5. The actual state and result of the collection conducted so far.

As to the ~~dedication~~ contribution, people at large generally assented to it. As a method of collection, representatives of the believers of the temple (caretakers), making avail of an opportunity when people in every block have been gathered, will fully tell to people about the gist of collection of contribution for the bell, as well as tell them that the collection thereof will not be conducted in duress, but voluntarily to the last. ~~Vide~~ Based upon this method, ~~we have~~ they have commenced ~~started~~ to conduct collection thereof and are moving actively in this affair. Entreaty for reconstruction of a bell of the temple.

The bell of this Seikakuji Temple was constructed by a prayer Sadamune Jennyo in April, 6th year of Empō (at the time of ~~Shogunate~~ Semitsu, the third Shogunate of Tokugawa Feudal Government about 272 years ago.). On 26 Novemb 1942, a solemnization of farewell of the bell was conducter, and we saw it out with Buddhist invocation and tears.

Nowadays 8 months having passed since that time, a ~~time~~ for re-casting of the Buddhist bell has ~~been~~ come; and, all the representatives of disciples of this Temple ~~caretakers take cares and~~ and othes persons interested, agreed with this with the priest chief of this Temple as the chief prayer, by which, that we can consecrate ourselves for the big desire by the ~~conclusions of the~~ matter of recasting, is a congratulatory matter for us, disciples and believers.

Petition for Control of Collection of Contribution

1. Collection of ¥ 250,000 contribution for Seikaku-ji Temple's Bell.

It is said that the Seikaku-ji Temple in this village has filed an order for casting of a great bell in lieu of the one that was commandeered during the war, and is expected to be shortly delivered. Thus, on September 13, the caretakers of the contribution collection for this bell, held a meeting (80 attending of the 105 notified) and it was decided that a total of ¥250,000 contribution, average ¥500 per family, will be collected. Report as to how much will be contributed is to be filed with the Caretakers' Board by September 25.

There is another temple in this village by the name of Hinkaku-ji, which is also said to be planning to commence collection of contributions in the near future. For re-roofing of a section of this Hinkaku-ji temple, we were made to contribute ¥200 average and 4 bundles of rice straw per household last year.

On the other hand, since there is a shortage of 4 class-rooms in the high school, a campaign to make additional construc-tion is underway, therefore, it is thought that a contribution collection for this will also be taken up shortly. In order to construct a new junior high school the year before last, ¥2,000 per family, and for expansion of the playground, 20 man-days of labor per household were made to be contributed in this village.

NOTE: I am not reluctant about contributions for education.

2. A Large Bell is an Useless and Unnecessary Thing.

In olden days, a large bell was useful in announcing the times and in issuing emergency warnings on occasions of fire, flood or burglary in addition to cultivation of religious mind.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

In present days, however, the times and emergency warnings are sounded by siren with the objectives fully accomplished, so there is no need of a large bell which can be said to be an ornament of a temple without exaggeration.

3. Economic Status of Our Village.

Credit loan of the Agricultural Co-op is 1.7-million Yen, unpaid purchases 1.3-million Yen, total 3-million Yen, averaging 6,000 Yen liability per household.

Farm communities are presently hard-pressed with money and almost all homes can be said to be in a deficit economic status. Large amounts of tax payment is in arrears. The rehabilitation expenditures for this flood damage alone is considered to be tremendous.

On the other hand, the international situation requires the people to be determined to bear large amount of taxes in the future.

4. We Poor People Can Never Shoulder the Burden.

As it is a contribution, it seems that those that can afford it may do so, but actually it is collected semi-compulsorily with quotas set.

5. Control of Collection of Contribution Absolutely Necessary.

I understand that collection of contribution is subject to the Governor's approval, but it seems that this is not practiced for the temples in the adjacent villages of Takeni-Mura and Toyosaka-Machi have already had large bells installed with contributions. There are still many temples still pending installation of such. On this occasion I wish to see Civil Affairs promptly issue directive to the prefectural Governor to practice control.

5. There is Room for Large Reduction of Contribution Goal.

There is room for large reduction of contribution goal as large amounts of contributions are wastefully used for drinking and eating expenses of the caretakers. Thus, I wish to have collection of contribution be made subject to permission and permitted after deleting unnecessary expenses.

7. Amalgamation of Temples Absolutely Necessary in Future.

In our village where the total number of household is 500,

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 175813

there are two Shinshu sect Buddish Temples adjacent to each other. There are too many temples throughout our country. I wish that a SCAP directive promoting amalgamation of temples into one per village be issued.

8. Please Treat This Petition as Strictly Confidential.

If it should be known among the villagers that I submitted a petition on this matter, there is a fear that I would be suppressed by a certain group of the villagers. Thus, please treat this as strictly confidential.
