Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

12X	16X	20X	24X	28X	32X

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

THE
FARMER'S ALMANACK.

FOR THE YEAR OF OUR LORD,

1828;

BEING BISSEXTILE, OR LEAP YEAR ;

CALCULATED FOR THE MERIDIAN OF HALIFAX IN NOVA-
SCOTIA, BUT WILL SERVE FOR ANY PART
OF THE PROVINCE.

Containing, besides the large number of Astronomical Calculations
and the Farmer's Calendar for every month in the year, a
great variety of useful and entertaining matter.

“ Nature ! great parent ! whose unceasing hand
Rolls round the seasons of the changeful year,
How mighty, how majestic are thy works !
With what a pleasing dread they swell the soul !
That sees astonish'd ! and astonish'd sings ! ”

— o —
HALIFAX, N. S.

SOLD BY C. H. BELCHER.

WHEREAS, His Majesty's Government consider it desirable that a uniform system should be established in disposing of the Crown Lands in his Majesty's North American Provinces; And Whereas, the Earl Bathurst, his Majesty's Principal Secretary of State for the Colonial Department, has transmitted to his Excellency the Lieutenant-Governor a Copy of the following Regulations that have been prepared on this subject, with orders that, immediately after the receipt thereof, the same be strictly adhered to in his Excellency's Government :

REGULATIONS

For granting Lands in the British North American Provinces.

For the information of Persons desirous of obtaining Land in his Majesty's Provinces in North America, the following summary of the Rules which have been established for the future regulation of Grants of Land, has been prepared by direction of the Earl Bathurst, his Majesty's Principal Secretary of State for the Colonial Department.

The Commissioner of Crown Lands will, from time to time, and at least, once in every Year, submit to the Governor, a Report of the total quantity of each district of Crown Property, so far as he may then have ascertained the same, together with his opinion of each description of Property which it may be expedient to offer for Sale within the then ensuing Year, and the upset price per Acre at which he would recommend the several descriptions of Property to be offered, provided the Land proposed to be offered for Sale does not contain any considerable quantity of Timber fit for His Majesty's Navy, or for any other purposes, it being the intention that no Grant of the Land upon which such Timber may be growing should be made until the Timber is cleared.

If the Governor should be pleased to sanction the Sale of the whole or any part of the Land recommended to be Sold at the upset price proposed, or at any other price which he may name, the Commissioner of Crown Lands will proceed to the Sale in the following manner :

He will give public Notice in the Gazette, and in such other Newspaper as may be circulating in the Province, as well as in any other manner that circumstances will admit, of the time and place appointed for the Sale of the Lands in each District, and of the upset price at which the Lots are proposed to be offered, that the Lots will be sold to the highest Bidder, and if no offer should be made at the upset price, that the Lands will be reserved for future Sale in a similar manner by Auction.

That no Lot should contain more than 1200 estimated Acres.

The purchase money will be required to be paid by four instalments,

without interest; the first instalment at the time of the Sale; and the second, third, and fourth instalments at intervals of a year.

If the instalments are not regularly paid, the Deposit Money will be forfeited, and the Land again referred to Sale.

Purchasers of Land at any Sale not exceeding two hundred Acres, being unable to advance the Purchase Money by instalments, as proposed, the Commissioner may permit the purchaser to occupy the same upon a Quit Rent, equal to Five per cent. upon the amount of the Purchase Money, one Year's Quit Rent to be paid at the time of Sale, and to be paid annually in advance afterwards; upon the failure of the regular payment, the Lands to be again referred to Auction and Sold.

The Quit Rent upon Lands so purchased in this manner, to be subject to Redemption upon payment of Twenty Years' Purchase, and Parties not be permitted to redeem the same by any number of instalments not exceeding four, upon the payment of not less, at any one time, than five Years amount of Quit Rent, the same proportion of Quit Rent to cease.

In case, however, the parties should fail regularly to pay the remainder of the Quit Rent, the same to be deducted from the instalment paid, and the Lands to be re-sold by Auction, whenever the instalment may be absorbed by the accruing payment of the remainder of the Quit Rents.

Public Notice will be given in each District in every year, stating the names of the persons in each District who may be in Arrears, either for the instalments of their Purchases or for Quit Rents, and that if the Arrears are not paid up before the commencement of the Sales in that District for the following Years, the Lands, in respect of which the instalments or Quit Rents may be due, will be the First Lot to be exposed to Auction, at the ensuing Sales; and if any surplus of the produce of the Sale of each Lot should remain, after satisfying the Crown for the sum due, the same will be paid to the original Purchasers of the Land who made default in payment.

No Land will be granted at any other time than at the current Sales in each District, except upon application from Poor Settlers, who may not have been in the Colony more than Six Months preceding the last Annual Sale; Settlers so circumstanced, may be permitted to purchase Land, not exceeding two hundred Acres each, at the price at which it may have been offered at the last Annual Sale, and not purchased, and may pay for the same, or by Quit Rent computed at five per cent. on the Sale price, and thenceforth these Persons shall be considered as entitled to all the privileges, and be subject to the same obligations, as they would have been subject to if they had purchased the Land at the last Sale.

In cases of Settlers who shall be desirous of obtaining Grants of Land, in distinct Districts not surveyed, or in Districts in which no unredeemable Grant shall have been made, the Commissioner of Crown Lands will, under the authority of the Governor, at any time within a period of Seven Years from the date hereof, grant permission of occupancy to any such Settlers, for Lots of Land not exceeding two hundred Acres, upon consideration that they shall pay a Quit Rent for the same, equal to five per cent. upon the estimated

value of the Land at the time such occupancy shall be granted, and the persons to whom claims of occupation shall be made, shall have liberty to redeem such Quit Rents at any time before the expiration of the Seven Years, upon the payment of Twenty Years' purchase of the amount; and at any time after the termination of the Seven Years upon the payment of any Arrear of Quit Rent which may be then due, and Twenty Years purchase of the annual amount of the Rent.

No Patent will be granted until the whole of the purchase money shall have been paid, nor any transfer of property made, except in case of Death, until the whole of the Arrears of the Instalments or Quit Rent shall have been paid.

The purchase money for all Lands, as well as the Quit Rents, shall be paid to the Commissioner of Crown Lands, or to such person as he may appoint, at the time and places to be named in the condition of the Sale.

The usual fees payable on Grants of Land, are to be paid by the purchaser, and the Lieutenant Governor will determine whether the whole or what proportion of them are to be paid, on the party receiving a licence to occupy the Land.

In order that the above Regulations may be carried into immediate effect, His Excellency the Lieutenant Governor has been pleased to confer the office of Commissioner of Crown Lands upon John Spry Morris, Esq— and as an entire change will thus be made in the system of disposing of Crown Lands in this Province, His Excellency the Lieutenant Governor has commanded that public Notice be given :

1st. That His Excellency, having no longer any authority to grant Lands upon the usual terms, applications to His Excellency for Land are unnecessary, and will not be received, either at this Office, or by the Boards of Land Commissioners in the several Counties and Districts of the Province, or the Surveyor General at Sydney, in the Island of Cape-Breton.

2d. That, for the future, unappropriated Lands will only be disposed of in the mode prescribed in the above Regulations.

3d. That all persons holding Lands under Warrants of Survey, Tickets of Location, Crown Leases, or other authority from Government, will be allowed to obtain Grants in the accustomed manner, provided the fees for the same be lodged at the proper Offices in Halifax, or with Henry W. Crawley, Esq. of Sydney, previously to the 1st of January next, after which time they will not be permitted

to complete their Titles to their Lots, except by purchase, in conformity with the new Regulations.

And Whereas His Majesty's Government have further directed that the Quit Rents due to His Majesty, upon grants of Land, be collected from the 1st January last, the Net produce of which will be applied to such local charges or improvements as may receive His Majesty's approbation.

Notice is therefore also given, that the said Quit Rents will be collected accordingly.

RUPERT D. GEORGE.

*Provincial Secretary's Office,
Halifax, 8th May, 1827.*

With reference to the collection of Quit Rents, his Excellency the Lieutenant Governor has directed the following extract to be published, of the instructions transmitted for the guidance of the Commissioner of Crown Lands :—

“ You will give Public Notice, that you have received instructions to apply to all persons holding Lands from the Crown, in perpetuity, upon the payment of Quit Rents; as well as to all persons holding Lands upon lease for term of years; for the payment of the rents which may be due from them respectively; to commence from the first of January, 1827; and you will, at any time within seven years from the date hereof, sell to the Proprietor of any Lands held in free and common soccage (but to no other person whatever) at twenty years' purchase, any Quit Rents which may be payable by them respectively, provided that all arrears, up to the end of the year preceding the time of purchase, be previously paid.

“ If these Quit Rents are not purchased by the Proprietor within seven years from the date hereof, further Instructions will be given in regard to the sale by Auction, or otherwise, as may then be deemed expedient.”

R. D. GEORGE.

[The amount of Quit Rents, payable on every 100 Acres, is 2s. sterling—they can be purchased for 40s. stl'g per 100 Acres if purchased from the Commissioner of Crown Lands within Seven Years.]

Directions for coming up Halifax Harbour, taken from the printed Directions at the Custom House, Halifax.

SAMBRO Island and Light House is in latitude 44 deg. 30 min. N. and longitude 63 deg. 32 min. W.

From the westward, bring the Light to bear N. E.; if it bears more easterly, stretch to the southward till it bears N.E. and as much northerly as you please, there being no shoal or ledge to the southward; then keep it open on your larboard bow; give it more than a mile and a half birth, as much more as you please.

NOTE.—The western ledges lie from the Light S.W. distant two miles, the other W S W about one league; the eastern ledges lie in a range nearly, some above water, the outermost one mile and a half from the Light, bearing from it E. N. E.

When the Light bears north distant about 2 miles, run N E. 4 miles, then north will carry you to Chedabucto Head at a proper distance, clear of all danger.

When abreast of Chedabucto Head, run N. half W. for the south point of George's Island.

When within half a mile of George's Island, you may enter the harbour west of it in 11 fathoms, or east of it in 15.

In passing between Sandwich point and Mauger's beach, run nearest the point to shun a shoal which runs off S. W. from the beach.

There is also a shoal lying one mile south of Sandwich point.

Coming from the eastward, run for the Light and you cannot fail seeing Chedabucto Head as you open Halifax Harbour; the Light being 4 miles distant from the Head to the S. W.

The times in the above Table are to be added to or subtracted from the time of high water at Halifax, according to the directions there given.

Signals made at Fort George when vessels are coming up the Harbour.

One ball close for a square rigged vessel.	A do. over a do. half hoisted for 7 do.
One ball half hoisted for 2 do.	A do. under 2 do. close for 8 do
Two balls close for 3 do.	A do. between 2 do. separated for 9 do.
Two balls separated for 4 do.	A flag of any colour for 10 or more do.
A pendant of any color for 5 do.	
A do. under a ball for 6 do.	

[The above are hoisted at the east or west yard arm, according to the quarter the vessel first appears in, with the addition of a ball at the centre of the yard, until the vessel can be seen, when one or more of the following descriptive colours will be hoisted at the mast head.]

- An Union for a flag ship, with or without a squadron.
- Do. with a red pendant over it, for a two decker.
- Do. with a blue pendant over it, for a frigate.
- Do. with a white pendant over it, for a small armed vessel.
- A red flag pierced white, for a packet.
- A blue pendant, for a merchant ship.
- A red pendant for a merchant brig.
- A white pendant for a topsail schooner or sloop.
- A blue and white flag, horizontally divided; neutral fleet.
- White and blue pendant, neutral man of war.
- Blue flag, neutral merchant ship.
- A red, white and blue flag, an enemy's fleet.
- A red flag, an enemy's merchantman.
- An UnionJack over neutral or enemy's signals, vessel is detained, or prize.

- A white flag over any signal, vessel bears a flag of truce.
- A ball at the mast head, vessel is on shore or in distress ;— should immediate aid be necessary, guns to be fired.

Explanation of Signals

Made on the Ensign Staff at Fort George, to denote the part which vessels entering the Harbour have arrived from.

- A red flag from Great-Britain.
- A red and white do. the Mediterranean.
- A red pendant, the Continent of Europe.
- A white and red pendant, Madeira, Canary, or Western Isles.
- A blue flag, West Indies.
- A blue pendant, Bermudas, Bahamas, or Turk's Islands.
- A blue and white flag, United States.
- A white flag, Newfoundland.
- A red and white flag, horizontally divided, Quebec or Gulf of Saint Lawrence.
- A blue and white flag, horizontally divided, New Brunswick, or Bay of Fundy.

The following table constructed by the celebrated Doctor Herschel, upon a philosophical consideration of the attraction of the sun and moon, in their several positions as to the earth, and confirmed by the experience of many years actual observation, may, without doubt, suggest to the observer, what kind of weather will probably follow the moon's entrance into any one of her quarters, and that so near the truth, that it will be very seldom found to fail.

	SUMMER.	WINTER.
If it be a new or full moon, or the moon enters into the first or last quarter, at the hour of 12 at noon, or between the hours of 2 and	Very rainy.	Snow or Rain.
4 - - - -	- - - - -	Fair and Mild.
4 to 6 - -	Changeable	Fair.
6 to 8 - -	Fair if wind N. W. Rainy if S. or S. W.	Fair and Frosty. If N. or N. E. Rain or Snow. If S. or S. W.
8 to 10 -	- - - - -	Ditto.
10 to midnight.	Ditto.	Fair and Frosty.
Midnight to 2.	Fair.	Hard Frost. unless wind.
Forenoon.	2 to 4 - -	S. or W. Snow and Stormy.
	4 to 6 - -	Ditto.
	6 to 8 - -	Stormy.
	8 to 10 - -	cold rain if W, snow if E.
	10 to 12 - -	Frequent showers. Cold high Winds.

From the above table it will be seen that the nearer to midnight either the moon's periodical changes (i. e. within two hours either before or after it) the more fair the weather is in summer; while the nearer to noon that the changes take place, the reverse may be expected. Fair weather may also follow when either of the periodical changes occur during the afternoon six hours, viz. from four to ten, but this is mostly dependant on the wind.—The moon's entrance during all the hours after midnight except the two first, is unfavourable to fair weather. The like may nearly be observed in winter. Every farmer ought to preserve a copy of this table, and carefully to regulate his pursuits by its indications. Such a line of conduct might materially promote his comforts and his interest, while in no case would it disturb his prospects, or destroy his hopes.

Signs of the Zodiac.

Winter. JANUARY begins on Tuesday. 15

“ ——— And as they sweep
On sounding skates a thousand different ways,
In circling poise, swift as the winds, along,
The then gay land is madden'd all to joy.”

“ ——— The cherish'd fields
Put on their winter robe of purest white,
'Tis brightness all ; save where the new snow melts
Along the mazy current. Low the woods
Bow their hoary head ; and ere the languid sun,
Faint from the west, emits his evening ray,
Earth's universal face, deep hid and chill,
Is one wide dazzling waste, that buries deep
The works of man.” *Thomson.*

D M	Weather, Holidays, &c.	FARMER'S CALENDAR.
1	Circumcision.	<i>The Farmer.</i> —This is an employment instituted by God himself, and by him peculiarly owned and blest. It is that on which every thing else depends. What can be more pleasing than to direct the young and tender plant how to shoot, and cherish its growth? What more humane than the care of those animals which contribute to the comfort and convenience of man? True, this employment is laborious ; but then, labour brings health, and health is the foundation of enjoyment and happiness. The condition of a farmer is one of independence. His little domain is his own, his comforts are his own, and he is not the mercy of public whim and caprice. It is not necessarily the case, in this happy country, that the farmer must be a stupid, ignorant man. He is taught in his youth the first rudiments of education, and he has many spare hours to read. In the heat of a sultry

“The snow-capp'd cottage, and the hoary hill,
 The palsied landscape, desolate and still,
 The bitter, biting, brawling, brumal blast,
 The flitting, fleecy frost-work, falling fast,
 Through many a dark, dull night, and dreary day
 Proclaim stern Winter's unrelenting sway.
 Though Sol his annual circuit has begun,
 Nature still weeps the absence of the sun,
 In many a frozen, but fast-falling tear,
 Which decks with silver sheen our hemisphere.

“ ——— Unassisted through each toilsome day,
 With smiling brow the ploughman cleaves his way,
 Draws his fresh parallels, and wid'ning still,
 Treads slow the heavy dale, or climbs the hill :
 Strong on the wing his busy followers play,
 Where writhing earth-worms meet th' unwelcome day ;
 Till all is chang'd, and hill and level down
 Assumes a livery of sober brown.”

FARMER'S CALENDAR.

that of a husbandman.—
 Many a man after spending
 fruitless years in speculations
 and in the precarious subsis-
 tence of an overstocked pro-
 fession, has sincerely regret-
 ted the ill-fated day that he
 left his father's domicile, where
 there was land enough and to
 spare, and plunged into more
 uncertain pursuits.

—————

In no department is Bacon's
 celebrated maxim more true,
 "knowledge is power," than
 in regard to agriculture :—
 hence no farmer can be ac-
 counted skilful in his profes-
 sion, who does not improve his
 knowledge of husbandry by
 the perusal of the ablest works
 which have been written on
 that subject. It is absurd to
 imagine, that the communica-
 tion of knowledge by printing
 which has promoted the ad-
 vancement of every other art,
 should be of no use in agri-
 culture.

“ The farmers life displays in every part
 A moral lesson to the sensual heart.
 Though in the lap of plenty, thoughtful still,
 He looks beyond the present good or ill ;
 Nor estimates alone one blessing's worth,
 From changeful seasons, or capricious earth ;
 But views the future with the present hours,
 And looks for failures as he looks for show'rs ;
 For casual as for certain want prepares,
 And round his yard the reeking hay-stack rears.”

V. Month.

" In earth's moist bosom buries up the grain—
 The work is done ; no more to man is given ;
 The grateful farmer trusts the rest to Heaven.
 Yet oft with anxious heart he looks around,
 And marks the first green blade that breaks the ground ;
 In fancy sees his trembling oats uprun,
 His tufted barley yellow with the sun ;
 Sees clouds propitious shed their timely store,
 And all his harvest gather'd round his door."

“ ——— On the bank
 Of a clear river, gently drive the flock,
 And plunge them one by one into the flood :
 Plung'd in the flood, not long the struggler sinks,
 With his white flakes that glisten thro' the tides ;
 The sturdy rustic, in the middle wave,
 Awaits to seize him rising ; one arm bears
 His lifted head above the limpid stream,
 With the full clammy fleece the other laves
 Around, laborious, with repeated toil ;
 And then resigns him to the sunny bank,
 Where, bleating loud, he shakes his dripping locks.—*Dyer.*

D M	Holidays, Weather, &c.	FARMER'S CALENDAR.
FE 2	Trinity Sunday. <i>warm days</i>	If one method of treating seed-corn, in order to its preservation from worms, birds, &c. be found not to succeed well, some other of the various modes practised, ought to be tried. One way of protecting it against the assaults of these marauders, is, to soak it in water, then roll it in sulphur, and plant it immediately: sulphur is of itself a manure, remember the largest and best seed-potatoes will produce the largest and best crops,—break off the most thrifty shoots of your seed cabbage-stumps, and set these shoots out as you do plants; they will produce very early and large cabbages; break them from the stumps, do not cut them, as the broken fibrous parts will the more readily form roots. Don't plant your corn too deep, for deep planting deprives it of much of the influence of the sun and atmosphere, and ex-

“ Now swarms the village o’er the jovial mead ;
 The rustic youth brown with meridian toil,
 Healthful and strong, full as the summer rose
 Blown by prevailing suns, the village maid,
 Her kindled graces burning o’er her cheek.
 E’en stooping age is here ; and infant hands
 Trail the long rake, or, with the fragrant load
 O’ercharg’d, amid the kind oppression roll.
 The russet hay-cock rises thick behind,
 In order gay.”

Thomson.

“ Here, midst the boldest triumphs of her worth ;
 Nature herself invites the reapers forth ;
 Dares the keen sickle from its twelve-months rest,
 And gives that ardour, which in every breast
 From infancy to age, alike appears,
 When the first sheaf its plummy top uprears.
 No rake takes here what Heaven to all bestows—
 Children of want, for you the bounty flows !
 And every cottage from the plenteous store
 Receives a burden nightly at the door.” *Bloomfield.*

" Its dark green hue, its sicklier tints all fail,
 And rip'ning harvest rustles in the gale.
 A glorious sight, if glory dwells below,
 Where Heaven's munificence makes all the show,
 O'er every field and golden prospect found,
 That glads the plowman's Sunday morning's round,
 When on some eminence he takes his stand,
 To judge the smiling produce of the land.
 Here vanity slinks back, her head to hide :
 What is there here to flatter human pride ?"

onth.

Autumn. OCTOBER begins on Wednesday. 33

“ Beyond bleak winter’s rage, beyond the spring
 That rolling earth’s unvarying course will bring,
 Who tills the ground, looks on with mental eye,
 And sees next summer’s sheaves and cloudless sky ;
 And even now, whilst nature’s beauty dies,
 Deposits seed, and bids new harvests rise ;
 Seed well prepar’d and warm’d with glowing lime,
 ’Gainst earth-bred grubs, and cold, and lapse of time :
 For searching frosts and various ills invade,
 Whilst wint’ry months depress the springing blade.”

Bloomfield.

“ ————— The juicy pear
Lies in a soft profusion, scatter'd round,
Such falling frequent through the chiller night,
The fragrant stores, the wide-projected heaps
Of apples, which the lusty-handed year,
Innumeros, o'er the blushing orchard shakes.
A various spirit, fresh, delicious, keen,
Dwells in their gelid pores ; and, active, points
The piercing cider for the thirsty tongue.”

Thomson.

“ Though night approaching bids for rest prepare,
 Still the flail echoes through the frosty air,
 Nor stops till deepest shades of darkness come,
 Sending at length the weary labourer home.
 From him, with bed and nightly food supplied,
 Throughout the yard, hous'd round on every side,
 Deep-plunging cows their rustling feast enjoy,
 And snatch sweet mouthfuls from the passing boy,
 Who moves unseen beneath his trailing load,
 Fills the tall racks, and leaves a scatter'd road ;
 Where oft the swine from ambush warm and dry
 Bolt out, and scamper headlong to their sty.”—*Bloomfield.*

*A Packet leaves Digby for St John, N B. every Thursday evening, and arrives there the next morning; leaves St John on Saturday at 12 o'clock, and arrives at Digby the following morning.

†The Parrsborough Packet sails regularly to Windsor and Horton every week, from the first of April to Christmas; leaves Parrsborough on Monday (wind and weather permitting) so as to be at Windsor on Tuesday, and will sail from thence (for Parrsboro) the first high water that happens at or after 8 o'clock in the morning,—leaves Parrsborough on Thursday, so as to be at Horton on Friday; and will sail from thence for Parrsborough the first high water after 8 o'clock in the morning—The Packet frequently goes to Windsor twice a week.

(FINIS.)
