OLD COLONY NURSERIES,

T. R. WATSON,

PLYMOUTH, - - - MASS.

## ANSWERS TO SOME QUESTIONS.

All plants, shrubs, or trees offered in this catalogue can be planted with success in the spring.

The planting season varies ; sometimes beginning as early as March 20, sometimes as late as April 6.

All spring planting should be completed by May 15.

For Fall Planting the best results are obtained with Herbaceous Perennials, from September 15 to November 1. They should be protected with a mulching of pine needles or some other like material.

If it is desired to plant Evergreens in the fall, they should be planted the last week in August or the first week in September. Here the percentage of loss on Evergreens planted in the fall has always been much larger than on the same stock planted in the spring.

All deciduous shrubs and trees, including all the fruits offered, can be planted in the fall as readily as in the spring. These are generally ripened enough to ship from October 20 to November 1 ; but occasionally these dates must be advanced. From the time they are ripe until the ground is frozen it is perfectly safe to plant; the later the better.

Azaleas, Hybrid Perpetual Roses, and Rhododendrons should be planted in the spring only.

**Packing is charged at the cost of material used.**

**All packages delivered free at express or freight offices in Plymouth.**

**We do not pay either freight or express.**

**All plants at the risk of purchaser after they have been delivered to the public carrier.**

OLD COLONY NURSERIES, PLYMOUTH, MASS., U. S. A.

HOME OR FOREIGN ORDERS FILLED WITH THE UTMOST CARE AND PROMPTNESS.

DEAR SIR:—I have the pleasure of handing you my Price-List of Trees, Shrubs, Plants, etc. Plants packed for Europe with great care. I give you the benefit of the lowest prices and hope to have your orders in full.

To persons about to ornament their grounds, I shall be happy to show the extensive plantations here, agreeably laid out in the modern style, covering fifty acres, containing many thousands of the leading hardy Ornamental Trees, Shrubs, Evergreens, Fruits, etc. My plantations, now more than fifty years old, are perhaps the most extensive in New England. The Nurseries are seven hours from New York, ninety minutes from Boston.

Particular attention is called to the large number of native American plants in this list; unless noted "collected," they are nursery grown. The Herbaceous Plants are field grown; i. e., they are large specimens, not pieces grown in pots and frames.

Correspondence is solicited with persons who contemplate planting in large quantities. On orders with satisfactory references, six to twelve months in advance of the shipment of stock, very considerable reduction can be made on prices by the hundred and thousand. Plants will also be grown to order at special rates when large numbers are wanted and sufficient advance notice is given.

Please remit by check or P. O. order.

Autumn delivery begins September 15, and spring delivery begins from March 20 to April 6. If you receive more than one list, please distribute to your friends. I will send lists to any address you may send me.

Yours very respectfully,

T. R. WATSON, Successor to B. M. Watson.

**Agents** wanted. Terms made known on application.

**Errors** that may occur in filling orders should be reported to me at once, and immediate correction will be made.

**Packing** will be charged at cost.

From the following lists 6 will be sent at the dozen rate, 25 at the hundred rate.

This is a fine sort so much used at Newport, and was sent out by this establishment for the first time more than twenty-five years ago. This still takes the lead of all Honeysuckles. The leaves are nearly evergreen. The abundant white flowers, turning yellow when they fade, last all summer, from July till heavy frost.

## Plants for Hedges and Boundary-Lines.

I have a very large and well grown stock of the hardiest and most approved hedge plants. I offer this season a splendid stock of California Privet in various sizes, now in great demand for hedging. I have also common Barberry, and purple-leaved Barberry, and the new Berberis Thunbergii from Japan, with its brilliant scarlet berries and rich crimson foliage in autumn; also the best evergreens in variety, such as Arbor Vitæ, Norway Spruce, Red Cedar, Hemlock, etc. The pure white Deutzia gracilis makes a first-class dwarf hedge. I have it in several sizes. I have fine plants of Japanese Quince, Hornbeam, English Beech, Honey Locust, Lilaes, pure white and Rubra de Marly, and the lovely new Japan rose, Rosa multiflora, a most profuse bloomer with great bunches of crimson berries for Christmas, also Sweet Briars. My stock of Buckthorns is very large and fine. The best vines and climbers for running over stone walls, fences, and other unsightly objects are the Ampelopsis (sorts), Bignonia radicans, Celastrus scandens, Clematis, Honeysuckle, Periploca, running Roses, and Wistaria in several colors.

### Decorative Perennial Herbaceous Plants.

These plants are all hardy and produce an immediate effect, as they bloom the first year they are planted. They should be planted in the autumn, which is the best time for planting herbaceous plants, and should be covered with a forkful of dung to protect them from being thrown out by the frost. They may be planted in the spring, also, with great success. I offer the following choice collections of my own selection, in the very finest and most useful sorts. This class of plants is fast taking the place of bedding plants, as they do not have to be renewed every year.

Collection of 12 choice sorts, all different, named, \$2.50  
 " 24 " " " 4.50

Collection of 50 choice sorts, all different, named, \$5.00  
 " 100 " " " 10.00

I will furnish 1000 plants, comprising a most extensive and valuable collection of hardy and ornamental perennial plants of my own selection, for \$100; 500, \$50.

These violets are all perfectly hardy. Viola cucullata, rich blue, is very much esteemed abroad for its fine effect in plantations, forming great clumps and blooming profusely. The English violets are very sweet and should be in every garden. Schönbrunn is very fragrant and was a great favorite of Unser Fritz, and was named from his palace and grounds in Germany, where it originated.

Schönbrunn and English white are very useful to plant freely on the borders of avenues, etc., and will perfume your whole estate.

## Peonies—New Chinese and Japanese Herbaceous.

Well established plants from the open ground.

I have a very large and complete collection of this gorgeous flower. Of these I offer the following assortments at very low rates. They consist of the most celebrated sorts known, and include many that are yet very rare. This is now the most fashionable of all showy, hardy garden plants, both here and in Europe.

These fine Japanese and Chinese Peonies are well known to be the most showy flowers in cultivation, and are particularly adapted to our climate. They are entirely hardy and bloom a long time. They are accordingly very much used now for large masses in cemeteries, parks, and pleasure grounds; and may be followed by Lemoine's beautiful new French Gladiolus, the stiff foliage helping to support the spikes of gladiolus. They should be planted among the peonies in May.

Plants are twenty-five cents each, your choice. 12, all different, named sorts, my choice, \$2.50. 25, all different, named sorts, my choice, \$5.00. 50, all different, named sorts, my choice, \$10.00. For cheaper plants unnamed, see below.

Plants are divided of these named varieties. They will have from one to three eyes. When planted in the fall about 80 per cent. bloom the following year.

ALEXANDRE DUMAS. Beautiful rose.  
ALEXANDRE MECHIN. Dark crimson with yellow stamens.  
ARSENE MEURET. Lilac violet.

JONATHAN GIBSON, light pink.  
MADELINE, shade of rose.  
BELLE ALLIANCE, double, pink.  
JACQUEMINOT, double, color of Jacqueminot rose. (Officinale Rubra.)

## Tree Peonies.

Tree Peonies are shrubby sorts from China and Japan which do not die down in the autumn, but make *hardy bushes* of considerable size, bearing immense flowers of great beauty. Very showy. The varieties offered below are nice three year old grafts. Prices, 75 cents each; \$7.50 per dozen.

BLANCHE DE CHATEAU FUTIN, white.  
 CARDINAL ANTONELLI.  
 ELIZABETH, brilliant rose red.  
 MARIE, large full lilac.  
 MME. STUART LOW, extra large red.

MME. JULES D'ORBAN, white and purple.  
 MOUTAN, white with purple.  
 REINE DES FLEURS, large bright lilac.  
 TRIOMPHE DE MALINES, pure white.  
 WILLIAM TELL, white.

A few extra large plants of Moutan, \$1.00 each.

**Hybrid Perpetual Roses.** I offer this season a fine stock of Hybrid Perpetual Roses. They are well established plants, field-grown, on their own roots, or grafted low. I have more than twenty of the leading sorts, all good growers and giving a pleasing variety in color of the flowers. They should be closely pruned and planted deep in well enriched soil early in the season. The prices are 25 cents each, \$2.50 per dozen, \$20.00 per 100.

ABEL CARRIERE, velvety crimson.  
 ALFRED COLOMB, brilliant carmine.  
 AMERICAN BEAUTY, red.  
 ANNA DE DIESBACH, fine satin rose.  
 BARONESS DE BONSTETTE, rich velvety maroon.  
 BARON DE ROTHSCHILD, light rose.  
 BARON PREVOST, pink.  
 CAPTAIN CHRISTY, delicate rose.  
 COQUETTE DES ALPES, white.  
 DUCHESS OF ALBANY, red.  
 FISHER HOLMES, dark red.  
 GEN. JACQUEMINOT, rich velvety crimson.

GEN. WASHINGTON, crimson.  
 GLOIRE LYONNAISE, light yellow.  
 JOHN HOPPER, bright rose.  
 JULES MARGOTTIN, glossy pink.  
 LA FRANCE, silvery rose.  
 MABEL MORRISON, white.  
 MME. GABRIEL LUIZET, soft rose.  
 M. P. WILDER, carmine red.  
 MRS. JOHN LAING, soft rose.  
 PAUL NEYRON, dark rose.  
 P. C. ROHAN, deep velvety crimson.  
 ULRICH BRUNNER, cherry red.

**Hybrid Sweet Briars.** The Lord Penzance Hybrids are very fragrant, beautiful, single hybrids of the common Eglantine or Sweet Briar, *Rosa rubiginosa*. Prices: 25 cents each; \$2.50 per dozen.

AMY ROBSART.	BRENDA.	EDITH BELLENDEN.	LORD PENZANCE.	MEG MERRILES.
ANNE OF GEIERSTEIN.	CATHERINE SEYTON.	FLORA McIVOR.	LUCY BERTRAM.	ROSE BRADWARDINE.

For other varieties of roses see pages 7 and 8.

**Rhododendrons.** I have a good collection of the best and hardiest Rhododendrons, hybrids of *R. Catawbiense*. These are among our best and most satisfactory plants. To insure good success they must be heavily watered during July and August, giving a much greater quantity of water at one time than is usually given grass or bedding plants. In December they should receive a mulching of leaves a foot or more in depth, and a covering of pine boughs, which should not be removed until after the middle of April, when all danger from the high spring winds is past. These cultural directions should be followed also for Azalea, Kalmia, etc. My stock contains the hardiest varieties only, those which have been fully tested in Eastern Massachusetts; we offer ten or a dozen sorts only.

**Small Conifers.** I wish to call special attention to our collection of rare and desirable conifers. I offer at very low prices plants, from ten to twenty inches high, well grown in light, sandy soil, and well furnished with fibrous roots. I believe that these small plants will give better results than plants of larger size, while the first cost, including transportation, is very much less. For kinds and prices see Hardy Evergreens, Conifers, page 10.

**Lilacs.** I wish to call special attention to my stock of lilacs, see page 9. I offer not only a good many different species, but also a fine collection of varieties of the common and Persian lilac; all of these will be found very desirable.

**Azalea Mollis and Ghent.** My stock this year of these two Azaleas, and also other species offered on page 3, is particularly fine. All are well set with buds. These are not freshly imported plants, but those which have grown several years in my nurseries.

**Ginkgo Trees.** I have a limited number of this rare and charming tree, from three to four feet high, and well grown, at reasonable prices: they are recommendable in every way.

**American Ashes.** I offer a good stock of *Fraxinus Americana* and *F. pubescens*, well grown and thrifty. They make sturdy trees and are quick growers; for sizes and prices see page 5.

**Flowering Apples.** My collection of the genus *Pyrus* is quite complete. In addition to the well known and desirable sorts listed on page 7, I also offer a limited number of *P. coronaria* and *P. Toringo*, two year grafts, from 3 to 4 feet high, at 50 cents each.

**Acer Palmatum (Polymorphum), Japanese Maples.** We offer the following selected varieties of these, the most beautiful of all the Maples. The plants are small, thrifty, pot grown stock. Prices: 50 cents each; \$5.00 per dozen.

Acer palmatum.	Acer palmatum purpureum.
“ “ atropurpureum.	“ “ ornatum atropurpureum.
“ “ “ dissectum.	“ “ “ dissectum.
“ “ “ rubrifolium.	“ “ roseum marginatum.

Acer palmatum atropurpureum, on own roots 12 to 15 inches. Price, 25 cents each; \$2.50 per dozen.

**Large Flowered Clematis.** These are exceptional strong Holland grown plants. Two to three shoots and from 6 to 7 feet. Stock of these limited. Prices: 50 cents each, \$5.00 per dozen.

GEM, blue.	HENRYI, white.	JEANNE D'ARC, white.	LORD LONDSBOROUGH, blue.
GIPSY QUEEN, purple.	JACKMANI, purple blue.	L. C. NEVILLE, bluish white.
