Two unknown men, apparently Germans, were takesto the Station House. They are strangers to the sequile of Camden. These men were sout built and appeared to be about 36 years of age.

They were dressed alike and resembled each other, and frost these facts, it is inferred that they are brothers, Both have on gray mixed overcosts, black satin vests, dark pants and laced beam. The cirching of both is much bursed. Ous is also bady bursed about the hands. These men were doubtless strangers in this part of the general try, and their names have not sprangers.
