PREFACE.

Yielding to a general demand for a new City Directory, the undersigned undertook its publication. They did so with the belief that the service would be appreciated, and that the work would be reasonably remunerative. The labor involved, and the difficulty in reaching absolute correctness, has far exceeded the most careful calculations, but at the same time, the publishers have in no sense relaxed their efforts, or spared expense, to make it come up to their promise and the public expectation.

The Dubuque Directory contains 7,912 names, and the East Dubuque 332, which is a large increase over any previous enumeration, and is a very gratifying indication of a rapidly growing population.

To those who have patronized and encouraged this publication, and to those who have aided in its compilation, thanks are warmly extended.

HAM & CARVER, Publishers.

The Frentress Steel Barbed Fence Wire

The Best, Most Durable and Cheapest Fence in the World.

Do not buy until you have seen the Frentress Steel Barbed Wire. Ask for the FRENTRESS. It is the best, most efficient and most DURABLE Barbed Wire in use. If it is not to be had of your merchants, send your orders direct to the Factory, where they will receive prompt attention.

TEST THIS WIRE BEFORE YOU BUY.

THE FRENTRESS STEEL BARBED FENCE WIRE

Is made from the best quality of steel wire. The Barb is also made from steel stock manufactured expressly for the "FRENTRESS BARB." This Barb is four pointed, cut from solid steel, broad at the base, inserted and firmly held between two No. 12 steel wires, leaving both wires free, so that expansion and contraction is equal in both wires, the only true principle by which a uniform tension is obtained, thus combining the full strength of both wires.

KEY CITY CARRIAGE TOP!

SEASON OF 1880.

Something **NEW** and **UNEQUALED!**

The First and Only EXTENSION TOP ever Manufactured Expressly for all Classes of Two-Seated Vehicles, and Offered to the Public at Small Cost!

Our Four-Bowed BRACE TOP is the only practical ADJUSTABLE TOP ever made; it is supported from the bottom of Shifting Rail by patent prop irons attached to the side of the Top, and secured by a device on the inside which holds the Top firmly in place, so that it can be raised, lowered and adjusted at any angle from the inside.

We also manufacture a regular JOINT TOP, which we guarantee superior to any Joint Top made, for the same money.

These Tops are readily attached to any seat with seat irons and shifting rails, which are furnished with every Top; the bows are of second-growth ash, and finely finished; they are trimmed with regular quarters, back and side curtains, and for style, utility and cheapness can not be excelled.

We manufacture the following widths:—2 ft. 7 inches; 2 ft. 9 inches; 2 ft. 11 inches; 3 ft. 1 inch; 3 ft. 3 inches; 3 ft. 5 inches; 3 ft. 7 inches; 3 ft. 9 inches; 3 ft. 11 inches; 4 ft. 1 inch; 4 ft. 4 inches.

In ordering state sizes; they should measure 2 to 3 inches more than width of seat across the top, outside measurement.

Bows and Castings Furnished to Those Wanting Goods to Trim.

Director, W. V. Jones, London, England.

THIS LONG ESTABLISHED INSTITUTION
Has made more Organists and Teachers of Music than
any other Institution in the Northwest.

THE SYSTEM IS A GRADED ONE, WITH A PROPER CLASSIFICATION OF STUDIES.

The most modern principles in the study of Technics as used by Mason, Kullak and Carl Tausig, are taught, and the method of teaching is the same as that at Leipsic, Berlin and Stuttgart.
