VICTORIA, B. C., WEDNESDAY, MAY 21, 1913

NO. 119

JAPAN RECEIVES AMERICA'S REPLY

Communication is Kept Secret
by Agreement With Execu-
tive at Washington

MATTER DEEPER THAN OWNERSHIP OF LAND

Wilson Asks Sisson Not to
Make Speech Offensive to
the Japanese

PRESIDENT ANXIOUS TO PRESERVE HARMONY

Tokio, May 21.—The Japanese foreign office has received and is studying the reply of the United States government to its original protest in regard to the California alien land ownership legislation. It declares that by agreement with Washington, the document will not be made public. The officials make no comment on the subject and no statement as to whether it is satisfactory or not.

The Japanese public apparently is waiting for information before expressing its opinion on the American reply. In the meantime the press reiterates that the question goes deeper than the ownership of lands or the making of treaties, and that it is racial discrimination which must be wiped out by mutual education and understanding and the fusion of ideas. Licirho Tukutimo, editor of the Kokumin Shimbun, writes in an article to-day: "The patriotism and loyalty of Japanese should join forces with the liberality of America. By this means the Pacific would nobly justify its name."

On the other hand, much interest is attached to the formation of a new patriotic association at Tokio by Count Spiganori Uesugi and other scholars, "for the maintenance of Japanese individuality."

The founders declare that some of the Japanese are intoxicated with western civilization to such an extent that they are likely to forget their nationality and introduce dangerous thoughts into the minds of the people, and interpret patriotism in a different form from that prevailing among their ancestors.

In some quarters it is alleged that the new organization is a political one, masquerading under a guise of patriotism, and that it has been created to fight the battle of the bureau against the encroachments of the growing democracy.

Professor Masaharu Aneaki, of the College of Literature in the Imperial University of Tokio, was designated to-day as the first Harvard lecturer on Japanese life and literature.

Washington, D. C., May 21.—President Wilson to-day sent Rep. Sisson, of Mississippi, and urged him not to make any speech that would offend the sensibilities of Japan. Mr. Sisson, who recently made a "war speech," had given notice of his intention to speak in the House Friday on the legal phases of the Japanese alien land question. He had twenty minutes conference with the president, during which, however, he assured Mr. Wilson that he would not discuss the pending negotiations or touch on anything of an incendiary character, limiting himself to an argument on alien land ownership.

That was the White House version of the conference, but Mr. Sisson declined to make any comment, declaring merely that he would speak on Friday.

The president is known to be anxious about the discussion in congress at this stage of the Japanese question, especially involving any observations on racial discriminations. It is indicated at the White House that the American note just sent and the tenor of the future exchanges will be to assure the Japanese that the majority of the Americans have a genuine respect and admiration for the achievement and character of her people. Public expressions that might give an opposite impression are regarded at the White House, particularly at this time, as seriously embarrassing the negotiations between the state department and the Japanese ambassador.

AMERICAN SPEED FOR FOREIGN DELEGATES

New York, May 21.—The British, Australian and Belgian delegates who sailed for Europe early to-day after a fifteen-day visit to this country and Canada planning the celebration of the centenary of peace between English-speaking peoples, were given an excellent opportunity to express at first hand America's reputed dash and swiftness.

In the fifteen days they travelled 4,000 miles and were guests at fifty-five formal breakfasts, luncheons and dinners. This is an average of 3 2-3 formal meals and 266 2-3 miles a day. One thousand miles of the trip was made by automobiles.

CHANGES PENDING IN MILITIA RANK

Garrison at Vancouver to Be
Given Status of Brigade
Within Year

LIEUT.-COL. STUART IS TO RECEIVE COMMAND

Changes in 104th Fusiliers
Will Place J. D. Taylor, M. P.,
at the Head

PLAN REORGANIZATION OF ROYAL CITY FORCES

Approached on the subject of impending changes in the status of the Vancouver garrison, which are forecasted, Col. Roy, M. V. O., said that it is the intention of the authorities to give the status of a brigade to the garrison at Vancouver, but that the time is not yet ripe for the change. He expects, however, that it will come within a year, the reason for the delay being that in connection with the forming of a brigade several corps, called departmental corps, have to be attached, and these are not complete.

Vancouver, May 21.—It is stated that there are very important changes pending in local military circles. Upon reliable authority the statement is made that Lieut.-Colonel E. Duff Stuart, the officer commanding the Connaught's Own Rifles of Vancouver, hands over the command of that corps before leaving for the Old Country as the commandant of the Canadian Bisley team, he will not take it up again as the head of that corps. This does not mean that he is to drop out of the military life of Vancouver. On the contrary, it is stated, he is to take a step higher up. When Col. Roy, M. V. O., the district officer commanding, was in the city some time ago, he intimated that in all probability the Vancouver garrison would be given the status of the brigade, which would include all the corps in the city, as well as those in North Vancouver and New Westminster. Since that time affairs have evidently taken definite form, for it is now stated that the change will be made almost immediately, and that Lieut.-Colonel J. Duff Stuart will be given the command of the brigade, an honor which would naturally fall to him, as he is the senior active officer in the garrison.

It is not stated what rank he will be given upon promotion, but in all likelihood he will be granted a full colonelcy, following the precedent established in the case of Lieut.-Colonel Duff Stuart has had a long and honorable career, having risen from the ranks in the regiment of which he is now the officer commanding, and has watched the militia of this province grow from a very small beginning to its present proportions.

Another important change will also take place, it is stated. When the 104th Fusiliers, which has its headquarters at New Westminster, returns from the camp at Sidney, about July 1, the present officer commanding, Lieut.-Col. Johnston, will retire and the command of that regiment will be assumed by J. D. Taylor, M. P. It was known some time ago that Lieut.-Colonel Johnston contemplated dropping out; in fact it is stated that his resignation has been in the hands of the authorities for some weeks, but no announcement could be made until definite plans were decided upon and his successor chosen. Not since the resignation was formed has he been in possession of the outside he will not be looked upon as usurping the place of someone else.

It is stated that the military men of New Westminster have a comprehensive plan for the reorganization of the force in that city, a considerable sum of money having been subscribed for the purpose. With the altered conditions it is believed the militia will flourish in the Royal City.

THREE WOMEN POLICE FOR SAN FRANCISCO

San Francisco, May 21.—Of twenty-five additional police officers to be appointed here, three will be women, according to action taken last night by the board of supervisors. Provision is made for the three policewomen specifically in the budget for the fiscal year 1913-14, and it is announced that the force of women will be increased as rapidly as conditions warrant.

In putting women on the police force San Francisco is following the example of other Pacific coast cities, notably Los Angeles and Seattle.

ROOSEVELT WILL CAMP.
New York, May 21.—Theodore Roosevelt is going to camp in the open Arizona this summer, it was revealed yesterday. Roosevelt was talking politics with some friends and showed his sleeping bag, seventy-two inches long. Enthusiastically he took off his coat and got into the bag to show how it fitted him.

SAXON AND TEUTON KINGS MEET IN FRIENDSHIP PREPARATIONS FOR ROYAL MARRIAGE AT BERLIN

HIS IMPERIAL MAJESTY WILLIAM II.

HIS MAJESTY KING GEORGE V. OF ENGLAND

EMPEROR WILLIAM GREETING GEORGE V. IN GERMAN CAPITAL

Official Ceremonies of Wedding of Princess Victoria Luise and Prince Ernest August of Cumberland Commenced To-day With Arrival of King and Queen of Great Britain

Berlin, May 21.—"True Hohensoern weather," brilliant sunshine and cloudless sky, had set in for the wedding festivities of Princess Victoria Luise, daughter of the German Emperor and Empress, and Prince Ernest August of Cumberland, which takes place on Saturday. The official ceremonies started this morning with the arrival of the bridegroom and the state entry into Berlin of King George and Queen Mary of England.

At the station awaiting the arrival of the royal train were Emperor William and Crown Prince Frederick William in the uniforms of their British regiments, together with the Empress and the Crown Princesses.

When King George alighted from the train he was greeted with the customary graces by the Emperor and Empress and the other members of the imperial family. King George and Emperor William then jointly passed in review the guard of honor drawn up on the platform. This completed, the two monarchs, together, and the Queen and Empress side by side, drove in open state carriages through the Avenue of Victory and Unter der Linden to the castle, each carriage escorted by a squadron of cavalry. The wide thoroughfares were lined with troops and behind them all Berlin seemed to have gathered.

The dirigible balloons Zeppelin and Hansa, flying the British colors, accompanied the royal train from Rathenow, about fifty miles away, and hovered over the carriages as they drove toward the castle. The preparations for the royal wedding are being carried out in the most elaborate manner. Berlin will to-day be in fête and remain in a state of celebration for several days. The utmost enthusiasm prevails among the masses over the royal event.

The preparations for the wedding give striking prominence to the emperor's apparent desire to make the occasion contribute to a betterment of the relations between Great Britain and the German empire.

Evidence of German concern in the visit of King George and Queen Mary is contained in the official programme, published last night in The Nord Deutsches Allgemeine Zeitung, which prints in a prominent position a half-column article on the reception arrangements for the British sovereigns, and

in a few lines in another column describes the preparations for the reception of Emperor Nicholas of Russia.

Two squadrons of Hussars and dragons composed the escort of King George on his arrival, while only one squadron is assigned to escort Emperor Nicholas to-morrow. The German newspapers are giving much attention to the political importance which the wedding may have in bringing about a manifestation of friendship between Germany and Great Britain, but they have little to say concerning a similar manifestation toward Russia.

Emperor William will spend a busy forenoon to-morrow. He will make three journeys to the railroad station in the short two and a half hours in which he will receive successively the Grand Duchess Luise of Baden, the Duke and Duchess of Cumberland, and the Russian emperor.

The visitors will make state entries into the city, each through two and one-half miles of streets lined with troops, and their welcome by the emperor will necessitate three changes of uniform on his part. Six German sovereigns and the representatives of several other German reigning houses, will also arrive during the day, making necessary more or less formal receptions.

Many British and Russian officials arrived in Berlin yesterday and to-day to supervise arrangements for the safety of King George and Emperor Nicholas.

The nuptial banquet will witness a revival of the mediaeval functions of titular high cupbearer and butler, which offices are held by Prince Hatzfeldt and Prince Radolin, respectively, who will actually present wine and soup to the guests at the beginning of the dinner.

Police precautions against attacks by anarchists have been taken, the most extreme measures being put in force. To prevent the probability of an untoward interruption guards numbering thousands are distributed at all points of the city, with orders to mingle with the crowds along the lines of march which will be followed by the royal party.

Many public fetes have been arranged to take place during the ceremonies in which the people will join. The time is to be one of great celebration, perhaps unsurpassed in history. Yesterday a number of political prisoners were pardoned and released by the Emperor as a mark of good feeling towards the British nation.

Only One American Present.

New York, May 21.—Miss Grett Borup, daughter of Lieut.-Colonel Henry D. Borup, U. S. A., will be the only American who will attend the wedding of Princess Victoria Luise on Saturday, according to a special Berlin dispatch published here to-day.

Miss Borup went to school with the Emperor's daughter in the exclusive Kaiserin Augusta Institute in Potsdam.

SOLDIERS RESENT SERVICE ADDITION

Demonstrations Occur in the
French Barracks Resulting
in Court-Martial

Paris, May 21.—French soldiers are displaying considerable opposition to the decision of the government to keep them for another year in active service instead of discharging them at the expiration of their two-year term. Demonstrations have occurred in a number of garrison towns.

A number of soldiers who took part in a demonstration at Toulon on Sunday were tried by court-martial and sentenced to serve the rest of their term with the disciplinary battalions in Northern Africa. At Macon 100 soldiers assembled in the public square and sang "The International," the Socialist hymn. Speeches were made condemning the introduction of the three-year-term military service.

BALKAN STATES ASK ENORMOUS INDEMNITY

Four Hundred Dollars is Sum Requested as Reimbursement

Paris, May 20.—The Bulgarian minister of finance, T. Theodoroff, who is to represent Bulgaria at the financial conference in Paris in connection with the Balkan settlement, said to-day that the Balkan states would ask for a war indemnity of 2,000,000,000 francs (\$400,000,000), of which Bulgaria's share would be 1,000,000,000 francs.

Numerous precedents, he said, supported the Balkan demands. They did not ask to be indemnified for indirect losses due to the estate of war, but merely for reimbursement of purely military expenditures and the cost of pensions for those incapacitated and the families of the killed. It was on these considerations that the sum of 2,000,000,000 francs was based.

ORDERED BACK TO SERVICE.

Geneva, Switzerland, May 21.—In view of a possible conflict against Serbia and Greece, a number of Bulgarian university student volunteers recently relieved from the army service, and including several officers, were ordered to-day to return to other regiments.

LITTLE INOFFENSIVE BILL UP IN CONGRESS

Wickersham Startles Senate
Committee by Revealing In-
terest of Guggenheims

Washington, D. C., May 21.—Delegates Wickersham, of Alaska, startled the senate territories committee to-day by declaring that Senator Chamberlain, a member of the committee, had inadvertently been the author of a bill in a previous congress which would have turned over to "Guggenheim" absolute control of the harbor at Cordova and the entrance to Behring River coal-fields.

"There was a little inoffensive looking bill introduced in congress, I believe you were the author of it, Senator Chamberlain," said Wickersham, "giving the right of way to the Guggenheims from Mile Twenty-Five, on the Copper River road, to Three Tree Point. You didn't know what that bill meant. It passed the senate, but when it reached the House I killed it. If it had passed it would have given the Guggenheims title in fee simple to all of Cordova harbor, and they would have had a monopoly like that of Mr. Ryan on Controller Bay."

Senator Chamberlain made no reply.

MEXICAN CONGRESS SANCTIONS NEW LOAN

Amount of \$100,000,000 at
6% Guaranteed by 38% of
Customs Receipts

Mexico City, May 21.—The Mexican congress early to-day gave its sanction to an agreement for a loan of \$100,000,000 at six per cent. interest. The amount is guaranteed by 38 per cent. of the customs receipts. The Mexican National Bank is named as the representative of the bankers in the supervision of the disbursements.

The debate on the loan was a long one, lasting until midnight. It is still necessary for congress to discuss and vote on the four articles of the financial measure, but its approval of the general terms of the bill makes it nearly certain that it will also approve the details.

The loans had been placed with French bankers, but it is certain that British interests are participating.

BERNIER RETURNED.

Winnipeg, May 21.—Hon. Joseph Bernier, provincial secretary, was returned to St. Boniface to-day by automobile.

LIBERAL SENATORS HOLD CONFERENCE

Sir George Ross to Make De-
claration Thursday on
Naval Question

ELECTION PREDICTED WITHIN EIGHT WEEKS

Railway Legislation to Be
Brought Down and Also Bill
on Judges' Act

SALARIES OF LETTER CARRIERS CONSIDERED

Ottawa, Ont., May 21.—A meeting of Liberal senators was held this morning to consider the attitude of the party on the Naval Bill, which will come up for second reading soon.

The senators were very reticent as to what occurred, but the general impression is that it was practically decided to take such steps as will prevent the Naval Bill from becoming effective for some time to come. In all probability they will add to the bill the amendment which the Conservatives in the other house endeavored to attach to the Laurier Naval Service Bill. This was an amendment declaring that the money it was proposed to expend should not be sent until the matter had been referred to the people. Such action would suggest the possibility of an early general election. As a matter of fact, it is now predicted that the government will go to the country within eight weeks.

If the senators came to any decision this morning they are keeping it to themselves, as one senator alluded to make any statement, saying that it had been agreed that nothing was to be made known until Sir George Ross made his declaration on Thursday.

In the House of Commons this morning Colonel Sam Hughes, minister of militia, in answer to a question put by E. M. Macdonald (Picton) in the House this morning, confirmed the resignation of General Colin MacKenzie. He said he had performed his duties in a satisfactory manner, and that announcement of his resignation came as a surprise.

Other than confirming the resignation Col. Hughes made no statement. He said the newspaper stories were exaggerated, and if Mr. Macdonald would put his question on the order paper he would get a reply. Dr. Clark, Red Deer, added that the minister was quite within his rights in asking his time and answer the questions in his own way.

Premier Borden said that the railway legislation would be brought down at the end of this week or the beginning of next week. There will be subsidies for the Canadian Northern railway, and any others that are decided upon.

The Premier also outlined the further legislation which, if time allowed, would be introduced. This included a bill affecting the liability of municipalities for the pay of militia called out by the civil powers. Mr. Borden said that the government has come to a conclusion on this subject, but the legislation had not yet been drafted and might not be introduced.

The Minister of Justice has two bills to introduce. One provides for an increased staff at the penitentiaries, and the other is to amend the Judges Act. In view of previous legislation the Postmaster-General had a short act regarding salaries of letter carriers. There might also be an act for the reorganization of some departments.

W. F. McLean, South York, gave notice that he would move a resolution that the capitalization of the Canadian Pacific railway in future should be increased only by parliamentary legislation, and not by order-in-council or by resolution of the board of directors of the C. P. R.

Continuing, Mr. McLean urged that in view of the large surplus the government should have done something to lessen the present burden of tariff taxation. No good reason is left, he said, for the government declining to reduce the burden of taxation, more particularly in view of the rapid and abnormal increase in the cost of living.

**PRINCE ALBERT PLAYS
TENNIS WITH CADETS**
Halifax, N. S., May 21.—Prince Albert, second son of England's King, chose tennis to-day in preference to a visit to the government house, where he was to have been received in state by the lieutenant-governor of this province. The streets were decorated for the occasion, and hundreds massed the sidewalks hoping to catch a glimpse of the young prince.

At the last moment he decided he would rather play tennis with cadets of the training ship Cumberland, now in port, and of whose crew he is "an ordinary" member.

WELCOME LEAGUE TO ASSIST NEWCOMERS

Meeting at Vancouver Plans "Hands Across the Sea" Campaign for Province

Vancouver, May 21.—"Hands across the sea." This sentiment was carried to practical effect at a meeting of citizens held last night in the Progress Club, when it was decided to organize a British Columbia Welcome League, the objects of which will be to assist newcomers to these shores in every possible way to put them in touch with employers, and from the start to lay a foundation for their success in the new world.

SIOUX DIES.

Famous Calgary Jumper Contracted Pneumonia.

Calgary, May 21.—Sioux, the champion jumper, owned by Count De Roaldes, died this morning at the Victoria Park stables here, from pneumonia. Sioux was the most famous jumper in the west. He annexed the championships at the Calgary and Vancouver horse shows and was being brought back to Calgary when he caught a cold that resulted in his death.

SUPPLEMENTARY ESTIMATES GIVE FUNDS FOR LOCAL PUBLIC WORKS

Appropriations for Harbor and Drydock Improvements at the Quarantine Station; New Observatory and Several Minor Matters Provided for

Ottawa, May 21.—Hon. W. T. White tabled the supplementary estimates last night for the current fiscal year. They call for an additional appropriation of \$23,476,316. When this is added to the main estimates of \$175,162,185, it makes a total proposed expenditure of \$202,622,500, apart from railway subsidies still to be brought down.

For the first time in the history of the Dominion, the estimated expenditure exceeds the \$200,000,000 mark, but the actual expenditure is likely to fall below that figure, as the money voted is never all spent within the fiscal year. The actual expenditure usually falls about 10 per cent. below that estimated.

Of the total of the new estimates brought down \$17,328,500 is chargeable to consolidated account. The total expenditure provided for on consolidated found account is \$143,173,147, and on capital account \$29,445,352.

The largest item in the supplementary list brought down is \$4,000,000, which will be spent for the construction, leasing or purchase of interior terminal elevators for the west in accordance with the policy of the government, as announced by Hon. G. H. Perley, acting minister of trade and commerce, last week.

Hon. Sam Hughes, minister of militia, calls for further votes of nearly half a million dollars. In this amount \$100,000 is an additional sum required for annual drill.

On the basis of annual expenditure of \$1,500,000 under the Highways Act, the subsidy is distributed in the estimates among the several provinces as follows: Alberta, \$78,232; British Columbia, \$22,005; Manitoba, \$95,196; New Brunswick, \$73,524; Nova Scotia, \$102,470; Ontario, \$527,293; Prince Edward Island, \$13,554; Quebec, \$451,449; Saskatchewan, \$102,583.

A total vote of \$2,200,000 on capital account is provided for harbors and rivers. It includes \$500,000 each for government drydocks at Esquimalt and Halifax naval bases, \$400,000 addition for Victoria harbor, B. C.; half a million additional for each of the harbors of St. John, Vancouver and Toronto, and \$200,000 additional apiece for Port Arthur and Fort William.

The appropriation for the outside post office service includes a vote of \$22,960 to provide for changes in connection with the placing of the Saskatchewan post office on a city basis. There is a vote of \$17,550 for the Moose Jaw post office for similar purpose. The item provides that in both these cases the salaries of the staff may be re-adjusted, and the appointments made notwithstanding anything in that portion of the Civil Service Act, affecting the outside postal service. Under the head of Transcontinental Railway a sum of \$100,000 is provided for the operation of the line from Moncton to Edmundston, N. S.

Miscellaneous items include a sum of \$20,107 to defray the expenses in connection with the marriage reference to the Supreme Court and Privy Council.

Under this heading there is also a vote of \$14,600 to the fund for the relief of the family of Capt. Scott, of South Pole fame.

The only vote for the department of naval service is one of \$40,000 to pay the cost of the patrol of the northern waters of the Dominion. This is the sum which goes to the Stefansson expedition.

The civil government votes include a considerable number of salary increases, among them \$3,000 additional to the salary of the deputy minister, Mr. Newcombe, of the department of justice, making it \$10,000 annually.

Under the vote for agriculture, \$100,000 is provided for branch stations of experimental farms.

The militia and defence votes also include \$50,000 additional for school teachers' courses for cadet corps, and \$30,000 toward the establishment of a remount depot in the new training areas.

Additional salaries for customs officials call for a vote of \$190,000, while there is a vote of \$10,000 for preliminary expenses connected with the purchase of a telescope for the Dominion observatory.

CHURCH ENTERS PROTEST AGAINST SOCIAL EVIL AND URGES ENFORCEMENT OF LAWS

Vancouver, May 21.—"It is a terrible thing that in the opening years of this twentieth century it is possible in a Christian country to read a document of the sort which we have just heard. We stand in British Columbia on the very brink of an abyss of social damnation, and it is our duty to face the facts, unpalatable though they be."

With these words, Rev. S. D. Chown, general superintendent of the Methodist church in Canada, last night in Wesley church opened the discussion upon the paragraph of the committee's report on temperance and moral reform, which dealt with the non-enforcement of the law by the attorney-general as regards the social evil.

Dealing with this question the committee reported: "In regard to the social evil your committee regrets to have to report that from two sections of this province information is before us as to the existence of conditions which call for immediate action on the part of all citizens who have the wellbeing of this province at heart."

"In the Kootenay district there are no less than fourteen cities and towns in which the social vice is either segregated or tolerated. The police commissioners of one of these cities publicly declared that they are in favor of the non-enforcement of the law against vice. In one case the police force was restrained from the enforcement of the law by order of one of the commissioners."

"2. In the city of Vancouver there is a recognized area of segregated vice which seems to enjoy immunity from the criminal code of Canada. An incident of the campaign against this vice deserves special comment. Prosecution under the law was taken by the police of Vancouver and certain offenders were convicted, but when taken to prison were refused admission by the warden, thus setting at naught His Majesty's authority in this province. Protest against this state of affairs was brought by important delegations to the provincial government, but as yet no remedial action of which we are aware has followed. We greatly deplore that such things are possible in this enlightened province."

"We respectfully request the government to instruct its officials to vigorously enforce the law."

After the report had been read and its adoption moved by Rev. T. H. Wright, Dr. Chown spoke as above, and added: "I know that it is unpopular to knock a community. We had that experience in Winnipeg, but Winnipeg has wakened up, and has rooted out the social vice and the poor deluded women have left for the West. There are to-day more women engaged in this business in Vancouver than at any time in its history. It is a deplorable fact, but it is a fact, and we cannot close our eyes to it."

Summer Cooking

Which is best? A coal that gets to work slowly, needs constant poking, keeps you standing over your stove on hot Summer afternoons, and then burns all the evenings, or a coal that lights at once, gets the oven hot in a few moments, burns brightly with a clear flame, needs no attention, does your cooking in half the time and leaves you free to enjoy the twilight hours?

If you want a coal which fulfils all the latter functions you need our Nut Coal. It's the perfect Summer coal, and it costs you less.

PROGRESS MADE ON NEW BANKING BILL

Passes Through Committee Stage in Commons and Ready for Third Reading

AMENDMENTS MADE TO ORIGINAL ACT

Ottawa, Ont., May 21.—Consideration of the contentious clauses of the Bank act was commenced in the Commons yesterday.

F. B. Carvell renewed his objection to the clause which gives banks a first lien on stock held by a shareholder and does not allow a shareholder to make a transfer of shares unless he has discharged all his liabilities to the bank.

Hon. Frank Oliver suggested that it might be advisable not to allow shareholders to borrow from the bank in which they are interested.

Mr. Ames said that such a law would make it impossible to get people to invest in bank shares.

Hon. W. T. White explained that a shareholder would only be required to keep enough shares to cover his liabilities to a bank.

Mr. Turgeon, of Gloucester, moved to strike out the clause which was inserted in committee at the request of F. H. Carvell prohibiting bank managers from participating in an insurance business. Major Sharpe said he had supported this clause in committee, but had changed his mind as a result of communications he had received. In some cases, he said, it would prove to be a hardship, more particularly on managers in small towns.

Hon. W. T. White said the principle of the clause was right, although it might be drastic. A bank manager, being in the position of a trustee of the bank's funds, when an insurance manager is in a position to compel a customer to do business with him. He suggested that the clause might be dropped and that the Bankers' Association be asked to take steps to prevent abuses.

Mr. Carvell said that, judging from letters he had received, this evil was more widespread than he had thought. He had received many letters complimenting him on his action, but in most cases stating that he had not gone far enough, it being contended that bank managers should not be allowed to deal in real estate. In some cases the latter amounts almost to a scandal, and bank managers were compelling their customers to put on more insurance than they desired to.

Mr. Turgeon's amendment to strike out the clause carried on a vote of 41 to 17. The clause in regard to the audit of banks passed practically without debate.

Major Sam Sharpe then reintroduced an amendment which had been killed in the banking committee restricting loans to foreign persons or corporations to ten per cent. of the paid-up capital. He explained that it was only defeated in committee by a vote of 17 to 14. He believed it should be adopted by the House. He was supported by F. B. Carvell while H. B. Ames opposed the amendment.

The longest discussion of the day occurred on clause 31, which deals with the rate of interest which banks may charge. At times the talk was somewhat acrimonious, the western members in particular contending that there is no reason why parliament should not be able to fix a maximum of interest.

It was decided to leave the act just as the law stands at present. Under the present act, seven per cent. is fixed as the maximum rate, but the courts have decided that when higher interest is paid by the way of discount when the loan is negotiated, it is legal. The clause put in by the committee on banking and commerce recognized this practice, and the House to-day decided that this was worse than the present law, with the result that it was decided not to make a change.

One amendment introduced as a result of the discussion in the House provided that the banks must make an annual return as to the value of their real estate holdings.

Many members protested against the action of the banks in securing corner lots and erecting costly buildings, thereby inflating values. The bill passed through committee and stands now for the third reading.

One amendment introduced as a result of the discussion in the House provided that the banks must make an annual return as to the value of their real estate holdings.

Many members protested against the action of the banks in securing corner lots and erecting costly buildings, thereby inflating values. The bill passed through committee and stands now for the third reading.

Irresistible Lingerie Dresses

And Everything Beautiful in Ladies' Wear for the Holidays at Campbells'

The sumptuous assortment of delightfully fresh and dainty Frocks which we have now ready for inspection cannot help but appeal to the most fastidious women, for the beautiful embroideries, fine laces, good materials and first class work which go to create these lovely dresses leaves nothing to be desired; at the same time they are not luxuriously expensive, for it is surprising what a charming dress can be had for a very small outlay—and besides, "no worry of making"—they are all ready to wear.

White Lingerie Dresses

In sheer organdie muslin, fine lawns, soft and pretty voiles and marquises, modish ratine, clinging crepes, and lovely allover embroideries; they come in an immense variety of styles, both high neck and cut low; principally short set-in sleeves, but some long sleeves. The skirts are high waist or ordinary figure; the edges are hemstitched or embroidery scallops. The trimmings are exquisite—Cluny lace, Bohemian lace, fillet insertions, pretty Torchons and fine Vals.—and some truly delightful embroideries—just like handwork. Prices from \$2.75 up to \$25.00

A very fine range comes between \$5.00 and \$12.00

BLACK MUSLIN DRESSES—These cool and light dresses are always demanded for the hot days, and we have provided an attractive range. All sizes—\$4.25 up to \$12.50

CRU VOILE DRESSES—Some lovely examples of this soft and becoming shade, at \$17.50

Separate Dress Skirts; hundreds to choose from—white, natural or navy. \$1.50 up to \$5.75.

"THE FASHION CENTRE"

Those Middy Blouses at \$1.25 are splendid value—sky, navy, fawn and red on white

BARTLETT TO SAIL

THE KARLUK NORTH

Navigator of "Roosevelt" to be Second in Command on Exploration

STEFANSSON IS DUE HERE IN TEN DAYS

New York, May 21.—Captain Robert Bartlett, sailing master and navigator of the Roosevelt, the vessel on which Rear-Admiral Peary made his successful dash to the North Pole, will hold the same relative position, practically second in command—on the Stefansson expedition that starts in June for the Arctic.

Vilhjalmur Stefansson, the explorer, made this announcement to-day. He said also that the largest body of scientific men ever assembled for a voyage into polar regions would accompany him.

Captain Bartlett will leave at once for Ottawa, en route to Esquimaut, where he expects to arrive in four or five days. The presence of the scientists, thirteen in number, together with the explorer, his skipper and the crew, will make the expedition twice as large as when the Canadian government agreed to finance it.

This will make necessary the equipment of an added ship, according to Mr. Stefansson. The selection will be made within a day or two, it is said. Mr. Stefansson expects to leave New York for Esquimaut in about five days.

By the first week in June the expedition will be ready to sail from Victoria, B. C., according to present plans, and will go by way of Nome and Point Barrow, arriving there the last week in July. The autumn of 1913 is set for the return.

The expedition will be divided, a "southern party" comprising the scientists, probably making its base at Simpson Bay on Southeast Victoria island. In this party will be Dr. R. M. Anderson, zoologist, commanding; Fritz Johnson, United States government biologist; J. B. O'Neill, mining geologist, member geological survey; Kenneth Chapman and J. B. Cox, Canadian topographers; Henri Benoit, anthropologist, Paris; Dr. Jennie, ethnologist; Dr. A. Forbes Mackay, Shackleton's Antarctic expedition surgeon, of Edinburgh University, and photographers and cinematographers.

PREVENT LECTURE BY EMMA GOLDMAN

San Diego, Cal., May 20.—Emma Goldman and Dr. Ben Rissman, anarchists, were arrested by the police here to-day as they arrived from Los Angeles, and were taken in a police automobile early this afternoon to the city limits, where they boarded a

train for Los Angeles. The programme was agreed to by the prisoners. Mrs. Goldman, it is said, also stated that she would never again attempt to speak in San Diego. Her purpose in coming to this city, from which she was escorted under dramatic circumstances, just a year ago, was, to lecture.

The gas companies of Greater London supply 1,457,500 consumers with \$2,575,237,000 cubic feet of gas. They produce nearly 25 per cent. of the total output of gas of the United Kingdom, and supply 20 per cent. of the gas consumers.

AT THE CUSTOMS HOUSE.

The Times is informed that several new appointees at the customs house in this city have been placed upon the permanent staff without having undergone the required civil service examination. There are clerks in the customs service still on the temporary staff who have been waiting a long time for the opportunity to qualify for permanent appointments, but they have been allowed to remain on the ragged edge of doubt and uncertainty while the new men have been made fixtures for life. This is Borden's idea of civil service reform. When there are more clerks than are wanted the old hands will be dropped, because they are not on the permanent staff. This is Mr. Barnard's way of rewarding friends.

CANADIAN CAPACITY.

In his address to the Grit Club last night Mr. Congdon remarked upon the capacity of the Canadian people for varied achievement. In versatility, he pointed out, they were unsurpassed by the inhabitants of any country in the world. That he was quite accurate in his estimate of the Canadian character is shown by the remarkable development of this Dominion in the last quarter of a century. We have made progress along many lines. The utilization of our multifarious resources has called into play a wide range of human faculty. We have engineers who are expert agriculturists and agriculturists who can erect buildings and construct bridges and railways. Our pioneers have been men of many talents developed under the whip of inexorable necessity. Before the era of steamships the men of Yarmouth, Nova Scotia, felled the trees in the forest, shaped the pieces, built ships and sailed them, and at one time that little port was one of the greatest shipbuilding centres in the world. The resourcefulness of the Americans was the product of similar conditions. Their country had to be developed along numerous channels, and every new field that was opened up gave a new character to the people.

It is because of our appreciation of the adaptability and versatility of Canadians that we decline to accept the dictum of the admiralty and some of our timorous public men regarding the construction of ships in Canada. We believe that in a short time Canadians could learn to build ships equal to those constructed anywhere in the world. We solved engineering problems of the first magnitude because we had to; we laid down great transcontinental railways because the development of this country demanded it. We built a magnificent canal system so that our grain-laden vessels could reach the sea, and we are looking forward to the spanning of the waters that separate Vancouver Island and the Mainland of this province and the construction of the Georgian Bay canal by Canadian genius and enterprise. Is it not ridiculous and even insulting to be told that we cannot learn to build ships of war within perhaps half a century?

Mr. Congdon expressed the opinion that within a very few years it was possible to develop on this coast a great shipbuilding industry and one that would turn out the largest ships afloat. We have the harbors, and the raw material for those industries which operate hand in hand with the construction of ships of war. There is no vast mystery involved in projects of this character. Human capacity is not the monopoly of the tight little isle in the North Sea, the opinion of the admiralty notwithstanding. Ironclads did not originate there, but in Hampton Roads on that memorable day when the Monitor and the Merrimack for the first

time disclosed the possibilities of armored ships of war. While on this subject it is interesting to note that a contract has just been let in Montreal for the building of the largest bulk freight steamship that has ever been built in the British Empire, and that this ship is not to be built in England, Ireland or Scotland, but in the very heart of Canada, at Port Arthur—a boat six hundred and twenty-five feet long, fifty-nine feet beam, and thirty-two feet draught, with triple expansion engines. There is not a single battleship of such great length in His Majesty's whole navy, and yet we were told that Canada could not build even such cruisers, torpedo boats and submarines as would be alone necessary in a defence fleet for our coast.

UNNECESSARY.

Why should the city council call in Colonel R. H. Thomson for consultation on the sewerage plans? We know that the colonel holds a high place in his profession, but we also know that in Mr. Rust we have one of the ablest engineers in Canada. For many years he was head of the works department in Toronto, a city of nearly four hundred thousand people, where they expend more on big civic projects in one year than we do in five. It is for work of this kind that we engage him, and there can be no question that he is thoroughly competent to carry it out.

Of late years there has developed in this province a tendency to overlook our own talent and seek elsewhere for professional skill. The provincial government has been a notorious offender in this respect, and the city seems bent upon paying it the compliment of imitation instead of setting an example. It is true Mr. Rust was called in by the provincial authorities to consult with Colonel Thomson with respect to the Greater Vancouver sewerage plans, but that has nothing to do with the case. We do not need to adopt the provincial government's policy with regard to employment of engineers.

HOME REUNION SOCIETY.

There is much that calls for commendation in the objects and aims of the Home Reunion Society, which is shortly to commence on the work for which it was organized, namely, the assisting of worthy men to bring out to this country the families they have left behind in the old land. There are many men in the city, working in steady employment at a good wage, who have not the capital at hand necessary for the payment of transportation of their wives and children from the British Isles. To these men the help of the society will be the invaluable means of reuniting husband and wife, father and children, who without the aid thus given would perhaps have been separated for years to come.

The system which will be adopted by the society is a very simple one, which has worked most effectively and with a minimum of loss in many of the cities of the east. In the first place a number of citizens guarantee all advances which are made to those taking advantage of the facilities offered by the society. In Victoria the number of guarantors who will each stand for one hundred dollars already reaches fifty and it is hoped shortly to increase that number to one hundred. After the applicant has given due evidence of good standing and his application has been passed, tickets will be provided for his family and the total cost will be defrayed by him in monthly instalments.

It was at first thought advisable to secure the aid of a bank to finance the loans which are to be made, but the generous offer of C. A. Solly to fulfil this function has caused the society to cancel their former decision and allow the matter to rest in his hands. The work of reuniting families is a noble one and deserves the helpful consideration of all. It is in the interests of the community that happy homes should abound in the city, and the members of the society and the guarantors will not doubt feel amply repaid for any sacrifices they may make in witnessing the many reconciliations and happy meetings their generosity has made possible.

Our contemporary says the establishment of a drydock means the rehabilitation of Esquimalt as a naval base. Yesterday, it published an account of the dismantling of the Rainbow, which is being abandoned as a training ship. How can we have a naval base without any ships of war, and what is the use of ships of war without training men to man them? The truth is the government is carrying out its pledge to put a stop to the Canadian navy scheme. Mr. Borden's permanent policy is going to be "co-operation" in the shape of contributions of ships to be stationed where the admiralty, which will have full control, sees fit to place them. Being human, the admiralty will station them where Great Britain's immediate interests demand. If it comes to a choice between the Mediterranean and the Pacific, does anybody imagine

that the admiralty will not select the great European sea through which so much of Britain's trade passes?

There is much joy in the southern part of this coast. The people down there have begun the importation of beef from Australia, with the result that announcement has been made of a substantial cut in prices. This is one of the first fruits of the Democratic victory and the dethroning of the beef trust. We know another part of the Pacific Coast that would rejoice exceedingly if it perceived any prospect of a reduction in the exorbitant prices charged for meat; but our people were blind enough to vote in favor of a high tariff and organized monopoly. It is hardly likely that Hon. G. E. Foster's reciprocity mission to Australia will afford us any relief in the direction in which any form of concession would be very greatly appreciated.

"Farming on Vancouver Island" is the title of a beautifully illustrated and artistically printed volume that has been recently issued by the Vancouver Island Fruit Lands, Limited, allied with the Canadian Pacific Railway Company. The work contains much valuable information regarding the agricultural and horticultural potentialities of this island, unquestionably set forth without exaggeration, although one must admit that the pictures appeal very strongly to the artistic sense. And surely we may say without being charged with dragging politics into the matter that it is a pity the provincial government is doing far less than private enterprise in inducing settlers to take up land and assist in supplying the domestic requirements of this highly favored province.

A fleet unit on this coast would mean the expenditure of five million dollars for maintenance alone, while the construction of ships would distribute among our workmen every year at least an equal amount. This is equivalent to two drydocks, and a breakwater annually. If the government would adopt the Laurier policy we would have all of them, and our permanent prosperity would be assured. But, unfortunately, Mr. Borden says a fleet unit out here would be ineffective and he prefers to send a contribution to the admiralty. Let us be accused of base commercialism, may be pointed out that the London Times has stated that the establishment of warship plants in Canada would injure the industry in Great Britain.

BITS OF WISDOM.

Ready-to-Wear Apparel

A Pretty Selection in New Voile Waists

We have just opened up one of the prettiest selections of Voile Waists that we have ever seen. The styles and trimmings are quite different to what we have previously shown, and words are quite inadequate to describe them. One of the special features is the Hand-worked Collars in Bulgarian shades. These are very pretty and effective. Other special features are those trimmed with contrasting shades and stripe effects. To appreciate these values they must be seen. So we draw your particular attention to the showing in the View street windows, or come in and see the still larger variety in the department on first floor.

A Few of the Styles Showing Are

Striped Voile Waist with a round collar of plain white edged with striped voile, ¾ length sleeve, with turnback cuffs trimmed to match collar. Front has a neat lace frill and trimmed with tiny buttons. A very dainty design, and sells at\$3.75

White Voile Waist with hand-embroidered front and high collar of Valenciennes lace; ¾ length sleeve, neatly trimmed with pin tucks, lace insertion and finished with a lace frill. Very neat design. Selling at\$3.75

White Voile Waist, trimmed with clusters of pin tucks; has a round collar hand-worked in Bulgarian shades; front fastening with a small elliptic shaped pearl button; ¾ length sleeve, trimmed with lace insertion and pin tucks. A charming style. Selling at\$4.50

White Voile Waist, neatly designed and trimmed with colored voile; has large pointed collar edged with pointed lace and a band of colored voile; ¾ length sleeve trimmed to match collar; front fastening and finished at the neck with a colored bow. Splendid value at \$3.75

A Linen Dress is the Most Serviceable for Outing and Picnic Wear

HALF the pleasure of an outing or picnic is lost by wearing clothes you are afraid of soiling, and that's the reason Linen Dresses are so popular. Should they get soiled they are easily washed; and they are about the best knock-about dress you could possibly wear. They wear like leather, and no matter how many times they go to the wash tub they always return fresh like new. You will find in the Mantle Department a very large stock and a host of pretty styles to select from, and every color is represented in values to suit all pockets up to \$20.00

CHARGE WITHDRAWN AGAINST WATSON

Attorney-General Consents to Prosecutor's Wish as Accused Acted Innocently

EXPLANATION GIVEN MET THE CIRCUMSTANCES

Detective O'Leary Traced Him by American Stamp on Letter Posted at Westminster

Word was received this morning from the attorney-general that he consented to the withdrawal of the charge against W. J. Watson of obtaining \$1,000 from the Bank of Commerce under false pretences, and City Prosecutor Harrison acted accordingly. Watson was let go. The charge arose out of the sending from the Old Country of a draft for \$1,000 to one W. J. Watson, of Victoria. The W. J. Watson under arrest got the money about two months ago and then the right W. J. Watson came along and had to be paid, too. It has taken the bank and the police all the time since then to find the man who was paid the money wrongfully.

Watson's explanation to Detective O'Leary met the circumstances fairly in spite of the difficulty experienced in locating him after it was discovered that a mistake had been made. He maintains that he was expecting money from the Old Country and that fact was, of course, known to the bank when it notified him that the \$1,000 had arrived. As soon as he got the money he started for home but was offered work in Washington State and stayed near Bellingham. He had never seen any Victoria papers containing the story to the effect that he was not entitled to the money he had received, but when he wrote home and thanked his mother for the sum he received an answer saying that no money had been sent him. He was greatly puzzled at this and wrote the bank asking the address of the sender. This letter he wrote at Bellingham but gave to a friend to mail and the friend mailed it at Westminster with an American stamp. The letter journeyed around from postmaster to dead letter office and back for some weeks before it was finally delivered to the bank.

The American stamp on the letter mailed in Westminster looked like a subterfuge to the police and Detective O'Leary was sent to Westminster. The story of the postmaster there convinced him that the letter had been written and stamped in a nearby American town and carelessly mailed in Westminster. He therefore went down to Bellingham preparatory to working his way back to Canada through each one of the towns along the railway until he should find trace of his man.

At Bellingham, the first place tried, he found out that he called for his mail at the post office there and that he was a member of the Y. M. C. A. A sample of writing proved he was the man wanted. The secretary was unwilling to give Watson away when he found out who O'Leary was, but the detective discovered that Watson was expected to call for a parcel there in a few days and stayed there night and day watching the parcel. On the fourth day the secretary lifted the parcel out and handed it to a man and Detective O'Leary accosted him and told him who he was. Watson explained the circumstances as set out and consented willingly to come to Victoria for trial.

"VERSATILES" OPEN VICTORIA DAY

F. Stuart-Whyte's London Pierrots, "The Versatiles," who were so much appreciated by the large audiences who witnessed their performances at the Victoria theatre last February, are opening up their summer season in the city's new Stadacona Park, corner Fort and Belmont, on Victoria Day, May 24, giving two performances daily at 3 p. m. and 8 p. m. The laws in Stadacona Park (recently acquired by the city from Major Dupont at a cost of \$30,000) are ideal for this style of high-class art fresco entertainment.

The trees and lawns are brilliantly illuminated by hundreds of colored lights, and all the citizens are cordially invited to the "Versatiles' opening performances. A small charge will be made for the use of chairs on the lawn, and as is usual in all art fresco performances collections will be made during the performances. You are only asked to contribute just as much as you think the entertainment is worth.

Refinement has made the "Versatiles." You will neither see nor hear anything objectionable.

The "Versatiles" have the same cast as when at the Victoria theatre, and are further augmented by a carefully selected company secured by F. Stuart-Whyte during his visit to the Old Country.

The Victoria "Versatiles" will change over with the Vancouver company once a fortnight, thereby giving an almost entire change of programme daily.

It is calculated that no fewer than 600 items, including all the latest London and New York song successes, also concerted numbers from all the latest London musical comedies, including "The Girl on the Film," "The Dancing Mistress," "The Sunshine Girl" and "Gipsy Love," etc., etc., will be given throughout the season.

Citizens of Victoria should be sure and find out the exact location of Stadacona Park and come in their hundreds to the opening on Victoria Day. Stadacona Park is just off Fort and Belmont, and a Willows of Oak Bay car will carry you the necessary ten blocks and enable you to enjoy this typically English performance when you feel you prefer fresh air and a cigar to the four walls of a theatre.

HAS CAUGHT 1,200 RATS

Killed Over 200 in Old Union Club Premises in Two Nights.

Since May 1 no fewer than 1,198 rats have been captured and killed by the energetic rat catcher employed by the city a few weeks ago at the rate of 75 cents per dozen rats. Of these 325 were caught in the old Union Club building after it was abandoned. On each of the first two nights after the premises were vacated over 100 traps were set and every one contained a dead rat in the morning. The number of rats caught in a single night has run as high as 114 and never lower than 50. The average is about 90. The corpses are burned in the incinerator by the sanitary inspector.

A LINE O' CHEER EACH DAY O' TH' YEAR

By John Kendrick Bangs

EVER FRIENDLY.

When comes some dull and dreary morn,
 When you're deserted and forlorn,
 By strangers all begirt, alone,
 With not a friend to call your own,
 Seek out some breezy garden-close
 Where bloom the lily and the rose—
 Their friendly nod, so frank and free,
 Will ease your lack of company.

ST. ANDREW'S CHOIR TO GIVE ORATORIO

Work Repeated by Special Request; Augmented Choir Gives Performance This Evening

Those who know the splendid manner in which the St. Andrew's church choir presents oratorios will welcome the opportunity of hearing those excellently trained voices this evening in "The Holy City," for which the choir, under direction of Mr. Jesse Longfield, have been rehearsing for weeks past. The oratorio was given last November to a delighted audience, and although the performance at that time was very much praised it is anticipated, in view of the fact that the membership of the choir has been augmented, that tonight's production will be even better.

The organ, which is undoubtedly one of the finest pipe organs in the city, is also in better condition than hitherto, having just undergone repair and enlargement at the hands of the organ builder, Adolph Posnes. The work is nearly completed, and the volume and variety of tone which it is possible to obtain from the instrument have been materially increased. The following vocalists will take the solo parts at this evening's performance: Alfred Codd, basso; Mrs. Codd, soprano; Miss Blakeway, contralto; Miss Beck, soprano; Mrs. Longfield, contralto, and Mr. Dunford, tenor.

The door receipts will form the choir's donation to the organ fund, and the occasion will give members of the congregation and appreciative outsiders an opportunity of lending their support to the musical organization of the church.

INSPECT FIRE EQUIPMENT

South Vancouver Deputation Getting Information Before Buying Auto Trucks.

Reeve Kerr, Councillors Third and Dickinson and Fire Chief Lentz, of South Vancouver were in the city this morning inspecting the Victoria fire department. They looked over the apparatus and Chief Davis gave them a demonstration of work. South Vancouver has asked for tenders on an equipment of automobile fire trucks and the men named are on a tour inspecting the equipment in several of the Sound cities before making a decision. All spoke very highly of the Victoria department after the demonstration for their benefit.

The Columbia in the Camp

Will add more real enjoyment to your summer's outing than any other part of your equipment. In fair weather and in foul this instrument is a full-souled purveyor of good cheer. In the evening, around the camp fire, its rendition of the efforts of the world's greatest artists will add full measure to the pleasures of the day. If the weather is off color and all are under canvas—you'll forget all about the surroundings if the COLUMBIA does the entertaining.

In order that you may include this wonderful little entertainer in your camping outfit for the summer, we are making a special short-time offer.

Here It Is

THE BIJOU FOR \$25

On terms of One Dollar per week. In addition, we will give you FREE Six Double-Disc Columbia Records—Twelve Selections—and you can do the choosing.

Come in and hear the Bijou in our demonstration parlors. Make your choice to-day, as this offer is for a few days only.

RECLAMATION WALL IS LARGE UNDERTAKING

Approximate Quantities of Material Which Will Be Required

In connection with the reclamation wall at the Songhees reserve, for which a grant was included in the supplementary estimates, plans and specifications have been prepared by the district engineer, J. S. McLaughlin. These have been forwarded to Ottawa.

There will be 150,000 cubic yards of mud and clay required, and 60,000 yards of rock, together with a considerable quantity of concrete. The government looks to secure the mud and clay from dredging work in the harbor.

The wall will run from Songhees point to the Johnson street bridge, and protect a valuable frontage for industrial sites.

This retaining wall will add to the acreage of the old reserve some of the most valuable industrial property, which by the improvements to be carried out in the inner harbor, will become additionally accessible with deeper water in the harbor.

WANT SLOOPS OF WAR BACK FOR REGATTA

If Algerine and Shearwater Are Not Back Festival Will Miss Attraction

The anticipated arrival of both the Algerine and the Shearwater from southern cruises has an important bearing on the success of Saturday's entertainment at the regatta, as the races for men-of-war's cutters always prove one of the principal attractions of the annual event at the Gorge. It is expected that the Rainbow's crew will participate for the last time.

The Algerine is returning from a cruise in the South Sea Islands, having landed a party of seamen at Keelakekua bay to give the monument of Captain Cook attention. A number of the groups in Melanesia were visited, and the officers will be in touch with the conditions which prevail in those beautiful but sequestered islands. Commander Brooker put into Honolulu in an endeavor to secure a tablet which is believed to have formed part of the Cook memorial, and which has disappeared, but he was unsuccessful.

CONTINUE AGENCY OF ROYAL MAIL PACKET LINE

The agents of the Royal Mail Steam Packet company are Findlay, Durham and Brodie, who have held the agency since 1877, and they will handle the vessels of this line at Victoria.

In view of statements which have appeared that the shipping company has no permanent representatives here, B. C. Mess, the manager, stated to the Times this morning that the appointment was never in question and that the firm has held the agency continuously since the time when there was a considerable amount of business by the Panama isthmus, prior to the construction of the Canadian Pacific railway.

YOKOHAMA BRINGS UNEXPECTED PAIR

Point of Immigration Law Holds Nippon Liner at Wharf

JAPANESE STEAMER BERTHS FROM ORIENT

Valuable Silk Shipment and Varied Lot of Goods in Cargo

There was a long wait when the Yokohama Maru drew up at the outer wharf shortly after 12.30 this afternoon. The reason of this delay was made plain after the immigration officers had cleared the ship, as it had been found that two Orientals more than the tally sheets showed were on board the vessel. As this infraction of the immigration laws would result in fines of \$300 each, some discussion took place between the immigration agent and Captain Wada, and his officers. As, on checking over it may be found that some of the returning Orientals have crept into the count, it was officially stated later that the tally sheets will be checked before the fines are imposed. There were 131 of this class for this port, of the 157 to be debarked here.

Captain Wada said that the weather had been excellent and the voyage had passed off without incident. There was nothing further to report with regard to the situation in Japan over the anti-alien legislation in California.

Among the passengers was Mrs. T. M. Knappen, of Vancouver, wife of Theodore M. Knappen, the well-known realty man. Mrs. Knappen has been on a tour of Japan recently. Other passengers from the saloon for Victoria were Mrs. P. M. Lester, Mrs. T. Takatsu, Misses A. M. Lester, J. A. Law, A. L. Brown, B. Jones and P. A. Lester. Saloon passengers for Seattle included Mrs. J. Sundstrom, Mrs. Y. A. Oliver, Mrs. B. M. Ogier, Mrs. C. Rolfe, Mrs. L. M. McIntyre, Misses P. M. Ogier, J. G. Shearer, Messrs. J. Sundstrom, E. H. Egberts, W. R. Killinger, E. J. Heart, U. Kaneto, B. Kashi, S. Okano, N. Kitagawa, M. Maeda, K. Takei, R. Nishimoto and B. Maeda.

There were 49 Japanese and 131 Chinese for this port, and 63 Japanese and three Chinese for Seattle.

For the silk train there were 600 bales of raw silk, nine of silk goods, and two of cotton cloth. In the 43 tons for this port there was the usual Oriental produce including 4,388 packages of bean cake, bone meal, rice, crude camphor, procelain, peanuts, tea, sugar, antimony, bamboo and wet provisions to rejoice the heart of the Orientals in this province and the western states.

The steamer will get away for Seattle this evening.

THREE ADDITIONAL SCOWS TO WORK ON BREAKWATER

Three new scows of considerable capacity are to be added to the equipment of the contractors, the Sir John Jackson Company, for hurrying work on the breakwater. These scows will quicken the delivery of material from Albert Head quarries for the breakwater, and will aid in the delivery of rock for filling purposes.

A good deal of preparatory work is proceeding inside the fence lines, and as soon as the scows are available there will be more development on the big undertaking.

CONGRESS IS FINE ADDITION TO FLEET

Pacific Coast Steamship Company Adds Handsome Steamer

The launching of the Congress for the Pacific Coast Steamship Company from the yards of the New York Shipbuilding Company, Camden, New Jersey, is of importance to this port in view of the fact that the President, or one of the other larger steamers of the line, may be released from the principal service between San Francisco and Seattle for the purpose of taking in the route to Victoria, as a consequence of the anticipated arrival of the Congress in Pacific Coast waters.

The Congress was christened by Miss Mary Phelps Jacob, a niece of President W. M. Barnum, of the Pacific Coast Company. The accompanying description is supplied by local representatives of the Pacific Coast Steamship Company.

Watertight Bulkheads.

The Congress is notable for her size as a coaster, the dimensions being: Length over all, 440 feet, 8 inches; breadth, moulded, 34 feet, 9 inches; depth to upper deck, 29 feet, the upper deck being the lowest passenger deck. The total depth to boat deck is 34 feet, 10 inches. The vessel is of the highest classification requirements of the American Bureau of Shipping. She has five complete steel decks and ten complete steel bulkheads extending to the upper deck, dividing the hull into eleven watertight compartments. The double bottom extends to the upper turn of the bilge. The Congress has been made still more efficient against outside injury by the installation of watertight bulkheads running longitudinally six feet from the outer skin of the vessel and extending the full length of the boiler compartments.

She will carry 3,400 tons dead weight of freight in five freight compartments. There are accommodation for four hundred first class passengers, 100 second class and 100 third class, besides 150 of a crew. The life-saving equipment is ahead of the government requirements.

Propelling Force.

The propelling power for this vessel is supplied by ten boilers in two main fire rooms and two sets of triple expansion engines of 3,700 h.p. apiece and a speed of about 17 knots is expected. The electrical installation is very complete and large, there being three 50 kilowatt generators installed. The Congress will leave for the Pacific coast about the beginning of July and arrive at San Francisco about the middle of August, and Seattle about September 1.

WILL ALTER SCOWS FOR DEEPENING WORK

Owing to the material excavated from around the outer wharves in anticipation of the arrival of the Empress of Russia being of too liquid a character to enable the scows attending on the Mastodon and Ajax to handle it satisfactorily, there will be a trifling delay during which these scows will be drydocked for alterations.

Additional timbers will be laid, and a sacking covering added, by which the scows will be made sufficiently watertight to enable the liquid mud to be picked up satisfactorily in order that the tenders may tow it out to sea for disposal.

The Harrison boat, Crown of Galicia, which was reported yesterday to have left San Pedro for San Francisco, is bringing 533 tons for this port, according to the local agents, R. P. Rithet & Company. She is looked for about the end of the month at this port.

NIAGARA COMING

The Niagara left Honolulu on her maiden trip yesterday and will show up at the outer wharf on Tuesday with some 600 passengers, the largest number who ever crossed the Pacific from the Antipodes in one ship. The Makura had a large passenger list on her last northbound trip, and there is every assurance that the opportunity of travelling by the monster new liner at a time of year when there is a large business from Australia and New Zealand is being taken the fullest possible advantage of on this trip.

Alberni Farms

RAILWAY OFFICIALS RETURN ON RUPERT

Fair Travel Southbound From Northern Terminal Now; Weather Good

Good weather, with a little rain, occurred on the southbound trip of the Prince Rupert, according to Capt. McKenzie, when the steamer made her regular call this morning en route to Seattle. The travel from the north is a little lighter on the Grand Trunk Pacific steamers now than for some time, although large parties are going north for survey work, particularly in the Queen Charlotte group. The Prince Rupert brought down among her 60 passengers Collingwood Schreiber, Dominion engineer, who has been on an inspection trip along the railway line with officials of the company; John Stewart, of Foley, Welch & Stewart, contractors for the line, and several other prominent men.

Capt. McKenzie said that as the fishing season is only just opening up, there is nothing yet to report. The spring salmon, however, will shortly be available for the canneries. The earlier points are commencing fishing this week.

TRAVEL TO EUROPE WILL BE A RECORD

Many Will Go by Rail and Steamer to Europe and East

Activity in the passenger business is commencing at the local offices. There will be a large amount of travel from this part of the world to Europe and the Eastern cities during the warm weather.

Although many of the world-famous public institutions in the old country, museums and art galleries, are closed now on account of the outages of the suffragettes, the attractions of the European centres are still open for the globe trotter, and the galleries of Florence and the Museums of Munich have just the same power to draw the holiday-maker as ever before. Several national organizations, such as the Canada in parties for the old country this summer, and Victoria representatives will accompany the excursions.

The Eastern states and provinces of this continent make their annual appeal to the large number of persons who have come out to the west to make a home for themselves among new surroundings, while there is a strong magnet to the younger generation, which has received its higher education in eastern universities, to renew acquaintances with the old friends and the old scenes.

Most of the roads are commencing their summer schedules and bringing into operation the lower summer rates.

The Lillooet, of the hydrographic survey branch, is now being coaled in preparation for service in British Columbia waters. She will leave port with her bunkers filled to the limit.

The conference of the B. C. Marine Association and the International Longshoremen's Association, is continuing to-day, on questions of wages, and terms of employment.

SPRING SALMON ARE BEGINNING TO RUN

Camosun Brings News of Opening of Season; Prospects Bright

Fishing for spring salmon is just commencing at the Fitz Hugh Sound, according to word brought down by the officers of the Camosun, of the Union Steamship Company, which got away from here this morning with six passengers and a small quantity of freight.

Officers stated that the spring salmon season was due to open the following day when they got away from Bella Coola on Saturday. The results will not be known for a few days, although prospects were good.

The sockeye season follows later, about June 15, and at that time the canneries at Rivers and Smith's laets will be opening up. Till that time arrives business will be quiet.

The Camosun will leave Vancouver to-night for calls at the northern points on Vancouver Island and the regular stops on the mainland to Bella Coola.

The Proteus, of the Blue Funnel line, will return to the outer wharf on Monday to load lumber on her out-bound trip.

SUCCESSFUL SEASON CLOSED BY MEETING

Natural History Society Ends Its Course With Instructive Gathering

The Natural History Society concluded its season's meetings Monday evening with a very good attendance of members and others, A. S. Barton, the president, in the chair. The secretary, Mr. Anderson, gave an interesting report of the field meeting held at Gonzales Heights on Saturday last, and recorded the specimens of plants and flowers found on that occasion, amongst which the nodding mouse-ear, the snake-root, the stone-crop, the eriophyllum caespitosum, and several varieties of legumes including the lathyrus oraganus, were conspicuous. Mr. Wallace had pointed out the bulb of the esculanta and leichthilii lilies, explaining that the bulb had formed an important article of food with the natives.

Mr. Pemberton, who conducted the party over the hill, had pointed out several instances of how trees will make attempts to form upright growth under abnormal conditions. In one instance a balsam fir, the branches of which had become flattened to a rock, had thrown up upright growths resembling small trees.

Mr. Sutton gave an account of the geological formation observed by the party. The formation of Gonzales Heights, he said, was interesting as being the oldest deposit found near Victoria, the rock being mostly composed of sedimental metamorphosed rock with a variety of quartzites, underlain by shale. The absence of fossils showed it to belong to the Cambrian.

Told of Railway.
R. E. Gosnell read a paper on the History of Confederation, tracing the circumstances that led to the ultimate completion of the transcontinental railway, and the many obstacles that had to be overcome.

The minutes of the previous meeting were read and adopted, among the interesting specimens which had been shown on that occasion being an orchid of aerial habits shown by Mr. Wallace, who explained his theory that orchids required a simpler treatment than that usually accorded them, and stated that he was carrying out certain experiments to test their hardiness in ordinary atmosphere. Mr. Barton had shown a photograph of totem poles, while Mr. Lethaby showed a curious fishbone which was identified as a shark's tooth.

Mr. Wallace exhibited some fine specimens from his collection of orchids, one, a Mexican variety, Laelia Majalis, being the second in the world to be grown by a collector, and the only one to grow two flowers on one stem.

A. S. Barton exhibited a tobacco pouch, made from a Buffalo calf skin which was filled with kinnick-kinnick or Indian tobacco, made from the inner bark of the red willow. Mr. Barton explained that the tobacco pouch had been presented to him by an officer of the 90th Regiment, who had taken it from the battlefield of Batoche in 1885.

Destroyed Robins.
C. C. Pemberton informed the meeting that a crow had destroyed some young robins, killing two and pecking out the eyes of another, the native variety, which were in a nest in the garden at "Rocabella," in spite of the efforts of several people to save them. Miss Smith reported that the Grosbeak, which was reported to have damaged the fruit blossoms, was entirely innocent, as its crop contained no less than 44 caterpillars beside other insects.

Mr. Barton reported having two colonies of redwing blackbirds, in each case there being one male bird and three females nesting. This polygamous habit apparently was not widely known, and was somewhat difficult to account for, unless on the supposition that the male birds' very brilliant plumage had been always much sought after by the inhabitants of the country to which they migrate in the winter season. Mexico was their principal habitat.

The committee is trying to arrange for a field meeting to be held at Albert Head in the near future.

PASSING SHOW

Empress Theatre.
The ludicrous pantomime comedy by the Wheelers is the laugh hit of the Empress bill because of the fascinating Nellie Wheeler and the hilarity of the other Wheeler injects into every part of the act. Jimmy Britt, however, is the big draw of the show and shows real ability as a stage performer. Britt looks the same, gentlemanly little man he did during his ring career and, spruce in attire, he recites a monologue of ring and other experiences. His act ends with a prize ring recitation given with spirit and dramatic force. Charlotte plays popular airs of three countries on the violin, her final being a Scottish piece. "The Test" is a dramatic sketch ably presented by Agnes Lee and her company, and containing several highly electric moments. Edward Barnes and Mabel Robinson in fifteen minutes of song and fun, go from opera to rag and from Shakespeare to travesty.

"Introduce Me."
In "Introduce Me," which will be seen this evening at the Victoria theatre, Miss Della Clarke, the clever author-actress, is making a bid for popular favor with a clean, clever comedy full of humorous situations and a story that is sustained right to the finish. Miss Clarke plays a dual role in that she is a club woman to her husband and one crowd of friends, and a successful author to others. The play's story is built around the "double life"

she leads, which gives rise to complications with her husband. The husband dramatizes a book she has written. All the time he is working on it he hasn't the slightest suspicion that his wife is the book's author. With the success of the play comes the revelation of the author-wife, a straightening out of affairs and finally one last situation on which the curtain drops.

Majestic Theatre.
The programme for to-day and Thursday is composed of a selection of features. "When Greek Meets Greek," a successful financier, imperious, domineering, ill-tempered, finds his match in a new stenographer who is also a law unto herself, and his first surprised annoyance slowly gives way to admiration and love. "A Streak of Yellow" the pretty heroine is burned on the face and of her two lovers the accepted one is made to show the yellow streak. "The First Prize," a little story of sentiment, with some lovely views of Florida in its backgrounds. "The Weekly," No. 18, has many interesting topical items. "Mr. Ford's Temper," a high class vitograph comedy.

African Hunt Pictures.
Anyone who attends the exhibition of the pictures secured by Fand J. Rainey on his expedition to British East Africa, which will be shown at the Victoria theatre three nights, beginning next Thursday, May 29, must regret the loss of over 9,000 feet of film owing to the London dock strike; but fortunately two of the most thrilling of the films were saved, and an opportunity is given to follow the chase of the hunting leopards, and to ride full cry after a great lioness. Mr. Rainey took with him about sixty lions. While the pursuit of a leopard and lioness are thrilling, the scenes at the different places where the expedition halted and the topographical features of the pictures are said to be highly attractive. A matinee will be given on Saturday.

Maud Adams.
Maud Adams is to be seen in "Peter Pan" at the Victoria theatre Wednesday, May 22. The beautiful, eternal youth which Barrie personifies in "Peter Pan" is suggested in every motion by Miss Adams. The play itself is a fairy story written for grown-ups. It transports one to the Never-Never Land. One leaves his cares and his years behind, and he sees again the bright, glittering dreams of childhood, where the forces of evil are contending against the good, and where, as in our one time idea of life and things, the pure and the true, although oft times almost vanquished, are always eventually successful. Mr. Frohman has surrounded the actress with a strong company and given the play a series of elaborate settings.

FIREMEN WERE READY.
Percy Parnell's Marriage in St. John's Church to Miss Hannon, of Rossland, No Secret.

Believing that he was surprising his fellow members of the Cormorant Street firehall, Percy Parnell drove around to the fire-hall in a motor-car yesterday afternoon with his bride of fifteen minutes, the daughter of Mr. and Mrs. Hannon, of Rossland, B. C. That the wedding was no secret was proven by the vigorous shower of rice and sounding of sirens that greeted their appearance. The couple were married quietly in St. John's church. After a short honeymoon trip they will return and reside in Victoria.

WHISKY HOLDS ITS VICTIMS.
Until Released by Wonderful Samaria Prescription.

Liquor sets up inflammation and irritation of the stomach and weakens the nerves. The steady or periodical (apree) drinker is often forced to drink even against his will by his unnatural physical condition. Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless and can be given with or without the knowledge of the patient.

Thousands of Canadian homes have been saved from misery and disgrace by some devoted wife, mother or daughter through this wonderful Canadian remedy. The money formerly wasted in drink has restored happiness, home comforts, education and respect to the families formerly in want and despair.

Read the following, one of the numerous unsolicited testimonials received:

"I can never repay you for your remedy. It is worth more than life to me. My husband has been offered liquor several times, but would not touch it. He said it had no charm for him now. May God's choice blessings ever rest on you and yours are my prayers ever. No one knows it but those who have tried it. As soon as I can I will see others that I know would give anything to stop their husbands from drink. I will give them your address."
— Mrs. K., Dawson, Alta.
(Name withheld on request.)
Now, if you know of any family needing this remedy, tell them about it. If you have any friend or relative who has formed or is forming the drink habit, help him to release himself from its awful clutches. Samaria Prescription is used by physicians and hospitals.

A FREE TRIAL PACKAGE of Samaria Prescription with booklet, giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed package to anyone asking for it and mentioning this paper. Correspondence sacredly confidential. Write to-day, The Samaria Remedy Co., Dept. 75, 49 Colborne street, Toronto, Canada. Also for sale at Hall & Co.'s drug store, corner Yates and Douglas streets, Victoria.

Simplify Your Baking and Cooking Problems

"WEILER'S" STEEL RANGES FOR WOOD AND SOFT COAL GIVE ENTIRE SATISFACTION

Modern labor saving devices

A variety of styles and sizes are now on the floor and ready for your inspection. Having been constructed, specially, to meet the local fuel conditions, they are superior to any other range sold at a competitive price on the market.

A RANGE WITH 42 SPECIAL FEATURES
Features that should be of vital interest to women who wish to save themselves the annoyance of having food spoiled by a faulty oven. Good results are certain with this range. The fact that the firebox and flues have been specially constructed for burning soft coal, more heat with less coal is the result.

A washable steel body; ventilated oven; air spaces behind the firebox linings prevent overheating; duplex grate and the top of the range made in four pieces allows for contraction and expansion and removes all fear of cracking.

Many other features that will interest you are best illustrated by seeing the range.

Cooking With Gas Means That You'll Have a Cool Kitchen This Summer

If you have the gas main laid on your street, why not use gas for cooking purposes?
With a "Weiler's Range" you are sure of perfect satisfaction. Its sanitary, white enamel castiron oven is one point you'll appreciate, while the cooler kitchen, the economy in fuel and the better baking and cooking conditions will more than repay you for the investment.

You'll Want Your Awnings Very Soon, Why Not Order Them Now?

Keep your house cool, enjoy the benefit of summer weather without the discomfort of feeling burned up, and add to the appearance of your home.
Order early and avoid delay. Estimates and samples of materials free.
SUN BLINDS, split bamboo, starting at \$1.25 each, and ranging up to \$3.00, according to size, now in stock.

Will You Let Weiler Brothers, Ltd., Furnish Your Home and Help You to Pay For It?

Many a man would start a home of his own if he knew that he could furnish it, comfortably, and pay for it a little at a time.
No necessity to wait until you have saved up a big lump sum, the money slips away no matter how you try to save. Call in and investigate our plan for easy payments.

We supply you with the best furniture your money will buy, back the goods with our guarantee for quality, and our liberal terms literally help you to pay for your home.

Hammocks Add to the Pleasures of Summer Weather

Buy her a hammock in which she can rest when the tiresome tasks of cooking and cleaning are done.

Better health is the part that she will enjoy and you will benefit by her improved mental and physical condition—she will be better company for you.

Prices from \$18.00 each \$1.75 down to as low as...

Sanitary Mattings

JAPANESE MATTING in colors and natural colored grounds, various patterns and 36 inches wide. Come at, per yard \$2.50

SPORTING NEWS

BRITT CALLS BAYLEY TO WIN CHAMPION LEAVES ON FRIDAY

Right Cross Will Beat Barrieau, Hands Will Be O. K. for Title Bout

"Bayley is a wonderfully strong little fellow, one who has the natural fighting ability of a champion, and while Barrieau is the better boxer of the two, I think that Bayley will win over the fifteen-round route when the pair meet on Saturday evening at the Brighthouse Arena." No less a personage than Jimmy Britt, the former lightweight star, expressed the above opinion of the Canadian lightweight title holder, after witnessing Bayley go six rounds with Eddie Shannon and Bobbie Evans at the V. A. C. club-house yesterday afternoon. Britt was delighted with the form shown by Bayley and said that while he had been led to believe that Bayley was a rugged fighter with nothing but a punch, the champion was directly the opposite, combining natural ability with a kick that he carries in either hand.

Another Wolgast.
Quite a crowd gathered at the Broad street club-house to view the final try-out of the champion and the manner in which he stepped six rounds without drawing a drop of perspiration showed that the title-holder is in better shape than ever before. He showed all his cleverness in going the route with his

training partners and made a mess of Evans in three sessions, giving Shannon all he could do to stay with him. Bayley is developing into a grand little fighter and this will count greatly in his favor when he meets Barrieau. He can hit like a trip hammer and crosses very nicely with his right, a punch that is sure to work great execution with Barrieau's jaw when the pair meet. Britt was particularly taken with the manner in which Bayley wades into his man and then cuts loose.

"That's Wolgast all over," he said, as the champion backed Evans against the ropes and started to send over a volley of jabs.
Needs Fast Work.
Britt offered a few training suggestions that will help the champion along, even though the time is short. "More fast work and mix-up bag punching with shadow boxing and skipping," were his instructions. All doubt as to the condition of Bayley's hands was set aside by the manner in which he pummeled the bag, boxed and continued his active training. Britt has shown him how to bandage his hands, and there will be no fear from that source when the main bout starts at Brighthouse on Saturday night.

Bayley will leave on Friday morning for Vancouver and will make his headquarters at the Windsor hotel, where Willie Ritchie is also stopping. A great number of Victoria enthusiasts will be on hand to view the struggle, and tickets can now be had at the Panama hotel or at the Westholme.

ANDERSON AND SMITH VICTORS

Mandot Knocked Out, While Willard Was Out-Pointed In Twenty Rounds

San Francisco, Cal., May 21.—Fifty pounds' advantage in weight six inches in height and a reach like the arm of a derrick, could not win last night for Jess Willard from Gunboat Smith, who won a referee's decision in the last round of a twenty-round bout. The heavier punch of the more experienced and aggressive veteran counted for more in the result than the bulk and strength of his towering opponent.

Willard had the strength and the courage, but he was too good natured and too sluggish. In the periods when he might have won the fight he lacked the courage and the determination to push through for a victory. Of the twenty rounds fought, but six could be counted to Willard. In offence he used a straight left and a right upper-cut, dangerous at times. At infighting he was a mere novice.

For a while even money ruled. The weight of Smith means, however, forced the odds to 10 to 8, with "Gunboat" the favorite.

Anderson Won.
Los Angeles, Cal., May 21.—Joe Mandot, of New Orleans, was knocked out in the twelfth round of his scheduled 20-round fight here last night with "Bud" Anderson, of Vancouver, Wash. Mandot was not knocked down in the final round, but he was out on his feet. He was clearly insensible. Referee Eytan, seeing the condition of the same Southerner, stopped the fight, with Mandot staggering blindly about the ring, and held up Anderson's hand in token of victory.

Game to the core, but apparently weakening after the terrific punishment he had taken, Mandot tried desperately in the eleventh to reach Anderson's jaw, but his blows either went in the air or were ineffective, and Anderson staggered him repeatedly with rights to the jaw or made him sag under body punishment.

Anderson forced the fighting at the beginning of the twelfth and staggered Mandot with rights and lefts to the face and body. Mandot's desperation made all his efforts of no avail, and when a terrific right to the jaw made him wilt, apparently helpless but still on his feet, Referee Eytan stopped the fight to save him from a knockout, and awarded the victory to Anderson.

SMITH IS LUCKY.

Gunboat's Wife Receives Legacy of \$8,000.

San Francisco, May 21.—To-day is a fortunate day for the Smiths. While "Gunboat" Smith is receiving the proceeds of his victory of last night over Big Jess Willard, the erstwhile Mrs. "Gunboat" Smith will at the same time be having her share of good fortune in the shape of an \$8,000 bequest from an aunt. Mrs. Eleanor Smith, as her name appears on the official records, obtained from the probate court yesterday the order for the payment of the bequest, which was willed to her by Mary Ellen Herlihy. Notwithstanding the interlocutory decree of divorce obtained from her fighter husband some time since, Mrs. Smith's feelings toward him are wholly kind. "I'm sure I wish him well," said she, "but we've settled our accounts with each other."

The Cubs will hold a practice game at the North Ward park to-morrow night. All players on the team are asked to turn out.

AMERICAN CLUBS NOW SATISFIED

Four Boats Will Be Ordered in Defence of America's Cup

New York, May 21.—With almost universal satisfaction prevailing in yachting circles over the news from London yesterday that the New York Yacht Club has accepted the latest challenge of Sir Thomas Lipton to race for the America's cup, gossip was busy to-day regarding probable plans for the defence of the trophy.

The greatest satisfaction is expressed that the coming series of races will be held under the present rule of measurement and time allowance. It is freely predicted that with 75-foot yachts designed under this rule, good seaworthy boats will be the result instead of the flimsy racing machines which participated in the last contest.

One result of this change, it was said, will be a great reduction in the cost of building and maintaining the yachts, and this is expected to bring about keen competition for the honor of defending the cup.

Many Trial Boats.
Yachting enthusiasts believe at least three and perhaps four boats will be built to contest in the trial races. It

WHO'S WHO IN WORLD OF SPORT

JIMMY AUSTIN
California Bantam, Twenty-three Years Old To-morrow.

Jimmy Austin, the little California boxer, was born in Los Angeles twenty-three years ago to-morrow, and entered the ring as a professional when seventeen years old. During his first year as a preliminary boxer the little bantamweight fought nine bouts and registered five victories and four draws. In 1908 he knocked out Tom Murray at San Diego, and Willie O'Keefe at Los Angeles, and defeated Young Togo, the Japanese boxer, but was defeated by Mike Kutcho. Jimmy started the year 1909 by putting the clever Max Weber to sleep in the first round, and defeated several other men, but lost to Red Corbett. Austin made his first trip out of the state in 1910, when he went to New Orleans to box Kid Greaves, who defeated him in ten rounds. A little later he lost to Eddie Campi in San Francisco. Since then he has won victories over Danny Rodney, Jack Ward, and others, but the early promise he gave of developing into a great boxer was not fulfilled.

Stanley held Tacoma safe in all but one round of yesterday's game, which Portland won 4 to 3.

REMARKED ON THE SIDE

Coast Favored by Visit From Welsh.
Unless Freddie Welsh changes his present programme, the British lightweight champion will be seen in action in Victoria for a four-round bout the latter part of next week. With the Bayley-Barrieau bout booked for Saturday, and the visit of Jimmy Britt to Victoria, the Capital City boxing enthusiasts are having a pretty busy time. Welsh would prove a popular attraction in Victoria, and while an attempt will be made to have Joe Bayley go four rounds with the English champion, it is possible that Eddie Shannon or Bobbie Evans will be substituted. Either boy would step four rounds nicely with Welsh. The selection of Eddy Bishop as referee for the Bayley-Barrieau bout will meet with approval, even though Jimmie Hewitt is undoubtedly the best official on the coast. A neutral referee leaves no room for excuses on the part of either boxer.

Again Do the Bees Punch Out a Win.
Had either Spokane or Victoria possessed a really good twirling selection yesterday, the result might have been different, but with the Pippins again using a trio of slab artists, and Kiddo Wilson heaving a very indifferent article of ball, another tiresome struggle was staged at the ball park. The accident to Charlie Brooks will leave a huge gap in the Victoria infield, for not only was Brooks a splendid ground coverer, but he scooped up all kinds of bad throws and was high in the air for heaves that were marked wild. Brooks does not lead the club in batting but his hitting in the pinches has been one of the features of the season. It is regrettable that the accident came at a time when the Bees were steadily climbing, and while Brooks will be able to get back into the game in another month or so, it will be hard to find a suitable replacement of the first sack in the meantime. Brooks stated to the writer yesterday morning that his ankle was feeling fine and that he intended cutting loose on the bases from now on. That he should break his right ankle in his first attempt to steal in yesterday's game, indicates the hoodoo that is following the Bees.

Bud Anderson Must Now Be Considered.
Knocking out Joe Mandot in twelve rounds is the feat that hauls Bud Anderson to the very top of the lightweight ranks and makes the northern fighter a very probable choice for the Fourth of July title feature at McCarey's "Frisco Arena. Anderson has now beaten Brown and Mandot decisively, both of whom are highly rated boys. There is a hitch in the arrangements for a bout on July 4 between Willie Ritchie and Joe Rivers, McCarey holding Rivers' contract for a fight on that date. Whether or not he will release Rivers to allow the Mexican to meet Ritchie remains to be seen. With Anderson now before the public eye, it is possible that McCarey will arrange a match between Anderson and Rivers as an elimination contest, the winner to meet Ritchie. Then Freddie Welsh must be considered, and the Britton has stated that he came to this country to get a chance at the title.

Come Out Saturday In Summer Raiment

Honor the Festival that marks the arrival of Summer by wearing suitable apparel

Let your joy in the occasion be evidenced in your costume as well as your countenance, that nothing may mar the harmony of Victoria en fete.

You'll want to shine in some circle, large or small, whether you attend the ball game, play tennis, witness the sports at the Gorge or picnic at one of the delightful spots around Victoria. Maybe you'll be taking your fiancee in canoe or boat and there, more than anywhere, you'll want to feel you are dressed for the occasion.

Panama or Straw? Which Shall It Be?

Ohlbaum Bros., of New York, the largest importers of Panamas in America, have sent us their best styles suitable for young or older men; but whatever the style you prefer, the QUALITY is there.

LIPTON SCORES FIRST VICTORY

Acceptance of Challenge for America's Cup is Announced

London, May 21.—Sir Thomas Lipton considers that the conditions of acceptance of his challenge by the New York Yacht Club are a great victory for him. He said they will enable him to build a good, seaworthy boat. It is still a question whether Sir Thomas will be allowed to tow his craft across the Atlantic.

"It does not really matter much," he said, "whether I am allowed to tow or not. Anyway I should not want to

EASTERN GOSSIP.

Ball Teams Drawing Big Crowds—Soccer Results.

Montreal, May 21.—Both Montreal and Toronto ball teams won ten-inning games in the International League Saturday, the former from Jersey City by a 1-0 score and the latter from Baltimore by a score of 4-2. Both games were highly exciting and attracted large attendances. Baseball has made enormous strides in Eastern Canada, even the Montreal City League, a semi-professional organization playing on Sundays, drawing a weekly attendance of 5,000.

In the inter-provincial professional soccer league games were played in Hamilton, Toronto and Montreal.

In Hamilton 1,500 people saw the Montreal City team defeat the Hamilton West-linghous by a score of 4 to 1.

In Toronto the two local teams played their first derby, Toronto winning from the Queen City by 1-0.

In Montreal, the game was between the Montreal Rangers' eleven and Ottawa, and the Rangers had little trouble winning by 4 to 0.

ARCADO BOWLING ALLEY

Prizes given away every day.
Pemberton Block, Fort Street

SHELL BROKEN.

New Haven, Conn., May 21.—There was gloom in rowing circles at Yale to-day over word received from New York that the new English shell ordered by Coach Kirby, who came here from England to put the finishing touches on the Yale crew, had been damaged in that city while being removed from the steamer on which it was shipped to this country. The boat was reported to have been stove in while being hoisted on to a lighter.

It will be repaired if it is possible.

Pappa Cohn's left-fielder took a head at pitching yesterday. He had a hard time to burn and a few pretty curves.

SPORTING NEWS (CONTINUED)

ARE BEES AFTER NORDYKE? INFIELD SHIFT NECESSARY

Spikes Caused Brooks' Injury; Bobby Steele Pitches No-Hit Game

A rumor was current this morning that Lou Nordyke, former Victoria first baseman, now with Tacoma, was the man whom the locals sought to replace Charlie Brooks at first. No confirmation of the story could be secured at the ball club headquarters, but as Nordyke is merely filling in for McGinnity's club, McGinnity may be induced to turn him over to Victoria until Brooks returns. An X-ray photo of Brooks' injury which was taken at St. Joseph's hospital yesterday afternoon, shows that Brooks broke a small bone in his right ankle, an injury that will keep him out of the game for at least a month. He will remain in the hospital for a few days and then return to his home in Seattle.

Swain at First. Victoria surely carries a jinx as regards broken ankles, Brooks' injury being the fourth of its character that the Bees have sustained in the last two years. Two of the fractures occurred on foreign diamonds, while two have

took place at the Royal Athletic park. Manager Lynch this morning said that there was a possibility of Charlie Swain playing first base, and Delmas getting back into the game. In that case Alberts will be kept in right field and from his showing to date he will about do. Then again, Harry Meek is a grand first sacker, and with Shea in the line-up, Meek can go over to the initial station. Ben Hunt would have filled in nicely but he has been sold to Chattanooga.

Spikes to Blame. New Spikes, which Brooks secured on Monday from Seattle, were responsible for the broken member. The first sacker said before the game that he was going to start running bases and remarked that his left leg was O. K. He invested in a brand new pair of kicks and had only worn the shoes twice when the accident happened. Brooks had filed by a mile and was sliding in under Yohe when his spikes caught and twisted his leg. The Georgian was playing better ball than ever and his absence will greatly weaken the Bees' attack.

Bobby Steele, the local pitcher who is now with the Moose Jaw club in the Twilight league, is pitching wonderful ball in that circuit. Yesterday he pitched a no-hit no-run game against Calgary sluggers.

self nicely, but Brooks' loss will be a serious one.

BEES GRAB GAME FROM SPOKANE

Charlie Brooks Breaks His Ankle Sliding Into Third; Score 8 to 7

Chalk up three straight for the Bees. Through the superior slugging ability of the hired artists under Mike Lynch, Victoria copped another from the Indians yesterday, 8 to 7, but not without sending in a relief hurler ourselves, to save the game that Kiddo Wilson was threatening to present to the Indians at any moment. Speed Narveson was the boy who turned the tide, and Wilson was lucky to get away with the win, though on the hitting the Bees certainly deserved the honors. Fourteen hits did the Bees compile, including a home run and a brace of doubles, while Spokane secured but seven off Wilson, though the veteran passed eight men. It was a case of the survival of the fittest, and while Ostdiek could not select a pitcher who could stop the Bees, Narveson sewed up the game when he entered the box.

Game Protested. Manager Ostdiek protested the game in the fifth inning and was ejected from the contest in the same stanza for kicking too vigorously on rulings by Umpire Edginger. The latter allowed Felts to take second on an overthrow, by Ostdiek, which Ostdiek claimed was an error. Lynch claimed a base for Felts and the fair-haired left fielder ambled to second with Ostdiek beating it to the bench because of his worthy objections. Auer replaced the Spokane captain, while after the Bees had batted in five runs off Dave Kraft, the veteran was hoisted, Indian Cadreau going into the box. The latter lasted until the seventh, when he was banged all over the lot for another bundle of tallies, Pappa coming in from left field and finishing the game. Wilson allowed a couple of runs in the eighth and another in the ninth, with two on and no one down. Narveson closed the inning; at the cost of another run.

Brooks Injured. It was a costly win for the locals, Charlie Brooks, the hard-hitting first-sacker, breaking his right ankle as he stole third in the seventh. The Georgia boy had banged out for hits in many times at bat and was the star of the fracas, when his ankle snapped on a clean steal of the third station. Smith replaced him and handled him.

Team Intact Next Season. Perhaps the most important announcement was that of Capt. Lester Patrick, who stated that the team would be intact next season. He looked for another win, a forecast in which he was backed up by the other members of the team. The Paterson cup, emblematic of the P. C. H. A. championship, was placed at one end of the table, while the silver trophy presented to the popular manager was also on view. Those who received the lockets included Manager Patrick, Bert Lindsay, Walter Small, Bobbie Rowe and Skinner Poulin. Lockets will also be sent to the following: Tommie Dunderdale, Bob Genge, Goldie Producers and Jack Ulrich. The latter quartette are now in the east and the toast to the "Absent Members" met with hearty response.

Others who spoke were W. H. Wilkerson, J. A. Taylor, C. Burnett and M. McClure, and Mr. Trotter, who acted as host to the party.

WELCH MAY COME. Efforts Will Be Made to Bring Champion to Victoria.

Del Thomas is now making arrangements to have Freddie Welsh, the English champion, appear here the latter part of next week or early in June. He will give an exhibition under the auspices of one of the local clubs, and if possible, Joe Bayley will be secured to go against Welsh.

Vancouver, May 21.—That Willie Ritchie will meet Freddie Welsh for the world's title at the Brighouse Arena on Labor Day, if the latter really wants a match and the terms are satisfactory, was the announcement made yesterday by Nolan, the veteran handler of world's champion.

Emblematic of the Pacific Coast Hockey Championship, which was officially presented to the Victoria Hockey Club at a banquet in the Westholme Hotel last night. Frank Patrick sent the cup over on Saturday.

THE PATERSON CUP

THREE HUNDRED ENTRIES LISTED

High Jump Will Be Feature of the Holiday Gymkhana

Over three hundred entries have been listed for the race meet and gymkhana which the Victoria Polo Club will hold on Saturday at the Willows track. The entry list surpasses all previous efforts on the part of the club and includes the finest horses on the coast. A great number of local favorites will be seen in action, while the outside entries have also broken former records. The fact that the meet comprises flat races, as well as regular show events, has induced many owners of runners to enter their animals. In the five-eighth running event, the classic card of the day will start, while the other events will be equally interesting.

After Jumping Record. Perhaps the feature of the programme is reserved for the evening when the grand challenge jumping contest will take place. The finest hurdlers in the capital will take part, and a prize has been hung up for the animal that breaks the existing record of Credential, the Vancouver horse that leaped 7 feet 2 inches last year. Secretary Metcalf is busy completing the minor arrangements in connection with the gymkhana, and he looks for large attendances at both performances. Tickets may now be reserved at the secretary's office, room 3, Brown building.

Great surprise was expressed this morning when the news arrived from Calgary that Sioux, the famous high jumper, is to appear here. The animal showed up splendidly when at Victoria, and had it not been that Jockey Carter had poisoned his hand, which handicapped his chances, the prairie hurdler would have carried off first honors. Count De Roaldes and Count de Charnery, the owners of Sioux, valued the animal at many thousands.

"ROCKING A MAN IN A BABY'S CRADLE"

F. T. Congdon, Ex-M. P., Dissects Conservative Naval Policy of To-day

MENACE OF GERMANY HAS BEEN OVERDONE

Former Yukon Commissioner Delivers Striking Address to Grit Club

A clever and thoughtful discussion on the naval question was offered the Grit Club at a smoker held last evening at the headquarters, by F. T. Congdon, ex-M. P. and ex-Commissioner for the Yukon.

He skillfully analyzed the reasons which had led the government of the Dominion to abandon the policy of a Canadian navy for the policy of contribution. He also criticized the adoption of the closure rules in the House of Commons which had made the parliament of Canada odious in the minds of Canadians. In conclusion he dealt with the political executions in the Yukon, which had been brought about by trickery and disgraceful means.

Well Received.

Mr. Congdon had a cordial reception.

Dr. Morse's Indian Root Pills

are just the right medicine for the children. When they are constipated—when their kidneys are out of order—when over-indulgence in some favorite food gives them indigestion—Dr. Morse's Indian Root Pills will quickly and surely put them right. Purely vegetable, they neither sicken, weaken or gripe, like harsh purgatives. Guard your children's health by always keeping a box of Dr. Morse's Indian Root Pills in the house. They'll keep the children well!

Why doesn't she take

NA-DRU-CO Headache Waters

They stop a headache promptly, yet do not contain any of the dangerous drugs common in headache tablets. Ask your Druggist about them. 25c. a box.

NATIONAL DRUG AND CHEMICAL CO. OF CANADA, LIMITED, 122

when he was introduced by the president, H. C. Hall. Mr. Congdon said all Conservative governments in Canada had very much in common, particularly in regard to their land policy. They all knew the position of the provincial government to-day. He did not think there had ever been at any period since the time of George III. an attorney-general who had gathered greater discretionary powers. People also saw a contempt for the exercise of justice in this province.

Passing to Manitoba the speaker said that Mr. Borden had taken into his cabinet a man who had plunged so low in political infamy that he thought he had become invulnerable. In Manitoba Hon. Robert Rogers had showed violations of public taste and violations of public decency which would make even Mr. Bowser himself ashamed. In the MacDonald election the electors of Canada had seen Mr. Rogers permit and encourage the prostitution of the judiciary of this country in order to secure a partisan success. The magistrates had shown a remarkable partiality, and in four cases Liberal workers had been removed from the constituency, to be taken to other places for trial. One would have to go to Russia to find a similar set of circumstances. No opportunity was allowed for investigating the charges against the magistrates and others in Manitoba, not even when an attorney-general had been charged with using prison labor on his own property. Recently had been seen the investigation into the payment made to Hon. W. J. Hanna in the legislature of Ontario, and the refusal to refer Mr. Proudfoot's charge to an impartial committee, or to judges for examination.

The Case at Ottawa.

The speaker alluded to the "political acrobats" now in power in Ottawa. The people saw the same disregard of the public domain in the administration of lands—as was proved in the Prince Albert homestead case, where a political partizan had received a gift of a city homestead, worth \$374,000. He might apply the famous remark concerning the Duke of Grafton made by Junius, as applying to the minister of the interior, whose character "never betrayed him into a wise, or an honorable act."

The question of the navy next engaged the speaker's attention. Mr. Congdon first explaining that he was a pacifist, and was the only man in 1909 in the House of Commons who had thought that Canada would do better without armaments. However, if he had to choose between a Canadian navy and a policy of contribution, he was for the former every time. The latter

was akin to the tax gathering methods of the older empires of the old world, who engaged mercenaries to do their fighting. (Hear, hear.)

The Nationalist alliance was disgraceful because there was no class in Canada more prone to mischief than the French-Canadian Nationalists. The naval policy was a "job," hatched in the province of Quebec, combined with the aid of the Imperialists of Ontario, the object being to win office. Mr. Congdon next alluded to the changed attitude towards the naval question on the part of the Conservatives, and expressed the belief that Premier Borden was sitting in his chair "doing penance for the dastardness of the years."

From the Cradle.

"We cannot afford to adopt a policy which will not be permanent," he said, "and the Conservative policy is one of rocking a man in a baby's cradle." (Applause.) "It might be possible that hard times are coming in Canada, and if so would it add to the loyalty of men who are unemployed to know that the money had been sent over to England while they were hungry? There should be a uniform policy of Imperial defence, such as had been approved at the last Imperial conference. This was a more reasonable policy than concentration of the navies of the Empire on the North Sea. There were some people in England who could never look out towards Germany without being scared by the menace. Was it a relic of the conquests of the little islands by the Scandinavian and Teutons in the early centuries? Yet the German Emperor had reigned since 1888, and still Germany was the only power which had not been at war." (Applause.)

The speaker sketched the broad prospects which lay before the Dominion as an independent nation within the Empire, the opportunity to develop its own nationality and its own conditions. Differentiations were good for a people, for the influence of locality is universal. Canada should be a composite growth of all the best in the Empire.

The Closure.

The suppression of free speech in the parliament of Canada had made the House of Commons odious. Two years ago the Commons was a free, respectable assembly. Now it was so poor that there was none to do it reverence. The application of the closure was disgraceful, it was the triumph of Rogers' rule over Borden. At last the government had got in the chair a man who knew as much about Latin grammar as Balaam's ass did of Latin grammar, but finding it was impossible to force the bill through, the government had tried other efforts, the results of which had been seen in operations in the last few days. Men had been appointed to wear coats under the closure rules who were incapable of the lofty position of presiding over the House, and, as Gibbon said, "the discretion of a Judge is the beginning of tyranny."

Appeal to People.

The speaker appealed to the audience to endorse his claim that the government should submit to the people the naval policy for their consideration, a sentiment which was warmly applauded.

The navy ought to be responsible in the same way to the Canadian government as the militia is to-day. He thought, in conclusion, that he had shown in his address that all Conservatives had much in common, and that with them were associated the class of men who entered office poor, and left it rich.

Executions in Yukon.

The speaker mentioned the fact that over 40 men had been beheaded officially in the Yukon since the present commissioner was appointed. In one case in the East a man had been taken out of jail to be put into office, and then the party had to pardon the minister of justice to pardon him before the official could take up his duties. In one case a man had been removed from the office of messenger in the gold commissioner's office at Dawson after he had had both feet frozen and was unable to do hard work. He had been removed for no real reason whatever. A man who could not read and write had been appointed head of public works, and in some cases it had been necessary to maintain dismissed officials in office to instruct their successors how to do their work. All that was necessary to get a job was to put in an affidavit making a charge against the holder of office, and get him discharged. The charges were, needless to say, never investigated (shame).

Mr. Stacpoole.

F. C. Stacpoole, K. C., again made a brief reference to organization and activities of the party, and alluded to the progress in provincial "jerraldism" recently.

The speaker referred to the attempt to steal the franchise from the Esquimalt Liberals through the attorney-general's department, and said it had been happily frustrated by an honest revising officer, who had placed all the claimants in the list except two—and they were Tories (applause). The situation at New Westminster, in the recent land rush, when homesteads were rendered available by the Dominion government, was a lesson to the provincial government, from which, however, he did not think they would learn much, not if past experience showed anything.

BOWLING TOURNAMENT TO BE ARRANGED FOR

J. A. Turner and W. Oliphant Offer Use of Eight Rinks for Carnival Week

At the meeting of the executive committee of the Carnival Week yesterday it was announced that 25,000 of the specially prepared six-color postcards designed by Colonel Hobday for advertising purposes in connection with Carnival Week would be to hand next week. One firm had already ordered 2,000 of these, and large numbers have been ordered by other business and private people in the city. Those wishing to obtain some of these cards were requested to send in their applications at an early date in order to secure them before the entire order is disposed of.

The committee also decided definitely that there would be no flying events

NO MORE DANDRUFF OR FALLING HAIR

Parisian Sage is Your Friend. Use It and All Hair and Scalp Troubles Quickly Go

No poisonous sugar of lead—no sulphur—no dye in PARISIAN Sage. The cleanest, daintiest, most refreshing and delightful hair tonic in the world is PARISIAN Sage. If you do not use it you are daily missing a glorious treat. It is simply splendid for men, women and children. It is sold at drug and toilet goods counters for only 50 cents a large bottle. Ask for PARISIAN Sage for your own protection. The girl with the Auburn hair is on every carton and bottle. PARISIAN Sage drives out all dandruff and stops hair from falling in two weeks. It stops itching scalp in 18 hours. It is a hair nourisher and promptly puts life, luster and beauty into dull, faded and ill-looking hair. Hugh D. McKinnon, of Brantford, Ont., writes: "I consider PARISIAN Sage the best preparation for the cure of dandruff, falling hair and itching scalp that I have ever used. It is an excellent hair tonic and dressing and I shall always be pleased to highly recommend PARISIAN Sage." D. E. Campbell guarantees it.

COMMITTEE REPORTS ON ALBERNI MAIL

Representations of Board to Postmaster-General Secured Increased Postal Facilities

The mail service to Port Alberni was the subject of a report submitted at this morning's meeting of the Board of Trade by W. J. Sandel and R. W. Douglas representing the committee on trade and commerce. The two above named gentlemen stated that upon learning that a daily train service with Port Alberni was inaugurated on May 1, and on finding that mails were only carried three days per week, they requested that a telegram be sent to the Postmaster-General asking for carriage mail six days per week between these two points. The local member was also notified. In response to their representations a wire was received on May 15 stating that assurance had been received from the deputy postmaster-general that a daily mail service will be arranged immediately.

Cause for Alarm

Loss of appetite or distress after eating—a symptom that should not be disregarded.

It is not what you eat but what you digest and assimilate that does you good. Some of the strongest, healthiest persons are moderate eaters. Nothing will cause more trouble than a disordered stomach, and many people contract serious maladies through disregard or abuse of the stomach.

We urge all who suffer from indigestion, or dyspepsia, to try Rexall Dyspepsia Tablets, with the understanding that we will refund the money paid us without question of formality, if after use you are not perfectly satisfied with results.

We recommend Rexall Dyspepsia Tablets to customers every day, and have yet to hear of one who has not been benefited. We believe them to be without equal. They give prompt relief, aiding to neutralize acidity, stimulate flow of gastric juice, strengthen the digestive organs, and thus promote perfect nutrition and correct unhealthy symptoms. Three sizes, 25 cents, 50 cents, and \$1.00.

You can buy Rexall Dyspepsia Tablets in this community only at our store:

DATE APPROVED. Excursion of Joint Organizations Will Be Held on June 11.

This morning the council of the Board of Trade approved the date set by the Development League and other progressive organizations in the city for the excursion to Port Alberni, which will therefore take place on June 11. The members of the board will be notified at once of the decision, and will be requested to report as to whether they will be able to attend on that occasion.

VICTORIA GOLFERS PLAY AT BUTTE.

E. V. Macan and J. S. Matterson, of the Victoria Golf Club, are competing at championships of the Pacific Northwest Golf Association, which are being held at Butte, Mont., this week. Portland and Vancouver are not represented.

COMMISSIONERS SEE INDIAN RESERVE

Hon. Mr. Wetmore and Col-
leagues Visited Songhees;
Inspect Cemetery

A tumultuous welcome was afforded the commissioners on Indian affairs yesterday by the Songhees Indians, who had gathered together from many outside points in large numbers to greet them. A great reception was given the members, who, together with Hon. Dr. Young and Inspector Ditchburn, arrived in automobiles and were conducted to the council house, where Chief Cooper made a neat little speech expressing his gratification at the visit and voicing the general contentment of the Indians in their new surroundings.

Hon. Mr. Wetmore, chairman of the commission, replied, and briefly sketched the opportunities within the grasp of the Indians for self-advancement. His address was listened to most attentively and was evidently much appreciated. Afterwards the commission visited the Indian cemetery, and Chief Cooper, who acted as cicerone, pointed out to the commissioners the graves of the past chiefs of the tribes and recounted striking details of their histories.

During the afternoon the visitors made themselves familiar with all the Indian terms they encountered, visited every part of the reserve, inquired closely into customs and arrangements, and generally interested themselves in everything they

saw. At the close of the visit the Indians gathered together and gave them a hearty send-off, the cheers sounding in their ears long after the cars had taken their occupants well out of sight.

Letters for publication in Daily Times must be received at the Times office not later than the day before the day of publication. When received later they will be held over until the following day.

While unobjectionable anonymous communications will be published, the name and address of every writer of such letters must be given to the editor.

SKATING ON STREETS.

To the Editor: I noticed with regret that Mayor Morley's effort to prohibit roller skating on the public streets of our city has been frustrated by the short-sighted opposition of some of the aldermen.

While I am strongly in sympathy with any movement to further the happiness of the children, I consider it the first duty to guard against providing pleasures that have such serious dangers attached.

During a few months' stay in the city of Los Angeles, California, there were no less than four serious accidents to children indulging in this apparently innocent pastime, three of the accidents resulting in death, the children being run over by automobiles.

In allowing the children to make use of the pavements in this way the city incurs a liability in the event of accidents, and in a city such as ours, boast-

ing of the possession of its numbers of automobiles, surely our city council should have a greater sense of their responsibility in this matter.

H. STADTHAGEN.

HAVE NARROW ESCAPE

Mrs. Launeville and Child Affected by
Smoke When Taken From
Burning Tent.

A very narrow escape from death by fire was that of Mrs. J. Launeville and her little child in their summer camp on Victoria Arm Monday night.

Mr. Launeville had left them soon after supper to come in to his place of business, the mother and child having lain down to rest until he returned. A friend of Mr. Launeville waited for him to go home for some time but decided to go on ahead.

It was well he did so, for just as he got in sight of his friend's tent he saw flames break forth from it. He rushed forward through the smoke and fire and was only in time to get Mrs. Launeville and the child out before the rapidly-burning canvas fell in.

Both the rescued persons were partly stupefied by smoke but fortunately escaped injury from the flames. The rescuer, however, was badly burned about the hands and arms and his clothes were scorched.

Mr. Launeville arrived on the scene a few minutes afterward. They were not able to save anything and the contents of the tent were almost entirely destroyed along with it.

Mr. and Mrs. Launeville had moved out to the Gorge only a few days before to spend the summer camping out. No cause can be assigned for the

fire, unless it was caused by a cigar or cigarette stub thrown from the nearby roads. There was no fire going in the tent at the time.

NIGHT BIRDS.

"I am inclined to suspect the sobriety of the last student in our class." "Why so?" "When I asked him what were his favorite studies in ornithology, he replied, 'swallows, bats and larks.'" Judge.

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by D. E. Campbell under an absolute guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

It's a Good Wholesome Thirst-Quencher—Excellent in quality and taste. Home-brewed Bohemian Beer, 5c per glass. "At The Kaiserhof."

NO MORE SMOKING ON CITY STREET CARS

Two New Regulations Come
Into Force on Local Line on
Monday Next

From Monday next onward all smoking will be prohibited on city street cars. No longer will rear vestibules be crowded with ardent smokers of my Lady Nicotine. For the fat has gone forth: "No Smoking." The reason given by the local traffic superintendent of the British Columbia Electric railway for the change is the fact that the allowing of smoking on the car leads to the overcrowding of the rear-end platform of the car. The practice of prohibiting smoking has been in vogue on the Vancouver systems for some time, and a similar regulation prevails on many systems. Very often, however, a certain section of the car is partitioned off for the use of smokers, a system which has been found to be extremely convenient.

Another new regulation which will become mandatory on Monday next is that parcels will no longer be carried on the cars except in charge of a passenger. It has been a common practice for people living on the outskirts to have parcels delivered to them in charge of the conductor or motorman. This practice will, by the new regulation, be rescinded on Monday next.

THE GOOD NEWS IN A NUTSHELL

Half million dollars to start work at once on the great dry dock at Esquimalt.

Ultimate cost of dock to be between three and four million dollars.

Esquimalt to be rehabilitated as a naval base.

A three room cottage or flat can be furnished for \$75 at the Standard Furniture Co.

Additional \$600,000 for improvements at Victoria harbor—making \$1,100,000 in all for the work this year.

Miss June Bride, the Standard Furniture Co. feathers your nest on easy terms.

Two new piers and retaining wall from Hospital point.

Plans and specifications for this harbor work to be ready within a week.

YOUR CREDIT IS GOOD.

VIEW ROYAL

ESQUIMALT'S
WATERFRONT
PARK

VIEW ROYAL

We wish to draw special attention in this issue to the varied list of sports offered those with residences at our Esquimalt Waterfront Park. That the property is the most beautifully situated on the harbor is admitted. It slopes gently to fine beaches or attractive bays. It is cleared in parts and in others Douglas fir and other magnificent trees shade it to just the right extent. From any point a glorious view is available of the picturesque harbor, rendered the more impressive by the Olympic Mountains in the background. All we ask is an opportunity to show the subdivision. The property, the price and the terms will do the rest.

PRICES LOW
TERMS EASY

1-4 Acre Lots
From
\$600 Up

Terms One-Fifth Cash, Balance 6,
12, 18, 24 and 30 Months.

This is the exceptional proposition we have to offer for a short time. It is assured that there are few unable to meet such conditions.

Yachting is one of the splendid recreations available to Esquimalt residents. Probably the finest course of the Northwest is that offered by these waters.

Almost at any time of the year the best of fishing is to be had in Esquimalt Harbor. The above represents a common sight—the capture of a spirited salmon.

GOLDSTREAM WATER ON TAP

This is a point on which we lay special emphasis. The streets through View Royal have been graded, and through all the Esquimalt Waterworks Co., by special arrangement with us, has laid pipes. Thus every purchaser is guaranteed the best water available anywhere in Victoria.

Launches could not have a better waterway in which to spin than off our property.

A General Invitation

At 10 a.m. and 2.30 p.m., from Monday, the 19th inst., automobiles will leave our offices, Sayward Block, for the convenience of those interested. We wish it understood that in applying for information and in taking advantage of this invitation to see the property you do not place yourself under any obligation.

GAVE ACCOUNT OF VISIT TO STATION ASKS HABEAS CORPUS WRIT FOR HER CHILD

Volumeinous Report to Board of Trade Was Given Hearty Endorsement This Morning

An account of a visit to the quarantine station and observations made there was embodied in a report read at the meeting of the Board of Trade this morning.

The conclusions arrived at thoroughly satisfied the members of the council, as did the replies given by T. H. Slater and G. A. Kirk who have been serving with the committee.

In view of this presentation, which takes place on Friday next, the council decided to withhold the report from the press in the meantime.
