NEW SERIES, VOLUME 14

No. 13

This number contains the Volume Index

The act of March 4, 1909, going into effect July 1, 1909, provides that the Catalogue of Copyright Entries "shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

EXPLANATIONS TO BE NOTED BY USERS OF THIS CATALOGUE.

THE Catalogue of Copyright Entries is published in four parts. Part 3, containing the entries for musical compositions and dramatico-musical compositions is issued at monthly intervals in twelve numbers each year, and is followed by a complete index for the year. The general arrangement is an alphabet of the titles of the musical works with certain exceptions explained hereafter. The arrangement is alphabetical under the first word of the title (except "a," "an," or "the," or the corresponding foreign articles), and a grouping at the end of the title alphabet of such titles as will not conveniently alphabetize (e. g., titles beginning with numerals, dates, etc.).

EXCEPTIONS.—(1) In the case of editions of classical music instead of scattering them under the titles, each author's works are brought together by an entry under the original composer's name, and for such works search should be made in this number under the following names: Bach (Johann Sebastian); Beethoven (Ludwig van); Bellini (Vincenzo); Bizet (Georges); Flotow (Friedrich von); Godard (Benjamin Louis Paul); Gounod (Charles François); Händel (Georg Friedrich); Haydn (Franz Josef); Liszt (Franz); Mascagni (Pietro); Mendelssohn-Bartholdy (Jacob Ludwig Felix); Meyerbeer (Giacomo); Moszkowski (Moritz); Mozart (Wolfgang Amadeus); Offenbach (Jacques); Paganini (Niccolo); Puccini (Giacomo); Rossini (Gioacchino); Rubinstein (Anton Gregorovitch); Schumann (Robert Alexander); Verdi (Giuseppe); Wagner (Richard). In case of all such works, however, there are cross references in the title alphabet from the title of each work.

(2) **COLLECTIONS** having general titles, such as "Fünf studien," "12 études élémentaires," etc., and pieces published without individual identifying titles, but designating the class of musical work (e. g., "waltz," "dance," "march," "cantata," "schottische," "nocturne," "impromptu," "sonata," "étude," "study," "exercise," etc., without differentiating words and only identifiable by the name of the composer) are entered under the composer's name without cross references from the titles.

IMPRINTS.—As the publishers of musical compositions are generally also the claimants of copyright the imprint is omitted, but when the name and address of the publisher differs from that of the copyright proprietor, mention of the fact is made at the end of the title as an imprint giving place of publication and name of publisher.

Piano music is understood to be for two hands unless otherwise stated. Songs are understood to be with piano accompaniment unless otherwise stated. Titles reading "Words by," "Music by," are to be understood as songs.

Under the act of March 4, 1909, the preliminary entry of titles has been abrogated and registration follows deposit of copies with an application for entry in the Copyright Office.
