No. 64.

## GOVERNMENT GIVES ANOTHER GRANT

### FOR THE ERECTION OF A SANATORIUM

Hon. Dr. Young Makes Interesting Announcement in Opening Football Match on Saturday.

Preparatory to setting the ball in motion at the football match at Oak Bay on Saturday, the Hon. Dr. Young made a brief speech to the team in which he announced that within the past few days the provincial government had decided to make a further grant of \$10,000 to the anti-tuberculosis fund.

Dr. Young has taken a keen interest in the work of the society and when asked to kick-off at the football match arranged with a view of augmenting the funds, he willingly consented. It was expected that he would make a brief address, but the announcement of another government grant was not anticipated.

Surrounded by the footballers in the middle of the playing field, Dr. Young alluded to the fact that he had once been an ardent follower of the game himself. It gave him great pleasure to be chosen to open this match on account of the worthy object towards which the gate receipts were being given. "No one," he said, "so well as an athlete can realize what the terrible depredations of the disease of consumption can mean." He expressed the hope that the gate receipts could not be too large for the purposes of the society.

It gave him great pleasure to announce that the government grant which he was a member had within the past few days denoted a further \$10,000 for the purpose of erecting a tuberculosis sanatorium at once.

This announcement was received with applause by the players, and the provincial secretary saying he would not detain them any longer, the teams lined up, the doctor set the ball in motion and withdrew from the field of play. This grant of \$10,000 made by the government supplements the \$10,000 previously set aside for this object. At the sitting of the legislature in 1906 a vote of \$5,000 was passed for the purpose. At the session just closed the government brought down in the estimates an appropriation of \$5,000 more. There were several in the House who thought that this sum was altogether too small. The ministry, however, would not increase the grant, stating that the \$5,000 supplemented by the same amount set aside the year previous would, it was expected, serve the purposes intended.

There will be few in the province probably who will object to the expenditure of the money in this cause, but there will be many who will want to know why the appropriation was not made \$15,000 when the House was asked to pass upon it and not \$5,000. When the House was in session the government had all the facts in the matter which it has since which later, or if it had not it should have had them.

The money now promised, it is explained by members of the government, will not be available until passed upon by the legislature. The grant by the government will relieve the situation to a considerable extent and will allow work to proceed at once on the undertaking. The intention is to first utilize the area given by the society by the Dominion government. Tents will be erected at Fish Lake and there will also be some chalets put up there which will be inexpensive and which will serve the immediate needs for the summer, preparatory to work beginning on the main building of the sanatorium.

Dr. Fagan says that with this increased grant a second institution will be undertaken for advanced cases. In many instances these might be cured if given the proper treatment. The removal of them from the homes in which they are now forced to live, would be of the first importance as tending to prevent the spread of the disease. This sanatorium will be built at a comparatively low altitude, the location to be decided upon later.

The main sanatorium for incipient cases will be at a medium altitude.

## NEGRO ARRESTED.

Worked at Calgary, Charged With Serious Crime.  
(Associated Press.)  
Calgary, Alta., May 4.—Thomas Rife, a big husky negro, was arrested here this morning on a charge of criminal assault on a little German girl—ten years old. Rife took the girl into the hills last night and kept her there until 6 o'clock this morning, when he brought her back and left her at the C. P. R. station more dead than alive. The girl's name is Kate Murlaka. Rife is about 27 years old and has been in Calgary five years. He is a colored cow puncher and was employed by a lively stable. He was charged before the police magistrate this morning and remanded. There was some talk of lynching, but the man who tried to brief address, but the announcement of another government grant was not anticipated.

## SYNOD HEARD MANY REPORTS

### DELEGATIONS FROM OTHER BODIES THERE

#### Missionaries Told of Work in Home Missions and in India--The Synod's Needs.

The theological conference following the annual meeting of the synod of British Columbia is in session at New Westminster to-day. The synod closed on Saturday last.

After devotional exercises on Friday an overture from the Presbytery of Victoria seeking the abolition of the billing system in connection with the meetings of synod was voted down. The next meeting was appointed to be held on the first Wednesday of May, 1908, in St. John's church, Vancouver.

Overtures asking the general assembly to appoint a superintendent of foreign missions in the West were transmitted simpliciter.

The presbyteries of Kamboja and Westminster both submitted overtures asking that another superintendent of home missions be appointed to share the growing work of Dr. Herdman. These overtures were endorsed by the synod and transmitted to the assembly.

The committee on universal education reported that the work assigned to it had been performed, and that the legislature at its late session had passed a bill setting apart a large section of the public domain as an endowment of a provincial university.

Fraternal greetings were received from Rev. W. H. Marcelline, representing the Ministerial Association of New Westminster; Rev. Dr. Rugg, of the Baptist church; and Rev. Dr. Sippel, president of the Methodist conference. These brethren were afterwards asked to serve as corresponding members of the synod.

The Sabbath school report, submitted by Rev. J. A. Logan, convener of the committee, showed on the whole a very decided increase, although on two Presbyteries decreases were noted.

The general secretary of Sabbath school, Rev. J. C. Robertson, is to visit the synod this summer and hold conference on Sabbath school work at various centres. The matter of a Sabbath school secretary for this synod was sent down to Presbyteries for their consideration.

Rev. J. D. Gilliam presented the report on Young People's Societies. It would seem that a vast sphere for work among the young people of the synod remains yet to be occupied.

An excellent review of the life and work of the church was given by Rev. J. M. Miller, of Nanaimo. This report so full of the most vital matter led to an earnest discussion, although the time was all too short for the full examination of facts and tendencies therein noted.

The general mission report was given by Rev. G. A. Wilson, who reviewed the growth of the work since the erection of the late synod of British Columbia and Alberta. He outlined the present needs and indicated some of the difficulties and discouragements as well as the encouragements of this great work.

To meet the growing needs of this work the Presbyteries of the synod were urged to raise this year the following sums: Victoria, \$1,500; Westminster, \$3,000; Kamboja, \$1,000; Kootenay, \$750.

Dr. Inglis, the medical missionary at Telegraph Creek, in a few graphic, nervous sentences, told the story of his romantic mission at the head of the Stickeen. He was followed by Mr. W. J. Allen, of Quesselle.

On Thursday Dr. Herdman, convener of the augmentation committee, submitted a very full report of the progress of the work under that committee. It was shown that while this synod has received large sums from the general assembly's contributions have been very small. Steps have been taken to increase the amount contributed.

Rev. W. A. Wilson and Dr. Nusselt, returned missionaries from Central India, were present and asked to sit as corresponding members.

J. Knox Wright submitted a report on statistics and finance. This carefully prepared report showed a very general, though not sensational growth on all lines.

For all purposes the general mission report for this synod last year was 100 per cent, per communicant more than the average throughout the whole church, and 70 per cent, per family more than that of the whole church. The value of the old landmark.

(Continued on page 12.)

## MANY WHALES OFF WEST COAST

### TEES IS DELAYED BY HEAVY FOGS

Sealing Schooners Umbrina and Markland Coming to Port With Large Catches.

Steamer Tees, Captain Townsend arrived in port early this morning from her trip on the West Coast where she had been on a comparatively long voyage. The weather was fine during the voyage but at times a thick fog prevailed. The Tees reports that the whaling activity at Sechart is still very pronounced. Each day a number of whales are landed at the slip. The whaling of the quarry is comparatively easy matter. The vessel called at Sechart and took on board 350 barrels of whale oil and 50 tons of fertilizer. This cargo was landed at the outer wharf this morning and the oil will be shipped to Glasgow on the next Blue Funnel liner which calls at this port.

On Saturday the sealing schooners Umbrina and Markland left Clayoquot for this port. The former had 163 skins on board and the latter, the newest vessel of the fleet, under the command of Captain Huxley, had 45 skins. These two vessels which are expected to arrive in port to-day were responsible for the largest catches during the hunting season which has now closed.

The Tees was late in arriving at this port, owing to being delayed by fog. She left Bamfield at 8 p. m. yesterday and had to feel her way down the coast. Captain Townsend being on deck during the night. She made this port about 7 a. m. to-day and at 9 o'clock went around to the outer wharf to unload her cargo. Some twenty passengers came on the down trip, mostly loggers. Among the passengers was Mr. Gilbert, the manager of the Red Cliff Lumber Company, of Duluth. This company is locating large timber areas at the head of the Alberni canal and Mr. Gilbert was there looking after the location work.

## EARTHQUAKE SHOCK

Reported To Have Lasted About Two Hours.

(Associated Press.)  
London, May 4.—Prof. John Milne, seismologist, from the Isle of Wight, and Prof. Belera, an authority on seismic disturbances at Lathach, Austria, report to the Daily Mail, records of an earthquake shock of two hours' duration yesterday morning. The distance between the points of record was about 100 miles.

## SEEKING PROTECTION.

A. MacLaren, of Buckingham, Who Has Received Threatening Letter, Interviews Sheriff.

(Special to the Times.)  
Ottawa, May 6.—A. MacLaren, of Buckingham, who is in Hull yesterday asking the sheriff for protection for his sawmill and property, as he had received an anonymous threatening letter.

## DRIARD'S PROPRIETOR TO LEAVE VICTORIA

Has Acquired Lease of New Hotel in Vancouver Which He Will Operate.

The lease under which C. A. Harrison, for the past three years the proprietor of the Driard hotel, has held that property, expires Monday, next, May 13th.

Mr. Harrison, who during his connection with the Driard has made himself exceedingly popular with the traveling public and the citizens of Victoria, has leased a hotel, which has just been completed in Vancouver. It will be called the New Driard and it is held by him under a ten year lease.

The New Driard has been erected by Mr. Rogers, the British Columbia sugar refiner. It is situated on Georgia street about two blocks below the hotel Vancouver, down towards the park. Built of brick and stone, it has fifty-five spacious bedrooms and is an unusually fine and complete up-to-date hotel.

Mr. Harrison regards leaving Victoria. His relations with everyone have been of the pleasantest kind. The unusual opportunity offered him, he could not, however, resist, so that Vancouver will be his habitat for the future. He is firmly confident of a great future for this city, his recollections of which will be of the kindest nature.

That he will be successful in his new enterprise as he has been in Victoria will be the wish of his friends and acquaintances here.

It is understood that the Driard will be conducted by the present manager, Mr. Huxley, who will also sing.

## BRITISH CRUISER SQUADRON.

Vessels Will Visit Bermuda and Halifax Before Returning To England.  
(Associated Press.)  
Norfolk, Va., May 4.—The British cruiser squadron passed out of the Virginia capes yesterday. The squadron, which consists of the Arxyle Good Hope, Roxburgh, and Hampshire, will visit Bermuda and Halifax before returning to England. They signaled departing greetings to their American hosts before weighing anchor.

## SAYS SWETTENHAM WAS JUSTIFIED

Visitor in City Was in Jamaica Shortly After Earthquake--Terrible Scenes.

J. Douglas, agent for Canada and the West Indies, for Gilbey & Sons, the great British whiskey manufacturers, is in the city at present on his semi-annual tour of the west. Mr. Douglas has but lately returned from Jamaica which he visited on his way here. He arrived in Jamaica just a short time after the earthquake. He found the country terribly demoralized from that catastrophe and most of the merchants ruined. The better class of whites sympathize with Governor Swettenham in his attitude and declare bitterly that he has been most unfairly used by the imperial authorities. In the first place the earthquake occurred on Monday. Prompt measures were taken to prevent looting and to put down crime, and the governor had force sufficient at his command to do this. Then, and not until the Saturday following the Monday of the earthquake, the American squadron, under the command of Admiral Davis arrived. Mr. Douglas states:

"Without waiting to consult the governor, a party of marines and blue jackets of the United States fleet, under the command of the American admiral, arrived. They were ordered to search the houses of the negroes and to seize all the arms they could find. The governor was placed in a most awkward position. He is an American citizen on British soil at their own initiative to assist in restoring law and order. In the course of so doing they have received it necessary to shoot British subjects."

"With that you must suppose the well known hostility of the average citizen of the United States towards the negro and remember that nearly the whole of Jamaica's population are blacks."

Mr. Douglas tells of some terrible incidents during the disaster of men burned alive in the sight of their friends, who were powerless to help them, as perhaps tons of debris rested upon them.

Mr. Douglas will remain in the city some days.

## FAIR OF NATIONS BEGINS TO-MORROW

Preparations Complete For Entertainment in Aid of Y. M. C. A. Building Fund.

Great and extensive preparations are under way for the "Fair of Nations," which will commence to-morrow, Tuesday, in the Assembly hall. (Great hall or rink). For street, and will continue during Wednesday and Thursday and the proceeds of which will go directly to the new Y.M.C.A. building fund.

The various churches of the city are responsible for booths representing six different nations which will be appropriately decorated and in which viands and refreshments peculiar to the various nations will be obtainable. There will also be an exhibition of products and curios of the different countries represented, making altogether a most elaborate display. Refreshments and meals will be served continuously, but the great event in the eating line will be an old English dinner between 12 and 1 o'clock on Wednesday. Arrangements have been made for a large turnout of business men with their wives and families.

The proceedings will be opened on Tuesday by His Worship Mayor Morley. Mrs. Day, president of the Women's Allied Societies, will extend an address of welcome. Miss Underhill will recite a humorous selection, entitled "The Obstructive Hat in the Pit," and Miss Switzer will also recite.

Mr. Jesse Longfield's orchestra will play and the Guard Tunes of Victoria Hive No. 1, and Baxter Hive, No. 8, Ladies of the Marchioness will play a fancy drill under the leadership of their captain, Miss F. Cochenour.

On Wednesday evening the talented Watson family will take charge of the entertainment. The entertainment will consist of various selections and varied specialties including a famous cathedral choir. They will be assisted in several selections by local talent.

The concert on Thursday evening will be of an international nature in keeping with the thought of the fair.

Miss Switzer will give a recitation in the German dialect and Miss Gregson will sing a song in the French language. Gideon Hicks will render one of his popular selections. R. Morrison will sing the Veteran and Mr. J. G. Brown will give one of his popular Scottish songs. Miss Underhill will recite and Mrs. Cartwright and Mrs. Herchner will also sing.

Another Mine of Explosives Has Been Unearthed.  
(Associated Press.)  
Guatemala, City, Guatemala, May 6.—It is reported that another mine of dynamite has been found in the vicinity of the National Assembly.

The authorities have released several prominent women who had been detained on suspicion of conspiring in the plot to assassinate President Cabrera.

Details of the alleged conspiracy have yet not been made public.

## LICENSE BYLAW IS NOT QUASHED

### APPLICATION FAILED IN SUPREME COURT

Points Raised By Frank Higgins Were Not Found to Invalidate Civic Legislation.

The attempt made to quash the new license by-law failed this morning. An application was made by Frank Higgins in the Supreme court to quash it a week ago. At that time the application was stood over for a week in order that the city might be represented.

This morning it came before Mr. Justice Irving in Chambers. Frank Higgins pressed a number of objections to the by-law, while the city was represented by W. J. Taylor, K. C.

Mr. Higgins contended among other things that the by-law attempted to make restrictions as to the licensed premises themselves, which was beyond the statute. He also argued that it was in conflict with the statute, inasmuch as it provided that for the first offence the license should be cancelled, while under the statute this cancellation only followed after a third offence. He further took exception on the ground that the provincial act gave the commissioners a discretion as to

placed on board a barge and towed out to the steamer, which was lying in the Royal Roads.

The lepers were conveyed on board and placed in quarters specially prepared for them.

By the arrangement the Dominion government pays the owners of the ship \$2,000 for the passage of the lepers and their one attendant. They are relieved of all further liability in the matter, and there is no longer a leper colony on the Canadian Pacific Coast.

The arrangement with the captain of the vessel for the immediate transfer of the lepers was brought about through the agency of Senator Riley.

Some hitch had arisen in the matter, the captain demanding cash in advance, which would have necessitated communication with Ottawa. Senator Riley made himself responsible, and the captain received his money this morning.

## CHINESE LEPERS WERE ALL DEPORTED

Arrangement Between Dominion and Chinese Authorities Does Away With Leper Colony on Darcy Island.

The entire leper colony on Darcy Island, consisting of eight Chinese, were shipped aboard a steamer this morning to be conveyed to China. This comes as a result of an arrangement between the Chinese and the Dominion governments.

The Dominion government has long sought for a satisfactory solution of the problem of how to deal with the Chinese lepers. It was considered both unfair to the Canadian authorities to call upon them to treat foreigners for a loathsome disease contracted in a foreign country, where the disease is comparatively common and where adequate facilities for its treatment are provided.

Hence the Canadian authorities have long sought to arrange an agreement with the Chinese authorities. This has just been effected, and the lepers are being conveyed to China.

This morning the eight lepers, in charge of a Chinese attendant, were

imposing certain penalties, while the by-law took this discretionary power away and made it imperative.

His Lordship decided against Mr. Higgins on all points and reached the conclusion that there was no conflict shown between the by-law and the powers conferred upon the civic authorities to pass such regulations.

He therefore decided against the application with costs.

## ROSSLAND LABOR DEMONSTRATION

All the Speakers Made Lengthy References to Moyer, Haywood and Pettibone.

Rossland, B. C., May 5.—Labor Day (May 1st) was celebrated to-day by a street parade and literary exercises at the Miners' Union hall. It was a demonstration in favor of Moyer, Haywood and Pettibone. The procession, containing about 200, marched through the principal streets headed by the Italian band.

At the union hall, Archie F. Berry, defeated Socialist candidate for the legislature in the last election, J. A. Mackinnon and Judge J. O. Harkness, the latter of Northport, were the principal speakers. Socialism was the burden of their discourse, together with lengthy references to Moyer, Haywood and Pettibone.

Another Mine of Explosives Has Been Unearthed.  
(Associated Press.)  
Guatemala, City, Guatemala, May 6.—It is reported that another mine of dynamite has been found in the vicinity of the National Assembly.

The authorities have released several prominent women who had been detained on suspicion of conspiring in the plot to assassinate President Cabrera.

Details of the alleged conspiracy have yet not been made public.

## GRAVEL PITS ACTION.

Ald. Fullerton To Introduce Resolution Seeking Summary Settlement.

Should the city fathers decide to pass a resolution which will be moved by Ald. Fullerton at to-night's council meeting, the long-standing complaint about the alleged dangerous condition of the Spring Ridge gravel pits will be rewarded by definite action on the part of the civic authorities. On Saturday afternoon, Ald. Fullerton posted a notice on the bulletin board of the city hall to the effect that he will move that the council resolve the pit in question to be a nuisance and a public danger and that an order be made that it be filled in by the owner following five days' notice. In default the resolution will provide that the work be done by the city and the cost be recovered through the courts.

## FOUR CHILDREN PERISHED.

Burned To Death in House While Their Parents Were at a Dance.

West Branch, Mich., May 6.—Four small children were burned to death in the home of Mrs. Campbell, seven miles from here. Mr. and Mrs. Campbell had gone to a dance, leaving their six little ones locked in the house. They left a fire fire in the stove and in some manner this set fire to the house, which was destroyed. The children were awakened by the flames and the two oldest, aged 9 and 10 years, managed to escape. The four smaller ones perished. The parents of the children are prostrated.

Trees of swift development and remarkably rapid growth are not always short lived. On the contrary, the giant eucalyptus of Australia often remains sound and vigorous to a great age.

placed on board a barge and towed out to the steamer, which was lying in the Royal Roads.

The lepers were conveyed on board and placed in quarters specially prepared for them.

By the arrangement the Dominion government pays the owners of the ship \$2,000 for the passage of the lepers and their one attendant. They are relieved of all further liability in the matter, and there is no longer a leper colony on the Canadian Pacific Coast.

Some hitch had arisen in the matter, the captain demanding cash in advance, which would have necessitated communication with Ottawa. Senator Riley made himself responsible, and the captain received his money this morning.

## VOLUMINOUS EVIDENCE

Accompanys Committee's Report On Labor Situation Here.

The board of trade committee which has been inquiring into the labor situation on the Island will report at the annual meeting of the board, which takes place at 2 o'clock Thursday afternoon of this week. The evidence upon which the board's finding is placed fills over two hundred typewritten foolscap pages.

The committee was in session all Friday afternoon and the most of Saturday and their report has been finally completed. When presented to the board, the future action of that body with regard to it will be decided upon. It is probable that it will be forwarded to the Ottawa government with such recommendations as the board sees fit to adopt.

The council of the board will meet Wednesday morning.

## MINING ACTIVITY.

Many Arrivals at Discovery—Work on Ditches.

(Special Correspondence of the Times.)  
Discovery, B. C., April 28.—The camp presents a busier appearance than it did a few weeks ago, for every second or third day the stage arrives with mining workers for the gold fields. Three stage loads arrived to-day and one is expected to-morrow. Mr. Ruffner has already started work on his ditches and it is expected he will employ fifty or sixty laborers this summer.

On Friday evening next, the Arctic Brotherhood lodge will entertain three newly married couples, who have recently arrived here. Mr. and Mrs. K. M. Ruffner, Mr. and Mrs. Frank Brizeo and Mr. and Mrs. Otto Miller, Messrs. Ruffner and Brizeo are past lay Arctic chiefs and Mr. Miller is one of the brothers.

While on duty yesterday morning Fred Walters, a street-car conductor, saw a bicycle lying in the waiting shed at the corner of Craigford road. Each time he passed the shed on his car he looked in and finding that the bicycle was still there at a late hour last night his curiosity became aroused, and he brought it to the city police station. The police were waiting for it, having received word that a wheel had been stolen from the front of Harris & Moore's store on Broad street last Saturday evening, and this morning it was returned to the owner. The police discovered the thief, but he refused to tell some boy with more mischief than crime in his make-up.

## TOOK CARBOLIC ACID.

(Special to the Times.)  
Vancouver, May 6.—A new arrival from England, whose name was evidently Oman, committed suicide yesterday morning by taking carbolic acid. His body was found in a vacant lot facing Beach avenue.

Dynamite's explosive force is about eight times greater than that of gun powder, and it has the peculiarity of being exerted in a downward direction.

## REV. J. H. MORGAN DIED IN WINNIPEG

### PRESIDENT OF MANITOBA METHODIST CONFERENCE

Supreme Court of Appeals Will Open at Ottawa on Tuesday--Canadian Notes.

(Associated Press.)  
Winnipeg, May 6.—Rev. J. H. Morgan, President of the Manitoba Methodist conference and pastor of Fort Rouge Methodist church, died this morning in the general hospital. He was operated on for appendicitis on Saturday. He was forty-one years of age, and a graduate of the Wesleyan college, and had charge of Lethbridge, Kenora, Holland and Kewatin during the past few years.

Court of Appeals.  
Ottawa, Ont., May 6.—The May term of the Supreme Court of Appeals of Canada will open to-morrow. On the agenda for the appeal of the Canadian Pacific Railway Company vs. the Ottawa Fire Insurance Company. There are two exchequer appeals, Spencer vs. the King, from Manitoba; and Kirestin vs. Colton, from Ontario. British Columbia cases are: Norton vs. Fulton; Elk Lumber Company vs. the Crow's Nest Pass Company.

May Play in Montreal.  
Montreal, May 5.—It is about settled that Lester Patrick, formerly of the Capital ice team, will be here for the season of 1907, though his family have gone to Vancouver. Patrick will remain here until fall at least, and although he would not speak definitely, says he may remain till next spring.

Married Sixty Years.  
Owen Sound, May 5.—Sixty years of married life is the record of Mr. and Mrs. Robert McCutcheon, Sydenham, and their friends and neighbors gathered in large numbers at their diamond wedding. Mr. McCutcheon, who is in his eighty-fifth year, has lived in Sydenham since 1843. Mrs. McCutcheon is eighty-seven. Five of their seven children are still living. Both are hale and hearty, although Mr. McCutcheon has to use crutches because of a fall he had a few years ago.

Several agents for American periodicals in this city have been notified that their services will no longer be required, owing to the recent change in the postal convention between the United States and Canada.

A PORT TOWNSEND CANARY. According to the item which appeared in the Port Townsend Call relative to the Nautilus, Capt. Ben. Pettigrove, and the steamer Princess Beatrice, Capt. P. J. Hickey, says that the Nautilus is a gas launch, and was coming from the Sound with a boom of logs, that it was foggy, and the Princess Beatrice was on the Nautilus, was more than two miles length-ways and was sounding some sort of a whistle in the usual way.

TO INSTALL BEACONS. Carrying five gas beacons from Vancouver, the steamer Maude, under command of the Marine and Fisheries Department, left for the Sound, Saturday morning. She proceeded to Esquimalt and took a supply of carbide on board. To-night she will leave port to place in position three beacons at the following points: Baker Reef, Stuart Channel, one gas beacon in place of the 3-day Wigham light, Dodd Narrows, Joan Point, one gas beacon, and White Rock, Howe Sound, one gas beacon.

FIRST BOAT UP THE SKEENA. The Hudson's Bay Company's steamer Mount Royal reached Hazelton on Saturday, May 5, being the first boat up this season. Much difficulty was experienced in getting up the river, the water being low, and the trip taking eight days, while the usual time is less than three days. The snowfall was very heavy in the interior and a long period of high water is anticipated.

GERMAN STEAMER IN PORT. The German steamer Apenina, Captain Kraetz, arrived at Esquimalt this morning and went into dry dock, where she is being cleaned. The vessel came here from Tacoma, and will subsequently return there and also to Seattle, where she will load a cargo. She is a vessel of 1,021 tons, and is owned by the German Hamburg and Mexico. The captain is Hans J. Schurman, and the crew consists of one of the rapidly increasing fleet which plies between Germany and Mexico, and has helped to place the Teutonic Empire in the leading position in the trade routes of Mexico. She is a Cosmos liner.

SPOKANE ARRIVES. With 203 passengers on board, the steamer City of Spokane, of the Pacific Steamship Company, arrived at the wharf yesterday morning. She had a favorable passage from the Golden Gate to this port. The following passengers were landed at the wharf: Mrs. Peterson, A. Francis, J. McGee, Arthur Challoner, J. Newman, F. B. Kemp, L. E. Bergstrom, A. N. McNamara, F. E. Egan, H. G. Galt, M. McKinnon, J. S. Schurman, H. M. Parterson, Mrs. Foster, Mrs. Gleason, J. Hays, J. S. Brown, W. R. Mason and wife.

MARINE NOTES. AT MALTA recently the battleship Implacable broke the world's sailing record, taking on board 1,000 tons of coal in two hours and forty minutes, being an average of 24 tons per hour. No shore labor was engaged, and the only men used were the crew. The record was previously held by the cruiser Black Prince, with 315 tons per hour.

There will be a sitting of the Supreme court in this city, to-morrow, for the first time since the death of Justice Irving.

For the purpose of organization the Oak Bay Cricket Club will hold a meeting at the office of the Real Estate Company, Yates street, to-night at 8 o'clock. As practice will commence in a few days' time, and as the club is anxious to put its affairs in shape, it is hoped that all those who are interested in the organization will find it convenient to be present at the meeting to-night.

Eighteen local shots held a pigeon shoot at Langford Plains yesterday, the prize being a trophy offered by the Dupont Powder Company. The successful one was Otto Weller, of Weller street, who made the excellent score of 25 birds out of a possible 30.

WAGE SCHEDULE FINALLY SIGNED

MINERS TO RETURN TO WORK AT ONCE

It Will Be Some Time Before All Mines Reach Their Normal Output. (Special to the Times.) Fernie, B. C., May 5.—The agreement has been signed by the operators, and last night General Manager G. G. S. Lindsey left for Toronto to meet his board of directors.

Street rumors have had it the last two days that the miners wished to turn down the agreement in spite of the vote, but those people who have been closely connected with the situation have not the slightest doubt that the trouble will reach its termination to-morrow when Mr. Macdonald arrives in town, as he is the last signature needed to the agreement.

The men about the streets have lost the air of men who are fighting a hard fight, and the excitement was so, the final outcome has died down. Groups no longer congregated at street corners discussing the situation as was usual during the time the conferences were being held.

Too much credit cannot be accorded to the men for the orderly and quiet manner they have conducted this strike. There has been no violence of any kind to property or men, and drunkenness has been the exception rather than the rule, as is general in cases of this kind.

A meeting of the conciliation board was held last night at 8 p. m. Being interested in the situation, Sir Wm. Mulock stated that the present system of the operators in his estimation was a most short-sighted policy, and that they made no account of the demands for coal on the part of the public during a tie-up of the mines. He suggests that the mine operators should store several hundred thousand tons for this purpose, and that this system should be the principle of every dealer as well.

He speaks very strongly of the rights of the public in this matter to be protected from any suffering as a result of any dislocation between the miners and operators. The present policy of the operators on this question openly invites attack.

Present Sherman, on being interviewed, refused to submit any statement for publication. Schedule Signed. Fernie, May 5.—The miners' committee today at noon signed the new wage schedule, and all the striking miners will immediately return to work.

ATTRACTED TO COAST. Many Are Coming to the City—Conditions Are Good in British Columbia. The Pacific Coast continues to attract attention and the coming season promises excellent things for this city. Edgar Dewdney has just returned from a trip to the Mainland. At Yale he met a large number of young men from the prairie provinces of the Dominion who were on their way to live in this province. Their whole talk was Victoria. The past winter had proved too severe for them, and it was a pleasure to see the way in which these men welcomed the advanced season in British Columbia and the conditions prevailing.

Mr. Dewdney in conversation with some of those who had come to the province learned that the coming season would be marked by the arrival of many from the prairie provinces of the Dominion. Mr. Beckwith also returned on Saturday night from a business trip made as far east as Winnipeg. He reports that the tour was a very successful one, the British Columbia section of the trip being eminently good. The province is showing a marked degree of prosperity.

While in Winnipeg Mr. Beckwith saw Rev. J. C. Burnett, who is to become pastor of the new Baptist church which is to be built here. The new pastor will be in the city in about two weeks.

JAY GOULD'S VICTORY. E. H. Miles, Who Lost Court Tennis Championship, Writes of Match. (Associated Press.) London, May 5.—Eustace H. Miles, who lost the court tennis championship to Jay Gould, practically attributes his defeat to having to wait while Mr. Gould was suffering from a cold. In signed articles in the Daily Graphic this morning, Mr. Miles says: "It was the closest match but one I have ever played. Gould deserved to win, but I nevertheless regret being defeated."

Returning to getting out of his mind and cold while his opponent's arms were massaged, Miles says: "It is one of my weaknesses that when I have stopped and grown cold, I can hardly ever recover my form. I made every effort, but I had lost my swing." Miles admits one grievous weakness, that if he starts slowly he can last well. "If he starts slowly he can last well. It is for another set-up when Gould was done for. He thinks Gould's only danger is overtaxing his strength by such tests of endurance, but he says Gould is master of nearly the whole mechanism of tennis. It is true his back-hand stroke is still rather uneasy and his tendency is to hit an easy

MAIN OFFICE 444 Sixth Avenue, New York City, U. S. A.

CHARGED WITH DEFAUDING BANK

SUIT AGAINST A FORMER CASHIER

Sensational Allegations Made in Action Which Has Been Commenced at Butte. Butte, May 6.—Sensational charges are made in a suit begun by the State Saving Bank, controlled by F. Augustus Heine, against a former cashier and director, Thomas M. Hodgins, and his brother, Ralph M. Hodgins, alleging that the former cashier had defrauded the bank out of approximately \$200,000 between 1900 and 1905.

The complaint demands an accounting and asks that the defendants be restrained from selling any of the property until the litigation has been settled. Hodgins is accused of using the money of the bank to buy mining stocks for himself, and when the investments turned out badly, transferred the securities to the bank. Hodgins, it is alleged, altered the original entries in the bank's books until it was made to appear through various means that the bank had invested in the stock, proving unprofitable to them, instead of to him.

### MAY SELL ICE CREAM ON SUNDAY

### HELD TO BE FOOD BY HAMILTON MAGISTRATE

### Atlantic Liners Caught in Ice Field in Mouth of the St. Lawrence.

Hamilton, May 4.—The first case of Sunday work under the new Lord's Day Act came before the magistrate at the police court this morning when James Zambos, a Greek, was charged with selling ice cream last Sunday night. He did not deny getting a number of customers, but the magistrate held that ice cream was a food and Zambos has no much right to sell it on Sunday as on any other day. The case was dismissed.

**Plumbers Strike.**  
Hamilton, Ont., May 4.—A strike of the plumbers here was declared this morning. Nearly 100 men went out, and only non-union men are at work. The men demanded that their wages be increased from \$2 to \$2.50 an hour, and also asked for other concessions. The bosses say they are prepared for the strike, and that they will not interfere with the building operations to any serious extent.

**Railway Earnings.**  
Toronto, May 3.—Canadian Northern railway earnings for the week ending April 28th were \$212,500, for the same week last year, \$173,400. The increase is \$39,100.

**Died in California.**  
Hamilton, May 4.—Word has reached here that James N. Young, of Chicago, promoter of the Toronto, Hamilton & Buffalo railway, died recently in California, where he went for his health.

**Delayed by Ice.**  
Halifax, N. S., May 4.—Several liners are reported to have been caught in an ice field in the mouth of the St. Lawrence river. They have altogether 5,000 people aboard. Allan Gray, Mayor of Halifax, has 600 people aboard, while the Ionian, with 1,000 passengers, is also held by the ice barrier, which is reported to be 50 miles in diameter.

**Child Thrown From Train.**  
Douglas, Man., May 2.—The body of a small child was found near the railway just outside the village today and the circumstances would indicate it had been thrown from a passing train and killed. There is no clue to the inhuman parents.

**The Dominion Exhibition.**  
Ottawa, May 4.—C. Pelletier, M.L.A., and Mr. Tomlinson, of Sherbrooke, talked on the matters of agriculture this morning in regard to the proposed Dominion exhibition, which is to be held in Sherbrooke next fall from August 22nd to September 14th. The grant of \$50,000 of the Dominion parliament will go to Sherbrooke on this occasion. The formal opening will be made by Hon. Sydney Fisher and His Excellency Earl Grey promised to visit the exhibition before its close.

**To Promote Trade.**  
Montreal, May 4.—Some time ago a committee of citizens was named to promote trade relations with Italy, and they have adopted a resolution that it is advisable to immediately bring about a commercial treaty between the two countries, and that a delegation composed of Hon. E. Dugas, Hon. Trefle Berthelme and L. G. A. Cresce, K. C., be commissioned to interview the federal cabinet on the subject and to solicit the support of commercial organizations.

**Motorman Fainted.**  
Montreal, May 4.—A cool-headed citizen averted a serious street car accident today. The motorman fainted at his post. The car was crowded, going down the grade of Mount Royal, and a panic ensued. A man unknown broke into the vestibule, seized the motor and ran the car until assistance from another car was near. He then vanished without giving his name.

**Supreme-Councillor.**  
Toronto, May 4.—The executive council of the Independent Order of Foresters this afternoon elected W. H. Hunter, Toronto, supreme councillor.

**TELEPHONE GIRLS STRIKE.**  
Nearly Six Hundred operators in San Francisco Quit Work.

**San Francisco, May 4.**—This city is practically without telephone service as the result of a strike declared by the telephone girls of the Pacific States Telephone and Telegraph Company. At that hour between 5:30 and 6:00 girls left their switchboards to enforce a recognition of their newly organized Telephone Operators' Union and a demand for increased wages.

The company impressed its clerks, stenographers and other employees as operators, and with a number of hello girls who had resigned, maintained a very badly crippled service during the day. An effort was made to keep the principal, main, emergency and long distance lines open, and even City Manager W. J. Phillips took a turn at the switchboard.

By the hour of the strike of the number of student operators and the girls who remained loyal to the company refused to work during the night.

**SHINGLE MILL BURNED.**  
Bellinham, May 4.—The shingle mill, warehouse and dry kiln of the River Mill Company, Fernside, was burned last night. The waterworks was out of business and the firemen were helpless. The bucket brigade saved the warehouse. Two million shingles were burned. The falling warehouse, built by Edward Roy Keith, a baker, Keith may die. The total loss is estimated at \$30,000.

### ROSELAND CAMP.

### Uncertainty Regarding Outcome of Coal Miners' Strike Kept Much Production of Ore

Roseland, B. C., May 4.—Uncertainty as to outcome of the strike during the past week has tended to keep down the production of ore, as the smelters are hoarding fuel as much as possible in anticipation of a possible change in operation. Should conditions change for the better, as it is expected that they will in the next few days, there will be considerable of an increase in the output of ore.

The new hoist for the Centre Star has altered mines which is the largest hoist at any metalliferous mine in Canada, will be ready for operation about the middle of May. It will enable the Centre Star to handle considerably more ore than was possible with the smaller hoist now in use.

Consolidating ore for the week: Centre Star, 1,800 tons; Le Rol, 2,500 tons; Le Rol No. 2, 250 tons; Le Rol (Inlet), 1,000 tons; White Bear, 70 tons; total, 5,624 tons. Total for year, \$4,671 tons.

Receipts of ore at the Trail smelter for the week were 2,921 tons.

### THE ANTI-BRITISH RIOTS IN INDIA

### The Ringleaders of the Recent Outbreak at Rawal Pindi Are in Jail.

Allahabad, British India, May 4.—Five native lawyers, now are alleged to have been ringleaders in the agitation which led to the rioting at Rawal Pindi, have been arrested and placed in jail.

A mob subsequently attacked the residence of the district magistrate and assistant magistrate, did much damage, and assaulted several Europeans before the rioters were dispersed.

Quiet has now been restored.

**Movement Spreading.**  
Simla, British India, May 4.—Racial animosity is undoubtedly becoming increasingly manifest in parts of northern India. The Hindus, particularly the educated and student classes, are hostile to the Europeans, any unpopular act forming a pretext for attacks on individual persons. That the movement, originating in Bengal, has spread to the Punjab is evidenced by the outbreaks, trifling in themselves, at Rawal Pindi. The situation is being carefully watched and in case of violence is rigorously suppressed.

### THE SOVEREIGN BANK.

F. G. Jemmett Appointed Associate General Manager Not Controlled by Morgan.

Toronto, May 4.—Francis G. Jemmett, since 1901 the secretary of the Bank of Commerce, in the past, associate general manager of the Sovereign bank, Mr. Jemmett is English by birth, but came to this country early in life, and in 1896 entered the service of the Bank of Commerce as a junior in the Parkhill branch, being then in his 24th year. He obtained experience in different branches of the bank in Ontario, and in 1907 was promoted to an accountancy in the Ottawa branch.

Regarding the control of the Sovereign bank, a special from New York says: "J. P. Morgan is the dominant force in the bank as a junior in the Parkhill branch, being then in his 24th year. He obtained experience in different branches of the bank in Ontario, and in 1907 was promoted to an accountancy in the Ottawa branch."

Regarding the control of the Sovereign bank, a special from New York says: "J. P. Morgan is the dominant force in the bank as a junior in the Parkhill branch, being then in his 24th year. He obtained experience in different branches of the bank in Ontario, and in 1907 was promoted to an accountancy in the Ottawa branch."

A Montreal dispatch says: "The Treasurer bank has agreed to put up all the money required by the Sovereign bank of Canada in order that the new regime may not be hampered."

### CORRUPTION IN CHICAGO.

Chicago, May 4.—The grand jury today returned a joint indictment against James J. Connelley, Chief of Police, John M. Collins and five other police and city officers relative to alleged corruption in the Chicago police department. The action of the grand jury is the result of an investigation by the civil service commission growing out of the charges to the effect that the city police force had been used for the benefit of Mayor F. Danne, who was defeated for re-election.

### Proper Medicine For The Blood

**DRIVES AWAY THAT TIRED FEELING, MAKES YOU FEEL BRISK.**

To every one is sure to come that tired, exhausted feeling.

When the blood is weak, thin and debilitated, circulation is slow, and in consequence the system is congested with poisons and wastes that should be driven off.

The sensible person acts on the teachings of experience and cleanses his system with a course of Dr. Hamilton's Pills of Mandrake and Butter-nut.

No medicine can be more certain to quickly cure. Convenient to take, just one pill at bedtime; safe, because entirely vegetable; unfailing, because proved by thousands that Dr. Hamilton's Pills set you up in a few days.

From Chicago, Ill., N. S., comes the following from Mrs. W. A. Reynolds: "A year ago my health began to fail, I lost appetite, became nervous and sleepless. My weight ran down, I became thin, hollow-cheeked, and had black rings under my eyes. I really felt as if the charm of life had left me and when a physician advised I was in the 'blues,' I read of Dr. Hamilton's Pills, and got five boxes at once.

Within a month I gained strength and felt like a new woman. My liver and vigor returned, and my friends could no longer tell I needed a medicine, that with it should be in every home.

Good health means much to you. Success and happiness depend upon it. The maintenance and source of health is found in Dr. Hamilton's Pills.

per-box, or Ave. 100 boxes for \$1.00 at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U. S. A., and Kingston, Ont.

The second section of the Burlington and Montreal Railway, between Montreal and Montreal, one passenger was killed and 25 others injured.

### MAJORITY FOR THE AGREEMENT

### RESULT OF VOTING AMONG THE MINERS

### Wages Will Be Increased in Number of Instances--Boundary Mines Reduce Staffs.

Ferlie, May 4.—The vote of the coal miners on the proposed agreement for District 18, as cast at the various local centres, is officially announced as follows:

	For	Against
Camrose	64	59
Ferlie	393	261
Belleveue	28	16
Frank	54	77
Hillicroft	25	17
Lillo	26	20
Lithgow	124	294
Coleman	194	82
Banff	31	35
Totals	1125	760

The majority for the agreement over the district is 365, the total vote being 1875.

Notwithstanding the substantial favorable majority, there seems to be a doubt in many minds whether all the men will abide by it and return to work. In some places, especially Michel, Fernie and Frank, a large percentage of the miners are bitterly opposed to the arrangements, the majority in Michel and Frank being hostile.

Deputy Minister King and the union officials seem to be satisfied that work will not be resumed, on which Messrs. Lindsey and Sherman have been at issue for a long time, will be conceded.

Many Men Idle.

Phoenix, B. C., May 4.—While the news from the coal fields of the Croft's Nest Pass country is more reassuring as regards the coal miners going back to work shortly, the condition in the Boundary does not improve any. More miners at different mines are being laid off, as it will require from two to three weeks, it is expected for the smelters to begin to receive coke supplies after the coal miners take up their tools once more.

On Wednesday almost the entire force at the Snowshoe mine was laid off by Manager Bigel. This mine employs about 100 men, and is shipped heavily to the British Columbia Copper Company's smelter at Greenwood. Employees of the mines who have been laid off here in the last two or three days are taking advantage of the lay-off to take a vacation, some going fishing or camping, others taking a trip to the Coast, some to the Old Country, and elsewhere.

About 200 have left this camp, over the Canadian Pacific Railway and the Great Northern. The Dominion Copper Company has laid off most of the men employed at the company's Brooklyn and Idaho mines, but almost the full force is still working on development at the company's Rawhide mine.

**NEW ARMY CHIEF.**  
Sir W. G. Nicholson to Succeed Sir Neville LITTLETON.

The choice of a successor as chief of the general staff and first military member of the army council to Sir Neville Littleton, who, it is understood, has been selected for the command of the forces in Egypt, has fallen upon General Sir W. G. Nicholson, K. C. B., Royal Engineers, at present third military member of the army council.

Sir William is sixty-two years of age, and in his forty-two years' service has fought in Afghanistan, Egypt, Burma, Tirah and South Africa. His staff service includes Adjutant-General in India, military secretary to Lord Roberts in South Africa, director-general of mobilization and military intelligence, chief military attaché with Japanese army during the late war, and Quartermaster-General to the forces, in which post he was appointed in December, 1906.

The new Quartermaster-General to the forces will be Major-General H. D. Hutchinson, C. S. I., at present director of staff duties at the war office.

The announcement of an important military change may be expected shortly. It concerns the Duke of Connaught, at present Inspector-General of the forces, who is to be appointed to the new post of Commander of the Garrisons of the Mediterranean, with headquarters at Malta, with control of the British forces in Egypt.

**VESEL DRIVEN ASHORE.**  
Hambury, May 4.—A violent southwest storm is sweeping over the city. Most of the vessels which were preparing to leave the harbor yesterday were driven ashore and several persons were injured.

**HYMN AS EGG BOILER.**  
The Bishop was staying overnight in the country. He was awakened in the morning by hearing his hostess sing a well known hymn. At breakfast he said "how sweetly the hymn had sounded." "Oh," she replied, "I'm afraid you must not credit me with a special love of that hymn, but it just suits to the building of eggs. I sing five verses for soft-boiled eggs and seven for hard-boiled ones."—London Daily News.

The Daily Times
Published daily (excepting Sunday) by THE TIMES PRINTING & PUBLISHING CO. LIMITED. JOHN NELSON, Managing Director.

A CONSPICUOUS FIGURE

One occasionally hears a note of dissatisfaction rising in criticism of the course of the Premier of Canada at the sessions of the Colonial Conference now assembled in London. But the note is solitary and discordant. It is confined to one or two newspapers in Great Britain and Canada and rises but feebly from the grand chorus of appreciation which has greeted every word of counsel which has fallen from the lips of Canada's great statesman, the most conspicuous figure in that Imperial assembly.

OLD AGE PENSIONS

The subject of old age pensions was to be the leading topic of the day. It is crowding ordinary politics into the background in Great Britain, possibly because the economic conditions there are considered more out of joint than they are in such countries as the United States and Canada.

subject of "Sir Wilfrid Laurier and the Imperial Conference," says:

"Canada has reason to be satisfied both with the reception accorded Sir Wilfrid Laurier in the motherland and the part he has taken in the deliberations of the Imperial Conference. The prime minister of the Dominion is no stranger to the British people. His reputation as the Chrysothem of political orators, the charm of his personality and unflinching courtesy, and the fact that he is at once the representative of the premier among the Outer Britains and of the French portion of its people, have all combined to make him the most picturesque figure at the Imperial conference. Nor has this special niche in the affectionate regard of the public of the United Kingdom been impaired by the advent upon the Imperial stage of General Botha, the quondam Boer leader and now the first premier of the youngest of the British states. They are comrades, not rivals, and it is natural that despite their different records and experiences the patriotism in their political environment should act as a special bond of attraction. It is permissible to believe that the counsel and influence of Sir Wilfrid Laurier will be valuable and acceptable to the statesmen who, in South Africa, are confronting a significant problem to that solved by the makers of the Dominion of Canada.

"Sir Wilfrid Laurier, The World believes, stands for a sane and sober imperialism, founded on the conviction that a closer union of the British states is possible on the basis of co-operation and partnership, while preserving to each complete self-government and independence of action. The line he advocates to have taken at the conference table is entirely consonant with that view, and the World is convinced his attitude will be heartily approved by the great majority of the Canadian people, and, rightly understood, it ought not to evoke opposition even from those of his own race who seem saturated with the notion that Imperial conferences conceal an attack upon Canadian nationality. Sir Wilfrid Laurier deserves high commendation for the course he has pursued, and the World is agreeably surprised at the distance the Dominion premier has gone in furthering the objects of the conference. Immense headway has been made—how much time will make clear. There can be no doubt that never before have the vital elements of the problem of the Empire been more squarely acknowledged, or has there been more ready acceptance of their necessary corollaries. Sir Wilfrid Laurier is entitled to a full share of credit for the initial success of the conference. The increased prestige accruing to him and to Canada cannot fail to modify profoundly the future course of international affairs, so far as the Dominion is concerned. The closer the British states get in touch one with another, and the more solid their front, the greater their weight in preserving their just rights through diplomatic negotiations. By his presence at the Imperial conference and by supporting closer union he has placed Canada in the best position for maintaining and protecting her just claims."

period of life and have lived a quarter of a century in the country are entitled to pensions, and without contributing themselves to the funds. The state does it all. But only two of the states of the Commonwealth and New Zealand have adopted this advanced policy, and the people are not satisfied. They demand that the Commonwealth government shall take over the work and the responsibility connected with it, thus giving the people of all the states of the union the benefit of its advantages. The report of the Australian Commission, just issued in this country as a state paper, is peculiarly interesting reading at the present moment. The commission are highly satisfied with the working of the old-age pensions in the three colonies that at present enjoy them—New Zealand, Victoria and New South Wales. They recommend that the system should be extended by a federal law to the whole Australian Commonwealth. Here is a rough summary of the proposed Federal Pensions Law.

(1) Ten shillings a week over sixty-five.

(2) To be given to (a) Australians with a qualification of twenty-five years' residence, and (b) possessing an income not exceeding £3 a year.

(3) It to be deducted for every £1 of income over £25.

(4) The pensions to be controlled by a state commissioner, with deputies in every state and a registrar in every district.

In case of illness, a pension can be given between sixty and sixty-five, and magistrates are to act as arbitrators in the case of disputed claims.

The commissioners send their report with one significant sentence: "Your commissioners are of opinion that it should be distinctly laid down in the proposed Commonwealth legislation that old-age pensions are to be granted as a right, and not as a charity."

It also recommended a "system of deferred annuities on a liberal basis" as "an inducement to thrift."

It is one of the peculiar attributes of human nature and cannot be overcome except in very rare instances that the people like to be "fooled." P. T. Barnum found it out in his day, and profited by it. It is as characteristic of the people of to-day as it was of the average community in P. T.'s day. Why does the crowd congregate around the itinerant street vendor of worthless articles? Because they cannot help themselves. They are like moths around the street lamp. They are just like the old lady dominated by a strong-minded daughter. "Aurelia," said this intensely human mother, "I don't know as you'll understand this—your father never could; but every once in a while it just seems as though I'd got to get something of an agent or I don't feel right. I guess it's the same thing that used to make me go to all the sideshow, when I was a girl, and the fortune-tellers. I know—way down underneath—that I'm going to get fooled, but it does me good, some way; it sort of tones me up."

It is not astonishing to learn that the Colonist is not satisfied with the present representation of Victoria in the Dominion Parliament. Our captious, disappointed and vindictive contemporary was far from being pleased with the work of Colonel Prior, and Mr. Egrie when they were the choice of the people of this constituency, and did its best to convince the electors that if they would but entrust their case to someone of special talents and conspicuous endowments, imbued with the spirit of the West and capable of speaking with the voice of the West, their wants would then be properly attended to. Why the voice of this charmer failed to charm most remain one of the mysteries of our own times.

A Hamilton magistrate has decided that ice cream is a food and can legally be sold on Sunday. The climate of Victoria is not sufficiently torrid to create an imperative demand for this form of food, but we believe that even here there are young and indiscreet persons who would be well content to live upon it and eliminate everything else.

Vancouver is unhappy in the possession of a professional baseball club, joined to an equally professional league. The Terminal City "fans," although new to the business, have speedily absorbed into their system the ethics of the game. They are after the umpire and will get him if he doesn't watch out.

What Other People Think

SANITATION.

To the Editor.—It would appear that the sanitary inspector is to undertake the scavenging work of the city. This should result in considerable benefit to Victoria, as such work has been conducted in an unsatisfactory manner of late. It is to be hoped that the sanitary inspector will continue to give his attention to other matters of vital importance to the city. For instance, on the route travelled by the trolley coaches, carrying loads of tourists, near the junction of Oak Bay Avenue and Rockland Avenue, there is a festering mass of foul-disease breeding sewage, from some dwelling in the vicinity. The attention of the sanitary inspector was called to this matter some days ago, but yesterday it was in the same condition as it has been for some time past, and is a menace to the health of the community.

Other matters calling for action on the part of the city sanitary officer might be pointed out, but perhaps all these things will receive attention now that warm weather is at hand.

W. F. BEST, Victoria, May 6, 1907.

LIFE IN FAR NORTH

Bishop Reeves Gives a Glimpse of His Experiences.

The Right Reverend Bishop Reeves, of the Diocese of Mackenzie River, passed through Winnipeg a few days ago on the way to his home at Athabasca Landing.

The population of the Mackenzie river diocese is composed almost entirely of Indians and Eskimos to the number of 5,000, and a few fur traders and missionaries. His lordship visits throughout his diocese in alternate years, not being able to cover the whole field annually. In the Mackenzie river diocese he has confirmed within the last year nearly fifty young people. Indians; he baptised one Eskimo adult, and has administered the Lord's supper to nearly 100 communicants. He reaches the Eskimos, who number about 500, through interpreters. As almost every Indian tribe has a different dialect, much of the work has to be done among them also through interpreters, and it is often difficult to secure competent and suitable men who understand the languages requiring to be used. In conversation many of the people are reached by means of a jargon which is not serviceable for religious services or preaching. The bishop preaches and conducts services himself in the Slave language. In the Mackenzie river diocese his lordship has six white and one native clergyman, including two just ordained. These occupy all the posts at present established but his lordship would like to open others if the men and the money were available. In the Athabasca diocese there are ten clergymen, besides school teachers and lay helpers. The population includes about 5,000 natives and whites, the latter increasing in number, and likely to continue growing as the Peace River country is opened. The bishop has heard from one source of fifty families, and from another of two hundred families, chiefly Americans, who are going in this year. After reaching his home in Athabasca Landing, Bishop Reeves will shortly leave for the Peace River to visit the missions and will be absent most of the summer. He expects to meet his clergymen and other helpers at Lesser Slave lake, where the diocesan synod meeting is to be held in July.

BACK TO THE LAND

Radical Measure Likely to Come Before the British Parliament. A radical measure dealing with the cutting up of big-English farms into small holdings is promised before the House of Commons in the course of the present session of the British Parliament, which thus outlines the bill. The bill will, naturally, have most widespread scope and extent. It will authorize, so it is understood, both the compulsory purchase and the compulsory leasing of land by the local authorities. It will create two distinct classes of small holdings—in the first case, the allotment of from possibly one-tenth of an acre, as a minimum, to two, three or four acres, held by a man who will work for the maintenance of his existence elsewhere, probably on the large farms; and in the other, holdings of from ten to seventy acres, to enable

A Story for the Season THE SILENT PLACES BY STEWART EDWARD WHITE. This is the season of the year when "the call of the wild" comes to every one; and when a story dealing with the forest and its fragrant pines is as welcome as the flowers of May. In a few days the TIMES will commence a serial which will be read with avidity by all who love out-of-doors. Is the story of a great man hunt, in which two Hudson's Bay Company agents follow a defaulting Indian Trapper with a grim determination past the Arctic circle, into the great northern wilderness, until both fugitive and pursuers stand face to face with starvation.

WATCH FOR THE OPENING CHAPTERS. The population of the Mackenzie river diocese is composed almost entirely of Indians and Eskimos to the number of 5,000, and a few fur traders and missionaries.

THE TIMES' FASHION HINT.

WHITE LACE COAT. Coats of heavy lace or of embroidered linen and lace will be more than ever in favor during the coming season. The plate shows a very attractive style in loose short, bolero effect. Irish lace was used, banded with very heavy edging. The little vest was of linen, embroidered and edged with white cord.

the occupier to cultivate on independent and self-contained lines. Reducing Large Farms. The board of agriculture, which will, of course, be supreme in the matter, will appoint commissioners, who will travel up and down the country, investigating appeals for land from whatsoever district they may come, deciding on the requirements of the applicants and the means of giving effect to them. It is not only the large landowner who may be affected, the farmer occupying some 600 or 700 acres will be affected, and he will be called on to yield some fifty or more acres for the common good. He will, of course, be left much choice as to the portion of the land he will surrender, but the decision of the commissioners, subject, of course, to appeal to the board of agriculture, will unquestionably be final. Housing Question, Too. At the same time, it may be stated confidently that there will be no interference whatever with the amenities of any estate. The land immediately surrounding the "house" will not be affected in any case—this the bill will

safeguard in the most explicit fashion. The future of the measure should be interesting. There will be much more compulsory leasing than compulsory purchase, so it is not anticipated there will be much need for either the local or central authority to borrow very large sums of money for the purpose. One thing is certain. So strong is opinion on the part of most Liberals that in cases where land is leased, special provision will be made that the unearned increment does not revert to the landlord. As a rule now many leasehold farms are leased for periods of 20 to 25 years, and then the tenant resumes possession; this will not be possible under the new bill. Opinion in the lobby is confident that the housing question must, to a certain extent, be involved in the government measure. It is no good assigning a man a holding unless he has something to live on it, and, therefore, in all probability, the government will evolve arrangements for permitting the erection of dwellings, provided the lessee is willing to pay an increased rent to cover the interest and a small sinking fund. This, so experience has shown, he is always most willing to do.

ESQUIMALT & NANAIMO RY. TIME TABLE No. 2. EFFECTIVE MAY 2nd, 1907. Train leaves Victoria daily at 9 A. M. Afternoon Trains on Saturdays, Sundays and Wednesdays at 4 P. M. GEO. L. COURTNEY, District Passenger Agent, 65 GOVERNMENT STREET, VICTORIA, B. C.

LORD LISTER AT 80.

A Character Sketch on His Birthday.

My lord, it is not a profession, it is not a nation, it is humanity itself which with ungodly head, solves you.

These were the words used by Mr. Bayard, late American Ambassador to the Court of St. James, towards the end of a speech at the Royal Society in which reference was made to the beneficent effects of Lord Lister's life work.

The Influence of Heredity.

Lord Lister is a Quaker, and was born in 1827 in the Essex village of Upton, now a part of Greater London. His father was a wine merchant in the city of London, with a strong leaning towards scientific inquiry.

Ancient Versus Modern Surgery.

The skill and courage of Syme completely magnetized Lister, and a short time after the professor offered him an appointment which was to start his long connection with Scotland.

One can easily contrast the surgery of three hundred years ago with that of to-day from the memoirs of Paré. When the Duc de Guise, in one of their battles in which he was engaged, was wounded by an arrow which entered his eye, Paré immediately proceeded to put his foot on the duke's face, and pulled the arrow out by sheer brute force.

Lister's connection with the Glasgow Royal Infirmary gave him a large practice, and through it he became acquainted with the terrible mortality which resulted from the infection of surgical wounds.

IN STRICT CONFIDENCE.

Women Obtain Mrs. Pinkham's Advice and Help.

She Has Guided Thousands to Health.—How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Fred Seydel.

It is a great satisfaction for a woman to feel that she can write to another telling her the most private and confidential details about her illness and know that her letter will be seen by a woman only.

Many thousands of cases of female diseases come before Mrs. Pinkham every year, some personally, others by mail. Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as she has been.

Mrs. Fred Seydel, of 412 North 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham—Over a year ago I wrote you a letter asking advice, as I had female ill and could not carry a child to maturity. I received your kind letter of instructions and followed your advice.

Just as surely as Mrs. Seydel was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ill.

If you are sick, write Mrs. Pinkham, Lynn, Mass., for special advice. It is free and always helpful.

form, which had emboldened surgeons and enormously advanced the knowledge and scope of surgery.

The Antiseptic Treatment.

It was the high mortality from the inflammation and suppuration of wounds that caused Lister feverish anxiety to find the cause. He tried many expedients to improve the salubrity of the wards. He insisted on the scrupulous washing of the hands by all those engaged in dressing wounds.

The result of Lister's antiseptic treatment caused an immediate decrease in the number of deaths from surgical wounds. His discoveries were acclaimed by the whole world, and his fame was heralded far and wide.

It would be impossible to recount the degrees, medals and other honors which have been conferred upon him from all countries of the world. It was not one that accorded to do him honor, it was the whole human race that paid homage to him.

Lister's connection with the Glasgow Royal Infirmary gave him a large practice, and through it he became acquainted with the terrible mortality which resulted from the infection of surgical wounds.

SYNOPSIS OF CANADIAN NORTHWEST HOMESTEAD REGULATIONS.

Any even numbered section of Dominion Lands in Manitoba or the Northwest Provinces, excepting 2 and 36, not reserved, may be homesteaded by any person the sole head of a family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry or inspection must be made in person by the applicant at the office of the local agent or Sub-Agent.

An application for entry or inspection made personally at any Sub-Agent's office may be wired to the local Agent by the Sub-Agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

If case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An applicant for inspection must be eligible for homestead entry and his application for homestead entry will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, may, subject to approval of the Department, relinquish it in favor of father, mother, child, daughter, brother or sister, if eligible, but to no one else, on filing a declaration of abandonment.

Where an entry is summarily cancelled or voluntarily abandoned, subsequent institution of cancellation proceedings, the applicant for inspection will be entitled to prior right of entry.

Applicants for inspection must state in what particular the homesteader resides in default, and if subsequently the state made is found to be incorrect in material particulars, the applicant will lose any prior right of re-entry should the land become vacant, or if entry has been granted it may be summarily cancelled.

DUTIES.—A settler is required to perform the conditions under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father, for mother, if the father is deceased, of a homesteader resides upon a farm in the vicinity of the land entered for by such homesteader the requirement as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

SYNOPSIS OF CANADIAN NORTHWEST MINING REGULATIONS. COAL.—Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 200 acres can be acquired by one individual or company.

QUARTZ.—A free miner's certificate is granted upon the payment of an advance of \$5 per annum for an individual, and \$10 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,500x1,000 feet. The fee for recording a claim is \$5.

At least \$100 must be expended on the claim each year or the claim may be forfeited. When \$500 has been expended or paid, the locator may, upon having a survey made, and complying with other requirements, purchase the land at \$1 per acre.

The patent provided for the payment of a royalty of 2 1/2 per cent. on the sales. Placer mining claims generally are 100 feet square, entry fee \$5 per acre yearly.

A free miner may obtain two leases to dredge for gold of five miles each for a term of twenty years renewable at the discretion of the Minister of the Interior. The lessee shall have a derrick in operation within one season from the date of the lease for each five miles. Rental \$10 per annum for each mile of river leased. Royalty at the rate of 2 1/2 per cent. collected on the output after it exceeds \$10,000.

W. W. COBY, Deputy of the Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

WOODMEN OF THE WORLD—Victoria Camp, No. 55, Canadian Order of Woodmen of the World, meets in K. of P. Hall, corner Douglas and Pandora streets, 1st and 3rd Fridays in the month. Wm. Jackson, clerk.

FOR SALE. Sail yacht Juno. Wanted a Rauph, will exchange for sail canoe. Apply to E. J. HITTACOURT, at his Grocery Store, corner Douglas street and King's road, off Douglas street. Phone 1124.

ISLAND DRAWS WITH THE "REST"

DISAPPOINTING GAME AT ASSOCIATION

Good Attendance at Oak Bay-- Newcastle United Wins English League--The Derby.

For the prestige of association football in Victoria it would have been better that Saturday's game at Oak Bay had never been played.

It is difficult to account for the execrable showing in Saturday's match. It is useless to argue that the players were not accustomed to one another's methods.

There were players engaged on Saturday who, during the season, gained a well merited reputation.

Three of the most glaring errors which it is possible to associate with the game predominated in Saturday's match.

The island's winning the task of attacking the pavilion goal. When the ball was set in motion by Dr. Young the "Rest" assumed the aggressive.

The United finished third from the top of the first division in 1905, and won the championship for the first time two years ago.

OFFICERS ELECTED. At a meeting of the Vancouver Island football association held in the Post office buildings on Saturday night.

sent well down the field and Adams, taking up the running, made an ineffectual attempt to negotiate a goal.

It was a pity that the "Rest" was not better than it was. The "Rest" was a disappointment to the spectators.

From the island side as much was expected and the players fell so lamentably short of expectations, that it is by no means an easy task to select names for special mention.

There was a good attendance at the match and it is estimated that the Anti-Tuberculosis Society will benefit to the extent of about \$400.

THE ENGLISH LEAGUE. The great "topper" of the English football season is Newcastle United, the team of pure science.

There is just one time of regret for Newcastle in its hour of triumph. Until the last match the champions had not lost a single point at home.

The United finished third from the top of the first division in 1905, and won the championship for the first time two years ago.

## WHEN LOVE WAS BORN

COMPOSED BY PORTER STEELE  
WORDS BY ARTHUR J. HADDY  
COPYRIGHT BY E. J. DENTON  
PUBLISHED BY BOOKS AND DENTON  
NEW YORK

Andante con moto

We thought when love at last should come The rose would lose its  
thorn. And every voice but joy's be dumb, When  
love, sweet love was born That never tears should

start to rise, No night o'ertake our morn— Nor a—ny guest of  
grief sur—prise, When love, sweet love was born.  
But when he came, O  
heart of mine! And stood with in our door, No

joy, our dream—ing could it vine, Was miss—ing from his  
store; The thorns shall wound but hearts a gain, But  
not the fear of—yore, For all the guests of  
grief and pain, Shall serve him ev—er—more

*brillante*

# THE HOME CIRCLE

## Fashions for Young Folks

BY DOROTHY DALE

The making of children's frocks, and especially those designed for summer materials, present few difficulties to the home dressmaker, as although most of the costumes seen follow rather closely the general lines of those designed for groups, the trimmings are much more simple and the fitting presents few difficulties. It is not considered good taste nowadays to have anything ostentatious or elaborate about children's frocks, and although some of the finer models show

fine dresses, embroidered Swiss or batiste vie with the plain, heavier materials, and there are also among the new frocks charming materials which show an embroidered dot or sprig of delicate color on a white ground. Less expensive are the sheer cottons showing dainty printed designs in flower patterns. China and India silks are also appropriate for children's wear, but a great many more pieces for the crisp white materials or delicately colored batistes, muslins and other wash fabrics as being smarter, than any of the silks.

Costume for Small Boy.

exquisite handwork and fine lines in their decoration, there is never any effect of showiness. Youthful simplicity is aimed at by all the best designers, nevertheless very original and smart effects are gained. For instance, take the frock pictured in the larger cut.

The design looks very simple, essentially the original model was strikingly attractive. Thin, light blue serge was used as the material for the gown, the trimming consisted of the narrowest gold soutache braid. This braid outlined the upper part of the guimpe bodice and the cap sleeves, and was rolled into lunge-shaped ornaments at each side of the front, under which two-inch-long gold tassels were hung. The skirt of the little frock was plaited and trimmed with tucks, the cloth belt showing lines of the fine gold braid. The guimpe and undersleeves were of allover lace in fine baby Irish.

The little girl's figure shows in the same drawing depicts a very attractive coat model. This design also shows the design, being equally suitable for silk, lightweight woollen material or white linen.

The two smaller cuts show other costumes for very young children. The little boy's suit sketched is a modification of the Russian blouse, the model being in white linen, with the blue linen strap about the collar, and an embroidered emblem in blue in the front.

The little girl's costume was of blue linen, showing hand embroidery in white wash cotton. DOROTHY DALE.

Coat for Little Girl.

## Desserts for Gelatin

**LEMON JELLY.**—Soak half a pack of gelatin in half a cupful of cold water, the time required varying with the quality of the gelatin. Add one cupful of sugar, stir until dissolved, and when cool add a cupful of lemon juice. Strain through a cheese cloth and use as desired. The thin yellow rind of the lemon and an inch of cinnamon bark may be steeped in the water.

**COFFEE JELLY.**—Soak a box of gelatin in one cupful of cold water. When soft, add one quart of clear, black coffee, one cupful of sugar, one large lemon, and one teaspoonful of vanilla. Stir through a cheese cloth, strain into a wet mold and let harden in ice. Serve with whipped cream, flavored with vanilla and slightly

## Comforts for Women Who Travel

With women most of the comforts, or discomforts, of travel depend upon the clothes worn. There must not be wash goods that are easily wrinkled, or things that are hard to do up, yet some of these easily wrinkled wash goods are necessary for a long trip.

Besides clothes, toilet conveniences must be carried by the traveler, as those furnished by the railroads are necessarily inadequate. You will find comfort only in such lotions, creams, powders and soaps as you take with you.

For the all-around, useful costume, a tailored suit of lightweight cloth or muslin is indispensable. No applied trimming should be used on this costume, which is much smarter made in severe mannish style, with a semipitting coat and a plaited or circular skirt short enough to clear the ground in comfortable walking length.

As to the hat, a wide-brimmed sailor of black straw is very smart, but if the wearer is not sufficiently youthful, or if for other reasons a plain sailor is not becoming, why simply trimmed straw hat or toque can be appropriately worn. Hats trimmed with flowers are not advisable, as they are apt to look crushed and dusty when subjected to hard usage, but wings and ribbons are most effectively used on the most desirable hats designed for such wear.

Have two petticoats of pongee or grass linen (the latter is much cheaper), and wear tan shoes and stockings and dogskin gloves. With this suit, desecrated shoes have one pongee waist, two of butcher's line, one of white wash silk and

one of dark cotton chevise. Do not get a stock of petticoats or a waist of muslin or lawn which are never fresh for more than one day under favorable conditions. Have one dark crush leather belt, two of linen that will wash. Linen collars, plain and starched, are the neatest neckwear, and can be made fresh in a few hours in any stopping place, but if they are too uncomfortable wear simple riding stocks, or a dark ribbon color of the stock, with numerous fresh turnover bands. If you wish to travel with as few clothes as possible you can do much toward keeping a small supply of waists and stocks clean yourself. Wash waists, pongee and cotton chevise, and all sorts of turnover collars, wash easily and perfectly.

In a bowl of cold water put a teaspoonful of borax and let the articles soak for half an hour, then add the same amount of borax to a bowl of hot water, rub lightly, wash in clear, cold water, and your washing is over. The stockings and wash silk waists do not need ironing at all; the collar bands and handkerchiefs can be readily "ironed" on a window pane, and the pongee and chevise waists can be smoothed with an iron heated over alcohol or gas, or the chambermaid will press them for a few cents. A grass linen petticoat can be worn without pressing, and none of these garments require starch.

At night when you are traveling or sightseeing, bathe the face with olive oil soap and warm water, wipe the skin dry and massage with pure cold cream. In the morning put a teaspoonful of borax into a tub of cold water and take a good cold plunge, or in the cars a pinch of powder in the basin for a sponge bath.

The traveling bag includes brush and comb, tooth, nail and clothes brushes, washcloth and sponge, soap cases, tooth powder, plenty of fresh handkerchiefs, a fresh linen collar or ribbon stock, a nightdress and a dressing sack.

It is usually advantageous to include in the last of necessary toilet articles a box of talcum powder, a small hand mirror, a bottle of toilet water and a pair of slippers. It is useful to remove one's walking boots during a long day and put on instead light-soled slippers or ties. It is also perfectly permissible in a sleeping coach to sit without a hat.

Do not wear an elaborate traveling gown or wear any elaborately trimmed or highly decorated dress. A very useful dressing sack is made of black serge, with a colored border, in kimono style. People most accustomed to travel dress simply and reserve their handsomer gowns for other places than dirty coaches. The dressing sack, which many women wear at night as well as in the dressing room, is in better taste if in quiet colors, and the simple nightgown is easier to pack.

Never neglect to put a nightdress in your bag. Trunks are often delayed when one is certain they will come, and it is better to be free from the necessity of borrowing, even from intimate friends. It is not advisable to carry much money in one's pocketbook. A large sum may be carried in a chamois bag around the neck, as may also jewels, etc., but the pocketbook should contain only a small sum. BEATRICE CAREY.

## Treatment of the Modern Window

The modern window is intended not only to admit the light in such degree of intensity as will prove most agreeable, but it is possible by means of the popular window seat to take some enjoyment out of the view.

In draping the window a great deal necessarily depends upon the location of the window, and still more upon their arrangement. Color is of first importance, and must be chosen with regard to the lighting, walls and furnishings of the room. Green is bad as to its wearing quality, as is blue, while pink assumes a faded appearance at odds with well-ordered surroundings. In general, where the wall coverings are in plain shades, denim, burial, grasscloth or rough plaster-painted figured draperies bring about a pleasing result, while if the wall is done in figured or allover design, the hangings of plain silk or colonial net will prove restful.

The texture of the materials used is of next importance. The folds that are to cover the sashes and square, oblique and themselves have this soft appearance. This quality of falling gracefully accounts for the popularity of silk and velvet hangings in winter.

For the small house, and especially for the suburban home, nothing is more satisfactory for all the windows than frilled Swiss muslin curtains. These are particularly suitable for summer, and may be exchanged for heavier curtains in winter, if considered too light.

All the paper for the millions of postage stamps used in the United States is manufactured at Mechanic Falls, Me. One month the firm receives a requisition for 1,500,000 sheets of the paper, and each

## Helpful Home Suggestions

By Beatrice Carey.

Nothing is quite so unightly as a dent or scratch on cabinet wood, and these are often seen on furniture in constant use. To take out a dent, cover it with four thicknesses of wet paper and hold a very hot iron on the paper for a few minutes. The steam will raise the compressed wood layers, though it will spoil the varnish. Repeat the steaming until there is an even surface. Then sandpaper the place, and rub off well with alcohol and revarnish. For a rubbed place, sandpaper it smooth, then swab lightly with pineoil oil and afterward with a little dry color. The same is recommended to make that particular wood stain. At first put on just a trifle of the color and repeat the oil rubbing, using a fresh swab, keeping this up until the correct shade is produced. Put on a coat of shellac varnish as finish, rubbing it lightly until dry.

Never lay linoleum on a damp floor, as the linoleum imparts the moisture and rots the wood beneath it. For the same reason never paint a floor until it is thoroughly dry.

Painted floors often remain sticky for quite a long time after the paint is ap-

plied. To harden this sticky floor mix together equal parts of Japan and turpentine and rub this well into the paint with a stiff brush.

As the summer approaches and the time for moving into summer quarters draws near the systematic housewife begins to make out a list of things to be moved. What she intends to do largely determines what she must take with her, of course. The matter is simplified if she is moving into her own cottage, as she knows exactly what is in it and what is lacking and in what condition it is. If she is about to take a furnished cottage for the summer, however, the matter is more complex. If possible, a prudent woman will inspect the cottage and furniture something before the move is made. These probably some articles that looked well in the inventory will be found utterly useless or unadaptable to her needs and several highly important articles may be missing altogether. If an exact knowledge is acquired of what is needed before moving in, the task of "getting settled" is greatly shortened. It is much easier to take the required things at first than to have to send for them afterward.

## Handmade Things for Baby

Although hand embroidery is so much a fad at present that it is lavished upon a great many garments, it has an especially important place in the making of infants' clothing, the embroidery used being of the finest, most delicate order. A great many women delight in doing such fine handwork, and for anyone fond of fine needlework the making of fine baby clothes has great fascination. All of the garments pictured in the drawing were made entirely by hand, the sketches showing some very dainty models which could be easily copied.

The embroidery is all done in what is known as "French convent" work, rather fine, soft cotton being used, the flower and leaf forms all being padded. Very little lace is used on the models pictured, but when lace is required as trimming, only the finest should be used. If the real Valenciennes is too expensive, even for simple neck and wrist frills, select a good imitation Valenciennes, but coarse lace should always be avoided. The little sack pictured was of fine white flannel, buttonholed and embroidered daintily by hand in pale pink silk.

A new variation in baby caps is shown in the drawing, the little bonnet having turn-back flaps, edged and frilled about with lace. Where hand embroidery is too difficult or tedious for the average seamstress little handrun tucks, herringbone stitchery, roller edges and seams set together by hand with underseams, all help to give even the simplest little garment daintiness and distinction. No less than 100

Handmade Things for Baby.

## Delicious Fruit Desserts

**STRAWBERRY SPONGE.**—For this recipe take one half an ounce of gelatin (one-fourth of a package), one-quarter of a cupful of cold water, the same of hot water, one cupful of sugar, the same of strawberry juice and pulp, the juice of one lemon and the whites of three eggs. Soak the gelatin in the cold water and dissolve in the hot water; add the sugar, stir until dissolved; then strain into a dish standing in ice-water. When cool add the strawberry juice and beat until light; then beat in gradually the whites of the eggs, beaten bright and continue beating until

ready a chilled earthen or agate ware bowl lined with strawberries (cut the berries in halves and dip them in melted gelatin, so they will adhere), and turn the sponge into the bowl. Serve, turned from the bowl and garnished with whipped cream and strawberries.

**FRUIT CUP.**—Let slices of peeled peaches, bits of prepared pineapple, stoned cherries, peeled plums, white grapes, orange sections, strawberries, etc., stand in their own juice and rather thick sugar syrup, surrounded by ice, until thoroughly chilled. To serve, dispose in tall wine glasses and garnish with whipped cream.
