

“At the Seashore”

By F. Earl Christy

By Arrangement with the Knapp Company, Inc.

Mr. Christy in this delightful picture has caught the happy spirit of the summer holiday at the shore, when the charming young mother and the small son, enjoying together the bath in the curling salt waves, become contemporaries and playmates. The artist,

who is one of the most accomplished “pretty girl” illustrators, has just concluded seventeen months’ service in France, first with the ambulance and later in charge of artillery camouflage with the 26th Division at Château Thierry and the 77th in the Argonne.
