## PUMPKINS NFEDED IN GERMAN CITIES

diarry D. Wilson, chairman of the Flate Food-prepareduess Commission has issued the following to the vitizens of Louisiana:

For quick, patriotic prepared. mess: poultry, pigs, potatoes, peas, Immpkins and peanuts.

We appeal to you to give special taltention to more poultry. If everyone will set only one more hen and

If everyone will raise just one or two more pigs, it will mean conmiderable meat increase.

If everyone will only increase the quotato acreage by one or two acres, it will surely help. If possible plant Porto Rico, Doo-

dry or Nancy Hall sweet potatoes. It don't cost any more to grow goodyans than it does to grow inferior varieties.

Everyone should plant at least one acre of black-eye, crowder or phip-poor-will peas. They are fine when green and can be gathered and dried for winter use.

Pumpkins can be planted in any bread.

consumption, poultry and pigs.

Everybody get busy and remember the eight P's: patriotism, preparedness, poultry, pigs, potatoes, peas, pumpkins and peanuts.

In the meantime manufacturers and Jealers demanded that the maximum sauerkraut price for Munich be increased to the level of that paid by the Berlin commission. When this demand was re- terior reported he had requested their stock.

## THE MOON A DISUSED TARGET.

Kansas City Astronomer Develops Impact Theory of Lunar Craters. In an illustrated article, recently reprinted in pamphlet form Popular Astronomy, Donald Putnami neard, Kansas - Gity - astronomical student, gives serious consideration to the impact theory of the moon's formation, long regarded as a freak

innounced some f iffy years ago by German named Gruithuisen and Prof. Grove K. Gilbert of the United States Geological Survey, though, as intimated, the theory has been commonly rejected by astronomers. The theory regards the moon virtually as a disused target, its craters having been formed by a meteoric SPEAKS ONLY GERMAN bombardement and not by lunar volcanic forces.
