NO. 1:9

PLANNING FUTURE FOR ASSOCIATION

Dominion Teachers Association Gets Down to Actual Business This Morning--Steps Suggested to Improve Usefulness.

The Dominion Educational Association got down to actual business this morning at Assembly hall. The place is an ideal one for meeting in, and has been well prepared by the committee in charge.

The platform at the head of the room is prettily adorned with flowers, while the walls are draped in white and blue with British and Canadian flags displayed at different points.

The rooms near the entrance are used as the secretary's office and as a ladies' waiting room.

Dr. Alex. Robinson, superintendent of education for the province of British Columbia, presided. With him on the platform were: Dr. A. H. McKay, superintendent of education for Nova Scotia, and Prof. Dale, professor of education in the McGill university.

Dr. Robinson, in his introductory remarks, advised all delegates to attend the meeting sharp on time. He was glad to have so many distinguished visitors present. In opening the proceedings the president said that the subject which was to be dealt with at the initial meeting was the future of the Dominion Educational Association.

Future of Association. T. A. Brough, principal of the High school, Vancouver, introduced the subject. His address was directed to the following suggestions for making the D. E. A. a more influential factor in Canadian education:

1. Appointment of permanent secretary at fixed salary, devoting, if possible, his whole time to the work.

2. Systematic effort to enrol every teacher in the Dominion, and every other person vitally interested in education, as permanent members of the D. E. A.

3. The holding of a convention at least once in two years.

4. A special committee to be appointed to prepare convention programme for every department of the D. E. A. The chairman of the committee and a majority of the members to be within easy reach of the place where the convention is to meet.

5. Each provincial government to send at least one special representative to every convention, and to pay the expenses of the same.

6. Effort to keep members fully informed re educational affairs at home and abroad.

(a) Publication in book form of full report of proceedings and addresses at conventions of D. E. A.

(b) Publication of annual report summarizing conditions and progress of educational affairs in each province.

(c) Publication of high-class educational monthly or quarterly discussing national problems of education from a national point of view.

(d) The secretary of the association to be editor-in-chief of publications.

7. Increased revenue to be derived as follows:

(a) Annual fees from increased membership.

(b) Increased provincial grants to be paid annually.

8. Strong and united effort to induce the Dominion government to establish a bureau of education at Ottawa, similar to the bureau of education at Washington, U. S. A.

9. Changes in the constitution of the D. E. A. in harmony with the foregoing proposals.

10. Appointment of representative committee at the Victoria meeting to assist in carrying out the suggestions approved, and to report progress at next meeting of the association.

Mr. Brough explained that W. Scott, principal of the Normal school of Toronto, would not be present. Up to a late date Mr. Scott had expected to be present. He was obliged to prepare a report in connection with the educational work of Ontario. W. A. McIntyre, principal of the Normal school, Winnipeg, had found it impossible to attend also, but had sent his views on the resolutions to be introduced.

T. A. Brough's Views. Taking up the subject Mr. Brough said that it was a time of importance in Canada. She had just come of age and was about to take her share in the rapid development. Thousands were coming from all nations to become citizens here. The United States had passed through a similar era. That country had done the work well, assimilating these diverse peoples into good citizens of the United States. It had been done largely through the agency of the public school. The same would have to be done in Canada.

The founders of the Dominion Educational Association were men of wisdom. They had done their work well. The speaker paid a tribute to the early workers associated with it. Good work had been begun but there had been a lack of continuity. He believed that a solution of the difficulties would be found in the selection of a permanent secretary. The secretary this year had done a great work in coming in touch

with transportation men, with public men and with educationists in other lands. It was important that a permanent secretary should be kept to act as managing director.

It was lamentable that there was not a larger membership. This was due, he felt, to the fact that there was no provision for a permanent membership. If every teacher in the Dominion of Canada could not be enrolled a very large proportion of them could be so enrolled.

The National Educational Association of the United States kept in touch with its members through a permanent secretary. This was one of the advantages of a permanent secretary.

Annual Meetings. He suggested as another way move in the interest of the association that it meet annually instead of every second year, as at present.

A central committee to arrange the programme would facilitate the work of the association. It would be wise to aim at having the minister of education and the superintendent of education of each province present at the meeting. (Applause.) If these could not attend they could be represented by proxy and thus the government of each province would be kept in touch with the proceedings.

The National Educational Association of the United States published a volume of the proceedings of the annual meeting. This kept the teachers who were members of it in touch with the body.

An educational review of a high-class, such as the one published in the United States was a necessity in Canada. There were valuable papers issued in a magazine that would deal with the question of education in Canada from a national standpoint. Queen's University had maintained a valuable publication. He did not see why a magazine covering the whole of the Dominion should not be made to pay.

The question of revenue was then dealt with. The speaker said that the membership fees of the National Educational Association of the United States was maintained from that source. He said that \$75,000 was raised in that way from these fees. But in the early stages of the association the speaker felt that the governments of the provinces would make annual grants. A national educational bureau existed at Washington. This was something he felt should be in existence in Canada. It would not interfere with the provincial government control of education. The time had come for a bureau at Ottawa. Much could be done by an officer so appointed to bring about unity of aim throughout the whole Dominion.

He moved that the meeting go into committee of the whole to discuss the suggestion put forth.

(Concluded on page 1.)

WOMAN ENDS LIFE. Drinks Carboic Acid After Having Querrelled With Her Sweetheart.

Seattle, Wash., July 14.—Brooding over a quarrel with her sweetheart, Amelia Miller, a domestic, committed suicide to-day by drinking carboic acid in her room. Nothing is known of the woman here. When she did not get breakfast this morning, her employer went to the girl's room and found her dead with an empty bottle labeled carboic acid, beside her. Miss Miller was about 30 years old.

BLAZE AT CARMEN. Casman, Man., July 14.—A fire which started in John Garnett's livery stable yesterday destroyed that building together with the Honeywell block and the old Methodist parsonage. The loss is \$15,000 and the cause of the fire is unknown.

BUELOW STEPS FROM OFFICE FORMALLY TENDERS RESIGNATION TO KAISER

Thanked for Services—Emperor Appoints Bethann Hollweg Chancellor.

(Times Leased Wire.) Berlin, July 14.—Chancellor von Buelow to-day formally tendered his resignation to the Kaiser, who promptly accepted it and appointed Dr. Von Bethann Hollweg, present vice-chancellor, as his successor.

Tears streamed down the chancellor's face as he entered the Imperial audience room and handed his resignation to his ruler. The Emperor, dressed in the full uniform of a field marshal, broke convention and grasped von Buelow by the hand, exclaiming: "You have always served me well and

faithfully. You and I will always remain friends."

The Emperor arrived here early this morning from Kiel. The city took a holiday and the streets were thronged with people eager to get a glimpse of von Buelow as he drove from his residence to the palace.

The chancellor was escorted by the first court chamberlain, three under-chamberlains and three gentlemen ushers into an ante chamber near the audience room. The functionaries then escorted him into the audience chamber and left him alone to await the coming of the Emperor.

The Emperor's first chamberlain then appeared and tapped on the floor three times, the official signal of the approach of the Kaiser. Attired in a gold decorated uniform the Kaiser appeared.

(Concluded on Page 2.)

WOMEN'S COUNCILS MEET AT SEATTLE

Delegates Welcomed by Governor, Mayor and President of Exposition.

(Times Leased Wire.) Seattle, Wash., July 14.—With a closed session in the auditorium at the exposition grounds in the morning, the proceedings of the National Council of Women began to-day. Mrs. Mary Wood Swift, of California, presided. At noon a luncheon was served in the New York state building by the Seattle federated clubs, and in the afternoon a joint session of the National and International Councils, was held in the auditorium. At this meeting addresses were made by President Chiberg, of the exposition; Mayor Miller and Governor Hay. Addresses also were made by Miss Creighton, sister of the late Bishop of London, and other women prominent in the councils.

PERUVIANS ARE LEAVING BOLIVIA

Fear of War Responsible for Exodus—Ministers Unable to Agree.

(Times Leased Wire.) La Paz, Bolivia, July 14.—Fearing a war with Peru, many citizens of that country are leaving, the Peruvian government paying their expenses. Residents of this city are purchasing provisions to provide against the shortage that will inevitably prevail in case of hostilities.

The cabinet ministers are said to be divided on the question of the acceptance, or rejection of the arbitration award of the disputed territory which is the cause of the strained relations between Bolivia and Peru. Argentina is said to deeply resent Bolivia's attitude and in the event of war she is expected to join issues with Peru.

The position of the Bolivian cabinet is a difficult one, the rejection of the arbitration award being tantamount to a declaration of war against the neighboring governments, while the acceptance of the document is certain to provoke the populace to a renewal of rioting.

There is no disorder to-day, but the people are in an excited state of mind.

FALLS TEN STOREYS. Seattle, Wash., July 14.—W. H. Simpson, a window cleaner, 43 years of age, fell from the tenth floor of the White building this forenoon, and although physicians at the Seattle General hospital, where he was taken, say that every bone in the man's body was broken, he was still alive at noon.

Simpson had neglected to attach his belt to the window ledge and lost his balance, his body alighting on the cement floor of an inner court after striking some scaffolding on the way. He will die.

DUTY ON SUGAR BEETS. Washington, D. C., July 14.—The conference committee to-day decided to accept the senate rate of tariff of ten per cent, ad valorem on sugar beets, instead of the house rate of 25 per cent.

GREEKS AND TURKS MAY CLASH

DECLARATION OF WAR BY GREECE PROBABLE

Trouble on Frontier Results in Mobilization of Troops by Both Nations.

(Times Leased Wire.) Salonica, Turkey, July 14.—A declaration of war against Turkey by Greece is momentarily expected and troops are being mobilized by both nations in anticipation of the clash. To-day it appears that a matter of hours before the fighting will begin.

The immediate cause of the quarrel between the two countries is the result of a recent order issued at Constantinople for the troops to drive all Greeks off the Turkish frontier. Several days ago the third army corps mobilized in this section and commenced driving the Greek banners away. The Constantinople government justified this action by claiming that the Greeks were acting as spies.

Indignant at their treatment at the hands of the Turks, the Greeks made formal complaint to their King, and the result was that secret orders were issued to mobilize the Greek army.

This was discovered by the Turkish government and similar precautions were taken here. To-day troops are pouring into Salonica from every part of Turkey, and it appears that war cannot be avoided.

Greece and Turkey are ancient enemies. They have fought guerilla wars and pitched battles ever since the Turks swept across from Asia Minor centuries ago and established themselves in Europe. Greece has been dominated by Turkish influence as the result of continued Moslem victories. In 1897 Greece was decisively whipped.

The real cause of the present trouble is the island of Crete, known as the danger spot of Europe. Crete lies close to Greece. It was the birthplace of Grecian race and still holds to ancient traditions of power and independence. The sovereignty of the island has been formally in the hands of Turkey. In reality it has been governed by France, Italy, Russia and England, who have kept troops there.

Crete recently declared itself independent of Turkey and subject to Greece. Greece naturally supports the Cretan desire for annexation. Recent developments in Turkey which have shown that government of its power outside of Turkey proper, have set fire to the popular desire for Grecian independence from the domination of a power that has been hated with passionate intensity.

The government at Athens has been placed in a peculiar predicament and it is thought that war with Turkey has been decided upon as the only means of solving the problem.

When the Cretans declared their independence of Turkey, during the recent troublesome times in that country, they announced positively that they would join Greece whether that country liked it or not. They announced they will elect members to the Grecian parliament and demand that they be seated.

Public sentiment in Greece favored the annexation of Crete and the government was between two fires. If it refused to annex the island it would mean international disorder. If it did annex Crete the government must answer to Turkey.

To-day's situation indicates that the latter course has been decided upon.

WOMAN BURNED TO DEATH IN HOME

Uses Kerosene in Stove and Flames Set Fire to Her Clothing.

(Times Leased Wire.) Ely, Nev., July 14.—Margaret Solleck was burned to death in her home late last night. She was trying to start a fire with kerosene when her clothing was caught by the leaping flame. She died three hours later.

MURDERER HANGED IN EDMONTON PRISON

Barrett Declared He Killed Deputy Warden in Self Defence.

(Special to the Times.) Edmonton, Alberta, July 14.—Protesting his innocence to the last and that he had killed Deputy Warden Steadman, of Alberta, penitentiary in self defence, Gary R. Barrett was hanged this morning in the corridor of the prison, the drop being sprung at 8.44. Fifteen minutes before the doctors pronounced the man dead, the noose slipped, death being due to strangulation and not to a broken neck. The prisoner's son, who was not permitted to be present at the execution, was given the body which he will take to Butte, Mont., for burial. The condemned man showed the utmost unconcern, save that he objected to the oration which he wished to deliver being put short.

SEEKING SETTLEMENT IN BRIDGE DISPUTE

Temporary Way Out of the Difficulty Is Being Sought.

As a result of conferences held between Mayor Fish and H. Marpole, general executive assistant of the C. P. R., it is expected that some tentative arrangement may be reached with regard to using the E. & N. bridge for foot passengers, pending the reference of the whole question to the railway commission.

The commission will meet on the coast next month. It is expected, when the subject may be taken up and finally disposed of.

Mayor Hall pointed out to Mr. Marpole that in the meantime it was essential that something should be done. The C. P. R. representative said he was considering the question in view of the letter sent by the council. He pointed out the difficulties that were met with in the disposition of the subject. The company was met by difficulties in allowing any privileges, however.

By Monday an answer is promised from Mr. Marpole as to what his company can do in the matter.

PRINCE VON BUELOW.

HUNDREDS SLAIN IN STREETS OF TEHRAN

Battle Rages in Persian Capital Where Nationalist Army Is Making Desperate Efforts to Reach The Royal Palace.

REINFORCEMENTS FIGHTING THEIR WAY TO DEFENDERS

(Times Leased Wire.) Teheran, Persia, July 14.—(11:30 a. m.) Cannonading to-day resulted in the heaviest losses in both Royalist and Nationalist armies that have been suffered since the rebels stormed the city early yesterday morning. Hundreds of soldiers were killed and the fighting is still in progress. It is impossible to estimate the losses in either army since the fighting began because of the wide area over which the battle has raged.

The rebels, who are determined to overthrow the Shah, and re-establish the constitution, are making a hard fight to reach the palace and early this morning stormed the barricades which are the last hope of the Royalists.

Capture Entrenchments. Three attacks were made upon the entrenchments surrounding Central Square during the night. Twice were the rebels repulsed, but at last succeeded in overpowering the defenders and gaining a foothold in the garden of the home of Colonel Likhoff, commander of the loyal Persian Cossacks. This garden adjoins the barricade and is a position of great advantage to the attacking forces.

The Cossacks are now shelling the position of the rebels in the hope of dislodging them.

When the rebels succeeded in reaching the central square the Shah hastily summoned reinforcements from Kasvin and they are now trying to fight their way through the ranks of the Nationalists to relieve Col. Likhoff's sorely beset men. The colonel's wife refused to leave her home when warned that it might be captured by the rebels and now her escape is cut off.

Shelling Nationalists. It is doubtful whether Likhoff's men can check the advance of the Nationalists until the reinforcements from Kasvin can fight their way to them, although these troops are shelling the parliament buildings in the Baharistan quarter in an attempt to dislodge the rebels and reach the centre of the city.

The engagement at Central Square was precipitated by the Bakhtiari tribesmen, the best fighters in Persia, who

are leading the rebel army. Thinking the defenders were unprepared for a night attack, the tribesmen rushed the entrenchments and a fierce fight followed. The rebels were repulsed but soon regained their attack, bringing cannon from the gates of the city to aid them in storming the Royalist position. They were again repulsed, but a third attack was successful, and they swept into the Likhoff garden.

Guarding Foreigners. Despite the heavy fighting and bloody scenes throughout the city, the leaders of the Nationalist army have sent assurances to the foreign legations that they are in no danger. Heavy guards have been thrown about the legations and the best protection afforded all foreign residents.

The occupation of the city and the threatened overthrow of the Shah is the result of the withdrawal of the constitution granted by the ruler when he ascended to the throne. This constitution, granted January 1, 1907, was never allowed to operate to its fullest intent by the Shah, but when he withdrew it entirely the people arose in rebellion. For months they have been assembling their armies and marching slowly towards the capital. Yesterday morning they occupied the city, and are now fighting their way to the palace in an attempt to take control of the government. The condition is similar to that recently in Turkey which resulted in the overthrow of Sultan Abdul Hamid and the ascension of his brother, Mehmed V., the present Sultan.

Demand Explanations. Teheran, Persia, July 14.—(Later.)—Foreign residents here are in danger to-night, despite the assurances of protection given them by the leaders of the rebellious Nationalists, who have invested the city.

The rebels are incensed because the Russian flag was flown above the barricade around the Shah's palace, and have demanded explanations from the British and Russian legations. The Russians have been asked why the flag was flown from the barricade, and the English why they permitted it to be flown.

Charging that their followers were killed by Loyalists sheltered behind the Russian flag, the rebel leaders declared this afternoon that they believed the foreign legations were trying to cause international complications which would prove beneficial to the Shah.

SPEND DAY AND NIGHT IN OPEN BOAT

Three Men Found in Exhausted Condition When Craft Is Washed Ashore.

(Times Leased Wire.) San Francisco, Cal., July 14.—After drifting on the open sea in a small boat, without oars or sails, for a day and a night, Captain R. H. Lawton, of this city; G. Preston and J. Conwell, of Santa Cruz, were found early to-day on the beach at Granada, on Half Moon Bay, where their battered craft has been washed by the tides.

The men put off from the steam yacht J. C. Elliott when she encountered a stiff flurry of wind early Tuesday morning. Their oars were washed away, and throughout the day they drifted in the choppy sea.

Late yesterday they were sighted off Martin's Beach, six miles south of Half Moon Bay, and apparently drifting seaward. Capt. Clark, of the United States life-saving service, immediately started for the San Mateo county coast to attempt their rescue. The tides changed the course of the unmanageable boat, and it was swept on the sands at Granada about daylight to-day.

Totally exhausted by their fearful struggle and exposure, the men were unable to find help. They were discovered and brought to this city, about noon to-day.

The J. C. Elliott was washed ashore near the spot where the three yachtsmen landed. She was badly battered by the waves.

JURY DISAGREES. Winnipeg, July 14.—The jury disagreed in the libel suit brought by W. H. Adcock against the Winnipeg Free Press relative to Adcock's connection with the meeting at the Walker theatre addressed by Hon. Clifford Sifton just before the last Dominion election, the Free Press stating that Adcock had some connection with the efforts made to prevent Mr. Sifton speaking.

NEARING END OF TRAMP. Weston Will Arrive in San Francisco To-morrow Morning.

Bentley, Cal., July 14.—Edward Payson Weston, the aged pedestrian who is walking from New York to San Francisco, left Bentley at 10 o'clock this morning. He will arrive at Oakland at 5 o'clock this evening and remain there over night. Early to-morrow morning he will cross the bay and proceed to the San Francisco post office, where he will deliver a letter entrusted to him by the postmaster at New York. Weston is making the last leg of his long journey by easy stages as the heat has had a telling effect upon him and he is afraid to make the much haste.

Thousands Now at Missoula Awaiting Opening of Flat-head Reservation.

(Times Leased Wire.) Missoula, Mont., July 14.—At least 5,000 strangers are lodged in the hotels and rooming houses of this city to-day in anticipation of the opening to filling of the Flathead Indian reservation lands to-morrow. It is expected that at least 50,000 persons will register for the lands, which comprise 750,000 acres all told.

After the registration the drawing will be conducted by a committee named by the government, and Miss Christie Donlan, 12-year-old daughter of Senator Donlan, has been officially chosen to draw the allotments.

Every train brings hundreds of persons, and already tents are being pitched on vacant lots, and by Thursday the places will resemble an army encampment. Temporary buildings are being erected to be used as sleeping quarters for the transients.

AUTO ACCIDENTS.

Spokane, Wash., July 14.—An automobile, driven by F. E. Tate, this morning plunged down a rocky embankment at the end of a bridge. The machine turned over and collided with a stump 20 feet below. Tate, R. Ray, Mrs. D. Marcell and Minnie Cook, the occupants, were hurled down the canyon. Both of Mrs. Marcell's legs were broken and she sustained internal injuries. One of Tate's fingers was

broken. The other two persons were internally injured. F. W. Stark and O. B. Brees were approaching on a motorcycle when they saw the car slide down the embankment. They summoned an ambulance and helped the victims into it. They were leaving the scene on the motor cycle when they collided with another automobile. When Stark was picked up it was discovered that both of his legs had been broken. His condition is serious.

SUNDAY BY-LAW IS NOT YET TESTED

Application Was Not Proceeded With To-Day, but Postponed a Week.

The hearing of the application arising out of the Sunday closing by-law passed by the city was not gone on with to-day. The application is made by Frank Higgins, who represents Antonio Vasiliatos and others who demand a license in the usual form in force before the new by-law was passed. A mandamus is asked for to compel the city collector to issue such a license. At the request of the city council the application was laid over to-day. It is said that several licenses have been issued under the old by-law, having been granted some time before the new by-law came into effect. Under these circumstances the situation is a peculiar one as some will have the privilege of selling on Sunday and others will be restrained from it.

KILLED BY TRAIN.

(Special to the Times.)
 Grenfell, Sask., July 14.—Struck by a Canadian Pacific westbound freight and hurled with considerable force against the platform, yesterday evening, Mrs. Nelbergall, 70 years of age, died this morning from her injuries.

GIRL DISAPPEARS.

(Special to the Times.)
 Estevan, Sask., July 14.—Sergeant Fyffe left Grenfell this morning to investigate the disappearance of Mary Bruce, a girl aged 20, who disappeared on Friday, last, after leaving home to get the cows. Foul play is suspected.

OIL TANKS BLAZING.

Los Angeles, Cal., July 14.—Thousands of dollars' worth of oil stored in tanks in the northwestern part of Los Angeles caught fire this afternoon, threatening a new and extensive residence district with destruction. The oil was ignited by sparks from a grass fire, and before the fire department reached the scene several tanks in the block bounded by Third, Fourth, Virgil and Commonwealth streets were ablaze. Within half an hour after the flames started that section of the city was covered with a heavy pall of black smoke that interfered with the work of the firemen.

BAR SUNDAY FUNERALS.

Denver, Col., July 14.—Hereafter no Sunday funerals will be held in Denver unless orders are issued by the board of health. This was decided to-day when an agreement was signed by 43 ministers, 21 undertaking firms and the two principal cemeteries of the city.

KILLED BY LIGHTNING.

Denver, Colo., July 14.—Roy Light, aged 18 years, was killed by lightning last night and his three sisters are in a precarious condition to-day. The four children of Fred Light, who led the ruffians' fight against Clifford Finchot, national forester, were in the basement of their home, 30 miles north of Aspen, Colo., when the house was struck by lightning. The boy was instantly killed. The girls will probably recover.

Norwegian Barque Strikes on Middleton Reef When on Voyage to England.

(Times Leased Wire.)
 London, July 14.—The Norwegian barque Erroll is a total wreck on the Middleton reef in the Pacific ocean, and her captain, his wife and children and fifteen members of her crew have been drowned, according to a report issued to-day by Lloyd's agency. The Erroll was bound for England from South American ports. She carried a crew of 29 men.

BUELOW STEPS FROM OFFICE

(Continued from page 1.)
 appeared in the chamber and von Buelow handed him an official report of the situation throughout the Empire, together with his written resignation. Then the chancellor explained that having pledged himself to fulfill certain reforms he felt unable to retain his office after the Reichstag had rejected the main features of his scheme. Emperor William accepted the resignation and both stood silent. Then Chancellor von Buelow exclaimed: "It has been said, your majesty, that I acted contrary to Prussian traditions of devotion to the Emperor and that I deserted you and my country during the crisis of last November. It has even been said that I helped to excite public opinion against your majesty at that time. "All of these charges are false. I have been unwavering in my loyalty to your majesty throughout." Both Kaiser and the chancellor were much affected. Finally the Emperor assured von Buelow that they would always be friends. The Emperor then asked von Buelow's advice as to the appointment of his successor and the chancellor recommended Hollweg. Von Buelow then kissed the Emperor's hand and departed. Hollweg was escorted into the presence of the Emperor, von Buelow leaving by another door, so they did not meet. The Emperor took the new chancellor into the garden, and the crowd which had gathered across the river could see them pacing up and down the paths as they conferred. Von Buelow stated this afternoon that he would give his further years between Italy and his wife's home in Germany. He said that he would live as a country gentleman on his estate. Foreign ambassadors in Germany may the result of von Buelow's withdrawal from official life is that the Kaiser is now virtually his own foreign minister, and that he is practically assuming the entire responsibility of all foreign affairs. Herr Delbrueck, Prussian minister of commerce, was named to-day to succeed Hollweg as secretary of state. Herr Wermuth becomes minister of finance, Herr von Trett, governor of the province of Brandenburg, becomes Prussian minister of education and Herr Rheinhold Sydow becomes Prussian minister of commerce.

THAW WILL BE CALLED TO WITNESS STAND

Attorney Declares He Will Not Testify Regarding Alleged Threats.
 (Times Leased Wire.)
 White Plains, N. Y., July 14.—Evelyn Thaw will resume the witness stand late to-day in her husband's insanity hearing and Harry will be called as a witness in his own behalf next Monday. Attorney O'Reilly, the lawyer who accompanied Evelyn Thaw on her first visit to her husband at Matteawan, was served with a subpoena to-day by the prosecution. Several witnesses testified that they believed Thaw to be rational. When O'Reilly arrived later in the afternoon he said if he was asked about Thaw's alleged threat against his wife's life, he would plead that he was Thaw's counsel. This afternoon Attorney Clark submitted a brief in an effort to get on record Thaw's threat against his wife. The efforts of the prosecution will be directed toward this point until it is fully disposed of.

THE GINGLES CASE.

Chicago, July 14.—Testimony regarding the moral character of Ella Gingles was introduced to-day at her trial on a charge of stealing lace. Miss Barrette, the Gingles girl's employer, who is the complaining witness in the present case, was weeping this afternoon when she went on the witness stand. She declared every word of the story told by Ella Gingles about being attacked was untrue. —Thos. Whitwell will leave next Friday night on the Princess May for the Skeena River hatchery.

MAPLEINE

A flavoring used the same as lemon or vanilla. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a syrup better than maple. Mapleine is sold by grocers. If not sold for 2 oz. bottle and recipe book. Crescent Mfg. Co., Seattle, Wa.

TEACHERS HEARTILY WELCOMED TO THE CITY

Minister of Education and Mayor Speak for Citizens
 --Dr. Young Announces Commission on University and Teachers' Pensions.

Addresses of welcome and replies from teachers from many parts of the country were the feature at the opening meeting of the Dominion Educational Association yesterday afternoon in the Assembly hall, Fort street.

No one who knew the old rink building would recognize it in the beautiful hall in which the teachers are meeting. The walls have been hung with bunting, white and a most restful shade of green. About the platforms and tables are plants and vases full of the lovely flowers for which the city is famous. Down the sides of the hall and at the back is placed the exhibit of the work of the children to which reference was made in the Times on Monday.

The principal speech in welcoming the delegates was made by the provincial minister of education, Hon. Dr. Young. There were two announcements in his speech which were of great interest, not only to the teaching profession, but to the people of the province generally. The first of these was an official statement—the earliest—of the government's intention to appoint a commission of eastern educationists to select a site for the provincial university. It has been generally understood since the suggestion was made to the government by the deputation of Victoria citizens which waited upon the executive some time ago, that this step would be taken. The other announcement is a definite promise of something that the minister threw out as a possibility last session, that in the proposed superannuation scheme provision will be made for teachers.

Dr. Alexander Robinson, superintendent of education, president of the association, took the chair a few minutes after two o'clock. On his right was Hon. Dr. Young and on his left Mayor Hall. The proceedings opened with prayer by T. A. Brough, of Vancouver High school.

President Robinson introduced Hon. Dr. Young as one who had the best interests of education at heart and who had not spared himself to make the convention a success as far as he could help. The minister of education was received with cheers and said:

Mr. President and Ladies and Gentlemen: I am sure, Sir, that it affords me a great deal of pleasure on behalf of the government of this province and the education department to welcome you to the capital city of the province. We feel that in your presence here our department is receiving a distinct encouragement. We feel that as a result of your meeting we will, at it were, prosper and reap much benefit from the ideas which will be given us from the able papers on the programme. I wish to express for Premier McIlwain his regret at not being able to be with you, but he hopes to meet you to-night. The province as a whole is desirous of meeting such representative bodies as we have the fortune of having among us at present. This week we have the International Council of Women and the Dominion Educational Association, and in September we will have with us the British Association for the Advancement of Science. It is our good fortune that we are able to attract such important and representative bodies.

While no doubt in the west there is a tendency towards materialism, and while, perhaps, the accusation is well-founded that it is so because of the remarkable development of our natural resources, yet we feel that underlying that materialism we can point with a great deal of pride to the educational system in British Columbia, and to the record which our pupils have made in comparison with the other provinces. If you look at the matriculation results you will find that in British Columbia we have attained an end of which we are very proud. We intend to develop further along these lines, and while the very large percentage of our young people leaving here for the east is a credit to us, yet we believe we would have a remarkably large number avail themselves of the opportunities for a higher education had the facilities at home. To provide those facilities the government propose to have a provincial university. Two years ago I had the honor of putting through a bill for the setting aside of two million acres of land as an endowment for the institution, last year I succeeded in passing the charter for the university, and next year I propose

to introduce a bill enabling the government to appoint a commission of leading educationists from the east to select a site for the university.

The question of a site is a burning one on account of local jealousies which have arisen, and unfortunately too much attention has been and is being paid to the local benefit to be derived from the presence of this institution, and not enough attention to what is suitable for the university itself. In order to overcome this and to secure for us in this important juncture the benefit of the experience of ripe men, we have decided to ask this commission to come out and tell us which is the best site.

We hope to develop the university along modern tendencies and that is with the idea of exploiting the more practical faculties, in order to keep pace with the natural resources in the province. We trust to be able to accomplish this in the very near future, and I feel sure that the material for the teaching body for the university in the province will be both ample and well-equipped.

One difficulty that our teaching body in this western country has had to contend with is that we are probably too prosperous and it is not easy to get young people to take up the work of teaching as a life profession. Our teachers are constantly leaving us, but it is the intention of the government to bring about such increase in salaries as will act as an inducement to them to continue in their work. Further than that, I had the pleasure last year of putting through the legislature a civil service act. Next year it is the intention to round this out by the introduction of a superannuation bill, upon the details of which I have been working with an actuary, and we intend to evolve a scheme whereby the teachers will participate in the advantages of that as well as the other branches of the public service.

I wish again, in the name of the government, to express our most cordial welcome to the association. I trust your deliberations will be of great benefit to us and I feel quite confident they will be. (Cheers.)

Mayor Hall in welcoming them said: Mr. President, Officers and Members of the Dominion Educational Association.

Ladies and Gentlemen: Assembled as you are, for the first time, in this city, in the seventh annual convention of your association, on behalf of the citizens of Victoria, I have the honor, as well as the very great pleasure of extending to the convention as a whole, and to each individual member thereof, a cordial welcome to this city.

You have come, many of you, a long way, and I doubt not, in some instances, at personal sacrifice, to attend this convention.

Some of you have come from the older provinces of this Dominion, where the waves of the Atlantic beat on the shores of Quebec, or New Brunswick, from the land of Evangeline, and of the U. E. Loyalists, from the territory redolent with the memories of Champlain, the explorer, statesman and missionary, whose great work in the early history of the eastern States and Canada has been recently commemorated by leading representatives of England, Canada, France and the United States.

Some of you hail from the splendid province of Ontario, where the foundations of the superstructure of our free public school system which you represent, were so well and truly laid.

Others come from the great provinces of Manitoba, Saskatchewan and Alberta, the present source of supply and the future granary of the Empire's daily bread, and others from the Interior of this vast province of British Columbia, which is only now beginning to feel the impulse of a new life and vigor, from the increasing tide of immigration and capital which are commencing to flow into this country of great resources and golden opportunities.

Some of our visitors, I am glad to note, come from the "Glory" land to the south of us, whose country like ours is broad and open and holds within its territory the strenuous activities and cosmopolitan races of all lands, representing with ourselves and the great Empire of which we form a part, those institutions, those forms of responsible government, and that enlightening progress which are the distinguishing features of the most advanced civilization the world has ever seen.

To our brothers and sisters from the other side I would offer a special greeting and welcome at this time. To them we say "Hall Columbia," not in a colloquial sense, but with a warmth and sincerity which cannot be questioned. To you who are met to deliberate upon, and to discuss questions relating to the education of the young minds of the country, it will no doubt be interesting to compare notes with those whose training and experience in the public school systems of the United States, qualify them to speak with authority and with weight upon the subjects of their special work or investigation.

When I look into your faces to-day I cannot but be impressed with the paramount importance of the work to which you have devoted your powers, and I speak no word of flattery or specious adulation when I say (though I have not the pleasure of knowing all of you personally, but judging from the experience I have had as chairman or member of the board of school trustees in Victoria for eight years and general knowledge of the members of the teaching profession), that I doubt if so great a work could be committed to abler or better hands, or to those who are better fitted to discharge the responsibility.

to introduce a bill enabling the government to appoint a commission of leading educationists from the east to select a site for the university.

The question of a site is a burning one on account of local jealousies which have arisen, and unfortunately too much attention has been and is being paid to the local benefit to be derived from the presence of this institution, and not enough attention to what is suitable for the university itself. SAYS CLERGY MUST BE ACTIVE IN POLITICS

"Be Men First and Ministers Second," Bishop Bell's Advice.

Yosemite, Cal., July 14.—Discussing Francis J. Heney and his work, Chester H. Rowell, an editor of Fresno, yesterday delivered an address before the Yosemite Valley Chautauqua on "Citizenship of To-Day."

Bishop Wm. M. Bell, of Los Angeles, Monday night delivered a sensational address in which he declared that if the wealth now centered in individuals was not soon distributed, a revolution would be necessary. He also announced his belief that Theodore Roosevelt would have to be recalled to the White House if "Taft fails to make good."

The bishop declared that Taft faced a corporation-dominated congress, inimical to the people, as has been revealed by the tariff question.

"If Taft fails to make good," he declared, "it may be necessary to call again to the White House our dearly beloved Theodore."

Pleading for a clean and fearless press, the bishop announced that hereafter the clergy must be active in politics.

"Be men first and ministers second," he admonished his brethren.

WOMAN'S VIEWS ON IMMIGRATION

Says Stricter Supervision is Necessary in United States.

Seattle, Wash., July 14.—"The exclusion of the Japanese and the Chinese from the United States will do but little toward improving the labor situation of the Pacific coast," said Mrs. May Wright Sewall, of Indianapolis, honorary president of the National Council of Women and chairman of the International Peace and Arbitration Committee, in discussion of the work before the national council.

"Stricter supervision under immigration laws is what we need, and what the government must give us, but never exclusion of any nation or people."

"I believe we have the right to demand the exclusion of the pauper, the criminal, the illiterate or the diseased of any nation. But we should never have the right to discriminate against any nation as a whole."

Mrs. Sewall is one of the best known authorities on affairs of women in this country, and she has held many responsible positions in the different national organizations dealing with the betterment of the human family.

"I have made a study of the labor situation in this country, and it is my belief that the labor unions are wrong in their attitude toward capital. Strikes and walkouts are wrong. Force will never win for them in the end. Their greatest strength should be arbitration."

WELL MERITED PUNISHMENT.

Vancouver, B. C., July 14.—"I will never marry him now after what he has made me do; I despise him." This was the last remark made in a witness box at the police court yesterday by Agnes Aloha Hale, a 19-year-old Seattle girl, who had testified that she had come here to meet Alvin Merrill, to whom she was engaged to be married. He was not doing anything here and induced her to go out and live a dishonest life in order to supply him with money. As it could not be clearly shown that he had actually got money from her the case against Merrill was withdrawn, and he was given till 4 o'clock this afternoon to get out of town. She pleaded guilt Monday on her own behalf to a charge of street walking, Merrill's companion, Walter Pike, a Seattle bartender, and a bird of the game feather, was sentenced to six months' imprisonment, and was told by the magistrate that he was one of the most despicable creatures on the face of the earth. The case of Mrs. Pike and of the Hale girl have not been disposed of.

When You Feel Played Out

There comes a time when your grip on things weakens. Your nerves are unstrung, the vital forces low, the stomach is weak and the blood impoverished. You feel old age creeping over you. Be careful of yourself. Take

BEECHAM'S PILLS

at once; there is need to renew the life forces. Weak nerves, wearied brains, sick stomach, feeble blood, torpid liver, sluggish bowels—all feel the quickening effects of Beecham's Pills. Their use makes all the difference. The tonic action of these pills upon the vital organs is immediate, thorough and lasting. They are Nature's own remedy

A WAR CLOUD.

It is now the turn of Greece, and Turkey to square up to each other. Those states which are maintained chiefly for the convenience of the great powers of Europe are perennial sources of trouble and irritation. The Turks would probably have been driven back, figuratively speaking, to their original home in Asia long ago but for the jealousies and ambitions of their neighbors to the north and northwest. They are in possession of a very attractive and productive country and a most important strategic position. Russia has for many years cherished the ambition to extend her boundaries down to the tranquil waters of the Aegean Sea. Upon one memorable occasion, bitter to the recollection of the Slav, the armies of the Czar were camped within cannon shot of the goal—and were compelled to turn sullenly back on the order of Great Britain, an order enforced at the mouths of frowning guns on forbidding battlements. Never since has Adam-Zad so nearly had the desired morsel in his grip. But he has been instrumental in the creation of a string of feeble "powers" which are, or were, virtually his vassals, and which might have been useful to him at some future day but for the overpowering calamity of that recent disastrous af-

fair with Japan. Turkey in Europe is but a skeleton of what she once was with Bosnia, Servia, Roumania, Bulgaria, etc., carved out of her geographical physique. These states were doubtless intended to be stepping stones on the way of Russia's cherished ambitions. But to-day the northern power is helpless whatever may come to pass, and Austria-Hungary and Germany are ready and eager to profit from her impotence. There is little doubt that if the Greeks are determined to make war against Turkey, they are not entering the campaign of their own volition or upon their own account. Whatever the administrative limitations of the Mussulman may be, he is how, as of old, a warrior. He is courageous to the point of fanaticism, and the Greek would have just as feeble a chance against him as was the case in the last war between the two nations. If there is going to be a fight down there, it will come because of the will of a powerful outside counsellor who believes the times and the seasons are opportune.

A BRITISH WOMAN ON IMPERIAL TRADE.

"An Obscure Woman," a resident of Great Britain, asks to be forgiven for writing to the Times upon a subject which appears to bear heavily upon her soul. The burden of this lady's tale is that the trade of the Empire is not flowing freely in Imperial channels. The writer has evidently been reading reports of the proceedings of the late Imperial Press Conference and, inspired by what she has read, is moved to do something towards directing business from foreign to British trade arteries.

As an example of what this "Obscure Woman" considers one of the evils of the times, she encloses columns upon columns of clippings from British newspapers showing, or purporting to show, the tendency of British shoppers to buy goods which are not produced within the Empire. As a concrete instance of this anti-Imperial inclination attention is drawn to the conduct of Mrs. Asquith in not only procuring her gowns from Paris but turning the official residence of her husband, the Prime Minister, practically into a show room for the exhibition of the wares of a Parisian man dressmaker. "I don't know whether your paper has a woman's page," the lady continues, "but if so, perhaps once a year on Empire Day an Empire menu could be published and reproduced in our leading daily and weekly papers, so that the bulk of our people on either side should be reminded of what each province produces. It would gradually lead to an increased demand for such produce. We are using wines from the colonies instead of from France; but we use French haricots or American butter beans in large quantities. Yet one would think that the Empire might supply them." We should think so indeed, although the descent from Parisian gowns to butter beans brings us up with a sudden jar.

However, it is interesting, and may be profitable, to note that the women of Great Britain are beginning to take a practical interest in such apparently commonplace questions as Imperial trade. The letter of our correspondent proves that the proceedings of the press conference have been stimulating and are likely to bear fruit. Canadians produce many of the necessities and luxuries of life which cannot be brought forth in quantities in Great Britain, and which might be obtained just as advantageously from this country as from the United States. It is doubtless true that the British consumer buys without discrimination, chiefly because he has not been taught to distinguish between goods imported from the United States and other foreign countries and the products of his own people beyond the seas. He is well advised when he buys in the cheapest market. In that respect he does as we all do, and will always insist upon doing. But, prices and quality being equal, he ought to give British products, wherever grown or manufactured, the preference. And this he will do once he becomes thoroughly informed upon the facts, geographical, political and economical.

In the meantime may we call our correspondent's attention to the fact that Canadians have led the way in this preferential trade movement—the movement which has inspired British Imperialists into their present state of activity? We commenced with a preference in our markets to British goods, and followed it up with Imperial penny postage. The action of the Dominion government in respect to these two reforms has had very far-reaching results. The first has had an important influence not only upon the trade relations of Great Britain with Canada, and sister states under the flag, but upon the fiscal policies of most of the leading powers, notably upon the policies of the United States and Germany. From these two powerful sources we have been the recipient of or threatened with reprisals. But the position of Canada has proved unassailable. There is no disposition to turn back. We are waiting the next move. And it is not our turn.

As an example of the tribulations of the educationists, formerly school teachers, the following remark was passed in convention: "You can drag Young Canada up to the fountain of knowledge, but you can't always make him drink." Verily the way of the pedagogue is hard.

FLAG INCIDENTS.

The celebration of the fourth of July in the United States and Canada has produced the usual number of "flag incidents." Such matters are ordinarily unworthy of serious attention, for the reason that the parties who participate in them are generally ignorant, boorish or drunken persons, who have no conception of either individual or national decorum, nor to speak of individual or national dignity. There were "flag incidents" of course in the United States on the fourth of July. There are always such incidents, and there always will be until the great American nation arrives at years of discretion. But this year, it appears, there was an incident in Toronto which caused a great deal of indignation in Canada, although Canadians are not easily ruffled in such matters, having an intimate knowledge of the ways and the manners of some of their neighbors and realizing that flaunting and waving the colors upon every occasion has not a tendency to add to the prestige of the old flag. The following passage copied from the Toronto Star indicates the nature of the "flag incident" in the Ontario capital: "If the police of Toronto think they cannot interfere when the Stars and Stripes are flaunted from an automobile and the British flag trailed in the dirt behind, it is time that the instructions to the police were altered. Anyone who committed such an outrage upon the Stars and Stripes in the United States would be fortunate if he escaped with his life. If the police will not interfere, citizens will take the law into their own hands, and no blame to them."

The editorial comment of our Toronto contemporary upon this unpleasant matter is so dignified, courteous and effective, and yet so restrained the circumstances considered, that it is worthy of reproduction in every newspaper in Canada. Read the rebuke and note how very applicable it is to events which are continuously occurring in all parts of Canada:

"The Canadians continue to have trouble in keeping the United States flag out of sight in their country. The carrying of it in circus parades is now sternly forbidden," says the Springfield Republican. "It is scarcely correct to say that its use in circus parades is sternly forbidden. It is forbidden, but not sternly. Perhaps it would not be a waste of time to explain the situation to so intelligent a listener as the Springfield Republican. "To be quite frank, some trouble is experienced in this country in keeping that flag in its place. It is not the flag's fault, of course, but that of the fellow who totes it along with him when he comes over here. He does not need to bring it with him; he is, in fact, unwell when he does so, and he shows himself untraveled and unfamiliar with international courtesy when he crosses into another country flaunting his own flag, where it means nothing, and has no right to be. The kind of person who brings his flag here with him, and flaunts it everywhere, is probably the very man who organizes a mob to tear down our flag should anybody display it in his home town. He expects us to show a toleration for his flag which he will not show ours. That is a boorish attitude of mind."

"On the whole, however, there is in all parts of Canada a remarkably easy toleration of the United States flag, until some insufferable individual bumps up at a summer resort or elsewhere and deliberately seeks to so use his flag as to affront the country in which he is a guest. It is only when a man of this stamp, in a triumph of bad manners, makes of his flag an offence that resentment is shown."

"In this city a circus cannot parade without carrying a flag and a license. The flag indicates the municipality in which the parade takes place. There would be no sense in carrying a foreign flag through the streets. To do so would, anywhere in the world, be deemed an incivility. Yet so poorly instructed in such matters are the bulk of 'amusement providers' who come to us from across the border that they seem to be quite unaware of it. In Springfield a circus does not have to be forbidden to parade under the folds of a foreign flag—the jealous and swift resentment of the crowds in the streets would be provoked. Why are we more tolerant here? There are several reasons. One is that in our schools and in our patriotic addresses we have not, as a people, been taught to watch their flag as they have been taught to watch ours, with a special resentment, because of an ancient antagonism. Another reason is that for two or three generations we have been provided with theatrical and other amusements from across the border—plays that were written and staged for our neighbors, and the Toronto theatres either had to take these attractions as they were, or not take them at all. The people, desiring to be amused, and not being able to support a drama of their own, took what they could get. In many of these productions the United States flag necessarily appeared; in others it appeared merely because it was more convenient to use it here, as in Buffalo, rather than hunt up one of ours. People go to the theatre to be amused, not to get into squabbles, and the result has been that we have had that flag waved at us a great deal, often unnecessarily, and at times even impudently."

"As a rule the people do not worry about it, unless the thing is done with an excess of bad manners, but at times it becomes necessary to see that our politeness is not misunderstood nor our hospitality abused. It has been abused rather too often."

Hon. Dr. Young had something to say yesterday which ought to act like balm upon the soul of the troubled school teacher. He said it was the intention of the government to provide for increases in the salaries of the members of the profession in the province, which he hoped would have the

effect of inducing them to make teaching their permanent business and that teachers would also be brought within the provisions of the government's superannuation scheme.

Just to prove that all this continent is akin, "what delightful September weather we've been having this July," murmurs the editor of the Boston Transcript.

SUFFRAGETTES BREAK WINDOWS IN CELLS

Magistrate Threatens to Give Them Long Terms in Jail.

(Times Leased Wire.) London, July 14.—Seventeen suffragettes, jailed for participation in the recent riots at the House of Commons, to-day went on a rampage and smashed every pane of window glass in their prison. They were finally quieted when the magistrates threatened them with long terms in jail unless they behaved themselves in a more orderly manner. So far the wardens have not succeeded in compelling the women to don the regulation prison garb.

MASTER OF STEAMER MINNESOTA DEAD

Captain Roberts Passes Away While Vessel Is in Japanese Waters.

(Times Leased Wire.) Tacoma, Wash., July 14.—Captain E. V. Roberts, master of the steamship Minnesota, died aboard his vessel in Japanese waters early this week, according to a cablegram received by his family here to-day. Captain Roberts, who has been master of several big vessels on the Pacific, was one of the best known navigators on the coast. He intended to retire shortly and was not in good health when he left here recently to become master of the Minnesota. This was his first trip on that vessel. Roberts was about 60 years of age.

LIABLE TO LIFE TERM

Washington Supreme Court Sustains Act Dealing With Habitual Criminals.

Olympia, Wash., July 14.—The Supreme Court this morning sustained the Habitual Criminal Act of 1903, by which a person previously convicted once or twice may be sentenced to prison for life. The decision was in the Walla Walla case of Frank Leprie, convicted of burglary.

SAN FRANCISCO FIGHT

Nelson Declines Return Match—Wolgast May Meet Attell.

San Francisco, Cal., July 14.—Wolgast's great fight against Nelson last night undoubtedly will earn him a match in San Francisco, either this month or in August. Charles Lerari, who has the permit for this month, offered last night's opponents a return match, but Nelson replied that he had to go to New York to attend to a number of business matters.

SUICIDES AT PORTLAND

Portland, Ore., July 14.—Portland seems to have been swept by a suicide mania within the few days. Sunday morning Gottlieb Spillman took poison in the barn where his brother had hanged himself a few months before. Later in the day J. Olson, an employee of the government, hanged himself in front of a fast Northern Pacific train and was horribly mangled.

Monday night H. L. English, a bookkeeper at Pendleton, Ore., shot himself in the heart in the Imperial hotel. He said when conscious for a few moments that he had tuberculosis and would die anyway and begged the doctor to let him expire.

Yesterday a well-dressed man, thought from letters in his pockets to be E. P. Turner, of Turner, shot himself four times on the track of the electric line to Vancouver.

The fifth case may possibly be murder. Two boys found a mutilated body back of the city in the hills, but were so frightened they said nothing about it until to-day. Search is being made by the sheriff's forces, but the boys are hazy as to their ideas where they saw the body.

PERSONAL

J. A. Virtue came over on the Princess Victoria from Seattle this afternoon.

Rev. J. P. Westman was a passenger on the Princess Victoria from Seattle this afternoon.

Dr. W. F. Fraser left for Seattle this afternoon to attend the convention of the Washington State Dental Association.

Mrs. G. H. Robertson, 915 St. Charles street, will not be receiving to-morrow, and not again until the third Thursday of September.

Dr. E. W. Sawyer, president of Okanagan College, who has been the guest of Mr. and Mrs. C. W. Bradshaw, left on Tuesday's boat for the mainland.

—CHEAP RATES TO SEATTLE— \$2 round trip by Inroquois. Leaving 8 a. m. July 17th. Returning up to July 19th.

Beautiful Summer Wearing Apparel At Most Modest Prices

Ladies' Two-Piece Suits at \$2.85. Our showing of Ladies' Two-Piece Wash Suits at this price is indeed very comprehensive. They are in all the most favored colors of the season, in all the very latest effects. Mannish styles that are so popular are to be found here in endless array at prices ranging from \$2.85

Ladies' Linen Wash Suits at \$8.10. Beautiful styles, coupled with splendid wearing material, are the prominent features of these much desired wearables. They are made of fine linen, beautifully trimmed with lace, in semi-fitting, mannish, cutaway styles, in colors of blue, helio, etc. Prices are \$8.10 per suit

Beautiful New Muslin Dresses. The styles and fabrics in Ladies' Muslin Dresses reflect great credit on the style artists' ability. Hardly do we remember having a more stylish array of light summer wearing apparel. These are made of the very finest mulls and muslins, in a large number of exceeding pretty styles. These are in colors of light blue, pink, helio, at prices ranging all the way from \$17.85 down to \$6.45

Blouses at 35c. Just think of it! Getting a decidedly well-made and finished blouse at 35c. If you were to purchase the material and make one yourself you would find it would cost you considerably more than what we are asking for them. Just come in and see them.

Blouses at 65c. Another lot which you can economize on is the assortment shown at this price. They are made of full muslins in the season's most fascinating styles. Some are plain, while others are beautifully trimmed with insertion. It is real economy to purchase one.

INQUIRING INTO WRECK OF YOSEMITE Two Witnesses Give Evidence at the Investigation at Seattle.

(Times Leased Wire.) Seattle, Wash., July 14.—The investigation into the cause of the disaster which overtook the steamer Yosemite off Port Washington Bay on Friday, was begun to-day in the offices of the steamboat inspectors. Marine Inspectors Whitney and Turner took the evidence.

The first witness called was the chief cook, a Japanese, whose testimony went to show that one of the quartermasters, who claimed to be in the pilot house at the time of the vessel's striking, was in fact in the salley.

The next witness was Wm. Rosary, a steward, who stated that so far as he knew Captain Edwards was in the pilot house at the time of the accident. The case will be continued to-morrow afternoon.

With back broken, all that is left of the Yosemite still hangs across the reef. All that was valuable and portable within her has been carried away on scows.

Many a man has continually called for a bottle of beer at his cafe or bar without mentioning any particular brand. Then some day he wakes up to the fact that he has been drinking a green beer, that has not been properly aged and that his liver is out of order. He consults his doctor, who declares "A pure, properly aged beer is really good for you," and adds, "Why don't you drink Lemp's?" He pays the doctor's fee, but gains the knowledge that when properly prepared barley and hops are both a food and a tonic. He finds the way to be sure of a good thing is to order "Lemp's Beer," a pure malt and hop brew that is not charged with carbonic acid gas and is properly aged before being placed on the market. Lemp's Beer has no had after-effects. Try a bottle to-day. Your dealer can supply you for home use.

LAST PRESENTATION OF "ISLE OF SPICE"

Colonial Musical Comedy Company Plays It To-Night—Change of Programme.

The Colonial Musical Comedy Company again played "The Isle of Spice" last night at the Victoria theatre. The attendance was good and the interpretation given by the company was far above the average. In Adele Oswald, who plays Teresa, the company has a splendid singer. Her song, "Peggy O'Grady," with chorus, was recalled time and time again last night.

Nelle V. Nichols, the possessor of a good voice, also delighted the audience with her impersonations of noted stage characters.

The company will present "The Isle of Spice" for the last time to-night. For the balance of the engagement "The Show Girl" will be the offering, and from all reports the lovers of music and of the lighter vein of comedy will find plenty to attract them to the theatre during the run of "The Show Girl." "The Show Girl" is by R. A. Barnett, author of several well known musical pieces. On Saturday afternoon a special matinee will be given, "The Show Girl" being the offering.

The funeral of the late Joseph J. Rogers took place this afternoon at 4 o'clock from the B. C. Funeral Furnishing Company's parlors. The funeral was under the auspices of the Fraternal Order of Elks.

The committee appointed by the council to make arrangements for the securing of a supply of crushed rock for the construction of public works has not yet reached a decision. A number of suitable localities have been mentioned to the city, which have been under consideration, but the site has not yet been decided upon.

The death occurred yesterday at the isolation hospital of Rexford Hurst. Deceased was 5 years of age, the only son of Mr. and Mrs. Robert Hurst, of Blanchard street. His death comes as a severe shock to his parents. The funeral took place this afternoon at 2.30 o'clock from the isolation hospital and proceeded to Ros Bay, where interment took place.

A \$20,000 building is to be erected at the corner of Johnson and Broad streets for Bannerman & Horne. It will be three stories in height and of solid brick. It will be occupied for a floor and food store, the business of the firm being moved from across the street. The two upper floors will be occupied by offices, etc. The building is being erected by T. H. Horne. Building permits have been issued to W. S. Newman for a house on Skinner street to cost \$2,000; to R. E. Blakeway for two houses, one on King's road to cost \$1,700, and one on Chamberlain street to cost \$2,750.

CANDY FOR NERVES AND MUSCLES

The Bristol Weekly Mercury (England), in speaking of candies, says: "If pure and wholesome, they are a valuable restorative, especially for people with large demands upon their muscular and nervous energies." Candies, to be valuable in this way, must be pure, and it is always well to bear in mind the fact that Hoenby's delicious old-fashioned toffee and butter Scotch are guaranteed absolutely pure and wholesome.

FIRE LOSS IN JUNE A TRIFLE

BRIGADE SHOWING GREAT IMPROVEMENT

Drills Having Good Effect—Several New Hydrants to Be Put in.

A fire loss of but \$60 on buildings and not one cent on contents is the satisfactory record of the fire department for the month of June, as gleaned from Chief Davis' monthly report to the fire wardens. This is a strong testimony to the value of the training which the brigade is receiving under the chief and of his ability as a leader and director.

There were thirteen fire alarms during the month, and property on which \$3,000 insurance was carried was affected. At the fires a total of 5,150 feet of hose was laid and 240 gallons of chemicals used. During the month the chief inspected 32 buildings; 64 notices to make buildings conform with the regulations were issued and 71 permits were granted.

Chief Davis states that hotel proprietors show a willingness to comply with the regulations as to fire escapes and those buildings which heretofore have not been properly equipped are now being so. As a result of his recommendations overcrowding in theatres has ceased, and attention is being paid to the better lighting of exits. J. Baxter and A. Engley have been appointed to the force on probation in the place of R. Amorsen and W. Henry, both of whom resigned on July 1st. E. Pederson has been given the position of captain in place of Capt. Stewart, promoted to the position of assistant chief.

The men are rapidly improving in their drills on the ladder, hose and life saving, and in their examinations on the location of fire alarm boxes and fire hydrants throughout the city. He recommends the appropriation of \$144 for the supply of six new uniforms, out of the \$400 appropriation made for painting of apparatus, and also that the men be supplied with peak caps.

The chief also reports on the test of the Waterloo engine, which has been returned. The test was quite satisfactory, particularly considering the fact that the boiler inspector will only allow a pressure of 100 pounds, whereas 150 pounds pressure is generally carried. The engine will immediately be placed in service and the Merryweather engine will be repaired by the putting in of new valves.

Chief Davis recommends that hydrants be placed in the following locations in Victoria West: Andrew street, corner of Robert street; Wilson street, half way between Walker street and the E. & N. railway crossing; Dominion street, north of the E. & N. crossing; Craigflower road, corner of Dominion street; Fullerton street, half way between Langford street and the Silver Spring brewery; and also at the corner of Topaz and Hillside avenues; opposite the Orphans' Home, and corner of Vancouver and Suttie streets.

TO-MORROW'S RACE ENTRIES.

The entries for to-morrow's races at the Willows are as follows:

1st race—The accident purse; 5 furlongs; selling; 2 year olds:

(4602) Miss Picnic 105

AFTER THREE YEARS

No Automobiles have had such a trying out as the familiar RED HUMBERS

For three hard seasons in all weathers, with all sorts of drivers, they have been running, and NOW are still conceded the leaders of all the cars in town. Brought up to date, these same cars won the blue ribbon of the English and Continental motor world at the Irish reliability trials a few weeks ago, beating all competitors (including the Cadillac) by a handsome margin. We are the sole agents and can deliver in ten days a special Colonial Model designed expressly for Vancouver Island. The price is extremely moderate.

 Providence 3, Jersey City 1.

WESTERN CANADA.
 Calgary 3, Edmonton 2; 13 innings.
 Lethbridge 7, Medicine Hat 2; first game. Second game, Lethbridge 3, Medicine Hat 2.
 Winnipeg 3, Brandon 3.

MANY CHANGES IN TACOMA BALL TEAM

Nearly Half of Old Players Released and New Men Engaged.

(Times Leased Wire.)
 Tacoma, July 14.—In an effort to get a ball team that will finish near the top, President Schroeder, of the Tacoma Club, has released almost half of the old players and signed new ones in their places. The announcement of the change was made over a long distance telephone from Portland last night, where Schroeder is with the team.

The men who were released were: Kellackey, catcher; Frank Sues, outfielder; Schaeffer, outfielder; Henning, pitcher; Chastin, pitcher.

The new players are as follows: Fred Annis, pitcher; Johnny Case, third baseman; Dashwood, catcher; Ike Butler, pitcher; Mackin and Irby have joined the Tacoma team within the past few days.

Annis and Case came from the Salt Lake team in the old intermountain league. Annis is a southpaw who pitched forty-five consecutive innings, allowing but one run. Case led the third baseman in hitting and fielding.

Butler, who jumped his Tacoma contract early in the season to play with Santa Cruz in the outlaw league, has patched up his differences and is now on his way north to join the team at Portland. Dashwood, the old Oakland pitcher, is coming with him. Negotiations are also pending with several other players. The players who have been retained will be switched to new positions. Coleman will be taken from third and put on short; while Cartwright will play first base. Hurley going to the outfield. Mackin will play second. The shift strands Bresina, but Schroeder has not yet announced the little shortstop's release.

Holiday Attire

At The Right Prices

A FEW HOT DAYS remind us that to enjoy a holiday on the water or at the beach we must be clothed accordingly.

Our Stock of OUTING GOODS is Large and Must be Sold During This Month.

LOGICAL ECZEMA CURE ENDORSED BY PHYSICIANS

After treating eczema for years as a practical incurable blood disease, the medical world is greatly interested in the discovery that it is not a blood disease at all, but is due to a parasite in the skin itself. This parasite is easily destroyed by the external application of a compound of oil of wintergreen, thymol, glycerine, etc. This will quickly kill all eczema germs, while soothing and refreshing the skin.

Mrs. Henry Harvey, of Black Lake, Que., tells how she was cured after ten years of suffering:

"I had been a sufferer from facial eczema for about ten years. I was treated unavailingly by several doctors and remedies. About two years ago I saw D.D.D. advertised. I at once decided to give it a trial and sent for a sample bottle, which cured me in a couple of weeks, and I have not had it since. D.D.D. has been a god-send to me as well as many others."

No matter how terribly you suffer from eczema, salt rheum, ringworm, etc., you will feel instantly soothed and the itch allayed at once when a few drops of this oil of wintergreen compound is applied. The cures all seem to be permanent.

For free sample bottle write to The D.D.D. Laboratory, Department VT., 23 Jordan St., Toronto.

Next to mining, the greatest industry of South Africa is sugar growing. The amount of money invested in this is \$7,000,000. The production of the present year is estimated at 40,000 tons, with a valuation of about \$8 a ton.

ARMY APPEAL DISMISSED

The court of appeal, London, unanimously dismissed the appeal by ex-Lieut. Henry Charles Woods, formerly of the Grenadier Guards, against an order striking out his statement of claim in an action against the army council for compelling him to resign his commission, on the grounds that it disclosed no reasonable cause of action and was frivolous and vexatious.

This was a "ragging" case, and plaintiff claimed £75,000 general damages and £2,500 special damages.

Lord Justice Vaughan Williams, in giving judgment, said in his view they ought to express no opinion whatever on the important constitutional questions raised during the arguments. No summary order, remarked his lordship, should be made debarbing a plaintiff from having his complaint go to trial unless it was clear on his own statement that he had no cause of action or that his complaint was dishonestly made. Especially was caution necessary before making such an order in a case where a plaintiff complained that he had been deprived of a statutory remedy. In the present case the cause of action was not very clear.

The short facts of the case were that the plaintiff, having for some years held a commission in the army, suddenly found that his superior officers considered him to be unfit for the position he occupied, and became hostile towards him, and matters came to such a pitch that on the advice of his commanding officer he determined to avail himself of the provisions of the army act.

WOLGAST WHIPS BATTLING NELSON

Nearly Every Round in Favor of Milwaukee Man Who Escapes Unmarked.

Los Angeles, Cal., July 14.—Wolgast, of Milwaukee, despite the fact that he weighed five pounds less than Battling Nelson, of Chicago, gave the terrible Dane a thorough whipping in a 10-round bout before the Pacific Athletic Club last night.

After an even first round Wolgast waded in, and had the advantage in six of the remaining rounds. The champion did not have a single round in his favor, seven breaks being the best he could get. Nelson's face was swollen, and blood streamed from his nose and mouth at the close of the fight. Wolgast was unmarked. It was a terrific fight from the start, and it was not until the tenth round that Wolgast succeeded in stopping Nelson's body rushes.

The law does not permit a decision, but Wolgast apparently had Nelson thoroughly whipped at the end of the tenth round.

BASEBALL

CHEMAMUS V. LADYSMITH

Chemamus showed their superiority over the strong Ladysmith team at Chemamus on Sunday by defeating them 9 to 2. Sanderson, the star artist for the visitors, was touched up for 15 hits, while Gabouri could only be found for 7.

Game by innings. R. H. E.
 Chemamus 4 200 2100 9 15 2
 Ladysmith 0 000 0 12 0 3 7 3
 Strike outs—By Sanderson 7, Gabouri 6.

The teams lined up as follows:
 Chemamus—Catcher, George; pitcher, Gabouri; first base, J. Devitt; second base, B. Devitt; third base, Roseboom; short stop, A. Erb; left field, Armstrong; centre field, McLain; right field, Crossan.

Ladysmith—Catcher, S. Kerr; pitcher, Sanderson; first base, Taylor; second base, M. Kerr; third base, Metro; short stop, Simpson; left field, White; centre field, Morrison; right field, Aitken.

Empire, R. Cadwallader.
 A return game will be played in Ladysmith on Sunday, July 18th.

ada. He did not altogether agree with some of the suggestions made. He suggested that the secretary should be well paid, but should confine himself to the duties of that office.

Prof. Lang alluded to the importance of the subject. He thought the time had come for a decisive move by the association.

The speaker said the next meeting of the association in London would be in 1911. The last was in 1907.

Mr. McKenzie, deputy minister of education for Alberta, said he was in full accord with the suggestions which had been made.

Dr. K. McColl, deputy commissioner of education, from Saskatchewan, expressed sympathy with the movement for the broadening of the work of the association.

Superintendent Paul moved that the suggestions be taken up clause by clause. Dr. Scott, superintendent of education, Calgary, moved in amendment that they approve in a general way the suggestions made in the programme for making the association a more influential factor.

The meeting then adjourned. —Lewis & Sonley, wholesale fruit and provision merchants, have moved from their old premises, 54 Yates street, on account of building operations.

NEW DRYDOCK OPENED AT SHANGHAI

Can Be Emptied by Pumps in Three and a Half Hours.

Word has been received by Captain Gaudin, agent of marine and fisheries, of the opening of the new Yangtszepoo dock, at Shanghai, China. A number of new docks have been constructed at different points along the Chinese and Japanese coasts, all of which have a tendency to induce shipping and to benefit the ports at which they are constructed.

The Yangtszepoo dock at Shanghai, is a new dry dock just completed by New Engineering & Shipbuilding Works, Ltd. It is situated on the Shanghai side of the river, 15 minutes by train from the city. Length of blocks, 435 feet; length over all, 469 feet; with entrance, 74 feet; width sill, 64 feet; depth in sill H.W.O.S. tides, 21 feet; depth of water on 3-foot blocks H.W.O.S. tides, 19 feet. Pumps can empty dock in 3 1/2 hours. Work shop at head of dock suitable for all repairs. Forgings of iron and brass castings made up to any size.

TRAVEL LARGER THAN EVER BEFORE

Average of 700 Passengers Per Boat on Princesses.

The travel on local steamers is very large at present. Every boat that arrives or leaves carries large crowds, mostly through passengers going to or from the Seattle fair, but all intent on taking a glimpse at the capital of British Columbia. This is true not only of the C. P. R. steamers, but also of the International Company's fine steamer, the Iroquois.

The Princesses Victoria and Charlotte carry, coming and going, an average list of something like 700. Yesterday, when the Princess Charlotte left, she took 765 passengers. This is the heaviest travel that has ever come this way. Thousands of people who have never before gazed upon the mountains or the picturesque shores of the south end of this island are carrying away with them impressions which will change their point of view for the rest of their lives.

TWO EXCURSIONS.

Queen and Spokane Leave Seattle on Same Day, for Alaska.

To-morrow night two steamers leave Seattle with special excursion parties bound for Alaskan points. The Spokane will call here on her way north, arriving early Friday morning and leaving at 11 a. m. The Queen, on the other hand, will call at Vancouver on her way north and visit Victoria on the return, giving the passengers a few hours in which to see the city before returning to Seattle. Both of the vessels will carry full lists of passengers.

PLEASANT TRIP BY STEAMER IROQUOIS

On Sunday She Will Give Enjoyable Outing for Passengers.

The steamer Iroquois, running from Sidney among the islands of the Gulf of Georgia, is having a good patronage this season.

On the trip among the islands next Sunday the Iroquois will go by Canoe Pass and make a stop of one hour at Mayne Islands and then in the afternoon will return through the picturesque Iroquois channel and Pender Island Canal. This is a very enjoyable trip; the weather is now fine and it is very pleasant on the water among these islands.

PACIFIC LINERS RACE FROM HONOLULU

(Times Leased Wire.)

San Francisco, Cal., July 14.—The Oceanic liner Alameda arrived here yesterday an hour and twenty minutes ahead of the Pacific Mail liner Mongolia, after the vessels had steamed for six days over the 2,000-mile course from Honolulu, never losing sight of each other until Monday morning, when the Alameda pulled ahead.

The race was not prearranged, but was the result of a similarity of schedules. The big vessels sailed from the Hawaiian port on July 7th, within a few minutes of each other. The Mongolia led for three days, never getting more than ten miles ahead, but on the fourth day the Alameda passed the larger vessel, slowly increasing her lead until this port was reached.

Yesterday Tug Boyden fetched a big boom of logs from San Juan and took it across the Straits.

PHOTOGRAPHING PARTY VISITED VICTORIA

California Camera Association Members Left This Morning for City of Puebla.

An interesting and distinguished party of visitors were in the city yesterday, the effect of whose visit from an advertising point of view will rival many other bodies. This was a society known as the California Camera Association, some twenty-five or thirty of whom left this morning on the steamer City of Puebla for their home state. During their stay in this city they visited many of the principal points and took impressions on films and plates which will be sent to all parts of the continent, and the lantern slides of which will be used in exchange in many of the larger cities. All expressed themselves as delighted with their visit and appreciative of the fact that the scenery here was as fine, if not finer, than any they had had the pleasure of photographing anywhere on their travels. Some few of the members were short of films from having used so many at the Seattle fair, but they replenished at local shops and took away a goodly number of impressions.

The City of Puebla sailed this morning about 8 o'clock with 224 passengers, of whom 44 went from this city.

NOTICE TO MARINERS.

Capt. Maurias, of the French barque Meziy, reports that on July 6th, 1909, when in latitude 37 deg. 04 min. N., longitude 126 deg. 30 min. W., he passed a vessel bottom up about 130 feet long and painted brown or black and was very foul.

A. B. HYCKOFF, Lieut. U.S.N.

Steamer Kantaga dropped her pilot here this morning, bound out for Guaymas with coal.

SHIPPING REPORT

Cape Lazo, July 14, 8 a. m.—Clear; calm; bar. 30.06; temp. 62; sea smooth.

Point Grey, July 14, 8 a. m.—Clear; calm; bar. 30.07; temp. 64.

Tatoosh, July 14, 8 a. m.—Cloudy; wind S. W. 12 miles; bar. 30.10; temp. 52; passed in, schooner Mahukina 6.45 p. m.

Pachena, July 14, 8 a. m.—Clear; calm; bar. 30.02; temp. 59; light swell; D. G. S. Quadra left at 7.45 a. m.

Estevan, July 14, 8 a. m.—Cloudy; wind west; bar. 30.11; temp. 56; sea smooth.

Cape Lazo, July 14, 8 a. m.—Clear; wind S. E.; bar. 30.05; temp. 74; sea smooth.

Point Grey, July 14, 8 a. m.—Clear; calm; bar. 29.97; temp. 72; passed out, barque Hawthornbank, towing, at 10.35; out, Empress of Japan at 11.40.

Tatoosh, July 14, noon.—Clear; wind S. W. 6 miles; bar. 30.10; temp. 57; sea moderate—inside, bound out, Snow & Burgess, towing.

Pachena, July 14, noon.—Clear; wind westerly; bar. 30.03; temp. 53; sea smooth; D. G. S. Quadra east bound at 10.15 a. m.

Estevan, July 14, noon.—Clear; light S. E. wind; bar. 30.13; temp. 60; sea smooth.

MARINE NOTES

Steamer Vado is in Vancouver today and will not arrive here until tomorrow morning.

Steamer Empress of India left Vancouver shortly before noon to-day and will call here for some passengers outward bound for the Orient. These are mostly Orientals.

The case of Bryce vs. C.P.R., the appeal which followed the Chelalis accident, has been heard by the law lords of the Privy Council and judgment has been reserved.

A Chinaman who was trying to escape paying the \$500 head tax has been detected in the fraud by Lee Mong Kow. He was trying to use a certificate that was issued to his brother who was dead.

The two Blue Funnel liners Teucer and Antiochus are at the outer dock to-day, one discharging cargo and the other loading for the Orient and United Kingdom. The Antiochus is taking on a quantity of whale products from the West Coast stations.

Steamer Iroquois was late this morning, both arriving from Seattle and leaving. The cause of the delay was that she brought a very heavy freight, consisting of two carloads of oranges, three race horses and a lot of miscellaneous freight. She also had a good complement of passengers.

Chilian barque Royal Sovereign passed in this morning for Vancouver, where she will load lumber at Hastings mill. She was 66 days out from Iquique. Captain Lamont, a Spanish speaking Chilian, asked particularly for the Chilian barque Curzon, which arrived two days ago, but which left Iquique on the same day as the Royal Sovereign. The voyage was a fair one.

DEVELOPMENT OF WOMEN'S WORK

SPEECHES DELIVERED BY NOTED VISITORS

Victoria Charmed Ladies Who Expressed Opinion at Luncheon.

The festivities in connection with the entertainment of the visiting delegates from the Women's International Congress, were brought to a happy close yesterday by the luncheon at the Empress, where covers were laid for 250 guests, and an excellent menu served from tables, carrying out a most effective decorative scheme of yellow and white.

At the close of the luncheon a comprehensive toast list which had been prepared by Mrs. A. T. Watt and Mrs. Fitzgibbon, was admirably carried through. An interesting point was that the quotations used were all taken from Canadian poets.

Mr. Bromley proposed the toast to the King, which was responded to by the singing of the National Anthem.

In rising to propose the toast to Rulers of Foreign States, Hon. Richard McBride first extended to the visiting delegates on behalf of the government of British Columbia a hearty welcome to the province and also to the city of Victoria, and regretted that their stay here was so short. The premier went on to say that he had read the reports of the work done by the International Council at Toronto, with gratification and surprise. He was glad to know that in their trip from the Atlantic to the Pacific the journey of the visitors had not been a disappointment, and he hoped they would leave Victoria with a good impression of Canada as a whole.

As a member of the government, the premier said he was deeply indebted to that useful and commendable body, the Local Council of Women. They were always unselfish, and essentially fair. As a representative of the government he had tried to be fair in return.

In the matter of health, education and moral welfare of the province, the Women's Local Council had always been in the firing line. They had also been instrumental in keeping in check the white plague.

As a Western Canadian, the premier said he was proud of the young country he had the honor to represent. As a country, British Columbia had only really existed since the advent of the C. P. R., twenty years ago.

The much sought after peace of the world was prefigured by the unity and sisterhood which prevailed in the International Council.

In proposing his toast Premier McBride made a fitting reference to the late Queen Victoria, and included the Queen of the Netherlands in his reference to Rulers of Foreign States.

In responding, La Marchesa Bourbon De Monto, of Italy, and Mlle Popelin, of Belgium, broke at times into their native tongues, when English speech failed them to express their appreciation of Canada and Canadian people, and of their love for their native land, many of the habits and customs of which they contrasted with Canadian.

Mrs. Jenkins, in proposing the toast to the president of the International Council of Women, Lady Aberdeen, spoke of the latter's visit to Victoria seven years ago, where the latter at first encountered considerable prejudice, as she addressed a meeting on the aims and objects of the Women's Council. That prejudice had been completely overcome and the Victoria Local Council was the largest, in the Dominion.

In conclusion Mrs. Jenkins said it gave her great pleasure to propose a toast to "a perfect woman, nobly planned," Lady Aberdeen.

Mrs. R. S. Day included the officers of the International Council, introducing her toast in a pleasant way.

Mrs. Willoughby Cummings of Toronto, and Fraulein Dr. Alice Salomon of Germany, responded. Mrs. Cummings, a charming speaker, referred in amusing terms to the inception of the Women's Council at a meeting in New York, out of which in spite of subsequent discouragement, such great things had sprung until out of twenty-three national councils there were eleven represented in Victoria.

Dr. Salomon, who is the corresponding secretary of the International Council, said she had supposed her work lay in writing, not speaking. In trying to express her appreciation of Canada's scenic beauty and more especially of the beauty of British Columbia, Dr. Salomon's strong, clever face lit up, and she, too, at times lapsed into her native tongue. The best part of the international convention was, she said, the getting to know each other. It was a beautiful thing for women of different nations to meet in friendly intercourse, and it must tend towards international peace. Words were poor, thanks were poor. Instead of thanks for the kindness the women of Canada had shown the delegates, she would make a promise that so much-feted an eight-feeling should not spoil them, but that they should go home filled with inspiration, and ready for better work than they had ever done before.

Frau Stitt of Germany, in responding to the toast to the National and Local Councils, said in her humorous way, that the women of the Canadian councils had eventually learned the art of managing men, and getting what they wanted without bullying them into it. Men often said, in blaming women, that the social questions they always introduced the personal element. Frau Stitt thought the personal touch very important. The woman's movement was simply organized motherhood, and what was motherhood, lacking the personal element.

While thanking the programme convenor for heading the toast list with the quotation "Ehret die Frauen!" from Schiller, Frau Stitt said she did not exactly agree with the great poet's sentiment, who, in speaking of women, said they were for twining heavenly roses, into the earthly lives of men. Women, she thought, had even a nobler mission than that.

Froken Gira Kroeg, of Norway, in responding to "Our Guests," proposed by Mrs. C. E. Cooper, spoke most feelingly and eloquently, of the kindness she had received since first landing in Canada.

In Hammett, the most northerly town of her native land, a Woman's Local Council had recently been organized. For many months there the sun never set at all. The words, "thank you," were too poor to express the gratitude she felt; it was deep in her heart, she could not express it. Her visit to Canada would always be remembered as the happiest event of her life. Every city and province visited had been a revelation to her, and she was sorry that the last day of her stay had come. She would never forget Canada—none of the delegates would ever forget it; they would talk of it to their home friends and teach them to love Canada too. As Froken Kroeg resumed her seat, she was completely overcome and tears, of which she was not ashamed, streamed down her cheeks.

Froken Buch of Denmark, said it was a good thing that the last day of their stay in Canada had come. Their progress through it had been a series of wonders upon wonders, of which Victoria's flowers and mountains and sunshine were a fitting climax. What could Canada show more?

Mrs. Granau, of the U. S. Council, who responded to the toast to "Our Guests," was a most amusing speaker. She said the time had come when the man of business no longer hastened home to list to the "innocent prattle of his wife, but to take wise counsel of his wife." When the International Council met in Rome five years hence, they would teach the dwellers in the Vatican a few things.

Mrs. Dobson, the Australian delegate, rose for a moment to thank the Victoria Council for their hospitality, and to invite them to a convention in Australia which will be held three years hence.

There was considerable interest directed towards the speaker when Miss Chrystal MacMillan rose to propose the toast, "Canada." Every one was anxious to see and hear the lady who so ably plied a gross of the House of Lords, in a suit to obtain registration on the parliamentary lists for the graduates of the Scottish universities, and whose fight was really one in the interests of woman's suffrage.

Miss MacMillan is tall and strong, but not in the very least masculine in appearance. She has a bright, pleasant Scotch face, with fiery brown hair, clear, frank eyes, not afraid to look even the members of the House of Lords in the face, and she speaks in a modest manner with a decided Scotch accent. It was a very great pleasure, she said, to propose the toast to Canada, although at first, as a representative of the Mother Country, it had seemed to her rather out of order, for the Mother Country to praise her daughter, lest she should seem to be too proud. However, almost all countries were mother to Canada, and she was a daughter worthy of all the admiration she received. One thing she had noticed particularly during her visit to Canada, was that Canadians had implanted confidence in themselves. It was a thing seemed good to them they did it, without asking whether other countries had done it before or not. In this respect they differed greatly from the people of the Old Land. Canada, the speaker laughingly said, reminded her of a shop sign she had seen in Vancouver, which read: "We are brand new, watch us grow." Canada was well to believe in themselves, self-trust was the essence of heroism. They have done wonderful things in transforming the prairies into wheat lands and building great elevators. They were even going to build a greater bridge than that which spanned the river Forth. Five years ago Canada had been a strange country to her; now it was a part of the old land, and she was sorry to say good-bye to it.

Miss Carmichael, of Ottawa, representing the Canadian National Council, made a fitting reply, saying that Ottawa was Our Lady of the Snows, Victoria Our Lady of the Roses.

HALL MARKED Sterling Silver

During the last few days we have unpacked a magnificent line of

English Sterling Silver

Including Tea Sets, Fruit and Cake Baskets, Cigar Boxes, Toilet Sets, Salt and Pepper Sets, Vases, etc., etc.

Many of the individual pieces are exceptionally beautiful in design and execution.

You will certainly be pleased when you see this line.

The prices marked cannot be criticized.

CHALLONER AND MITCHELL
1017-19-21 GOVT. STREET

SOCIAL AND PERSONAL

Miss Freeman, who has been teaching in Bella Coola, is holidaying at her home on Croft street.

The Rev. Clifford W. Williams, of Wallace, Idaho, is visiting Mrs. W. G. McLaren, Niagara street.

Miss Helen and Ida Urquhart, of Vancouver, former residents of this city, are guests at the hotel Balmoral.

Miss Mary Buss, who has been teaching at Grand Prairie, near Kamloops, is spending her holidays with her parents on Charles street.

The Misses Neelands, of Minota, Manitoba, are the guests of Mrs. Wm. Clyde. They will make an extended stay in Victoria.

John George and Mrs. George, of Port Elgin, Ont., are paying a visit to the city, and are spending a few days in Victoria. They are guests at the Dominion Hotel.

Mr. Robertson, K. C., of Collingwood, Ont., is a recent arrival here. Mr. Robertson will spend some time at the coast as the guest of his daughter, Mrs. A. T. Watt, William head.

Miss Peters, of St. John, N. B., a delegate from the International Council of Women, was a most interesting visitor. She has supervised play grounds for children in many parts of the Dominion and thought Victoria would do well to take steps along that line before land became too valuable.

A party from Hamilton, Ontario, who came to Seattle with the Epworth League convention, and arrived in Victoria yesterday, consists of Miss A. G. Riach, Miss Lena V. Booker, Miss Ann Ritchie and Miss Estelle Shephard. They are staying at 1019 Cook street, and will spend the remainder of the week sightseeing here and renewing old friendships with friends who have come from the eastern provinces to reside in Victoria. This evening the young ladies will be the guests of a musicale given by Capt. and Mrs. Kirkendall, Oswego street. Three of the visitors are teachers in the Strathcona model school of Hamilton, but they are not delegates to the convention here.

Miss Tolmie, of Glasgow, Scotland, one of the delegates from the International Council of Women, who during the past two weeks has been the guest of her brother and sister, Mr. and Mrs. Tolmie, of Mount Tolmie, intends to remain here some weeks longer. Miss Tolmie is interested in the poor house and asylums of her native city, and wishes to look into the situation from a Canadian standpoint. She was much impressed to find we had no sheltered poor houses in this country. In the Glasgow parish, of which Miss Tolmie is one of the two women councillors, children dependent on charity are boarded in private families in the country, where they lead a natural life untrammelled by the petty restrictions which must necessarily exist where a large body of charity children are housed together.

LADY AND HER BEARD.
Loses Her Prospective Husband Through Getting Rid of It.

A curious action has just been decided by the Paris court. A lady who happened to be endowed with the masculine prerogative of a beard was engaged to be married, and thinking her fiancé would like her to be as other women, she entered into a contract to remove every hair.

He did so, but scars and marks were left on the lady's chin, and (whether because of this or not was not stated) the marriage was broken off. The lady thereupon brought an action against the specialist for damages.

The question whether the lady's looks had suffered was submitted to an expert, whose judgment was as follows: "A comparison of the present condition of Miss X's physiognomy with that shown in a photograph taken in 1904 leads to the undoubted conviction that the lady's face now presents a far more agreeable expression than at that time. At all events, it is far more feminine looking."

The judge consequently decided in favor of the defendant.

VISITING TEACHERS TENDERED RECEPTION

Pleasant Time Spent at Parliament Buildings Last Evening.

There was a brilliant assemblage of Victorians at the reception given by the minister of education at the parliament buildings last night. The spacious legislative hall, which was especially decorated for the occasion, was crowded with teachers from all parts of the province, and with those Victorians who take an interest in matters educational. It was a happy beginning to a convention which is of national importance.

It was remarked by many that the attendance here so far was better even than last year in the city of Toronto and a great many more are attending to-day than were there yesterday.

The great feature of the reception was the opportunity it gave the educationists are renewing old acquaintanceships and meeting others who were joined with them in the common aim of training young Canadians. Some faces were noticed that had graced conventions for the past twenty years, while there were many novices, just from the Normal schools, who were entering on their work with enthusiasm.

After the minister and his supporters had shaken hands with the visitors a reading was given by J. H. Ritchey from the late Dr. Drummond's works, which was in his usual faultless style. Refreshments were served in the lower corridors beneath the big dome.

The Girl with the Basket Discovered

Condensed Clams "Winter Harbor Brand" WINS THE PRIZE

The most tasty and dainty sandwich, the finest broth and quickest cocktail, always ready in the house.

Empty a tin into a glass jar and it keeps fine. You will never be without this again as long as you live.

Canned at north end of the island, where sewerage is unknown. Purity unquestioned.

Two sizes of tins and 26 fine receipts.

If your grocer has not this in stock see that he gets it at once from

R. P. RITHET & CO., VICTORIA, B.C.

Hotel Del Monte

The Paradise of the Pacific Near Old Monterey California
125 miles southerly from San Francisco

THE finest winter resort in the world. Superb climate, matchless scenery of mountain and sea, permits outdoor sports all winter, golf, tennis, horse-back riding, motoring, motor boating, surf tank bathing. World famous scenic Seventeen Mile Drive thru primeval pine forest. 126 acres intensely cultivated park. Accommodation, 1,000 guests. Excellent cuisine, perfect service.

For rates, reservations and illustrated literature, address
R. R. Warner, Manager Hotel Del Monte CAL.

HOTEL VICTORIA

Broadway, Fifth Avenue and 27th St., NEW YORK.

In the Centre of Shopping and Theatre District.

A Modern, First Class Hotel.

Complete in all its appointments. Popular with those visiting the city without leaving because it is home-like and cozy.

The only Hotel in Manhattan, facing Fifth Avenue and Broadway.

300 rooms, 200 with bath. Hot and cold water and telephones in every room. Cuisine unexcelled.

Taxicab Service the best in the city at lowest rates.

ABSOLUTELY FIREPROOF.

Rooms \$1.50 per day and upwards.
EUROPEAN PLAN. GEORGE W. SWEENEY, PROPRIETOR.

NEW GRAND THEATRE

An admirable bill is offered patrons of the New Grand theatre this week at the Government street play house, where Tom McGuire, of racing fame, is singing Scotch songs to the delight of all who hear him. "Fou the Noo," Harry Lauder's popular song, is a sure winner with McGuire.

The European acrobatic act by Les 2 Ploetz Larellas is a star feature calling for the admiration of all. The evolutions are decidedly elastic and the whole thing is new.

Cogan and Bancroft offer the fun of the night on rollers in an act that never fails to interest for a minute. There is comedy of the best in it.

J. Watson Scott and Georgia Davis present a musical jingle in three-terms opening before the curtain then going to the full stage, and concluding with an Indian dance and song for a finale.

Both are sterling performers. The tabloid play "The Advance Agent," of John J. Black, Maurice Frank and Company and Miss Pearl Foster, is a combination of pathos and amusement. Mr. Frank as Billy Ahead of the Midnight Musketeers Burlesque Company as advance agent, has a comic personality that gets the laugh every time.

Thomas J. Price in a new illustrated song, and the motion pictures are the other items on the first class bill at the Grand this week.

HARRY LAUDER Says

"Butter Scotch is just the stuff and I am enjoying it all the time."

"As Sweet As The Heather"

FAIRMONT HOTEL SAN FRANCISCO

Scenic Hotel of the World Overlooks San Francisco Bay and City Five Minutes Ride from Ferries

TEACHERS HEARTILY
WELCOMED TO THE CITY
(Continued from Page 3.)
lies so high and sacred a calling as
the one you have chosen to pursue.
Next to the men who minister in the
pulpits and by the altars of our
churches, and in fact shoulder to shoul-
der with them, and with the fathers
and mothers whose sons and daughters
are committed to your care, stand the
educators and trainers of the rising
generation of our country.
Those who are subject, five days out
of the week, during the most impres-
sionable period of their lives, to the
impact of your personality, in the pro-
cess of assimilating the knowledge es-
sential to fit them to take their part
in the work of life, cannot fail to ex-
hibit in after days in their character
the features of the mould in which that
character was fashioned. They are now
in embryo, but some day they will be
the poets and statesmen of this coun-
try, the journalists, the scientists, the
inventors, the physicians, the advoc-
ates, the engineers, the craftsmen, the
merchants whose names will be a
household word in Canada, and perhaps
throughout the world.
And when they have become famous,
I know of no trainer of men of such
of which our human nature is capable
that to be able to say "They were once
my pupils. To their education and ad-
vancement I gave my best thought and
effort. I marked their rising genius
and I lent it wings."
Mr. President, Ladies and Gentle-
men, I feel I must not trespass fur-
ther upon your valuable time. A large
programme has, I see, been mapped out
for you, and I am certain, judging from
the number, variety and importance of
the subjects, and from the array of
talent, and the list of distinguished
names I notice there, that the outcome
of this convention will be historic in
the educational annals of this coun-
try and pregnant with great benefit to
every individual member.
Those who have charge of the enter-
tainment end of it, I am pleased to
note, have in their solicitude for your
comfort, made provision for diversion
as well as labor. "All work and no
play" as you are aware, "makes Jack
a dull boy" so it is said, and this aphorism
applies with equal force, I fancy, to
Jack's respected teacher. Therefore, I
trust that during your stay in the city
you will enjoy yourselves thoroughly. If I may speak metaphorically,
I would say that our gates are
wide open and our doors are, while you
are here, of your hinges. I sincerely
hope that you may be able to say that
you never had a better time in your
life. "When the time comes for us to
say "good-by" I trust that you may
carry away with you the pleasantest
recollections of your visit, and that
when you return to your homes you
will have a good word to say of us to
your friends, and that you will take
further pleasure in describing to them
the charms and beauties of our fair
city of Victoria by the sea.
Owing to the accidents of travel there
were no delegates from the Maritime
Provinces or from Quebec. W. S. Mil-
ner, Toronto, replied for Ontario, ex-
pressing the feelings of a Canadian who
saw this portion of the great Dominion
for the first time. Regarding the choice
of a university site he applauded the
decision to have the selection made by
an independent commission and entirely
removed from politics.
Principal J. R. Wallis, Winnipeg, ac-
knowledged the welcome on behalf of
the Manitoba members.
D. P. McCall, deputy commissioner of

education for Saskatchewan, applying
for the province spoke of the value of
such gatherings for the interchange of
ideas.
A. Melville Scott, city superintendent
of schools in Calgary, replied for Al-
berta, and as a former New Brun-
swick, said a word on behalf of the
provinces by the sea. He paid a de-
served tribute to the work done by the
local committee in the preparations for
the convention. A feature of his speech
was an appeal to the members to real-
ize that there were educational prob-
lems common to all the Dominion and
that these must be taken up by the
association.
The president in his annual address,
which was bright and helpful in sug-
gestions for thought and discussion,
spoke strongly on the advantage of
having all the school text-books uni-
form, instead of every province almost
having different sets of books. Just as
strongly did he advocate interchange-
able certificates. He also was in favor
of the school, especially the rural
school, assisting in the campaign
against tuberculosis.
It was announced that on Friday
morning there will be an excursion by
the Princess Charlotte to witness the
raising of the fish traps at the south
end of San Juan Island. It was im-
possible to get to see any Canadian
traps, as the swell on the west coast
prevents approach close enough, and
on this shore, of course, none are al-
lowed.
The members enrolled were as follows:
British Columbia—Miss M. I. Gladstone,
Mrs. G. F. Gostrey, Miss K. Johnson,
Miss A. S. Johnson, Miss E. M. Clughan,

LECTURER SPEAKS ON RAISING OF POULTRY

Thinks B. C. Should Have Great Success With the Industry.

W. Brown, of England, addressed a few poultry enthusiasts in the city hall last night, advocating utility poultry raising as against fancy breeding. He held the business may be made to pay and confined his remarks to farms of from fifty to one hundred and fifty birds. Poultry raising was, he said, a useful industry while orchards were growing, and England always imported poultry produce and would always remain a market. At present it imports from Siberia eggs for manufacturing purposes. About \$100,000,000 worth of poultry produce is imported into England every year. Eggs are needed for photograph's films and plates and for high grade tanning, outside of domestic uses. Denmark exports millions of dollars worth of poultry from small farms, and he thought British Columbia could do the same. While not being familiar with local conditions, he said, he thought the climate here suitable for extensive poultry raising, and advised the co-operative plan of marketing. England, however, has practically no government assistance as is given in Canada. He said the English educational bodies did not take sufficient interest in fostering the industry, but in British Columbia, with assistance and the climate, poultry raising could be made even in small ways a big industry. He gave advice as to housing and advocated the open air as beneficial, both to the birds and also to the land. The speaker was thanked for his address and a short discussion followed its conclusion.

NATIONAL SERVICE

BILL LAID OVER

House of Lords Decides Not to Consider Lord Roberts' Proposal.

London, July 14.—The House of Lords yesterday, by a vote of 123 to 108, decided not to proceed with the national service bill, which Lord Roberts introduced in the house Monday. This bill provides for the compulsory service in the territorial army of all male citizens between the ages of 18 and 30. The decision of the House of Lords was taken at the advice of the Unionist leaders, who considered it inadvisable to interfere with War Secretary Haldane's scheme for the reorganization of the territorial force, until a change of government should make it possible to introduce some such idea as is proposed by Lord Roberts.

BARS SAILORS FROM DANCING ACADEMY

Proprietor Refuses to Admit Them Because of Their Uniform.

(Times Leased Wire.) Seattle, Wash., July 14.—Mayor Miller is to-day making an investigation of charges that the management of Redding's dancing academy refused to admit sailors in the uniform of the navy to public dances. The complaint was made by Commander Fields, of the gunboat Yorktown, now in this port. A. G. Redding, proprietor of the academy, stated to-day that the sailors from the Yorktown were barred from his place because they wore uniforms. "There was nothing wrong with the conduct of the sailors," said Redding, "but I don't want men in the uniform of the navy because they hurt my business." The commander of the Yorktown called the attention of the mayor to the dancing academy incident in a letter, in which he says: "The men from the Yorktown are of excellent character and their presence and deportment would have added to the respectability of the academy. I must express to you my official and personal disapproval of this humiliation of any enlisted men of the United States navy, and such discrimination against the United States naval uniform when worn by men as respectable and orderly as the most desirable attendants at such places." Mayor Miller to-day refused to ex-

Camp Furnishing Needs

THE WEATHER will be more settled now and we may look for a long spell of excellent camping weather. If you are going camping, you'll need some of the items this store has. We do not know of any other store in the city that is so well prepared to look after the furnishing needs of campers. Our offerings include every necessary item in the way of furniture, bedding, crockery, cutlery, etc. The values in any line aren't beaten anywhere and no other establishment offers you such a choice. Pleased to see you here.

Tourists and Visitors

TOURISTS and visitors to the city are reminded that a hearty welcome awaits them at this store. You are welcome to come whether to purchase or to just "look." You'll find here a wealth of splendid souvenir items—items you won't find on the United States side of the "line." Dainty china pieces at all prices here and drapery materials from the Old World—things that a high United States protective tariff excludes from that country. They cost little here. Come in.

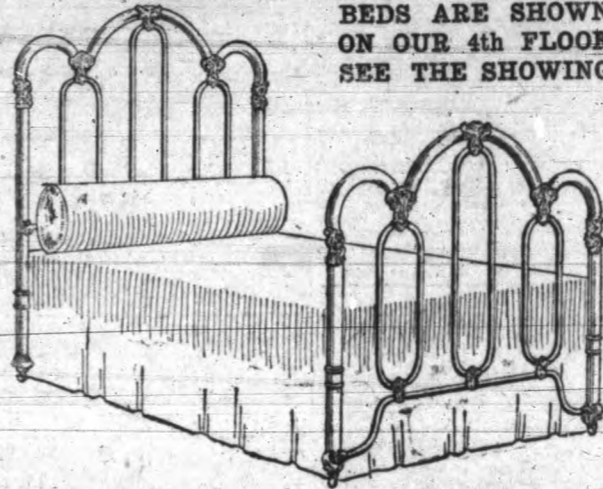

STYLISH BEDS FOR YOUR BEDROOM

THE big wholesale business we enjoy throughout British Columbia works to the advantage of Victorians in that it enables us to purchase in large quantities and secure the very best prices. The values we can offer you are better than we could possibly do if we were to buy for Victoria alone. In beds, for instance, we buy in car lots and are able to offer you the finest assortment of metal beds in the Province. Styles are better, values better—values and styles you should investigate.

Brass Beds

The showing of brass beds is one of unusual merit. Dozens of different styles are shown. Strong, well-built beds with heavy pillars and fillers. Made by the best bed makers in the world. A style and a price for every home. Bright and satin finishes. See the many styles we show, ranging in price from—

\$30 to \$120

BEDS ARE SHOWN ON OUR 4th FLOOR

SEE THE SHOWING

Iron Beds

In iron beds the list of prices and styles is broad indeed. The latest ideas from the leading bed factories in the world are shown. Well made and well finished beds of decidedly stylish design. Superior enamelling. Little points of superiority lacking in many beds of higher price. An excellent range, from—

\$4 to \$40

Couch Covers in a Variety of Designs and Colorings

WE ARE showing an excellent range of tapestry couch covers—excellent in price as well as style. These covers come in plain reds and greens and in attractive Oriental coloring and patterns. They cost so little the temptation to make that couch look new must be great indeed. Stylish, serviceable and little priced—a worthy combination.

See The Offerings At From Each \$3.75 to \$12

Choose Your Refrigerator To-Day—From The Stock Here

We Have Many Styles From Each \$12

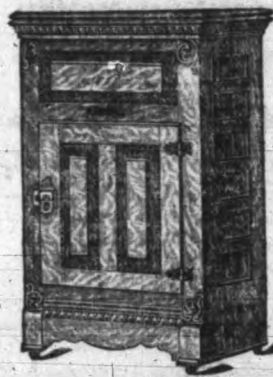

SUMMER is here at last. Late in coming, perhaps, but probabilities are that there will be an unusually warm spell that'll last well into Fall. Certain it is that there'll be many days when you'll need a refrigerator to keep the spoilable eatables safe.

We offer you refrigerators that pay for themselves in a season or two. They don't "eat" ice like some refrigerators, but do their work better and with less ice consumption than others. Remember that the first cost isn't what should influence you most in the buying of a refrigerator. You should investigate the refrigerator system.

There is no better refrigerator made than the McCray. The safest and best and easiest on the ice. Come in and let us further explain its merits. We are sole Victoria agents.

MCCRAY REFRIGERATORS, from \$50 to \$100
BEST CANADIAN MAKE, from \$12 to \$70

Make a Handsome Rug From one of These Pieces

It'll Cost You But a Trifle to Own One or More of These

THE CARPET DEPARTMENT has an interesting offering in the carpet remnants which are being offered at little prices to clear quickly. All the different styles of carpet such as Brussels, Tapestry, Axminster and Wiltons are included. Lengths measure 1 1/2 yards or slightly more. These, when fringed, make splendid rugs and at these prices are easy to own. A great choice of colorings and patterns is offered. Quality, of course, is the very best. Prices are greatly reduced.

press any opinion in the matter, but stated that a thorough investigation would be made.

EXALTED RULER OF ELKS.

J. U. Samsis, of Le Mars, Iowa, Elected by Narrow Majority.

Los Angeles, July 14.—August (Garry) Hermann, the popular baseball magnate of Cincinnati, awoke to-day one of the most disappointed men of all the Elks gathered in this city. By a narrow margin of 63 votes to the bad, Hermann went down to defeat last night in the annual election for exalted ruler of the Elk tribe. J. U. Samsis, of Le Mars, Iowa, carried away the coveted honor from under the nose of Hermann and his supporters.

Garry made a plucky fight against the overwhelming odds of perfect organization work by his opponents and a preponderance of representatives from the part of the country about the home of Samsis.

Detroit was chosen as the next meeting place of the grand lodge by an unanimous vote, St. Louis having withdrawn from the fight.

FIREMAN'S NARROW ESCAPE.

Alameda, Cal., July 14.—After rescuing a sleeping babe from a horrible death in a burning house, Fireman Raymond Code is suffering from injuries received when he returned to

help his comrades fight the spreading flames.

Code rushed into the smoke-filled building and carried the two-year-old daughter of V. Cuvas to safety. Code then accompanied his companions to the roof, and for 15 minutes fought the flames. Their position becoming dangerous, the men descended, only to find Code missing. He was found where he had fallen on the roof unconscious from injuries he sustained.

IN GRIP OF DROUGHT.

around is in the grip of a serious drought, according to detailed reports made last night by the local weather bureau. Throughout this territory, which includes rich farming and truck raising land in southeastern New York, north-eastern Pennsylvania and eastern Connecticut, there has been no rain since the middle of June, and as a result vegetation is parched. Wells and rivers are drying up and roads are almost impassable because of dust.

The situation is considered unusually grave by the farmers, whose berries and small produce at this season of the year usually yield tens of thousands of dollars.

Meanwhile the danger is aggravated by the outbreak of forest fires.

CHEAP RATES TO SEATTLE.

\$2 round trip by Iroquois. Leaving 9 a. m. July 17th. Returning up to July 19th.

Sylvester's Henfood for Poultry

FIGHT WITH STRIKERS.

Honolulu, July 14.—Eighteen Japanese prisoners have been brought in from the Waimanalo plantation, 20 miles from here, and lodged in the county jail. They will probably be charged with resisting an officer, as a result of a riot which occurred at the plantation. County Sheriff Jarrett, with a strong force of police from Honolulu summoned to his assistance to disperse

the mob of strikers, remained on guard at the plantation for the night.

—The police court records for to-day are empty. Magistrate Jay this morning earned the proverbial pair of white gloves due to a magistrate who sits on the bench without having any business before him. The absence of crime in the city and of even a drunk makes it evident that the methods of the police department to keep undesirable out of the city are not without effect.
