(地区委木村)

。党防子についてはすでに資料、指令、會議等に於いてわかましくいつているが、滞納整理月間もすでに終りに近づいてくるといふ現在、細胞はなにか之を実施していい

党が当面の活動を行ひ、亦防正をするには先づ第一に財政問題も克服しなければならぬ。悪い細胞は何時も悪い、各自が党全作のことを考え、滞納整理月間の趣旨に沿う、結果をあげて欲しい。

現在市委員会にアカタ、紙代書籍、入を合し約十五万円の滞納がある。各細胞は百円位の余裕はある筈であるから、夫を月々収めて行けば、五百円位のことには、ほとんど困難ではなない。

。アカタ再刊のため中央では今あらゆる弾圧を排除して準備を行っている。と云ふから各細胞はこの空自を補うため細胞集団を積極的に発行したい。現在発行しているのは、希大、団鉄、電産位のものである。

この向題についても、紙印刷機と化つてくるとか、市委員会にあるから、之を利用して困難を克服して行われない。

○三千万円カンパについては資料も渡してあるが、之を党員だけに止めることはいい様、広く大衆に呼掛けカンパを行ふことが最も大切である

SUBJECT: A report on the activity of Koreans and communist in Shizuoka.

FROM : The Shizuoka municipal police.

1. Activities of former League of Korean Residents in Japan.

At 9 a.m. 10 July, former staffs of Shizuoka Branch of the League of Koreans in Japan, namely, Chin Ju-ko, Sei Ippi and Kin Ryu-ya, had a meeting in Shizuoka city, together with the communist OHASHI, URUSHIBATA and TSUJI; as the result of it the activities of Koreans became brisk; the campaign of "The Unification of Fatherland" was developed in the city from 10th July.

Posters containing the following slogans were posted in the city by the Prefectural Committee of the Democratic Unification of Korea:

Major slogans;

- (1) That to oppose to the armed interference by any of foreign countries with Korean civil war!
- (2) That to discontinue manufacturing arms which are to be used in killing our brothers in Korea, and discontinue the transportation of arms to Korea!
- (3) Destroy the Young S. Koreans Association as well as the Korean Mission in Japan which are the instruments of the traitor Syngman Rhee.

Boku In-so, the former chairman, and Boku Yo-sai disappeared from their respective homes just after the N. Korean invasion took place; the reason unknown.

2. Activities of Korean Residents Union in Japan.

Rumors are prevailing among the members of the Shizuoka Branch of the Korean Residents Union in Japan to the effect as follows:

"The former members of the League of Korean Residents in Japan are planning to assassinate the staffs of the Union and occupy the office room on the Independence Anniversary on 15 August. The Police is alert in watching on the two Korean organizations.

In compliance with the directive issued by the headquarters of said Korean's Union in Tokyo, the Shizuoka Branch decided to have a general meeting on 16 July.

3. The activity of the communist in Shizuoka.

The Preparatory Association for Establishing League of Democratic Young Men has recently commenced to develop a brisk campaign aiming to obtain firm foothold among the various young men's associations in Shizuoka.

Yoshio TAKI of the Free Laborers Union of Shizuoka City has recently disclosed that he was about to organize the Shizuoka City Branch of the League of Democratic Young Men.

In the latter part of June, KOGA, TSUJI, TAKI, URUSHIBATA, OHASHI and 30 others met in the premises of Sengen Shrine; in this meeting, the dispatch association of said association was organized by TAKI and 4 other persons.

In the evening of 10 July, a meeting was held by Koichi OHASHI, adviser to the Daily Life Protecting Cooperative Association of Shizuoka, #4-chome, Shintomi-cho; the attendants were Shigeru AKAI, Keiichi KAWAGUCHI, Shigeru AOSHIMA, Katsumi TUYOSHIMA (above persons were discharged by the national railroad) and about 24 other persons who had been discharged by the Communication Ministry. Resolution was concluded to strengthen the activity of said association.

4. The activity of labor unions, especially the Shizuoka Branch of Electric Industry Labor Union.

The existing opposition between the right and left factions among the Union was further intensified soon after the adjournment of the 5th General Meeting in May.

The rightist faction of the Union, i.e., the members of the Anti-communist Democratization League made a resolution to the effect that all the ultra-leftist members of the Union who are the blind followers of the Japan Communist Party shall be expelled from the Union. The members of the Anti-Communist Democratization League further decided that a new democratic organization shall be established in the Union by the members who agree with aforementioned resolution.

5. The activity of the Shizuoka Hqs. of All Communication Workers Labor Union:

The communist members of said Union who had been chased from their respective offices are sponsoring free-talking meeting once or twice a month; although they invite members of the Union to attend to the meeting, few non-communist Union members accept the invitation. Usual attendants are the communist members, who were discharged by the communication authorities, namely, Hideo NIIMURA, Shotaro NODA, Ai IKEGAYA, Chuji IKEGAYA, Masayuki SUZUKI, Kyoichi NAKAMURA, Shigeru YAMADA, Yukio MUNEKUMI, and Masao AGATA; present communist members of the Union who attend the meeting are Mitsue SUZUKI, Shigeo SANO, Miyoko KUNIMATSU, Chosei OKUBO, Kenji OGAWA, Tetsuro HATTORI and Wa MUNEKUMI.

SUBJECT : SPECIAL REPORT of Moves of Koreans
and Communists around Korean Civil War

Sirs:

Although reports on moves of Korean residents and Communists in the prefecture have been made many times since the outbreak of the Korean Civil War, development of the war situation has changed their moves. Their main trends run as follows:

A. Ex-members of now-defunct Korean League:

1. Seitaro Oyama, Korean Communists, 531 Furumizu, Okawa-mura, Ora-gun:

"America seems to force back North Koreans to the 38th Parallel in earnest. This would obviously make her find that she has expected many sacrifices, because she might probably intend to fight against the enemy as weak as a baby.

25.7.24
TIME

- 2 -

The civil war in Korea is for the unification and independence of the Korean race and has no nature to invite UN and American interference in itself. I wonder why they bring about even armed intervention. None interferes in the Chinese Civil War that Communist China fights against the Chian's regime for an independence revolution.

When drawing comparison between the American and the Russian attitude toward the Korean Civil War, Russians are finer and better."

2. Kin Gen-shoku, Communist and leader of now-defunct Korean League, Isesaki-shi:

"As wide as a half area of South Korea is already liberated by the "Liberation" forces. Very soon, Korea's unification will be realized by the North Korean troops.

The United States is so far from the front and will be unable to continue supplying before long. The liberation of Japan by Communists also, is near at hand. Unless those who registered to be the people of the South Korean regime and who is registering, also, withdraw the registration at once and support the North Korean regime, they will be killed.

Such being the situation, North Korean supporters embark on the planned dissolution of the Korean Settlement Corporation in Japan.

Soviet reserves a great quantity of A-bombs and H-bombs against the Japanese people and her holding is more than that of another country. It is only covered.

Even if how much Japan want neutrality, she would be saved from a Russian attack, now that the American troops station and there are military bases in Japan.

I am sure that America will give up Japan midway."

- 3 -

3. Sai Shu-ji, member of now-defunct Korean League, Yoriai-cho, Takasaki-shi:

The Communist propaganda functions became impossible completely to be activated owing to the suppression of the Communist organ, the Akahata.

Accordingly the Korean propaganda functions also, have been suspended.

To meet the plight, Sai and some others are propagandizing to the general public, as means of informing news of the front of the Civil War, through bills titled "Special Reports" and "North Korean Troops Enter Seoul Liberated" on notice-boards before ex-Korean League Office, Yoriai-cho, Takasaki-shi.

B. Korean Settlement Corporation:

1. Ro Toku-bun, Koizumi Branch Chief, Korean Independence Youngmen's League, 1960 Shimokoizumi, Koizumi-machi, Ora-gun:

"It can be said that the Korean Civil War is just the war between US and USSR. Indeed, Soviet is sly and unfair. If South Koreans lose the war, Japan will be completely held by Communists. At any rate, I hope the Korean Republic will win. We are much worried about the fate of the Republic. But she will surely win the war, because the United States started with a positive aid to her.

"It is now when Koreans in Japan have faith in America and should ask aid from the Japanese Government."

2. Hayashi, of Omama-machi, Yamada-gun, a member of the Gumma Prefectural Korean Settlement Corporation Headquarters.

The situation of the war between North and South Korea has begun to take a better turn to us on account of the direct cooperation of the American forces. We must not lose this opportunity. We must relief our mother country in haste, forming a volunteer army as ordered by the central headquarters.

- 4 -

Not only the North Korean Forces but also the Chinese communists and the Soviet have participated in the North Korean sides. It is why they are so strong. The invasion of Southern Korea is serious not only for us, South Koreans, but for Japanese. Now Japanese and Koreans, I think, must get rid of the Red cause.

3. Kin Kan-ki, a former Japanese Army Lieutenant, Hakoshima, Azuma-mura, Agatsuma-gun.

"It is unreasonable that a small and weak Korea is kept divided into two parts and each is independent; and it is like a man who was separated into a head and a body. We envy that Japan is occupied as a whole. At present North Korea lent ports to Russia, while South Korea gave good bases to America. As the matters stand, we Koreans cannot expect an independent country. We probably come home to go to the front. An information of the call will reach soon, although we have not got any yet."

C. Tendency of Communists:

1. Goro Yoshino, a sympathizer Communist (not formally joined the party), of Ara-machi, Takasaki-shi.

"Many news agencies reported that the north Korean forces invaded into South Korea. It is unknown which is the invader, for both have been struggling each other since the separation. But both are fatal to be tied.

The peace treaty for Japan will be postponed for the time being, affected by this war.

As the situation is improving by the American cooperation, it is not supposed that Russia may use force so easily; and the war will be settled sooner than expected."

2. Hiromasa Okawa, chairman of Communist Nitta District Committee, Ota-shi.

"Does Soviet Russia enter the war? I say not.

- 5 -

According to news in the part of America, Soviet will leave United Nations and raise an aggressive war, declaring war against America. It is America to give rise to a war. Soviet never agitates North Korea to the war as America is propagating. She takes up the position that a country executes her revolution by herself, so she never mobilizes her force in the revolution of Korea. Americans said the North Korean troops are helped by the Soviet Russian Army and are using the Soviet Russian weapons; but the former is caused by absolutely unfounded rumour from the American side, and as to the latter she may use them, for she is trading with Soviet, instead of direct military support by Soviet. In fact, Korea has been unified already. The South Korean people have been released by the North Korean forces and are welcoming them.

Lee Sung-man owes it to America that he has wielded power. Revolutions will occur in the countries in the so-called "the Great East Asia Co-prosperity Sphere". Among them are Japan and the Philippines.

It is prescribed by the Soviet-China Alliance that a revolution be caused by the people in 1952. We who are oppressed now must struggle for another two year.

Subject: Special Report: Trend of Communists and
Koreans in Japan concerning
War in Korea

Sir:

The civil war in Korea had passed about ten days in bad conditions of South Korea, turning into assistance by United Nations' Forces for South Korea, and finally, came to show a complex situation. However, the trends of Communists and Koreans in Japan became worthy of attention and the plight is hereby submitted as follows:

Trend of former Korean League members:

1. Tei Un-Tatsu (59), Arai, Ota-shi

I believe that North Korea will win the victory this time. We have no intention to dispute with South Koreans in Japan. But, at present, there are rather many South Koreans who support North Korea, I think. Now in Japan, among political parties, only the Communist Party is beneficial to us. We are very glad as the war of this time began before we were sent back compulsorily.

- 2 -

2. Rik Sho-Gaku, Former Agatsuma Area Committee Chief
of Korean League

The war of this time was foreseen. I hope that Korea shall be quickly unified by either of South and North Korea. But we are afraid of the third World War, being led to the Hot War from the Cold War. We were taken care of in Japan for a long time, and the Bolshevization of Korea has no relations to us. We are troubled if we are compulsorily conscripted for the volunteer.

3. Sai Rak-Sai, former member of Korean League,
Natsuida-machi, Usui-gan

Korea is a free country, not a country controlled by America. The internal disturbances of this time is a constructive one in order to build up the people's government and owing to opposition on thought. Sending arms to South Korea by American troops is just a premise of World War III. And aids of arms by American troops will bring a disadvantage to themselves. Upon the unification of Korea, these arms will be used against America.

4. Ri Zai-Ritsu, Communist, former Director of Economic
Dept., Korean League

At last, the expected war broke out. The North Korean Forces are making attacks with irresistible force upon South Korea. Under the present circumstances, all South Korean territory will be occupied by the North Korean Forces in ten days or so, and the fine People's Republic will be established. At present, all Korean people, both South and North, are expecting a peace and unity. The capital of South Korea, Seoul was occupied without blood owing to South Korean soldiers' betray.

When South Korea was unified, we can go and come with each other.

So, kindly treat 600 thousand Koreans in Japan with your love from now on. Speaking about the war of this time, the South Korean Government has done wrong in giving North Korea challenge.

- 3 -

Trend of the Korean Settlement side

1. By Kin Ken-Shun, director of the Financial Bureau of the Gumma-ken Headoffice of the Korean Settlement

Invasion of the North Korea forces is outrageous and defies description. It is very clear that the USSR forces support them directly. It is necessary that America support South Korea absolutely, and if America do not support South Korea rapidly and thoroughly, South Korea will be trampled down by the North Korea. We are not preparing for the illegal action of the former Korean League especially at present, but we must prepare for them, because we don't know when they act illegally. But, fortunately, American units made their action for supporting South Korea, and they say that the morale of the South Korean forces is very high, so we are secure from this problem now, but we must keep strict watch, because USSR is supporting North Korea.

2. Hai Sho-kan, director of Secretariate of Gumma-ken Headoffice of the Settlement

Everyone acknowledges the fact that North Korea caused this war being led by USSR and Chinese Communists.

USSR and the Chinese Communists began to support North Korea presuming the rule of our father land without war and expecting that many insurgents of South Korea rise in riot and betray their country through the surrender propagation after they attack a part of South Korea, but it is not so simple to do so.

South Korea is not so weak as she was presumed, and her forces are fighting bravely. USSR can not withdraw her forces from North Korea, and if USSR forces withdraw, North Korea will leave from USSR undoubtedly. We believe that America will win the final victory, because they are supporting South Korea fully.

The members of the former Korean League are meeting in conference, so we must watch their action strictly. They are blazing, saying that they prepared for a grand meeting, as North Korea rules South Korea within four or five days.

- 4 -

3. Chin Sho-kyu, director of Inspection Bureau of
Gumma-ken Headoffice of the Settlement

We received an information that many persons apply for the volunteers in the Kansai District, but in Gumma-ken, this problem is not yet discussed, but young-men want to be volunteers.

At Kiryu-shi, about twenty persons are well-qualified and they have experience. My eldest son is one of the well-qualified persons. So, if necessary, we can mobilise twenty persons at anytime. But the present progress of the battle changed into advantages, so I think it is not necessary to do so.

4. Rin Hei-fu, member of the Korean Independence
Promotion Youngmen's League, Omama-machi, Yamada-gun

It was informed that the capital of South Korea, Seoul, capitulated at 9:30 a.m. June 27 and the mechanized division of North Korea began to make a triumphal entry into Seoul. As the capital capitulated, the people may be disturbed.

The South Korean forces have the power to repulse the invaders, but unfortunately, as they have a few weapons, they are fighting with their own bodies. I think if America send the weapons before South Korea was attacked, South Korea would not be driven into such a miserable status as they are now, and the nations of the world are watching the American aids to South Korea. So we can say that the America is standing on the cross-roads of credit of the nations in Europe and Asia. America and other countries of the world would not abandon South Korea. President Ri Sho-ban set forth his strong conviction that the South Korean forces will fight to the last if South Korea is captured.

Trend of rightists

1. Toshio Kato, former lieutenant-general, Omama,
Omama-machi, Yamada-gun

I previously thought that USSR would lay bare the design before long, and now the design began to be expressed actually.

- 5 -

The North Korean forces, who become red, invaded into South Korea with the skilful stratagem by leading of the Chinese Communist and USSR, and captured Seoul, capital of South Korea, within ten days. And America began to give aids to South Korea under the name of the United Nations.

I fear that the war will began between America and USSR. But America will not be deceived by USSR. We, Japanese, can not pass the time in idleness and may learn something from the war.

2. Fukuji Tsukagoshi, president of Kyukoku-risho Party, Yashima-cho, Takasaki-shi

As America rose in arms, the war between South Korea and North Korea would not develop any more, but I think if the World War III. burst out, it will begin from Asia and around the 38th Parallel. But America is the country of public opinion, so it shall be impossible to break into a big war at once and, on the contrary, as USSR is an absolute monarchy, the autocrat is ready enough to deal with it one way or another, but USSR forces have no good leader and belief, so it is the question that how long USSR can go on with this war.

3. Shinichi Yanai, Ex-Lt. General, Misato-mura, Sawa-gun

I don't think there is any possibility of the American-Soviet war induced by the Korean Civil War, but a possibility of World War III. depends on only the attitude of America in giving military aids to South Korea.

The present war mean that Soviet took the first step of its plot of the control of the world, and the United Nation is obliged to solve a question of what movement they must make to the present stage. If South Korea comes under the domination of North Korea, it will affect a grave influence on Japan.

- 6 -

A certain ex-Lt. General, his name is not given, is said to have recently left for somewhere with rations for 4 days on having received an information. Anyway, rumor says, that many ex-generals have been called out this time, and it seems that a mobilization program is under plan in accordance with a process of development of the present war. Some of ex-officers, graduates of the former Military College, are eagerly waiting the mobilization orders to be issued. In a word, a true peace shall come only when Formosa, Manchuria and Sakhalien should be returned to Japan.

Trends of Communists

1. Shoji Tajima, chairman of Communist District Committee, Tomioka-machi, Usui-gun

Now the world circumstances turned out to be interesting. The North Korean proclamation of war against South Korea has come out duly with the change of the times. We don't like a war, but America is giving support by both the air and Navy Forces, and as a result of it, there is much possibility to induce World War III. Two hundred thousand odd of Communists have fallen a sacrifice to South Korea, but no suppression can hold back a current of South Korea. We wish to tell Japanese Police that you had better not go the same way as Korea did. I think a lopsided suppression may surely involve Japan into a war.

2. Shinzo Harikono, member of Village Assembly, Hahiyokono-mura, Usui-gun

The Civil War has broken out and the North Korean Army is keeping preponderance. If the invasion of the North Korean Army into South Korea continues, it surely provokes an internal disturbance within South Korea, and Koreans in Japan will split into the North Korean camp and the South Korean camp, and they will conflict each other. If a riot rises in Japan, the Japan Communist Party will give support in revenge of the purge given by Gen. MacArthur. It is clear that the suppression against the Communist Party becomes severer, from the fact America is giving armed support to South Korea.

- 7 -

3. Hiromasa Okawa, Communist, chairman of the Nitta Areal Committee

The Korean Civil War has made a rapid progress and South Korea seems to brought itself to the fatal end. When Gen. Derevyanko suddenly returned home, I couldn't know the reason, but now I knew that his return was for preparation of the war just broke out. The Soviet has so excellent diplomatic talent to conduct a competent action to meet the world trends. Suppression against Communism is called the eve of war, and it is true also this time.

PUBLIC STATEMENT

Early in the morning on 17 July, several officials from the Local Section of the Prefectural Government and a few autonomy policemen came down to the office of the publisher of the "Oyama Mimpo", an organ belonging to the Oyama Committee of the Japan Communist Party to notify that the publication of said organ was placed under suspension. The publication of the "AKAHATA" as well as other organs of the Japan Communist Party have recently been suspended, and at this time organs of the local communistic organizations have also been suspended; the purpose of these suspensions is to prevent the people from learning the truth.

The monopolizing capitalists within and without this country are exerting themselves, acting jointly with the YOSHIDA Cabinet, to colonize and also fortify Japan; as the result the Japanese people are facing with financial difficulties.

The administrating authorities of Takasaki Town are, in compliance with the YOSHIDA Cabinet's traitorous policy, inflicting pains upon the citizens who are making a hard living.

The "Oyama Mimpo" has developed perpetual struggle in favor of the people against the administrators of Takasaki, ever since its first publication. The oppression which is being inflicted upon the liberty of people's speech and thought is as intense as Tojo's militaristic oppression. At this time Japan seems as if she is marching on the road leading to war in favor of a few monopolizing capitalists.

Japanese racial independence is now being threatened and the extraordinary diet is in session to overcome this difficult situation. But Prime Minister YOSHIDA's administrative address was so brief that it took only 16 minutes.

- (1) He is driving Japan into the midst of the critical international conflict which is turning to a third world war.
- (2) The strengthening of the police force will serve only the increase of tax-burdens but be of no use for the welfare of the people. It is quite clear if we reflect on the dark age when militarists were dominant. What pains we suffered is fresh in our memory.
- (3) He is taking an important role in making Japan a base of a war against China. He is quite like a dangerous rabid dog.
- (4) He denounces an overall peace and permanent neutrality as an intrigue of the Communist Party. But it is a serious inconsistency that there is, among his cabinet members, Minister AMANO of the Education Department, who signed on a resolution advocating an overall peace and permanent neutrality and opposing the fortification of Japan.
- (5) He says that the national life has been stabilized. But there are 10,000,000 unemployed. In this Koyama Town, middle and small scale enterprises are more and more distressed and groaning under heavy taxes and laborers are being threatened with discharge, low wage and strengthening of labor. But the town authorities are planning to meet town expenses by loaning money out of your pockets. A loan of Yen 10,000,000 means that every household must offer Yen 2,500 in average. It is clear that it is quite impossible. The town administration has the same nature with a separate peace. Townspeople are sacrificed to pay national expenditures. In this way, villages, towns, prefectures, even state are going to be sold to a foreign country. We must launch a drive to overthrow TAKAHASHI's town administration. For this purpose, it is urgent for us to stage a vigorous movement for the protection of peace and opposition to war. Laborers of Koyama-cho! Real patriots! Let us work under the following slogans!

- (1) Opposition to the fortification and colonization of our country.
