TO THE PUBLIC.

THE oft-asked question, where can I get a car for this or that place or point, not only by the stranger or visitor from out of town, but residents, business men and natives of the City of Boston, has never been satisfactorily answered, and until now they were in doubt whether the car they want is to be had on Scollay Square, Rowe's Wharf, or Boylston Street, frequently being obliged to hire a herdic, or pay two fares, where one would do if properly informed, besides the delay and vexatious loss of time.

My book, "Where to Go—How to Get There," (now considered the banner Guide-Book of Boston and surroundings), which has given such unbounded satisfaction, is intended as a path-finder for visitors and pleasure seekers. In this work I intend, in brief form, and more extended in usefulness, a hand-book that will help the business men and general public to unravel the complicated street-car system of Boston and surrounding cities and towns. As changes and extensions are made I will be prepared in each succeeding edition to map out, and explain in complete detail, the network of electric railroads that are fast spreading over and through our cities, towns and outlying country, which afford pleasure, convenience and cheapness of travel to the masses, in the form of the poor man's carriage.

While soliciting a generous patronage, I also invite honest criticism from the press and public, hoping to merit your favors.

I am yours truly,

T. W. PRESTON.

October, 1894.

WHERE CAN I GET A CAR?

WE WILL first show by certain colors what district of **Boston**, or particular suburb, a car belongs; next (under "Location" and number), we will place ourselves on a designated point, and note every car going right or left, giving number of cars per hour, general direction, and destination; then we will show, in alphabetical order, as per index, routes, destinations, etc. Next, we cross the country north and east through towns and cities to the bank of the Merrimac River, taking in the distant points of Gloucester, Rockport, Newburyport, and passing through Amesbury, Haverhill, and Lawrence to Lowell, which will soon be connected with Boston.

In classifying the street cars in the City of Boston, we will begin with those of the Lynn & Boston Railroad Company, which enter the city from Charlestown via Warren Bridge, near Union Station, and through Beverly Street, Haymarket Square, Sudbury Street to Scollay Square, and returning via Cornhill, Adams Square, Washington Street, Haymarket Square and Beverly Street to Warren Bridge, etc. All other cars belong to the West End Railroad Company, and are classed as follows in

DISTINCTIVE COLORS.

Dark Blue Cars.—All Dorchester cars, except those for Mt. Bowdoin (marked *Grove Hall, Dorchester*); one line terminates at Union Station, and via Washington

St. and Dorchester Ave. to Field's Corner. The three remaining lines enter the city by Washington St. to Franklin St., passing down to Chauncy St., and by Summer St. to Washington St., and via Northampton St., Hampden St., and Mt. Pleasant to Milton, Neponset or Meeting-house Hill.

Light Blue Cars.—(Via Huntington Ave.) Leave points between Union Station and Tremont House via Sudbury St., going southwest and west. The Park St. line is extended to the Reservoir. All cars on East Boston side from ferry to Bellingham, Chelsea, Orient Heights and Lexington St.

Lemon Yellow Cars.—Columbus Ave. or Tremont St. are principally to Roxbury points. The amber cars of Roxbury and Charlestown line pass through Columbus Ave. via Warren St. to Grove Hall, and a lemon yellow line from Lenox St. via Columbus Ave, Park and Scollay Sqs., through Charlestown to Davis Sq., West Somerville, and one from Chelsea Ferry to Old Heath St.

Amber Yellow Cars.—(Charlestown via Warren Bridge.) All cars for Medford, Malden, Everett, West Everett, Somerville (via Charlestown) or Bunker Hill are amber color, except one line to Grove Hall, via Washington St. and Blue Hill Ave. There is an amber line in Cambridge, marked *Cambridge Circuit*.

Dark Green Cars.—(Shawmut Ave. and Washington St.) The course of these lines are southwest, except the Cross Town, which goes a Z course, taking the Back Bay Columbus Ave., Northampton and Dudley Sts. to Blue Hill Ave. and Grove Hall, a green line from Chelsea Ferry, and the Grove Hall, Dorchester.

Scarlet Cars.— (South Boston.) Cars from City Point, marked *South Boston* on dasher, leave the city from Union Station via Washington St ; from Park Sq. via Columbus Ave. to Berkeley St. and Dover St. Those via Scollay Sq. enter Tremont St., going north from Temple Place, passing the Winthrop monument at the south end of Scollay Sq. to Cornhill, returning to South Boston via Washington St. There is a scarlet line from City Point, marked *Cambridge and South Boston*, to Harvard Sq., and a line from Union Station, Causeway St. and Atlantic Ave. to Rowe's Wharf, and Federal and Summer Sts. to Albany and Old Colony Depots, Kneeland St.

Crimson Cars.— (Cambridge.) All cars between the different points of Boston and Cambridge, and all cars passing through Cambridgeport or East Cambridge to Brighton, Somerville, Arlington, Newton or Watertown are dark red or crimson. There is also a line to City Point from Harvard Sq.

Chocolate Colored Cars.— (Brighton.) Two lines to Oak Sq. and Allston, and one to the Reservoir are this color.

Pea Green Cars.— (Back Bay.) See Back Bay.

Pale Yellow Cars.— When the electric lines in East Boston are complete, the color will be changed from the present blue to an écru shade.

CONNECTIONS.

The cars of the West End Co., of Boston, connect with Lynn & Boston R. R., at Bellingham (Chelsea), Malden Sq. (Malden), Main St. and Everett Sq. (Everett), Med-

ford Sq. (Medford) and between Bunker Hill St. (Charlestown) and Scollay Sq., Cornhill or Adams Sq.

At Newton Corner or Watertown, with crimson cars for Waltham, Newtonville and West Newton.

At Neponset, with amber cars for Quincy via Norfolk Downs and Wollaston Heights, West Quincy, Hough's Neck, Quincy Point, North Weymouth and East Weymouth.

The Lynn & Boston R.R. Co., with West End R. R. as above, and at Lynnhurst, Stoneham and Melrose with Wakefield & Stoneham St. R.R. Amber cars.

FARES.

All fares on the West End cars are on the five-cent basis, except to Arlington, Newton, Watertown or West Medford, and to Medford Sq. via Malden.

Fares on other roads will be shown in alphabetical list of routes.

On all street cars, it is better to pay 5-cent fares, which carry you from boundary to boundary besides giving you the benefit of any transfers which are issued, which I will here illustrate.

The schedule fare on the cars from Woburn to Salem via Melrose is 30 cents, with 5 cents additional to Beverly or the Willows. On leaving Woburn, 5 cents carries you to the Stoneham and Melrose boundary. Your next 5-cent fare gives you a transfer to the Saugus and Melrose boundary. (This transfer is required on account of changing to the Lynn and Salem car at Melrose car shed.) Your next 5-cent fare carries you through Saugus, Lynn and Upper Swampscott to the Lynn and Salem boundary. When you are called on for your next

fare (5 cents) you are in South Salem, and entitled to a transfer to North Salem, Beverly or the Willows, in all 20 cents, showing a saving of 15 cents. There is nothing illegal or deceptive about this mode of paying fares.

TRANSFERS.

Boston. — Stop-over transfer checks are issued by the West End R.R. Co. under the following directions: Price 8 cents, good only on day of issue. Red check (forenoon) for morning or forenoon is issued up to 11.30, A.M., and is good to 1, P.M. Blue check (afternoon) is good any time during afternoon and evening of day of issue.

Free transfer tickets are provided by car starters at the following points, in extension of present ride in same general direction, and used only at place of issue: Harvard Sq., Craigie's Bridge, West Boston Bridge (Cambridge side), Grove Hall, both ends of North Ferry to East Boston, cor. Dudley and Washington Sts. and West Broadway, South Boston.

Conductors give free checks at Mt. Auburn and North Ave., to be exchanged for an inward check at Harvard Sq., if required. This is done to prevent 5-cent passengers from Watertown, Newton or Arlington getting a free ride to Boston.

Lynn. — The Lynn & Boston R.R. issue free transfers to boundaries on 5-cent rides in all cities and towns when two or more of their lines pass through, excepting Lynn, where a transfer is good from the outside boundaries of Swampscott, through Lynn, to the farthest boundary of Saugus, excepting North Saugus, which is operated by the Wakefield Co. All 5-cent rides in the city of Lynn and towns of Swampscott and Saugus allow transfers

to Nahant beach, excepting the Belt Line circuit, which only transfers to a Boston car.

Wakefield. — Free transfers are given to Melrose or to Reading boundary.

Watertown. — Leaving Watertown for Newtonville you can get a 7-cent transfer check to Newton Upper Falls and Echo Bridge Park.

Quincy. — The Quincy & Boston R. R. Co. issue 8-cent checks from Neponset to West Quincy, Neponset to Quincy Point, and Quincy Point to West Quincy.

Revere and Chelsea. — The Lynn & Boston R.R. give 8-cent transfers on Revere and Chelsea cars; and the West End R.R. also extend their 8-cent checks to Lynn & Boston cars.

Linden. — Passengers on Lynn & Boston R.R. cars for Linden or Revere Beach will require checks for the transfer car.

All Transfer Checks must be asked for on payment of fare.
