THE CONARD & JONES CO. ★ WEST GROVE PENNSYLVANIA

ROBERT PYLE, President R. T. SATTERTHWAIT, Secretary ANTOINE WINTZER, Vice-President

Our Nursery is located about half-way between Philadelphia and Baltimore on P. R. R. and on Main (Monument) Motor Route.
Certificate of Inspection from State Entomologist will go with each shipment.
All goods travel at buyer's risk. Orders from unknown buyers require satisfactory reference with time to investigate or cash with order. Prices are net F. O. B. West Grove, packing and boxing at cost. We reserve the right to advance prices without notice. Orders for five or more at ten rates, for 25 or more at 100 rates, for 250 or more at 1000 rates.

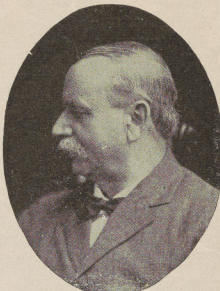

Grow plants like this for your Spring sales

Geraniums Are Scarce

But You Can Make Money With Cannas

Wintzer, the Canna Wizard of West Grove

You know what the Geranium situation is—it simply isn't! But you needn't go short on good bedding stock on that account.

C. & J. *Lily Cannas* will quickly fill your benches with strong-growing plants—plants that will sell like hot cakes next May.

These wonderful "*Lily Cannas*" developed by our Mr. Wintzer, are so distinct from the old types that their gorgeous coloring and broad, satiny petals have won them

the title "Summer Orchids." Not only are they already in great demand on their own merits, but they are the best available substitutes for Geraniums.

Wherever they've been seen they've created a big demand.

To cash in big on this big demand buy Canna roots now and grow your own plants for this Spring's sales. Conard & Jones Cannas continue to be the leaders.

These good, strong, clean, two and three-eye roots will make plants quick and sell fast next Spring.

Coming Back To Roses

When You Buy Them Be Sure To Get The Kind With the Right Kind of Comeback

Last few pages, we've been talking Cannas.

But while we've talked Cannas, our Roses have been selling right along. Result is, our stocks, though we had a remarkably good supply considering the Rose situation—are getting short. Short in quantity, but not in *quality*. They are up to the C. & J. standard.

When you buy Roses, the thing to think about twice isn't the price; the thing to give a long second thought to, is the *comeback*. *Will they make you happy customers? Boosters for your business?*

Stock that won't do that is dear at any price! It keeps on costing you cold cash (in lost orders) long after the first invoice is paid.

Stock you get from Conard & Jones will please your customers. You can send it out, knowing it's *true to name*, vigorous and full-sized. And what's true of our Roses, holds true of the other things below.

Order early—It Always Pains us to Return Your Money.

& JONES CO. PENNSYLVANIA

ROBERT PYLE, President R. T. SATTERTHWAIT, Secretary ANTOINE WINTZER, Vice-President

The President

Get These Twin Winners Started Ringing Your Cash Register

Snow Queen

We call them "Twin Winners" because they came along about the same time and one sells as fast as the other!

Each is the result of a quarter century of Canna breeding by our Mr. Wintzer, who has developed more varieties of Cannas in commerce today than probably all other hybridizers together.

Mr. Wintzer says these two, each in its class, are the best he has achieved. One is a burning scarlet, the other a crystal white. Grown separately or near each other in contrast, they attract the most enthusiastic admiration of all the Cannas in our collection of over a hundred varieties.

To enable every florist to work up his own stock of these Twin Winners we are making a special offer, as below. Order early; it will cause us both pain if we have to send back our regrets and your money.

The President

This immense new flaming scarlet has come into wider use more quickly than any other Canna we ever introduced. It is an offspring of the famous Firebird. The President leads the red varieties in the quality and also the quantity of its bloom. The flowers are 7 inches across; the individual petals are long and long standing, and do not burn, and the trusses stand up stiff on strong stems. The foliage is rich green and burn-proof in the hottest weather. Height, 4 feet.

One, 50c.; 10, \$3; 25, \$6; 100 for \$20, net, f. o. b. West Grove.

Snow Queen

Unquestionably the queen of all white Cannas. Mr. Wintzer has been striving especially for a perfect white Canna for many years. He says Snow Queen far excels anything he has succeeded in getting heretofore. The individual flowers are 6 inches across, the petals 2½ inches broad. There is an occasional hint of pink, in faint dots, in the petals, but from a few feet away the effect is a crystal, dazzling white. The large bloom clusters are borne in the greatest abundance, held well above the luxuriant foliage. Height 4 feet.

Price: 1, \$1; 10, \$6; 25, \$12; \$40.00 per 100.

Extract from the Florists' Review, September 28, 1919

"I have been much impressed with some of the new Cannas that I have tried this Summer and cannot refrain from mentioning two. These are The President and Snow Queen. President is by all odds the best red Canna today, larger and better than Firebird and a free bloomer; the foliage is strong and does not burn, as does that of Firebird. Those who have tried Firebird and lamented that it would not do on account of diseased foliage will rejoice to know that at last we have a Canna that is 'right.' Snow Queen is whiter than any other Canna on the Market. It is also one of the largest individual flowers among Cannas of any color, is as free as the freest, and the trusses are of enormous size. It has a better habit of growth and better foliage than either Eureka or Flag of Truce, the best two whites heretofore. Only in the best reds do we find anything that approaches it in general value."—Floyd Bralliar.

Mr. E. C. Vick, garden editor of *The New York Sun* was trained in the flower business with his father the great pioneer, Jas. Vick.

Among garden lovers who read *The New York Sun*, he has built up a wonderful following. After a personal test he reported in the *N. Y. Sun* last October 26th:

"Snow Queen is by all odds the best white Canna I have ever seen."

Cannas

Get Your Six Sets Of The Famous Super-Six

Here's an opportunity for you. Six of the finest of Mr. Wintzer's famous "LILY-CANNAS" and six bulbs of each, all for one price.

These wonderful new sorts, with their enormous trusses and broad, satiny petals, will be a great addition to your stock for selling or for planting out.

These thirty-six roots, potted up now, to get a good start and set out in the Spring, will give you a good substantial stock of these fine new varieties at a nominal cost. Simply order the "Super-Six Set"—Price \$4.

- 1 CITY OF PORTLAND**, 3½ ft. Glowing pink, deeper in color than its parent, Mrs. Alfred F. Conard, and the flowers are produced in greatest profusion. Strong plants.
- 2 LAFAYETTE**, 4 ft. Resembles the famous "Meteor," but the flowers are a more intense scarlet. The heads of bloom are carried erect above the healthy, green foliage, producing a brilliant effect in mass planting. Strong plants.
- 3 FLAG OF TRUCE**, 4 ft. A large, cream-white Cannas with faint pink dots on each petal and a sulphur-colored tongue. From a short distance the flowers appear pure white. Strong plants.
- 4 DRAGON**, 2½ to 3 ft. An incessant bloomer which keeps sending up new bloom-stalks until cut down by frost. Dark, ox-blood red. Strong plants.
- 5 MORNING GLOW**, 5 ft. Perhaps the fanciest of all our 1917 introductions. An imposing variety with green foliage and plants 5 feet high; of good habit, large clusters, flowers rich orange, petals broadly edged with pure pink.
- 6 GAITY**. Reddish orange, with a sharply contrasting band of yellow around edges of petals. Very distinct and showy. Free bloomer.
6 of each, 36 bulbs, for \$3.60, here; or \$4 delivered.

Avoid Extremes

In This Season's Shrub Buying

Unquestionably, there is unheard of demand for shrubs this year. Result is some buyers have paid record prices without question. And others, holding back on price, have bought shrubs of questionable quality at lower figures.

But when you order your shrubs this year, think of your customers' orders for shrubs next year. You can't afford to send out stock that won't give satisfaction. Don't let stock that looks cheap keep on costing you money next year and the year after in lost orders.

On the other hand, you need not throw away money on over-priced stock when you can get C. & J. quality stock at a reasonable price.

There's no question about the quality of any of our stock. Conard & Jones shrubs, grown by ourselves right here in West Grove, are the same superior grade as Conard & Jones Roses and Cannas. And our prices while this small surplus of stock lasts, will save you money, quality considered. Order what you want now for shipment when you want it.

THE CONARD & JONES CO. ★ WEST GROVE PENNSYLVANIA

ROBERT PYLE, President R. T. SATTERTHWAIT, Secretary ANTOINE WINTZER, Vice-President

The beautiful PERSIAN YELLOW Rose is commended highly, especially to those living in the colder sections of our country.

Its rich coloring and hardiness, combined with its early season of bloom and fragrant young foliage, give it a value among Roses comparable to the value of gold among metals.

A cousin to this Rose is HARISON'S YELLOW; like it in color but less double in bloom and more able to care for itself wherever planted. Both bloom earlier than even the Rugosas though not so early as HUGONIS.

The illustration on the other side is one of 16
in the 121-page book

HOW TO GROW ROSES

By ROBERT PYLE

THIS book is written for growers of Roses in America, and many say it is the most complete treatise on "How To Grow Roses" published. As a source of information the Author has had, first of all, over 20 years of practical experience in the business of growing Roses for America. In addition he has been on the Executive Committee of the American Rose Society since it was reorganized, and is now its President.

His business activities have comprised frequent visits to the foremost Rose-growing Nurseries in America and also in England, Ireland and the Rose-growing countries of Europe. To round out his experience, visits of inspection have been made to many of the private Rose-gardens where CONARD ★ ROSES are grown.

The Rose-growing information therefore is authoritative and is eagerly read by amateur and professional growers alike. Also the leading Landscape Architects in America use this as a reference book.

It makes a beautiful and acceptable present for a flower-loving friend and it is entertaining reading for anyone, even if they are so situated now that growing Roses is just something to plan and look forward to in the future. Send \$1 for a copy. We will gladly refund your money, if, upon receipt of the book you are not satisfied and return it to us in good condition.

CONTENTS

The Amateur's Rose Garden. Establishing Ideals. The Rose Lover's Calendar of Operations. Where to Plant Roses. Preparing to Grow Roses. Drainage. Soils. Fertilizers. Where to Plant. How to Plant, Prune, Select, and list of the leading Roses in use today. Also selections for the various sections of the United States of America from north to south. The interesting reading matter tells about Attar of Roses, Rose Beads and how to make them, the most Famous Rose Garden in the World, etc.

E. M. Mills, D. D., Syracuse, New York
President Syracuse Rose Society

"I regard your book 'How to Grow Roses,' the best book I have ever seen for the average amateur, not only for what it contains, but for what it leaves out that only overloads and confuses the beginner."
Nov. 29, 1919.

Amy L. Cogswell, Principal Lowthorpe School
Groton, Mass.

"Gentlemen: I find your publication, 'How to Grow Roses,' so valuable that I write to ask you to send me seven copies for distribution in my class in 'Plant Materials.'"
Aug. 27, 1919.

Mrs. E. L. Mason, Washington, D. C.

"I want to tell you I have your book on 'How to Grow Roses' and it has been a constant source of pleasure and of the greatest help to me."
Aug. 27, 1919.
