SERVICE AND REGULATORY ANNOUNCEMENTS

BUREAU OF ANIMAL INDUSTRY

JULY 1933

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the Bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each or 25 cents a year (foreign, 45 cents). A supply will be sent to each official in charge of a station or branch of the Bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

NOTICES REGARDING MEAT INSPECTION

NECESSITY FOR CARE IN HANDLING AND USE OF SODIUM NITRITE

Attention is again directed to the necessity for care in the handling and use of sodium nitrite. The properties of sodium nitrite are such that meat may be damaged or rendered unwholesome by excess. Accordingly, establishments using sodium nitrite or proprietary mixtures containing it must take such precautions as will insure safety. Supplies of sodium nitrite, or nitrite mixtures, must be kept securely under the care of a responsible employee. Mixtures and solutions containing sodium nitrite must be known to contain a definite quantity of nitrite. All cures containing sodium nitrite must be thoroughly mixed. Employees in general, and new employees in particular, must be systematically cautioned against misuse of nitrite. Inspectors in charge of meat inspection will see that satisfactory precautions against misuse are taken in establishments under their jurisdiction and check any misuse or excess. Curing mixtures suspected of containing excessive quantities of nitrite will be rejected and any meats suspected of containing too much nitrite will be retained pending laboratory report. Any persistent carelessness or laxity will be brought to the attention of the Bureau for action.

AMENDMENT 7 TO B.A.I. ORDER 211 (REVISED)

Amendment 7 to B.A.I. Order 211 (revised), issued July 25, 1933, and effective immediately, eliminates the provision for holding certain cattle carcasses in cold storage for 21 days on account of infestation by *Cysticercus bovis*, and requires that such carcasses and parts shall be held in cold storage at a temperature not higher than 15° F. continuously for a period not less than 6 days.

Amendment 7 also provides that meat or product in colored casings may show the declaration of color by the statement "casing colored" in lieu of the statement "artificially colored."

FACSIMILE OF AUSTRALIAN MEAT-INSPECTION CERTIFICATE

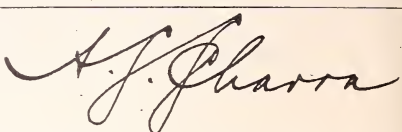

The facsimile shown above represents the new form of meat-inspection certificate approved for Australia, which is acceptable under the provisions of B.A.I. Order 211 (revised), regulation 27, section 5, paragraph 5, in lieu of the approved form published in Service and Regulatory Announcements of October 1922.

M. I. FORM 109-F (REVISED)

M. I. Form 109-F for reporting unmarked meat transferred under seal by railroad car between official establishments has been revised to cover the transportation of such product by truck. Accordingly when station supplies of M. I. Form 109-C are exhausted M. I. Form 109-F (revised) should be used in connection with the transfer of unmarked meat under seal by railroad car or truck between official establishments at the same station as well as between stations.

PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

Docket no. 414.—In re Doud & Keefer, market agency and dealer, Chicago, Ill. On May 31, 1933, the Acting Secretary of Agriculture ordered respondent to cease and desist from doing business as a market agency and dealer without having on file with the Department of Agriculture a reasonable bond to secure the performance of its obligations. Respondent was also suspended from registration as a market agency and dealer for a period of 6 months with leave during said period to apply for revocation of this suspension upon showing to the satisfaction of the Secretary of Agriculture that it had filed such a bond, or had furnished other satisfactory guaranty. It now appears that respondent has made satisfactory arrangements to have another firm who is registered with the Department clear its business. Therefore, on July 28, the order of the Acting Secretary, dated May 31, 1933, so far as it applies to the suspension of the respondent, was revoked and terminated.

Stockyards Posted

The New England Stockyards, located at Somerville, Mass., was posted as coming within the jurisdiction of the Packers and Stockyards Act on July 11, 1933.
