DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 715 013

GHQ/SCAP Records (RG 331, National Archives and Records Service)

Description of contents

(1) Box no. 2946

(2) Folder title/number: Substance Store (34)

(3) Date: Dec. 1948 - Aug. 1949

(4) Subject:

Classification	Type of record
9590, 9611	e

(5) Item description and comment:
i) Osaka, Kyoto, Hyogo
ii) Includes Contents List

(6) Reproduction: (Yes) No

Sheet no.

(7) Film no.

(Compiled by *National Diet Library*)

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

PAPERS

FILE NO: 430 - SUBSTENCE STORES

Item #	Date	From	Synopsis
19	15 Apr 49		Confirmation of Shipment (1st Ind)
20	16 Apr 49		Notification of Shipment - Manila Hemp, Sisal Two & African Sisal Fiber
21	28 Apr 49		Notification of Shipment - Cram (1st Ind)
22	28 Apr 49		Notification of Shipment - Cram
23	12 May 49		Notification of Shipment of Salt
24	13 May 49		Special Report on Actual Shipment and Receipt of Marine Product
25	14 May 49		BASIC: Inferior Fish Shipments (1st Ind)
26	20 May 49		Notification of Shipment - Manila Hemp & Ramie Fiber
27	23 May 49		BASIC: Fish Shipments from Mie Pref. dtd 12 Apr 49
28	4 Jun 49		Notification of shipment, dtd 27 May 49
29	8 Jun 49		Notification of Shipment of Salt
30	10 Jun 49		Notification of Shipment - Manila Hemp & Ramie Fiber
31			Shipping Program of Fresh Marine Products - August 1949

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 715013

Osaka, 2nd May, 1949.

M O N T H L Y R E P O R T
(Salt in bulk)

The Salt received and delivered during month of April are as follows:-

(Unit Weight: Metric ton)

NAME OF WAREHOUSE:	QUAY NO.2:	CHITOSECHO:	TSURUMACHI:	TOTAL:
Q'TY BROUGHT FORWARD FROM THE LAST MONTH:	280.099	375.941	166.377	822.417
QUANTITY RECEIVED:	6,640.475	2,877.078	2,264.743	11,782.296
QUANTITY DELIVERED:	4,617.200	1,636.900	899.400	7,153.500
SHORTAGE DURING IN STORE:	23.309	19.726	8.950	51.985
THE REMAINDER:	2,280.065	1,596.393	1,522.770	5,399.228

Remarks:-

The diminution of salt would often occur to some extent not only due to the dispersion thereof at time of warehouseing and delivery, but also to evaporation of the hydro-content while being kept in store, in which case, the more hydro-content thereof (such as comparatively fresh salt extracred from sea water or the one absorbed bilge-water during transit) is the more the ratio of its diminution.

In general, the diminution of salt in storage ranges from 2% to 3% (accoding to the actual results in the past).

7,153.500 metric tons of salt in warehouse abovementioned nave been distributed as below:-

TO	QUANTITY	MEANS OF TRANSPORTATION
Kyoto (Kyoto)	67.2	R.R.
Miyazu (")	28.8	"
Maizuru (")	14.4	"

1. Investigation of shipment cited in basic communication revealed the following information:

a. Shipment was in good condition when dispatched.

b. Each box was sufficiently iced.

c. Payment was received in full by the shipper without any deduction because of inferior grade.

2. It is requested that further information be furnished this headquarters in order that the apparent discrepancies between the two reports can be resolved.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 715 013

Date, 1st April, 1949

MONTHLY REPORT
(Salt in bulk)

The Salt received and delivered during month of March are as under:

(Unit weight: Metric ton)

NAME OF W/HOUSE	QUAY NO. 2	CHITOSECHO	TSURUMACHI	TOTAL
Q'TY BROUGHT FORWARD FROM LAST MONTH	847.	248.	699.206	1,794.206
Q'TY RECEIVED	8,921.557	3,969.290	4,079.791	16,970.638
Q'TY DELIVERED	9,447.680	3,841.349	4,612.620	17,901.649
SHORTAGE DURING IN STORE	40.778	Unknown	Unknown	40.778
REMAINDER	280.099	375.941	166.377	822.417

Remarks:

The diminution of salt would often occur to some extent not only due to the dispersion thereof at time of warehousing and delivery, but also to evaporation of the hydro-content while being kept in store, in which case the more hydro-content thereof (such as comparable to fresh salt extracted from sea water or the one absorbed bilge-water transit) the more the ratio of its diminution.

Kyoto Prefecture has received the following amount:

Kyoto	552.000	Rail
Maizuru	100.800	"
Miyazu	28.800	"
total	681.600

RBE/JC/th

AG 800

13 May 1949

SUBJECT: Special Report on Actual Shipment and Receipt of Marine Product

THRU : Commanding Officer
Kinki Military Government Region
APO 25

TO : Commanding General
Eighth Army
APO 343
(Attn: Military Government Section)

1. It has come to the attention of this headquarters on reports received for the month of February and March 1949 in compliance with Appendix 106, Fishery Agency Instruction No. 1, dtd 11 January 1949, that in most cases the amount of marine products shipped from other prefectures does not coincide with the amount received by this prefecture. This appears to be primarily due to the fact that shipping prefectures are not making correct entries in accordance with the instructions cited.

2. Discrepancies and repetitions were found to be as follows:

a. In shipments of fresh fish substitutes, weight is converted to fresh fish equivalents, (since link goods are based on the quantity of fresh fish).

b. Decontrolled fish is often weighed and reported with controlled fish.

c. Shipping agencies are making rough estimates of fish shipped instead of determining the exact weight.

d. Loss of weight occurs during the course of transportation.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 715 013

BASIC: Ltr, Kyoto Mil Govt Team, subj: "Special Report on Actual Shipment and Receipt of Marine Product", dtd 13 May 1949

e. Shipping prefectures fail to submit complete reports.

3. Inclosure one contains a summary of discrepancies observed during the period 1 February to 31 March 1949. Only the more serious cases have been compiled in this summary. It is to be noted that the total error in the two month period reached 57,516 kan (or an amount equivalent, at the average daily rate of 15 momme, to a day's ration requirements for 3,800,000 persons).

4. It is recommended that the shipping prefectures be notified that such discrepancies are occurring and measures be taken for correction.
