

This is a temporary file for testing of correct rendering of PDF files. This file can be modified by anyone, to test their own PDF documents. If you suspect a problem with the rendering of your document, then upload it the first time here under the name Test.pdf. It's easier than delete an upload. This file should not be used in any Wiki projects except in help-manuals of how to use PDF in Wiki projects. But don't delete this file. Thank you.
