GENERAL ORDER.

DEPARTMENT OF COMMERCE,
BUREAU OF THE CENSUS,
Washington, D. C., January 4, 1919.

The Secretary of Commerce having directed that an enumeration of the population be made of Tulsa County, state of Oklahoma, the following order is promulgated:

(1) The census shall be taken as of the date of January 15, 1919, and the enumeration of the residents of this county completed, as far as practicable, within two weeks from that date.

(2) The supervision of the enumeration will be under the charge of Mr. Richard B. Leach, who is hereby designated as supervisor in charge and made responsible for the rapid and efficient conduct of the enumeration.

(3) The work of the enumeration shall be performed by special agents acting as enumerators, to be appointed by the Director of the Census, upon the recommendation of the supervisor in charge. The enumerators so appointed shall be, so far as possible, residents of the enumeration districts they are to canvass, and shall be selected because of their fitness for the work and their personal knowledge of the districts they are to canvass.

(4) The compensation of the enumerators shall be fixed by the Director of the Census for each day of eight hours' actual field work.

(5) Each enumerator shall be required to make a daily report to the supervisor in charge. If the daily reports of any enumerator shall indicate that he is not faithfully discharging his duties, the supervisor in charge is authorized to suspend him from duty and to submit to the Director of the Census the reasons why he should be dismissed from the service.

(6) Attention is called to the fact that section 22 of the act of July 2, 1909, prescribes certain penalties for the failure of enumerators to perform their duties or irregularities in the same. Neglecting or refusing to perform duties prescribed, communication of information gained through performance of duties to persons not authorized to receive the same, swearing or affirming falsely, willingly and knowingly making false certificate or fictitious return are all covered by appropriate penalties and fines.

Attention is especially called to section 23 of the same act, which reads as follows:

SEC. 23.—That it shall be the duty of all persons over twenty-one years of age, when requested by the Director of the Census, or by any supervisor, enumerator, or special agent, or other employee of the Census Office acting under the instructions of the said director, to answer correctly, to the best of their knowledge, all questions on the census schedules applying to themselves and to the family to which they belong or are related, and to the farm or farms of which they or their families are the occupants; and any person over twenty-one years of age who, under the conditions hereinbefore stated, shall refuse or willfully neglect to answer any of these questions or shall willfully give answers that are false shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not exceeding one hundred dollars.

And it shall be the duty of every owner, proprietor, manager, superintendent, or agent of a hotel, apartment house, boarding or lodging house, tenement, or other building, when requested by the Director of the Census, or by any supervisor, enumerator, special agent, or other employee of the Census Office, acting under the instructions of the said director, to furnish the names of the occupants of said hotel, apartment house, boarding or lodging house, tenement, or other building, and to give thereto free ingress and egress to any duly accredited representative of the Census Office, so as to permit of the collection of statistics for census purposes, including the proper and correct enumeration of all persons having their usual place of abode in said hotel, apartment house, boarding or lodging house, tenement, or other building; and any owner, proprietor, manager, superintendent, or agent of a hotel, apartment house, boarding or lodging house, tenement, or other building who shall refuse or willfully neglect to give such information or assistance under the conditions hereinbefore stated shall be guilty of a misdemeanor, and upon conviction thereof shall be fined not exceeding five hundred dollars.

SAM. L. ROGERS,
Director of the Census.

Approved:
WILLIAM C. REDFIELD,
Secretary of Commerce.

AGREEMENT.

WHEREAS, It appearing that Tulsa County, Okla., has approximately doubled in population since the decennial census of 1910, so that the official figures of that census do not fairly represent the county's present size; and

WHEREAS, The board of county commissioners of the aforesaid county, in the belief that it would be greatly to the county's advantage if a correct enumeration of the present population should be authoritatively made and published, is desirous of having an enumeration of such population made under the direction and supervision of the Bureau of the Census, and to that end has, with the exceptions hereinafter noted, signified its willingness to defray all the necessary expenses of such enumeration; and

WHEREAS, The foregoing facts having been brought to the attention of the Secretary of Commerce by Senator Thomas P. Gore and Congressman-elect E. B. Howard, of Oklahoma, the Secretary has directed that the aforesaid enumeration be made under the supervision of the said Bureau:

NOW, THEREFORE, This agreement, made this 13th day of January, in the year 1919, between the board of county commissioners of Tulsa County, Okla., party of the first part, and Sam. L. Rogers, Director of the Census, acting under authority of the Secretary of Commerce, party of the second part,

WITNESSETH, That the said parties, for and in consideration of the facts hereinbefore recited and of the matters hereinafter referred to and set forth, do hereby covenant and agree with each other as follows:

First. That the party of the first part will deposit in the Exchange National Bank, Tulsa, Okla., in the name of the representative designated by the Director of the Census to supervise the taking of the aforesaid census, hereinafter called "the supervisor," the sum of six thousand dollars (\$6,000), it being understood and agreed that, except as hereinafter provided, such fund shall be available for defraying all expenses, from whatever source arising, which may be incurred in consequence of the taking of the said census, and that the said fund may be drawn upon and disbursed by the supervisor: (1) For all expenses for hotel bills, street car fares, bus fares, and all such other reasonable and necessary expenses as may be incurred by him in the performance of services in connection with the aforesaid enumeration; and (2) for the compensation (except as hereinafter provided) and all necessary expenses incurred by such enumerators, stenographers, and clerks as may be employed by the supervisor to carry on the work of the said census, when proper vouchers covering such items have been presented to and approved by the said supervisor; and it being further understood and agreed that, upon the termination of the said work, the supervisor will transmit to the party of the first part a certified check for the balance, if any, of the said fund, accompanied by duplicates of all vouchers upon which money from such fund has been disbursed.

Second. That the party of the first part will, at its own expense, furnish the supervisor: (1) With proper quarters in the city hall or some other suitable building, adequately equipped with office furniture and supplies; and (2) with such number of printed schedules, to be used by the enumerators in making their returns, as the supervisor may require, such schedules to be printed in accordance with a form to be prepared by the supervisor.

Third. That the party of the second part will designate, and pay the compensation of, a representative of the Bureau of the Census to supervise the taking of the above census, and will pay the sum of one dollar (\$1) to each enumerator, stenographer, and clerk who may be appointed by the supervisor to carry on the work of the said census.

Fourth. That the party of the second part, upon receipt of the schedules returned by the enumerators, will cause the same to be tabulated, and will thereafter officially announce the results at as early a date as may be practicable.

And it is further mutually covenanted and agreed by and between the parties hereto that the supervisor shall, under the direction of the party of the second part, have full and complete charge of every feature of the work; that said supervisor shall not be interfered with by the party of the first part or by any representative of the latter; that said supervisor may appoint such number of enumerators, stenographers, and clerks as he may deem necessary for the proper conduct of the work: *Provided*, That such enumerators shall be paid on a piece-price basis not to exceed five cents for each name reported by them, and that the compensation of such stenographers and clerks shall not be in excess of six dollars for each day during which they shall be actually employed; that the party of the first part may recommend persons for appointment as enumerators, stenographers, and clerks, but that their appointment as enumerators, stenographers, and clerks shall be entirely discretionary with the supervisor; that should any misunderstanding or dispute arise as to what are reasonable and necessary expenses within the meaning of this agreement, the question shall be referred to the Secretary of Commerce, whose decision shall be final; and that the data collected by the enumerators shall be regarded as strictly confidential, and shall be returned on the proper schedules direct to the supervisor, who shall transmit them to the Bureau of the Census for tabulation and publication.

IN TESTIMONY WHEREOF, The parties, to wit, the party of the first part by Mr. C. E. Suppes, its chairman, and Sam. L. Rogers, party of the second part, in the capacity and under the authority aforesaid, have hereunto set their hands and seals the day and year above written.

SAM. L. ROGERS,
Director of the Census.

C. E. SUPPES,
Chairman, Board of County Commissioners, Tulsa County, Okla.

Signed and sealed in the presence of—

T. J. FITZGERALD.

W. L. NORTH.

ENUMERATION OF THE POPULATION OF TULSA COUNTY, OKLA.

INTRODUCTION.

The special census of Tulsa County, Okla., was ordered by the Secretary of Commerce, at the request of the board of county commissioners, upon the representations made through Senator Gore and Congressman-elect Howard, to the effect that through the development and growth of the city of Tulsa and Tulsa County the population of the county had increased very materially since the Federal census of 1910 and that the official figures of that census did not afford, therefore, a true index of its population at the present time. Accordingly, the request was made that an enumeration of the population of the county be had under the direction and supervision of the Bureau of the Census.

Under the provisions of the general order dated January 4, 1919, it was directed that the special census should be taken as of January 15, 1919, and Mr. Richard B. Leach, of the Bureau of the Census, was designated supervisor in charge of the enumeration. The expense of this special census was borne by the county, in conformity to the terms of an agreement between the Director of the Census and the board of county commissioners, acting in behalf of the county. A copy of the general order is printed on page 5, and of the agreement on pages 6 and 7.

The supervisor arrived in Tulsa, the county seat, January 12, 1919, and, with his three assistants from the Bureau of the Census, began the work of the special census the following day. Quarters in the courthouse were furnished by the county commissioners, who cooperated heartily and made every effort to assist in the furtherance of the work. The county was divided into 100 enumeration districts. Two enumerators were appointed on Saturday, January 18, and during the following week most of the other enumerators were appointed and began their work. Eighty-one enumerators were employed. The enumeration of the city of Tulsa, with the exception of one district, was completed on January 31, 1919; and the enumeration of the entire county was completed on February 12, 1919.

As an aid to the completeness of the work of enumeration, the enumerators were given special instructions to inquire particularly at each home as to whether any person usually residing there had been recently inducted into the military and naval service of the

United States. This was necessary in order that the county might be credited with all the population to which it was entitled, many of these registrants being single men without dependents and hence not likely to be reported at the place where they resided or lodged at the time of registration.

In the city of Tulsa, the house numbers as recorded on the enumerators' schedules were checked against the house numbers reported in the new city directory, just off the press on January 27, 1919. The few apparent discrepancies were carefully investigated with the result that very few omissions of houses were discovered in the enumerators' returns. The few houses that had been omitted were added to the schedules, together with the names of the persons residing in them. Also, a special investigation of those homes where the enumerators reported they were unable to secure any information after repeated calls, resulted in the addition of a number of names to the schedules. By this system of checking it is believed a very close count of the population was secured.

STATISTICS OF THE ENUMERATION.

SUMMARY.

Tulsa County, Okla., is in the northeastern part of the state. It comprises 13 townships and 10 incorporated places. Tulsa, in the west central part of the county, is the county seat and has the largest population of any city in the county. Sand Springs, in the western part of the county, is the second city in point of population. The other places, in the order of their population, are Collinsville, Broken Arrow, Bixby, Jenks, Skiatook, Red Fork, Sperry, and Owasso.

The results of the special census of population, taken as of January 15, 1919, show for Tulsa County as a whole a population of 95,364, as compared with 34,995 in 1910 and 21,693 in 1907. This is an increase from 1910 to 1919 of 60,369, or 172.5 per cent, and from 1907 to 1910 of 13,302, or 61.3 per cent. Tulsa city in 1919 had a population of 58,782, as compared with the population of 28,240 shown by the special census of the city taken in 1915, and with a population of 18,182 in 1910 and 7,298 in 1907. This is an increase from 1915 to 1919 of 30,542, or 108.2 per cent, from 1910 to 1915 of 10,058, or 55.3 per cent, from 1907 to 1910 of 10,884, or 149.1 per cent, and from 1910 to 1919 of 40,600, or 223.3 per cent. The population of Sand Springs city, which was 4,524 in 1919, was included in the population of Wekiwa township in 1910, and 1907. The population of the minor civil divisions is given in Table 1, on the following page.

¹ A minus sign (-) denotes decrease.

² Figures for 1907 are derived from a special census of Oklahoma and Indian Territory, taken as of July 1, 1907, by order of the President.

³ Part of Rogers County (Collinsville city and Collinsville township) annexed in 1918.

⁴ Included in population of Bixby township in 1910 and 1907.

⁵ Included in population of Wekiwa township in 1910 and 1907.

⁶ Included in population of Owasso township in 1910 and 1907.

⁷ A special census of Tulsa city, taken by the Bureau of the Census as of April 15, 1915, showed a total population of 28,240.

⁸ Included in population of Red Fork township in 1910 and 1907.

⁹ Included in population of Dawson township in 1910 and 1907.

¹⁰ Included in population of Lynn Lane township in 1910 and 1907.

In general, both the townships and the incorporated places show a large increase in population since 1910. Bixby township, however, shows a loss in population of 217, or 7.8 per cent, due to the organization of Glenpool township from a part of its territory; and Owasso town shows a loss of 28, or 7.5 per cent.

The population of Tulsa County and of Tulsa city, as reported for 1919, 1910, and 1907, is distributed by sex, by color or race, and by sex and age, respectively, in Table 2.

TABLE 2.—POPULATION OF TULSA COUNTY AND TULSA CITY, OKLA., DISTRIBUTED BY SEX, BY COLOR OR RACE, AND BY SEX AND AGE, WITH PER CENT OF INCREASE: 1919, 1910, AND 1907.

¹ Figures for 1907 are derived from a special census of Oklahoma and Indian Territory, taken as of July 1, 1907, by order of the President.

² A minus sign (-) denotes decrease.

³ Less than one-tenth of 1 per cent.

⁴ Per cent not shown where base is less than 100.

Of the total population of 95,364, as enumerated in Tulsa County in 1919, 49,270, or 51.7 per cent, are males and 46,094, or 48.3 per cent, are females. In 1910 and in 1907, also, the males exceeded the females, but the proportion of males decreased gradually from 1907 to 1919. From 1910 to 1919 the percentage of increase for males was 159.6 and for females 187.9, as compared with an increase of 58.5 and 64.8 per cent, respectively, from 1907 to 1910.

The white population of the county numbered 85,262 in 1919 and constituted 89.4 per cent of the total population, as compared with 88.2 per cent in 1910 and 88.4 per cent in 1907. The Negro population in 1919 was 8,803 and constituted 9.2 per cent of the total population, as compared with 7.9 per cent in 1910 and 6.6 per cent in 1907. The Indian population in 1919 was 1,283, or 1.3 per cent of the total population, as compared with 3.9 per cent in 1910 and 5 per cent in 1907. The remainder of the population in 1919 consisted of 6 Chinese and 10 Japanese. There was an increase from 1910 to 1919 of 176.3 per cent in the white population and of 219.6 per cent in the Negro population, while during the same period the Indian population suffered a decrease of 7.1 per cent.

With respect to the age distribution of the population of the county, the figures show that in 1919 for the two sexes combined, persons 5 years of age and under constituted 12.9 per cent, persons 6 to 20 years of age 28.7 per cent, and persons 21 years and over 58.4 per cent of the total. The males in each age group, the females 5 years of age and under, and the females 6 to 20 years of age, respectively, constituted a smaller proportion of the total population in 1919 than in 1910, while during the same period there was an increase from 23.8 per cent to 27.5 per cent in the proportion females 21 years and over constituted of the total population.

The proportions of males and females and of whites and Negroes in the population of Tulsa city in 1919 do not differ greatly from those for the county as a whole, but the proportion of males and females 21 years of age and over is much greater in the city than in the entire county—33.1 per cent for males and 30.6 per cent for females in the city, as compared with 30.9 per cent for males and 27.5 per cent for females in the county as a whole.

The population of Tulsa County and of Tulsa city in 1919, 1910, and 1907 is distributed by sex, with respect to color or race, in Table 3. The table shows, both for the county as a whole and for the city, that the males have outnumbered the females in the total population and in the white population at each census considered. In the county as a whole the Negro males exceeded the Negro females at each of the three censuses, but in the city the Negro females were in excess in 1919. At each census the Indian females exceeded the Indian males in the county as a whole, while in the city the females were in excess in 1910 but were slightly exceeded by the males in 1919.

¹ Figures for 1907 are derived from a special census of Oklahoma and Indian Territory, taken as of July 1, 1907, by order of the President.

² Per cent not shown where base is less than 100.

³ Ratio not shown, the number of females being less than 100.

⁴ No distribution by sex for color or race for the city in 1907.

For the county as a whole, the ratio of males to 100 females decreased gradually from 1907 to 1919 in the case of the total population, and also in the case of the white and the Negro population, but in the case of the Indian population the ratio was considerably greater in 1919 than in 1910. For the total population the ratio of males to 100 females in 1919 was 106.9, as against 118.5 in 1910; for the white population it was 107.6, as against 121; for the Negro population 101.3, as against 107.2; and for the Indian population 97.1, as against 91. For Tulsa city the ratios in 1919 and 1910 were, respectively, 103.9 and 115.8 for the total population; 104.7 and 118.1 for the white population; and 98 and 102.2 for the Negro population. The ratio for the Indian population of Tulsa city is not given for 1919, there being less than 100 females reported.
