W Franklin St
THE Baltimore

SELF REGISTERING POCKET NOTE BOOK.

(Patented.)

FOUND AT ONCE.

The principle applied to this book entirely does away with the necessity of any searching for the last entry, as it

**AUTOMATICALLY OPENS AT
THE PLACE REQUIRED.**

When the Pencil is withdrawn from the clip or holder the leaves freely pass from beginning to end, and on the pencil being inserted it is securely retained in a convenient position, clearly indicating the leaf to be next used.

Faith

There is but one enlight-
ment in clarity - by Faith
He that believeth, with his
illat reasoneth

The apotheosis of matter
& force - Reason crowned
King & scene his Prime
minister

The yearning cry of the
human heart feed
on the ^{dry} husks of facts -

we have the reaction - we
are in it -

- we have no enduring
covenant with our death

mother. "There is hope of a tree
if it be cut down that it will spring
again - but - man groweth up
the ^{and} ^{grows} ^{up} ^{where} ^{is} ^{he}?

In Science as organized
observation and draws
conclusions from the facts

1. The carelessness of
in our death - The
abs of any cov with our
death

2. The vague mistiness of
of ideas for future death
is much clearer cut

3. The abs of any myst
of our will be found
never to

4. In the ^{never to} death.

II How far in Science responsible.

(a) The belief in General

(b) always sceptic

(c) our peculiar position in the 19th cent - vivid
in thought

III The current literature from whole of Sc & Phil

(a) The negat attitude of Sc & Phil

(b) The search of Science

(c) The unworkability of the present

Perplexedly of soul may be
said to have been the lot
and portion of the men of your generation

"If they have done this
without hope of heaven what
should we do ~~that~~ will be
immortality?"

"Before the soul,
which now & name must reach
immunity from my control
and wander round the world
again"

M.A.

The eternal note of sadness
The lurid ebb & flow of
human misery

The struggles of reflection
& speculative mind

The two ideals - the
Greek ascetic and
the Hermetic of Vol
10 p 123 of Marx's

Edith Thursson

10 rue de Alger

Paris (club)

Asst. Prof. Brit. Med
see Dean Drake or
etc.

My own an inner help
aiming towards a realization of
goals with a hope that in the
we live at present

This is no land for ascetics
Life is free, happiness is
widely diffused in a com-
mon in which the masses
are well fed and educated
but by depression reg-
ulation other than this
perhaps even making

with all our progress in the
material side it is doubtful
if we see deeper into the
essence of things than did
the old Greek philosopher
we appreciate better the ob-
servation of phenomena &
have travelled the process
of life to finer & clearer
issues but for breadth of
view & depth of insight

into the
we are still puppets of
Plato & Aristotle. In no
respect - & then more true
than in all that relates to the
doctrine of immortality

"Content my soul & I
In Master's word
and we pass out of the world
as grasshoppers, and our life is
astonishment & fear (Esdra 10: 4)

"For god made not death"
Sol. wind of the world & 2
Sol. wind of the world & 2
blow into with every wind
and go out every way
weep for the dead for he
has lost the light" Eccles 12
To labor & to be content with
that a man hath is a great
life. Ecclesiastes XL 18

"at the impulse of a
"fleshly mind" to be turned
into "things not seen" is a
grave fault" Phy theory of
another life"

who can read the riddle
destiny through the glasses
of mortality

"Irresponsibility which is
always the great vice
of democracy" in Peter
Halliday Feb 7, 94

To say anything on
such a subject seems
presumptuous - a subject
on which everything possible
has been said before,
and so well said
not only by the wisest
minds of men but by
many far wiser than
I who have filled
this post but having
deduced the humor and
and having learned
from President elect that
those of my profession who
concern themselves with
with this as

tire

Wright says, it
seemed ungracious
when a second re-
velation came to
decide

Eyes both not seen nor
ear heard nor felt
the heart of man con-
ceived.

The view of this world
is dreamily opposed
to the teaching of the
Gospels.

Few can reproach themselves
as did Donne "with an
over-earnest desire of the
next life" & these few have
the same cause a weariness
of this weary world the burden
of earthly troubles & sorrows.

One of my colleagues a
St. Theresa once said
what do you (how about
I'm what? - you will
say a no of pleasure)

Ways & Groves see that
Boring but these will be
nothing certain

absence of all reasoning
about the value of ^{life} ~~life~~
on the threshold. Ray
period. No last words
in scene. In 1873

I had a letter from
a clergyman

Too many of us know
the life of doubt developed
& faith in the life of
faith developed by doubt
(Browning)

We opened a notebook
beginning to see the end
of the leather but we
made no effort to see
the life of our brother
dear you these days of
all (Mr Hoffman)

The problems of man's
destiny & of his relation
to the unseen ~~has~~ is of
personal interest and

But there over the voices from
of the dead could not
vanish & there where cars
are allowed & in a normal
condition

Broken hearts, but
still hearts with the
old life when faith
was developed with
doubt, not as now when
doubt is developed by faith
To the dead - & that
great majority on
whose ^{side} so many of
us have come to be
The old ideas still
haunt humanity though
a change has come

once to have felt a
keen interest in the
outwelling, very intense
of pure religion, we
are anxious to put
which had for the week
of yesterday day to dwell
within a darksome house
of mortal clay (matter)

— Even upon us Sat-
the death the brand
of Cain is seen — we
were

a synthesis of faith
+ science

than faith in an exp-
of science. Rev. Amos
H. M.

The spirit of the day the
well-gate is badly
modernistic

We cannot afford to be pessimistic
in the present state of the world
the hopes of humanity

have been troubled by a sense
of what science has done for
man. There have been
disappointments & the true
passion - is definite & clear
I believe in my full survey
may sometimes bring with
it a disillusionment, life is
shattered, there are disappoint-
ments - ~~but~~ which have been
met & struggling but

Sophocles in the Rise of Man in the Centurion

v. 332 ff

"we have lost that keen
quick sensibility to human
suffering; that European
'pathos'

In a hurry - seeing this
life such as we have at
present what have we left
a man for the things
that are unseen, even
for much that matters for
the joy & beauty glowing

The scientific attitude of
mind is critical, than which
there is no more dangerous

position in the eyes of the
where are the Pascals
in science today?
Faraday, Herschel, Brewster
& other illustrious the
substance of the story called
to the stronger faith.

The great built-up men who
possess the scientific temper
ment or who have had a
prolonged sc. training
disbelieve the supernatural
in a state of society in which
there was no belief in a
future life has not
been common.

- This is a small minority
with its spiritualized faith
that leaves the world about
us today

Science has failed utterly
to lift the veil of the miracle

I have cannot see why
every rank in heaven
this a thing which we
feel there is some hidden
world

tin

not even glimpses
to make us less forlorn
whether ~~or not~~ mankind
has not had too
much attention to the
the things of the spirit
& may be asked, whether
care of the body - of
the individual man -
not because he is a
temple for eternal spirit
but simply because he
is a man & a brother
whether this attitude
of mind may not in the
future ^{bring} for the
race what ~~nothing~~ anything
yet attempted. That
was a striking example
of Confucius to his
disciples -
much as the religion
of Christ has done to
enhance the value of the
body & to proclaim the
equality of man it has
in nothing so utterly failed
as in bringing peace & good
will. The garments of

him that carneth from
Boysant are dyed in
blood of our fellow men
and no saying of chivalry
has been so confirmed
I come not to bring peace
but a sword.

see I raised of folly
Aristotle defines I came to
Lent a faculty of demon
strations

For some men believe their
own opinions are less faulty
than others do their practical
knowledge. (Aristotle)
what Democritus said of
the Mules that they were
not fools but they did just
the kind of things that
fools do" (Aristotle)

The N rays - see how
selfish
a man may glide in
troubled waters without
fishing in them (Montaigne)

tin

what has Science to do
with the substance of things
hoped for the existence
of things not seen
while we cannot
too earnestly commend
those who have sought
to follow St Paul's advice
"to be by the spirit"

of an existence out
of time & space has
no knowledge.

and when in the serious
quantitative though
met all with morality

The material life
not the intellectual
controls the actions of the
Fossil is a mode of
death is a creditor see
Gomberg, Vol 1 p
583

Emotional side of man

when my love says
that she is made of flesh I
do believe her tho' I know she
has

with the heart man like
me to others

The worst part being of
the cup of hardship is

by address

one of these feelings
by less now to a better
by business or by
shameful neglect

"By night & night gloomy"

Let us leave him ^{acc}

like Pyrrho reserving
his judgment but
inquiring (Lucian)

Take you good family

as usual with I am not

Jan S Coleman 61 V. L. M. Till Calcutta, 4 passed on public work
Bombehia off 8 or for 20 years, not much till last few years
Dr D. has been here 6-7 years In 1600 about the depot had
slight amnesia, in June came to Gurdly, well in the pm
2nd one at Coney Island arrived in July, well in the pm
by a year same boy had been all day long, follows an
index of chest in a droll way, nothing brings him out
he had a spell last heavy coughed out, very severe ones
last year but 20 many - by then 1 bent, last one was
wilder part of way - has had a slight fever
that brought eye trouble, not slow pulse with the attack
10 July began to have other troubles, in fingers swollen
- quite continued till, at first no fever, in 18th July
- from in evening 7. to 8. to 20

Plains & shoulder, rest
about 2 1/2 July fever 102.

bad fit & more. up & down. Bed permanently, 12 days
up & about room since. chart show. From 15th Aug

7103' at home. 212 28.103-104. 7104' last
even. From 4 in 5 yrs occurs alt. while has more
alt. & few blood cells. Fall 40 days of fever

which works best as

doubts. From dose of 1/2 p. more

ow H to Medley.

'Daring as if he were the
first man that ever sat on
a box.' How is said one of
the members the other crews
that this Faculty has gone on
for 80 years managing its
own affairs & doing it well
now & it is now within 3 or
4 months it is proposed to
change all our modes of
carrying on this school. It
seems very extraordinary &
& I should like to think
to happen. "I can answer
to - Questioner's court
said the bland Grayson
Queen "there is a new friend

1st thing noticed some
time ^{last October} cramp nearly

of leg - nearly took my
breath - very great pain
little to do - jump out
in bed. . . Then 20th of
Feb last went to bed
well & work with it covered
and kept part to the floor
little to do then began
to swell. Redness
and a red cross since
& there & dead. upon
things not available at
night. So said by what
was by mistake.

To count more than
kept part smooth then
when done. when it
dean. at me. goes
a little and all
Pud. pulled
Had bullet the 3-yr
