1) Building rented:- Factory Office.

2) Purpose for renting: Office

3) Date of commencement for use:- April 10, 1947.

SUBJECT: Application for Exemption of Certain Reparation Machines from Reparation List

THRU: Tottori Prefectural Liaison Office

T O: Commanding Officer,
Tottori Military Government Team

This is to inform you that we have received the attached application from Tottori Plant, Kawasaki Zoki K.K. to the effect that the three machines specified in the application which were lent from Kawasaki Rolling-stock Mfg. Co., Ltd. which is non-reparation facility to the applicant and were not set up in the applicant's plant at the time of war termination, being considered having no relation with production of weapons, were omitted from the Reparations List when the applicant's facility was designated as reparation facility.

But in accordance with the instruction issued for "Evaluation" held last year which directed that all the equipments located in a reparation facility must be listed in the reparations list, these three machines were also listed in the reparations list.

While, Kawasaki Rolling-stock Mfg. Co., Ltd. who lent the machines in question to the applicant has kept expediting him to return the machines because the former is in urgent need of the machines to manufacture the rolling-stocks.

Such being the case, we would much be obliged to you if you, taking the above-mentioned circumstances into consideration, will permit him to return the machines to the owner.

Date: 28 February 1949

Subject: Application for partial release of the machines designated for Reparation.

1. Machines applied for Release

Evaluation Inventory No.	Name of Machine		Manufacturer
41-3-138	Plain milling machine	1	Alfred Herbert
41-3-139	#3 Universal milling machine	1	Brown Sharp
41-3-140	#2 Vertical milling machine	1	Hulse
	Total	3	

2. Reasons:

The above-mentioned machines were lent to Kawasaki Zoki Co. Ltd. Tottori Branch in July 1945, from Kawasaki Rolling-stock Mfg. Co. Ltd. at no. 6, 1 chome, Wadayama-dori, Hyogo-ku, Kobe, whose factory are not designated for Reparation. When the machines in this factory were inventoried for Reparations in 1946, those 3 machines were omitted from inventory by reason that they were the lent machines and had done nothing for the manufacturing of munitions as they reached here in this factory only a couple of days before the termination of the War and were not set up in our shop. Afterwards we were given instructions that all machines which are situated in Reparations factories must be inventoried even if they are owned by other persons.
Therefore when we carried out " Evaluation " of our Reparation factory, we inventoried those 3 machines in addition as Evaluation item.
Kawasaki Rolling-stock Mfg. Co. Ltd. have urgently requested us to return the lent machines to them in order to use them for manufacturing rolling-stocks.
They are feeling no small difficulties in manufacturing those items for want of those machines and we are in awkward position.

We hereby apply for the release of those three machines from designation for Reparation and for returning of them to Kawasaki Rolling-stock Mfg. Co. Ltd. for the above-mentioned reasons, for which kind consideration and attention is solicited.

DECLASSIFIED E.O. 12065 SECTION 3-402/NNDG NO. 775013

1. Name of machine desired to be exempted :

Inventory Number	Name of Machine	Manufacturer	Number of set
41-3-138	Plain Milling Machine	Alfred Herbert	1
41-3-139	#3 Universal Milling Machine	Brown Sharp	1
41-3-140	#2 Vertical Milling Machine	Hulse	1
		Total	3

2. Reason necessitating these machine equipments :

Our company lent the above mentioned 3 sets of machines to Tottori Plant of Kawasaki Machine Mfg. Co., Ltd. on July, 1945. The motive of having lent these machines was not to contribute to the production of weapons. But, by the request of Chief of Locomotive Dept. of our company on change of his post to the said Tottori Plant, we lent them for the time being, together with the removal of machines to avoid the war damage.

By air-raids during the war-time, our factory suffered much losses to the machine equipments, too. But endeavouring to repair, improve and mend the machines which got out of order, we are now making effort earnestly to manufacture rolling-stocks for inland and for overseas. But, because of decrepitude, a majority of machine tools used in our factory are so bad in capacity and so low in efficiency that we are suffering much inconveniences.

Especially, the rolling-stocks for U.S.S.R. which are now manufacturing and for Siam which shall be done successively, necessitate the machines of good capacity and of high efficiency. In spite of this request, it is hardly possible to get the said machines under this social condition of Japan.

On this reason, our company is eager for the return of these 3 sets of machines which are necessary to manufacture better rolling-stocks for overseas and, moreover, have not been used for war.

This is the reason why our company is desirous for the exemption of 3sets of machine equipments from the Reparation List.

Undermentioned machine was registered on the list by the owner with a view of S.P. machinery which used for the boring of infantry cannon barrel, but we have taken a view of non S.P. machinery by our recent inspection, if the special small jigs taken away and destroyed. Therefore, we hoped that the machine will be exempt from the S.P. machinery list, and this is owner's earnest desire to utilize this machine for civil production industry if permitted.

1. Reference paragraphs 2c. and 2i., Operational Directive No.21, Headquarters Eighth Army, APO 343, subject: "Japanese Industrial Reparations Facilities", dated 30 March 1948.

2. Inspection of Chiyogawa Seisakusho K.K., Tottori City (Code No.41-9c) and Maeda Kikai Seisakusho K.K., Tottori City (Code No.41-9b and 41-9h) by this headquarters and Mr. J. E. Laffin, Reparations Section, G.H.Q., S.C.A.P. revealed that maintenance of reparations machinery in these two plants was below the minimum standards and that machinery authorized for use was not being used. The people concerned had repeatedly disregarded instructions of this headquarters. Accordingly, instructions were issued to the local Finance Office and movement of this machinery to Kawasaki Zoki K.K., also a reparations factory (Code No.41-3), where maintenance and proper storage is available, was completed in late October.

3. Following is a list of all machinery moved with their former and present locations:

4. Authorization for "use" of all machines mentioned in paragraph 3 above has been revoked by this headquarters and subsequently all "U's" have been removed from the machinery. Movement of this machinery will have very little effect on production and eliminates two dispersal areas by centralizing this machinery, resulting in more efficient custody and control.
