TERMS OF SALE.

PHILADELPHIA, January 11, 1909.

All bills purchased after this date will be charged at the prices quoted herein,—unless *special offers* are made by letter or telegram and *referred to* in the order. Not less than ten pounds of one variety will be invoiced at the rates per hundred pounds.

Terms of Credit.—To regular customers and well-known houses of established credit, all bills bought from this catalog are due June 1st, without regard to date of purchase, excepting Beans, Corn and Peas on which terms are (except when included in a general order) sixty days net or subject to a discount of one and a half per cent. for cash within ten days of invoice. *All accounts are subject to sight draft on June 10th, if payment is not received previously by mail.* Goods purchased after June 1st are payable on October 1st and subject to sight draft.

☞ Bills purchased on **special quotations**, made by letter or telegram, are *net* sixty days from date of invoice, or subject to a discount of one and a half per cent. for cash within ten days of date of invoice.

☞ **Grass and Clover Seeds, Onion Sets and Seed Potatoes** in quantity, are invariably **net cash**.

☞ Unknown correspondents desiring credit are requested to give satisfactory reference in Philadelphia or New York.

Cash Discount.—We allow a discount of **Five Per Cent.** on orders accompanied by a cash remittance, and also on all bills except where Beans, Corn and Peas only are ordered (at catalog prices) paid within ten days from date of invoice, or a discount of **One Per Cent. a month** on all bills (at catalog prices) if paid before June 1st.

The Prices Quoted are those ruling at this date. We expect to adhere to them through the spring, except where important changes compel us to advance or reduce our prices, when we shall be governed by the market. **10 lbs. and more will be supplied at the rates per 100 lbs.;** $\frac{1}{2}$ lb. and $\frac{1}{2}$ bushel at pound and bushel rates; but *smaller quantities will be charged at a higher rate.*

NO CHARGE for Packing or Cartage.—Bags and boxes are charged *at Cost.* After delivering to forwarders in **good order** (as shown by Bill of Lading) our responsibility ceases.

Insurance will be effected only when so directed.

SEALED PACKAGES.—We make no charge for sealing **pounds, pecks, or bushels**, but at the low bulk prices quoted therein, we shall charge for putting up in smaller sealed packages, when so ordered, as follows:

In Ounces.—One cent per ounce, 50 cts. per 100 ounces.

In Quarter-Pounds, Pints, and Quarts.—Two cents for each package.

In Two-Quarts and Four-Quarts.—A charge of three tenths per package.

WE DO NOT COMMISSION SEEDS.—In response to hundreds of inquiries each year, we would state that we **positively decline to send out any Seeds on Commission.** Dealers handling seeds in packets will be supplied on liberal terms, and by ordering judiciously, those left over can be destroyed, and the business yet be more profitable and satisfactory than the handling of commission seeds.

Discounts TO THE TRADE From our Retail Prices.

In our retail Catalog—**BURPEE'S FARM ANNUAL FOR 1909**—are many varieties of seed and books for which frequently other Seedsmen receive retail orders. We supply

All Seeds in Packets at 50 Per Cent. Discount.

500 Packets or more at 60 Per Cent. Discount.

Except the Apple Blossom Spencer Sweet Pea.

Small quantities from our retail Catalog, which cannot be invoiced at the low pound or bushel prices quoted herein, are charged at the following rates of discount from retail prices:

Seeds by the Ounce, - - - - -	40	per cent. discount
Seeds by the Quart or Pint, - - - - -	33 $\frac{1}{3}$	" "
Seeds in Collections, - - - - -	40	" "
Potatoes by the Pound, - - - - -	40	" "
Bulbs in Collections, - - - - -	20	" "
Roses and other Plants, - - - - -	20	" "
BOOKS on Garden Topics, - - - - -	40	" "

At the above liberal rates of discount the goods travel at expense of purchaser, and when sent by mail the cost of postage will be added to the invoice.

Cable Address, BURPEE, Philadelphia.

The Burpee-Quality in Seeds

PHILADELPHIA, January 11, 1909.

The steady increase from year to year in the BURPEE BUSINESS is due not only to the constantly widening circle of planters who have confidence in the quality of our seeds, but also to the fact that intelligent *Dealers in Seeds* recognize that *it pays* to handle **QUALITY-SEEDS** and thus make pleased customers.

We are exclusively a mail-order house and never travel a single mile to solicit an order! We annually travel many thousands of miles, however, both in America and Europe, to inspect our contract-growing crops and conduct the largest and most complete trial grounds in America. We thus *know* the truth of our motto

Burpee's Seeds Grow and are the Best Seeds that Grow

It is not astonishing, therefore, that for years we have had the largest mail-order seed trade in the world.

We are Specialists in Seeds. Our entire

attention is devoted to producing and distributing Seeds,—**Seeds only and only Seeds of the Best Quality.** Our aim is to do *this one thing well*,—consequently we do not handle Dutch bulbs, small fruits, nursery stock, nor other kindred lines such as fertilizers, implements and poultry supplies.

The small illustration herewith shows the Fifth Street frontage of THE BURPEE BUILDING, our main city warehouse. Here we are pleased to welcome all customers who may have occasion to visit Philadelphia and to give those interested an invitation to inspect our Pennsylvania and New Jersey farms during the growing season. We have nothing to conceal and are always glad to show everything of interest both in the city warehouses and on our seed farms and trial grounds.

We are **actual GROWERS of Seeds**, having our own farms in Pennsylvania and New Jersey, supplemented by private contracts throughout America and Europe, subject also to our personal inspection.

The prices in this catalog have been fixed carefully on the basis of actual values, yet we are always prompt to quote **special prices** by mail or telegram. Please write or wire us if you are offered first-class seeds, by reputable seedsmen anywhere, at lower prices. Trusting to be favored with your orders, we remain,

Yours truly,

Burpee Building:

475 and 477 North Fifth St.,
476 and 478 York Avenue.

Other Warehouses:

463 North Fifth Street,
468 and 470 York Avenue,
PHILADELPHIA, PA., U. S. A.

Seed Gardens and Trial Grounds at FORDHOOK FARMS, Bucks County, Pa., and at our new SUNNYBROOK FARM, in Gloucester County, New Jersey.

BURPEE, Philadelphia,

Is Our Registered Cable Address.

All foreign customers are requested to advise us of their **shortest cable address**. Customers in America who wish to telegraph will also, occasionally, find it useful to use the following additional code. Please note the **code-words** below that would be used in our reply, either by cable or telegram.

FOR OFFERS AND INQUIRIES.

CODE-WORD.	TRANSLATION.
<i>Daubling</i>	Telegraph your lowest prices for
<i>Dean</i>	Mail your lowest prices for
<i>Decoy</i>	Mail your lowest prices for, and send samples.
<i>Defend</i>	Telegraph when goods can be shipped.
<i>Defender</i>	Advise immediately by mail how soon goods will be shipped.
<i>Deform</i>	Can you offer for acceptance by mail
<i>Defect</i>	Can you offer any? If so, telegraph prices.
<i>Delude</i>	Can you offer any? If so, mail prices.
<i>Derange</i>	Telegraph quantities you can offer of following, with prices.
<i>Descend</i>	State by letter quantities you can offer of following, with prices.
<i>Descry</i>	When can you ship.....?

Code-words that will be used in OUR ANSWERS.

<i>Dab</i>	{ In reply to your telegram, we quote for immediate acceptance upon our usual terms for special quotations the varieties named below, provided they are unsold upon receipt of your order.
<i>Dabster</i>	Letter written contains full information.
<i>Dacite</i>	We accept your order for
<i>Dagger</i>	We accept your order for, and shall ship at once.
<i>Dainty</i>	We accept your order for, and shall ship as directed.
<i>Damsel</i>	We offer you for immediate acceptance, subject to being unsold.
<i>Dance</i>	We accept your offer and shall ship as directed.
<i>Dander</i>	Will make you shipment
<i>Dapper</i>	Cannot accept your order for
<i>Dapple</i>	{ Part of your order went forward by freight on expect to ship balance
<i>Dapperling</i>	Can accept your order for only (lbs. or bushels)
<i>Daptus</i>	We are now sold out of
<i>Darby</i>	{ Part of your order went forward by express on expect to ship balance
<i>Dardanus</i>	Please repeat your message, it is not clear.
<i>Dard</i>	Cannot now supply but offer as a good substitute

Code for positive ORDERS.

<i>Dargie</i>	Send immediately by <i>express</i> following seeds at catalog prices.
<i>Darken</i>	Send immediately by <i>freight</i> following seeds at catalog prices.
<i>Darnel</i>	Send immediately by <i>mail</i> following seeds at catalog prices.
<i>Dare</i>	Send immediately the following by <i>freight</i> , per special quotations.
<i>Dared</i>	Send immediately by <i>express</i> the following, per special quotations.
<i>Darling</i>	Send immediately by <i>mail</i> the following, per special quotations.
<i>Dasher</i>	{ Send at once following.....; let the other seeds follow as quickly as possible.
<i>Dashing</i>	{ Have you shipped our order? If not, increase if possible our order for to pounds (bushels).
<i>Datary</i>	{ Send.....immediately by express. Let balance of order follow by freight.
<i>Dation</i>	Duplicate our last order.
<i>Dattisca</i>	Book our order and await instructions by mail.
<i>Daturein</i>	Please add to our order.

TELEGRAPHIC CIPHER FOR PRICES.

The cipher or code-words given on this page are principally for our use in making quotations. For example :

Dab Cefalu Carding Davit, Tokay Bacon Defix, would mean : In reply to your telegram, we quote for immediate acceptance upon our usual terms for special quotations, provided unsold upon receipt of your order, one hundred pounds BURPEE'S SUREHEAD CABBAGE at \$1.00 per pound, two hundred bushels EXTRA EARLY RED VALENTINE BEANS at \$2.00 per bushel. These code-words can be used also if, when placing a telegraphic order, you wish to specify price quoted. For example :

Dare Calicut Chanter Dang, Mocha Bodkin Despoil, meaning : Ship at once by freight, as per special quotations, seventy pounds CHANTENAY CARROT at 35 cts. per pound, sixteen bushels LARGE WHITE POLE LIMA BEANS at \$5.25 per bushel.

By exercising ordinary care in preparing the telegram you can save time and money by the use of our code system. When possible, telegraphic orders are filled and shipped the same day they are received.

For Code-words for Quantities, Orders, etc., see pages 2 and 3.

Best Seeds that Grow for 1909,

Tested and Proved at our Fordhook Farms.

THIS PACKAGE (IF UNBROKEN) CONTAINS ONE OUNCE OF

Here follows the same "electrotyped" label as printed on our packet bags,—giving in full the name of the variety, and in case of the more important Vegetables and Flowers, also an illustration, description, and frequently directions for culture. Every package bears our full firm name, and is neatly printed in black ink, presenting a more attractive appearance than do the usual gaudy lithographed bags.

Every ounce-package is **dated** as above.

Packets, although not dated (because the electrotypes generally require the entire front of the bag), are all filled with the same choice quality of the **Best Seeds that Grow for 1909.**

W. ATLEE BURPEE & CO., Seed Growers.

Seeds of the best quality cost very much more to produce than do seeds of the ordinary commercial grade. And yet many merchants, having little or no knowledge of the value of **High-class Seeds**, purchase their supplies wherever they can be obtained the cheapest. It was brought to our notice that some merchants would buy a bill of seeds from us, obtain copies of our catalogs and show-cards, and then purchase a portion of their supplies from other seedsmen, who, growing "*cheap seeds*," could sell at much lower prices. In many cases planters who purchased from their local merchants, thinking that they were obtaining **BURPEE'S SEEDS**, got only a few of our seeds (perhaps in packets), and often the seeds bought by weight or measure were of inferior quality, falsely sold on our reputation, but for which we were not in any way responsible.

This deception was brought so prominently to our attention some years ago that we debated seriously whether we should not decline altogether to sell **BURPEE'S SEEDS** at wholesale. Further consideration, however, showed us that this would hardly be fair to the honorable merchants who had been handling our seeds exclusively for years. Therefore we announced that—

Hereafter we will sell Burpee's
Seeds **ONLY** in sealed packages.

Packets and ounces, in *Water-tight Manilla Bags*, are sealed, and bear, plainly printed, either **our Name or Registered Trade-mark Monogram**, protected by United States Letters Patent. Quarter-pounds, pounds, pints, and quarts, in paper bags, have pasted across the top a **green label**, as below :

BURPEE'S SEEDS THAT GROW

FOR 1909—"BEST BY TEST"

Genuine Only if this Seal is Unbroken

SEEDS IN BULK,—that is, Peas, Beans, etc., by the peck or bushel, and quantities of small seeds in bags, will have **each sack sealed with our Trade Mark on a leaden seal.**

This plan will be a protection to honest merchants from competition with other seeds falsely claimed to be **BURPEE'S SEEDS**, and at the same time will be a guarantee to the purchaser.

**LARGE DEALERS WHO SELL ON THEIR OWN REPUTATION
CAN BUY SEEDS IN BULK FROM US, AS HERETOFORE.**

While every sack is sealed, the contents can be handled as desired,—except that they must not be sold as **BURPEE'S SEEDS**, unless in original packages.

BURPEE'S BOX OF FLOWER SEEDS.

This box, which is fully described on page 62, contains 200 packets of the most popular quick-selling varieties, all of the best quality.

BURPEE'S NEW CABINET OF VEGETABLE SEEDS.

This cabinet is an ornament to any store. A lid, fitting grooves in the side, accompanies each cabinet, making it practically dust proof when put away for another season's use. See page 63 for full description and list of varieties.

Burpee's Vegetable Seeds.

TEN POUNDS OR MORE WILL BE CHARGED AT 100-POUND RATES.

This Price List Cancels all Previous Quotations.

A Telegraphic Cipher (or Cable Code) is attached to each variety, by which orders can be wired at little expense,—using also our code for prices, weights, and measures as given on pages 2, 3, and 4. For example:

Darken Pelew Balcony would mean: Send immediately, by fast freight, forty bushels of BURPEE'S STRINGLESS GREEN-POD BEANS at catalog price.

Dared Breda Cage would mean: Send immediately, by express, fifty pounds of best select JERSEY WAKEFIELD CABBAGE as per special quotation.

Darnel Amoy Lantern would mean: Send immediately, by mail, three pounds of seed of BIG BOSTON LETTUCE.

Please use telegraphic cipher only for telegraphic or cable orders.

Telegrams should be addressed,

W. ATLEE BURPEE & CO., Philadelphia.

Our Cable Address is: **BURPEE, Philadelphia.**

Lima Beans are largely grown for use as dried beans in winter and are to be found on sale at almost every grocery store. These "Commercial Beans" are produced cheaply, as they are grown like an ordinary field crop. SEED LIMA BEANS cost considerably more to grow, as the crops are especially cultivated, while the stock must be carefully watched and rogued to keep them true to type. Some seasons, unfortunately, many commercial limas are sold for seed purposes.

Lower Prices could easily be quoted were we not practical growers and testers of seeds ourselves.

Were we willing to take simply the "say-so" of other growers in America and Europe, without proving the stocks in greenhouses, frames, and open field trials, we should save thousands of dollars annually. In that case, however, we would never have succeeded in building up and maintaining,—in spite of close competition,—a business that is acknowledged to be the largest direct mail-order seed trade in the world.

Cabbage is more extensively grown in large areas for market than any other vegetable excepting the Potato. All growers recognize the importance of planting only the finest seed. We exercise the greatest care in growing and selecting our Cabbage Seed. Not only are the plants grown from the best stock, but they are also inspected carefully before being put away for the winter.

BURPEE'S SEEDS GROW and are famous
for the Uniform Excellence of their Products

Our Carrot Seed is all *French grown*, and this fact should be borne in mind when you compare prices. France produces the best Carrot seed; the roots are transplanted, enabling a proper selection, true to type.

The Value of a Guarantee is not in what is said, but who says it.

For thirty-two years we have stated plainly that, where failure is caused by any fault of the seed, we would refund the full price paid. This should convince even new customers that we have confidence both in the quality of BURPEE'S SEEDS and in the great care exercised in their growing, cleaning, and packing. No honest seedsman could assume responsibility for more than the price actually paid by the purchaser.

Burpee's BEST-EARLY Cauliflower. Named and introduced by us in 1887, this grand variety has proved to be, as claimed, the **BEST-EARLY** Cauliflower in cultivation. It has attained its present perfection after years' intelligent selection, and is remarkable both for its *extra earliness* and *certainty to head*. In these two important features no other cauliflower can equal it. We would also strongly recommend Burpee's "Dry-Weather."

The Best Tomato Seed produced in America to-day is grown at Fordhook and Sunnybrook Farms and by our private growers in Bucks County, Penna., and in New Jersey, subject also to our personal supervision.

This is a strong statement, but complete trials—repeated every season—at Fordhook, together with inspection of methods pursued by other careful growers, from the Atlantic to the Pacific, leave no doubt in our minds as to its absolute truth,—certainly concerning the special strains for which our house has so long been famous. Many extensive planters write us that they cannot obtain Tomato seed anywhere else, at any price, that is *quite equal to BURPEE'S FORDHOOK- or SUNNYBROOK-GROWN*. If YOU are in doubt, test some of our special strains alongside any other seed you are accustomed to sell. We are willing to abide by the result of such comparative trials!

Grass Seed has for years received special attention at our hands. Samples of all the leading varieties are annually tested at FORDHOOK FARMS. In this way we have become acquainted not only with the best varieties for use in mixtures, but have learned also from experience the most desirable for all purposes.

We offer one grade only, and that the best that can be obtained, and do not handle any of the so-called "chaff" grades.

Our mixtures are all made up from first-class heavy seed, and this fact should be borne in mind when comparing prices.

Burpee's Flower Seeds are just as carefully and as thoroughly tested as our **Vegetable Seeds** and we know that there is not offered seed of any better quality than stocks we now have in our warehouse.

If you have never carried flower seeds in stock, there is no better way to try the taste of your customers than by offering the special Sweet Pea, Nasturtium, and Gem Collections, offered on pages 60 and 61.

Our **Flower Seed Box**, offered on page 62, gives a very convenient way of handling the separate packages at a very slight cost.

“Proved by Test.” Unless you should order some variety that we do not catalog and instruct that we get it for you (when we shall send it at your risk,—in its original package), you may be absolutely sure that you will receive from us only such stocks of strictly high-grade seeds as have been proved absolutely **“Best by Test.”**

Many seedsmen have much to say about tested seeds, but unfortunately with most dealers this applies only to blotter tests for vitality. Our tests for vitality are *soil* tests. While necessary that *seeds grow*, it is of prime importance that they shall be of choicest selected strains, such as can be relied upon to produce products **“true to type.”** This can be learned only by thorough field trials. No other seedsmen in America make so many or such complete trials as are conducted annually at our famous FORDHOOK and SUNNYBROOK FARMS.

**BURPEE'S SEEDS GROW and are famous
for the Uniform Excellence of their Products**

Choice Strains of Tall Sweet Peas,

Including all the desirable varieties—both new and old.

By hundreds of thorough trials made every year at our famous FORDHOOK FARMS we know SWEET PEAS and the merits of all the many novelties as introduced. Keeping Purity and High Quality, rather than low prices, our first aim, we have become recognized as

Headquarters for Sweet Peas in America.

Each is pure and true to name,—vastly superior to the “Cheap Seed” so largely grown without the proper care in the constant selection that is absolutely necessary to maintain first-class stocks.

OUNCES of Sweet Peas are one-tenth pound prices, except that no variety will be supplied at less than four cents per ounce. Varieties priced at 35 cts. or less per pound are charged at ten cents per ¼ pound. Varieties priced at 45 and 50 cts. per pound are charged at 15 cts. per ½ pound, while those priced at 60 cts. per pound are charged at 20 cts. per ½ pound.

☞ For full descriptions see THE FARM ANNUAL FOR 1909.

Three New "Spencer" Sweet Peas.

Burpee's "Apple Blossom" Spencer.

This is a reproduction of the long-time popular *Apple Blossom Sweet Pea*, but of enlarged size and the true Spencer type. The form is most attractive; the petals are waved and crinkled to a remarkable degree with distinct serrations on edges of standard. The flowers are very beautiful and bunch well. Like the original *Apple Blossom*, some flowers are deeper in color than others on the same vine. The vine is thrifty and the large handsome flowers are produced on long stems.

In sealed packets containing **twenty seeds each**: Per pkt. 15 cts.; \$1.00 per doz. pkts.; \$7.00 per 100 pkts. In lots of 500 pkts. or more, \$6.25 per 100 pkts.

In sealed packets containing **forty seeds each**: Per pkt. 25 cts.; \$2.00 per doz. pkts.; \$13.75 per 100 pkts. In lots of 500 pkts. or more, \$12.50 per 100 pkts. (Cable word, APPLE.)

White Spencer

produces in the greatest profusion pure white flowers of large size. It is white-seeded and the flowers are of the Spencer type and extremely beautiful. The bold standard is crinkled and fluted; the wavy wings are so folded that the keel is almost hidden. The flowers are borne three and four to the stem and are uniformly well placed.

The stems are extra strong and measure from twelve to fifteen inches in length. See note page 116 of THE FARM ANNUAL.

Wholesale: Per lb. \$1.50; 5 lbs. or more at \$1.40 per lb., or \$125.00 per 100 lbs. (Cable word, WHITE.)

Primrose Spencer.

The flowers are well placed on strong thick stems, ten to twelve inches long, and are borne never less than three flowers, and sometimes four flowers, to the stem.

The color is a pronounced primrose or creamy yellow throughout both standard and wings. It is equal in depth and richness of color to *The Hon. Mrs. E. Kenyon*, which, of course, it outranks both in form and size. See note page 116 of THE FARM ANNUAL. Wholesale: Per lb. \$1.50; 5 lbs. or more at \$1.40 per lb., or \$125.00 per 100 lbs. (Cable word, PRIMROSE.)

A Spray of BURPEE'S "APPLE BLOSSOM" SPENCER.—Exactly Natural Size,—engraved from a Photograph.

BURPEE'S FLOWER SEEDS.

ONE-QUARTER pound furnished at pound rates, and one-quarter ounce at ounce rates, where not less than sixty cents per ounce. Of the cheaper flower seeds, not less than one-half ounce will be supplied at ounce rates. *Not less than one ounce will be supplied of varieties priced at 15 cts. or less per ounce.*

These flower seeds are all of the finest strains of the best varieties, and are sure to give satisfaction. While many are grown by ourselves at FORDHOOK and SUNNYBROOK FARMS or by our private growers in America, all are tested thoroughly both for vitality and purity. Those that are imported are obtained only from the best growers in Europe, whose gardens we have repeatedly inspected. The whole makes a collection unexcelled in uniform excellence of quality and vastly superior to the commercial grades commonly sold. It is generally admitted that **we grow a larger area of Flower Seeds, and test all varieties more thoroughly on our own grounds, than do any other American seedsmen.**

As is well known, we are headquarters for Sweet Peas (see preceding pages), supplying the most critical trade, both at home and abroad, with thousands of pounds annually.

We call your attention especially to our Nasturtium seed, which is grown for us under careful supervision, and is of a quality much superior to the usual strains offered to the trade.

BURPEE'S SEEDS GROW!

This well-known motto is equally true of our Flower
Seeds as of Vegetable Seeds. The vitality of each variety
is proved thoroughly before the seed is offered for sale.

BURPEE'S SEEDS GROW and are famous

for the Uniform Excellence of their Products

The Burpee-Quality in Seeds!

Burpee's Seeds cost but little more than do usual commercial grades,—and yet are worth much more. At our own farms in Pennsylvania and New Jersey, as well as in the gardens of planters everywhere, BURPEE'S SEEDS are proved by test to be the BEST SEEDS THAT GROW. Consequently, we hold THE LARGEST MAIL-ORDER SEED TRADE IN THE WORLD. W. ATLEE BURPEE & Co.

We are Specialists in Seeds.

Our entire attention is devoted to producing and distributing Seeds,—Seeds only and only Seeds of the Best Quality. Our aim is to do *this one thing well*,—consequently we do not handle Dutch bulbs, small fruits, nursery stock, nor other kindred lines such as fertilizers, implements and poultry supplies. We shall be pleased to have your order for Seeds and *know* that we can serve you well! At the same time we will gladly give any advice in our power as to your other horticultural requirements.

The small illustration herewith shows the Fifth Street frontage of THE BURPEE BUILDING, our main city warehouse. Here we are pleased to welcome our customers when they may have occasion to visit Philadelphia and to give those interested an invitation to inspect our Pennsylvania and New Jersey Farms during the growing season. We have nothing to conceal in our business and are always glad to show everything of interest either in the city warehouses or on the farms. W. ATLEE BURPEE & Co.

Burpee's Seeds are Famous for their Prize-Winning Products.

At the TRANS-MISSISSIPPI and INTERNATIONAL EXHIBITION, held at OMAHA in 1898, we received **Three Gold Medals** on our exhibits of *Roses, Cannas, and Sweet Peas*. At the PARIS EXHIBITION we received the **Only First Prize** on *Sweet Peas* and a **Silver Medal** for photographs showing views of Trial Grounds, Seed Crops, and Seed Cleaning as conducted at FORDHOOK FARMS. At the PAN-AMERICAN EXPOSITION, BUFFALO, 1901, we were awarded a **Silver Medal** on *Sweet Peas*.

At the WORLD'S FAIR, ST. LOUIS, 1904, the products of **Burpee's Seeds**, together with our own growing exhibits, won **TWO GRAND PRIZES, THREE GOLD MEDALS, and FOUR SILVER MEDALS**. At the LEWIS AND CLARK EXPOSITION, PORTLAND, OREGON, 1905, we were awarded the only **Gold Medal** for lawns produced by FORDHOOK FINEST LAWN GRASS, and the only **Gold Medal** for growing display of *Sweet Peas*.

WE KNOW SEEDS by means of the FORDHOOK TRIAL GROUNDS. We sell only seeds known to be good—THE BEST SEEDS THAT GROW!

Summer=Flowering Bulbs

The bulbs offered here are of the finest quality, being grown especially for us; they are all true to name and are now properly stored in our warehouse awaiting orders. Twenty-five bulbs or more of one kind will be supplied at the rates per 100. Special quotations on large quantities. We call attention to our Tuberose, which are particularly fine strains.

Early Sweet Corn,—Burpee's "Golden Bantam." ◎

Earliest and Best Extreme-Early.

Golden Bantam is the hardest sweet corn for the cool Northern States. It is also the best variety to plant late in the summer for late fall use.

It is the richest in flavor of all!

Golden Bantam, introduced in 1902, has become already the most popular of all extra-early sweet corn. Planters write us that they must have the **GOLDEN BANTAM**, no matter what it costs!

Golden Bantam is not only extra-early but also extra-hardy. Although the grain in the young tender state is sweet and rich beyond comparison, the dry seed is quite solid, permitting of the earliest planting. Plantings can be made a week or ten days earlier than with the shriveled seed of regular types. Even if planted at the same time, **GOLDEN BANTAM** is as early as the *Cory* and vastly finer in flavor.

Golden Bantam is dwarf in growth, the stalks averaging four feet in height. The ears are from five to seven inches in length; but what it lacks in size is fully made up in productiveness and quality. The small stalks can be grown closely

together in the row and in good soil will produce two and three fine ears to a stalk.

Golden Bantam is named because the grain when ready for use is a rich creamy yellow, deepening to orange-yellow as it ripens. This distinct color is so unusual that many persons seeing it for the first time ask: "Is that really a sweet corn?" A single trial of its splendid quality soon convinces them that **GOLDEN BANTAM** is actually the finest flavored of all sweet corns!

Golden Bantam, while especially recommended for the Northern States, is desirable also for warmer locations, both as a first-early and for late plantings. It is valuable because the ears, protected by a good firm husk, are not liable to smut as is so often the case with sweet corn in the South.

301 Golden Bantam of our selected strain, northern-grown seed. **WHOLESALE: Per bushel \$4.50; five bushels at \$4.40 per bushel, ten bushels or more at \$4.25 per bushel.** Code word **CLARIONET**.

"Free Advertising" for GOLDEN BANTAM!

Since August 8th we have been eating some of the best sweet corn that we have ever tasted. It is not only very early, but the sweetest, richest and best flavored we ever tried, not excepting *Stowell's Evergreen*. It also stays soft, in eating condition for a long time. The name of this corn is **GOLDEN BANTAM**, and we got a quart of seed last spring of Burpee, Philadelphia. We wish everyone that likes corn could try this one. Do not think I am advertising Burpee. He doesn't know that I am writing this. The friend who told us of this corn has our everlasting regards, so we want to pass the word along.—E. E. LAWRENCE, *South Spofford, Onondaga Co., N. Y.*, in *THE AMERICAN CULTIVATOR, Boston, Mass., September 5, 1908*.

Surpassingly Delicious in Flavor!

Golden Bantam still holds the fort as the sweetest and best of all the sugar corn. Tests made in a number of different points show that on account of its yellowness and smallness it didn't sell readily, but whenever tried on the "no pay if not satisfactory" principle it has made a market for itself. Advice received by us this year shows that it held markets wherever introduced. Next to this as a real big corn of all the varieties tested by us directly and through others, the **COSMOPOLITAN** has the greatest number of firm friends. It is a good big ear, and of course is far sweeter than the majority of early so-called sweet corn.—*Report of H. B. Fulleton, Director of Experiment Farms, L. I. R. R., Huntington, N. Y., September, 1908*.

Golden Bantam is so tender and sweet that I only wish I had planted one acre more, as all my people want it. I think next year I will plant no other sweet corn.—*JOS. PERLEY, R. F. D. 20, East Akron, Ohio*.

Golden Bantam is the sweetest and "corniest" of all early corns. We are more than pleased.—*MRS. O. B. EVANS, Richmond, Mich., August 13, 1908*.

Golden Bantam was all used up in our market trade. People got a taste and would have it.—*N. STARR & SON, Cortland, N. Y., December 25, 1907*.

Golden Bantam I believe to be the greatest novelty for fifty years. My garden was such a success last year that three of my neighbors joined with me in this order this time.—*CLARENCE B. SIMRELL, Babylon, N. Y., February 17, 1908*.

Golden Bantam turned out very fine and I had green corn on my table every day through the months of August and September, the longest season I have ever heard of. My man sold several thousand ears above what we had for our own use.—*PAUL BROWNE, Rhinelander, Wis., October 26, 1908*.

Golden Bantam! I never ate anything so delicious in my life as this corn in sweetness, flavor and tenderness. I shall not plant any other corn next year, but plant it continuously, for it has spoiled me for any other variety! Your "Brittle Wax" surpasses any bean I ever had in quality. The bushes began bearing early in July and were loaded until frost came.—*EDWARD E. WHITCOMB, Keene, N. H., October 26, 1908*.

Golden Bantam a dandy corn and no mistake! We have been feasting on same for a week or ten days through the kindness of our neighbor who planted alongside my *Cory* and *Country Gentleman* same day,—and our corn not yet fit to eat. Rather tough on the old seedmen to get beat by an amateur gardener, but such is a fact! Some 15 or 20 years ago I remember seeing a full-page picture in *Harper's Weekly* of a colored gentleman who had just purchased a Christmas Turkey and holding it up at arm's length with an admiring look he remarks "de breed am small, but the flavor am delicious;" this fully expresses my opinion as to the quality of Burpee's **Golden Bantam**.—*S. Y. HAINES, 2022 West 44th Street, Minneapolis, Minn., August 23 1908*.

Celery,—Golden Self-Blanching. ◯

This is the most popular of all celeries, being grown in large areas for market throughout the country. The early spring and summer supplies come from Florida and other southern points as well as from California, while in the fall and early winter carload shipments are received in the large cities from the celery farms in northern Pennsylvania, New York, and other cool sections.

A Bunch of GOLDEN SELF-BLANCHING CELERY,—from a Photograph.

Golden Self-Blanching

is of such quick growth and easy blanching character, combined with handsome appearance and crisp, sweet flavor, that it is most desirable both for the planter and the consumer. It is also the most satisfactory variety for the home garden, on account of its fine quality and because very little banking is required to secure finely blanched stalks. The plants are of compact growth, the broad thick stalks being from eighteen to twenty inches in height and forming a large handsome bunch. The rich golden-yellow stalks are crisp and brittle, entirely free from stringiness. Owing to its quick growth and tenderness of the stalks, the GOLDEN SELF-BLANCHING is not a good keeper. To have it in the finest condition it should be used or marketed direct from the rows where it is grown.

In growing this fine celery, either for home use or for market, it is essential that the planter should use only seed which has been saved from carefully selected plants,—otherwise there is danger of the plants producing hollow or pithy stalks in hot dry weather.

Golden Self-Blanching was first introduced by us from France in 1884, and we handle only the most costly seed grown in France for us by the originator. Our superb strain can be relied upon to produce plants of uniform growth with crisp, solid stalks of the finest character. The true stock will produce, however, a few plants with dark-green stalks, but as a rule these dark-green plants average less than *two per cent.*, while in some seasons not a single plant "reversion" is seen in a large field. Wholesale: Finest French grown seed, at **\$2.75 per lb.**; 5 lbs. at **\$2.65 per lb.**; 10 lbs. or more at **\$2.50 lb.**

THE NILES CELERY FARM.

WELLSBORO, PA., December 18, 1906.

W. ATLEE BURPEE & Co., Philadelphia.

Gentlemen:—For the past five years we have used your GOLDEN SELF-BLANCHING CELERY seed for our main crop, and have never had any serious loss on this stock from what is known as "Blight."

Every year we test seed from other firms, and this season we got a loss of nearly one thousand crates as the result of our experiments. We could trace the leaf trouble back to the beds where the plants showed poor roots and pale seed leaves in their early growth.

After our five years' experience we are now fully convinced that we must have celery seed from healthy plants to produce strong, vigorous stock.

The market requires larger celery every year, and unless our plants start out as soon as set in the field with a vigorous growth they are not in any condition to withstand the hot dry weather of August and September.

Last season we used seed sent us in 1905 and still have a small quantity on hand. We did not order any last year, *i. e.*, in 1906. If you are able to get us any seed from extra good stock, grown by reliable parties, we will appreciate the attention given our order, and gladly pay for any extra expense and trouble you may be put to. This is of vital importance to our success in our business. Our loss this year by using new seed is fully \$3000.00 and we do not care to repeat our experience another season. . . . Prices in October and November were out of sight and helped us to recover the ground lost early in the season.

We also want the best *Big Boston Lettuce* seed that money and your experience can buy. A crop of lettuce from clean seed, true to name and free from freaks and sports, will bring in more money than celery. We have had lettuce fields where over one-half of the plants would be false heads and all sorts of strains besides *Big Boston*. This is the only variety of any value to ship to Philadelphia and is used by all leading growers in the South for winter.

We have been buying all over and your stock and ——— have given us the most satisfaction. Please let us hear from you, and oblige,

Yours truly,
AARON R. NILES.

Two Sample Letters (entirely unsolicited) from Extensive Growers.

MONTROSE FARM.

C. H. KENNERLY, Proprietor,
PALATKA, FLORIDA, April 29, 1907.

W. ATLEE BURPEE & Co., Philadelphia, Pa.

Gentlemen:—I wish to tell you of the success I have had with your strain of GOLDEN SELF-BLANCHING CELERY SEED. If I had bought the seed and they had gone back on me I should have registered a kick, and since I have gotten such excellent results I think it is only justice to you that I tell you of it.

I set out this season between thirty and thirty-five thousand plants, and notwithstanding the severe drought I cut from this patch six hundred crates of fancy celery. You will see from this that the celery had to average four dozen to the crate straight through, a lot of it running two dozen to the crate. I sent Mr. John Simon (who handles all my celery in Philadelphia) a crate of the two dozen. He can tell you just how it was as to quality. I am just in receipt of a letter from Mr. John Simon, and will quote you what he says in regard to the quality of this celery:

"Some of the celery we received from you marked 'Extra Fancy' was of the prize-taking kind, and I was very much disappointed at being obliged to sell it at such prices as our market offered."

I have been at the business long enough to test the leading seedsman's strains of *Golden Self-Blanching*, and for my crop—*give me BURPEE'S!*

I use your seed *exclusively*, and if you wish to use them can send you some pictures of my farm showing vegetables growing from your seeds. I also have a picture, taken a day or so ago, of twelve stalks of celery weighing twenty-four and a half pounds, and this was just the average size of celery we cut.

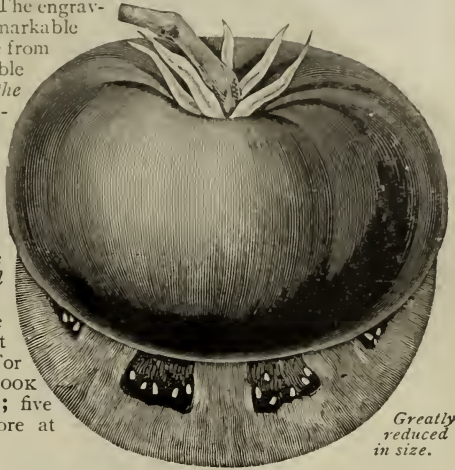

I have in three acres of your tomatoes and let me tell you they are fine, especially *Burpee's Earliest Pink*.

Yours truly,
(Signed) C. H. KENNERLY.

The Best Scarlet Tomato!

Burpee's MATCHLESS Tomato.⊙

The best large-fruited bright red Tomato. THE MATCHLESS is well worthy of its name; in beauty of coloring and symmetry of form it is indeed without a peer. The vines are of strong vigorous growth, well set with fruit. The engraving accurately shows the form and also the remarkable solidity of a section. The fruits are entirely free from core, of a rich cardinal-red color, and are not liable to crack from wet weather. They are of the largest size, and the size is maintained throughout the season, the healthy growth of foliage continuing until killed by frost. Had we to confine ourselves to one variety it would be THE MATCHLESS, for certainly no other tomato will produce a full crop of extra large scarlet fruits, so smooth, handsome, and marketable as the Matchless. The flesh is so firm that ripe specimens picked from the vine will keep in good marketable condition for two weeks. Its fine quality, solidity, and long-keeping character have made BURPEE'S MATCHLESS TOMATO a great favorite for both market and family use. For selected seed of our own growing at FORDHOOK FARMS we charge at wholesale: Per lb. \$2.25; five pounds at \$2.20 per lb.; ten pounds or more at \$2.10 per lb.

Greatly reduced in size.

Matchless grown in Ohio and Michigan. This seed, which is also first class (or we would not handle it), we offer wholesale at the following prices: Per lb. \$1.60; five pounds at \$1.55 per lb.; ten pounds or more at \$1.50 per lb.

You will get first-class seed whichever you order, but there are some extensive growers for market who would insist upon having Fordhook seed, even if it cost four times as much. Were we willing to publish letters from truckers in the South who grow for the northern markets, it would be a revelation to our readers as to the difference in quality of crops produced,—from BURPEE'S MATCHLESS and seed of so-called "Matchless" purchased from other seedsmen in Philadelphia and elsewhere.

The Best Purple Tomato!

Burpee's "Trucker's Favorite" Tomato.⊙

BURPEE'S
TRUCKER'S FAVORITE
TOMATO.
Less than average
size.—from a
Photograph.

The finest large-fruited purple Tomato. Most regular in form and size, thick-meat and very solid, this is one of the largest smooth tomatoes grown. Of a beautiful purplish-red color, well ripened throughout, the smooth fleshy fruits always bring the highest prices on our Philadelphia markets where their fine flavor is specially esteemed. The vines are of strong growth, not subject to rust or blight, and bear enormous crops until killed by frost. The fruits continue of large size to the very last and are unexcelled for slicing or cooking.

As a dependable main-crop pink or purple sort no variety in cultivation to-day is the equal of this TRUCKER'S FAVORITE.

Fordhook-Grown. This carefully selected strain cannot be too highly recommended. Wholesale: \$2.25 per lb.; five pounds at \$2.20 per lb.; ten pounds or more at \$2.10 per lb.

First-class seed grown in Pennsylvania, New York, and New Jersey: Per lb. \$1.60; ten pounds or more at \$1.50 per lb.

Burpee's "Novelty" Collection of Six Superb "Spencer" Sweet Peas for 25 Cts.!

Never before has it been possible to offer such a superb collection of the new "Spencer" Sweet Peas at a moderate price.

For 25 Cts. we will mail one 15-cent packet of BURPEE'S APPLE BLOSSOM SPENCER, as shown, painted from nature, on front cover and described on page 108; one liberal packet each of BURPEE'S WHITE SPENCER and PRIMROSE SPENCER, as described on page 116; one regular packet each of the crimson-orange, HELEN LEWIS (page 114), and the exquisitely dainty "pink-edged" FLORENCE MORSE SPENCER, as described on page 115; together with a 15-cent packet of the NEW SUPERB SPENCER SEEDLINGS, as described on page 117,—the first really fine mixture of this magnificent, gigantic, ruffled, Orchid flowered race.

These six superb Spencers, together with our new Leaflet on the culture of Sweet Peas, mailed to any address upon receipt of **only 25 cts.**, five collections for **\$1.00**, and mailed to separate addresses if so ordered. Even at our reduced prices "per pkt." for 1909, if purchased separately, these SIX "SPENCERS" would cost 75 cts.!

Eight Elegant New "Standard" Sweet Peas. For 25 Cts. we will mail one regular retail packet each of the following:

The new flaked PRINCE OLAF and the richest dark navy blue, BURPEE'S BRILLIANT BLUE, both described on page 119; the "apricot and lemon," SYBIL ECKFORD; the "peach blossom pink," QUEEN OF SPAIN; the Gloxinia flowered mottled, HELEN PIERCE; the fadeless scarlet, QUEEN ALEXANDRA; the orange-salmon, BOLTON'S PINK, and a large 10-cent packet of the unequalled *Special New* BURPEE'S BEST MIXED FOR 1909, as described on page 119. Separately these eight packets would cost 75 cts.

25 Cts. buys all of these eight elegant standard (grandiflora) Sweet Peas, or five collections will be mailed for \$1.00. Purchased separately at prices "per packet" these eight would cost 75 cts.

25 Cts. buys either of the above collections, or **\$1.00 any five collections**, assorted as desired, and mailed to separate addresses, if so ordered.

For 50 Cts. we will mail **both collections** as above, together with your choice of a 15-cent packet of either BURPEE'S KING EDWARD SPENCER, shown on Colored Plate page 109, the New PRINCESS VICTORIA SPENCER, described on page 112, or the gorgeous English St. GEORGE.

In every instance the pages referred to are those of THE FARM ANNUAL FOR 1909.

Burpee's New "Dollar Box."

For One Dollar we will mail **both the above collections** and also one 15-cent packet each of BURPEE'S KING EDWARD SPENCER,—PRINCESS VICTORIA SPENCER,—St. GEORGE and the bright rosy-carmine GEORGE HERBERT, as described on page 113; together with one regular-sized packet each of the Grandiflora KING EDWARD VII,—MRS. COLLIER,—AGNES ECKFORD,—BURPEE'S MIDNIGHT,—DOROTHY ECKFORD,—the brilliant orange-salmon EVELYN BYATT, and the best standard deep pink JANET SCOTT.

These 25 varieties, each in regular retail packets, at prices "per pkt." would cost **\$2.75**—if purchased separately either from us or elsewhere,—and you could hardly obtain all these varieties from any other one seedsman. For "good measure" we shall put in each box, this season, also a liberal packet of the New English IVY MILLER Sweet Pea; this is a lovely grandiflora white flushed mauve with decided picotee edge. So that you really receive 26 packets choicest Sweet Peas,—that are worth **\$2.90**,—for only **one dollar!** No more acceptable present could be made to a distant friend than this grand New Burpee Box of Sweet Peas for 1909. For many years we have been recognized as AMERICAN "HEADQUARTERS FOR SWEET PEAS" and are determined to maintain this unique position.

Wholesale. We offer any of the quick-selling popular 25-cent collections at **\$1.80 per dozen** or each, and **60 cents each** for either of the "Dollar Boxes," by freight or express, at purchaser's expense for transportation charges.

Burpee's GEM COLLECTION of ANNUALS

"Encourage the Beautiful, for the Useful encourages itself."—GOETHE.

Eight Packets Beautiful Flowers for 25 Cts.

More than twenty-five years ago we originated the plan of offering each season a GEM COLLECTION, containing a fine assortment of choice flowers for only twenty-five cents. So popular has this collection been each season that, still further "to encourage the beautiful," we have endeavored now to surpass all previous efforts, and hope to induce thousands more to begin the culture of Beautiful Flowers from seed.

For 25 Cents we will mail one packet each of all the following:

Asters, Fordhook Favorites in special mixture, as described on page 127.

Candytuft, White Hyacinth-Flowered, as described on page 131 and illustrated herewith. The planter, however, must not expect that all the heads will be as large as the one illustrated.

Dianthus, "Fordhook Favorites." The popular Chinese Pinks, as described on page 133.

Eschscholtzia, Burbank's New Crimson, as offered and described on page 134.

Ipomoea, New "Fuchsia-Flowered." The beautiful climber, as described and illustrated on page 125.

Pansy, Imperial German Splendid Mixed, as described and illustrated on page 139.

Phlox Drummondii Grandiflora. Burpee's strain as grown at Fordhook Farms and described on page 142.

☞ In every instance the pages referred to are those of THE FARM ANNUAL FOR 1909.

☞ See pages 43 to 46 of this catalog, where all desirable varieties of Sweet Peas are offered—the best of both old and new. We are "Headquarters on Sweet Peas."

Wholesale. We offer any of the quick-selling popular 25-cent collections at \$1.80 per dozen or \$13.50 per hundred collections. For the "Dollar Boxes" we charge 60 cents each by freight or express, at purchaser's expense for transportation charges.

Burpee's Collections of Nasturtiums for 1909.

For 25 Cts. we will mail one full-size packet each of the wonderful **New Variegated Queen**,—a mixture of Burpee's New "Royal-Race" of Tall Nasturtiums.—Burpee's **Brilliant Beauties** in Tom Thumb Nasturtiums.—Burpee's New **Giant-flowered Tall Nasturtiums**,—the new complete mixture of Burpee's **Tall Ivy-Leaved**,—**Dwarf Lilliput Mixed**, and Burpee's "Crazy-Quilt" Bush, a special mixture of all dwarf varieties including the new **Bush Ivy-Leaved**.

For \$1.00 we will mail one full ounce each of the above six, which purchased separately would cost \$1.60. ☞ With each collection we enclose our leaflet on *How to Grow Nasturtiums*.

Burpee's Farm Annual for 1909 has been mailed to all who receive this list.

Have you received a copy?

If not, you should write at once for a copy. Each year we endeavor to make THE FARM ANNUAL better, and are satisfied that never before have we been able to offer planters a finer lot of novelties or seeds of a higher quality.

BURPEE'S BOX OF FLOWER SEEDS

THIS box of CHOICE FLOWER SEEDS, put up in a neat and attractive style, contains the same fine quality of fresh seed as supplied to our own critical retail trade. Dealers having had frequent complaints from the flower seeds usually sold, will now find this a pleasing and profitable department of their business. The selection embraces the most popular and quick-selling varieties.

EACH BOX CONTAINS

Five 5-Cent Packets each of

ALYSSUM,—Sweet.	NASTURTIUM,—Tom Thumb, Burpee's "Gorgeous" Mixture of New Varieties.
ASTER,—Choice Mixed.	NASTURTIUM,—Fordhook Favorite Climbing, Mixed.
" Finest Mixed Comet.	NASTURTIUM,—Hybrids of Madame Gunter.
BALSAM,—Burpee's Superb Camellia-Flowered, Mixed.	PANSY,—Good Quality, Mixed.

Wholesale Price to the Trade, \$4.00 for the Box complete.

It can be sent by mail for 20 cts. additional.

ADDITIONAL PACKETS

of any of the varieties mentioned above, to fill up the box, will be supplied at the uniform price of

\$2.50 per 100 packets, or

\$2.00 per 100 packets, when 500 packets or more are ordered at one time.

BURPEE'S 25-CENT FLOWER SEED COLLECTIONS sell quickly and allow the dealer a margin of ten cents on each collection. Our collections for 1909 are better than ever before,—see pages 60 and 61.

BURPEE'S NEW CABINET

OF

VEGETABLE SEEDS.

This is a handsome cabinet, beautifully finished in hardwood, that will be an ornament to any store. It stands 40 inches high and is 30 inches broad, divided into 48 compartments. The front of each packet of seed is shown, while the packets are held in place by a neat metal bar across each compartment. Cost of cabinet alone is **\$4.00**, but we will supply the **cabinet complete**, filled with **1000 packets** of seed as enumerated below, for **\$20.00**.

The sale of these (at 5 cts. per packet) will allow a clear **profit of \$30.00**, and give the cabinet **Free**.

Burpee's New Vegetable Seed Cabinet contains 1000 Packets as per List given below.

	30 Ruta Baga,—Improved Purple-Top Yellow.
	8 Herb,—Sage.
	6 " Sweet Marjoram.

ADDITIONAL PACKETS

of any of the varieties mentioned above, to fill up the cabinet, will be supplied at the uniform price of

\$2.50 per 100 packets, or

\$2.00 per 100 packets, when 500 packets or more
are ordered at one time.

NEW MUSK MELON,—BURPEE'S "FORDHOOK,"—Two-thirds Size, from a Photograph.

Burpee's New "Fordhook" Musk Melon.

Fully equals our Emerald Gem in delicious flavor. So firm is the rough-netted skin, and so solid the thick salmon flesh, that the melons carry to market even better than do Burpee's Netted Gem,—the famous "Rocky Ford" Melon.

Fordhook Melon is the result of a cross between *Burpee's Emerald Gem* and the *Improved Jenny Lind*. As shown by the illustration, it resembles the "*Improved Jenny*" in form; it is equally as roughly netted, while the skin, showing between the netting, is emerald-green. The flesh is very thick, of an attractive deep salmon color and surpassingly sweet to the very rind. It is fully equal in flavor to the *Emerald Gem*. Many say that it is even better,—"*the most delicious of all melons.*" The beautiful salmon flesh, while so surpassingly luscious, is not only very thick, but also extremely solid. The rind, although thin, is unusually firm, so that the fruits carry well to market. There are no musk melons (or cantaloupes) that are better shippers.

Fordhook Melon is most vigorous in growth, very early and extremely prolific. The fruits are ready for market fully as early as the green-fleshed *Early Jenny Lind*. The vines grow vigorously and each vine sets from five to nine melons immediately around the stem; frequently the fruits touch one another. The melons are remarkably even in size, weighing from 1 lb. 8 ozs. to two pounds each. They are always of the handsome form and attractive appearance illustrated above. "FORDHOOK" is so "*thoroughbred*" that there are practically no fruits unfit for market.

Wholesale, **\$2.25 per lb.**, ten pounds or more at **\$2.10 per lb.**

The Name—Burpee—is synonymous not only with "The Best Seeds that can be Grown," but also with many of the best Melons grown in America. Twenty-eight years ago (in 1881) we first named and introduced *Burpee's Netted Gem*,—now the most popular musk melon in cultivation and the variety that, under the market name of "*Rocky Ford*," has made Colorado famous. Twenty-three years ago (in 1886) we introduced the celebrated *Emerald Gem*, which has been recognized ever since as the "Sweetest of all Melons"—the standard by which all others must be judged as to quality. Of our other introductions which have become standard varieties we would mention *Bay View*, *Montreal*, *Champion Market*, *Golden Eagle* and *Burpee's Matchless*. We have been equally successful in the introduction of Water-melons. The above record of Musk Melons, however, will suffice to show that *we know melons*, and that when we introduce a variety under the name of FORDHOOK, "**Burpee's Best**" Musk Melon. we stake our reputation that it is all the name implies,—

⚡ Please remember—should you forget our full firm name, that it is sufficient to address simply,—either letter, telegram, or cable message,—

Burpee, Philadelphia

The New Burpee-Improved Bush Lima.

Earliest, Largest and the Best of all Large Limas! The sturdy bushes are loaded with pods that are truly enormous in size! The luscious green beans are larger than any Limas ever known before!

The "Burpee-Improved" is a distinct "New Creation" and not merely an improved selection made by man. It shows a most remarkable advance and its discovery is of incalculable value to American Horticulture.

It differs from the best strains of *Burpee's Bush Lima* in having uniformly much larger pods, producing more beans, while both pods and beans are not only larger in size but also considerably thicker. The stiffly erect upright bushes are more vigorous in growth, with heavier foliage. Full-grown bushes measure thirty inches in height and twenty-four inches across the top.

The "Burpee-Improved" produces magnificent crops of pods which measure from five to six inches long by one and one-quarter inches wide. The blossom-bearing stalks are thrown well out from the foliage and the pods are borne in what might be called "clusters" of from five to eight. As compared with *Burpee's Bush Lima* both pods and beans are very much larger, while the beans, either green or dry, are nearly twice as thick. Even when of full size the enormous beans are of the most luscious flavor; they are thin skinned and truly delicious!

The "Burpee-Improved" is fully eight to ten days earlier than any other Large Lima, either bush or pole,—see simple reports printed in our Retail Catalog. This one feature alone would suffice quickly to make it the most popular of all Large Limas. We have tested all varieties,—both bush and pole,—and know whereof we speak!

The Burpee-Improved Bush Lima

will outyield *Burpee's Bush Lima* by fully one-third. This greater yield is due to the increased size of both pod and beans. The dried beans are very handsome and generally show a greenish-white coloring, while dried beans of the *Burpee Bush Lima*, like those of the Large Pole Lima, are pure white. **Wholesale:**
\$15.00 per bushel.

Electrotypes of THE BURPEE-IMPROVED and FORDHOOK BUSH LIMA BEANS will be furnished at actual cost (which is merely nominal),—but

only to houses who properly catalog these varieties and place an order for seed with us.

Pods, Natural Size, of THE NEW "BURPEE-IMPROVED" BUSH LIMA.

A Plant of the Unique FORDHOOK BUSH LIMA,—reproduced from a Photograph.

Fordhook Bush Lima Bean.

The *only* stiffly erect Bush form of the popular "Potato" Lima! Both pods and beans are twice the size of Kumerle or Dreer's Bush Lima.

Fordhook Bush Lima is altogether unique, and has created the greatest "sensation" of any vegetable ever presented. Until its introduction two years ago, nothing like it had ever been seen before! It was created by Nature as a single sport in a field of the Challenger Pole Lima in 1903. Previously the *Kumerle* (*Thorburn* or *Dreer's Bush Lima*) was the only dwarf form of the fat "Potato Lima." While this is largely planted, many gardeners have objected, however, to the prostrate growth of the plant, as the pods frequently become discolored from being beaten to the ground by the wind or rain.

Fordhook Bush Lima is of stiffly erect habit, branching freely but with all the branches held upright. This ideal bush growth is strikingly different from the low-spreading growth of the *Kumerle* or *Dreer's Bush Lima*. It has foliage like that of the large pole Limas. The leaves are large, smooth, and a dark rich green,—identical with the leaves of *Burpee's Bush Lima*,—as contrasted with the smaller pale green leaves of the *Kumerle*, *Thorburn* or *Dreer's Bush*.

Fordhook Bush Lima bears tremendous crops! The beans are ready for use as early as those of *Burpee's Bush Lima*, which furnishes fine Lima beans for the table three weeks earlier than they can be had from most pole varieties. The plump well-filled pods are *twice as large* as those of the *Kumerle* or *Dreer's Bush*, while the individual beans are also fully twice the size. The pods measure four to five inches in length, containing four to five large beans each.

Fordhook Bush Lima produces such large "Potato Limas" that visitors to our FORDHOOK and SUNNYBROOK FARMS have been astounded! The beans are very "fat" and lie so closely together in the pod that they are flattened on the ends. The pods are so fully packed that the beans are most easily shelled.

Fordhook Bush Lima has an additional merit over all other varieties of the "Potato Lima" type. The green beans, even when of full size, are tender, juicy and sweet in flavor when cooked, resembling the flavor of the finer varieties of large flat Lima,—as distinct from the rather dry and mealy character of all other varieties of the *Potato*, *Challenger* or *Dreer's Lima* type.

Wholesale, \$9.00 per bushel of 60 lbs.
