday night, deserting the government. J. William Redmond asked the Speaker if it was in order for Rees to cross the floor on the last day of the session against the government. "That was silly enough to make him a knight," said Redmond.

The speaker replied amid laughter: "It is never too late to mend." Lord Ribblesdale, formerly Liberal lord-in-waiting, supported Lord Lansdowne. Other Liberals who recently revolted include the following: Lords Fortescue, Durbani, Temple, Anson, Mouson, Northburne and Joyce, and the following Liberal members of the Commons: Mark Beaufray, Captain Allen, Sir A. Pease, Captain Kincaid, Sir J. Swinburn Smith, F. W. Chance and E. N. Buxton Bellaires.

The House has completed its fiscal business and stands adjourned until Monday, when the King holds a council to complete formalities in connection with the dissolution of parliament.

**Ignore Veto Bill**  
The House of Lords yesterday without a division adopted the resolutions of Lord Lansdowne, the opposition leader, and decided to send them, together with Lord Rosebery's plans for the reformation of the membership of the Lords, to the House of Commons. The upper chamber then adjourned, until Monday, when the dissolution of parliament will take place. Thus the government's veto bill has been ignored by the House of Lords. A noticeable feature of the debate has been the number of Liberal peers who supported Lord Lansdowne's scheme and opposed the government veto bill.

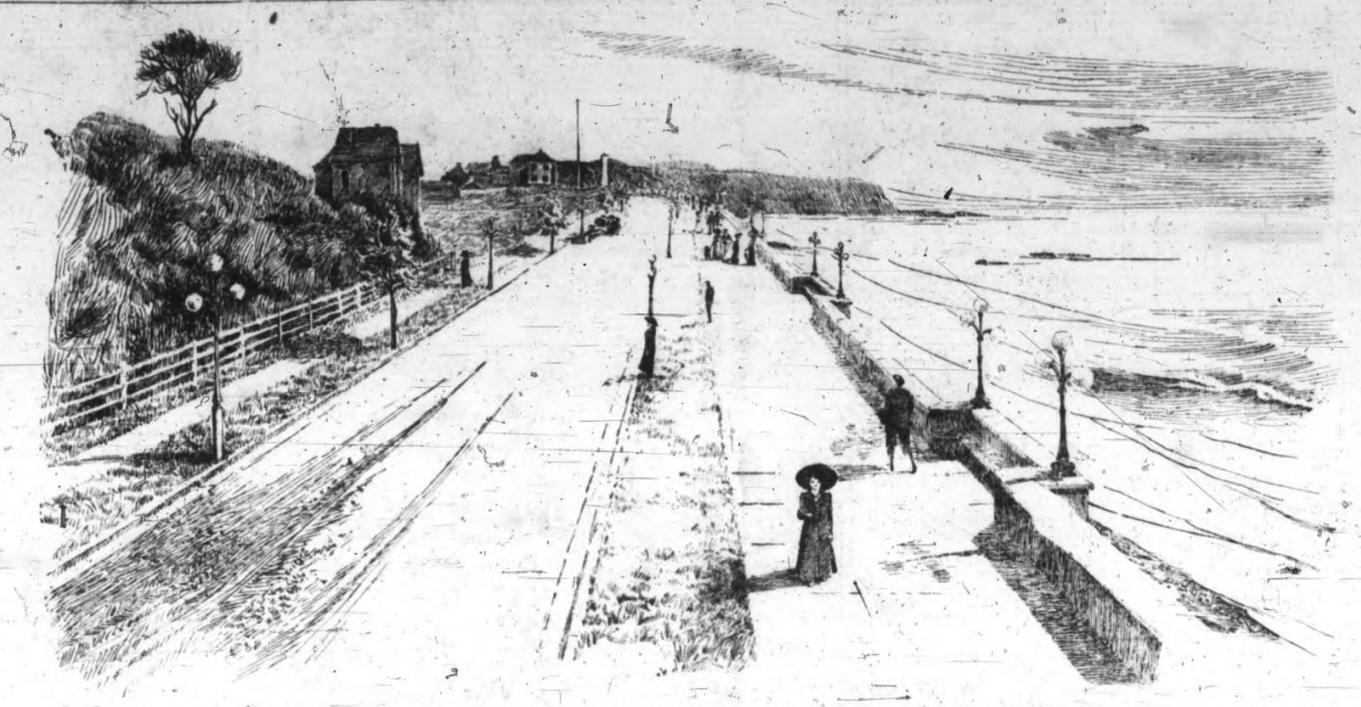

**The Campaign**  
All eyes are on Lancashire, where, under the leadership of Bonar Law, the Unionist campaign is already in full swing, and the Radicals are making a spirited defence. All Manchester's pollings, except Ashton-under-Lyne, where Mr. Atkins, of Montreal, is running, take place the first day of the elections, Saturday, December 3, thus giving a cue to the three kingdoms.

Different Conservative free traders who voted for Mr. Churchill in 1906, also show an inclination to come over to Bellaires, the present Liberal member for Salford, who refuses to stand again in support of the ministry.

S. S. Amery is contesting the London working class constituency of Bow and Bromley as a Unionist. As a result of Lloyd-George's intervention, the Liberals and Socialists are making an alliance against Mr. Amery with a Socialist candidate. Joseph Chamberlain and Lloyd George both will be returned unopposed. Shirley Benn, of the Quebec Timber Association, is standing as a Unionist for Plymouth, with Amery as his opponent. The American millionaire, Sir George Doughty, has again been chosen by the Unionists to contest Grimsby.

In spite of his speech in the Commons on Friday, in which he said that the ministry had lost his confidence, Joseph Martin was the unanimous choice of the Radicals of East St. Pancras, as their candidate in the coming election. In a recent speech Mr. Martin declared his hostility to the House of Lords, to the present land laws and all privileges, and unalterable devotion to downright radicalism. When the government had departed from radicalism he had also departed from them, he said, and he would vote against them. The government needed prodding at times, and he should continue to do so, but he did not differ with them on any great question, and he intended to remain with the Liberal party under all circumstances. He believed in an elective second chamber, with nothing hereditary in its make-up.

Mr. Hopkins, who is associated with the Argentine meat trade, is opposing Mr. Martin. A. J. Balfour, speaking at a meeting of the City of London Conservative association, said: "Let everybody realize that the house of lords is to be destroyed not in the least because the electors of the United Kingdom who value the British constitution want it destroyed. The house of lords is to be destroyed because that section of the electors who do not value the British constitution want to get home rule. That is the whole thing that is the whole story of the so-called veto bill."

**DALLAS ROAD, AS IT WILL LOOK WHEN PROTECTION WORKS ARE COMPLETED.**  
The necessity of protecting the foreshore along Dallas Road, west of Menzies street, has been urged in council and out for years, but only took concrete form this year, when Ald. Langley introduced the necessary by-law.

## MUCH WORK FOR THE STREETS COMMITTEE

### Matters Which Will Be Considered at This Evening's Session

A considerable quantity of important business is slated for consideration at this evening's meeting of the streets committee of the city council. The city solicitor will report on the completed petition calling for the re-naming of Bastion street, and the city engineer will make a preliminary report on the scheme for the widening of Yates street between Broad and Government.

Other matters to come before the committee are the complaint of the Victoria Laborers' Protective Union that certain members of that organization have been discharged without just cause from corporation work, and the grievance of the property owners along Cook street in regard to the character of the pavement laid out that thoroughfare.

In respect to Bastion street it is assumed that the city solicitor will report that now no obstacle exists to prevent the work of repaving that thoroughfare with asphalt being proceeded with immediately. The petition praying that the same be done has now been signed by all the owners on the street, and the Worwick company is ready to commence as soon as authorized by the engineer. The latter is anxious that the work be proceeded with, and it is therefore probable that the same will be ordered done at this evening's meeting.

The report of the city engineer in regard to the widening of Yates street, between Government and Broad, will give an approximate cost of the undertaking, which is, yet, however, but in an embryonic stage.

## D. D. MANN HERE

**Canadian Northern Official in City in Connection With Island Railway Project**  
D. D. Mann, the well-known railway magnate, vice-president of the Canadian Northern, who has been in Vancouver for several days, came over to Victoria last night and is a guest at the Empress hotel. Accompanying him is T. G. Holt, the company's executive officer for British Columbia. Mr. H. McLeod, general manager and chief engineer of the Canadian Northern system, is expected to reach the city today.

Mr. Mann and his associates will confer while here with the company's engineering staff on the Island, and it is anticipated that tenders will shortly be called for clearing the right-of-way of the line to be constructed from Victoria to Alberni via Sooke.

## ONTARIO OFFICIAL DEAD

Toronto, Nov. 25.—John Armstrong, secretary of the bureau of labor at the parliament buildings, is dead.

The insurrectionary movement then broke out on board the other Brazilian dreadnought, the battleship Soa Paulo, and on the scout ship Bahia. All the officers having been landed, a plain sailor of the first class, named Jean Candido, took command of the squadron.

Amunition was provided, provisions were requisitioned, and a coal depot on the Isle of Vienna was taken.

The mutineers sent a message to the president demanding the immediate abolition of corporal punishment on board ship, an increase in their pay, according to the programme submitted to Congress some time ago, and the diminution of the work with which they are burdened by reason of the maintenance of incomplete crews. They threatened to fire on the city if the demands were not granted.

## NO PUNISHMENT FOR MUTINEERS

### AMNESTY GRANTED BRAZILIAN SAILORS

#### Crews of Warships Stationed at Rio de Janeiro Surrender Vessels

(Times Leased Wire)  
London, Nov. 25.—The correspondent of the Exchange Telegraph Co. at Rio de Janeiro cabled today that the mutineers on board the Brazilian battleships at Rio de Janeiro had surrendered unconditionally.

Private despatches received by London merchants with interest in Brazil, advise that the chamber of deputies today followed the example of the Brazilian senate and extended amnesty to the mutinous sailors on board the Brazilian battleships in the harbor at Rio de Janeiro.

In return for the battleships in their possession, the sailors are to be permitted to go free from punishment despite the fact that they killed three of their officers and turned the crews of the warships upon the city of Rio de Janeiro, inflicting slight damage to property.

## SURRENDER FOUR SHIPS

Rio de Janeiro, Nov. 25.—Under assurances that they were not to be punished as mutineers, the sailors on board the four Brazilian warships surrendered today to the government authorities, and the guns which for four days had been trained on Rio de Janeiro, were returned to their positions.

The surrender followed a visit of a government representative to the different vessels, who under cover of a flag of truce, advised the sailors of the amnesty granted by the chamber of deputies and the senate. The amnesty was granted at an extraordinary session. During the session the guns of the belligerent battleships were trained on the government buildings.

The vessels seized by the mutineers were the battleships Minas Geraes, Sao Paulo, the protected cruiser De Odora and the scout-ship Bahia.

## STORY OF MUTINY

Rio de Janeiro, Nov. 25.—About 10 o'clock at night on November 22nd, as Captain Neves, commanding the battleship Minas Geraes, came back from dinner on board the French training ship Duguay Trouin, he heard a violent uproar and a fusillade of shots. It was the crew of his vessel, who had revolted. Captain Neves and two other officers offered resistance to some of the sailors, and were killed, and one officer was mortally wounded. Several sailors were killed. The mutinous crew meanwhile shouted "Long live liberty."

The insurrectionary movement then broke out on board the other Brazilian dreadnought, the battleship Soa Paulo, and on the scout ship Bahia. All the officers having been landed, a plain sailor of the first class, named Jean Candido, took command of the squadron.

Amunition was provided, provisions were requisitioned, and a coal depot on the Isle of Vienna was taken.

The mutineers sent a message to the president demanding the immediate abolition of corporal punishment on board ship, an increase in their pay, according to the programme submitted to Congress some time ago, and the diminution of the work with which they are burdened by reason of the maintenance of incomplete crews. They threatened to fire on the city if the demands were not granted.

## A BIG SCHEME FOR PANDORA

### WOULD MAKE IT A MAIN TRUNK THOROUGHFARE

#### W. J. Hanna Advances Proposal to Extend Same

If an ambitious scheme which is being advanced by W. J. Hanna and others be proceeded with, Pandora street will secure an improvement at an early date which will make it easily one of the most important trunk thoroughfares of the whole city, and adjust a situation affecting Upper Fort street, in respect to the latter's unsuitability for handling much traffic.

Mr. Hanna's proposal, which will be laid before the streets committee of the city council almost immediately, is that Pandora avenue be extended from Harrison street to Oak Bay avenue, when the latter thoroughfare and Pandora would then, to all intents and purposes, be a continuous main artery from Government street right through to the waterfront at Oak Bay.

In order to make the extension of the avenue it would be necessary to appropriate a right-of-way on property which is now intersected by Elford and Stanley avenue, the estates of Major Dupont and the late W. Pearce being here. A corner of Belmont avenue would be intersected also.

The proposal is one of the most interesting and important of the kind ever advanced. As is well known, all the traffic from the thickly populated districts fronting on Oak and Cadboro bays now flows westerly down Fort street from Oak Bay avenue, notwithstanding the fact that the section of Fort street between Oak Bay avenue and Yates street is very narrow and entirely unsuited to handle such traffic. It is well known also that residents along the section mentioned have for long protested in vain against this street being continued as the artery for this sort of traffic. Should the scheme now proposed be adopted their wishes would be completely met. With Pandora avenue produced to join with Oak Bay avenue the whole stretch leading from Government street to Oak Bay would run in an almost straight line.

In the execution of the work there would be no interference whatever with the scheme for the ornamentation of the expanse at the present head of Pandora avenue, plans for which are now in the city engineer's office.

## WILL TRY TO SAIL NORTHWEST PASSAGE

### Capt. Bernier Sends Report on Progress to the Marine Department

(Special to the Times)  
Ottawa, Nov. 25.—A letter from Capt. Bernier to the marine department under date of August 11, says the trip to Albert Harbor had been favorable. Captain Bernier reported that he was leaving for McClure Strait, and will make the Northwest Passage, barring accidents. He will probably be heard from next at the Mounted Police station at the mouth of the Mackenzie river, and will then proceed through Bohring straits to the Pacific coast.

## SUFFRAGETTES GO TO JAIL

Fifteen Women Will Serve Two Months in Prison  
London, Nov. 25.—Fifteen suffragettes, arrested last night for attacking government offices in Whitehall, were each sentenced to two months in jail today. One woman was sentenced to a month's imprisonment and five others were fined £10 each. The women went to prison joyfully.

Reliable women in the confidence of suffragette leaders state that many of the more insistent of the sisterhood are providing themselves with firearms for future use in their campaign against the authorities.

Many persons believe that the firearms stories are exaggerations, but others who have seen the women report to stone throwing, stabbing with hot pins and squirting vitriol, hold that the women would not hesitate to use powder and lead to back up their arguments.

## COCAINE EVIL IN MONTREAL

(Special to the Times)  
Montreal, Nov. 25.—A determined effort to abolish the cocaine evil in this city is being made and Dr. T. J. Finnie, M.L.A. for St. Lawrence, will introduce a bill at the coming session of the provincial legislature, which will, if passed, abolish the trade. The hold this evil has taken upon some certain classes in Montreal, is startling, and rigorous methods are being adopted.

## TO INAUGURATE NEW AUSTRALIAN SERVICE

### Blue Funnel Liners to Make the Trip Via Cape of Good Hope

#### W. J. Hanna Advances Proposal to Extend Same

According to advices brought by the steamship Proteus, Capt. D. Campbell, which arrived in port yesterday afternoon from Liverpool and way ports, the Blue Funnel line is extending its operations in the marine world on a gigantic scale. The latest move by the Holt Company is the inauguration of a passenger service between Glasgow and Australia via Cape of Good Hope.

Three liners, the Aeneas, Ascanius and Archibus, among the largest vessels of the fleet, each having a tonnage of 10,000 tons, will be placed on this route. The ports visited will be: Fishguard, Las Palmas, Cape Town, Sydney, Melbourne and Adelaide.

This new enterprise of Alfred Holt & Co. is the topic of much discussion in Australia, as it is another link in the chain by which this firm is circling the world with the famous Blue Funnel fleet.

Word was also received that the Peninsular and Oriental Steam Navigation company has ordered two new vessels for the Liverpool, Singapore and Australian route. These steamships will be known as the Maloja and Medina, each being of 12,500 tons. They will be the largest vessels in the P. & O. flag and will be launched early in the new year. This company is also calling for tenders for the construction of two steamers for their Australian service via Cape of Good Hope.

The Proteus reported having experienced heavy weather throughout her passage. Despite the southeasterly gales she made an exceptionally fast voyage, completing the trip from Yokohama to Victoria in 22 days 22 hours, two days ahead of her scheduled time. During the last stages of the journey she made an average of 15 knots an hour, which is fast time for these large freighters.

The steamship brought a very valuable cargo, including 900 bales of silk. She also had considerable freight for this city, which will be discharged on her return from the Sound. Two hundred and fourteen Chinese made the passage.

## COBALT FATALITIES

Cobalt, Ont., Nov. 25.—Arthur and George Morin, employed by the Tomiskaming Navigation Company, were drowned while crossing Lake Temiskaming in a canoe. Steven Labele, working in the Cobalt union mine at Elk lake, was struck by a bucket of ore and killed. George Allandale, working in the Moose Horn mine, was struck by a piece of dynamite and blown to pieces.

## GRAND TRUNK APPOINTMENT

Montreal, Nov. 25.—David Crombie has been appointed assistant to the vice-president of the Grand Trunk railway, E. H. Fitzgugh. Mr. Crombie has been for the last three years assistant to Mr. Brownlee, general manager of transportation.

## EXHIBITION DEFICIT

Winnipeg, Nov. 25.—The annual meeting here of the Winnipeg Exhibition board showed a deficit of \$18,000 for the year.

## PERISH IN FLOOD

### Number of Miners and Settlers Lose Their Lives in Alaska

Cordova, Alaska, Nov. 25.—That a number of miners and settlers living in remote sections of the Behring River valley perished in the floods yesterday is known today. Houses have been swept away, and all trace of their late occupants gone.

The disaster followed the escape of a vast volume of water from great icebergs, towering a hundred feet high. The river has risen more than ten feet, and the danger is increasing today.

This is the second peculiar glacial outbreak in this part of Alaska in the last two years. Great damage was done two years ago, when a similar internal lake broke from Miles Glacier in the Copper River valley, sweeping away several miles of newly laid track of the Copper River railway.

## PORTER NOT GUILTY

Moose Jaw, Nov. 25.—A porter named Lynn, charged with chloroforming lady passenger on the C. P. R. trains for the purpose of theft and with intent to endanger human life, was found not guilty at the assizes here.

## ANOTHER BALL FATALITY

Winsted, Conn., Nov. 25.—A fractured skull, received during the Thanksgiving football game between the Tierney cadets and the Gilbert preparatory school, resulted today in the death of Harry Lee, 17, a member of the cadet team.

Lee did not regain consciousness after being struck. His death makes the twenty-fourth death from football this year.

## COCAINE EVIL IN MONTREAL

(Special to the Times)  
Montreal, Nov. 25.—A determined effort to abolish the cocaine evil in this city is being made and Dr. T. J. Finnie, M.L.A. for St. Lawrence, will introduce a bill at the coming session of the provincial legislature, which will, if passed, abolish the trade. The hold this evil has taken upon some certain classes in Montreal, is startling, and rigorous methods are being adopted.

#### RUSHING INTO PRINT

It does not cost anything to get a copy of Bishop Perrin's letter in yesterday's Colonist regarding the water by-law was unneeded. If some clergy kept away from politics and city affairs their churches would be larger supported, as then the public would have more confidence in them. Did you ever notice the Catholic clergy mixing themselves up with worldly things? No, certainly not. Rousing cheers were given in front of the Colonist office last night by the multitude for the able stand Mayor Morley has taken, fearlessly of re-election, and to assure Mayor Morley that if he wishes to be re-elected he will be so. H. Stadthagen, 79 Johnson street. n25

WANTED - 50 extra salesgirls Saturday, 7.30 a. m. previous experience, immediate salary, ready for work. 10 and 15. Store, Government street. n25

LOST - English setter dog, white, with black spot on side, leather collar with brass plate. Anyone harboring or offering this notice will be prosecuted. Return to No. 522 Rupert street and receive reward. n25

STRAYED - Light fawn deerhound with white tip to tail. Reward given finder. Apply Shafter's, Magazine, B. and C. Trade Bldg. n25

MUST BE SOLD THIS WEEK - Cheap property on Herald street, next to Government street, 120 feet square, with an income of 6 per cent. on the money invested. Apply Box 45, Times Office. n25

FORT STREET - Sixty-foot lot in the twelve hundred block, with good, modern six room cottage, rented at \$20 per month. \$2,500, or good terms. L. W. Bick, Broad street. n25

PEMBROKE STREET, near Blanchard, 9x120, \$1,800, half cash. L. W. Bick. n25

ALL ABOARD - The C. N. R. train for Port Alberni and all points north will soon be the cry of the porters at the various hotels, but let not your cry be "I wish I had bought property when the prices were low. Why I could have bought lots from L. W. Bick, Broad street, for \$125 each, on easy terms, and now see what they are worth. There are a few of these lots left. Get in. n25

#### Civic Notice

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:
1. To appropriate all property necessary for the extension of View street from Broad street to Government street, so as to provide a uniform width of 66 feet, according to the view street from Government street to Douglas street.
2. To grade, drain and pave with wooden blocks (crossed) View street from Government street to Douglas street.
3. To grade drain and pave View street from Blanchard street to Cook street with asphalt, and to construct curbs and gutters on both sides of said street and provide lateral connections.
4. To lay underground conduits and place stubs for View street, from Government street to Douglas street (including maintenance).
5. To lay underground conduits and place stubs for View street, from Blanchard street to Cook street (including maintenance).
And that the said works shall be carried out in accordance with the provisions of the Local Improvement (General By-Law and amendments thereto, and the City Engineer and City Assessor having reported to the Council in accordance with the provisions of section 4 of said by-law upon each and every lot of real property to be benefited by the said works, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council.
NOTICE IS HEREBY GIVEN that the said reports are open for inspection at the office of the City Assessor, City Hall, Douglas street, and that unless a petition against any proposed work of local improvement above mentioned, signed by a majority of the owners of the lot or real property to be assessed for such improvement, and representing at least one-half of the value of the said lot or real property, is presented to the Council within 15 days from the date of the first publication of this notice, the Council will proceed with the proposed improvement upon such terms and conditions as to the payment of the cost of such improvement as the Council may by-law in that behalf regulate and determine.
WELLINGTON J. DOWLER, C. M. C. City Clerk's Office, Victoria, B. C. November 21st, 1910.

#### Local Improvement

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable:
1. To light Yates street from Blanchard street to Cook street by means of electric light poles bearing branch lights, and construct the necessary conduits (including maintenance).
2. To grade, drain and pave with an asphaltic pavement Harbinger avenue, from Richardson street to Fairfield road, including cost of surface drain and water pipes and manholes, if necessary.
3. To grade, drain and pave with an asphaltic pavement Phoenix Place, from Toronto street to Avalon road, and construct gutters on both sides of said street, including cost of sewer, surface drain and water laterals, and the moving of poles, if necessary.
And that the said works shall be carried out in accordance with the provisions of the Local Improvement (General By-Law and amendments thereto, and the City Engineer and City Assessor having reported to the Council in accordance with the provisions of section 4 of said by-law, upon each and every lot of real property to be benefited by the said works, and the reports of the City Engineer and City Assessor as aforesaid having been adopted by the Council.

WELLINGTON J. DOWLER, C. M. C. City Clerk's Office, Victoria, B. C. November 24th, 1910.

BIGGEST WATCH VALUE. Ever offered in Victoria. Fortino Gold-Filled Case, guaranteed for 20 years - 7-jewelled American PAT. Movement, a perfect time-keeper, for ONLY \$7.85. BOY WANTED. Little & Taylor, 611 Fort St., Victoria.

LOOK! \$400 Cash. Buys a comfortable 5 room cottage on Hillside Avenue, close to Graham street, fully modern, large basement, concrete foundation, good large dry lot. This is one of the best buys on the avenue, at \$2400 for the above, easy cash payment and the balance, say \$1800 PER MONTH. Why be foolish and pay rent when there are snags like this to be had. The above terms are only good until Saturday. ROGERSON, 622 JOHNSON ST. Phones 946 and R269.

A GENTLEMAN representing a large wholesale house in Toronto and at present staying here, was recently in conversation with a ratepayer of this city, and talking of pavements the visitor said that in his opinion BITULITHIC was the very best roadway anywhere. This gentleman has travelled all over this continent and his opinion is therefore one to be depended upon. Toronto has half a dozen kinds of pavement, amongst which there are twenty miles of Bitulithic. We will give the gentleman's name to home file enquirers. We Do Not Solicit testimonials. It is not necessary. Our pavement has stood the test of time and is no new-fangled idea. We can prove that we build the best roadway in Canada and there is none to touch it. The only NON-SLIPPERY pavement is Bitulithic. Columbia Bitulithic LIMITED, P. O. Box 1066.

To Contractors. Tenders will be received by the undersigned up to 4 p. m. on Monday, Dec. 5th, for the construction and completion of the alterations to the Isolation Hospital. Plans and specifications can be seen at the Purchasing Agent's office. A certified cheque drawn on a Canadian chartered bank, payable to the City Treasurer, for 2 per cent. of the cost, to accompany each tender. The lowest or any tender not necessarily accepted. W. M. W. NORTHSCOTT, Purchasing Agent, City Hall, Nov. 25th, 1910. THE POINT. The point is this - would you rather go to the expense of buying new silverware than of having your present, and may be badly worn Silver or Platedware Replated at Little Cost. Think this over - then Call Up 2008 and let us fetch a trial order. Bond & Jessop, 622 Johnson St., One Door From Broad St.

## REVOLUTIONISTS ATTACK TRAIN

### TEN PERSONS ARE KILLED IN WRECK

### Merchants Arrested on Suspicion of Plotting to Overthrow Government

El Paso, Tex., Nov. 24.—Government reports that Northern Mexico is in control of federal troops, and that the situation is quiet continued to arrive here to-day. It was reported that Francisco Madero, the revolutionary leader, had been captured, but this could not be confirmed. Delayed reports state that during the fighting at Chihuahua the rebels fired into a train, killing six soldiers, three women and a baby. The train was derailed.

The report that Tom Lawson, an American miner, had been killed at Parral was confirmed to-day.

Later dispatches indicated that the fighting was fiercest at Parral, it having been killed there and the streets filled with wounded.

Merchants at Juarez plan to hold a meeting to-night to urge loyalty to the government. Prominent merchants have been arrested on suspicion of having plotted to overthrow the government.

Later reports indicated that Parral again was in the hands of the government and that revolutionists were dispersed and were hiding in the mountains. It is generally believed that the most serious part of the uprising is over.

Dispatches received this afternoon indicate that the rebels did not strongly resist the government troops which were reinforced from the northern states. Guerrilla warfare is expected to continue for weeks. A general feeling of confidence has been restored along the border and business is being resumed.

**Will Cut Off Retreat.**

Matamoros, Mex., Nov. 24.—According to the authorities the government forces are waiting for the revolutionists to set their entire force in the field, when the federals will swoop down upon them; with the American cavalry along the Rio Grande cutting off retreat into the United States. They declare that the rebels are not acting in concert.

**Guarding Banks.**

Laredo, Tex., Nov. 24.—Merchants of Laredo have deposited their money and valuables in the bank there, and federal troops are guarding the depositories, according to a message received here to-day. Reports were received to the effect that Madero is nearing Torreon at the head of 2,500 rebels.

**Revolutionary Junta.**

Eagle Pass, Tex., Nov. 24.—The oath taken by members of the Mexican revolutionary junta, which first met at St. Louis in 1906, was revealed here to-day. It reads:

"As Mexican citizens we swear to take up arms to overthrow President Diaz, and will not relinquish our purpose until we obtain a provisional government guaranteed the Liberal party on July 1, 1906.

"Patriots undertaking leadership must circulate manifesto inviting the people to rise to treat with persons obstructing the overthrow of the government. It is prohibited to raise funds from government officers or from any persons from whom they are able to obtain them, and by any means they may adopt."

**GOMPERS SUSTAINED.**

Lively Discussion of Federation of Labor Convention.

St. Louis, Nov. 25.—President Samuel Gompers yesterday was called upon to defend a charge that the executive council of the American Federation of Labor had been influenced by the American Newspaper Publishers' Association.

The controversy was precipitated as the result of a special committee report, upholding the action of the executive council.

utive council in preventing a boycott on the San Francisco Call which is newspaper solicitors' union, some months ago desired to make effective.

Andrew J. Gallagher, of the San Francisco Trades and Labor Council, took up the cudgels for the newspaper solicitors. He declared that the federation council, as the result of influence brought to bear by the publishers, had threatened to revoke the charter of the newly-organized solicitors if they continued to boycott the Call. He claimed that J. M. Lynch, president of the International Typographical union, was aligned with Gompers and the publishers.

President Gompers explained that he had advised the action because the solicitors' union being directly chartered by the federation, had taken up the boycott without reference to the parent body and without reasonable cause. The convention sustained him and the executive council by adopting the special committee report almost unanimously.

### CONSOLIDATION OF RAILWAYS PLANNED

### Number of New Lines Will Be Built in the Pacific Northwest

Portland, Ore., Nov. 25.—A rapid extension of the lines of the North Coast railroad and a greater development of eastern Washington is predicted to-day following the formal acknowledgment of the Harriman interests that the North Coast is a Harriman property.

Provision for the consolidation of the Oregon Railway & Navigation Company, one of its subsidiary companies and the North Coast was made in articles of incorporation of a new holding company to be known as the Oregon-Washington Railroad & Navigation Company. The consolidation is planned at \$5,000,000. The incorporators named are: R. B. Miller, traffic manager of the Harriman lines in the northwest; R. Koehler and M. J. Buckley, vice-president of the O. R. & N.

According to the document, all holders of the O. R. & N., Oregon, Washington and Idaho and the North Coast, and the main line of the O. R. & N., will be consolidated.

While no announcement has been made, it is expected that the consolidation will result in a new bond issue, the proceeds of which will be devoted to improvement of existing lines and the construction of projected roads throughout the Pacific Northwest.

In the incorporation articles the holding company reserves the right to operate steamers between Portland, Astoria, Seattle, Tacoma and other Puget Sound points, Victoria, Vancouver, San Francisco, Alaska and points on the Columbia, Willamette and Snake rivers, Coeur d'Alene lake and Shoal Water bay.

### DREXEL SETS NEW ALTITUDE RECORD

Reaches Height of 9,970 Feet—Glides Down for Distance of Six Miles

Philadelphia, Nov. 25.—J. Armstrong Drexel broke all aeroplane altitude records here on Wednesday when he climbed above this city until his Blériot monoplane was unable to make further progress in the rarified atmosphere. The ink on the needle of his barograph ran out at 9,970 feet, which was accepted as a new world's record by Clifford B. Harmon, chairman of the National Association of Aero Clubs of America, and James King Duffy, the secretary that body. The instrument is the same one which Johnstone carried when he made the former record of 9,714 feet at Belmont park on October 31.

It was brought to this city under the seal of Mr. Duffy in order that the record would be official.

Mr. Drexel left the aviation field at Point Breeze, in the extreme southern part of the city, at 3:25. He landed at Grand, about 20 miles north of the spot where he had started, at 4:46. In his climb he had travelled at least 20 miles to the northward, for when he started to descend, after trying for fifteen minutes to force the machine higher, he glided down for a distance which he estimated at about six miles.

So swiftly did the monoplane descend that the aviator was nauseated. However, he reached an open field and brought the machine to the ground without injury. He at once notified the officials at the aviation field of his landing.

"The air was so light it was impossible to make the machine ascend another foot," Drexel said. "The engine would not carry it any further and I was up at the extreme altitude for more than fifteen minutes, jumping the machine in an effort to secure a greater height."

Mr. Drexel said that while he was very cold, yet as he was warmly clothed, he did not suffer as he had when he made his previous records of 6,750 feet, at Lanark, Scotland, and 8,350 feet at Belmont park.

### MUSIC AND THE DRAMA.

To the Editor:—Victoria aspires to a prominent place among the tourist resorts of the Pacific slope, and yet at the present time there is not a public hall in the city suitable for first-class concerts, nor is there a theatre or opera house in which the scenery of up-to-date opera companies can be used.

A short time since the daily papers led us to believe that the corner stone of a modern, up-to-date theatre would be laid forthwith, but we look in vain for any signs of active operations.

The longer the work is delayed the worse for Victoria. The modern tourist must have first-class hotel accommodation, but he will not remain long in a place where there is not a first-class theatre or an opportunity to hear good music in a modern concert hall.

All the public places in the city are more or less antiquated and inconvenient, with common chairs, instead of opera chairs. Their stages and dressing rooms are most unsatisfactory, and their acoustic properties are miserable.

There is room for at least one first-class concert hall and urgent necessity for a modern opera house.

### THE WATER QUESTION.

The result of the vote on the water by-law yesterday was disappointing, because we were among those who thought we should have more and better water. However, the people have spoken, and as they are to be the users of the water no one can complain, except perhaps the minority who must bend to the will of the majority. We seem to be hopelessly divided in this city on the water question. There is a section of the people that pins its faith to Elk Lake, another section that wants to go to Sooke, a third section that believes we should purchase the Goldstream works, and a fourth section which says buy water by the gallon from the Esquimalt Water Works Company.

The Elk Lake, Sooke Lake and water by the gallon elements of the population joined hands yesterday in administering a quietus to the aspirations of the Goldstream element. If a by-law were submitted to-morrow providing for the development of Sooke Lake as a source of water supply three elements would assuredly continue to defeat it.

A correspondent of the Times whose letter was not published made the statement that there is sufficient water in Elk lake at the present time, even if there were no further rainfall, to meet the requirements of the water consumers for five years. This estimate is likely, in part, to be put to a test as a result of yesterday's vote. For the sake of the city we hope it may prove a true prophecy, even with the normal precipitation thrown into the bucket.

### RESPIRE FOR ALLEN.

C. F. Davie, Counsel for Prisoner, Secures Stay of Execution From Mr. Justice Clement.

C. F. Davie, Counsel for Gunner Allen, condemned to be hanged on December 2 for the murder of Capt. Peter Elliston on August last, was successful at Vancouver yesterday in his application to Mr. Justice Clement for a stay of execution pending the return of Chief Justice Hunter, who presided at the trial. Allen has been granted a respite until February 2, and on the return of the chief justice an application will be made for permission to apply to the court of appeal for a retrial, on the grounds of the introduction of inadmissible evidence by the crown prosecutor.

cutor. The code provides that either the trial judge or any other judge can grant a respite of this nature.

—This afternoon the new crew for H. M. S. Shearwater arrived from the Old Land on the Princess Charlotte. The baggage and men were transferred from the Vancouver boat to the Princess Ena and conveyed around to Esquimalt. The old crew, consisting of 61 men and officers, who have completed their term on this coast, left last night for England.

The Norwegian steamship Cuzco, of the Grace line, has been chartered to carry Vancouver Island coal to San Francisco.

—Dr. Vrooman, Winnipeg, formerly in charge of the Manitoba provincial sanatorium at Nimette, has been appointed medical superintendent of the Tranquille sanatorium.

—Rev. A. deR. Owens, rector of St. Paul's (R. E.) church, New Westminster, is expected to conduct the services and to preach the anniversary sermon in the Church of Our Lord next Sunday, an exchange having been arranged between him and Rev. T. W. Gladstone. Ernest Petch has promised to sing a solo at the morning service, and Mrs. D. C. Reid in the evening.

—Chief Cooper, of the Songhees tribe, and H. D. Helmecken, K. C., legal agent for the Indians, had a conference with the city solicitor and the city engineer yesterday relative to the matter of the construction of a sewer along Alston street, Victoria West, a portion of which thoroughfare runs through the reserve. The Indians complained that they had not been consulted before the work of putting down the sewer was undertaken, and they claimed compensation. The matter was amicably adjusted.

—City Engineer Smith has not yet commenced to empty the Smith's Hill reservoir in order to make another study of the big basin preparatory to the work of repair, but he will do so very shortly. He is co-operating with Chief Davis of the fire department to see that the reservoir shall not be emptied until such time as the latter has made all arrangements to provide adequate fire protection facilities to meet the situation created by the reservoir going out of commission for a period.

**PROJECTED RAILWAYS.**

Two advertisements of intended applications to the legislature for railway charters appear in this week's Gazette. H. W. R. Moore is acting for the promoters of the Graham Island Railway Company, which proposes to build from Skidegate Inlet to Masset. Elliott, MacLean & Shandley are acting for a company which desires to build from the mouth of Salmon river on Dean channel, or from Bella-Coola or some intermediate point on the western boundary line of the province, to Sigutta lake, and thence to Kwaleho lake, Unalghat river and Entaas lake, along the Entaas river to Natakus lake, along the upper Nechaco river to Fraser lake and easterly to where the eastern boundary line of the province intercepts the Peace river.

**CHILDREN'S COURT.**

Juvenile Delinquent Act Proclaimed in Force in Victoria.

In last Saturday's issue of the Canada Gazette just to hand, the Juvenile Delinquents Act is declared to be in force in the city of Victoria from the date of publication of the proclamation.

—The Ladies' Aid Society of First Baptist church will hold their annual tea and bazaar in the church parlors, corner Yates and Quadra streets, on the afternoon and evening of December 7. There will be a good musical programme and the customary attractions. The apron booth will be a special feature, and in it will be found aprons of all sizes and sorts, any one of which would make an appropriate Christmas gift. There will be the generous goose for the amusement of the children, and a novelty booth where Christmas gifts of all sorts will be on sale.

### LADIES' HOCKEY GAME TO-MORROW

**NANAIMO SETS TEAM  
AGAINST VICTORIA**

Play at Oak Bay Park--Victoria Girls Go to Vancouver in One Week

The first inter-city ladies' hockey match of the year takes place to-morrow afternoon at Oak Bay, when the Victoria ladies' hockey team, selected last night, will meet the Nanaimo eleven at 7 o'clock. The Victoria girls have a game the following Saturday, when they will cross the water, and play the Vancouver girls' hockey club at the Terminal City ground. From the practice held this week against the High school girls, the Victoria club will be as strong as it was last season, and perhaps stronger, to defend the laurels held by them. Most of last year's players are on the team again, and the play of many of them has been improved by experience and

practice, so that the club members are very confident about retaining the hockey cup and championship at present in their custody. The team that will represent the club against the Nanaimo team to-morrow afternoon is as follows: Goal, Miss M. Stewart; full backs, Misses J. Vincent and K. Dalby; half backs, Misses G. Christopher, R. Nason and H. Heyland; forwards, Misses F. Hitchcock, L. Clarke, M. Goodacre, C. Grant and M. Atwood; reserve, Miss F. Corder.

### HOCKEY PRACTICE OF THE BAYS TEAM

The James Bay Athletic Club hockey team will hold a practice at the Oak Bay park on Saturday afternoon, 5 p.m. Winsty, captain of the team, requests that all players be on hand at 3 o'clock, as it will be the last practice of the team before the game at Vancouver the following Saturday. The captain invites all players who desire to play the game and who are not at present affiliated with other hockey organizations here, to take part in the practice. New men can take out a stick and join the game, as the James Bay club intends making a strong bid for the provincial honors this season, and wants to sign as many men as possible from which to secure the best team to represent the club.

With a production of 14,428,936 gross tons, the output of open hearth steel ingots and direct castings in the United States broke all records last year.

In certain parts of Mexico the natives hang the nests of a large species of spider in their houses to entrap flies and other small insects.

### RUGBY TEAM OFF TO THE MAINLAND

Team in Good Health and Con-  
dition and Hopeful of  
Victory

William Newcombe, captain of the Victoria Rugby team, said to the Times this morning: "I believe the team as a whole is in better condition than when we defeated Vancouver, by 8 points to 5, November 12th. The men have trained well, and are all in good health and condition. It is difficult to say what the result of the match will be, because Vancouver is playing several men who were not on the team we defeated. There is Baker, a splendid three-quarter, formerly of the Watsonians, and they have also a Scotch international player. We hope to win, and the whole team will play to the best of its ability.

"We are sure of all the men selected, except Miller and Sholto. The latter will, we hope, be in Vancouver when we arrive to-morrow morning, and I believe Miller will be able to come, although I have not heard from him this morning. The members of the team practiced last night at Oak Bay and put in plenty of good work, so we are all very hopeful.

"I want the men to be on board the

Princess Royal to-night at 10 o'clock, and this applies to the reserves as well."

### VICTORIA WEST TO PLAY THE GARRISON

Soccer Teams Will Fight for  
Second Position in Sched-  
ule of City League

To follow the official programme was the course decided on last night at the meeting of the Victoria and District Association football league, and the principal match to-morrow afternoon will be that between Victoria West and the Garrison at

the Royal park ground, refereed by J. R. Allen. Victoria West and Garrison are occupying second and third places in the list of the first-division teams and there is only a point percentage between them. The scheduled games in the three leagues are as follows:

First Division.  
Victoria West vs. Garrison; referee, J. R. Allen; at Royal park.  
North Ward vs. Esquimalt; referee, S. Thomson; at North Ward park.  
J. B. A. vs. Foresters; referee, A. Lockley; at Oak Bay.  
Second Division.  
Esquimalt vs. Oak Bay; referee, E. R. Lock; at Canteen grounds.  
Garrison vs. Baraca; referee, F. Walters; at Work Point.  
Fifth Regiment vs. Beacon Hill; referee, M. Sawers; at Beacon Hill.  
Victoria West vs. North Ward; referee, G. Allison; at Beacon Hill.  
Junior Division.  
Oak Bay vs. Victoria West; referee, E. Bishop.  
In the junior city league the postponed

game between North Ward and High school will be played and the following players have been selected to play at North Ward park for the North Ward club: P. Hunter, L. McKenzie, R. Wolseley, M. Hill, P. Hyle, M. Finland, G. Walseley, O. Duncan, F. Sherritt, B. Dinsdale, R. Walker, J. Jones, J. Cummings and McAllan. The match will start at 2 o'clock sharp.

The North Ward teams for to-morrow are:  
Senior--Dougan, Crawford, McDonald, A. Dakers, Brynjolfson, Brown, McCarter, Muir, T. Peden, Taylor and J. Dakers.  
Second team--Baines, C. Hall, Pike, J. Baker, McGregor, McIlmoyle, Sweeney, Howden and C. Dakers.

Coconut oil, not edible, when imported for use in the manufacture of refined coconut oil, has been placed on the free list by a recent order-in-council.

## THORPE'S SODA WATER

Made From Water From Which All Germs  
Have Been Removed

LADIES' WEAR STORE

# Ladies' Winter Coats and Suits

Owing to the tardy arrival of a large shipment of Ladies' Coats and Suits, we find ourselves compelled to dispose of them at smart reductions, in order to make room for new arrivals. These Coats and Suits are productions of the best makers—mostly from Berlin, Germany—garments of exclusive style and distinction, and really worth much more than we are asking for them. The many who have deferred the selection of their winter coat or suit will find our lines complete in every respect.

## THREE SAMPLE OFFERINGS

WOMEN'S COSTUMES, made in handsome two-tone Cheviot and lined with Surah satin. The coat is 32 inches long, semi-fitting style, with the dainty Gibson effect shoulders. Collar is made of fancy Cashmere silk with wide reverses. Skirt is tailored with front panel, strapped at knee and pleated at bottom. Colors of blue, mixed brown and black, green and black, and black.

WOMEN'S COSTUMES, tailored in Basket Cheviot, lined with satin, in semi-fitting style. The coat is 36 inches long, very graceful in design, and has handsome satin and velvet shawl collar. The skirt is made with front panel and inverted strap below knee, giving the hobble effect, but allowing plenty of freedom of movement; smartly pleated at bottom.

WOMEN'S COSTUMES, tailored in dark grey Cheviot, semi-fitting back, lined in heavy satin. The coat is 33 inches long, with smart collar and reverses. The skirt is made in plain style, pleated at front.

# \$20 \$25 and \$30

The above are only a few of the garments offered. We have others in broadcloth, blues and black, beautifully finished in all the latest Berlin and Parisienne modes. Come early, as they won't last very long at the prices asked.

Ladies' Outfitters **Finch & Finch** Ladies' Outfitters  
713-715 Yates Street Just Above Douglas St.

## Sport Notes

G. C. Hodge, manager of the Argos Rugby team, says of the Spokane Wanderers fifteen: "The athletes who donned the shirt of the Wanderers to make their debut against the Argos made a great impression to the uneducated, as well as the educated observer of football. There is no other place on the Pacific coast where a team could be picked up to put up such a showing in its initial game. The Wanderers certainly did themselves proud and showed that with a little consistent drilling they could make some of the best Rugby teams of British Columbia and California work hard for laurels. They have the weight, the condition and the skill and, with a little rehearsing of the rules as adopted by players of Rugby they would be a team with no small amount of genuine class."

Two hundred ball parks in America are equipped with a sign by a tobacco company that offers \$50 to every player hitting the sign. It is rather an extraordinary feat, but was accomplished 36 times last season. The tobacco company paid out \$4,804 to players, and since this same company pays five pounds of tobacco to every player making a home run, they get in rather deep on that score. Two thou-

sand home runs were recorded, and 19,000 pounds of tobacco were distributed to players.

Mauri St. Lves, the French champion, beat Joe Trent, of Columbia, Ohio, and Charles Galena, of Philadelphia, in a ten-mile race at Atlantic City, N. J., last night by one mile and two laps. His time was 56 minutes 25 seconds. Trent finished second in one hour and six minutes.

All the big league magnates think Cleveland has a star in Vean Gregg, the big southpaw who did such fine work for Portland last year, and President Somers has already turned down an offer of \$5,000 for him. The offer was made by Joe Cohn, of Spokane, but inasmuch as Spokane is a Western farm of the Chicago Cubs, the offer is supposed to be from C. W. Murphy, of Chicago.

Bob Meinke, the Lagon Square shortstop, who was tried out by Cincinnati, is wanted by Bob Brown for the Vancouver club next season.

Yuseff Mahout, the Turk, whose challenges to Zhyzacko and Hackenschmidt have been constant and persistent for the last few weeks, will have a chance to show his calibre on October 1. He will meet Peter Nogent, the South African giant, the best two falls in three under the management of Chicago promoters.

## BOXING!

Is the stellar winter exercise and is one of the best sports during winter. A set of 8-oz. Gloves at home will provide more real good amusement than anything on record. We have a classy assortment from \$4.00 to \$8.50. NIFTY PUNCHING BAGS at \$2.75, \$4.00 and ..... \$6.00

**Victoria Sporting Goods Co'y**

The Evening Chit-Chat BY RUTH CAMERON. Such a sight as I saw yesterday. Such a pathetic transformation. A little girl, a dear, pretty, girlish little girl transformed into a woman in three months. Was it some trouble, some burden too heavy for young shoulders to bear that wrought this sad transformation?

Oh, no, not at all. Just a young girl's foolishness plus a fond mother's heart which had looked quite suitable on a grandmother and some skirts let down and some hair put up where neither belonged. When I called on her mother last summer Dorothy was sixteen, wore her hair in a pigtail, had on a little plaid gingham dress and looked like a dear, adorable little school girl.

Yesterday, three months later, when I again called on her mother, a young woman, apparently about twenty-two or three, with her hair done high on her head and her skirts within three inches of the floor came into the room. She wore a black suit, a white net waist, a black and white hat and black gloves.

It was really a moment before I realized that this person actually was Dorothy. Had I not known that there had been no death in the family I should have taken her costume for half mourning. Every day I see Dorothys of greater or less degree on the street and mourn them as I did this one.

I have seldom known a girl of sixteen who didn't want to put up her hair and do all the rest of the grown-up things that go with that. I've seen less frequently known a girl of twenty-five who had been allowed to have her own way in this matter, who didn't say "Oh, if I only hadn't!"

Dear little girls, from fourteen to eighteen, there are so many, many years to wear black in, so many, many years when you'll have to have your hair up and your skirts down, and so very few when you can wear all the gay colors you like and can have pig-tails and cunning little skirts midway 'tween your knees and your ankles.

Dear little girls, we grown-ups envy you so. Do you want to wantonly throw away that which we regard as so precious? And if neither of those arguments touches you, here is one that I'm sure will: It's stylish to be young as you can, and terribly "tacky" to assume oldness.

## GOOD WORK DONE FOR ANIMAL PROTECTION

Annual Meeting of the S. P. C. A.—Work of the Year—Officers Elected

The fourteenth annual meeting of the Victoria Branch of the British Columbia Society for Prevention of Cruelty to Animals was held in the city hall Wednesday evening. In the absence of the mayor the chair was filled by the Bishop of Columbia. The annual report was read by the hon. secretary, together with the financial statement certified by W. Curtis Sampson. The report congratulated the members on the satisfactory condition of the society, and the advantage accruing by the appointment of a paid inspector, who was efficient not only in the duties of that office but also as collector; the results of the work in this latter case being far in excess of any year hitherto, the financial statement showing receipts of \$1,283.93, and the expenses \$1,024.90, leaving a balance of \$259.03 in bank and \$31.30 on hand, a balance of \$290.33, which will meet the expenses for the forthcoming three months before the subscriptions for 1911 will be applied for.

The cases dealt with during the year were as follows: Horses, 95; dogs, 12; cats, 9; cows, 5; sheep, 1; chickens, 9; horses condemned, 4; cases in the police court, 4; total, 149. There were three convictions out of the four cases.

In the course of the discussion, which ensued the following gentlemen took part: Rev. W. Baugh Allen, Rev. E. G. Miller, Lindley Crease, A. J. Dallain and C. H. Cameron.

A resolution was passed that the secretary should again address the council and public on the question of cruelty in the excessive use of the check rein, it being generally admitted that as a rule horses which have been trained to its use are to a certain extent assisted by it, but used in extreme cases a refinement of cruelty to the animal in struggling has as a means of recovering itself. It was thought, therefore, that this important question should be strongly urged on the notice of the public, and those who read these lines, having horses and using the check rein in excess, are earnestly requested by the committee of this society to discontinue its use forthwith.

Some interesting discussion followed on the question of lameness in horses, its cause and cure. Opinions differed as to whether the trouble was caused by indifferent shoeing, hard roads or both.

It was decided on the suggestion of the hon. secretary that some members of the committee should wait upon Dr. R. L. Hamilton and discuss the question with him before taking any further steps.

The following gentlemen were re-elected officers: Vice-president, Mr. Justice Martin; counsel, Lindley Crease; treasurer, Dr. Holden; hon. auditor, W. Curtis Sampson; hon. secretary, Thos. W. Palmer and N. Cameron having resigned the post of president, Rev. E. G. Miller was unanimously elected to take his place. Committee, A. J. Dallain (re-elected), Rev. W. Baugh Allen, C. N. Cameron, Rev. W. Leslie Clay, and J. Musgrave, subject to the consent of the two latter gentlemen being secured. Votes of thanks were passed to the mayor, the B. C. Electric Railway Co., the city provincial police, W. Curtis Sampson, auditor, and the press.

The annual report of the president and secretary-treasurer was as follows:

It is with sincere gratification that the committee congratulates the members on the work of the society for the past year.

The long-looked for appointment of a paid inspector has fully realized the wisdom of the step, and the energy evinced by Inspector Russell—both as inspector and collector—is worthy of all praise.

It is, perhaps, a moot question as to whether legal prosecution, or persuasive prevention, is the best method of the society's work; but your committee is of opinion that the truth lies like many other abstruse questions between the extremes, and we do not, therefore, resort to drastic measures till the more persuasive means have been exhausted. The result, therefore, of our public prosecutions only represent the extreme cases, and only very partially represent the influence of the society's work.

We find that although, unfortunately, there are many callous drivers and users of horses, in a large majority of cases the cruelty is caused by thoughtlessness and ignorance; and on such persons being appealed to with firmness and tact, the cause for complaint is removed, and oftentimes thanks given for the information imparted.

The financial condition of the society is in every respect satisfactory, and if the revenue can be sustained, with additions from time to time, the status of the society will be established, and

a useful and humane work in the city and surroundings will be the outcome of its influence.

We think it right to state that by a recent warrant from the parent society pur sphere of work has been extended as far as Nanaimo (not including the city), and the adjacent islands south.

Your executive wish to embody in this report for general information a most wise resolution respecting the plumage of certain birds which hitherto has been used as an article of commerce. For several years past the society has made reference to this unnecessary and cruel destruction, and we are greatly assisted in our contention by the action of the United States having, as regards to the state of New York, made a prohibitive law described in the following extract from a newspaper of recent date:

"That the plumage of 43 species of birds formerly used to decorate women's hats can no longer be sold by the milliners of the state of New York was reported at the annual meeting of the National Association of Audubon Societies held at the American Museum of Natural History.

"In describing the effects of the show bird protective bill passed by the last legislature, T. Gilbert Pearson, the secretary of the association, said:

"Some time after the passage of this law certain of the large millinery interests, through their attorney, requested attorneys of the forest, fish and game department to let them know just what plumage of birds they could use in their business in the future, and what was prohibited. They sent him this request about one hundred and one specimens for examination. The department employed an expert Ornithologist Waldron De Witt Miller, of the American Museum of Natural History. He reported that under the provisions of the law forty-three species of birds, the plumage of which was submitted, would not legally be sold. Among these were: the green heron, two species of night heron, the screech owl, sky hawk, scoty and white terns, pelican, scarlet tanager, Bohemian wax wing, swift, marble, snowy, bunting, cedar and Jay."

The thanks of the committee are due to the B. C. Electric Railway Company, the city council, the city and provincial police, to Mr. Curtis Sampson and the press for valuable assistance.

## YOU CAN SEE HOW IT HEALS

No question or doubt as to the healing power of

**Dr. Chase's Ointment**

To people who have used internal treatment in an effort to cure eczema it is almost beyond belief what benefit can be obtained by a few applications of this soothing, healing ointment.

It is seldom that the cause of eczema can be determined, but one thing is certain, the itching must be stopped and the sores healed up.

These results are secured by the use of Dr. A. W. Chase's Ointment. The itching is relieved almost instantly, and you will be surprised at the healing which will take place overnight.

A little patience and persistent treatment with Dr. Chase's Ointment will give you more practical and definite results than a whole lot of dosing with internal medicines. You can see how the Ointment heals. The other is guesswork.

Mr. Geo. Peterson, South Bay, Ont., writes: "I wish to communicate to you the great benefit I received from using Dr. A. W. Chase's Ointment. For years I suffered with a great skin disease on my head, a sort of eczema. I tried four doctors, giving each a fair trial, but got no better. In fact, the disease spread to my left arm.

"I saw Dr. Chase's Ointment advertised and began using it. Persistent use of this treatment has entirely cured me, and I give you a statement of my case with pleasure, as I hope thereby to induce some other sufferer to try the same Dr. Chase's Ointment."

Because this ointment has made its world-wide reputation by curing the most severe and long-standing cases of eczema and piles is no reason why you should overlook its scores of uses in the relief of itching and irritation of the skin.

Dr. A. W. Chase's Ointment, 60 cents a box, at all dealers, or Edman-son, Bates & Co., Toronto.

A non-shrinking alloy may be made from equal parts of tin and zinc. If a little bismuth be added it will melt at a lower temperature.

In the course of its 180 miles the Tehuantepec national railway crosses 982 waterways, twenty-five of which require steel truss bridges.

SEALED TENDERS addressed to the undersigned, and endorsed "Tender for Construction of Two 100 Cubic Yard Wooden Dump Scows for Dredge Mud Lark, British Columbia," will be received at this office until 4.00 p. m., Friday, December 3, 1910, for the construction of the scows mentioned.

# Home and Greenhouse In Oak Bay For \$7,800

Here is a splendid buy for a man who would like to become interested in a small greenhouse proposition and a comfortable home in a desirable locality.

This place is in Oak Bay and enjoys all the conveniences of the city—water, sewer, electric light, telephone, etc.

The street cars pass the property.

## NEW YORK WILL DISCARD HORSE CARS

Edison's New Electric Storage Battery System to Be Adopted

New York, Nov. 25.—The horse car service that New York has continued to use on a dozen or more of its cross-town streets, as well as on its belt lines around the ferries where traffic is light—and where no one is ever in a hurry, is now to disappear. These horse cars still being used in the nation's metropolis have never failed to arouse the risibilities of the visitor from out in the state. And not only have the risibilities of the visitors been aroused, but it has always been customary for each and every one of them to swear solemnly that the horse cars being used in New York were nothing more nor less than the actual and identical jags, town or city at the time that municipalitv discarded horse cars for something more modern. As a consequence each of these visitors has always returned home with the deep conviction that his home town was not so awfully slow and

Used in Canada for over half a century—used in every corner of the world where people suffer from Constipation and its resulting troubles—

stand higher in public estimation than any others, and their ever-increasing sales prove their merit. Physicians prescribe them.

25c. a box.

## HAIR GROWTH

beautifies and tends to make the hair grow upon a clean, healthy scalp.

that it really had something on little old New York after all.

But in the near future the very latest thing that the genius of man has devised in the line of street railway possibilities will be installed. And this is the new Edison storage battery car.

Arrangements have already been completed for putting in these new self-propelled cars on the belt line—that connects the various ferries, and it is expected they will also quickly displace the few horse cars that will then remain on the cross-town lines.

The invention and perfection of the storage battery that has made possible the running of street cars by them is considered by Thomas A. Edison as practically the crowning accomplishment of his life. He has been at work on the problem for years, and the solving of it came only after thousands upon thousands of experiments, a record of every one of which was kept by him, until at last he made a battery that has enough power to run a street car, to run it for a long time without recharging, and to run it at a cost that makes it a cheap and desirable form of motive power.

Edison, however, is not at all content with the mere prospects of his new car superseding the horse car in New York, but is confident that once the superiority of his storage battery as a motive power has been demonstrated, it will quickly supersede the ordinary electric surface car that uses the underground conduit or overhead trolley for its power. It costs \$130,000 a mile to construct a street car line of the conduit type, while Edison asserts that a line that would use his storage batteries could be built for \$50,000 a mile. The motive power, too, he declares, will cost less than that supplied through the conduits.

In addition, the battery car is declared to be practically noiseless, and will put an end for all time to the terrible grating attendant on the starting moving and stopping of the ordinary trolley car. "It's no wonder," declares Edison, "that our people have nervous prostration, with all the screeching of car wheels and bumping of flat wheels that go with the ordinary electric car. Our car will do away with that entirely because in the first place the storage battery makes it possible to do away with the heavy trucks now used. The entire car will also be much lighter, while, with each of the wheels moving independently, there will be no more friction than in the case of an automobile."

At the present time there are practically 100 miles of horse car lines in New York that are to be superseded at once by the storage battery car. This month is already assured. But Edison is confident that all of the other lines will also come his way in time.

## MILK STANDARDS ARE ESTABLISHED

Order-in-Council Sets Forth What Will Pass the Inspectors

Under the provisions of the Adulteration Act the following standards of quality for milk and its products have been established by federal order-in-council:

Milk and Its Products.

1. Milk, unless otherwise specified, is the fresh, clean and unaltered product, obtained by the complete, uninterrupted milking, under proper sanitary conditions, of one or more healthy cows, properly fed and kept, excluding that obtained within two weeks before and one week after calving, and contains not less than three and one-quarter per cent. of milk fat, and not less than eight and one-half per cent. of milk solids, other than fat.

2. Skim milk is milk from which a part or all of the cream has been removed and contains not less than eight and one-half per cent. of non-fat milk solids.

3. Pasteurized milk is milk that has been heated below boiling, but sufficiently to kill most of the active organisms present; and immediately cooled to 45 degrees F., or lower, and kept at a temperature not higher than 45 degrees F., until delivered to the consumer, at which time it shall not contain more than 10,000 bacteria per cubic centimetre.

4. Sterilized milk is milk that has been heated at the temperature of boiling water, or higher, for a length of time sufficient to kill all organisms present; and must be delivered to the consumer in a sterile condition. Sterilized milk shall not be sold or offered for sale, except in hermetically closed containers, bearing the words "This milk should be used within twelve hours after opening the container."

5. Certified milk. Milk sold as certified milk, shall comply with the following requirements:

(a) It shall be taken from cows semi-annually subjected to the tuberculin test, and found without reaction.

(b) It shall contain not more than 10,000 bacteria per cubic centimetre from June to September; and not more than 5,000 bacteria per cubic centimetre from October to May, inclusive.

(c) It shall be free from blood, pus, or disease-producing organisms.

(d) It shall be free from disagreeable odor or taste.

(e) It shall have undergone no pasteurization or sterilization, and be free from chemical preservatives.

(f) It shall contain 12 to 13 per cent. of milk solids, of which, at least 3.5 per cent. is fat.

(g) It shall be from a farm whose herd is inspected monthly by the veterinarian, and whose employees are examined monthly by a physician.

6. Evaporated milk is milk from which a considerable portion of water has been evaporated, and contains not less than 26 per cent. of milk solids, and not less than 7.20 per cent. of milk fat.

7. Condensed milk is milk from which a considerable portion of water has been evaporated, and to which sugar has been added. It contains not less than 28 per cent. of milk solids, and not less than 7.7 per cent. of milk fat.

8. Condensed skim milk is skim milk from which a considerable portion of water has been evaporated with or without the addition of sugar.

9. Buttermilk is the product that remains when butter is separated from ripened cream, by the usual churning processes; or a similar product, made by the appropriate treatment of skimmed milk.

10. Goat's milk, ewe's milk, etc., are the fresh, clean, lactical secretions, free from colostrum, obtained by the complete milking of healthy animals other than cows, properly fed and kept, and conform in name to the species of animals from which they are obtained.

Note.—(Sec. 5.)—It is evident that the weight carried by the term "certified" will depend upon the character of the organization which assumes responsibility. Doubtless this will usually be a local medical association; but there is nothing to prevent any responsible body of properly qualified persons, from undertaking the production of certified milks.

It is difficult to see in what manner the adulteration act can be made to apply to the case of certified milk, except in the sense of requiring that a definite food material must be true to name.

The requirements above enumerated are such that their complete fulfillment can only be properly vouched for by a local system of inspection, not provided for by the adulteration act. The history of milk certification, in the sense described, suffices to prove the great benefits conferred upon a community which adopts such a method of ensuring a pure product for the use of infants and invalids; and the department of inland revenue, in administering the adulteration act, will do everything possible to assist in securing the maintenance of the high standard for certified milk which has been set by medical commissions, as above defined. At the same time it is recognized that the efficient carrying out of this programme must chiefly rest with the local commission.

Cream.

1. Cream is that portion of milk, rich in milk fat, which rises to the surface of milk on standing, or is separated from it by centrififugal force, is fresh and clean, and contains (unless otherwise specified) not less than eighteen per cent. of milk fat, and clean, and contains shrd shr-srd

2. When guaranteed to contain another percentage of milk fat than eighteen per cent., it must conform to such guarantee.

3. Cream must be entirely free from gelatine, sulphate of lime, gums or other substances added with a view to give density, consistency or apparent thickness to the article.

4. Cream must contain no preservatives of any kind, nor any coloring matter, other than is natural to milk.

5. Evaporated cream, sterilized cream,

condensed cream or any other preparation purporting to be a special cream, except ice cream, must conform to the definition of cream, and must contain at least 25 per cent. of milk fat.

Milk Fat or Butter Fat.

1. Milk fat, butter fat, is the fat of milk and has a Reichert-Meiss number not less than 24 and a specific gravity not less than 0.905.

Butter.

1. Butter is the clean non-rancid product made by gathering in any manner the fat of fresh or ripened milk or cream into a mass, which also contains a small portion of the other milk constituents, with or without salt, and contains not less than 82.5 per cent. milk fat, and not more than 16 per cent. of water. Butter may also

contain added coloring matter of harmless character.

Cheese.

1. Cheese is the sound, solid, and ripened product made from milk or cream by coagulating the casein thereof with rennet or lactic acid, with or without the addition of ripening ferments and seasoning, and contains, in the water-free substance, not less than forty-five per cent. of milk fat. Cheese may also contain added coloring matter of harmless character.

2. Skim milk cheese is the sound, solid and ripened product made from skim milk by coagulating the casein thereof with rennet or lactic acid, with or without the addition of ripening ferments and seasoning.

3. Goat's milk cheese, ewe's milk cheese, etc., are the sound, ripened

products made from the milk of the animals specified, by coagulating the casein thereof with rennet or lactic acid with or without the addition of ripening ferments and seasoning.

Ice Creams.

1. Ice cream is a frozen product, made from cream and sugar with or without harmless flavoring and coloring materials and with or without gelatin, gum tragacanth, or other harmless stiffening materials, in amount less than 2 per cent.; and contains not less than 14 per cent. of milk fat.

2. Fruit ice cream is a frozen product, made as described under ice cream, but containing sound, clean and mature fruit. It must contain not less than 12 per cent. of milk fat.

3. Nut ice cream is a frozen product, made as described under ice cream, but containing sound, non-rancid nuts. It must contain not less than 12 per cent. of milk fat.

Miscellaneous Milk Products.

1. Whey is the product remaining after the removal of fat and casein from the milk in the process of cheese-making.

2. Kumiss is the product made by the alcoholic fermentation of mare's milk or ewe's milk.

Milk powder is the soluble powder product made from milk and contains, unless otherwise specified, not less than 95 per cent. of milk solids, and not less than 26 per cent. of milk fat.

4. Skim milk powder, separated milk powder is the soluble powder product made from skim milk, and contains not less than 95 per cent. of milk solids.

MISS ADELINE DUNLAP.

As Jacqueline in Henry W. Savage's Production of "Madame X."

How Actress Fooled Physician.

Miss Adeline Dunlap, who has the title role in "Madame X," the reigning dramatic sensation which will be the offering at the Victoria theatre on Monday next, followed its record in Chicago, New York and the European capitals, was sent to Paris by Henry W. Savage after he had engaged her so that she might see the original version of the celebrated play at the Theatre Porte St. Martin. The heroine of "Madame X" is a victim of the ether habit, the most terrible vice that afflicts modern European civilization. Speaking of her journey abroad Miss Dunlap said in a recent interview: "My trip was for the purpose of observing victims of the drug in sanitar-

iums and hospitals. I've been to Paris, Berlin, Vienna and what I saw—ugh! I dare say I am well qualified to write a scientific book on the subject. I was treated everywhere with uniform courtesy by the noted savants, many of whom took me to their clinics. The sights I saw there—you would never believe it possible. "My most amusing experience was with a noted German specialist, with a name almost impossible to pronounce, and a long black beard falling below his waist line. I simulated the symptoms of a victim of the drug. He pronounced my case hopeful, but when he had reached the point of beginning treatment I, of course, had to tell him who and what I was. You should have seen his disgust—and heard his comments.

SENATOR AFRAID OF SUFFRAGETTES

Women Refused to Run When Politician Raised Cry of "Rats"

New York, Nov. 25.—The American suffragette has never looked with favor on the more, or less strenuous methods of her English sister in the cause. But because of that, it is not to be inferred, even for an instant, that the American suffragette—at least she of the New York variety—has not evolved a few little methods of her own. And if she does not believe that the proper way of breaking up some adverse political meeting is by bowling over the policemen who stand guard outside, or by seeing what is the greatest possible variety of missiles that can be hurled at the speaker, it does not at all follow that she is thereon resting quietly on her dignity and allowing her enemies to prosper in peace.

Although the New York suffragette has never specialized in the breaking-up of political meetings, yet during the recent campaign in New York she gave a few little examples of her highly finished art along that line. It was at a political meeting on West Fourteenth street, just before the close of the recent campaign, that a few of the New York suffragettes gave an example of their highly-refined, but none the less effective methods along this line.

At the door of the meeting, Mrs. O. H. Belmont and Miss Mildred Milholland, equally as well known in New York as fashionable as in suffragette circles, were at first refused admission. The cause of this, they quickly found, was that two other suffragettes had already preceded them into the meeting, and the word had been quickly passed that under no circumstances must any more be admitted. The discovery came when the guard at the door, after telling them the meeting was a business one and for men only, inadvertently gave them a peep inside. There they saw the two other suffragettes sitting in the front row, and instantly the doom of the guard at the door was sealed. Elevating her eyes and assuming a look that would indicate she did not see the man at the door, Mrs. Belmont marched bravely inside, followed closely by Miss Milholland. They took their seats on the front row with their two other companions.

With four suffragettes sitting right on the front row—a very perceptible front swept over the meeting—or at least over the leaders who had seats on the stage. For the front row is the favorite vantage ground from which suffragettes like to hurl questions directly at the speakers and in the art of making such questions embarrassing, the New York suffragette has long shown herself a master.

The speaker, too, was quick to see his danger. In fact at the very entrance of the first two suffragettes, he had retreated to the rear of the stage, explaining that the footlights in front were dazzling his eyes. But with the entrance of Mrs. Belmont and Miss Milholland, he prepared to beat a hasty retreat. A draft he explained which was blowing at the back of the stage, caught him severely in the neck, and with this excuse he brought his speech to an untimely end.

Nevertheless, as is the custom, Mrs. Belmont arose and prepared to ask her questions. But at once the leaders on the stage began to play their trump. With rare presence of mind a signal was flashed to the musicians who were stationed in the rear, and the bass drummer copiously, ostentatiously, of course, and beat his drum as a steady accompaniment to the speaker. Mrs. Belmont was inclined to the belief that underneath it there was ulterior motives. When the drummer showed signs of weakness, Mrs. Belmont again rose. Again the drum beat flashed, and again the speaker resumed. This for the speaker was the heart of it. Whenever the drummer started Mrs. Belmont arose and—Mrs. Belmont arose the drummer has to remain his job. At last, however, Mrs. Belmont settled quietly back in her seat and as the next speaker arose, at the close of his address, Mrs. Belmont and the bass drummer again had the floor after they for fifteen minutes.

Eventually, however, the time came for the intellectual treat of the evening. This was the speech by Senator Agnew, for whose special campaign the meeting was being held. Agnew's Agnew for weeks previous the suffragettes had been a conspicuous feature. Agnew, they had declared, had refused to admit that woman is human, and therefore entitled to vote. It was accordingly felt by the leaders in charge of the meeting that something must be done that at all hazards Senator Agnew must not be subjected to a free examination by the suffragettes. Hardly, therefore, had the last speaker proceeded to finish, and the bass drum completed its solo, that at all hazards Senator Agnew must not be subjected to a free examination by the suffragettes.

"A rat, a rat. There's a rat loose running about the hall." Instantly, every leader present was on his feet, scrambling on the chairs.

But Mrs. Belmont and her three companions never budged.

"If they expected to stampee us," Mrs. Belmont explained afterward, "the young man should not have said a rat. Women are not afraid of a rat. It's only a mouse that frightens them." With the failure of this coup, there remained nothing left to do but to offer Senator Agnew up as a sacrifice to the suffragettes. Senator Agnew, however, proposed no such thing. He had brushed with the suffragettes before, and had decided that an ignominious retreat would be better. Accordingly, the chairman had no sooner finished his highly laudatory remarks that Senator Agnew, refusing even to come forward to the platform, arose from a seat out in the audience and began to deliver his speech. It took him only a minute. He had had a very busy day. There were still several meetings where he might be wanted to speak, and he would like, therefore, very much to be excused.

With that, the senator departed. About the same time most of the audience left too. Mrs. Belmont and her three companions were the last to go. The meeting had been effectually broken up without the suffragettes having spoken a word. Senator Agnew, as the suffragettes themselves expressed it, was excused just "perfectly beautifully" on election day.

Madrid has the highest altitude of the great cities of Europe, but its death-rates is high owing to its poor sanitation.

LIQUOR ACT, 1910.

RUSHING WORK ON COAST SECTION. First Hundred Miles of G. T. P. Will Be Opened for Traffic December 1.

Prince Rupert, Nov. 24.—General Superintendent W. C. Mehan says that with the continuance of the present good weather the ballasting of the first hundred-mile section will be completed by December 1, and this section of the line will be open for traffic.

Mr. Mehan, accompanied by Engineer Van Arsdal and J. G. Stewart, have been out inspecting the progress of the work on the tunnels. The work proceeds very satisfactorily. These tunnels are on the second hundred-mile section. Excellent material for ballast is being got out at Mile 91.

Ample snowsheds are being put up at Mile 44, and will shortly be completed, and in the yards here work on the temporary shops and roundhouses has been begun.

The big steam shovel the other day took its last bite out of the biggest rock cut in the Grand Trunk Pacific line. Right in the heart of the city the big cut has been accomplished. Four hundred thousand cubic yards of solid rock have been cleared away to make a splendid firm level bed for the yards and sidings.

For three-quarters of a mile along the waterfront between the present wharf and Morse creek, the cut and fill extends, and the water along the edge of this fine solid embankment is from 35 to 40 feet deep.

To the firm of Ross & McCall, Prince Rupert, owes the successful accomplishment of this giant bit of excavation. Six months were spent in clearing and preparing the ground for the attack of the heavy, Ross & McCall have supervised the work in person since the start. While they have averaged 100 men continually

on the pay roll since the start, there has been not a single fatal accident, nor any serious mishap, whatever during the work. One workman had a leg broken very early in the history of the contract. Since then all the heaviest part of the work has gone on without accident.

A BAD GATHERING. Sore Healed by Zam-Buk.

Mrs. W. Purser, of 1385 Elgin Ave., Winnipeg, has proved how valuable Zam-Buk is in curing gatherings and painful, discharging sores. She says: "I had a bad sore on my heel, caused by the fitting of a new shoe rubbing against the flesh. The sore gathered and for three weeks I had a very bad heel. The pain at times was almost unbearable, and I had to leave off wearing a shoe, the only thing comfortable being a slipper with the heel cut out. I tried various remedies, but got little benefit, and still continued both lame and in great pain. One day some one advised Zam-Buk. I obtained a supply and a few applications banished the pain and drew out from the gathered sore all poisonous matter. I continued to apply Zam-Buk, and to my great joy, in about one week from beginning with Zam-Buk a cure was effected.

"We have also found Zam-Buk useful for other ailments. Some months ago I was troubled with bleeding piles and tried all kinds of preparations, including doctors' remedies, but could find no relief until I began using Zam-Buk. Several applications brought a complete and speedy cure."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bite, ulcers, eczema, blood-poison, varicose sores, piles, scalp sores, ringworm, babies' eruptions and chapped places, cuts, burns, bruises and skin injuries generally. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, for price. Refuse harmful imitations.

TWO MEN DROWNED.

Kelowna, Nov. 21.—Two men lost their lives by drowning here yesterday. Thos. Wardlaw, Mark England and Robert Lloyd were returning from across the lake, where they were working at carpenter work, when a squall came up and upset their boat.

Lloyd and Wardlaw clung to the boat and Mr. Dimmick, seeing them upset, put out in another boat to rescue them. As he drew near Wardlaw being chilled through, relaxed his hold and was lost. England also gave up the struggle. Lloyd was rescued in an unconscious condition and it took over an hour to restore him to consciousness. Wardlaw was a single man about to be married shortly. England leaves a wife and three children.

### CENSORSHIP OF THEATRES DISCUSSED

#### Vancouver City Council Leaves Matter in Hands of Finance Committee

Vancouver, Nov. 24.—The censorship of theatres and moving picture shows in the interests of the children of Vancouver was a fruitful source of discussion at the meeting of the city council. When considering the by-law for regulating, licensing, or preventing theatrical exhibitions, it was this clause which gave rise to the discussion: "It shall be unlawful for any person to produce in any building or place dramatic or theatrical entertainment in the city any immoral or any lewd theatrical or dramatic exhibition, or any dramatic or theatrical entertainment in which shall be staged any immoral, lewd, lascivious, dishonourable, immoral character, or to conduct or take part in any theatrical or dramatic exhibition in which women or girls shall perform any

lewd acts or movements, or make any indecent gestures.

Alderman Stevens remarked that that raised the question of the censorship. He thought they should arrange to appoint a censor. Picture shows were sometimes bitterly attacked. They could be made very entertaining and educational to the public. They used to have shows constantly exhibiting pictures of crime, and these excited the minds of the young and produced criminals.

City Solicitor Hay, questioned, said the council had no power to appoint a censor, except as arranged by the by-law, the city electrician, the building inspector, the chief of police, or any police officer, all of whom could inspect productions of the theatres.

Alderman Stevens pointed out that a censor should have nothing else to do. With all due respect to the intelligence of the average patrol man, the average building inspector and city electrician, their tastes were not always artistic and such as to render them the right persons to pass judgment on plays.

The city solicitor explained that a particularly able policeman, who might be well fitted, might be chosen for the post.

The Mayor: "We have our own license inspector." Alderman Ramsay said there had been complaints in the city of some of the shows not being decently conducted, so they took the matter to their license inspector and he was going the round of the various theatres. He had already stopped some of the places. In Toronto they had a morally department in charge of a sergeant.

Alderman McTaggart was strongly of the opinion that there should be something in the by-law with reference to the age at which children should be allowed to attend a 10-cent moving picture show. He understood that children eight and ten years old attended these places in Vancouver.

Alderman Ramsay moved that the chief of police should be asked to give his advice to the finance committee in that matter.

The mayor emphasized the good work being done by the license inspector, and the matter was left in the hands of the finance committee to consider with the advice of the chief of police.

#### SEED DISTRIBUTION

Farmers May Secure Samples From Experimental Farms at Different Points.

By instruction of Hon. S. Fisher, minister of agriculture, a distribution is being made this season of samples of superior sorts of grain and potatoes to Canadian farmers for the improvement of seed. The stock for distribution has been secured mainly from the experimental farms in India, Sask., Brandon, Man., and Ottawa. The samples consist of oats, spring wheat, barley, field peas, Indian corn (for ensilage only), and potatoes. The quantity of oats sent is four pounds, and of wheat or barley five pounds, sufficient in each case to sow one-twentieth of an acre. The samples of Indian corn, peas and potatoes weigh three pounds each. A quantity of each of the following varieties has been secured for this distribution: Oats—Barnes, Ausundance, Danish Island, Wide-Awake, Thousand Dollar, improved Ligona, all white varieties. Wheat—Red varieties: Marquis and Early Red Pile (early beardless sorts of which having a strong, Red Pile (beardless), Preston and Huron (early, bearded). White varieties: White Pile (beardless), Boba (early, beardless). Barley—Six-rowed, Mensury and Man-

To know at a glance the Real Semi-ready Tailoring

See that mark:

It's in the pocket of every Semi-ready Coat.

Do not take any chances. Better be sure than sorry.

We emphasize the Trade-Mark and silk-sewn price mark on every genuine Semi-ready Garment because so many counterfeits are being sold in Canada. The mark is plain and it's your guarantee that the garment is a genuine "Semi-ready."

## DIRIGIBLE AIRSHIP SAFE FROM WIND

Walter Wellman Says That With Plenty of Room There is No Danger

It is generally supposed that navigating the air in a huge dirigible airship must be perilous during a heavy wind storm. It seems that this is not the case, according to Walter Wellman who, in writing about his recent attempt to cross the Atlantic Ocean in the airship "America" in Hampton's Magazine for December says:

"Men who thought there was danger that the America might be torn to pieces by a storm had not reflected well upon the physical conditions surrounding a ship of the sea. A steamship or sailing vessel is buffeted by wind and wave; but it is partly immersed in an ocean of fluid which offers great resistance and subjects it to violent shocks.

"An airship is completely immersed in a medium which offers so little resistance that shocks are impossible. It is not an easy fact to grasp—but it is still a fact—that the only resistance an airship offers to the wind, the only strain or pressure upon her parts, is that which she herself creates—with her engine and propellers.

"To understand this principle, imagine the America in the air far out over the ocean. It is calm; no engine is running; the crew, perchance, is asleep. Up springs a gale, fast gathering force till it reaches a velocity of fifty miles per hour. Nothing whatever in the motion, the vibration, the pitching or rolling of the ship alarms and awakens the crew. The America, being a 'free balloon,' because no engine is turning simply becomes a part of the wind, so to speak, moves with the wind, offers no resistance to it, floats along as peacefully as if it still were dead calm. A member of the crew awakes, rubs his eyes, goes to his post; but, if it be night, and he cannot

WE WILL SELL THIS CENTRAL BUSINESS PROPERTY FOR \$90,000

see the ocean, he has no idea whether the ship is standing still or moving fifty miles per hour. If he strikes a match to light his pipe, the flame curls straight upward, precisely as if he were in a closed room—an experience which many of us have had in ordinary spherical ballooning.

"Suppose, now, the crew be roused. An engine is started, a pair of propellers set in motion. Then, and then only, does the ship offer resistance to the wind; and the measure of her resistance is the energy exerted by the propellers—just that, no more, no less. Nor does it make any difference whether the velocity of the wind be ten or a hundred miles per hour; nor yet any difference whether the ship be headed into the wind, or with it—the result is the same. Obviously, as long as the ship had sea room—could keep herself up in the air—no storm that ever blew could hurt her. But it makes a tremendous difference as to the course and destination of the ship from what quarter the winds come and what force they blow."

### MODEL CITY PLANNED.

New York, Nov. 25.—Preliminary plans of the Russell Sage Foundation, established by Mrs. Sage as a memorial to her husband for the establishment of a model suburban city, providing healthful and beautiful homes for persons of moderate means; were announced yesterday.

Briefly, the project is to utilize a tract of 412 acres in Forest Hills Gardens, Long Island, N. Y., nine miles from New York City, in laying out a town for 1,500 families.

The initial financial expenditures for the purpose, it is announced, now amount to \$2,250,000. How much more will be needed to carry the plans to completion is not known, but the foundation trustees state that Mrs. Sage is prepared to supply all the funds required to carry out her ideas. The enterprise is to be made self-supporting, and is to yield a fair return on the investment. Its purpose is to enable persons of moderate means to own their homes at a minimum cost, but amid ideal surroundings. The minimum cost of paying for a home there, it is estimated, would be \$25 a month, including principal and interest.

For the present, laboring men whose wages are small will not benefit directly from Mrs. Sage's enterprise. The cost of land in Forest Hill, it is explained, precludes provision for the working class. Intimation that they will be cared for later, however, is given in the trustees' statement.

Switzerland produces 61,800,000 worth of manufactured chocolate annually.

IN THE MATTER OF THE BRITISH COLUMBIA RAILWAY ACT AND IN THE MATTER OF THE VICTORIA TERMINAL RAILWAY AND FERRY COMPANY. NOTICE IS HEREBY GIVEN that the plan, profile and book of reference of the Victoria Terminal Railway and Ferry Company, showing proposed change of terminals at Victoria, B. C., approved by the Chief Commissioner of Lands for the Province of British Columbia, has been duly deposited in the office of the District Registrar of Titles at Victoria, B. C. Dated this 17th day of November, A. D. 1910. A. H. MACNEILL, Solicitor for the Victoria Terminal Railway and Ferry Company.

Wharf Repairs and Piledriving The noted diver, M. McDonald, who has of late, succeeded in piledriving and wharf repairs, wishes to have people believe that I have been interested with him. Such is not the case. He has had use of my piledriver and gear at a small rental. T. P. WEST, 725 Fisguard St.

CHINESE MUST NOT WED WHITE WOMEN Wives Would Have No Legal Standing in China According to Decree

The Cologne Gazette publishes a decree promulgated in Peking, interdicting young Chinamen who are being educated in Europe or America from contracting marriages with young-woman of the country in which they may be sojourning. The Gazette, in commenting on the decree, says the principal reasons for its issue are—religion and race. Every Chinese boy is, in fact, from his early days affianced to a Chinese girl; the daughter of a friend of his family. In reality, the girl is from this moment the lawful wife of the boy, and as soon as he and she attain the marriage age she, enters into the family of the youth. Death alone can break this betrothal, and the young Chinaman cannot, under the laws of his country, separate himself from his wife. The consequence is that all young Chinese sent to Europe or America to complete their education are already legally allied to some girl of their country, and if they marry during their absence from China a foreign girl, she, according to the law of China, is not the legitimate wife, but a woman subordinate to her who awaits in China the return of her fiance. Besides this, the issue of the union between Chinese men and European or American women become, according to Chinese law, children of the legal Chinese wife. Further, the Cologne Gazette calls upon the Reichstag to pass a law interdicting all state officials, and others qualified, from celebrating marriages between Chinese men and German women. The Gazette demands that even in the case where the prospective Chinese bride-groom makes a declaration that his Chinese fiancee is dead, and that, in consequence, he is liberated from all matrimonial bonds, the dispensation should be refused in the case of European women. It is added that in the German colony of Kia-Chan this interdiction is already in force.

LITTLE SWISS UTOPIA. No Taxes, Poverty, Nor Crime Under a Communistic System. A correspondent of Lloyd's Weekly News at Geneva announces the discovery of a little Utopia where life is entirely free from the competition and anxieties of the working world. Inhabitants of the village of Burtigny, beautifully situated on the slopes of the Jura Alps, in the Canton of Vaud, have no rates and taxes to pay. The village, after paying its debts, which amount to between \$149 and \$150 a year, divides the surplus of about \$10 among the oldest inhabitants. The village owns forests, vineyards and tracts of fertile land, as well as cattle. The villagers possess in common their own water service and reservoir, a cafe, wine presses, public fountain and weighing machine, a baker's shop, and a dairy. Everything is sold at cost price, and the surplus stock is sent to the market in the vicinity. Very little money exchanges hands. Most of the necessities of life are paid for in kind and by labor. When the vintage takes place each family receives so much wine, and the remainder is sold to "outsiders." The same system prevails when the timber is cut every year. If a member of the community becomes ill or old and unable to work, he or she receives food and lodging free. Each inhabitant is content to work hard for the common good. Crime is unknown. The village sends few but splendid young men to do their service in the federal army. Astronomers discover an average of three comets a year, but few of them are visible to the unaided eye.

DR. A. W. CHASE'S CATARRH POWDER 25c. is sent direct to the diseased parts by the Improved Blower. Heals the inflamed, cleans the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. The blower free. Accept no substitutes. All delays are dangerous. Write A. W. Chase, 1000 Broadway, New York City.

THE B. C. LAND & INVESTMENT AGENCY 922 GOVERNMENT ST.

Y. M. C. A. WORK. Ralph Connor, speaking in Winnipeg a few days ago on the work of the Y. M. C. A., said: "The Young Men's Christian Association has found its place and its work in our modern civilization. The common meeting ground of the Protestant churches, it is their effective avenue for church service among young men, not immediately under the influence of a particular congregation in urban communities, and has developed a peculiar power to impart the tone and quality of high Christian manhood to the physical and mental life of young men and boys in every department of our activities. The university man and the newsboy, the clerk and the navy, the railroad engineer, and the high school student, alike feel the uplift and stimulus of the Young Men's Christian Association. This institution has often redeemed athletic sport from the taint of professionalism, and from the hateful patronage of the whiskey ring; it has offered the opportunity for education to the working boy; it has furnished clean surroundings and warm friendly associations to the stranger in a great city; it has opened the path to high church service, and to the eternal wellbeing to many an outcast. Our young men are better equipped to serve their nation, safer in their sports, kinder in their social relations, more manly, clean, noble, because of the existence of the Young Men's Christian Association. God bless the institution, and further its work among men."

OPINIONS ACTIVE PUBLICITY CAMPAIGN

New Westminster Board of Trade Advocates Wide-spread Advertising

New Westminster, Nov. 24.—A comparison of the work that has been done by the association known as the Port of Portland and the work that needs to be done to make the Fraser river channel in order to make first class waterway, occupied the attention of a special meeting of the board of trade, when a representative attendance gathered to hear the reports of Vice-President A. E. White, who recently returned from the Oregon city, where he investigated the works of the Chamber of Commerce and the publicity association.

The data submitted by Mr. White was read and although just sections that referring to publicity work being taken first and that dealing with the Columbia river and bar benefit to the last. After reading the rest portion of his report Mr. White referred in complimentary terms to the work which had already been accomplished by the Westminster Association, but pointed out that it was necessarily limited in its scope for lack of funds.

The desirability of the kind of trade and publicity associations having a home of its own, instead of occupying quarters in the city hall, was sprung the meeting by Mr. White. The suggestion met with favor. J. B. Kennedy, who returned from a trip to England some weeks ago, spoke of the ignorance of many English people concerning Canada in general and Oregon particularly British Columbia. He expressed the opinion that a good map of British Columbia should be printed on copies sent out for exhibition in all the railway stations in England.

STOMACH DISTRESS SIMPLY VANISHES Indigestion, Gas, Heartburn, or Dyspepsia go away you will feel fine in five minutes. If you had some Diapiesin handy and would take a little now your stomach distress or indigestion would vanish in five minutes and you would be fine.

This harmless preparation will digest anything you eat and overcome sour, out-of-order stomach before you realize it. If your meals don't tempt you, or what little you do eat seems to fill you, or lays like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion. Ask your Pharmacist for a 50-cent case of Diapiesin and take a little just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, Nausea, Debilitating Headaches, Dizziness, or intestinal griping. This will all go, and besides, there will be no undigestion. Relief in five minutes from all stomach misery is at any drug store waiting for you. These large 50-cent cases contain more than sufficient to thoroughly cure almost any case of Dyspepsia, Indigestion or any other stomach disturbance.

CALIFORNIA SIGHT PLACES

IN the Winter season the mind turns to thoughts of California, with its palms and roses and flowers, the joys of the great beaches with their immense hotels. It is a land that every one must visit once, and a land that, once visited, is never forgotten, but oft returned to. The old missions, the famous orchard farm, the great Yosemite, the wonderful island of Catalina, the beautiful village of Paso Robles with its mud baths and its wonderful curative Springs of Lythia and Sulphur, one of the world's great health resorts—all these are but a few of California's winter attractions. Shake off the oppression of the long, dreary days of winter, and visit the land of sunshine. The palatial "Shasta Limited," fastest, finest of western trains, will carry you to California in comfort, and at reasonable rates. ROUND-TRIP RATES to Los Angeles, \$66.20 for six months—From Seattle, \$66.20. From Tacoma, \$63.70. From South Aberdeen, \$63.90. From Hingham, \$63.90. From Chehalis, \$60.60. From Centralia, \$60.80.

TRAIL SMELTER BREAKS RECORD

Over 400,000 Tons of Ore Was Treated at Plant to Date This Year

Nelson, Nov. 24.—After some two years of hard plying and the exercise of a stubborn and progressive spirit on the part of the Molybdenum company which was formed at Molybdenum to develop the property, the Aurora Mines now promises to be one of the heaviest shippers of silver-lead ore. Under the management of H. H. Dunsmuir, who is himself heavily interested in the property, the Aurora has been making rapid strides, there being now over 20 men on the pay roll, a great many of whom are breaking ore, which is being silver-lead concentrate. The put through the Alice concentrator. The trail smelter, while the zinc concentrates will be shipped to the Mineral Point Zinc Company, Depue, Ill. The upper tunnel of the mine has been driven 600 feet, and a good "beat" of stopping cross-section has shown up in that level. It is estimated, about 12,000 tons of ore. Two hundred feet of a tunnel has been driven lower down, and when this is completed it will tap the immense body of ore in No. 2 tunnel at a depth of about 150 feet, and will tend to bring the cost of milling down to a minimum. The Aurora made its first shipment of concentrates, except for trial shipments last year, last week, to the Consolidated Mining & Smelting Company's smelter at Trail has treated to date this year, according to the ore returns for the week, just to hand, over 400,000 tons of ore. The exact figures are 403,320 tons. Last year, at approximately the same date, 255,654 tons had been treated, so that at present the smelter is 147,666 tons ahead of its last year's record. Last year was the banner year of the smelter, in tonnage, for year by year there has been heavy increase in the tonnage.

RHODES SCHOLARS WHO MADE GOOD

Seven Canadians Distinguished Themselves During the Year 1909-1910

The annual statement of the Rhodes scholarships for 1909-1910 is issued, showing that the number of students at Oxford under the Rhodes bequest during the year was 74, of whom 75 were from the colonies of the empire, 82 from the United States and 12 from Germany. The scholars were distributed among the colleges as follows: Balliol, 15; Exeter, 7; Christ Church, Merton and St. John's, 12 each; New College, Queen's and Wadham, 11 each; Hertford, Worcester and C. A. Adamson, Alberta and Saskatchewan, 10 (Merton); W. K. Fraser, Ontario, 10 (Balliol). Final honors, third degree, 4 kw kvyy Final honors, third class, Jurisprudence, F. E. Hawkins, Quebec, 1908 (Balliol). Diplomas—Economics, J. A. Estey, Nova Scotia, 1907 (Queen's), with distinction; in anthropology, C. M. Barbeau, Quebec, 1907 (Oriel). In the course of the year the following Canadians received 3 degrees for 3 years: They had qualified: B. S., C. M. Barbeau, B. A., J. A. Estey, W. K. Fraser, N. S. Macdonnell. These Canadians represented Oxford against Cambridge in lacrosse, N. S. Macdonnell, C. Adamson, in boxing C. A. Adamson represented Oxford against Cambridge.

ARE RUEF'S FIGHT

Judgment of Superior Court Affirmed—Will Appeal to Higher Tribunal. San Francisco, Cal., Nov. 25.—The court of appeals has affirmed the judgment of the superior court whereby Abraham Ruef, the former political boss, was convicted of bribery and sentenced to serve 14 years' imprisonment. The decision was made after the court had read a record consisting of 24 bound volumes of 2,000 pages, said to be the longest ever submitted to an appellate court in this country. In every particular the motions of the defendant's attorneys were overruled. Several of the findings made by Judge Lawlor, who sat as the trial judge, were cited by the appellate justices, but they agreed that none of the alleged lapses vitally affected the rights of the defendant. "In our opinion," says the decision on the appeal, "the evidence not only supports the verdict of the jury, but no other verdict could reasonably be justified." The charge of misconduct brought against Judge Lawlor by the defense, was dismissed with the comment that, while the propriety of a court inquiring in reflections on an attorney or questioning the credibility of a witness might be questioned, no misconduct had been proved. Much of the record submitted by Ruef's attorney was devoted to a charge that Lawlor was guilty of misconduct in refusing to discharge the jury after Assistant District Attorney Hensy was shot, during the progress of the trial by Morris Haas, who subsequently committed suicide in jail. The decision held that since the lower courts had specifically instructed the jurors to disregard anything, the knowledge of which they had acquired after being sworn in, no error was committed by the defendant had been violated. Ruef's attorney will be allowed forty days in which to prepare an appeal in the supreme court.

DEEPENING OF FRASER RIVER.

New Westminster, Nov. 24.—At a meeting attended by representatives from Vancouver, South Vancouver, Eburne and New Westminster and from many of the manufacturing concerns on the south arm of the Fraser river, it was unanimously decided to place strongly before the Dominion government the advisability of improving the Fraser river and making the north arm navigable. One million and a half dollars, was the amount which W. H. Higgins, of Eburne, estimated would be required to provide a uniform depth of fifteen feet in the north arm. Men representing the Canada Western Lumber Company, the Small & Bucklin Lumber Company and the Brunette Saw-

WE'VE NEVER Depended on E cut price sales to make a success of our business. That's a game that may work I some people but it's only when they buy.
