OPEN ACCESS LICENSING AGREEMENT

This Licensing Agreement (hereinafter "Agreement") is entered into as of / / , by and between:

Licensor (the Right holder of the image):

and **Licensee** (the image's user):

(hereinafter collectively referred to as the "Parties"), both of whom, for the purpose of granting the right to use (hereinafter the "Work"), agree as follows:

1 Grant of License
The Licensor hereby grants the Licensee a non-exclusive, royalty-free, perpetual, license to reproduce and publish the Work in digital format within the Licensee's research publication which will be published .

The Licensor also grants the Licensee the non-exclusive, royalty-free, perpetual, license to publish the Work included into the abovementioned publication under a Creative Commons Attribution 4.0 International License.
The Licensor acknowledges the terms of the Creative Commons Attribution 4.0 International License, which permits use and reproduction in any medium by anyone around the world for free and for any purpose, provided that the content is properly cited.

2 License limitations
Licensor reserves all rights and licenses not expressly granted in this Agreement. More specifically, the Licensor remains the copyright holder of the Work.

3 Warranties
Licensor warrants that s/he retains all intellectual property rights in the Work. Therefore, Licensor is entitled to grant the license to use the Work as set out in this Agreement and confirms that this Agreement does not infringe third parties' intellectual property rights.

4 Termination
This Agreement applies for the term of the Copyright protection of the Work.

5 Jurisdiction
This contract shall be governed by, and shall be construed in accordance with, the laws of Switzerland.

In witness whereof, the Parties hereto have executed this Agreement as of the date first set forth above.

Contents [hide]

- 1 Index
 - 1.1 Introduction
 - 1.2 Why – Why Open Science matters
 - 1.3 Who (Target groups of the present guidelines)
 - 1.4 When – Integrating Open Access in your research workflow timeline
 - 1.5 What – List of research outputs to be released in Open Access
 - 1.6 How - Resources and tools
 - 1.7 Where - Resources and tools specifically related to Switzerland
- 2 Other versions of the guidelines

Index [edit]

Introduction [edit]

- [How to use the guidelines](#)
- [Open Access Barometer and what we are aiming for](#)

Why – Why Open Science matters [edit]

- [Why Open Science is important and its advantage for research and society](#)
 - [Why Open Science is important and its advantage for the general public](#)
 - [Why Open Science is important and its advantage for researchers](#)
 - [Why Open Science is important and its advantage for teachers](#)
 - [Why Open Science is important and its advantage for students](#)
 - [Why Open Science is important and its advantage for publishers](#)
- [Working with sharing in mind: Open Access as a shift in research practice, changing the researchers' mindset](#)
- [Special flavours of the open research culture in Arts, Design and Music](#)
- [Open Science policies in Switzerland](#)
- [A timeline of Open Science](#)

Who (Target groups of the present guidelines) [edit]

- [General public](#)
 - [Why Open Science is important and its advantage for the general public](#)
- [Researcher](#)
 - [Why Open Science is important and its advantage for researchers](#)

> new structure and solutions to case studies

(Re)USE - how to use open access and third parties data (*user*)

- How do I clear the copyright of multimedia?
EDHEA, Womanhouse Open Access publication
- How do I cite multimedia?
HGK, Together Elsewhere
- How do collection societies (e.g. ProLitteris) work?
SUPSI, Gino Severini in Switzerland
- What does the Swiss copyright law say and how does it differ from other countries?
HSLU, Video Essay: Futures of Audiovisual Research and Teaching
- How do I deal with ethical issues?

> new structure and solutions to case studies

PRODUCE - how to produce and publish your data (*author*)

- How do I produce an art-, design- and music-specific DMP?
EDHEA, DMP: Training and awareness in research data management planning
- What are the different Open Access formats available?
- How do Creative Commons licences work? How do I choose the right one for my research output?
SUPSI/ATD, Production, archiving and publication of audiovisual materials
- How do I deal with the copyright of participatory output and user generated data?
HKB, Participatory Knowledge Practices in Analog and Digital Image Archives
- How can we check and guarantee the quality of Open Access content using a peer review process?
- How can I finance Open Access?
- How can I retrospectively open my research output?
Ecal, Visual Archives
- How can I raise publishers' awareness about Open Access and negotiate with them?
- Are there any alternative forms of publications?
SUPSI, EVENTI: Cultural institution and their public
ZHDK, Insert. Artistic Practices as Cultural Inquiries

> new structure and solutions to case studies

STORE - how to enable reuse of your data (*author* and *user*)

- What are the best practices to store my data?
HGK, Alpine Netze der Verbundenheit
- How do I deal with issues of privacy and data anonymisation?
- How do I deal with ethical issues?
HKB, Ehrenreich Collection
- How can I ensure long-term sustainability?
HSLU, Timeline Economies of Performance Art
- Where can I store multimedia content?
EDHEA, EPoD
- Where can I store huge data volumes?
HSLU, Silk Memory
- How can I ensure the findability of my data and Open Access content?
HSLU, Mapping Self-Organisation in the Arts
- What can I do with my research metadata?
- How can I use my institutional repository?
- What are the dos and donts when sharing data on social media?
HGK, Fashion as Performance
