TREATY WITH HUNGARY SIGNED TO-DAY

Pays Tribute to Heroic Deeds of Canadian Troops

M. Paul Painleve, Former Premier of France, Leaves Message for Canadians on His Departure From Western Outpost on Scientific Mission to China.

"Before leaving the shores of Canada for China I would like to tell the people of this wonderful country of the great pleasure it gives me to be able to pass through your magnificent western cities and at the same time express my gratitude for the warm reception accorded to the members of this mission since we touched the soil of Canada."

"I would also like to express my pleasure at being in a position to pass through British Columbia and its charming capital, and deeply regret that my stay here is of but a few hours."

"The name of Victoria brings back to me memories of the terrible war from which we have victoriously emerged and takes me back to the time when I personally saw the first divisions of Canada's magnificent soldiers at Arras. Ah, those Canadians who voluntarily left their homes to aid France in her darkest hour. I myself can bear witness to the bravery and heroic deeds performed by the Canadian troops on the blood-stained battlefields of Flanders."

It was the reply of Mons. Paul Painleve, former Premier of France, and head of the scientific and technical mission to the Chinese Republic, when asked if he had a message for the people of Canada before sailing on his mission to the Far East.

M. Painleve and his distinguished party left Victoria at 10 o'clock this morning by the liner Empress of Russia for Hongkong en route to Peking.

M. Painleve is a member of the Institute of France, Deputy of Paris, former President of the Council of Ministers, former Minister of War, professor of the University of Paris and president of the Chinese Higher Studies.

The other members of the mission are M. Borel, M. Nadal, Germain Martin, Abel Bonnard and Hain Jou Kia, delegate of the Chinese Government.

Normal School Director. M. Borel is director of the Normal Schools of Paris and was general secretary of the Council of Ministers during the war.

Germain Martin, legislator and professor of law in Paris, was a former collaborator of A. Ribot, former president of the Council of Ministers.

Abel Bonnard is a literary man, poet and distinguished novelist, representing the Ministry of Foreign Affairs.

Founded in March. The Institute of Chinese Higher Studies, of which M. Paul Painleve is the head, was founded in March of this year with the object of developing intellectual relations between France and China.

Its main objects are: To give its co-operation to the Chinese Superior Studies, ancient and modern, in the French universities and especially in the University of Paris; the establishment of Chinese libraries with a special staff of librarians and translators; the creation and maintenance of all French and Chinese organizations intended to enable the

(Concluded on page 4.)

EIGHTY-SEVEN BOLSHEVIKI WERE SHOT BY ENEMIES

Berne, June 4.—(Canadian Associated Press)—The Empire Theatre, Leicester Square, a famous entertainment house, has been privately sold at auction, after a spirited competition, to the Allen Theatre enterprises of Canada. The purchase price is understood to be nearly £500,000. The Allen will transform the place into a super-movie theatre.

Magistrate Dismisses Lottery Information Laid Against Daily Newspapers

In the police court today Magistrate Jay delivered judgment dismissing the lottery charges wherein the daily newspapers of Victoria were charged with aiding and abetting a common lottery in contravention of Section 236, Sub-Section A, of the Criminal Code.

Clarence Harris, who laid the information and pressed the charges against the papers, was not present to hear the result. The magistrate dismissed the case first against The Colonist Printing and Publishing Company, and also later against The Times Printing and Publishing Company, while the charge laid against the Imperial Appeal, which was the winner of the McLaughlin Master Six was withdrawn.

In summing up the evidence that had been put forward, Magistrate Jay referred to the famous case in the Imperial Appeal, Court, where Horatio Bottomley had won his appeal against the Crown on a similar issue. Magistrate Jay cited the Section A of the 236 in the Criminal code which declares an offence for a person who makes, prints, advertises or publishes, or causes or procures to be made, printed, advertised or published any proposal, scheme or plan for the alleged lottery scheme. Bottomley was held not guilty of any offence under the Criminal Code for his publication, which was little different to this case. There is no evidence of any advertisement, or any proposal or plan, and I dismiss the charge.

H. B. Robertson defended the newspapers and the case of The Times was held by Mr. Harrison to be analogous, and was dismissed forthwith.

MANITOBA WIRELESS PICKS UP MESSAGE FROM MEXICO CITY

Winnipeg, June 4.—A long distance record for the Manitoba wireless plant was established at a meeting in Mekslenburg, the Conservatives, when they could no longer sustain the debate, threatened their opponents with revolvers, and their supporters escaped being killed only by the intervention of the Minority Socialist, according to a dispatch to the Exchange Telegraph Company.

FRENCH IN BEIRUT REGION ARRANGE AN ARMISTICE

Paris, June 4.—An armistice convention with Mustapha Kemal Pasha, chief of Turkish Nationalist forces in Asia Minor, has been signed at Beirut by Baron Robert de Caix, secretary-general of the French High Commission there, says the political editor of The Echo de Paris. This step, which was taken five days ago, is said to have been necessary because the French are compelled to re-group too widely scattered forces in Syria.

Gen. Townshend Advises Canada to Create Fleet

Toronto, June 4.—Maj.-General Sir Charles Townshend, the hero of Kut-el-Amara, addressing the Dominion Council of the Navy League of Canada at its annual meeting here yesterday afternoon, expressed the opinion that Canada should have her own fleet of ships as an instrument of self-protection and an aid to the Empire in time of war. "If you had started twenty years ago," he said, "you would have had a respectable navy to-day."

Sir Charles referred to Admiral Lord Jellicoe's report on the matter of a Canadian navy and he said that Canada should have a navy of her own. "The whole crux of the situation in Canada to-day is that she should create a fleet of her own," he said.

EMPIRE THEATRE IN LONDON BOUGHT BY ALLEN INTERESTS

London, June 4.—(Canadian Associated Press)—The Empire Theatre, Leicester Square, a famous entertainment house, has been privately sold at auction, after a spirited competition, to the Allen Theatre enterprises of Canada. The purchase price is understood to be nearly £500,000. The Allen will transform the place into a super-movie theatre.

ABOUT TO BE MADE MARSHAL OF FRANCE; GEN. DE CASTELNAU

Paris, June 4.—General Edouard de Castelnau, former Chief of Staff and commander of French armies in France and Belgium, and General Louis Lyautey, former Minister of War, will be named Marshals of France by Premier Millerand on July 14, says The Matin, which adds that this action will be taken on the initiative of President Deschanel.

STATES VETERANS INSIST ON ELECTION

Willing, Secretary of Imperial Veterans, Returns to Manitoba From Ottawa

Ottawa, June 4.—H. B. Willing, Dominion secretary-treasurer of the Imperial Veterans in Canada, and also secretary-treasurer of the Manitoba command, left Ottawa this morning for the West, having been here several days for the purpose of giving evidence before the Pensions and Re-establishment Committee of the House.

"I am going home," said Mr. Willing, "disgusted with the Government. I came down here in the spirit and belief that the Government was willing to do what the returned man wanted it to do. I am leaving with the idea that the Government is in question before which I gave evidence, was appointed merely to deal with quibbles and to support those policies which the Government already had decided upon."

"I found that the committee did not want to discuss broad issues. When things were said they did not like, they tried to bring the discussion to matters of minor detail and so obscure the issues that the whole thing was in the line of petty quibbling."

"I am to address a mass meeting of veterans in Prince Albert in a few days. A great meeting has been called in Winnipeg and I expect to speak at it too, and tell the veterans what I have found to be the spirit in Ottawa."

He also mentioned the fact that he had been asked to give evidence before the committee in connection with the proposed tariff on wool.

FUR COMMISSIONER

Winnipeg, June 4.—Angus Brabant, it has been announced by the Hudson's Bay Company, has been appointed Fur Trade Commissioner for the company, with headquarters in Winnipeg. He will succeed James Thompson, who is retiring. Mr. Brabant has been in the service of the company for thirty-five years.

MANUFACTURERS TO DEBATE TARIFF

Discussion at Convention on Coast Foreshadowed; Farmers' Views Heard

Vancouver, June 4.—A special dispatch to The Sun from Calgary says: "Judging by the lectures which members of the Canadian Manufacturers' Association, en route West to the annual convention in Vancouver and Victoria, have been getting in prairie cities, a topic of burning interest at the yearly meeting will be the tariff. Ever since entering Alberta, the delegates aboard the special train have had the grievances of the farmers respecting the tariff dinned into their ears. These complaints reached a climax in a speech made to the delegates at the Grand Theatre here on Thursday by R. B. Bennett, K.C., former Conservative M. P. for Calgary."

"Mr. Bennett said flatly that when the manufacturers collected duty, plus freight, on their products sold in the West they were performing practically an unprofitable act."

The speaker likewise declared that the manufacturers never would get cheap labor until an era of cheap commodities arrived, and that cheap commodities would not come until the great necessity of life, wheat, was cheaper.

"Go back to your factories," said Mr. Bennett. "Help the farmer to get cheaper machinery, cheaper implements with which to produce cheaper wheat."

"Outside of this, the speaker's remarks were largely complimentary to the work of the manufacturers."

"Mr. Bennett's speech emphasized views put forward at Lethbridge by G. R. Macnech, president of the Lethbridge Board of Trade, who told the manufacturers that it would be a great mistake if they should leave the West without realizing that the farmers, who considered themselves efficient, had a grievance when they looked on efficient manufacturers protected behind a tariff wall, while the farmers had to compete in free markets."

"An evidence of the open-mindedness of the Eastern visitors on this subject is the generous applause they have given to all such speakers, especially when references have been made to the necessity for a better understanding between the farmers and the manufacturers."

STATES VETERANS INSIST ON ELECTION

Willing, Secretary of Imperial Veterans, Returns to Manitoba From Ottawa

Ottawa, June 4.—H. B. Willing, Dominion secretary-treasurer of the Imperial Veterans in Canada, and also secretary-treasurer of the Manitoba command, left Ottawa this morning for the West, having been here several days for the purpose of giving evidence before the Pensions and Re-establishment Committee of the House.

"I am going home," said Mr. Willing, "disgusted with the Government. I came down here in the spirit and belief that the Government was willing to do what the returned man wanted it to do. I am leaving with the idea that the Government is in question before which I gave evidence, was appointed merely to deal with quibbles and to support those policies which the Government already had decided upon."

"I found that the committee did not want to discuss broad issues. When things were said they did not like, they tried to bring the discussion to matters of minor detail and so obscure the issues that the whole thing was in the line of petty quibbling."

"I am to address a mass meeting of veterans in Prince Albert in a few days. A great meeting has been called in Winnipeg and I expect to speak at it too, and tell the veterans what I have found to be the spirit in Ottawa."

He also mentioned the fact that he had been asked to give evidence before the committee in connection with the proposed tariff on wool.

F. L. POLK RESIGNS GOVERNMENT POST IN UNITED STATES

Washington, June 4.—Frank L. Polk today resigned as Under-Secretary of State and his resignation was accepted by President Wilson.

NEW CO-OPERATIVE PLAN FOR POTATOES

Minister of Agriculture Hopes to Benefit Farmers and Consumers

Kelowna, June 4.—The Government's policy with regard to checking profiteering on potatoes was outlined by Hon. E. D. Barrow, Minister of Agriculture, at a picnic at Armstrong, at which the residents of that place entertained farmers on their way to the farmers' convention here.

Mr. Barrow declared there would be put into effect a system whereby the consumers and producers would be saved from the huge expenses tacked on to the price of "spuds" owing to present day gambling in that commodity.

The white man, he said, was prepared apparently to allow the Chinese to control the potato market.

It was Mr. Barrow's plan that such a co-operative system would be worked out by the producer and get a fair price for his crop and the difference, which this season ranged between \$73 a ton in the field and \$125 a ton to the consumer, would be cut out.

It also was urged that the Federal Department of Agriculture should not hand out grants until it knew how they were to be spent, and a limit should be placed on things for which they should be spent.

Ten Policemen Drive Off Armed Sinn Fein Band

Cappaghwhite, Munster, Ireland, June 4.—A large number of men armed with bombs and rifles attacked the police barracks here this morning. The police garrison, consisting of two sergeants and eight constables, repelled with similar weapons from the roof.

The courthouse adjoining was set on fire and a fierce battle followed. The raiders finally withdrew.

The bomb explosions were heard in Tipperary, seven miles south of here, from which place police hurried. The reinforcements encountered some of the raiders on the way. The latter were pursued and several were arrested. Sergeant Sullivan was slightly wounded.

Belfast, Ireland, June 4.—As a result of a county and district council

Hungarian Pact Is Signed By Delegates Ahead of Time Set

Ceremony Witnessed Five Minutes Before the Hour Appointed; Britain Represented by Derby, Ambassador to France; King of Greece a Spectator.

Versailles, June 4.—(Associated Press)—The treaty of peace with Hungary was signed in the Grand Trianon Palace here at 4.25 o'clock this afternoon.

It was the first of the treaties framed by the Peace Conference to be signed ahead of time, being signed five minutes before the hour appointed.

Premier Millerand of France, one of the earliest arrivals, was followed shortly by Hugh C. Wallace, the American Ambassador. Mr. Wallace sat at M. Millerand's right, while the Earl of Derby, the British Ambassador to France, sat on his left. King Alexander of Greece, one of the most interested spectators, remained standing.

The Hungarians, delegates arrived at 4.23 o'clock. As soon as they were seated, Premier Millerand arose and said simply that the treaty presented was a copy guaranteed to be the same as the copy given the Hungarian delegation. He then invited the Hungarians, delegates to step forward and sign.

A dispatch sent from Budapest yesterday said that to-day, the date of the signing of the Hungarian peace treaty at Versailles, would be observed as a day of mourning in Hungary.

1,000,000 BAGS OF SUGAR ARRIVE AT SAN FRANCISCO

San Francisco, June 4.—Within the week, 1,000,000 bags of sugar of the Matson Navigation Company have brought 41,000 tons of sugar to this port from the Hawaiian Islands, officials of the company estimated to-day.

Approximately 1,000,000 bags from all sources have been discharged here during the week, it was announced. This included shipments from Java and the Philippine Islands.

SHORTAGE OF COWS MAY BE 100,000

Kelowna, B. C., June 4.—Farmers on their way to the farmers' convention here were entertained en route at a picnic given by the residents of Armstrong. Speeches by Hon. E. D. Barrow, Minister of Agriculture; Dr. K. C. Macdonald, M.P.P. for the district; G. H. Fulton, a farming expert employed by the C. P. R. in Alberta, and representatives of the agricultural department of the University of British Columbia were delivered.

Some idea of the importance of the Province of British Columbia in world markets, so far as the livestock industry is concerned, was gained from remarks made at the meeting by U. Hurford, of the Comox Co-operative Creamery, a Jersey breeder, reported the sale of three females and a pure-bred bull to a concern in Brazil. The cattle will be shipped this week to the Hacienda Arco at Auzco, Brazil. The animals were bought recently by a group of South Americans.

To China. To China, also, British Columbia stock will be shipped shortly, a consignment of pure-bred Ayrshires going to Hongkong and thence inland from the herd of Shannon Brothers, of the Fraser Valley.

Further attempts to buy British Columbia pure breeds are being made by American, Australian and New Zealand breeders.

Some Alarm. While the breeders are delighted to hear of outside money coming in for local pure breeds, they view with alarm the fact that in the older settled districts of British Columbia dairymen are short to-day 50,000 females. While many pure bred cattle and good grades have been shipped from the Province, new cattle have not been brought in to take their place or been produced within the Province.

"We are 50,000 dairy cows short in the older districts alone," said Dairy Commissioner Rive, of Victoria, who is here, "and there are no cows available to-day for the new districts which are being opened up."

That the shortage of dairy animals numbered more than 100,000 was the statement of E. H. Barton, Chilliwack, a noted Jersey breeder.

MANITOBA ELECTION

Winnipeg, June 4.—The Manitoba provincial general election will be held June 29, with nomination day one week earlier. It was officially announced yesterday.

INDIA WILL HAVE BIG WHEAT CROP

1920 Crop Is Estimated at 364,900,000 Bushels by Rome Institute

Washington, June 4.—A dispatch to the Department of Agriculture today from the International Institute of Agriculture, Rome, Italy, said the 1920 production of wheat in British India would be 364,900,000 bushels, or 130.1 per cent. of the 1919 production, and 103.4 per cent. of the five-year average, 1914-1918.

The condition of cereals May 1 was average in Great Britain, Ireland, France, Hungary, Portugal, Egypt and Morocco. There was drought in South Italy and Algeria.

U. S. LEGISLATORS WANT PULPWOOD FOR THEIR COUNTRY

Washington, June 4.—The Underwood resolution requesting the President to appoint a commission to confer with the Canadian Government in regard to the cancellation of certain restrictive orders on the exportation of pulpwood, newsprint and other print paper from Canada to the United States, was passed last night by the House without a record vote.

## A. E. FOREMAN NEW GOOD ROADS LEADER

B. C. Public Works Engineer Elected President of Canada-wide Association

Winnipeg, June 4.—A. E. Foreman, Chief Engineer of the Department of Public Works of British Columbia, was elected president of the Good Roads Association at its annual meeting in the Royal Alexandra Hotel here last night.

The other offices were filled as follows: First vice-president, Dr. E. M. Desaulniers, M.P.P., Montreal; second vice-president, Hon. S. J. Latta, Minister of Highways, Saskatchewan; Advisory committee, U. H. Dandurand, Montreal; W. A. Maclean, Toronto; B. Michaud, Quebec; Duchastel de Montroque, Outremont, Que.; S. L. Squire, Toronto; A. F. Maccallum, Ottawa.

Directors—J. R. Douglas, president of the Montreal Automobile Club of Canada; L. J. Tarte, Montreal; Hon. F. Carrell, Quebec; Mayor Gale, Vancouver; S. R. Henderson, Winnipeg; Captain Lucius Allen, Ontario; G. Fred Pearson, Toronto; H. S. Carpenter, Department of Highways, Saskatchewan; A. M. Rankin, M.P.P., Ontario; T. P. Regan, H. H. Shaw, Prince Edward Island; L. C. Charlesworth, Deputy Minister of Public Works, Alberta, and the presidents of Provincial Automobile Associations.

National Highway. The question of the Canadian Highway came up in the form of a recommendation of the resolutions committee that the Association urge upon the Dominion Government and the Provincial Governments co-operative action to bring about an early planning and a statement of the building of necessary roads in the various provinces for the development of the rural districts. Advocates of the proposal urged that the making of a plan would not entail any great expenditure and that it would give the province some outline to work upon.

Dr. S. J. Latta pointed out that the Federal Government, in connection with the recent grant, was arranging that the highways of the provinces in the West should connect up with each other.

### TO INCREASE SALARIES.

Washington, June 3.—The postal pay increase bill was passed today by the House by the unanimous vote of the 343 members present.

### SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Attractiveness

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, at a small cost. Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

## COMPANIES WANT OIL IN VENEZUELA

Caracas, Venezuela, June 3.—Much interest is being evinced here in petroleum concessions in Venezuela. Representatives of the Standard Oil Company, Gulf Refining Company, Sun Oil Company, Sinclair Oil and Refining Company, Maracaibo Fuel Company and the British-controlled Oilfields, Limited, Leonard Exploration and Trinidadian Companies are in Caracas. There is active competition for new concessions and many of these are before Congress for consideration.

The Government is seeking to forfeit concessions of several British companies holding oil concessions on nearly 10,000,000 acres in the states of Zulua and Falcon, for which they are paying the Government less than \$800 annually. Suit has already been begun in the high federal court against the Colon Development Company, Ltd., which holds a fifty-year concession on the entire Colon district of the state of Zulua, or about 5,000,000 acres. The Government is seeking annulment of the concession on the ground that but 2,000 acres have been occupied in the thirteen years the concession has been in force, with nothing in operation. The Government also alleges that the company has not complied with its contract obligation to pay the Government sixteen cents an acre on land of the concession. The company is controlled by the Royal Dutch and Shell interests.

## PLAY AT DUNCAN A GREAT SUCCESS

Amateur Performance Best Ever Put on There; Other News Items

Duncan, June 4.—Two performances of "Lady Huntworth's Experiment" given in aid of the funds of the Cowichan Agricultural Society under the management of W. F. Colfer were pronounced to be the best that Duncan has seen. The acting of each member of the cast was a finished artistic effort.

Mrs. H. C. Martin, as Lady Huntworth, divorced from her husband, and finding refuge in the vicar's family as cook, offered a graceful and natural piece of acting. Miss Bobbie Stephens, as Slavery, was realistic. Mrs. Saxton White, as a charming young girl, L. W. Huntington as a curate, and Mr. Condy as a butler, were very convincing. Mrs. Henderson, as the dignified sister of the vicar, looked and acted the part. To be the intoxicated villain of the play (Lord Huntworth) and to act the part without being vulgar was an effort achieved by Mr. Henslowe. The sentimental part, always so difficult for a man, was rather overcome by lacking in enthusiasm as performed by Godfrey Stephens.

The vicar, L. H. Garnett, left nothing to be desired. W. Colfer reserves the highest praise for his splendid success as an amateur stage manager. He and his cast would rank among the professionals.

Mr. Scholey, Mrs. Hogan, Mrs. Lipscombe and Mrs. Marlowe painted the scenery for the first two acts, which lent a charming background. Messrs. C. C. Ward and G. G. Sheehan, and Mrs. Aldersey, Messrs. Monk Saxton White, L. A. S. Cole, Sidney Wright and Major Williams-Freeman were among the helpers behind the scenes.

Music was supplied by Miss Monk and Mr. James Burchett. At the dance following the performance the Robinson orchestra played.

H. J. Ruscombe Poole, vice-president of the Cowichan Agricultural Society, thanked Mr. Colfer and the performers, and explained the great assistance, both moral and financial, that the society would derive from such help as this.

To Give Recital. The Boy Scouts' Association have been able to secure the help of Mrs. MacDonald Fahey, who will give a recital in aid of Scout funds on June 17. The Scouts will sell tickets for this event. The artists are giving most generous terms to the Scouts' Association, and it is hoped that a crowded house will show its appreciation.

To Give Play. Miss Denny, captain of the Cowichan Girl Guides, is arranging a play, "The Pied Piper of Hamelin," to be put on by the Guides about the end of June. Funds are needed for extra camping expenses, and also for adjuncts to the girls' uniforms.

To Go to England. Mrs. Ruscombe Poole will leave shortly for a few months' visit to England.

Manages Plantation. Maurice Geoghegan, son of Dr. C. E. Geoghegan, of Cowichan, is now acting manager of a cotton and rubber plantation in Lower Perak, near Singapore. Seven hundred coolies are under his charge, and seven or eight native overseers.

It is only two or three years since Mr. Geoghegan left Cowichan.

Funeral. The remains of the late Major James Mitchell Mutter were laid to rest Wednesday afternoon in Someros Churchyard. The services at the church were conducted by Canon Leakey, of Ladysmith, an old friend and comrade of the deceased, and at the graveside the Rev. A. F. Munro took charge.

The pallbearers were F. Leather, G. Corfield, A. R. Wilson, G. H. Hadwen, P. Johnston and A. T. Monteith.

There was a very large attendance and very many beautiful floral tributes from friends in various parts of the island to the casket, in which the late Major Mutter was held.

DESTROYER BROKE PURCHASED BY CHILE. London, June 4.—It is announced that the Chilean Government has purchased the British torpedo destroyer Broke.

CLIFTON CRAWFORD KILLED IN LONDON. London, June 4.—Clifton Crawford, an internationally known actor, was found dead yesterday in an arway of the hotel at which he was stopping, having fallen five stories from the window of his room.

J. E. PAINTER & SON 617 Cormorant Street

## BUDAPEST A CITY OF TERRORS NOW

Budapest, June 3.—Via London, June 4.—With twelve army officers in hospitals in consequence of having been pricked with poison needles, and a number dead, it is believed that Bolsheviks are attempting to create new disorders during the period of uneasiness attendant upon the signing of the peace treaty.

The city is filled with terror at these outrages, which are committed at night when officers are going about on duty, and particularly when they are in crowds. There are few people about the streets now, the cautious ones staying within doors.

Order is being kept by mounted police and squads of soldiers armed with hand grenades, pistols and rifles with fixed bayonets.

There was a report that a window in the office of the American High Commissioner had been smashed, but this is not true, and members of the Peasant's Internationale, composed of Czechs and Austrians, cheered before the American office.

## AUSTRIAN OFFICERS IN A BIG PLOT

Vienna, June 3.—Via London, June 4.—The Austrian Government has asked the Hungarian Government for an immediate explanation of a monarchist plot which has been discovered in development on the Hungarian side of the Eastern frontier. It is regarded as the most serious plot yet uncovered.

Chancellor Renner sent for the Hungarian Minister, and said he had proof that under Hungarian auspices more than 1,000 former Austrian officers had been found organized on the Hungarian frontier, and that they planned to cross the Austrian frontier, seize the Southern railway and attempt to establish a monarchy. Ten million crowns already had been expended.

The reply of the Hungarian Government is awaited with anxiety as it is believed the plot threatens peaceful relations between the two countries.

## GASOLINE RATIONED IN SEATTLE NOW

Seattle, June 4.—Seattle is now on a strict gasoline rationing basis enforced by all three oil companies represented here, and in addition the Standard Oil Company has given a long list of places at which, it is said, motorists going from Seattle before June 17 or 18 may be marooned through lack of gasoline to bring their cars back. The list includes Everett, Mount Vernon, Bellingham, Anacortes, Monroe, Arlington, Sedro-Wooley, Blaine, La Conner, Port Angeles and Port Townsend.

Statements issued by all three companies yesterday indicated that the entire State of Washington is facing the most critical gasoline shortage in history, and that the number of communities now without a drop of the motor fluid may be greatly increased before relief comes.

## CHINAMAN MURDERED IN TERMINAL CITY

Vancouver, June 4.—Police officials are investigating a mysterious murder which was uncovered yesterday afternoon when the body of Gow Tan, an Oriental, was found in his store with two gaping wounds in the forehead.

The axe with which the deed had evidently been committed had been carefully cleaned and a clean white cloth had been placed around the dead man's forehead, below the wounds.

Although Tan's watch and chain had been taken, no goods were removed from the store. Cash in the drawer was also intact.

## JOHNSON, IN FIELD IN STATES, OPPOSES THE WORLD LEAGUE

Chicago, June 4.—Senator Johnson of California marked his arrival on the Republican convention battleground here yesterday with a prompt and emphatic declaration that he would demand an unequivocal plank in the Republican platform against the League of Nations.

"My paramount purpose," said Senator Johnson, "is to have the Republican Party fearlessly and frankly take its stand on the all-important question of the League of Nations for and against the present covenant. I and the Republican Party in 1920 to be the party for the protection of American independence, just as in 1860 it was the party for the protection and independence of human freedom."

"The plank on the League which I wish to have adopted should be one so clear and explicit that it would require neither explanation nor interpretation."

GREAT BRITAIN HAS BIG NEW AIRSHIP

Barrow, Eng., June 4.—Airship R-50, built here for the Admiralty, will be launched in two weeks. She embodies the latest improvements in aircraft designs, and it is stated that she could fly across the Atlantic with ease. The vessel is 535 feet in length and 70 feet wide. Her lifting power is 38 tons. Four engines, each of 240 horse-power, will give her a maximum speed of 85 miles an hour. She will carry a crew of fifteen.

WOULD MEAN WAR. Washington, June 4.—Samuel Gompers, president of the American Federation of Labor, declared in a formal statement yesterday that a war

between the United States and Mexico would result if the recommendations of the Senate committee which is investigating Mexican affairs were carried out.

GERMAN WRITER IN PARIS. Paris, June 4.—Dr. Alexander Riddick, chief political writer of the Berliner Vossische Zeitung, and the first German newspaperman to come to Paris since the war, has been offered facilities for observing the situation in France.

BACK TO SENATE. Washington, June 3.—Return of the proposed treaty with Colombia to the Senate for final action was recommended to-day to the Senate Foreign Relations Committee by the subcommittee to draft an amendment to the document.

JUST SEE HOW POSLAM HELPS SKIN OVERNIGHT

Poslam soothes, refreshes and heals suffering skin, with never a possibility of harm. A brief experience with Poslam will prove its value. For instance, apply a little on some affected part at night. In the morning your own eyes find evidence of its healing work. If the trouble was slight—a pimple or inflamed spot—the chances are that it has disappeared. If a virulent eruptive disorder, it should be subdued, so much so that you will want Poslam to keep right on.

Sold everywhere. For free sample write to Emergency Laboratories, 243 West 47th St., New York City.

Poslam Soap is a daily treat to tender skin. Contains Poslam.

### IRISH POLICE AS SUBJECT OF DEBATE

Progress Made With Home Rule Bill in British Commons

London, June 4.—The Commons last evening discussed the status of the Irish police under the Home Rule Bill, and the fact that neither the Laborites, the Nationalists, nor the supporters of Asquith are effectually participating in the debate did not prevent occasional warm passages.

The absence of criticism from the Opposition benches, however, is speeding the progress of the bill.

The Government finally accepted an amendment providing that if an attempt were made to use the bill to establish an Irish republic, the bill would be suspended and the Imperial Parliament would take the steps necessary to restore law and order. He also warmly repudiated a member's suggestion that the Irish police were not allowed to shoot in self-defence. There was no foundation for such suspicion. On the contrary, the police had shot with good effect, and he hoped would shoot again if occasion required.

Earlier in the day the Irish Secretary, Sir Hamar Greenwood, said he would consider sympathetically the suggestion of a medal for the Irish constabulary.

During the course of the discussion, Mr. Long declared that if an attempt were made to use the bill to establish an Irish republic, the bill would be suspended and the Imperial Parliament would take the steps necessary to restore law and order.

### GREAT BATTLESHIP TENNESSEE LAUNCHED IN UNITED STATES

New York, June 3.—The super-dreadnaught Tennessee, the largest and most formidable battleship afloat, goes into commission to-day at the Brooklyn Navy Yard. Formal ceremonies were set for 2.30 o'clock. Constructed here at a cost of \$20,000,000, she represents the last word in battleship architecture. She is 625 feet long and has a beam of 98 feet and a displacement of 32,500 tons.

### FEWER ARE HELD IN PENITENTIARY

115 in New Westminster Prison Now; Eastern Penitentiaries Increase

Vancouver, June 4.—The gratifying announcement that the occupants of the New Westminster penitentiary have dropped in number from an average of 400 to an average of 115 was made yesterday by Inspector Gilbert Smith, of Ottawa, who came here after a visit to the New Westminster institution in his official capacity as Inspector of Penitentiaries for Canada.

"What is the reason for the reduction in crime?" "I hear it attributed to prohibition," replied the officer, with the suspicion of a twinkle in his eye. "All four Western penitentiaries show a marked reduction in their inmates. In fact I expect to see the Edmonton penitentiary closed soon after my return to Ottawa, and the inmates, who are now reduced to 120, divided between Prince Albert and Stony Mountain."

In the East. "How about the Eastern penitentiaries? Do they show a similar falling off since prohibition came into force?" "No," replied Inspector Smith. "They show a very great increase. Kingston penitentiary has increased from 330 to 620, and I hear prohibition is quoted in the East for the increase in the number of prisoners, just as prohibition is cited in the West as the reason for the decrease out here."

### EASIER PRICES ARE EXPECTED IN PARIS

Paris, June 4.—Newspapers of this city have begun a campaign intended to compel holders of stocks of food and other necessities to unload, and it is stated that results have already been obtained.

A radical drop in prices is not expected by students of the situation, but the opinion is general that retail prices must become easier in the face of the decrease in the cost of raw materials.

### TREES FOR PRAIRIES TO PROTECT GRAIN

Ottawa, June 4.—Trees for the prairies for the purpose of protecting the standing grain crops is the latest important step to be undertaken by the Canadian Forestry Association. In connection with the project, a special exhibition car will leave here soon on a trip across the prairies during which a series of lectures on tree planting will be delivered by Archibald Miller, of Alberta.

### ALBERTA RIDING ELECTS LIBERAL M.P.P.

Athabasca, Alta., June 4.—George Mills, Liberal, was elected to the Legislature of Alberta yesterday to fill the vacancy caused by the death of Hon. A. G. McKay, defeating J. K. Cornwall by an overwhelming vote. Cornwall probably will lose his deposit.

### DEEPER SYMPATHY BETWEEN NATIONS

Rev. Dr. Chown Expresses Hope For Closer Canada-U. S. Co-operation

Washington, June 4.—The hope that Canada and the United States will be drawn into deeper sympathy and closer co-operation "for the future safety of the world" was expressed by Rev. Dr. Samuel D. Chown, General Superintendent of the Methodist Church in Canada, at a convention held at the American University here yesterday.

There had been reports of ill-feeling between Canadians and Americans, he said, but the utter absence of preparations on either side of the border line against military or naval attack was, he thought, "a sure sign of the mutual trust which already fills our hearts and inspires our national relations."

Dr. Chown said that Canada's chief duty was to play the role of interpreter between the United States and Great Britain. "We venture to think," he continued, "that 'little Johnny Canuck' understands the psychology of Uncle Sam and John Bull more intimately than either of them understands the other."

Dr. Chown was introduced by William Jennings Bryan, who declared that the United States and Canada remained rivals in honorable efforts to excel. The ideal was one thing that could not be restrained by tariff laws or customs offices, he said.

### WOMEN FROM NORTH, SOUTH, EAST, WEST

Recommend Lydia E. Pinkham's Vegetable Compound as a Reliable Remedy for Woman's Ills

Spokane, Wash.—"I want to recommend Lydia E. Pinkham's Vegetable Compound for women's ailments as it helped me so much during middle age."—Mrs. Martha Connor, 1027 Mansfield Avenue.

Abitene, Texas.—"For almost a year I was unfit to do my work as I suffered so from female ill. Lydia E. Pinkham's Vegetable Compound restored my health after physicians had failed."—Mrs. E. E. Owens.

Rockville, Conn.—"I suffered so long from female ill I was blue and melancholy. Lydia E. Pinkham's Vegetable Compound restored my health after everything else had failed."—Mary Wirz, 3 Chamberlain St.

Oakland, Cal.—"Lydia E. Pinkham's Vegetable Compound gave me such relief during Change of Life. I wish every woman could know about it. I surely praise this great remedy for women's ill."—Mrs. Mary S. Ashley, 379 Dwyer Street.

The reason Lydia E. Pinkham's Vegetable Compound is so successful is because it contains the curative, strengthening properties of good old fashioned roots and herbs, which act directly on the female organism.

CANADA'S TRADE.

The new taxation set forth in the budget speech at Ottawa engaged the public mind to such an extent that very little attention was given to the statistics of the year's trade which the Minister submitted in considerable detail in the same speech. Sir Henry Drayton showed that in the twelve months ending March 31 last the total trade of the Dominion was \$2,351,174,886, which exceeded the aggregate trade of the preceding year by \$165,000,000, but was less than the total of 1918 by more than \$190,000,000.

Canadian exports in 1919-20 were \$1,286,658,000, or \$12,000,000 more than the exports of 1918-19, while the imports were \$1,064,516,000, about \$150,000,000 more than in the preceding year. Hence, we have, on the whole, a favorable balance of exports over imports of approximately \$220,000,000. This favorable margin, however, is accounted for by the excess of our exports to Great Britain over our imports of British goods. In the last twelve months we sold to the Old Country products valued at \$489,151,552 while we purchased British goods to the value of \$126,274,365.

The figures of our trade with the United States, however, tell an altogether different story. In the year ending March last we sold across the line Canadian produce valued at \$464,029,273, but we purchased American goods to the value of \$602,995,532, or almost twice as much as we sold. Indeed, our imports from the republic in that period broke all records, yet during that time the Canadian people were being urged continually to buy less goods from the United States and thus help to rectify the exchange situation. Our total trade with the United States is almost twice as great as our trade with the United Kingdom, the figures being \$1,266,124,726 and \$616,425,917. These proportions, of course, will be altered somewhat as Great Britain's industrial revival proceeds, and if the Canadian Government will restore the British preference to what it was prior to two years ago when protectionist influences forced its reduction to the point of futility.

BOLSHEVIKS ENTER TEHERAN.

While the Executive Council of the League of Nations is considering the date of its conference to deal with Persia's appeal for assistance in repelling the Bolshevik invasion, Lenine's troops have occupied the capital city of Teheran. What effect this extension of the realm of the Soviet will have upon the Council remains to be seen. It goes without saying, however, that the apparent dilatoriness in dealing with what may yet develop into a conflagration of serious proportions is not calculated to inspire faith in the efficacy of machinery upon which the world had hoped it might depend for the prevention of war in the future.

The Near East smoulders with discontent in one form or another and in the event of Persia's compulsory conversion to the doubtful benefits of Bolshevik rule, Great Britain's mandatory authority in Mesopotamia very probably will be tested by the Moscow Government at no distant date. Nor does Lenine show any inclination to limit Bolshevik aggression in Persia as a bait for better terms in such trading relationships as may be established between Britain and Russia as a result of the pourparlers conducted this week by Gregory Krassin and Premier Lloyd George. His policy comprehends the old adage that possession is nine-tenths of the law, and it may soon resolve itself into a question of how much of the shipwreck of European civilization is to be salvaged and preserved against the communists' Utopia.

EMERGENT MEASURES NEEDED.

In his speech before the Canadian Fisheries Convention in Vancouver yesterday the Hon. William Sloan expressed once more his alarm for the future of British Columbia's fishing industry. In his capacity of Provincial Commissioner of Fisheries it has been his privilege to examine conditions as they exist, and it is upon his own observation and the expert advice of Assistant Commissioner Babcock that he is able to speak with conviction and authority. He recently sent a memorandum to the Federal Minister of Marine and Fisheries urging the Dominion Government either to take over the fisheries of this Province or have the constitution amended so as to obtain authority for vesting in the Government of British Columbia such a measure of control and regulation as would safeguard this extremely valuable natural asset for profitable return in our day as well as to preserve it for the benefit of generations to come.

Apart from the high value of salmon as a food product the salmon fishing industry of British Columbia has been an enormous revenue producer, a primary reason in itself why emergent measures should be employed to prevent its complete exhaustion. The alternative proposals suggested by the Commissioner are radical; but the conditions are such as to warrant the adoption of any course which will protect a great public asset. We are living in an age when unusual circumstances dictate exceptional measures. Canada and the Empire have done many things during the last few years the bare proposal of which would have amazed the public a decade ago. Only a short

study of Mr. Sloan's pronouncement is required to convert the most conservative mind to the view that if British Columbia's fishing industry—and particularly its salmon runs—is to be saved from absolute extinction radical measures will have to be employed in the interest of the country.

MORE MEN WANTED.

In an address to the Canadian Club of Vancouver the other day Mr. Richard D. Holt, the well-known British shipowner and executive head of the Blue Funnel line, emphasized one of the difficulties the maritime powers of the world are experiencing in obtaining men to man their ships. He reminded the gathering that it took much less time to build ships than it did to train men to navigate them. And as an instance of vessels lying idle through lack of navigators Mr. Holt said that he had seen ships in harbor in Japan that had not been to sea at all. Apparently what is true there in numerous specific cases applies in the general sense and with equal force to other parts of the world. Here then is the message to the members of the younger generation who are desirous of taking up nautical studies under the aegis of the Boys' Naval Brigade, whose work locally has been eminently successful.

THE FRENCH OBJECTION.

There is much to be said in favor of Premier Millerand's objection to any recognition of the Soviet Government of Russia by either of the Allied nations. But the presence of the French ambassador at the conversations between Gregory Krassin and the British Prime Minister would have committed France to nothing. It would have provided both Mr. Lloyd George and the Russian Bolshevik representative with the French point of view in a purely commercial negotiation whose logical development should be of some assistance to the Entente.

Mr. Lloyd George realizes that the people of Great Britain would not endorse any programme at present involving diplomatic recognition of the Lenine Government. The whole British Empire is watching with not a little apprehension the effect of Bolshevik propaganda in the Near East, and the thinly-veiled threat to British rule in India of which the recent "red" invasion of Persia obviously is a part. Nor must it be forgotten that French and British political considerations in the countries adjacent to the late Czar's empire are entirely different; and if a new trading relationship is established between Great Britain and Russia on the understanding that further Bolshevik interference in the affairs of the Near East is abandoned, surely French uneasiness would disappear with the assurance that the subjects of the smaller nations, now in process of exploitation at the hands of Bolshevik emissaries, would be more free to follow their own peaceful development.

The day of more stable conditions in Russia would not be hastened by closing every door to the influence of trade, without which the masses now in subjection may count upon an indefinite period of dictatorship which eclipses Czarism in its worse form.

NOTE AND COMMENT

Prohibition is declared to be the reason for the marked reduction of the number of inmates of penitentiaries in the West and for the increase in the admissions into similar institutions in the East. The pros and antis thus seem to be even with one another on that argument.

According to The Labor Gazette for April the weekly budget of the average Canadian family consisting of staple foods, rent, fuel and light showed only a tiny gain over the weekly budget in March. We presume the country will feel properly grateful for this small mercy.

The greater part of the world is so busy these days with its many problems of commerce and state, that it seems to be paying but little attention to the war which is raging between Russia and Poland, the latest development of which is a desperate attempt of the Soviet troops to force the Poles out of Kiev which they captured in their recent offensive. Notwithstanding the valor of the Polish troops and the skill of their leaders, they are confronted with a foe who must now be recognized as formidable, not only because of superior numbers but because he is being led by some of the ablest military men in Russia, chief of whom is General Brusiloff, who was commander-in-chief of the Russian armies prior to the revolution.

OTHER NEWSPAPERS' VIEWS

THE VANISHED FARM HAND

What has become of the hopeful proposition to turn the home-coming soldiers into farmers? Mr. Mondell is apparently completely beaten in this field. A marked falling off in the number of available farm workers is reported all over the country. The drafted men from the farms, instead of going back to the farms, appear to be staying in the cities, where they certainly earn more money. Farmers have offered increased wages, but they cannot meet the pay given in other industries. In the New England states the wages offered farm hands will be \$2 a month, with board, as against \$45.50 last year. These are very good wages, but difficulty is experienced in getting men to take them. The farmers are forced by this condition to reduce their acreage, which in turn cuts down production and keeps up the cost of living. Thus the vicious circle keeps turning.

A CANADIAN AMBASSADOR

Relations between the United States and Canada are necessarily rendered difficult because there can be no direct diplomatic intercourse. The representative of the Court of St. James is Canada's only official spokesman at Washington. Canada and the United States have so much in common that this indirect diplomacy has become irksome to both countries. The United States, no less than Canada, would be gratified by a new arrangement which would provide for a Canadian embassy or legation at the American capital and an American diplomat at Ottawa.

MANY REFORMS ARE ADVOCATED

Provincial Governments to look after problems of provincial administration and control. That the Government assume all responsibility in connection with illustration and demonstration work, whether it take place in the field or not. Agricultural education to be based on resolutions made by the faculty of the province. The Provincial Governments to be responsible for all extension work wherever they have adequate district systems. Agricultural colleges to look after teaching, including training of teachers, researchers and members of technical and educational staffs. Research: (A), pure science; (B), applied science. Referring to problems not primarily provincial. Extension: Amount and character of work to be undertaken to be determined by the Provincial Departments of Agriculture.

PAYS TRIBUTE TO HEROIC DEEDS OF CANADIAN TROOPS

Chinese and French to acquire superior French and Chinese instruction; the encouragement and foundation of an "Academy of Chinese Sciences," continuing and improving ancient Chinese academies and the development of the study of Western Sciences in China.

On the eve of his departure M. Painleve gave out the following statement with respect to his mission to China: "The object of this journey," says the President of the Council, "does not date from yesterday. It was not undertaken on a moment's thought. It assisted in March, 1912, with Mr. Anatole France, at a banquet given by the Union Sino-French and the Republican Committee of the Chinese of Europe to their French friends."

"With the flowery eloquence which is customary to him, the eminent author of 'Jerome Colingard' spoke of the 'venerable ancestor' of the people of the earth, this China, which was already learned and polished when barbarians still covered the earth, and which had just freed herself from the ancient bonds of conquest. 'At that time the intellectual Chinese urged me to visit their country, which, in sacrificing nothing of its civilization, has times and times again begun to open its doors to scientific progress and political ideas of the West.'"

"The dictatorship of Huen-Chi-Kai paralyzed momentarily the flight of genius of the young Chinese republicans, but the death of the dictator, however, permitted the democratic movement to develop in an old empire which had immense resources yet unexplored. In our day, the great Chinese cities, open to transactions with Europe and America, adopt themselves wonderfully well to the civilization of the West."

"To the stay-at-home French, China is the charming country of operetta where innumerable men follow, with patient obstination their dreamy way, weaving silken cloth with capricious drawings. Moulding bronze, vases, and gods of mysterious beauty, calm or savage, and adding each century to the wisdom of their ancestors, some new books, written slowly in rare characters, for the thoughts of the sage ought not to be hurried."

"This idea is wrong and out of date. It shows a profound misunderstanding of the Chinese intelligence, active and fertile, of facility of assimilation equal, if not superior, to the Japanese genius, Japan being, in fact, but a very fruitful branch of the Chinese tree of memorial antiquity."

Chinese Idealism. "More meditative and profound, more calm and peaceful than Japan the Chinese have a marked leaning to the most generous and disinterested idealism. One must not forget that the philosophers and the Chinese moralists renounced the first sentence of humane charity and their doctrines, far from remaining dead letters moulded the minds of countless men in gentle, honest ways."

"From the eighteenth century, the works of the Jesuit missionaries revealed to Europe Confucius, and our encyclopedists recognized the surprising conformity of his precepts with that which was to become the principles of the revolution. 'With this humane moral, without mysticism and so nobly unselfish, modern China is still imbued as well as France herself. Also, the young Chinese republicans turn with sympathy towards their elder sisters, the French Republic and the Republic of the United States.'

"Who knows the influence and attraction which Anglo-Saxon America exercises in China. All the great powers, of which the Governments have understood the importance of a peaceful penetration into China, seek to create sympathies and strong supports. 'France would not fail, at the time when China, seeking to modernize herself, calls for intellectual guides and technical counsellors, nothing cloverly to jeopardize the French culture in China, would to-morrow benefit the German Kultur, to our detriment.'

"The French civilization, just as the Greek and Latin civilization, which has modeled it, is one which adapts itself better to the indigenous civilizations, of which it allows the free evolution. The peace of the world has nothing to gain from an Americanized or Anglicanized China, according to the methods exclusively industrial and commercial. Without seeking in the least to offend our friends or allies, to us comes the moral obligation of encouraging and developing the intellectual scientific and technical relations which exist already between China and France. 'My journey has no other aim. I am invited by the President of the Chinese Republic, M. Shu, of whom I will be a personal guest, and I go with the approval and bearing instructions from the French Ministry of foreign affairs. I will do my best in order that the Chinese world, which represents a third of humanity, which has countless richness,

On account of the great shortage of FUEL OIL the majority of Steamships, Factories and Buildings, etc., are changing over to the burning of coal.

This in turn will create a heavy shortage of Coal next Winter. Therefore KIRK'S advice is to

CHASE & SANBORN, MONTREAL

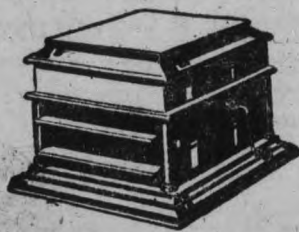

Columbia Double Disc Records for June

- 6145-Molly on the Shore. Piano solo. Percy Grainger. 49596-Dinorah, Maria Barrientros. 2912-Dardanella, Sascha Jacobsen. 2903-Colonel Bogey March. Columbia Band. 2910-Who Wants a Baby. Fox Trot. Saxophone Sextette. 2906-Oriental Stars. One-Step. Princess Band. 6147-In Shadowland. Waltz. Princess Orchestra.

Everybody Needs A Columbia

No single instrument of music combines the versatility of the Grafonola—it will play for you like Ysaye, the wizard of the violin, it will play the piano like Godowsky; it will sing with all the feeling of Graveure, the tenderness of Barrios, the humor of Al. Jolson or Bert Williams—it will play dance music such as you've never heard before; music with a swing and rhythm that is unbelievably grand.

You need a Columbia Grafonola—it awaits you at this store. Prices from

\$37.50

towards France the effective sympathies of the whole of China. "Perhaps I will be able in this way to help towards a better understanding between the two peoples, both in the interests of China herself, as well as in that of the furthering of French culture and intellectual thought."

As Premier of France, M. Painleve also was Minister of War. He placed Foch and Petain at the head of the French armies on May 15, 1917, and called the convention at Rapallo in November, 1917, which took the first steps towards giving Foch command of all the Allied forces. In the Briand Cabinet in 1916, M. Painleve was Minister of Public Instruction, of fine arts and on inventions in the interest of national defence. Among the positions he held during the war were president of the committee on naval affairs, president of the sub-committee on aeronautics, president of the committee on inventions, president of the sub-committee on explosives, president of the inter-committee on the army, navy and foreign affairs.

M. Painleve was born in Paris, December 5, 1863, and first won recognition as an educator. He was a professor in the University of Lille at the age of 23, professor at the Sorbonne at 29 and member of the Academy of Science at 33. Elected to Parliament in 1910, M. Painleve was re-elected in 1919. He served as president of the committee on naval affairs and furthered defence, electoral and public instruction legislation.

TEN POLICEMEN DRIVE OFF ARMED SINN FEIN BAND

(Continued from page 1.)

elections because both counties are included in the Ulster area outlined in the Irish Bill now before the British Parliament. Various election tricks were revived, one woman disguising herself and voting as her own mother. Another woman is said to have voted seven times. The feature of the elections generally in Northern Ireland was the ascendancy gained by the Sinn Feiners over the followers of Redmond.

Barracks Burned. London, June 4.—The police barracks at Blaney, Ireland, were burned Wednesday night, and the sessions courthouse, adjoining, wrecked, the official records and law books being

destroyed, according to a dispatch received here.

Armed men attacked the barracks Tuesday, but were beaten off. The building, however, was so badly damaged by an explosion that it was evacuated, the defenders being transferred to other stations.

Looking For Support. The strike committee in Dublin issued a manifesto to the workers in Great Britain asking them to support the Irish position by refusing to handle munitions destined for Ireland.

"Strip your minds of the religious and political atmosphere of the question," said the manifesto, "and face it in the same light you landed on the shores of France to fight the Prussian there."

Will Keep Order. Premier Lloyd George received a deputation of the National Union of Railwaymen yesterday with reference to the movement of munitions to Ireland, according to The London Times.

The Times says that after the railwaymen put their case before the Prime Minister the latter made a statement declaring that the Government would do all in its power to maintain law and order, and that the railwaymen seemed to be somewhat surprised by the uncompromising nature of the Prime Minister's reply.

Toronto, June 4.—The Toronto Telegram publishes the following dispatch from its Belfast correspondent:

"Boys, don't mind me! Stick to your posts," shouted Sergt. Fitzpatrick of the Royal Irish Constabulary, at Crossgan, twenty miles from Belfast, when he went down with a bullet through his right lung while defending the barracks with five men against an attack by 600 rebels. The attacks lasted two hours, during which the barracks was sprayed with petrol. The police fought stoutly, wounding several raiders, and succeeded in beating them off. The attack on Clare barracks, King's County on Wednesday cost the rebels three killed and several wounded. Hand grenades knocked over several raiders. A man's jaw and a finger, as well as a cap with a bullet through it were found by the military who came to the rescue.

**AMONG BROWN MEN  
AND JUNGLE BEASTS**

G. Carveth Wells, A.M.C.E.,  
Constructed Railway in  
Malaya; Lecturing Here

With a piston and cylinder of horn G. Carveth Wells, civil engineer and explorer, showed The Times man last evening how the Malays make fire by compressed air in the damp jungle of their native haunts when other methods would fail. Mr. Wells, who is now in the city with his wife, on a lecture tour describing conditions in the Federated Malay States, and the states which are not yet federated, but under British protection, told something of life in the jungle. He was engaged in connection with the railway from the F. M. S. into Siam, in the section through Kelantan, part of which is now operating.

Supplementary to the pictures which he shows of animals, scenery, and other phases of life in the country, where he spent six years, much of the time accompanied by his wife, he has a fine collection of curios, beautiful native weavings, native weapons, and utensils at his apartments here.

**A Chastened Python.**  
Snake stories, of course, would fill a volume, and they are such snakes in Malaya as no man would want to meet in a dark night. One python visited his domestic chicken houses through a small hole, selected the white leghorns whose feathers marked them out for choice in the nocturnal air, and after a heavy meal essayed to get out. However, the python was swollen too large now for the exit, and could not return, so he slept in a corner of the pen. Next day he died the death of the unrighteous, and his skin was preserved to tell the tale. Pythons, troublesome as they are, Mr. Wells states, are nothing like so dangerous as the hamadryad, and many small varieties of reptiles who have a nasty habit of selecting a bathroom for their periods of repose, and waking up at unseemly hours.

**Man-Eating Tigers.**  
The tiger is hunted extensively, Mr. Wells says, the man eaters particularly having a bad custom of depleting the population. He says the man eaters are nearly all tigers who have been injured in some way, and can no longer take their natural game. Hence the natives dread to injure a tiger, lest his disposition be turned from game to human food.

More ferocious than the tiger, great as is his strength, Mr. Wells states is the black panther, whose habits are no unlike the Vancouver Island cougar, though he is more vindictive, and attacks from above without warning.

The noxious exhalations from the upas tree and other poisonous plants are no travellers' tale, Mr. Wells says, the upas giving out pollen dust which causes blistering from a distance, and death on contact. The natives on survey insisted on felling trees on the route to the upas tree, and then make a fire to destroy it utterly before they would proceed.

**A Land of Buddhism.**  
From Moslem Malaya Mr. Wells says in the northern area adjacent to Siam one passes into another world where the Buddhist monasteries remain, their holy men engaged in strange speculation and reflection, possessing from a life of seclusion a wonderful capacity to judge character by inspection. They have, he says, an almost superhuman ability to separate the honest from the dishonest—the crafty from the straightforward. Singularly enough he found the priests' estimates of character seldom far wrong.

In the non-federated states the British residents have a pleasant task sometimes, he says, of playing the Kingmaker. Three suitors had been poisoned in one petty court he visited, and at a banquet he had the cheerful position of sitting between two bitter rivals who insisted on sharing each others' food—not from any sense of affection—but to guarantee it had not been poisoned! The natives have an affectionate habit of poisoning one side of a knife, and then cutting the gift in two, giving the poisoned side to the recipient, who promptly makes an exit into the shadow land. The mediaeval Italian poisoners appear to have "had nothing" on the courts of Malaya for prompt despatch of enemies.

**His Addresses Here.**  
Following a series of talks in the public schools here, Mr. Wells will address public bodies next week on his experiences. The Kiwanis Club will hear him on Tuesday, and an effort will be made to arrange a Board of Trade meeting on Wednesday. On Sunday evening he has an engagement in connection with Christ Church Cathedral.

Mrs. Wells will remain here with her boy while Mr. Wells goes on a lecturing tour, leaving Victoria June 18. Her experiences from a woman's standpoint of travel in Malaya are exceedingly interesting. She, however, found the humidity of the climate trying.

**"TIZ" FIXES ACHING,  
SWOLLEN, SORE FEET**

How "Tiz" Does Comfort Tired,  
Burning, Calloused Feet  
and Corns

Good-bye, sore feet, burning feet, swollen feet, tender feet, tired feet.  
Good-bye, corns, callouses, bunions and raw spots. No more shoe tightness, no more lipping with pain or drawing up your face in agony. "Tiz" is magic! Acts right off. "Tiz" draws out all the poisonous exudations which puff up the feet. Use "Tiz" and wear smaller shoes. Use "Tiz" and forget your foot misery. Ah! how comfortable your feet feel!

Get a box of "Tiz" now at any drugist or department store. Don't suffer. Have good feet, glad feet, feet that never swell, never hurt, never get tired. A year's foot comfort guaranteed or money refunded.

Central Bldg., View and Broad Sts.

The wedding took place last evening at 2305 Chambers Street, the residence of the bridegroom's brother-in-law, Albert Kirkbride, of Clifford Leslie Alexander and Miss Viva Adelaide Wood, daughter of Mr. and Mrs. Henry Wood, of Salt Spring Island. The bridegroom was attended as groomsmen by his brother, Chester Thomas Alexander, and the bride, who wore her traveling suit of grey serge, was attended as bridesmaid by her sister, Miss Hilda A. E. Wood. Rev. Dr. Campbell officiated. The house was beautifully decorated with flowers and evergreens. After the ceremony the assembly sat down to supper, daintily served. After a honeymoon spent among the islands in the Gulf Mr. and Mrs. Alexander will make their home in this city.

Osborne Scott, general passenger agent of the Western Lines of the C. N. R., was married last Wednesday in St. Luke's Church, Winnipeg, to Miss Audrey Heath, by Rev. Jean Coombs. Mr. Scott was the recipient of a beautiful standing lamp from members of the passenger and natural resources departments of the railway. Mr. and Mrs. Scott will spend their honeymoon on the Pacific Coast.—Daily Province.

The Misses Titchkley and Dixon were hostesses to a number of girl friends on Wednesday at 2220 Cook Street. A very enjoyable evening was spent in games and music. Those present were the Misses Blakey, Milne, Fairweather, Naylor, Houldridge, Neary, Mrs. Coppinger, Mrs. Titchkley, Mrs. Porter and Mrs. Zang.

On Thursday afternoon, at the Emmanuel Baptist manse, Rev. Wm. Stevenson officiated at the marriage of Lewis Allen Grubbs, of Walla Walla, Wash., and Miss Anna Wright, of Texas, U.S.A. The couple were unattended, and left immediately after the ceremony for Walla Walla, where they will reside.

An attractive event planned for tonight is the concert and dance to be held by the Women's Auxiliary to the Great War Veterans' Association in the United Service Club, Fort Street. There will be a musical programme in which will take part the "Bohemian Party," one of the special features.

Mrs. Scriber will open "Church House," 851 Broughton Street, on Saturday afternoon, when the members of the Senior Girls' Club of school will be "at home" to parents and friends on the occasion of the opening of their new quarters.

Mrs. Peter McNaughton, "Ronheda," Gordon Head, entertained the new directors of the Y. W. C. A. at tea on Thursday afternoon. The affair was informal, and all had a pleasant and profitable opportunity of talking over the future plans of the association.

D. B. Finlayson, of Vancouver, late of the Army Service Corps, was in the city for a few days this week, and returned to the mainland on Wednesday night. Mr. Finlayson has only recently been demobilized after four and a half years' service in the A. S. C.

Miss A. Dover has arrived from England, and is staying at Devonshire House. Other new arrivals at the ladies' hostel are Miss Bedwell, of Vancouver, who is spending two weeks in the city, and Miss Newton, of Seattle.

Mrs. Parfitt, 1421 Grant Street, was hostess this afternoon when she placed her home at the disposal of the Ladies' Aid of the Belmont Avenue Methodist Church for an "at home," which was held from 3 to 6 o'clock.

F. C. Swannell, of the firm of Swannell & Noakes, has left on a surveying trip into the Omineca district. Mr. Swannell expects to go a long way north and bring back with him some very interesting details of the country.

Mrs. Broadwood entertained a few friends to tea at the Empress Hotel on Thursday afternoon, when the guests included Mrs. Dwinell, Mrs. Gordon, and Mrs. Mitchell. Mrs. Broadwood will leave shortly for Australia.

Mrs. E. W. Bradley, 961 Courtney Street, entertained last week at a most delightful evening in honor of her young friend, Miss Grace Gonacher, who has left for Toronto to spend the Summer.

Miss E. J. Russell, lady superintendent of the University of Alberta, is a guest at Glencoe Lodge, Vancouver, for a few days en route to Denman Island, where she will spend the Summer.

J. A. Rumball, of Calgary, is staying at the Empress Hotel.

G. E. Barnes, of Crofton, is a guest of the Dominion Hotel.

**SOCIETY CELEBRATES BIRTHDAY OF RULER**  
Egypt to Ireland Covered at Debate of St. George's Society

In the Board Room of the Belmont House last night the Royal Society of St. George held anniversary celebrations to mark the birth of King George, excellent speeches being the order of the evening. The addresses were divided into two distinct parts, talks on Egypt, and on Ireland.

Dean C. S. Quanten led the discussion on Egypt, with an able discourse, in which he rehearsed the history of the country, and pointed to improvements that had been made manifest since the occupation of the British. The question was warmly debated on conclusion of the opening address by the Dean.

The Rev. J. L. Barty introduced the latter half of the debate by a concise talk on the problem of the English-Irish controversy. He claimed that Ireland had received preferential treatment at the hands of the various Irishmen for generations. Settlement of the landlord question, state insurance, exemption from many war restrictions and in other ways they had been given treatment that was not meted out to either the English or the Scotch.

In closing, the Rev. Mr. Barty stated that Queen Alexandra, an Irishman, for his wit and buoyancy, if for no other reason, and that in the days to come some settlement would be satisfactory to all.

On Monday night, next week, the Society of St. George will again meet in the Board Room of the Belmont Block, when the Rev. F. F. Fatt will deliver an address on "Interesting Customs of the English Countries."

**MACCABEES HOLD ATTRACTIVE FETE**  
Pretty Garden Scene at "Burlieith" For Queen Alexandra Review.

"Burlieith," the beautiful home of Mrs. Glazen, was the scene of a pretty garden party on Thursday afternoon when Queen Alexandra Review of the Maccabees presided over many attractive booths displaying useful and elegant articles which were freely purchased by many patrons. Mrs. Galbraith, commander of the Review, opened the fete at 2 o'clock, and for the rest of the afternoon all took part in enjoying the when Queen Elizabeth will be depicted by well-known local amateurs.

A feature of the fete will be the fancy dress ball on Thursday night when Queen Elizabeth will be depicted by well-known local amateurs.

Those taking part in the pageant are: Queen Elizabeth, Miss Mabel Hickman, Lord Howard of Effingham, R. Hadley, Sir Francis Drake, Lieut. W. M. Hotham, Capt. Martin Froisher, F. H. Allwood, Capt. John Hawkins, H. F. Hewett, Inkeeper, S. G. Clark, His daughter Phoebe, Miss Taylor, The Messenger, J. Fetscher, Captain of the Body Guard, Major Hendy, Ladies in waiting, courtiers, officers, villagers, heralds and pages.

The pageant is being directed by Major W. Taylor, while Mrs. Taylor is arranging the costumes. The dances are being arranged by Miss Cotworth.

A ten-piece orchestra under Mr. J. H. W. Fidler will play during the fete. Boxing by members of the Boys' Naval Brigade, Highland dancing, a drill display by the Brigade, and the Brigade's Pipe and Bugle Band appear on the programme.

A special feature of the fete will be the room set aside for the entertainment of children. This will be in charge of Mrs. Sinnott. Brain boxes, fish ponds and other well-known delights of the child heart will be there. The proposed luncheon and tombola have been cancelled.

**INDIAN CHILDREN TO ATTEND SCHOOL**  
The Indian Act is to be amended so as to make attendance at school by Indian children between the ages of 6 and 15 years compulsory and a bill is now before the Federal House covering the point, it has been stated, by Mr. R. H. Cairns, inspector of Indian schools for British Columbia, that the department did not have the authority to enforce attendance and the amendment is being introduced so as to remove all doubts.

Mr. Cairns was recently on Vancouver Island where he inspected the Indian day schools at the Songhees and Kwikwaka'wakw reservations, the first near Victoria and the latter near Duncan. He found the pupils of these schools in excellent health and progressing very satisfactorily with their studies. The industrial school at Kuper Island was also reported on by him very favorably.

**SUPPORT WOMEN'S AUXILIARY.**

**PLAN HOSPITAL FOR MERVILLE**  
Red Cross Society Hopes to Extend Public Health Work

Mrs. Harold Fleming, chairman of the Victoria and District branch of the Red Cross Society will leave on Sunday for Merville Soldier Settlement, where she will visit the health centre which has been established there in connection with soldier settlement. Miss Grant, who was for four years nursing with the Imperial forces, is in charge, and the Red Cross Society hopes shortly to be in a position to extend the excellent work being done by opening a small hospital for patients who at present have to travel to Comox Hospital, says Mrs. Fleming to The Times.

Plans for the membership campaign the society has in view are in abeyance until it is ascertained whether the campaign is to be universally world-wide. If so it will probably take place in the Spring, otherwise the local branch will inaugurate the campaign in the Autumn. The campaign will not be merely for membership, but is being instigated with a view to sustaining public interest in the organization which has now extended its activities to public health and child-welfare work.

The society has plans for the formation of junior members' branches and permission has been obtained from the school board for the formation of branches in the schools for special work to be undertaken by juniors. This will probably take the form of working for a children's ward, or cots for children in the hospitals.

**FANCY DRESS BALL PLANNED FOR FETE**  
Queen Bess and Drake to Lead Dance at the Pageant

Ambitious plans are completed for the grand pageant which will be the feature of the Navy League fete opening in the Drill Hall on Wednesday, June 9, and continuing for two days. Some fine historical scenes will be presented by a cast of seventy-five people. Sir Francis Drake's departure from Plymouth to fight the Spanish Armada, and his victorious return to receive knighthood from Queen Elizabeth will be depicted by well-known local amateurs.

A feature of the fete will be the fancy dress ball on Thursday night when Queen Elizabeth will be depicted by well-known local amateurs.

Those taking part in the pageant are: Queen Elizabeth, Miss Mabel Hickman, Lord Howard of Effingham, R. Hadley, Sir Francis Drake, Lieut. W. M. Hotham, Capt. Martin Froisher, F. H. Allwood, Capt. John Hawkins, H. F. Hewett, Inkeeper, S. G. Clark, His daughter Phoebe, Miss Taylor, The Messenger, J. Fetscher, Captain of the Body Guard, Major Hendy, Ladies in waiting, courtiers, officers, villagers, heralds and pages.

The pageant is being directed by Major W. Taylor, while Mrs. Taylor is arranging the costumes. The dances are being arranged by Miss Cotworth.

A ten-piece orchestra under Mr. J. H. W. Fidler will play during the fete. Boxing by members of the Boys' Naval Brigade, Highland dancing, a drill display by the Brigade, and the Brigade's Pipe and Bugle Band appear on the programme.

A special feature of the fete will be the room set aside for the entertainment of children. This will be in charge of Mrs. Sinnott. Brain boxes, fish ponds and other well-known delights of the child heart will be there. The proposed luncheon and tombola have been cancelled.

**ADDRESS ON BELGIUM.**  
Mons. Georges Halet will address the Women's Canadian Club at the Empress Hotel at 3.15 next Tuesday afternoon, when his subject will be brief sketches of Belgium from an economic and social standpoint. Mons. Halet is considered well qualified to speak on this subject, having been a student of Belgian history and economics for many years. He is a graduate of Antwerp University. The soloist of the afternoon will be Miss Mary Purdy.

**HIS OPINION.**  
"What do you think of a man who constantly deceives his wife?"  
"Think of him! I think he's a wonder."

"Young man," said the fond father, "in giving you my daughter I have entrusted you with the dearest treasure of my life."  
The young man was duly impressed and made no endeavor to conceal his emotion and his gratitude. Then, during the few moments of impressive silence that followed he heard the patter, patter of rain against the window.  
"Goodness me," he exclaimed, "it's raining and I haven't my umbrella! May I borrow yours, sir, to keep me dry while I run to the station!"  
"Young man," said the fond parent, "I do not trust any one with my umbrella!"

## WOULD HAVE COLLAPSED BUT FOR TIMELY AID

Mrs. Lilly Baker Now Well and Strong, Tells How Tanlac Enabled Her to Overcome Effects of Flu.

"If it had not been for a friend who gave me part of a bottle of Tanlac, I believe I should have collapsed altogether—but a few bottles of that medicine has so restored my health and strength that I am like a different woman," said Mrs. Lilly Baker, who resides at Suite 6, Vogel Apartments, 279 Atlantic Avenue, Winnipeg, when telling of her remarkable experience with Tanlac.

"About a year ago I had a severe attack of the flu, and was just getting over it nicely when I had a relapse which laid me up again for several weeks. With an apartment and four little ones to look after I had no chance to take things easy, and

the result of getting up and working too soon was that I became so weak and run down that I was almost a perfect wreck. My appetite was so small that I hardly ate enough to keep me alive, and after the least exertion I had to lie down and rest. I suffered the most terrible headaches that almost blinded me with pain, and my nerves became so upset that I simply couldn't stand the noise of the children around me. I hardly knew what it was to get a good night's sleep, and in the morning felt as limp as a wet rag. I was a mere shadow of my former self, and several of my friends said they could almost see me wasting away.

"A friend who was very concerned about my condition, gave me half a bottle of Tanlac just to try, and as it seemed to help me I continued with it. It wasn't long before I had a splendid appetite, and my food seemed to do me good for I gained ten pounds in weight, and am now so much stronger that the care of the children and the housework is mere play to me. The headaches have dis-

appeared entirely, and my nerves are so steady and strong that nothing in the world ever bothers me, and I sleep like a child every night. I think Tanlac is a wonderful medicine, and I praise and recommend it every chance I get."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

### POLICE NET AGAIN IS WELL STOCKED

That speeders are speeders, whether they offend on the East Saanich Road or Shelbourne Road, is evidently the motto of the Saanich police authorities, who to-day halted another batch of motorists into the Court.

The trap was this time set on Shelbourne Road where five offenders were caught.

C. Cronk was penalized to the extent of \$40 for travelling at the rate of 26 miles an hour, while Messrs. Burdick Brothers & Brett and G. Herrington were each fined \$20.

E. Plowright and W. H. Watt paid \$5 for failing to leave tail lights lit. The Victoria Drive Yourself Auto Livery, stood over from the East Saanich Road group, was again remanded until June 5.

Chief Brogan brought the evidence, while W. E. Monthie conducted the prosecution. As formerly the offending speeds ranged from 30 to 35 miles an hour.

### APPEAL DISMISSED

Judges of the Court of Appeal this afternoon dismissed the appeal brought by S. S. Taylor, K. C., acting for Sylvester in the Putnam vs. Sylvester suit. H. A. Alexander appeared for the plaintiff-respondents. The case had to do with the guarantee of some notes.

Other cases being heard to-day by the Court of Appeal are *Manson vs. Campbell*, with S. S. Taylor, K. C., appearing for the plaintiff-appellant and L. J. Laidner appearing for the defendant respondent; and *Nantel vs. the Hemphill Trade Schools*, with Mr. Taylor for the plaintiff-appellant and the Attorney-General for the defendant-respondent.

## HIGH SCHOOL HEAD RESIGNS TO LEAD PRIVATE SCHOOL

Principal A. G. Smith, Noted Classical Authority, to Leave City's Service

Principal Alexander G. Smith, M.A., resigned to-day from the office of principal of the Victoria High School. He is to become head of the collegiate department of the Sprout-Shaw School under J. H. Beatty.

The Sprout-Shaw School has been bidding for the services of Mr. Smith, who is a noted classical authority and teacher and has now won him away from the city service. Mr. Smith has accepted the new office as he believes the future of Sprout-Shaw schools offers him greater untrammelled scope and rewards than public school work.

In connection with the resignation from the High School it is made clear that Mr. Smith has no trouble with the School Board or officials. His change is being made simply because a private educational institution conducted on business lines believes his services worth more than the city does.

**Resignation a Surprise.**  
Trustees so far do not know of Mr. Smith's resignation. It will come up at the next regular meeting of the School Board.

Mr. Smith in his new office will have charge of the strictly non-commercial departments of the Sprout-Shaw Schools. The school which now occupies nearly all the fourth floor of the Pemberton Building and part of the second floor will move in August to the new building at Douglas and Broughton Streets. It will occupy the whole of the second floor. The building will be completed by August. Mr. Smith will finish out the present term at the High School.

When S. J. Willis, now Provincial Superintendent of Education, resigned from the office of principal of the High School to become a professor of the University of B.C., Mr. Smith, then head instructor in the classics department of the school, was chosen by the School Board as the new principal.

**School Has Big Growth.**  
At the time Mr. Smith was appointed principal of the school in September, 1918, he had a staff of twenty-four teachers under him. To-day he has thirty.

During the four years he has had charge of the school, the daily average attendance of pupils has grown from 570 to 718. It is now the second largest High School in British Columbia.

Mr. Smith has been fourteen years altogether on the staff of the Victoria High School. He is a Master of Arts of the University of Edinburgh, where he set up a reputation as a brilliant classical scholar. During his educational work in Victoria, he has become known as a successful coach. In his class room work he is conservative and thorough. It was chiefly on this record that he was chosen for the principalship by the School Board. Besides carrying on the straight High School work, Mr. Smith was one of the classical lecturers in the university courses given here under arrangement with McGill University before the University of British Columbia was established.

**Start Collegiate Work.**  
Although the Sprout-Shaw Institute has for some years been coaching pupils for university matriculation examinations, it has not conducted a regular collegiate department. Such a department is to be opened here in August. A similar step is being taken in Vancouver, in both cities the Institute is going after the best teachers no matter what positions they occupy. It is able to take these teachers away from the public school because it is in a position to pay capable instructors more nearly what they are worth, it is explained.

At the same time the Sprout-Shaw Institute announces that it is to expand from Victoria and Vancouver into the American cities down the Pacific coast. The standard here is so high and the Sprout-Shaw organization so perfect that its officers believe that it can lead the field in commercial and high school work on the other side of the line.

The Sprout-Shaw School in Victoria now has a staff of fifteen teachers and an attendance of 750 pupils. There are four branches in British Columbia and fifteen in Canada.

### OBITUARY RECORD

The funeral of the late Malcolm McCormick Cameron took place yesterday afternoon at 2 o'clock from the Thomson Funeral Home, 1625 Quadra Street. Many friends were present, and the floral offerings were very numerous and beautiful, among them being beautiful wreaths from the Queen Alexandra Review firm and employees of the Pacific Sheet Metal Works, and the staff of Pither & Leiser Co. Rev. J. G. Inkster conducted the services, the hymns sung being "Abide With Me," and "Peace, Perfect Peace." The following acted as pallbearers: George A. Gardner, H. Cummins, Archie Brown, William Emery, T. Lumsden, J. Bellanger. Interment was in Ross Bay Cemetery.

The funeral took place this morning from the B. C. Funeral Parlors of Wong Fay, who died at the Chinese Hospital yesterday at the age of 45 years. He was born and married in Hon Yen, Canton, China, and had lived in this city for the past years. Interment took place in the Chinese Cemetery.

Funeral service over the remains of the late Mrs. Katherine S. Huskell took place in the B. C. Funeral Chapel this afternoon, at 2 o'clock, the Rev. A. de B. Owen officiating. The remains will be sent to Vancouver for cremation this evening.

Applied Psychology.—Mrs. Hele Ault will lecture this evening at 8 o'clock at her residence, 1051 Fort Street. Subject: "The Seventh Inclusive Sense."

# SQUEEZED TO DEATH

When the body begins to stiffen and movement becomes painful it is usually an indication that the kidneys are out of order. Keep these organs healthy by taking

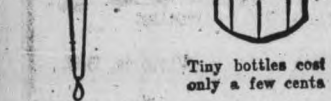

**GOLD MEDAL HARLEQUIN CAPSULES**  
The world's standard remedy for kidney, liver, bladder and uric acid troubles. Famous since 1896. Take regularly and keep in good health. All druggists, 50c. a box. Guaranteed as represented. Look for the name Gold Medal on every box and accept no imitation.

# LIFT OFF CORNS, MAGIC! NO PAIN

Drop Freezone on a touchy corn then lift that corn off with fingers

Tiny bottles cost only a few cents

Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. It hasn't pain one bit. Yes, magic! Why wait? Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and calluses, without soreness or irritation. Freezone is the much talked of ether discovery of a Cincinnati genius.

# "DANDERINE"

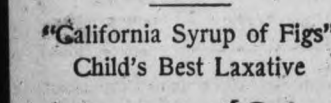

Stops Hair Coming Out; Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you cannot find a fallen hair or any "dandruff," besides, every hair shows new life, vigor, brightness, more color and thickness.

# MOTHER!

"California Syrup of Figs" Child's Best Laxative

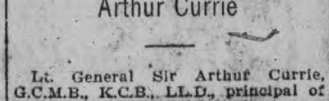

Accept "California" Syrup of Figs only—look for the name California on the packaging, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its nutty taste. Full directions on each bottle. You must say "California."

# Shave With Cuticura Soap The New Way Without Mug

# SUPREME HONOR PAID COMMANDER

Jewelled Sword and Address Given to General Sir Arthur Currie

Lt. General Sir Arthur Currie, G.C.M.B., K.C.B., LL.D., principal of McGill University, was made the recipient of a jewelled sword of honor and an illuminated address by the general officers who served under him in the late campaign.

The presentation took place in Montreal amongst a large assembly of brother officers. The ceremony was impressive in the extreme, and formed a fitting testimonial to the splendid record of Canada's national war hero.

The sword is richly jewelled and bears the coat-of-arms of the Dominion and the following inscription: To General Sir Arthur William Currie, G.C.M.G., K.C.B., Commanding Canadian Army Corps, from Officers holding Commands and Staff Appointments in the Corps on November 11, 1918, as a token of their regard and deep admiration for his magnificent services to Canada and the Empire in the Great War.

The address, which is a beautiful work of art, is an expression of the respect and affection in which General Currie is held by the officers who served and fought under him in France and Flanders. It bears reproductions of the actual signatures of all officers who held important commands or appointments in the Canadian Corps, when the "Cease Fire" sounded on November 11, 1918. The signatures comprise six Major-Generals, twenty-two Brigadier-Generals, nine Colonels and 100 Lieutenant-Colonels, representing the Officers commanding the four Divisions, the Engineers and the Machine Guns; the Chief Staff Officers at Corps and Divisional Headquarters; the Brigadiers commanding Infantry, Artillery and Engineers; and the Commanders of all Battalions and Corps Troops.

The address is richly engraved and engrossed, surmounted with the coat-of-arms of the Dominion of Canada, and with representations of the following decorations and honors of the Corps Commander: G.C.M.B., K.C.B., 1914-1915 Star, General Service Victoria, Long Service, French Legion of Honor, Canadian Order of St. Michael and St. George, American Distinguished Service Medal, French Croix de Guerre with Palm, Belgian Croix de Guerre. In addition to the facsimile of the original signatures of every Officer holding a Command or Staff Appointment in the Corps on Armistice day, the battle markings of all Units are inserted, together with Divisional Signs.

The illuminated address was a work of exceedingly beautiful appointments and read as follows: To General Sir Arthur William Currie, G.C.M.G., K.C.B., LL.D., late Commander Canadian Corps.

Now at the conclusion of hostilities and the approaching proclamation of a much-desired peace, we, the undersigned officers of the Canadian Forces engaged in the great struggle for the liberty of civilization, wish to place on record our sincere gratitude for, and wholehearted appreciation of the signal and important services you have rendered to your King and to Canada during the last five years of conflict, as a Brigade, Divisional, and, lastly, Corps Commander.

General Currie was much affected by the sincere feeling that prompted the gift and replied in a brief, but grateful speech, setting out the pleasure it had given him to serve with such able and willing officers under his command. He paid another glowing tribute to the bravery and adaptability of the Canadian "Tommy" his remarks being greeted with the wildest enthusiasm.

# HAD ECZEMA For Over 28 Years

Eczema or Salt Rheum manifests itself in little round blisters, which contain an extremely irritating fluid. These break and subsequently a crust is formed, and the intense burning, itching and smarting, especially at night or when the part is exposed to any strong heat is almost unbearable.

The success which Burdock Blood Bitters has met with in skin diseases of such severity is due to its wonderful blood cleansing and purifying properties, and we know of no other remedy that has done or can do, so much for those who are almost driven to distraction with the terrible torture. Mr. James Walker, 152 Niagara St., Hamilton, Ont., writes: "I have been using Burdock Blood Bitters for some months past, and find it an excellent remedy for skin eruptions. I have suffered with eczema for over 28 years, and have tried almost everything you could think of. I was recommended to use Burdock Blood Bitters, and I am now clear of my skin trouble. It is certainly a good remedy and I shall recommend it to all my friends."  
Manufactured for over 40 years by The T. Milburn Co., Limited, Toronto, Ont.

## DISCUSS CUSTOMS AIR HARBOR PLAN

Meeting of Public Bodies Takes Action With Aerial League

At a meeting of public bodies called in the Aerial League Rooms today it was decided to investigate the possibility of securing a combined air-base and landing ground for aircraft of both types. It was stated after discussion that the advisability of having such a commercial air harbor was apparent, if Victoria was to secure a place on the Aerial Map.

A committee of the Aerial League, including W. N. Kelly, vice-president of the League, and W. Whompsatt attended, Mr. Kelly taking the chair. The special committee on aeronautical affairs of the Board of Trade attended in full, headed by the vice-president, J. H. Beatty, with J. Kingham, Beaumont Boggs and C. P. W. Schwengers. Kenneth Ferguson attended as representative of the Kiwanis Club. C. H. French, manager of the Hudson's Bay Company, was called in in consultation, although expressing himself as not in favor of the project in its entirety.

**The Greatest Field.**

It was stated that the greatest field possible in aeronautical development in this community would be that of manufacture of machines. Old Country manufacturers were stated to be willing to operate plants here for the benefit of the excellent arrangement for raw materials, if they were accorded even half an invitation. The case of the rebuilding of the Pathfinders by Messrs. Yarrow's, Ltd., was cited to show that of all material that goes into a modern aircraft no less than 98 per cent. can be secured locally, linen being the only material that has to be imported.

To encourage manufacturers there must be some actual flying carried on here, it was stated, and that this would not be possible without landing grounds. Outsiders were willing to use Victoria as a landing station in the Journeys from San Francisco and Seattle to Dawson, and as the Western terminus of the trans-Canada aerial route, but that was not possible as no landing grounds had been provided, and nobody took an interest in the matter.

Mr. Kelly, of the Aerial League committee, in a brief but concise address, spoke of the development that is taking place in commercial aeronautics throughout the Dominion and in the United States. He stated that his business association intended to use aircraft for the purpose of spotting whales, and cited the case of Captain Robbins of the Air Board, who had photographs of whales taken off Land's End that were submerged below the water. Aircraft would be invaluable to him, he stated. He further outlined the use of aircraft for mail carrying, and other obvious uses, and emphasized the necessity of paying the way by having a landing ground that was regularly leased and controlled. He read a report of forestry air services conducted by the United States authorities to show that the aeroplane had made a success of the twice daily patrol of a large area of timber in the states of California and Oregon.

Mr. Kingham stated that his opinion aviation had come to stay, and had got beyond the point of experimentation that was usually attributed to it.

**Off Aerial Map.**

"If we don't get a site here, Victoria will be off the Aerial Map," stated Mr. Schwengers. "There is no question of the utility of the machines, merely a matter of obtaining a site." Mr. Boggs and Mr. Beatty expressed themselves confident that a satisfactory site could be obtained by the concerted action of public bodies making representation to the Government, not for the Government to finance the scheme, but to assist in the necessary development therewith.

Mr. Kelly suggested a site on the north side of Bay Road near Cadboro Bay, where a seaplane base could be secured in close proximity to the land station. The question was discussed, but deferred as the majority present had very little knowledge of the actual proposals.

The entire committee is to journey out to-morrow morning at nine o'clock to look over the ground. It is understood that Major Scott, of the Air Board, stated that the place suggested was ideal for the purpose, and that no difficulty would be experienced in securing a license as a registered aerodrome and sea base. The question of having both declared a customs air harbor, is one that

would have to be taken up with the air authorities themselves, but should present little difficulty, it was stated.

The feeling of the assembly was that the matter should be looked into immediately, and members then adjourned to view the ground. It was thought that even in the event of the Government failing to assist in the project to the similar extent as at Vancouver, where a Government air seaplane station is already under way, the matter might be managed by local enterprise and the support of all.

## REV. DR. SIPPPELL HERE FOR NEW YORK

Arrived From Vancouver This Afternoon to Become Pastor of Metropolitan Church

Rev. Dr. Sipppell, the new pastor of the Metropolitan Methodist Church, accompanied by Mrs. Sipppell, arrived in this city this afternoon from Vancouver. They were met at the boat by a large party of members of the congregation. Representatives of each committee of the church officially welcomed them.

Dr. and Mrs. Sipppell are taking up their residence at the Metropolitan parsonage, 916 Johnson Street. Arrangements are being made to hold a general reception for the new pastor and his family in the school room of the church within the next two weeks.

Both Dr. and Mrs. Sipppell are extremely well known in this Province for the exceptional interest they have taken in the promotion of Christian endeavor and the elevating of the moral life of the community. Dr. Sipppell attained considerable notice for the mastery way in which he conducted Columbian College at New Westminster for several years. During his pastoral duties at Mt. Pleasant Church, Vancouver, in recent years, he has made numerous friends and built up a congregation which taxed the capacity of his edifice.

As an expression of appreciation, a purse containing more than \$400 was presented to Rev. Dr. W. J. Sipppell at the farewell reception held in his honor at the Mount Pleasant Methodist Church, Vancouver, Wednesday.

**B. C. Native Sons Meet.**—Chief Factor Reginald Hayward, Recording Secretary Walter Miles and Cecil Foot, of the Victoria Post of Native Sons, went to Vancouver where delegates from Nanaimo, Vancouver, New Westminster and Delta posts gathered for the annual visit of General Factor R. H. Carson to the Vancouver post. Mr. Justice Murphy and Professor Sage, of the University of B. C., both Native Sons, were the orators.

**Prepare For Island Tour.**—Members of the Board of Governors of the Island Automobile Association will meet to-night to arrange, among other things, for the holiday trip up Vancouver Island for the big automobile convention at Nanaimo on June 3. To-night's meeting will be held in the association's rooms, Metropolitan Building, Government and Courtney Streets.

**Sues Wife For Divorce.**—Ernest Holman, returns soldier, started action in Mr. Justice Gregory's divorce court to-day against his wife, Mrs. Lottie A. Holman, charging William F. Harvey as being co-respondent. Mrs. Myra J. Wark, police officer, swore that she found Mr. Harvey and Mrs. Holman living at 1733 King's

## COUNCIL CONVINCED NO NEED FOR ALARM ABOUT FLOW LINE

Inspection Satisfies Majority No Expert Investigation Necessary

After having made a lengthy personal inspection of the Sooke Lake flow-line this morning the City Council is fairly well satisfied that there is absolutely no reason to be alarmed over the condition of the waterworks system. Indeed, the most bitter critics of the system and the aldermen who favored an investigation to determine the reason for the prevailing leakages appeared converted by their inspection trip this morning. While it was generally agreed among the aldermen present—all members but Alderman Cameron and Alderman Andros made the trip—that no extraordinary remedial measures were necessary it was proposed further that there would be objection even to City Engineer F. M. Preston's programme of repairs.

The aldermen, accompanied by waterworks officials and newspaper representatives, left the City Hall at nine this morning and arrived without mishap at Humpback Reservoir. Here the outlet from the Sooke Lake flow-line and other waterworks apparatus was examined. Some aldermen who had been alarmed by Alderman Andros' assertion that it was possible to drive a horse and wagon through the pipe-line at some places were agreeably surprised to find that about nine million gallons of water a day were dashing into the reservoir. By telephoning Sooke Lake intake and ascertaining what amount of water was being allowed to enter the pipe-line it was found that a leakage of about twenty per cent. was occurring in the whole distance of twenty-seven miles. Mr. Preston explained, however, that if the weather had been cold this leakage might have reached a maximum of forty-five or fifty per cent.

**Followed Flowline.**

The aldermanic party walked along the top of the flowline from Humpback about a mile and examined the occasional leakages on the way. It was found that these were formed by minute cracks in the joints of the pipes and that only a trickle of water came from each. Indeed, many of the aldermen were prone to doubt that a twenty per cent. leakage was occurring.

Examination of the line was made at various points along its route. At one point the aldermen walked about two miles along the pipe line and then cut down to the road through

Road under the name of Mr. and Mrs. Harvey. Mr. Holman in the witness box denied all charges of maltreating his wife. The case is going on this afternoon with Frank Higgins, K.C., appearing for Mr. Holman and W. H. Langley for the defence.

## British Grown for British Taste

This new tea called Lanka is British through and through, the perfected blend of finest varieties the hill gardens of Ceylon can produce. It comes straight to us from the Island of Ceylon through the Keystone Port of Vancouver—a direct route which saves freight charges and import duty. Thus, although super-quality, Lanka is sold at the popular price of 75 cents a pound.

Once you have tasted it, once you have enjoyed its incomparable flavor, Lanka will be your final choice of tea. No other varieties satisfy after you have once enjoyed the wonderful flavor of Lanka.

Lanka Tea is further distinguished by its beautiful bright sparkling color, by its captivating aroma, as irresistible as the bouquet of rare wine.

You will see the handsome Lanka package illustrated in this advertisement on your grocer's shelves. Leading dealers everywhere have welcomed the chance to offer their customers the supreme quality of Lanka.

## Um-m-m!

Bordeaux Cherry Fruit Ice Cream

AMBROSIA, the fabled food of the gods which gave immortal youth and beauty to those who ate it—it couldn't have been more deliciously flavored than this French dainty of frozen cream and ripe cherries.

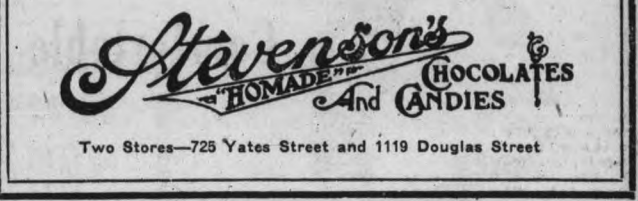

Try a dish of this captivating confection—you, too, will lack words to describe its wonderful flavor. 20c Per dish

## A "Crunchy" Crisp

"Homemade" Butternut Crisp Special, Saturday, Half-lb. 40c

THE kind of candy that you long for when you're out a-pienicking. Purchase a supply to-morrow if you contemplate a trip to the beach or country on Sunday.

The Hoe Maid is Coming—Watch For Her Next Week?

Two Stores—725 Yates Street and 1119 Douglas Street

the bush. They discovered that the contraction of the pipes had caused small cracks at various points but those who had visited the waterworks system for some years were much reassured at what they saw. Mr. Preston explained that when the system was installed a new contraction joints were installed but were found to be useless. Consequently no more were installed, the plan being that another type of joint should be installed where leaks developed in the line. Thus the present programme of putting in expansion joints at about every hundred feet was simply the completion of a scheme which had been agreed upon from the first. There was thus no necessity for alarm or investigation.

Next week aldermen will journey to Sooke Lake and examine other parts of the line.

The party this morning consisted of Mayor Porter and Aldermen Dinsdale, Dewar, Fullerton, Johns, Patrick, Sangster, Sargent and Todd.

**Kelly Loses Pitchers' Battle With Lambert**

Little Southpaw Pitched Nicely But Two Errors and Extra-Base Hitting Let Him Down; Church Recovers Batting Eye and Laces Out Three Hits; One Run in Fifth Saves Shut-Out.

Spokane, 4; Victoria, 1.

Kelly, the midget twirler of the Capitals, tried hard to win his game at Spokane yesterday afternoon, but as usual it seemed as though the whole world was bucking him. The breaks were against him and he had to watch the Indians carrier away with the game. Kelly and Lambert locked arms in a brilliant pitchers' duel and provided the best game of a very interesting series.

Extra base hits and errors by Cunningham and Church explain the cause of Victoria's defeat. Cunningham dropped a throw at the plate at a critical moment and Church let one of the hot drives that tear over third base get away from him. Two doubles and a triple were made off Kelly and assisted materially in driving in runs.

**Indians Score First.**

The Indians were the first to score. They touched up Kelly for several hits in the third inning and chased over two runs. They grabbed another pair of tallies in the fifth, but from then on they were kept at a safe distance.

The Capitals saved a shutout by scoring one run in the fifth inning. Elliott hit safely, took third on Cunningham's single and scored when Jimmie Church snapped a sizzler over second base.

Kelly and Lambert got an even break on hits, but the Spokane hurler was fortunate in not having any of his driven for extra bases.

**Kelly Failed.**

Jack Kelly tried to add more glory to his name as a pinch-hitter and repeat the sensational ninth inning rally of Wednesday afternoon, when he went to bat for his namesake.

**Shamrock Is Loftiest Yacht Yet Constructed**

Will Have to Unseat Topmast to Pass Under Brooklyn Bridge; New Crossrees Fitted to Challenger to Prevent Accident in Heavy Gales; American Boats Repairing.

New York, June 4.—Sir Thomas Lipton's Shamrock IV. to-day was being equipped with new crossrees.

The Shamrock's original topsails were burned before she came to this country, and the new ones were never tried until this week, when it was noticed that the cross trees showed signs of giving way under heavy gales.

Newport, R.I., June 4.—Owing to the inability of the managers of the yacht Resolute to effect complete repairs at her anchorage in this port, the race with Vanitie was called off and the Resolute was towed to the Herreshoff yard at Bristol.

**Resolute Won Handily.**

Newport, R.I., June 4.—The Resolute defeated Vanitie yesterday in the first of the trial races to determine which shall defend the America's Cup against Sir Thomas Lipton's challenger Shamrock IV. The race was sailed over a 28-mile windward and leeward course in a moderate breeze, Resolute crossing the finish line the victor by four minutes seven seconds elapsed time and five minutes thirty-nine seconds corrected time.

Both yachts had slight accidents during the race. Vanitie's main sheet bridle, which delayed her for a few seconds, while on the Resolute the jaws of the gaff jumped out of the mast as she was turning the outer mark.

**Carrying Wooden Mast.**

Despite the misfortune which overtook the Resolute when she sailed her first trial with a wooden mast, which collapsed in a light air, the challenger is having a wooden stick installed. The big mast with its shabing-rod ferrule, into which the topmast fits, has been carefully made. When asked whether he had any doubt about the strength of the mast, as a result of what happened to the Resolute's big pole stick, Mr. Nicholson, the designer, said the Shamrock's spar was heavier and stronger than the Resolute's, and was not one long pole mast with topmast added.

However, there is a second wooden mast on hand in case of accident, as well as a steel mast, which, unlike the Vanitie's steel one, is without angle iron reinforcements for a light metal mast.

**Tramendously High.**

The Shamrock IV's topmast must be unseated to enable her to pass under Brooklyn Bridge, which affords a fair idea of how lofty it is, as the topmast hoists several feet above the topmast truck. However, one of the yachting experts who examined the challenger's rigging, using the beam measurement would prove to be surprisingly small, and that penalty for canvas was a good way to penalize.

**ROYALS IN LEAD BY BEATING VANCOUVER**

An Evenly Contested Game Played at New Westminster Last Evening

New Westminster, June 4.—New Westminster went into the lead in the race for the Mann Cup, emblem of the amateur lacrosse championship of Canada, when they defeated the Vancouver players here last evening by a score of 7-5.

At the end of the first quarter the score was tied, one all, but in the second chapter the Royal City crew assumed the lead, from which they were never headed.

Peers Carried Mainland Cricketers to Victory

Captain of Vancouver Team Was the Man Who Defeated Victoria in First of Inter-City Matches For British Columbia Championship.

Vancouver, June 4.—The first inter-city match of the season for the Flumerfelt Cup was played yesterday at Brockton Point and resulted in a win for Vancouver by three wickets, after the first innings had ended in a tie. It was probably the best contested inter-city game ever played, the result of the game being in the balance right up to the finish.

The Vancouver captain, Peers, won the toss and sent Victoria in for first innings. The Victoria innings closed for 101. J. H. Gillespie 35 and H. A. Ismay 33, both fine innings, being the batting stars. Whittens with five for 34 and Peers three for 23 were responsible for most of the wickets, both bowling well.

Vancouver's first innings also produced 101, of which Peers with 45, a very fine innings, was the chief run-getter.

Wilkinson, 6 for 20, bowled exceedingly well, and most of the Vancouver batsmen were very much at sea when facing him. Victoria in their second innings made a better showing, having 153 on the board when the last wicket fell. Ismay again batted finely, and was responsible for 83. Quainton, 26; Miesgo, 25, and Edwards, 20, all gave valuable assistance and played well.

Peers with 6 for 45 was the chief wicket-getter. Vancouver went in for the second innings at 6 o'clock and it was decided between the captains that the game would be played out to a finish. A bad start was made, 3 wickets being down for 30. Eaton-Shore and Peers then put up an 40 when Eaton-Shore was dismissed for a well-played 26. Peers remained until the score reached 121 for 7, when he was caught for a splendid innings of 58.

It was at this point anyone's game, but Buller and Killick knocked off the necessary runs, and Vancouver won as stated. Both Buller and Killick batted exceedingly well. Buller with 4 for 55 had the best analysis, though Wilkinson again bowled well. The chief feature of the whole game was the all-round form of the Vancouver captain, Peers, and if any man ever carried a team on his shoulders, Peers did. Besides making the two highest scores of the game, 58 and 45, he in all took 9 wickets for 47 runs, and this game will certainly go down to history as Peers' match.

The scores were as follows: Victoria—First Innings. F. L. Watson, b Mends 0; A. J. Colett, c and b Mends 0; J. H. Gillespie, b Chandler 35; F. A. Sparks, b Peers 12; J. R. Matson, c Chandler, b Peers 0; T. A. Darke, c Chandler, b Peers 0; H. A. Ismay, b Mends 33; H. A. Goward, b Mends 2; H. Edwards, b Nell 1; F. Quainton, not out 26; S. Wilkinson, c Eaton-Shore, b Mends 0; Extras 5; Total 101.

Bowling Analysis—O. M. R. W. Mends 9 1 45 2; Peers 9 3 46 6; Nell 2 2 12 0; Eaton-Shore 3 3 17 2; Quainton 3 1 18 1; Peters 1 1 18 1; Total 159. Bowling Analysis—O. M. R. W. Mends 9 1 45 2; Peers 9 3 46 6; Nell 2 2 12 0; Eaton-Shore 3 3 17 2; Quainton 3 1 18 1; Peters 1 1 18 1; Total 159.

Vancouver—Second Innings. Hudson, b Goward 14; Peters, b Goward 7; Barrs, b Goward 8; Eaton-Shore, c Ismay, b Quainton 26; Sparks, c Sparks, b Goward 56; Chandler, b Wilkinson 2; Leigh, b Wilkinson 12; Bullen, not out 25; Mends, did not bat 0; Nell, did not bat 0; Extras 2; Total 163. Bowling Analysis—O. M. R. W. Wilkinson 9 1 45 2; Peers 9 3 46 6; Goward 12 3 55 4; Quainton 3 1 18 1; Matson 2 2 12 0; Total 163.

India to Compete in Olympic Games. London, June 4.—India will have at least six athletes entered in the Antwerp Olympic Games, three of them being Marathon runners, one a gymnast and two wrestlers, according to an announcement by the British Olympic Association. The Indian Olympic Association is bringing the team to England and it will train in this country.

Ottawa Boys Win Long Canoe Race. Ottawa, June 4.—Eric Roy and Rene Joliat, members of the Ottawa New Edinburgh Canoe Club, won the 80-mile Marathon race yesterday afternoon, reaching the finishing point at Rockcliffe at 2:45 p. m. The time for the race was not announced. No other contestants were in sight when Roy and Joliat arrived. The race was for the possession of the Sir Eugene Fiast trophy and the course followed by the canoeists was the Ottawa and Livre rivers, the chain of lakes in the Laurentians and the Blanche river.

Victoria—Second Innings. Quainton, c Peters, b Peers 26; Colett, b Peers 0; Gillespie, c Bullen, b Peers 9; Sparks, b Peers 9; Miesgo, c Eaton-Shore, b Peers 25; Extras 5; Total 101.

Bowling Analysis—O. M. R. W. Peers 9 3 46 6; Quainton 3 1 18 1; Miesgo 2 2 12 0; Sparks 2 2 12 0; Total 101.

League Baseball. At Chicago—R. H. E. Cincinnati 5 12 2; Chicago 3 9 2. Batteries: Luque, Sallee and Rariden; Taylor, Bales, Gaw and Kifer.

FIVE C'S AND CONGOS IN IMPORTANT MATCH

Winners Will Take Lead in City Cricket; Much Interest Being Taken in Game

Interest in the Virtue Cup competition grows stronger each week. At the present time the Five C's and Congos are tied for first place in the League Chart. However, this tie will probably be broken to-morrow when these teams meet at the Beacon Hill ground. The members of both teams like their respective supporters, are looking forward to this game with more than ordinary eagerness. Both teams may be depended upon to put up a great fight for the honors.

The Congos appear to be the stronger batting aggregation of the two, while the Five C's seem to be better equipped with bowlers, and as they also have several good bats on their side, they appear to have slightly the better chance of winning. It is anticipated that weather permitting, there will be a goodly number of spectators at Beacon Hill to-morrow.

The Army and Navy team plays the Incogs at Work Point Barracks to-morrow. These two teams have not previously met, and it would not be surprising if the Incogs improved their position at the expense of the Veterans.

Victoria and the Garrison teams will meet in their first encounter of the present season, at the Jubilee Hospital grounds. So far this season, each of these teams has one win only to its credit, but Victoria appears to be the better balanced side and should annex another two points to-morrow.

To-morrow's Games. To-morrow's games will be as follows: Congos v. Five C's at Beacon Hill Park. Army and Navy Veterans v. Incogs at Work Point. Victoria v. Garrison at Jubilee Hospital.

The teams for to-morrow's game will be as follows: Five C's—Edwards, Sutton, Wilkinson, E. Quainton, Gibson, Payne, Winsloe, Knappman, Rough, Capt. Sharpe and Booth; reserves, Dean Quilley, Buck and Jones. Congos—J. Collet, captain; R. J. Ferris, W. Tucker, S. J. Charman, A. H. Adams, G. Wells, E. R. Lock, H. Lock, H. Gardier, Gordon Leeming and W. Erickson; reserves, F. H. Lines and P. Oliver.

Army and Navy Veterans—C. Preston, J. Davies, F. Bowley, Turner, H. J. Young, P. King, J. Hillierby, T. P. Tebbatt, George Leeming, G. W. E. Wharf and H. Davies; reserves, H. C. Ingall.

League Baseball. At Chicago—R. H. E. Cincinnati 5 12 2; Chicago 3 9 2. Batteries: Luque, Sallee and Rariden; Taylor, Bales, Gaw and Kifer.

At Philadelphia—R. H. E. Brooklyn 4 9 2; Philadelphia 6 11 1. Batteries: Cadore, Miljus, Smith and Krueger; Causey, Weibert, Gallia, Smith and Withrow.

At Boston—R. H. E. New York 1 10 2; Boston 2 8 0. Batteries: Toney, Hubbell, Winters and Smith; Scott and O'Neill.

At St. Louis—R. H. E. Chicago 7 13 0; St. Louis 3 6 2. Batteries: Cicotte and Schalk; Wellman, Langlider and Severed.

At Cleveland—R. H. E. Detroit 5 11 1; Cleveland 8 12 2. Batteries: Boland and Ainsmith; Caldwell and O'Neill.

At New York—R. H. E. Washington 1 3 4; New York 8 11 1. Batteries: Zary, Carlson and Ghartry; Quinn and Hannah.

(Second game) R. H. E. Washington 7 11 2; New York 6 13 0. Batteries: Shaw, Snyder and Pienich; Mays, Collins and Ruel.

Coast League. At Seattle—R. H. E. Sacramento 5 8 2; Seattle 2 9 2. Batteries: Fittery and Nook, Demore; Gardner and Adams.

At Los Angeles—R. H. E. San Francisco 2 6 2; Los Angeles 4 8 1. Batteries: Keating and Basier; Jordan and Agnew; Keating and Basier.

RAINBOW CUP GOES TO NORMAN W. RANT

Won Gold Competition at Oak Bay Yesterday Easily; Three Tie For Second Place

Norman W. Rrant triumphed over a field of fifty entrants in the Rainbow Cup, which was played over the Oak Bay golf links yesterday. He played a particularly strong game and for the next year will hold the coveted silverware, which has been in the possession of J. W. Morris for one year.

The match was for thirty-six holes against bogey with a three-quarter handicap allowed. Mr. Rrant won somewhat easily, being ten up, and W. H. McInnes, W. P. D. Pemberton and Arthur Gore were tie for second place, being five up.

The principal scores were as follows: N. W. Rrant (handicap 15), 10 up; W. H. McInnes (20), 5 up; W. P. B. Pemberton (15), 5 up; Arthur Gore (21), 5 up; A. P. Boulton (16), 4 up; J. S. Hargreaves (14), 4 up; J. W. Morris (14), 4 up; H. Harvey (22), 4 up; J. H. Wilson (17), 4 up; J. D. Scrivener (20), 4 up; H. G. S. Heisterman (22), 4 up; Carey Martin (17), 3 up; H. Paterson (16), 3 up; Dr. W. D. Barrett (17), 3 up; Capt. Westmoreland (19), all square; H. G. Wilson (9), all square; T. O. Mackay (20), 1 down; Major F. P. Barton (22), 1 down.

AN EXCEPTION. It was a model prison, and the warden was talking with his latest "guest."

"Now, my man," he said kindly, "have you a trade, or are you skilled in any line?"

"Why, yes," the man replied. "Good! We always put men to work at their speciality. I'll do so with you."

"I am afraid you won't, sir," the man replied regretfully. "Oh, yes, we will. What are you?"

HEIGHT OF HAPPINESS. "What is the height of happiness?" mused the philosophical girl.

"Well, in my case," laughed the pretty bride, "he is about five feet ten."

Bob Long says: "My Overalls and shirts are the best made, because they are roomy and comfortable. I designed them with the idea that you might want to stretch your arms and legs occasionally."

A winner in the Bob Long line of shirts is the Hickory Dick Jr. Ask your dealer for this shirt; it wears like a true friend. Ask your dealer for Big 59—the big Blue Overall—the cloth that stands the test.

Insist on "Bob Long" Brands. BOB LONG UNION MADE Overalls and Shirts. R. G. LONG & CO., Limited. Winnipeg, Toronto, Montreal. Bob Long Brands. Known from Coast to Coast.

JOYFUL EATING. Unless your food is digested without the aftermath of painful acidity, the joy is taken out of both eating and living. KI-MOIDS are wonderful in their help to the stomach troubled with over-acidity. Pleasant to take—relief prompt and definite. MADE BY SCOTT & BOWNE. MAKERS OF SCOTT'S EMULSION.

A Woman's Right is to enjoy good health. The secret of good health is chiefly to maintain normal activity of the stomach, bowels, liver, skin and kidneys. BEECHAM'S PILLS. Largest Sale of Any Medication in the World. Sold everywhere in Canada. In boxes, 25c, 50c.

The Great Cash-Raising Clothing Sale Continues

Never has there been such an outpouring of men's high-grade clothing in Victoria—never has there been a sale with prices so radically reduced—especially in the face of a rising market.

The reason for this extraordinary sacrifice can be put in four words "WE NEED THE MONEY." The backwardness of the season has resulted in an accumulation of stock which we must move.

This clearance of clothing at profitless prices is not induced by a fear of future business conditions, on the contrary we are exceedingly optimistic of Canada's future and of British Columbia's prosperity in particular.

**FINDING FUEL FOR FREEZING MILLIONS**

Fuel Administrator Has Problems in Poland Unknown Elsewhere

Isidore Hershfield, director of Jewish relief work in Poland. Practically every bit of fuel that the suffering Jews of Poland secure comes from funds raised by the American Jewish Relief Committee and its allied organization.

"Difficulties of hauling fuel and high prices are making the condition of the sufferers more miserable," cabled Mr. Hershfield. "The rigors of the late Winter made adequate fuel supplies vitally necessary for the destitute people here, who were without proper clothing, food and shelter."

Total expenditures for Polish relief work during November totalled 15,288,560 marks, the Joint Distribution Committee reported, which included 250,000 marks for refugees in Warsaw, 275,000 marks for clothing and shoes and 50,000 marks for the families of Jewish governmental employees discharged en masse at Lwow.

Instead of tea or coffee a cup of that healthful beverage

**INSTANT POSTUM**

"There's a Reason"

**LETTER BARRAGE FOR RELIEF WORK**

Appeal Issued by Canadian Jewish Committee Here to 15,000 Persons

Fifteen thousand letters have been sent out to addresses on Vancouver Island from the Island headquarters, 1317 Government Street, appealing for aid for the objects of the Canadian Jewish Relief Committee. Already in a few hours the response is satisfactory, says S. H. Ansell, the committee's secretary.

Brigadier-General Clark has accepted the position as Chairman of the Campaign Committee. In view of his experience recently with the Victory Loan drive, the local committee is very glad to secure his aid.

"Humanity Knows No Creed" is the slogan of the committee. George G. Busby, Chairman of Victoria and Vancouver Island Committee, has issued an appeal as follows: "Six million people are perishing in Eastern Europe to-day. Just think of it, millions of helpless children and stricken mothers perishing for want of food and clothes!"

"The civil population has been driven to the last extremes of starvation by the war machines of Germany, Austria and Russia. Disease and famine are stalking amongst these hapless people, who innocent of wrong-doing, are homeless wanderers, their wretched country a veritable charnel house.

"Fathers sit helpless while their children starve; insane mothers nurse dying babies at milkless breasts; boys and girls expend their scant vitality in the vain search for food. In many districts there is not a child alive under four years of age.

"The relief agencies of Britain, Canada and the United States have assigned to the Jewish Relief Association the task of feeding all the peoples in this area, regardless of creed or nationality, because sixty-five per cent of the population is of the Jewish race, while thirty-five per cent are Gentiles. Jew and Gentile are alike crying from the depths.

"Thirty-five million dollars are required at once. Canada is asked to contribute one million dollars. Twenty dollars will feed a child for two months."

"Your generous aid is wanted to-day, to-morrow it may be too late. I feel that you will consider it a privilege to contribute to this cause and that you have grasped the gravity of the situation in which these wretched people are placed. Cheques may be sent and will be gratefully accepted and at once forwarded."

**NEWS AND NOTES OF THE MINES**

**Lawn Hill Prospect.**  
W. A. Lewthwaite, of this city, notifying the statement with regard to the suspension of oil drilling at Lawn Hill, near Skidegate, Queen Charlotte Islands, in Tuesday's Times, has wired to his manager and is informed that the suspension was temporary and that work has now been resumed.

The drillers are down in bitumen, Lewthwaite says, and the prospects are very encouraging for oil to be struck at reasonable depth.

**Ore Testing Plant**  
J. W. Mulholland, president of the British Columbia Prospectors' Protective association has received a letter written by R. F. Green, M. P. for West Kootenay, in reply to a letter written by Secretary Hutchcroft of the East Kootenay association dealing with this subject. Mr. Green's letter reads:

"I have your communication of the 5th inst., and have carefully noted contents of the same. I have tried to convince the minister of mines that it would be wise to have the testing plant for which an appeal has been made, erected somewhere in the Kootenay; but, unfortunately, have not been very successful in impressing that particular view on him, as it seems to be the idea of every man in his department that the plant should go to the coast. However, I have not given up hope yet, and still continue to press my views on him—R. F. Green."

In view of the fact that the appropriation for the plant was made on the representations of Kootenay boards of trade and mining men, and of the impossibility of shipping ores to the coast and back again for testing purposes, Mr. Mulholland will lay this latest phase of the matter before the Nelson branch of the Prospectors' association and the mining committee of the Nelson board of trade for their support in getting the plant located in the district.

Where there is one mine at the coast having refractory ores, there are half a dozen in the interior. Mr. Mulholland stated, and alleged it was unjust to build up coast cities on revenues that should be used to open up the roads and trails of the interior. If Vancouver was to get the plant, the wisest thing for the Prospectors' association was to break away from the coast branches, he concluded.

**WHAT THE CLUBS ARE DOING**

J. W. Gibson, Director of Elementary Agricultural Education, enlarged upon the value of the technical high school now in course of construction here. He emphasized the agricultural standpoint in his address before the Kiwanis Club, New Westminster, at their weekly luncheon and stated that there would be winter courses specially arranged so that the farmers from the Fraser Valley could attend and specialize their attention on certain useful subjects.

**SAFE.**

Edison says we shorten our lives by overeating. Few of us, however, will find untimely graves at present prices.

**NERVE DISEASES ON THE INCREASE**

Many Believe War Strain-Is Largely Responsible For Existing Conditions

Whether the war or the rapid pace at which people are living, both in business and society, is responsible, it is certain that never before were there so many cases of nervous breakdowns or so many attacks of nervous diseases in various forms.

Nerve disease is usually the reflection of some extreme bodily condition such as overwork, sudden shock, or excessive strain. Unless attention is given the trouble the nerves become steadily weaker and the sufferer becomes a nervous wreck, not only physically unfit but also subject to disease of almost any character.

Miss Lucy McKinnon, a Seattle nurse, strongly advises the use of herbs for restoring the nerves to normal condition. As a result of overwork during the flu epidemic she became an extreme nervous wreck. A friend advised her to take Wonder Health Restorer, a herb remedy which has a wonderful record for relieving human ailments. Although prejudiced against the remedy she started taking it and at once noticed a distinct improvement, and a continuance of the use of Wonder Health Restorer led to a relief from the trouble. She then consulted a number of other physicians, drugs or trained attention could give. To-day Miss McKinnon is an enthusiastic friend of Wonder Health Restorer and strongly advises its use.

Wonder Health Restorer is a pure herb remedy, containing nothing but herbs, not a trace of alcohol or drugs. It acts directly on the blood and has accomplished wonders in cases of such widely divergent diseases. Any sufferer from nervous diseases or other bodily ailments should ask their druggist for a copy of "The Road to Health." This booklet tells all about Wonder Health Restorer and gives many testimonials as to its wonderful work.

Wonder Health Restorer is for sale in Victoria at Ivel's Pharmacy, 15 Esquimalt Street, Lang's Drug Store, and at most drug stores throughout the Province. If your druggist cannot supply you write direct to the Distributors, The W. W. McCarter-Bug Co., Ltd., 646 Hillside Avenue, Victoria. Phone 6950.

**VANCOUVER ISLAND NEWS**

**Funeral To-day.**  
Nanaimo—John Hamilton, a resident of Nanaimo for sixteen years, died yesterday at the family residence, 165 Irwin Street. He was a native of Scotland, aged 78 years, and his son, John, of Nanaimo, and three brothers, one of whom, William, resides in this city, survive him. Rev. W. Vance will conduct the funeral service to-day.

**Visiting Maccabees.**  
Nanaimo—The Maccabees of the district will foregather on Monday next for a home coming rally under the direction of the Women's Benefit Association, when lodge work and a general programme of addresses and music will occupy the whole day. The guests of honor are: Dr. Ella J. Fritfield, Surgeon Medical Examiner, of Port Huron, Mich., and Missie W. Aydelotte, Deputy Supreme Commander, of Oakland, Cal.

**Registration Begins.**  
Nanaimo—Registration for the new Provincial voters' list opened yesterday at the office of the Registrar, S. McB. Smith. Commissions for a number of volunteer deputy registrars are expected in a few days.

**The Retailack Matters.**  
Port Alberni—After hearing Major Burde, M. P. P., the Port Alberni G. W. V. A. branch did not see its way to protest against the abolition of the Public Utilities Commission, or the loss to Major Retailack of his job. The president extended the thanks of the association to Major Burde for his work in the Provincial Parliament along the line of endeavor to cut down useless expenditures in favor of necessary works in this district, and also for his earnest efforts on behalf of over-worked sawmill employees.

**Near Beer Sales.**  
Port Alberni—The Board of Police Commissioners has requested the City Council to enact a by-law, under the 1920 amendment to the Prohibition Act, for the licensing and regulating of places where near beer is sold. The commissioners suggest that such places be closed all day on Sundays and from 11 to 6 a. m. on other days, and also that the presence of youths under eighteen years of age be forbidden.

On the suggestion of Mayor Exton it was resolved, on motion of Alderman Manning and Alderman Hart, that a joint meeting of the Police Commission and the Council be held for the purpose of discussing the situation.

This meeting will be held at 7.30 on Monday evening next.

**Cumberland Concert Planned.**  
A monster concert and dance is being arranged for Wednesday, June 9, in aid of the construction fund of the Memorial Hall to be erected soon on Dunsmuir Avenue for the Great War Veterans' Association. At the concert the chair will be occupied by Charles Graham.

**VIE-DE-PEAU**

is a scalp tonic. It does NOT contain oil, alcohol or perfume. Do not use alcohol solutions, as alcohol burns out the natural scalp oil. Your hair will then comb out. To be real sure, ask for Vie-de-Peau.

## What Supports the Heart?

By N. COOK, M. D.

The heart is the hardest worked organ of the human body. It beats on an average of seventy times a minute—from the minute of birth to the minute of death. Every half minute or every thirty-second beat, the whole of the blood in the body is pumped through the heart, so that the dual heart moves about six tons of blood in each twenty-four hours. On the purity of that blood health depends. On the strength of the heart depends the strength of the body.

The question then is, how can we keep the blood pure and the heart strong? What is blood? Blood is only digested food. No man is stronger than his stomach, because physical strength is derived from food digested and assimilated. Deaths ascribed to weak heart and "heart failure," should be called weak stomach and "stomach failure."

It is this dependence of the heart upon the stomach which explains the relief from "heart trouble" effected by the use of Dr. Pierce's Golden Medical Discovery. This remedy is for diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, eliminating from it the substances which corrupt and poison it. Even this alone would take the strain from the overtaxed heart. But Dr. Pierce's Golden Medical Discovery also acts directly upon the heart itself. It strengthens the heart's action.

This is the time of year when we need a reliable tonic. Toxins (poisons) pile up within the body after a "hard winter," and we feel tired out, blue and discouraged. If you want vim, vigor, vitality, try this Spring Tonic of Doctor

## BOLSHEVIKI MUST GIVE PROMISES

Must Meet British Conditions Before Negotiations Start, Says Lloyd George

London, June 4.—Premier Lloyd George stated in the Commons yesterday that trade negotiations between the Allies and Gregory Krassin, Russian Soviet Minister of Trade and Commerce, had not yet begun.

Replying to a flood of insistent queries, the Prime Minister said there were certain questions the British Government wanted to have cleared out of the way before it would undertake negotiations at all. Russia must guarantee that there would be no attacks on British interests in the East or at home while negotiations were proceeding. Mr. Lloyd George declared, and must guarantee to release all British prisoners, whether civil or military.

**Bolshevik Gold.**  
Stockholm, June 3.—Via London, June 4.—The Swedish steamship Gauthiod, which a week ago took a full cargo of automobiles and harvesters to Reval, Estonia, for the Russian Co-operative Societies' account, returned Wednesday, bringing 143 cases of gold, representing a value of £1,000,000. The captain of the steamship told correspondents to-day that a special train arrived Monday in Reval from Moscow carrying £4,500,000 in gold.

**United States.**  
Washington, June 4.—The United States will be represented unofficially at the forthcoming conference in London between Gregory Krassin, Bolshevik Minister of Trade and Commerce, and representatives of the Supreme Economic Council. It was said yesterday by the officials here.

## REMINISCENCES OF FORGOTTEN MINE

Half Century Ago Victoria Interests Were Mining Coal in Queen Charlottes

When the question of coal supply has drawn so much attention to the potential fuel resources of British Columbia, and the coal fields of the North and the Queen Charlotte Island are receiving attention, an item which appeared in a contemporary drawing attention to the development of the Cowgitz mine at Skidegate Inlet, Queen Charlotte Island, just fifty years ago, is of more than

## "My Back Is So Bad"

PAINS in the small of the back, lumbago, rheumatism, pains in the limbs all tell of defective kidneys.

Poisons are being left in the blood which cause pains and aches.

The kidneys, liver and bowels must be aroused to action by such treatment as Dr. Chase's Kidney-Liver Pills.

There is no time for delay when the kidneys go wrong, for such developments as hardening of the arteries and Bright's disease are the natural result.

One pill a dose, 25 cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto.

## Dr. Chase's Kidney-Liver Pills

passing interest. While the result of that pioneer effort was undoubtedly disappointing, it is of interest for two reasons, one that it was promoted by a Victoria syndicate in 1865, and was one of the serious efforts to produce coal at tidewater, and the other reason was this, it was the first systematic examination conducted by James Richardson, of the Canadian Geological survey.

Under the terms of Confederation, and incidentally, it was an after thought as the debates of 1870 show, the Dominion Government agreed to instigate a geological investigation of this Province. In consequence of that investigation the work of James Richardson and Dr. Dawson was commenced, and a recent memoir of Dr. Mackenzie bears tribute to the work of those pioneer geologists in the Queen Charlotte Islands. In the Summer of 1871 Mr. Richardson made an investigation of the coal deposits of the Cowgitz mine and reported favorably upon it. However, Mr. Mackenzie, in his recent memoir on Graham Island says the workings are all caved and obscured by underground. The discovery was made by Mr. Downie in 1859 at Cowgitz.

### SAFE ENOUGH.

When young Trotter left school his father started him as an apprentice in a motor factory. After a couple of months, however, he

found that he was not suited to that calling, and tried canvassing, which he didn't like either. The next couple of years saw Trotter doing a sort of procession through various offices and shops in search of an ideal job. Then he landed in a branch of Griffin's Universal Grocery Association, and Trotter, senior, began to think that his son had settled down at last. He was full of enthusiasm for his work

very loyalty was his undoing. One morning a lady with fire in her eye and a packet of matches in her hand entered the shop and made straight for Trotter.

counter. "You told me these were safety matches, and not one of 'em will strike!" "Well," said Trotter, in a misguided determination to save the reputation of the firm, "you couldn't have anything safer than that, could you?"—Tit-Bits.

### PAINFUL INDEED.

"There was a painful courtship." "Yes?" "He is a dentist, and met her first as a patient."

## Sooke Waterworks Flowline, Condition of Which Will Be Investigated Further

The upper picture (insert) shows the process by which the Sooke waterworks concrete lock-joint pipe flow line from the Lake to Humpback reservoir was laid, while the lower shows the pipe in the trench on the open mountain side. It is alleged that there is a 20 per cent. average loss in water between the Lake and the reservoir, owing to the lack of expansion joints in the pipe to take care of the fluctuations of temperature of exposed pipe along the hillside. The only important length closed is at the Schoolhouse cut, Goldstream. A plea for an expert investigation has been deferred by the City Council until an aldermanic party has had the opportunity to visit Sooke Lake. The pictures are selected to show the method of laying, and of its position on the hillside around Mount Shepherd.

## FLEET FOOT

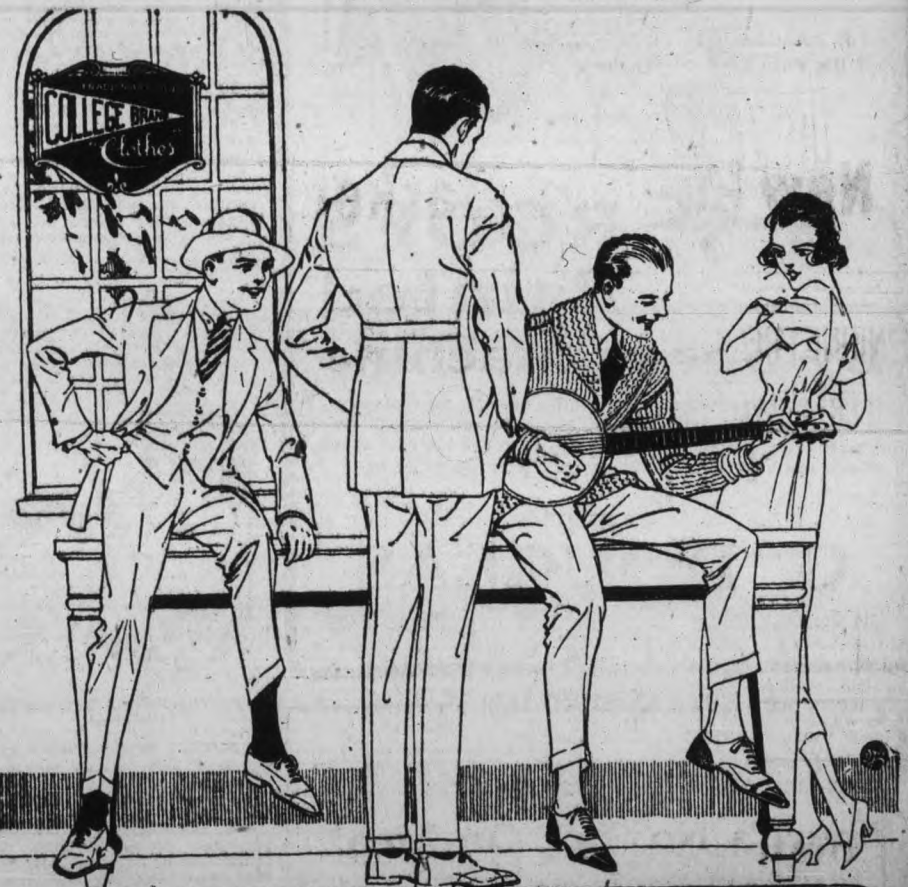

For Every Sport and Recreation

## Newlyweds Heavily Hit By New Budget Taxes

Those on the Business of Furnishing New Homes Find Luxury Assessments Pinch Them.

Those about to wed are by all reports too mutually interested to take any note of what is going on in the world about them. In their hunts through the stores, however, for those things which are necessary to furnish their nests, they are beginning to find it quite possible for Sir Harry Drayton's budget to crowd into their lives by way of enforcing from them a contribution for the cost of the great war. Furnishing the nest will, in some instances, cost more this week than last.

Enquiries made by a reporter in the stores, establish the fact that it is possible to furnish a house from attic to basement without running foul of the new taxes to any serious extent; also that it is quite easy to find that the taxes on various articles have amounted to a hundred dollars or so without going to any great lengths in the way of extravagance.

**Hard-Hearted Tax.**  
If the engagement ring is already bought, that will be a help to begin with. A solitaire diamond ring, say \$50, carries a tax of \$6 along with it. The reporter was told of a woman who had been nibbling for a week past at a three-stone diamond ring, tagged at \$75. She couldn't quite make up her mind. At last she determined to have it, but by that time the new tax was on, and the clerk told her that she would have to pay a tax of \$145 additional, bringing the cost up to \$220. She refused.

**At Sea As To Tax.**  
Enquiries at the stores elicited the fact that on many points merchants are at sea. For instance, Oriental

ding ring. In the great democracy of matrimony it was decided to start all three off with \$5 wedding rings, on which the tax was \$1, bringing the total cost of this symbol of eternity up to \$6. Of course, the \$3,000 man might have thought he should provide his wife-to-be with a \$65 platinum ring instead of the usual gold band, in spite of the \$13 tax which it would involve, but apart from the figure "13" being notoriously unlucky, it would be well to need all his money to furnish his nest. The \$2,000 doesn't go any further than the \$1,000. It buys things a little different—that's all.

Take the kitchens of the three houses first. It can be equipped with perfect satisfaction without any necessity of paying any tax. Let us call the three men A, B and C. Here's how they may dispose of the outside bills from their rolls:

	A	B	C
Table	\$5.00		
Cabinet	\$30.00	\$40.00	\$40.00
Refrigerator	15.00	40.00	70.00
Gas stove	20.00	30.00	
Two chairs	2.70	6.00	10.50
Saucepans	3.04	4.00	6.00
Kettle	4.70	5.00	6.75
Linoleum	17.40	24.00	33.00
Window blind	2.00	2.00	2.00
Total	\$69.84	\$137.00	\$212.25

If any fair reader should scoff at the proportion devoted to these tables to various articles, she must remember that a man reporter is imagining himself in that blissful state in which the amateur house furnisher is liable to lapses in perspective.

### Felt in the Dining-Room.

	A	B	C
Eight-piece set	\$100.00	\$250.00	\$400.00
Carpet	22.00	48.00	60.00
Curtains	4.00	6.00	10.00
Dishes	14.75	38.50	50.00
Cut-glass fruit bowl		5.75	10.00
Cut-glass jug			
Half a dozen glasses			3.90
Cutlery	20.00	35.00	50.00
Spoons	5.70	30.00	82.50
Total	\$166.50	\$413.25	\$674.90

It is easy to see that the \$3,000 man is temperamental. He believes in getting the best silver at the start—it lasts a lifetime. Also he likes cut-glass, while the \$1,000 man is not figuring on glasses at all, just yet. This is where the tax enters. The \$3,000 man escapes with a tax of 57 cents on his spoons and 85 cents on his forks; everything else escapes. The \$2,000 man pays \$1.55 on his forks, 58 cents on his cut-glass bowl, and \$3 on his spoons, which are plated. He also pays \$9.50 on his carpet, which is Brussels at over a yard. Altogether he pays \$14.73 tax on his dining-room as against the \$1,000 man's \$1.42. The \$3,000 man doesn't pay anything on his rug, as he bought a rug which is apparently not taxed, though it cost more than the \$2,000 man's carpet. But he pays \$1 on his cut-glass bowl, \$1.25 on the jug and glasses, \$4.50 on the cutlery and \$16.50 on the spoons, which are solid silver, making altogether \$23.25 on his dining-room.

### And in the Parlor.

	A	B	C
Rug	\$36.00	\$60.00	\$225.00
Piano	300.00	400.00	550.00
Phonograph	25.00	75.00	100.00
Chairs, etc.	88.00	110.00	270.00
Portieres	13.00	16.00	43.00
Curtains	10.00	15.00	20.00
Overcurtains	5.00	15.00	4.00
Total	\$477.00	\$691.00	\$1,248.00

Mr. A pays \$30 tax on his piano and \$20 on his phonograph, a total of \$50 tax on his drawing-room. Mr. B pays \$40 on his piano, \$7.50 on his phonograph, and \$3.20 on his portieres, a total tax of \$50.70 on his parlor. Mr. C's temperament is against costing him money. He could not pass the \$255 Oriental rug, cives though he would have to pay \$45 tax on it. He also pays \$55 on his piano, \$10 on his phonograph, \$3.85 on the material of his portieres, \$15 on a pair of velvets, and \$3 on his over-curtains, which are of silk fabric, while those of A and B are of chintz. He pays a total tax of \$136.55 on his parlor.

**Bedrooms escape.**  
The bedrooms escape tax, the curtains and carpets being under the taxable figures. A spends \$149.50, B spends \$211.50, and C \$203.50. The halls and stairs can wait. Electric fixtures cost A \$35, B \$50, and C \$75. There is no tax on them.

The blinds cost A \$15, with no tax; they cost B \$20, with \$1 tax on the lace trimming, while C pays \$50 and \$3 tax on the lace trimming to his window blinds. Free of tax is household linen. There are A's costs \$90, B's \$95.50, and C's \$211.50. A and C now find that they have both overspent themselves. A has provided furnishings at a cost of \$1,012.84, on top of which is a tax of \$34.92, making a total of \$1,047.76. C has spent \$2,879.65, with a tax liability of \$144.14, making a total outlay of \$3,023.79.

## SHORT OF BREATH Could Hardly Walk Without Resting

When you go to a physician to be examined for any heart trouble one of the first questions he asks is: "Are you short of breath?" "Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung Milburn's Heart and Nerve Pills are just the remedy you require. They regulate and stimulate the heart, strengthen and restore the whole nerve system.

## The Friendly Smoke

There is something mighty comforting and satisfying about "OLD CHUM" Tobacco; a sort of soothing restfulness that pipe smokers have come to associate with this friendly smoke.

"OLD CHUM" is an old, old chum with all pipe smokers.

It has the perfect tobacco taste—the mellow richness—and men know that they can be chummy with "OLD CHUM" all day long and that the "good night pipeful" will be as sweet and cool as the one enjoyed just after breakfast.

For years and years "OLD CHUM" has been Canada's favourite pipe tobacco and today is more popular than ever.

Canada's Favorite Pipe Tobacco.

## A BEDTIME STORY

UNCLE WIGGILY AND JUMPO'S SLIDE.

By HOWARD R. GARIS. Copyright, 1920, by The McClure Newspaper Syndicate

One day Uncle Wiggily, the bunny rabbit gentleman, saw Jumbo Kinkytail, the monkey brother of Jacko, scurrying through the woods.

"Where are you going, Jumbo?" asked Uncle Wiggily. He had been looking for an adventure, but up to this time, had not found any.

"Oh, I'm going to the store for my mother," answered Jumbo. "Do you want to come with me, Uncle Wiggily?"

"I might," answered the rabbit uncle. "I haven't found any adventure by myself, and I may come across one if I hop along with you, Jumbo. Yes, thank you, I'll go."

So the rabbit gentleman and the little monkey boy went along through the woods together, and when they reached the store, Uncle Wiggily saw Grandpa Goosey Gander outside.

"You go in and get what your mother told you to get, Jumbo," said Uncle Wiggily to the monkey boy. "I'll wait for you outside here, where I can talk to Grandpa Goosey."

So, while the monkey boy went in the store, Uncle Wiggily and Grandpa Goosey talked about how Jacko, the day before, had put out the fire in the old gentleman gander's

house by squirting on it milk from a coconut. "Is your house all right now?" asked Uncle Wiggily of his friend.

"Yes," answered Mr. Gander. "Grandpa Whackum, the beaver gentleman, and Toodle and Noodle, the beaver boys, are building a new part for the place where the fire burned before Jacko put it out with the coconut milk."

Then Jumbo came out with what he had bought for his mother, and he and Uncle Wiggily and Grandpa Goosey went on together. Pretty soon they came to a slanting cellar door, at the house where Buddy and Brighteyes, the guinea pig children, lived.

lar door!" said Buddy, coming out just then.

"Why not?" asked Jumbo. "Because it's too rough," went on said Jumbo.

And, a little later, when Uncle Wiggily and Grandpa Goosey, who had been talking about when they were boys, looked toward the cellar door, there were Jumbo, Buddy and Brighteyes, sliding down as fast as anything.

"Why, I wonder what Jumbo did to the door to make it smooth?" asked Uncle Wiggily.

"I don't know. Let's go and see," suggested Grandpa Goosey. And when they drew near Jumbo cried: "Come on! Have a slide down the door!"

"Shall we?" asked Uncle Wiggily. "Yes!" quacked Grandpa Goosey. So the gander gentleman and the bunny uncle took turns sliding on the slippery cellar door with Jumbo, Buddy and Brighteyes, and they had fine fun. Grandpa Goosey didn't care how his feathers were ruffled, and when Uncle Wiggily went down backwards and bumped into Jumbo, he only laughed.

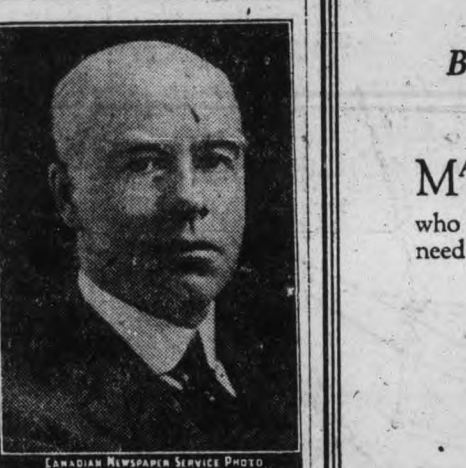

"It is good for my rheumatism," said the bunny.

Then, all of a sudden, along came Mrs. Kinkytail, the monkey lady.

"Oh, Jumbo!" she chattered. "Where is the cocoa butter you went to the store to get? Where is my cocoa butter?"

"It's in the cellar door, ma," answered Jumbo. "The door was so slippery and rough that we couldn't slide down until I spread the cocoa butter on, and now it goes fine! See!" and down slid the monkey boy.

## EXPERT AT MAINLAND FISHERY CONVENTION

ALFRED H. BRITTAIN

vice-president and general manager of the Maritime Fish Corporation, Ltd., one of the largest Atlantic fish producers in Canada, is also vice-president of Schultz Manufacturing Company, Hamilton, Ont. The Maritime Fish Corporation was organized by Mr. Brittain in 1911, at which time he was appointed managing director.

He was one of the organizers of the Canadian Fisheries Association, and has been president since 1918. He was the pioneer in the shredded cod-fish trade of inland Canada; one of the first to successfully undertake steam trawling on the Atlantic coast, and a leader in the frozen fish trade between Canada and Great Britain. He is a member of the National Fisheries Protection Association of Great Britain.

Mr. Brittain has arrived at Vancouver, with other prominent Easterners, to attend the National Convention June 3, 4 and 5.

## TOO MUCH IMAGINATION.

Perkins was feeling decidedly queer; he couldn't get on with his work; he couldn't do anything. So he decided to pay a visit to the doctor.

## Borden's Evaporated Milk in the Far North

MANY a case of Borden's goes by dog sled way up into the far North. Men who need wholesome, nourishing food and need it in liberal quantities know that

## Borden's ST. CHARLES BRAND EVAPORATED MILK

with the cream left in

takes excellent care of the milk problem.

The trapper in the far North, miles and miles away from a dairy, is as well supplied with rich, wholesome milk as the family living in the city or in the heart of the dairying country.

You don't have to go to the country for fresh, country milk. Your grocer, anywhere, can supply you.

Don't ask for milk—say "BORDEN'S" For every milk use

THE BORDEN COMPANY, LIMITED MONTREAL, P. Q.

Canada's National Milk

Didn't I tell you there was a great in imagination? "That's true," said Perkins. "What is your charge?" "One guinea," said the doctor. "Well, imagine you've got it!" said Perkins.—Tit-Bits.

GOT THE WRONG OFFICE. "Got any mail for Mike Howe?" asked the stranger at the small town postoffice window. "No, nor anybody else's cow," retorted the indignant postmaster.

JASTORIA For Infants and Children. In Use For Over 30 Years

## Ten years without a corn

Countless people boast that record now.

Years ago they started using Blue-jay. Never since has a corn pained twice. And never has a corn stayed a week.

You can quickly prove that corns are needless. Millions have already done it. Think what it means.

No more paring, no more pain, no more unsightly pads. Dainty shoes without unhappy hours.

Apply a touch of liquid Blue-jay or a Blue-jay plaster.

The corn pain will end. And soon the whole corn will loosen and come out. The action is gentle but sure. Blue-jay is the scientific method, created by this world-famed laboratory.

It is not like the methods which are harsh and crude.

Try Blue-jay on one corn. Buy it tonight from your druggist. Live the rest of your life without corns.

## LETTERS

Letters addressed to the Editor and intended for publication must be short, and legibly written. The longer an article the shorter the chance of insertion. Communications must bear the name and address of the writer, but not for publication unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

### SAANICH COMMISSIONERS REPLY

To the Editor.—Will you please publish the following copy of a letter we have addressed to the Editor of The Colonist, and oblige?

G. F. WATSON,  
P. D. DEMPSTER,  
JAMES OWENS,  
Police Commissioners of Saanich,  
Victoria, B. C.

Dear Sir.—Your editorial in today's issue such as calls for a reply from some source of "authority in the open," as when a paper with such a large circulation practically advocates violation of the law, especially in such a matter as the dangerous practice of speeding on the public highway, a practice dangerous alike to those who indulge in it, and to others who may use the highway in a safe and sane manner.

We have no objection to the hundreds you speak of enjoying a pleasant outing on our municipal highways every week-end, but as users of motor cars we positively object to converting these highways into speedways, and if the motorists you are sympathizing with have any regard for law and order they would never be hailed before the magistrate and made to pay the price which follows in such cases.

There is absolutely no excuse for the practice which in a roundabout way you are defending. The regulations as regards speed are Provincial Statutes and every motorist ought to make himself familiar with them. Every modern car is equipped with a speedometer and if the drivers of these cars care to do so it is quite easy to keep within the limits of the law and save themselves the expense and trouble which has accompanied their doing otherwise.

Your argument that warning should be given is surely in poor taste when year after year warnings have gone by unheeded as the continual appearance in court of speeders abundantly proves. Year after year serious accidents have happened as a result of such practices, and we believe that the

police department is doing no more than its duty in trying by the only method at their command to put an end to the dangerous practice.

As you say, the law must be adhered to and in motorists have the cure for the evils you speak of in their hands. The practice you speak of, "authority in hiding," would not be necessary, neither would it be necessary for you to speak of cowardly tactics and unclean-minded individuals if the parties you sympathize with were manly enough to keep the law, and clean-minded enough to respect the rights of others who use the highway.

Yours truly,  
G. F. WATSON,  
P. D. DEMPSTER,  
JAMES OWENS,  
Police Commissioners.  
Gordon Head, B. C., June 1, 1920.

### WANTS SOLDIER PARTY.

To the Editor.—I wish to say to naval and military men: If you can read the writing on the wall you will see a Provincial election taking place this Fall, probably contemporaneously with the plebiscite on prohibition.

I appeal to all soldier and naval organizations to unite, and through a caucus select four candidate members for this city, who must be finally pledged to consider the welfare of returned men and their dependents first, last and always.

Will you do it?  
VETERAN.

### NEGLECTED OPPORTUNITIES.

To the Editor.—In a Swiss comparison of acetylene gas and gasolene for use in automobiles, it was found that with acetylene the motor proved less liable to over-heat and the cylinders and valves were much freer from deposited carbon than when gasolene was used.

To many persons the preparation of acetylene is more or less of a mystery; but after all, the process is a very simple one. The raw material used in the manufacture of calcium carbide (from which acetylene is obtained) are limestone and coke; other important factors to be considered are a suitable site for the works, cheap raw material, and a large and constant water-power.

The limestone must be free from magnesia and phosphoric acid. To prepare one ton of calcium carbide 2,000 lbs. of limestone and 1,000 lbs. of coke are employed. The electric furnace used is of a simple cubical form. The carbon electrodes carrying the current pass into the furnace containing the mixture and in a short time the calcium carbide is produced.

A moderate-sized works uses about 1,500 kilowatts of current to produce 50 or 60 tons of carbide per week. The temperature within the furnace is about 5,500 F.

To supply the gas for use in the motor, acetylene gas is prepared in two ways: either by mixing calcium carbide with calcium sulphate contained in a metallic cylinder, into which an iron rod passes, the outer end of which is heated by means of a small lamp, the gas being given off in a steady stream required. Or, by the ordinary method of mixing water with the carbide.

In British Columbia we have an unlimited quantity of the raw materials (coal, coke, and limestone), also multitudes of suitable sites for the works and several millions of horse-power running to waste. It will be found on investigation that there is an unlimited demand for calcium carbide in the markets of the world. It would appear that some one of our government departments should seriously consider this matter, and assist in the establishment of calcium carbide works in British Columbia. At several points in Canada, including Scheffingen Falls and Niagara Falls, large quantities of this material are being produced, from which materials used as fertilizer, etc., are prepared.

At the present time it is quite impossible to prepare sufficient calcium carbide to meet the demand, and there would be no danger of over-production.

It is to be hoped that in the contemplated system of technical education to be established in this Province the various processes employed in the manufacture of well known commercial products will be given a prominent place. Without such special instruction no one can understand the requirements of the trade; and there are a number of well known substances that could be manufactured here, as readily as in any part of the world.

At the present time, when all the raw material in each country should be utilized, it would be well worth while to study this matter very carefully.

### WRITING HISTORY OF FAMOUS REGIMENT

King Edward Horse to Be Perpetuated in Book by Commanding Officer

The commanding officer of the King Edward Horse, Lieut.-Colonel Lionel James, writing from London, England, has asked The Times to print the following communication with the object of rounding up all former members of that famous unit: "During the great war 1st King Edward's Horse put out from its ranks no less than 550 young colonials to the commissioned ranks of the British armies in the field. An historical record of King Edward's Horse is now being prepared and the commanding officer would like to have included a record of the military achievements of those officers who were commissioned from its ranks.

"Many (alas) have paid the highest price that patriotism demands, but it would help to make the record complete if relatives would give the date and circumstances of their death, and if late members of the regiment would send a short record of their own services in the war to the Adjutant, King Edward's Horse, Duke of York's Headquarters, Chelsea, London.

"A memorial of those of the regiment who were killed or died in

### DOMINION

A mysterious artist aroused the curiosity of members of the cast of "Double Speed," the motion picture in which Wallace Reid stars at the Dominion Theatre. First, pretty Wanda Hawley, the leading woman, found a sketch of herself pinned to the chair which she occupied between scenes. Then a cartoon of Theodore Roberts, who plays the bluff financier in the picture, was found in his dressing room. It was not long before every member was exhibiting pencil sketches of themselves, even to Sam Wood, the director, and the cameraman. Not one could tell who the artist was. Since the drawings were done on paper found only in the studio, it was evidently an "inside job." It was Miss Hawley who finally

Royal Victoria—Orpheum vaudeville.  
Princess—"Which One Shall I Marry?"  
Pantages—Vaudeville.  
Dominion—"Double Speed."  
Variety—"The Invisible Bond."  
Columbia—"Daddy Longlegs."

solved the mystery. Hurrying to her dressing room during a brief halt in the action, she spied Wallace Reid watching the fat property man out of the corner of his eye and sketching industriously. She stole up and looked over the handsome star's shoulder. He was at work on an exaggerated cartoon of the property man. And, questioned sharply, he admitted that he was the perpetrator of the other bits of art.

It seems that Wallie started out as a cub reporter on a small town newspaper and learned sketching as one of the tools of his trade.

### VARIETY

"The Invisible Bond," the new picture starring Irene Castle, which is on view at the Variety Theatre for the balance of this week, is a screen version of what happens when a young husband insists upon his "personal liberty" and the right to associate intimately with attractive young women of his acquaintance. It was adapted from Sophie Kerr's recent novel, "The See-Saw."

The story centers around the married life of Harleth and Marcia Crossley, the latter role played by Mrs. Castle. Harleth has an affair with a coquette named Lella Templeton which leads ultimately to a divorce between the Crossseys. Thereupon the ex-husband marries his ex-charmer and discovers that her views on "personal liberty" are the same as he expounded to Marcia and that she reserves the right, though married, to consort with other men. In the end Lella meets a tragic death through an automobile accident in which one of her male flames, infuriated by the manner in which she has played with his affections, plunges them both over a high cliff.

The picture is a Paramount-Artcraft and is played by an excellent company. Huntley Gordon, Mrs. Castle's leading man, and Charles Maigne was the director.

### COLUMBIA

The most appealing baby types were selected to be actors in "Daddy Long Legs," and with Mary Pickford among them acting the part of a little girl, as only she can, the ever moving action becomes a series of the most laughable and touching pictures of child life. Marshall Neilan, who directed the picture, shows himself a master of the humorously interesting in his handling of his child actors particularly. One of the most humorous bits is that in which Judy and a freckle-faced little boy decide to lead the orphans in a "prune strike." Outwitted by the matron, they are driven into the yard without food. They find a jug of hard cider and some sandwiches which, innocently enough, they consume, whereupon they both become gay, and get into all sorts of mischief. "Daddy Long Legs" is showing at the Columbia to-day and to-morrow.

### PANTAGES

"Dell-A-Phone," who is amazing audiences at the Pantages Theatre this week with fifteen minutes' of vocal imitations, embracing almost everything from a telephone to a buzz saw, is the seventh son in a family of twenty-four children. His real name is Peter Kelly, Jr. He was born in Montreal, and is of French-Canadian descent. He declares that he has never attempted to train his voice; that his ability to imitate almost any sound or noise he hears is a gift, and he attributes it to his being the seventh son. Headlining the present bill at the Pantages is one of the highest class musical offerings in vaudeville, the Seven Colonial Belles. Their act is one of delightful melody throughout. Comedy is provided by Jennings and Mack, in their novelty skit, "The Camouflage Taxi," and a spectacular added attraction in the scenic and action offering of the Famous Hiding Loyds in "The Sioux Indian Pastimes on the Prairies." There are three other good acts, and the sixth episode of "The Adventures of Ruth" on this excellent vaudeville programme.

Vitagraph has acquired a navy hydro-aeroplane for use in its big special production, "Trumpet Island," by Gouverneur Morris, which is being directed by Tom Terriss. A lieutenant and two mechanics were assigned to the studio to put it in perfect order.

### PRINCESS

Next week's offering of the Mildred Page Players at the Princess Theatre, "So Long Letty," promises to be a rare treat for those who have a tendency for comedy, though throughout there is a pretty little love story, full of plenty of punch and moral, telling of the man who likes to hang around the clubs, playing the slot machines and drinking soft drinks with the

MISS MILDRED PAGE

single men; of his wife who is home waiting dinner for him, and who waits every night, in spite of the promise of never again; of his next-door neighbor who likes to get home every night direct from the office, look after his lawn and tinker around the house, but whose wife likes to take in all the matinees and card parties, rush home, fry her hubby an egg, and explain to him how busy she has been all day. The two men finally decide to trade wives. Then the fun begins, and to appreciate the funny situations you will have to see the play.

### CAST OF STARS IN "A SPLENDID HAZARD"

Five of the players appearing in "A Splendid Hazard," Allan Dwan's third independent production presented by the Mayflower Photoplay Corporation through First National have been starred individually. They are Henry B. Walthall, world famous actor; Rosemary Theby, who was featured prominently in serials and dramatic offerings; Norman Kerry, well known leading man; Joseph Dowling, who will be remembered for his performance as "The Miracle Man" and Ann Forrest, who has starred in a number of Universal's western productions.

### GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia to Overcome Trouble. Caused by Fermenting Food and Acid Indigestion.

Gas and wind in the stomach, accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and flat right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

### JOSEPH HOWARD IN TUNEFUL ROMANCE

Orpheum Will Present Beautiful Girls in Musical Number

Another big feature musical act will hold the boards at the Orpheum night, when Joseph Howard brings to-night, Saturday matinee and his new and tuneful romance "Chin Toy" with Ethelyn Clarke, Max Ford, Jack King, Sun Ki Gee and a bouquet of beautiful girls. The act is filled with musical numbers galore, such as only Howard knows how to put together for the delectation of vaudeville patrons. Scenically it is full of magnificent investiture and the act runs for about forty minutes. Mr. Howard has gained a great reputation as a vaudeville and his supporting company in this revue is all that supporting companies should be.

Chester Spencer and Lola Williams are an amiable pair that have a few amusement trumps that apparently have not been played before. They have little difficulty in scoring with their auds, but a little of this and a little of that and a great deal of Spencer and Williams which is a very satisfactory result.

"Fixing the Furnace" is the title to the sketch which will find favor on next week's bill. It is offered by George Rolland and company and the temperature is twenty below zero. The fun that can be had out of coaxing a furnace to perform its proper functions will be realistically portrayed by Mr. Rolland's company. Bruce Morgan and Franklyn Gates in an absurdity entitled "The personification of nonsense" will offer just what the title calls for. They are eccentric comedians and eccentric dancers. Their skit has no whys or wherefores and was constructed solely for entertainment and laughs. Early and Early will present a novelty entirely different using Egyptian rings. These two people are the only ones doing this kind of an act and they execute their feats so rapidly that they cause the audience to sit in astonishment. They are making a strong bid for favor with Orpheum fans.

Bill Robinson, the black daffodil, formerly of Cooper and Robinson, one of the best blackface teams known to the stage has an offering which is proving most acceptable. He depends upon his irresistible humor to carry his act across. He sings, dances and talks and does all three in a way that proves meritorious from an entertainment viewpoint.

That comedy will prove to be one of the big features of next week's bill is evident from the announcement that Redington and Grant will also be seen here "In Bounce Inn." They are merely human rubber balls. Redington accomplishes the difficult feat of playing a mandolin while bouncing. This stunt took many years of practice.

The popularity of the Literary Digest films and the Canadian educational pictures continues to ascend. With this feature and the orchestra there will be a splendid bill.

### DAL CLAWSON "SHOOTING" FOR WALSH

Dal Clawson, one of the best known cameramen in the profession has arrived in New York from the Pacific Coast to assume the post of head cameraman for the R. A. Walsh organization. Clawson will supervise the photographing of the director's forthcoming independent production to be presented by the Mayflower Photoplay Corporation through First National.

Robert Gordon will be Alice Joyce's leading man in her Vitagraph feature to follow "The Prey." He plays opposite her in "Dollars and the Woman."

# CATHCART'S Greatest SHOE SALE

In announcing this sale there is but one reason to offer. I'll put it in Mr. Cathcart's own words: "There's but one excuse, we bought too many shoes!" There's the whole story—"too many shoes!" Fact is there are all the shoes the store needs—and twice as many more! Half of them are to be sold, and you are to select the half that's to go. We're satisfied with the half you leave—just as soon have it as the half you take, so have your choice of the entire stock. They're all on sale, not a pair reserved. In order to make a quick disposal of the overstock, I've grouped all the shoes in the house into just as few prices as possible. In nearly all instances these prices are much below the wholesale values—in many cases less than half. And, mind you, this merchandise was bought far under to-day's prices. You know the kind of shoes this store has always sold—nothing but the best—and you know that to buy them at such prices as these you're saving real money. Good shoes won't sell again at these prices soon—remember that. There's no reason to expect it. In fact, all indications point to higher prices than ever. So make your shoe money go the limit and avail yourself of this wonderful opportunity.

## STARTS TO-MORROW AT 9 A.M.

**Women's \$8.00 to \$12.00 Boots  
Oxfords and Pumps**

## GOAT SHOW WILL BE FEATURE AGAIN

Second Exhibition To-morrow Will Bring Many Animals Together

The second Annual Victoria Milk Goat Show, which will be held to-morrow on the vacant lot behind the City Hall, is going to be a show worth seeing, according to the goat men in the city. They have been busy for some weeks getting everything in shape, and guarantee they will open the eyes of the general public, not only with the stock shown, which will surpass last year's, both in numbers and quality, but with the variety of goat products offered. Goat's milk, goat's milk cheese, candy and ice cream made with goat's milk, will be on sale, and everyone will have an opportunity of learning how delicious these products are. Canned goat's meat and tanned goat hides will also be exhibited.

There is no doubt that this young industry is making considerable progress in Victoria and district, and goats, instead of being somewhat of a rarity, are getting to be quite common in some localities. This is not to be wondered at when it is considered how useful these little animals are. As supplies of wholesome and rich milk for the household at low cost, there is nothing to beat them, and all that hinders their more general use is the difficulty in getting stock.

It needed the war to bring home to people that there was something worth while which had been overlooked, but our friends south of the line realized it first and have been holding on to their stock. At present, owing to quarantine regulations in force, it is impossible to import from Europe, and breeders have to depend on the United States for goats. The shortage in supply has meant a rise in price, but this has not daunted breeders, who maintain that the goat industry has a very profitable future; in fact \$1,000 is getting to be quite a common figure for high-class stock.

The goat float in the recent Hudson's Bay Company's Pageant was a feature which attracted considerable attention and many complimentary remarks, and it is expected that the interest aroused will result in a large attendance at the show.

### RIGGER OFFERS GOOD EXPLANATION OF AEROPLANE CRASH

An interesting sidelight on the Curtiss machine, that may possibly have some bearing on the unfortunate crash that occurred with the Pacific Aviation Company's machine in Vancouver—has just been brought to light by the explanation of W. Coupland, of this city, who is well-versed in the technical rigging of the Curtiss biplane.

He states that it is possible in certain positions to jam the corner of the trailing edge of the elevator right through the rudder, and in this position the controls will remain locked until the rudder is first brought to its central position. The corner of the elevator—in stunting, such as a spin—will force its way through the rudder that has

been kicked "hard-over" and catch under a metal cross bar in the rudder frame. If now the rudder be straightened, he adds, the elevator will become free, but should the pilot endeavor to move his elevators first they would remain fast in the rudder frame.

In a spinning nose dive the rudder is put "hard-over" while the elevators are raised to their limit. To a pilot unused to this peculiarity of the Curtiss biplane it would be most probable that the jam—if such there was—occurred in this manner. It is a point in the construction of the Curtiss that might be remedied by the Air Board—as the machine has been sufficiently long in Canadian Training circles to be well known.

### POLITELY PUT.

Ten p.m.: There was a lot to do at the office; and despite the lateness of the hour, the staff were still at work.

The head of the firm looked sternly at the young man over his gold-rimmed glasses. Then—

"So you've a complaint to make, have you?" he asked, fiercely.

"Not exactly a complaint, sir," said the other, "but there is just one little matter about which I should like to speak to you."

"I gave you more money the other day," growled the chief. "What's it you want this time? Shorter hours—eh?"

"Oh, no, no, sir! I do not feel it incumbent on me, I assure you, in any way to tamper with our present quite excellent chronological system. For my part, I am perfectly content that the hours should retain their present length. All I wish is—fewer of them as applied to my daily period of work."—Tit-Bits.

## USING AMERICAN TOURISTS TO RIGHT EXCHANGE CASE

Herbert Cuthbert Shows How "Rivers of Gold" May Flow Into Canada

An illustrated address on highways and tourists was given before the Canadian Good Roads Association at Winnipeg, yesterday, by Herbert Cuthbert, Executive Secretary, Pacific Northwest Tourist Association. Mr. Cuthbert said in part: "In the age when highways were used only by horses there were very few good roads associations, and it was almost unknown to advocate the building of a highway to encourage tourist travel. The older countries of Europe learned many years ago the benefit there was in encouraging tourist travel. America and Canada have not learned that yet—not quite. The business men, until a few years ago, took absolutely no interest in it. They are taking a little more to-day but not so much as they ought.

**Benefits to Farmers**  
"The farmer probably is the man who has taken the least interest in it and yet he is probably the man

who is benefitting most by it and doesn't know it. A good road to a man's farm enables him to get in his supplies more readily and more cheaply. It enables him to get his products to market expeditiously and at a much less cost, lowering the price to the consumer and increasing his own profit. It also increases the value of his farm to a possible purchaser, just as much as a permanent street in a town improves the value of the residences along it. Most of the good roads of the highways demanded by the farmers in the Pacific Northwest would never have been built had it not been that the Good Roads Association advocated them, because they would be available to the tourist and would bring in a revenue therefrom. The expenditures in the country by the tourist largely flow into the pockets of the farmers, through the purchases that are made at hotels, boarding houses and private families, especially the poultryman, the dairyman and the truck farmer. The automobile has changed the whole attitude of the people towards highways. It first came as a luxury. To-day it is one of the greatest necessities of the age. The first automobiles were purchased by men of wealth and of leisure for pleasure, and out of these early purchasers came the nucleus of our good roads associations.

**Rivers of Gold**  
"Our highways have become rivers of gold. Few people realize the amount of money spent annually by tourists. In the State of Maine, Forty Millions is spent a year; in Colorado Forty Millions; in New England One Hundred Millions; while in Cuba it is second only to the tobacco crop. In Canada, the returns from the tourist crop consti-

tutes its fourth principal source of revenue," said Mr. Cuthbert.

To the people of Canada this is a more important subject than 99 per cent. of them have ever realized. An influx of tourists into Canada means an immense cash revenue which is brought into the community in return for which nothing is sent out of it. This must surely be appreciated in these days when the rate of exchange has been so high between Canada and the United States, to the inconvenience and loss of many people on both sides of the line.

May I say that the development of a highway system in Canada that will reach from ocean to ocean is the very best investigation from every point of view that Canada can make. The man who claims that the building of this highway is a luxury or simply for the pleasure of a minority of the people is foolish.

**Money From Tourists**  
"It matters not to Canada whether American money is brought into the country for the payment of wheat or for the payment of the pleasure of touring its roads, seeing its scenery or enjoying a vacation in its mountains or on its lakes and in its forests. But, on the other hand, the money brought into a country by the tourists is of more value than that which is brought in for the purchase of wheat or any other commodity because nothing is shipped out in payment, and the whole money remains there. In other words, the building of a national highway and the enlargement of tourist travel will lead the people of America to pay Canada not less than One Hundred Million Dollars a year for nothing. This, however, will be largely repaid to America through the stabilization of exchange."

Until this association was formed, the Pacific Coast was considered by most people to consist only of California, and the automobile tourists have been going to that state in immense numbers. Therefore, we are advocating the building of all the highways possible in the northern part of this continent so that, this travel might be brought into the Pacific Northwest.

Mr. Cuthbert then gave illustrations of the attractions in the Pacific Northwest for the tourist and also showed some of the newly constructed roads, especially in the states of Oregon and Washington. He proceeded: "During the next two years not less than Sixty Million Dollars will be spent on permanent

highways in British Columbia, Washington and Oregon. The British Columbia government alone contemplates an immediate expenditure of Five Million Dollars."

For the better part of an hour the address was illustrated by one hundred superb pictures of the wonderful scenery of Oregon, Washington and British Columbia, the national parks, forest reserves, inland lakes, its mighty rivers, golf links and trout streams.

**INFERENCE.**  
Magistrate: "You are convicted of pig-stealing. Now, if this sort of thing is allowed to continue, we shall none of us be safe!"

CARRYING PAINLEVE MISSION TO CHINA

C. P. O. S. LINER EMPRESS OF RUSSIA

France Wants Guarantees From Bolshevik Russia

In Accord With Great Britain and Italy on Question of Trade With Soviet, Says M. Painleve; Predicts Entry of States in League of Nations.

France is perfectly in accord with Great Britain and Italy with respect to the negotiations leading to the opening of trade relations with Soviet Russia, according to M. Paul Painleve...

The presence of Gregory Krassin, Russian Bolshevik Minister of Trade and Commerce, in London, and the negotiations that have been carried on between the Bolshevik Minister and Premier Lloyd George and his Cabinet, prompted the question by the interviewer as to France's attitude on this question.

"France is willing to trade with Soviet Russia providing she is given satisfactory guarantees, both financial and political," declared M. Painleve. "France must be adequately protected, however, before she can agree to any trade conditions."

The subject was dismissed with the remark that France was working in conjunction with her Allies.

M. Painleve believes that the League of Nations will make future wars impossible. He is firmly of the opinion that the United States will ultimately ratify the Peace Treaty, and participate as a member of the League of Nations.

NEW YORKERS LIKE LUXURY AFLOAT

Nearly Fifty Per Cent. of Russia's Passengers Hail From Manhattan

With two-thirds of her passengers hailing from New York and other parts of the United States, the Canadian Pacific Ocean Services liner Empress of Russia, Captain S. Robinson, R.N.R., cleared from the Outer Docks this forenoon on her return voyage to the Orient.

Out of 274 saloon passengers sailing by the Empress of Russia for Japan, China and the Philippines, 123 travelers were from New York, while other parties were from Baltimore, Boston, Cleveland, St. Louis, Grand Rapids, Mich., Los Angeles, San Francisco and Seattle.

The members of the Painleve mission to China were conspicuous among the travelers from Europe. Oscar Lachmund, of Spokane and New York, formerly managing director of the Canadian Copper Company, of Princeton, B.C., was a passenger by the Empress of Russia to-day to investigate Chinese mining properties.

The liner carried twenty-five passengers in the second cabin accommodation and a number of Chinese in her steerage quarters. Chinese travel to the Orient is not heavy.

Heavy Mail. Clearing from Vancouver last night the Empress of Russia arrived off Victoria at an early hour this morning and swung outside until 7.30 o'clock when she warped into her berth.

For two hours she was loading a heavy mail shipment and sailed about 10 o'clock for Yokohama.

WINTERED HERE WITH RELATIVES

Capt. Francis K. Grant, Brother of late Capt. Wm. Grant, Is Dead

News has been received by relatives in this city that Capt. Francis K. Grant, brother of the late Capt. William Grant of Point Ellice, had been called by death at the family residence in Wallace, N.S., at the advanced age of eighty-four.

His family of four sons survive him, John A. and Frank W. living in Victoria, Jas. Herbert at present in Vancouver, and Wylie N., occupying the old home in Wallace, Nova Scotia, where he conducts a general store.

ANOTHER CUNARDER IS SENT AFLOAT

Third of Twelve Post-War Ships Launched at Glasgow May 31

S.S. Tyrrenia, third of twelve post-war Cunarders to be launched, took to the water May 31 at Glasgow. She is of 16,700 tons gross, with a length of 578 feet. She carries 290 first class, 364 second class and 1,137 third class passengers. Her public rooms include lounges, writing and smoking rooms, veranda, cafe and general roof. She has double reduction geared turbines and burns oil fuel.

oil as fuel, is one sure to be appreciated by the ocean travelers. If the construction of oil burners keeps on in a decade it will be the one fuel which will mean modernity. This is the third monthly launching of the Cunard Line this year.

Havilah, Shimeau for Seattle, 1,624 miles west of Yokohama.

WHY? She had just accepted him, and they were blissfully discussing the "might-have-beens."

"The Canada Life Man"

(A word in behalf of our representatives)

Illustrating incidents in his daily work.

1. He points the way to success for the young man.

2. He stops the city man and persuades him to think of his real objects in life.

3. Under the evening lamp he urges the farmer to protect the home.

4. He pays a Widow's claim and finds the money is sorely needed.

The Canada Life Man comes into close touch with the people.

He is known to be honest and sincere, with a true appreciation of his mission, which is to relieve distress and point the way to thrift and prudence in the affairs of men generally.

The Confidential Man

He knows when the average man is prosperous and also when he is not, because he tells the Canada Life Man the story of his progress. The Canada Life representative in fact becomes the confidential man of the community.

To the Canada Life Man everything speaks of the need for insurance.

Finding this need all around him he tries to fit the plan of insurance to the individual need; just as the experienced lawyer is expected to give the best advice to his client or the physician the best course of treatment to his patient.

His sympathy and advice are indeed very important factors in his success.

Trained for Special Service

He is trained for this service through the "Canada Life Course of Life Insurance."

He visits factories, offices and homes, pressing forward his mission, arranging interviews for his clients with the medical examiner, discussing questions of health and finance, pointing the way of satisfaction and progress to everyone he meets.

The day ends before he is ready to give up his interesting work, but he has caused many a man to stop and think, he has helped widows in need, and impressed upon all those he has met the importance of economy in their affairs and the need of protection for those under their care.

Will you, in the spirit of the above, discuss with the Canada Life Man, or correspond with the head office of the Company, freely and fully as to your need for protection, your desire to save?

Thrift, always a virtue, is now a patriotic duty. Take stock of your affairs; adopt the best method of caring for your obligations; find out how to plan your estate.

In other words, consult an old, tried Company, with abundant evidence of success; experienced in life insurance, paying large dividends to policyholders, and safely and sanely managing its business.

Canada Life Assurance Company Home Office TORONTO

PILES Do not suffer another day with itching, bleeding, or protruding piles. Surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit.

The Canada Life Assurance Company, Toronto. Dear Sirs-Without obligation on my part, I am willing to discuss business with the Canada Life. Name: Address: Age:

THREE MODERN HOMES.

\$3,250—5-ROOM COTTAGE, with modern conveniences and having private water-frontage on Grove Bay. Lot is 180 feet in depth. Plans to street car. This is a good buy and a substantial discount will be given for cash.

\$2,500—7-ROOM DWELLING on Dominion Road, in first-class condition. There are two good size lots and close to Oak Bay car terminus. This is a beautiful home, the house cleverly planned and all modern conveniences. A full size spacious and dry basement of cement. The lawn is well laid out and there are several very nice oak trees. It is a very rare bargain at the price. Suitable terms can be arranged.

\$4,500—AN ATTRACTIVE 8-ROOM DWELLING on a very large lot and close to Oak Bay car terminus. This is a beautiful home, the house cleverly planned and all modern conveniences. A full size spacious and dry basement of cement. The lawn is well laid out and there are several very nice oak trees. It is a very rare bargain at the price. Suitable terms can be arranged.

EXTRA SPECIAL ABOUT 2 ACRES BLOCKS.

WE HAVE a large number of blocks in this beautiful subdivision, averaging about four acres in size. They are very suitable for the all-around farmer, who can raise fruits of poultry raising. Some of the blocks are quite well timbered and would meet the requirements of anyone wishing to go into the cordwood business on a small scale. None of the land is more than a quarter of a mile from the station. Prices range from \$75 per acre. Exceedingly easy terms offered on the A cash payment monthly and balance in 12 months. This is a worth while opportunity to get a little more acreage on very easy terms.

AT CORDOVA BAY

A WATERFRONT LOT, situated in the best part. Beautiful beach, and there's a spring running through the land in more than all gold. Quite close to Cordova station, 40 feet on the beach. Price, on good terms, only \$1,500.

NOTE—We have a number of other lots at prices of from \$1,000, and a number closer to the waterfront at from \$250. Easy terms offered.

TRAGIC DEATH OCCURRED AT ANYOX

Local Man, Meets Violent Death; Body to Be Brought South

Word was received yesterday of the death of Sinclair Young, who met with a fatality in the employ of the Granby Company at Anyox. The late Mr. Young was twenty-six years of age and had been in the employ of the company at Anyox for about one year. The occurrence is particularly sad as he was expected down in Victoria shortly to visit his brother, who resides at Beckley Avenue, James Bay. Arrangements have been made with the B. C. Funeral Company for the shipment of the remains on the first boat leaving for this port. No definite cause of the accident is yet to hand, the provincial police not having received any report on the matter.

BLUE COATS FILMED IN MOVIES HERE

Romantic Plot Develops as Victoria Players Face Camera

The blue-coated members of the Police Force took part this afternoon in the "Romance of Victoria," being filmed in the city by the Hurdia Film Company, Los Angeles and New York. The second day of the filming saw the plot develop, and when the film is complete many well known names will be seen. The inclusion of the local police added to the interest of the drama, which is full of action, and that quality popularly known as "pep."

This afternoon saw the leading lady and the second and third ladies go through their parts, and Director Steiner states that he is favorably impressed with the talent displayed by the Victorians. Miss Cowley in the lead, and Miss Iris Johnson as the second, and Miss Muriel Brooks second and third ladies, showed unusual ability in the performance of their parts. Other members of the cast include R. W. Day, Walter Regan, Leonard Griffiths, J. D. Macdonald, little Roberta Lockhead, Mrs. Lenoir, Hector Macdonald, and Leonard Phillips.

The heavy villains are played by Tom C. Johnston and Douglas Radford. Gorge Bridge Ready.—The Board of Trade announces that following on representations made to the Provincial Government and the Saanich and Esquimalt authorities, it has been ascertained that the Gorge bridge will be open for vehicular traffic tomorrow. Several complaints were filed from residents of the district, as the Craigflower bridge was closed at the same time, and they were seriously inconvenienced in their travel.

Provincial Appointments.—Among the list of Provincial appointments recommended by the Over Cabinet and approved by His Honor the Lieutenant-Governor during the week ending at noon to-day the following will be mentioned in this day's issue of The British Columbia Gazette: To be police magistrate for the municipality of Summerland, E. E. Hutton; West Summerland, to be a notary public, George Neilson Mowat, Victoria.

Theatricals Entertain One Another.—Members of the Victoria Dramatic and Operatic Society amused themselves at their annual meeting last night at 723 Courtney Street by dancing, singing and monologues. Those featured were: S. T. Hankey, Miss D. Switzer, Tom Kelway and Miss B. Floyd. "The Dear Departed" in one act was given by Miss Rita Hunt, Miss M. Morton, Miss G. Hickman, E. Fawcett, N. Buckle and D. Varry. A Fairbairn entertained with a vocal drawing.

Service and Growth

Great and permanent growth in any institution is impossible except on the basis of genuine service to the public. For 87 years we have aimed to give a sound and comprehensive service—yet with a friendly and sympathetic one—to our customers. Our present strong position is a measure of our success—but more largely a measure of our usefulness. Why not let us serve you too?

WOULD REGULATE SALMON CATCH BY JOINT COMMISSION

L. H. Darwin Makes Suggestions to Fisheries Conference

Vancouver, June 4.—The appointment of an international fish commission to say when, where and how the fishing industry shall be carried on with special reference to the conservation of fish, was advocated in the morning session of the Canadian fisheries convention here to-day by L. H. Darwin, fish commissioner of the State of Washington, who spoke on "International Treaties or State Agreements."

Mr. Darwin dealt more especially with the sockeye run on the Fraser River, giving startling figures showing how the run had been depleted since 1915 as compared with the present time. The problem of conserving the sockeye, which runs only once in four years, is considerably more difficult of solution as compared with the humpback, which runs every two years. He estimated that 98 per cent. of the sockeye spawned in the Fraser River while between 40 and 50 per cent. of the humpbacks went up that river to spawn.

"The only solution, in my opinion," is the appointment of such a commission," stated Mr. Darwin. "Why," he continued, "should we in the state of Washington and in British Columbia, not settle this question which is of such vital interest to us which is of such vital interest to us interested only in the supply which they look to us to find. In two weeks such a commission, if constituted of practical men, could digest the situation and bring forward suggestions to the governments which, if acted upon, would offer a solution of this important question."

"The closing season provisions," asserted Mr. Darwin, "are in my opinion insufficient to cope with the situation. There should be added to this proposal a provision for the work. Speaking for the Americans, I may state that in Washington we are fully appreciative of the situation as regards the depletion of the salmon run."

In the course of the discussion which followed Al Hager, manager of the New England Fish Company, referred to the halibut fishing, inquiring of Mr. Darwin if the action pertaining to halibut in the proposed treaty had been deleted. J. P. Babcock explained that the salmon and halibut matters were dealt with in two separate treaties. Mr. Hager advocated a close season of say three months, for the halibut industry. This, he thought, would be satisfactory to all interests concerned.

At noon the delegates inspected the plant of the Canadian Fishing Company. Fortunately a boatload of fish was secured for the occasion and the delegates saw the catch being put through the "iron chink." This was of special interest to the visiting fishermen. A luncheon at the plant followed.

IRISH AND BRITISH TRADES CONGRESS SCHEME ADVANCED London, June 4.—The executive body of the National Railway Union has decided to ask the calling of a special congress of the Irish and British trades unions "to try to bridge the gulf between the Irish people and the Government," it was announced to-day by J. H. Thomas, M.P., secretary of the National Railway Union.

FINANCIAL NEWS

MARKET STRENGTHENS AT CLOSE TO-DAY

(By Burdick Brothers, Ltd.) New York, June 4.—Easier money rates caused a number of bulls to step into the limelight near the close with a consequence that prices stiffened considerably, the favorite groups being oils, steels, tobacco and paper stocks. The market seemed to possess underlying strength and a feeling in some circles is that heavy liquidation earlier in the year has considerably strengthened the technical position of the market. There was no news of importance.

Table with columns: High, Low, Last. Includes items like Allis-Chalmers, Am. Bar Fdy., Am. In. Corp., etc.

HEAVY TRADING IN CHICAGO GRAINS

(By Burdick Brothers, Ltd.) Chicago, June 4.—Bulls and bears were both quite active and the market had both an upward and downward swing. However, prices at the close showed very little variation from yesterday's levels. No news of importance.

TO-DAY'S EXCHANGE

Burdick Bros., Ltd. New York, June 4.—Sterling to-day, \$3.99 1/2. Montreal, June 4.—New York funds to-day, 12 1/2 per cent. New York silver to-day, 97 1/2.

TO-DAY'S TRADING IN WINNIPEG MARKETS

Winnipeg, June 4.—Cash oats were dull to-day with practically no offerings. Barley was fairly active with a good demand for No. 2. There was little or no movement in cash wheat. Oats closed 4 1/2 cents higher for July and 1/2 cent up for October. Barley closed 1/2 cent higher for July and 1/2 cent up for October. Flax 1 1/2 cents higher for July and 1/2 cent higher for October.

EXCHANGE SUMMARY

New York, June 4.—Mercantile paper, Exchange irregular. Sterling 60-day bills, 2 1/2%; commercial 60-day bills, 3 1/2%; demand, 4 1/2%; cables, 4 1/2%. France, demand, 13 1/2%; cables, 13 1/2%. THE MERCHANTS BANK

Head Office: Montreal OF CANADA Established 1864. Victoria Branch, E. W. McMullen, Manager. Oak Bay Branch, G. C. Grant, Manager.

\$20,000,000 CITY OF PARIS (France)

Canadian Loan—6% 10-Year Coupon Gold Bonds

Due May 1st, 1930 Payable at Par of Exchange in London, Paris and Canada.

Price 97.37

To Yield 6 1/2%

Issued in Canada in denominations of \$100, \$500 and \$1,000. Interest payable half-yearly, May 1st and November 1st. These bonds are free of any French taxes of any description.

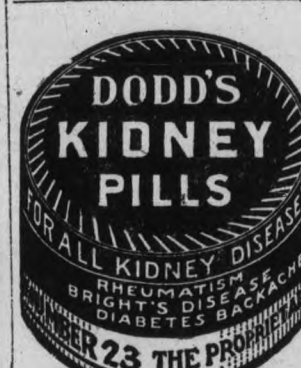

Secured by the guarantee of the City of Paris, this loan has been floated in Canada for the purpose of purchasing foodstuffs and Canadian manufactured articles for use in France. The money invested, therefore, directly benefits Canada, because it is spent here.

We strongly recommend this bond issue as being an exceptional one in all respects, and would recommend our prospective clients to file their orders without delay.

Value of taxable property, \$3,335,000,000.

British Expert in Agriculture Will Be Here in Person of Sir Richard Winfrey

Arrangements for the address by Sir Richard Winfrey, British M. P. for South West Norfolk, on his arrival here next week, have not yet been made. He was expected here some weeks ago, but has only reached Vancouver yesterday.

Sir Richard was formerly secretary to the British Board of Agriculture. Sir Richard holds no official position at the present time, but has taken a leading part in the English land settlement scheme, and he has spent six weeks in Canada investigating the methods of the Canadian Soldier Settlement Board, talking personally to the settlers and generally making himself familiar with methods here.

"The British Government has purchased some 300,000 acres of land," said Sir Richard. "Approximately 15,000 ex-service men have been settled on the land, their holdings being rented to them. The Government loans them pound for pound of the capital required for equipment and buildings. That is to say that if a man has £200, the Government puts up another £200. This year some £10,000,000 has been set aside for this purpose. At the end of a certain period, probably five years, the land will be taken over from the Government by the county councils, the price being set by arbitration, and the Government will make up the difference between the price originally paid and the arbitration price."

Sir Richard met W. J. Black, the director, at Ottawa, and has visited settlers throughout the country. He states that he has been greatly impressed with the optimistic outlook of those with whom he talked.
