

For men and women leaving H.M. Forces
to live in the United Kingdom

The New NATIONAL HEALTH SERVICE

5th July, 1948 onwards

**What is the new National Health Service?
How do you get it?**

It will provide you with all medical, dental, and nursing care. Everyone—rich or poor, man, woman or child—can use it or any part of it. There are no charges, except for a few special items. There are no insurance qualifications. But it is not a “charity”. You are all paying for it, mainly as taxpayers, and it will relieve your money worries in time of illness.

Choose Your Doctor Now

You will be entitled to all usual advice and treatment from a family doctor. Your dealings with your doctor will be personal and confidential. You will visit his surgery or he will call on you as may be necessary. The difference is that the doctor will be paid by the Government out of funds provided by everybody.

Choose a doctor, as soon as you have obtained your National Registration Identity Card, by completing the special form (E.C.13) attached to this pamphlet and handing the form to the doctor of your choice. Many will choose their pre-service doctor. Any doctor can decline to accept a patient. If one doctor cannot accept you, ask another or ask to be put in touch with one by the new “Executive Council” which has been set up in your area (you can get its address from the Post Office).

After you have been accepted by a doctor your Executive Council will send you a medical card. If you want to change your doctor you can do so at any time without difficulty. If you need a doctor when away from your home district, you can go to any doctor who is taking part in the new arrangements. You will not have to pay.

For any further information about these arrangements ask at the offices of the local Executive Council.

Maternity Services

An expectant mother can have the services of a doctor who undertakes maternity work (whether he is her usual doctor or not), and of a midwife, as well as general care before and after confinement. If her usual doctor does not undertake maternity work, he, or the Welfare Centre, will put the expectant mother in touch with another doctor. It will be the doctor's responsibility, with the midwife, to give all proper care and (if he considers it necessary or is called in by the midwife) to be present at the confinement.

Hospital and Specialist Services

You will also be entitled to all forms of treatment in general or special hospitals, whether as an in-patient or as an out-patient. These include, for instance, maternity care, sanatorium treatment, care of mental health, and *all surgical operations*.

The help of consultants and specialists of all kinds will be made available to you as national resources allow, whether at hospital, at special health centres, or at your home.

Your doctor will arrange this help when you need it.

Hospital charges are not payable in the new scheme. Where accommodation permits, however, you can pay something for greater privacy (for example, in single rooms or small wards). Or, if you do

not want to use the new service itself, there will be private pay-bed accommodation for which you can make your own private fee arrangements with doctors.

Medicines, Drugs, and Appliances

Your doctor will give you a prescription for any medicines and drugs you need. You can get these free from any chemist who takes part in the Scheme. In some country areas the doctor himself may dispense medicines.

The same is true of all necessary appliances. Some of them will be obtainable through hospitals; some your doctor can prescribe for you. There will be no charge, unless careless breakage causes earlier replacement than usual.

Care of the Teeth

A dental service will be provided, but at present there are too few dentists to make a full service available to all without delay.

You can go to any dentist taking part in the new arrangements (there will be a list at your Post Office). You need no application form. Just call, by appointment, on the dentist of your choice when you need him. At his surgery you and he will sign a form for your treatment under the new arrangements. All necessary fillings and dentures will be supplied without fee, but if you want anything specially expensive, and beyond what is necessary, you will pay the extra cost yourself.

Until a full dental service, without delays, can be made available, a special priority service for expectant and nursing mothers and young children is being organised by local authorities (in addition to the school dental service). Full information about this priority service can be obtained at Welfare Centres.

Care of the Eyes

Care of the eyes will be undertaken by specialists at hospitals, or at special clinics which will be part of the hospital service, as fast as these can be organised. Meanwhile, a Supplementary Eye Service will be available.

First get a recommendation from your family doctor that your eyes need testing. Then hand that recommendation to any doctor with special qualifications (lists will be available) or to any ophthalmic optician taking part in the new service. If you need glasses, these will be provided without charge. For re-testing you can go direct to any of the doctors with special qualifications, or to an ophthalmic optician.

The National Health Service will provide several kinds of spectacles of different types. For specially expensive types you will have to pay the extra cost.

Deafness Specialist ear clinics will be established as resources allow. At them you will get not only an expert opinion upon deafness but also, if necessary, a *new hearing aid* invented by a special committee of the Medical Research Council. Production of these aids is now going on, but will not meet all demands at once. They will be supplied free when ready, together with a reasonable allowance of maintenance batteries.

Home Health Services

Your local County or County Borough Council will, as soon as it can, make special provision for: (1) advice and care of expectant and nursing mothers and children under five (for particulars ask your doctor, health visitor, or Welfare Centre); (2) midwifery (ask your doctor or Welfare Centre); (3) home nursing where there is illness in the family (ask your doctor); (4) all necessary vaccination or immunisation (through your doctor or Welfare Centre); and (5) a health visitor service to deal with problems of illness in the home, especially tuberculosis.

Health Centres

Special premises known as Health Centres may later be opened in your district. Doctors may be accommodated there instead of in their own surgeries, but you will still have "your own doctor" to give you personal and confidential treatment. He will still come to your home as necessary. At the Health Centre he will be able to use equipment supplied from public funds. These Centres may also offer dentistry and other services on the spot.

Northern Ireland Residents

Services similar to those outlined above will be available in Northern Ireland and similar arrangements will apply. Further information can be obtained from the Northern Ireland General Health Services Board, Belfast.

WHAT TO DO NOW

1. Choose your doctor.
2. Fill in Form E.C.13.
3. Hand it to the doctor.

ACT AT ONCE

NATIONAL HEALTH SERVICE

APPLICATION FOR INCLUSION IN DOCTOR'S LIST

To be filled in by person released or discharged from H.M. Forces and handed to the doctor of his choice.

SURNAME (Block letters)	National Registration No. as shown inside new Identity Card	Date of Birth (in figures)		
		Day	Month	Year
CHRISTIAN NAMES (Block letters)	Mr., Mrs., Miss, etc.	Former or maiden name		

ADDRESS

Whether staying in district more than three months (insert Yes or No).....

ADDRESS ON ENLISTMENT

I have not applied for inclusion in a doctor's list since leaving H.M. Forces.

Date.....Signature of applicant.....

TO BE FILLED IN BY DOCTOR

I accept person named above for inclusion in my list.

Signature

Date

Doctor's Code No.....

If Doctor is to supply drugs he should
enter " D " here.....

If Doctor claims mileage he should enter
mileage distance here.....
